SUPERINTENDENT'S MESSAGE

Dear Los Angeles Unified Community:

Los Angeles Unified is a dynamic organization that continues to evolve in response to the needs of our students and communities. Guided by the strategic vision of our Board of Education, strengthened by unwavering community support, and through the extraordinary dedication of our workforce, the District has:

- Improved academic achievement
- Increased student attendance
- Increased high school graduation and college completion rates

Even with these improvements, Los Angeles Unified continues to navigate significant financial headwinds. We have submitted a qualified budget – an acknowledgment of the economic uncertainty facing public education across California. Declining enrollment, rising costs, and the expiration of one-time federal relief funds are straining our resources. While this budget prioritizes student needs and protects critical programs wherever possible, it also calls for continued discipline, advocacy, and collective responsibility to safeguard the progress we have made.

The 2025-26 budget reflects the hard work of our team and the thoughtful guidance of our Board of Education. It reinforces our commitment to fiscal responsibility while also preparing us for an uncertain economic landscape. Key areas of investment in this budget include:

- The Black Student Achievement Program (BSAP)
- Supports for Transitional Kindergarten
- Workforce Protection
- Arts
- Protection against federal funding uncertainties

These investments are more than just numbers – they represent our unwavering belief in the potential of every student and our dedication to ensuring they have the tools needed to thrive.

While I am confident in our ability to plan, we know the coming years will continue to bring challenges. To ensure we provide high-quality education, we must make thoughtful decisions and, at times, difficult sacrifices. Our goal is to maintain a balanced, sustainable budget that supports academic excellence while minimizing impacts on our workforce and the progress achieved for students.

I want to express my gratitude to everyone who has contributed to shaping and supporting the budget development process. Your commitment to our students and to the success of the District is invaluable.

Together, we will continue to inspire, educate, and empower the next generation of leaders.

Sincerely,

Alberto M. Carvalho, Superintendent

### **Adoption of the Proposed 2025-26 Budget**

**June 17, 2025 (PUBLIC HEARING)**

**June 24, 2025 (ADOPTION)**

Business and Finance Division

#### **Brief Description:**

(Adoption of the Proposed 2025-26 Budget) Recommends adoption of the proposed 2025-26 budget.

#### **Action Proposed:**

Staff seeks authorization for the following actions:

- (1) Adoption of the Proposed 2025-26 Budget to be filed, as approved, with the County Superintendent of Schools on State Form SACS-2025 in the manner prescribed by law.
- (2) Delegation of authority to the Budget Services and Financial Planning Division and the Accounting and Disbursements Division to take all actions necessary to implement the Budget Assumptions and Policies set forth in this Board Report (Attachment B).
- (3) Approval of the enclosed Resolution Regarding Expenditures from the Educational Protection Account (“EPA”) for Fiscal Year (FY) 2025-26 in accordance with the provision of Proposition 30 (Attachment C).
- (4) Delegation of authority to the Chief Financial Officer, Deputy Chief Financial Officer, the Controller, or their designee to make interfund transfers and/or temporary borrowings in accordance with the 2025-26 adopted LA Unified budget and Education Code section 42603. For reference, see Attachment E for a history of interfund transfers.
- (5) Approval of the enclosed Resolution to Commit Funding to Protect Against Federal Uncertainties (Attachment F).

#### **Background:**

Annually, the Board of Education (Board) must hold a public hearing and adopt a budget consistent with the provisions of Education Code Section 42127. Upon adoption, the budget is to be submitted to the Los Angeles County Office of Education (LACOE) on or before July 1.

With the passage of Proposition 30, LA Unified shall receive part of its State entitlement through revenues from the Education Protection Account (EPA). In order to receive these entitlements, the Board must, at an open meeting, make spending determinations regarding EPA funds.

Proposition 30 revenues, extended by Proposition 55 through 2030, are allocated to school districts through the EPA. These are not additional funds outside of the Local Control Funding Formula, but rather another source

of the general purpose funds (similar to local property taxes) that offsets what would otherwise be state funding.

EPA funds may not be used for any salaries or benefits of administrators or any other administrative costs. LA Unified is also required to annually publish on its website an accounting of how much EPA funds were received and how the funds were spent.

Sections 42127 and 52062 of the Education Code require two separate Governing Board public meetings for the Local Control and Accountability Plan (LCAP) and the Budget, one for the public hearing of the LCAP and Budget and a subsequent meeting for the adoption. The LCAP public hearing and adoption must occur at the same meetings as the budget public hearing and adoption.

As required by Senate Bill (SB) 858/751, Attachment D sets forth the minimum reserve level required in each year, amounts of assigned and unassigned ending balance that exceed the minimum, and reasons for the reserve being greater than the minimum.

The interfund transfer and temporary borrowing authorization is an annual request to allow staff to process accounting transactions related to interfund transfers and temporary borrowings. Interfund transfers are made between funds for various purposes, including transfers for debt service requirements. Temporary borrowings are made in situations where LA Unified advances cash from a fund with sufficient cash balance to pay obligations of a fund with insufficient cash balance. Repayments of the cash advances are made within statutory timelines.

**Expected Outcomes:**

The expected outcome is an adopted budget for FY 2025-26 that shall enable LA Unified to comply with Education Code Section 42127. A further expected outcome is adoption of Resolution Regarding EPA expenditures for 2025-26. Additionally, approval of the Resolution to Commit Funding to Protect Against Federal Uncertainties shall ensure funds are used for a specific purpose(s) unless the Board takes subsequent formal action to uncommit the originally imposed constraint. Furthermore, approval of interfund transfers and temporary borrowings authorization shall ensure that interfund transfers and/or temporary borrowings are authorized beginning in July 2025. This will enable LA Unified staff to make required and timely interfund transfers or temporary borrowings in the 2025-26 fiscal year.

**Board Options and Consequences:**

Should the Board adopt the item, approve authorizing the proposed actions, LA Unified will meet the annual budget adoption requirements of Education Code Section 42127.

If the Board does not authorize the proposed actions, LA Unified will not meet the requirements of Education Code Section 42127. Non-approval of the EPA resolution as set forth in Proposition 30, extended by Proposition 55, may place the EPA entitlement at risk. Without approval to commit funding to protect against federal uncertainties, LA Unified will not be able to implement any proposed changes to commitments. Without prior approval to process interfund transfers and temporary borrowings, LA Unified staff will not have the authority to make required and timely interfund transfers and/or temporary borrowings in Fiscal Year 2025-26.

**Policy Implications:**

Adoption of the Proposed 2025-26 Budget, approval of the Resolution Regarding Expenditures from the EPA, approval of the Resolution to Commit Funding to Protect Against Federal Uncertainties, and delegation of

authority to make interfund transfers and/or temporary borrowings shall comply with the Education Code and Governmental Accounting Standards Board (GASB) requirements.

**Budget Impact:**

Adoption of the Proposed 2025-26 Budget.

**Student Impact:**

Compliance with Education Code and GASB requirements ensures that LA Unified shall continue to operate and serve its student population responsibly.

**Equity Impact:**

<b>Component</b>	<b>Score</b>	<b>Score Rationale</b>
<b>Recognition</b>	<b>4</b>	The proposed budget is LA Unified’s plan for the upcoming school year 2025-26 related to anticipated revenues and expenditures for all LA Unified funds with the General Fund being the largest fund. This budget includes Federal, State, and Local resources that are allocated directly to schools based on student needs that are measured by various indicators. Resources are allocated to address student needs. Programs allocated using various needs indicators include, but are not limited to, the Student Equity Needs Index (SENI), Black Student Achievement Plan (BSAP), Arts Program, and Title I.
<b>Resource Prioritization</b>	<b>4</b>	Within the General Fund is the Local Control Funding Formula (LCFF) which is the largest unrestricted source of funding for schools. ## **EXECUTIVE SUMMARY – ADOPTION OF THE PROPOSED 2025-26 BUDGET**

Each year, on or before June 30<sup>th</sup>, the Board adopts a budget for the upcoming fiscal year. The Board is scheduled to conduct a hearing of the 2025-26 Budget on June 17, 2025, and consider its final adoption on June 24, 2025.

The Local Control and Accountability Plan (LCAP) follows the same hearing and adoption period. The Budget and LCAP represent the culmination of public discussions on LA Unified’s instructional priorities and investments.

### **Highlights**

Below are the major highlights for the Proposed 2025-26 Budget:

- Reflection of the Governor’s May Revision which provides a cost-of-living adjustment (COLA) of 2.30% for the Local Control Funding Formula (LCFF) and Special Education AB 602 funding.
- LCFF projected revenue funded on the average of three prior years’ Average Daily Attendance (ADA) as authorized by the 2022-23 Enacted State Budget to mitigate the impact of declining enrollment and attendance.
- Projected ADA based on an assumption of 92% ratio of ADA to enrollment.
- TK Ratio Add-on Funding is estimated based on a per ADA rate of \$5,545 inclusive of COLA and additional funding to lower student-to-adult ratio to 10:1 from 12:1.
- Inclusion of projected revenue from Proposition 28 (The Arts and Music in Schools Funding Guarantee and Accountability Act). LA Unified’s proposed budget reflects \$71.9 million in estimated Prop 28 funding.
- Inclusion of State revenues for the Expanded Learning Opportunities Program (ELO-P) of \$468.3 million, and for the LCFF Equity Multiplier of \$33.0 million.
- Reflection of a \$122.6 million contribution from all funds to the employees’ Other Post-Employment Benefits (OPEB) trust account. An additional OPEB contribution of \$213.1 million to meet the annual required contribution.
- Updated 2024-25 projected Unassigned/Unappropriated General Fund ending balance of \$1,915.1 million in the multi-year projection.
- Projected positive Unassigned/Unappropriated ending balances in Fiscal Years 2025-26, and 2026-27, and a negative ending balance in Fiscal Year 2027-28.
- A transfer from Special Reserve Fund – Noncapital Outlay (Fund 17) of \$17.3 million. The ending balance of Fund 17 is \$575.2 million.

**LA Unified is balanced in 2025-26 and 2026-27, but is projected to have a negative ending balance in 2027-28.**

LA Unified has a structural deficit whereby in-year expenditures exceed in-year revenues. As revenues continue to decrease due to enrollment decline, expenditures have not been reduced proportionately. The 2025-26 Proposed Budget includes the drawdown of one-time fund balance over the multi-year projection. On April 15, 2025, Los Angeles County Office of Education

(LACOE) requested that the District address its deficit spending through submission of a Board-approved Fiscal Stabilization Plan (FSP).

Table I provides a reconciliation of the Unassigned/Unappropriated General Fund ending balances from the Second Interim Report (March 2025) to the Proposed Budget (June 2025).

Table I. Estimated Unassigned/Unappropriated General Fund Ending Balances

<b>Reconciliation from Second Interim to Proposed Budget – March 2025 to June 2025 (Amounts in millions)</b>	<b>2025-26</b>	<b>2026-27</b>	<b>2027-28</b>
Unassigned/Unappropriated Ending Balance at Second Interim (March 2025)	\$ 1,543.5	\$ 325.4	N/A
Changes from Second Interim to Proposed Budget	\$ (93.4)	\$ (310.1)	N/A
<b>Estimated Unassigned/Unappropriated Ending Balance (June 2025)</b>	<b>\$ 1,450.1</b>	<b>\$ 15.3</b>	<b>\$ (1,593.7)</b>

Attachment D of the board report lists the estimated Assigned ending balances for 2025-26 through 2027-28.

The net changes from Second Interim to Proposed Budget are due to the following:

- Decrease in LCFF revenues due to lower COLA and reduced TK Ratio Add-on Funding rate per ADA as changes from the 2025-26 May Revision.
- Increase in projected interest income due to higher average daily cash balance from previous estimates.
- Special Reserve Fund- Noncapital Outlay (Fund 17) at 5% of total expenditures and other financing uses.
- Restoration of positions.
- Lower debt service due to Certificates of Participation (COPs) partial defeasance.
- Lower projected ongoing expenditures from continuous budget analysis.
- Updates to contributions to Routine Repair and Maintenance Account (RRMA) and Reserve for Economic Uncertainties (REU) to meet statutory requirements.

**Next Steps**

Governor Newsom presented the 2025-26 May Revision with a balanced state budget of \$322 billion on May 14, 2025, which included closing a \$12 billion budget shortfall due to the combined effect of lesser revenue mostly from capital gains and expenditure growth mainly from Medi-Cal. The revised budget addressed the \$12 billion deficit from a combination of reductions, borrowing, and fund shifts in solutions. The 2025-26 May Revision Budget provided 2.30% COLA and Proposition 98 minimum funding of \$114.6 billion. While ongoing school programs were protected from cuts, the education budget has worsened as well since January just like the state budget. Proposition 98 revised levels decreased by \$4.6 billion across the three-year budget window, a deferral of \$1.8 billion from June 2026 to July 2026 to fully fund LCFF, and zero balance of the Proposition 98 Rainy Day Fund by 2025-26. The Legislature has until June 15 to pass the budget after which the budget is sent to the Governor for his signature. Updates to the Board of Education shall be provided to reflect provisions of the 2025-26 Enacted State Budget and trailer bills.

### **Ending Balance Reserve Requirements**

Beginning in 2015-16, LA Unified must determine the minimum reserve level amounts of estimated assigned and unassigned ending balances that exceed the required minimum under Senate Bill (SB) 858/751. LA Unified must also state reasons for the reserve being greater than the minimum.

Assigned ending balances for General Fund School Allocation and School Site Program Carryover categories are the main accounts that school sites use for their local needs. Assigned ending balances for Districtwide costs include set-asides primarily for school resources.

The committed balance for Other Commitments is to set-aside funds to protect against Federal uncertainties.

Balances in Fund 17, Special Reserve for Other Than Capital Outlay Projects, reflect LA Unified's 5% local reserve. This newly-created board-approved fund increases transparency by reporting reserve balances separately.

The Unassigned/Unappropriated balances are amounts that could be used for any Board approved purposes and have not been designated for a specific use. The Unassigned/Unappropriated ending balance of \$1,450.1 million in 2025-26 is a factor in balancing 2026-27 and 2027-28.

LA Unified's Proposed 2025-26 Budget meets reserve requirements in fiscal year 2025-26 and 2026-27, but projected to not meet the minimum reserve requirement in fiscal year 2027-28. A Fiscal Stabilization Plan will be submitted as a separate board item to address the deficit in fiscal year 2027-28.

**LOS ANGELES UNIFIED SCHOOL DISTRICT**  
**BOARD OF EDUCATION**

**RESOLUTION TO COMMIT FUNDING TO PROTECT AGAINST FEDERAL**  
**UNCERTAINTIES IN THE 2025-26 FISCAL YEAR**

WHEREAS, the Governmental Standards Accounting Board (GASB) issued Statement No. 54 (GASB 54), establishing the category of committed fund balance;

WHEREAS, the Los Angeles Unified School District (Los Angeles Unified) is required to comply with GASB 54 reporting requirements;

WHEREAS, the committed fund balance classification reflects amounts subject to specific internal constraints self-imposed by the Los Angeles Unified Board of Education.

WHEREAS, once the committed fund-balance constraints are imposed, it requires the constraint to be revised, removed, or redirected for other purposes by the Los Angeles Unified Board of Education in the same manner as the Board of Education originally approved the commitment;

WHEREAS, the Los Angeles Unified Board of Education has determined that there are specific student needs and services that it elects to fund in the 2025-26 school year with portions of its General Fund ending fund balance; and

WHEREAS, proposed cuts to federal funding may disproportionately impact the District’s highest need populations, including but not limited to, eliminating federal support for English language learners, and ending investments in educators and other school staff such as school-based mental health professionals.

WHEREAS, proposed cuts to federal funding for Fiscal Year 2025 and Fiscal Year 2026 may not be known until the 2025-26 school year is underway, thus creating uncertainty on the continuation of academic and other supports for students.

NOW, THEREFORE, BE IT RESOLVED, that the Los Angeles Unified School District Board of Education, hereby commits to utilizing portions of its general fund ending balance, as indicated by the committed fund classification in its financial statements, for the following purposes:

Purpose	Justification	Estimated Amounts (in millions)
Commit funding to protect against Federal funding uncertainties	One-time Funds set aside for Fiscal Year 2025-26 to protect against Federal funding uncertainties	\$46

BE IT FURTHER RESOLVED, that such funds cannot be used for any purposes other than directed above, unless the Board of Education adopts a successor resolution to revise or remove the constraint, or otherwise redirect the funds for other purposes.

### Adoption of the Proposed 2025-26 Fiscal Stabilization Plan

Business and Finance Division

#### **Brief Description:**

(Adoption of the 2025-26 Fiscal Stabilization Plan) Recommends adoption of the 2025-26 Fiscal Stabilization Plan as required by the Los Angeles County Office of Education to address the District's qualified budget status as stated in the 2025-26 proposed budget.

#### **Action Proposed:**

Adoption of 2025-26 Fiscal Stabilization Plan (FSP), as shown in Attachment A, to address the District's proposed budget with a qualified budget status as required by the Los Angeles County Office of Education (LACOE) in their oversight function for the state.

#### **Background:**

LA Unified currently has a structural deficit whereby in-year expenditures exceed in-year revenues. As revenues continue to decrease due to enrollment decline and loss of one-time COVID funds, expenditures have not been reduced proportionately. The 2025-26 proposed budget includes the drawdown of one-time fund balance over the multi-year projection due to continued deficit spending. The proposed budget includes a projected deficit of \$1.6 billion for Fiscal Year (FY) 2027-28 of operating funds which indicates a lack of going concern. On April 15, 2025, LACOE requested that LA Unified address its deficit spending through the submission of a Board-approved FSP. The FSP must identify specific expenditure reductions and/or revenue enhancements with associated cost savings and timelines to balance the budget prior to FY 27-28.

#### **Expected Outcomes:**

Adoption of the 2025-26 FSP, which outlines LA Unified's plan to address its projected \$1.6 billion deficit for Fiscal Year 2027-28, in compliance with LACOE's oversight responsibility on behalf of the state.

#### **Board Options and Consequences:**

Should the Board adopt the FSP, LA Unified will commence implementation to address its projected deficit spending. Reductions outlined in the FSP are expected to begin in FY 2026-27 and continue through FY 2027-28. During FY 2025-26, staff will outline specific action steps to implement the FSP and update the Board of its progress at each interim projection. Pending updates at the interim projections, amendments to the FSP may be proposed to the Board.

If the Board does not adopt the proposal, the FSP will not be implemented, and LA Unified will report a negative unrestricted unassigned ending balance in FY 2027-28. As a result, LACOE will issue a conditional approval of the District's 2025-26 Final Budget and require an FSP with their oversight and approval. Conditional approval means that the County Superintendent may approve the District's 2025-26 Final Budget on the condition that it take specific actions to remedy deficiencies in the multi-year projections.

**Policy Implications:**

Adoption of the Fiscal Stabilization Plan shall comply with LACOE’s oversight responsibility on behalf of the state.

**Budget Impact:**

Adoption of the 2025-26 Fiscal Stabilization Plan, which if implemented as proposed over the next three years, will fully address LA Unified’s projected \$1.6 billion deficit.

**Student Impact:**

Adherence to LACOE’s oversight responsibility ensures that LA Unified shall continue to operate and serve its student population responsibly.

**Equity Impact:**

<b>Component</b>	<b>Score</b>	<b>Score Rationale</b>
<b>Recognition</b>	<b>3</b>	The Fiscal Stabilization Plan recognizes that student needs should be carefully considered when proposing any reductions to the District’s expenditures.
<b>Resource Prioritization</b>	<b>2</b>	The Fiscal Stabilization contains proposed reductions and aims to avoid detriment to the District’s most vulnerable student populations.
<b>Results</b>	<b>2</b>	The Fiscal Stabilization Plan includes proposed reductions and aims to avoid detriment to student needs.
<b>TOTAL</b>	<b>7</b>	

**Issues and Analysis:**

The proposed FSP includes the reduction of the Board of Education approved Fund 17 by 10% (approximately \$50 million) in the 2026-27 Fiscal Year. As noted above, during FY 2025-26, staff will outline specific action steps to implement the FSP and update the Board of its progress at each interim projection. If, based on 2025-26 interim projections, the proposed reduction to Fund 17 continues to be necessary to address the District’s projected \$1.6 billion deficit, a resolution for adoption will be presented to the Board to transfer funds from Fund 17 to the General Fund.

## FISCAL STABILIZATION PLAN

Name of School District:	<u>Los Angeles Unified School District</u>
The proposed agreement covers the period beginning:	<u>July 1, 2025 to June 30, 2026</u>
Governing Board approval date:	<u>6/17/2025</u>

*Note: The instructions for completing the Fiscal Stabilization Plan (FSP) follow the template.*

### 1. General Summary

***Provide an overview of the district's current financial situation and the main objectives of the Fiscal Stabilization Plan.***

The Los Angeles Unified School District (LAUSD) currently has a structural deficit whereby in-year expenditures exceed in-year revenues. As revenues continue to decrease due to enrollment decline and loss of one-time COVID funds, expenditures have not been reduced proportionately. The 2025-26 proposed budget includes the drawdown of one-time fund balance over the multi year projection (continued deficit spending). The proposed budget includes a projected deficit of \$1.6 billion for fiscal year 2027-28 of operating funds. The Los Angeles County Office of Education (LACOE), on April 15, 2025, sent a letter to the LAUSD that requested the LAUSD address its deficit spending through submission of a Board of Education-approved Fiscal Stabilization Plan (FSP). A Board of Education-approved FSP must identify specific expenditure reductions and/or revenue enhancements with associated cost savings and timelines to balance the budget prior FY 2027-28.

### 2. Implementation and Monitoring

***Describe how the district will implement the Fiscal Stabilization Plan and monitor the financial impact of each action.***

If approved by the Los Angeles Unified Board of Education on June 17, 2025, the LAUSD will implement the attached FSP that clearly delineates the actions the LAUSD will take to balance its projected deficit. The LAUSD, through State of California required reporting, will update the Board of Education and public of LAUSD's financial status through interim reporting and the 2026-27 budget adoption. Should the Board adopt the FSP, LA Unified will commence implementation to address its projected deficit spending. Reductions outlined in the FSP are expected to begin in FY 2026-27 and continue through FY 2027-28. During FY 2025-26, staff will outline specific action steps to implement the FSP and update the Board of its progress at each interim projection. Pending updates at the interim projections, amendments to the FSP may be proposed to the Board. Furthermore, the LAUSD will be launching budget transparency tools on July 1, 2025 which will enable the public to view the LAUSD and school site budgets so they may be informed of spending trends and investments.

GENERAL FUND MULTI-YEAR PROJECTION

AB 1200 (Chapter 1213/1991) and AB 2756 (Chapter 52/2004) were enacted in response to near bankruptcies of a number of school districts, an increase in requests for state emergency loans, and an increase in financial distress. As a result, school districts are required to submit a Multi-Year Projection (MYP) of the General Fund that includes the current fiscal year and two subsequent fiscal years. The MYP is considered by the Los Angeles County Office of Education (LACOE) as part of its fiscal solvency review process.

The MYP is a mathematical result of today's decisions based on a given set of assumptions. LACOE provides the District with guidelines on what assumptions to use for items such as, but not limited to, the cost-of-living adjustment (COLA) for Local Control Funding Formula (LCFF) revenue and employer rates for pension systems. The assumptions are expected to change as the various factors change at the State, Federal, and local levels. The assumptions are listed in the Budget Assumptions and Policies pages of the Board Report.

It is important to note that the MYP is not a forecast or prediction, for which there is a higher implied reliability factor. While the terms "forecast" and "projection" are sometimes used interchangeably, there is a difference between them.

The American Institute of Certified Public Accountants (AICPA) define the terms as follows:

**Forecast.** Prospective financial statements that present, to the best of the responsible party's knowledge and belief, an entity's expected financial position, results of operations and cash flows. A financial forecast is based on the responsible party's assumptions reflecting the conditions it expects to exist and the course of action it expects to take.

**Projection.** Prospective financial statements that present, to the best of the responsible party's knowledge and belief, given one or more hypothetical assumptions, an entity's expected financial position, results of operations and cash flows.

The main difference between forecast and projection comes down to the nature of the assumptions. A forecast uses assumptions that represent expectations of actual future events. A projection, which is the MYP, uses assumptions that include guidelines from an oversight agency like LACOE that may or may not happen.

**SUPPORT PERSONNEL ALLOCATIONS FOR FY 2025-2026**

**Custodial Personnel – TK – 12 Schools**

Custodial Personnel allocations for TK-12 schools are based on a combination of factors, mainly space (square footage of different types of areas) and student enrollment. For most TK - 12 schools, allocations are based on the following:

- The minimum staffing allocation for a TK-12 school is 16 hours and each school is allocated a Plant Manager within the allocation. Schools may also be allocated an Assistant Plant Manager based on the number of custodial hours on the night shift. The Plant Manager level is determined by the size of the campus. The placement of an Assistant Plant Manager as well as the levels of both the Plant Manager and Assistant Plant Manager can only be changed after review by Personnel Commission.
- Square footage area of interior space and exterior area hardscape and planted areas are used to determine a time value to clean the spaces daily.
- An Enrollment factor of .41 minute per enrolled student is allocated.
- Custodial time is rounded to the nearest 4-hour increment to determine the amount of staffing budgeted for the school site.
- High schools and middle schools are also allocated C – basis School Facilities Attendant(s) whose main duty is to service restrooms and provide other miscellaneous duties within their job classification description when the school is in session.
- Pool custodians will be assigned to the Maintenance and Operations (M&O) Areas and will service schools’ swimming pools in their respective M&O areas.
- Custodial allocations are also augmented based on enrollment at schools using the criteria below. These criteria and allocations are subject to change based on availability of funds in Program 11694 Operations-school positions.
  - Elementary schools with an enrollment greater than 606 students that are allocated 16 hours of custodial time will receive an additional 4-hour custodial allocation.
  - Middle schools with an enrollment greater than 1,744 will receive an additional 4-hour custodial allocation.

**Custodial Personnel – Special Education Centers and Special Education Program in TK-12 Schools**

Custodial staffing allocation for Special Education Centers and for combined special education and traditional school sites is first calculated like a traditional site. Custodial staffing hours may be added to site allocation due to:

- Special Education allocation rules below also apply to traditional schools with 500 or greater enrollment
- Traditional sites or stand-alone special ed sites with 5 or greater classrooms designated for students in the following programs: PCC, PAL, PSC, AUT, IDS, MDS, IDM, MD, EE, VI, and DHH (page II-22).

- The following allocations will be made to the sites described above:
  - 4 custodial hours if using 5-12 classrooms for designated programs
  - 8 custodial hours if using 13-17 classrooms for designated programs
  - 12 custodial hours if using 18-23 classrooms for designated programs
  - 16 custodial hours if using 24-29 classrooms for designated programs
  - 20 custodial hours if using 30 or more classrooms for designated programs

### **Custodial Personnel – Option Schools**

Custodial allocations for continuation schools, opportunity schools, community day schools, and independent study schools are calculated similarly to TK-12 sites subject to the following guidelines:

- Continuation schools, opportunity schools, community day schools, and independent study schools are often contained within a larger TK-12 campus. For these sites, enrollment and square footage values are included in the main site’s allocation.
- The continuation school, opportunity schools, community day school, or independent study school program contribute funding based on the size of the area used on the main campus. The time apportioned to the continuation schools, opportunity schools, community day schools, or independent study schools and the funding program are included on the main site’s custodial allotment sheet.

When a continuation school, opportunity school, community day school, or independent study school is not co-located with a larger campus, custodial allocation is calculated similarly to a typical TK-12 school site.

### **Custodial Personnel – Adult Education Sites**

Custodial allocations for Adult Education sites are calculated similarly to TK-12 sites. Stand-alone Adult Education sites are assigned to a team cleaning group consisting of an appropriate level plant manager and an assistant plant manager as needed. The Division of Adult Education funds custodial staffing for these sites. When Adult Education uses a portion of a larger host campus, the Adult Education custodial team assigned to the Adult Ed centers in that area will provide custodial services for the campus areas used, in coordination with the site’s plant manager and administrator. No additional custodial hours will be added to the host school site allotment, as the Adult Ed custodial team will provide needed custodial support.

### **Campus Aides**

Campus aides are allocated to provide a range of three (3) to eight (8) hours of supervision support to schools subject to review and approval by Regions and District Operations based upon security considerations.

**Teacher Librarians**

Per the District - UTLA agreement of January 2019 (part of the settlement of the UTLA work stoppage), the District funds a full-time Teacher Librarians (TL) for all secondary schools, including SPAN schools. The agreement allowed a two-year period for implementation (2019-20 and 2020-21 school years). K-8 SPAN schools are included in this agreement. Each secondary school receives a one (1.0) position. For shared sites, the funding for the 1.0 position is divided among the schools sharing the site. The schools then pool the funding to purchase the 1.0 TL position. The funding provided for the Teacher Librarian position may not be repurposed.

**School Nurses**

Mandated health requirements must be met. Once the District’s minimum requirements are budgeted in Program 10529-School Nurse, additional categorical supplemental resources may be purchased to supplement, not supplant. Each school will receive a full-time School Nurse allocation as required by the UTLA contract.

However, in the event of a nursing staff shortage, schools may not receive the entirety of their School Nurse time, and District Nursing Services will have the discretion to prioritize nursing time based on students’ health needs. While every effort will be made to minimize changes to the nursing allocation to schools, student health needs criteria will determine the priority for nursing services in the event of a staffing shortage, therefore resulting in possible changes during the school year. These funds should not be used for activities such as health office management or to provide services that can be assigned to trained unlicensed staff. Schools may purchase additional nursing time from their budget based on the health needs of their students.

There is no flexibility allowed on this resource.

**School Psychologists**

The District has allocated resources to your school in Program 13042 to provide School Psychologist support services. Allocations are calculated by school type according to the table below:

School Type	Allocation
Elementary Schools	.35 day/week or .07 FTE
Middle Schools	.50 day/week or .10 FTE
Senior High Schools	.60 day/week or .12 FTE

Los Angeles Unified School District

2025-26 BUDGET

In addition, **schools** will receive allocations for School Psychologists from Special Education and General Education funds. **Allocations for School Psychologists are based on projected E-CAST enrollment and will not be updated after Norm Day enrollment counts.** The table below provides an estimated allocation for School Psychologist allocations based on enrollment. **Allocations can vary based on student needs.**

**Pupil Services and Attendance (PSA) Counselors**

Schools purchase Pupil Services and Attendance Counselors based on their need for support with student attendance and funding ability. Starting July 1st, 2024, schools with chronic absentee rates of 35% or higher will receive a half-time allocation (.50 FTE) of a Pupil Services and Attendance Counselor (PSA) as required by the UTLA contract.

Black Student Achievement Plan PSA Counselors are allocated to BSAP group 1 and 2 elementary schools and span schools that have elementary grade levels. Each school will receive one (1.0) FTE.

There is no flexibility allowed on this resource.

**Psychiatric Social Workers (PSW)**

Beginning 2024-25 school year, schools with enrollment of 600 students or more will receive a full-time Psychiatric Social Worker (PSW), and schools with enrollment of 1,200 or more will receive an additional PSW allocation (2 FTEs total), as required by the UTLA contract.

In addition, the Black Student Achievement Plan (BSAP) includes one full-time PSW allocation for all BSAP Group 1 schools. As such, each BSAP Group 1 school will receive a minimum of one (1.0) FTE.

There is no flexibility allowed on this resource.

**BLACK STUDENT ACHIEVEMENT PLAN**

The Black Student Achievement Plan (BSAP) provides supplemental services and supports to schools that have a high number of Black students and high need indicators, specifically Math and English Language Arts proficiency rates below the District average, higher than average referral and suspension rates, or are identified as a Humanizing Education for Equitable Transformation (HEET) school.

The Black Student Achievement Plan is aligned to the following tenets:

- a. Black families, community partners and district together as one
- b. Culturally and linguistically responsive pedagogy and curriculum
- c. Multi-tiered Individual Student Support
- d. Rigorous Standards Aligned Education
- e. Black Excellence Experience

The goals of the Black Student Achievement Plan are to:

- a. Ensure instruction and curriculum are culturally responsive to Black students and provide additional tier 1 support and intervention to students, to close literacy and numeracy skill gaps
- b. Work with community groups and partners that have demonstrated success with Black students and families to improve college and career readiness
- c. Reduce over-identification of Black students in suspensions, discipline, and other measures through targeted intervention to address students’ academic and social-emotional needs

Humanizing Education for Equitable Transformation (HEET) resources are intended to meet the academic and social-emotional needs of students at the targeted 16 HEET schools, in addition to BSAP Group 1 or 2 Schools, that are also Priority Schools.

The goals of the HEET initiative include the following:

- a. Stabilizing the teaching and administrative faculty for increased continuity and consistency of learning objectives
- b. Providing essential out-of-classroom support such as counselors, support coordinators, etc.

**CALIFORNIA COMMUNITY SCHOOLS PARTNERSHIP PROGRAM (CCSPP)**

The California Community Schools Partnership Program (CCSPP) Implementation Grant supports the implementation of the Community Schools strategies. These strategies help mitigate the academic and social impacts of emergencies that affect local communities, improve school responsiveness to student and family needs, and organize school and community resources to address barriers to learning. Funding may be used in support of Community Schools' four evidence-informed programmatic features, which include:

- Integrated support services
- Family and community engagement
- Collaborative leadership and shared decision-making
- Expanded/Enhanced learning time and opportunities

The CCSPP grant is utilized for regular certificated assignments and supplemental salaries, teacher differentials, and classified overtime to support attendance for optional school training and other community school activities. Additional funding is for itinerant salaries to support integrated support services. Conference attendance and contract services aim to provide learning opportunities for community schools.

The CCSPP grant (\$47M) Cohort 1 was awarded to 31 schools and ends June 30, 2027. Year 4 of the program (Cohort 1) includes \$8.91M for schools. Cohort 2 (\$30M) was awarded to 23 schools and ends June 30, 2028. Year 3 of the program (Cohort 2) includes \$6.03M to schools. Cohort 3 (\$8.5M) was awarded to 7 schools and ends June 30, 2029. Year 3 of the program (Cohort 3) includes \$1.7M to schools. Additional funds from Cohorts 1-3 will be spent down in future years. DESCRIPTION OF FUNDS

California State law requires school districts to organize their financial reporting by “fund”. The California School Accounting Manual (CSAM), which governs school district budgeting and accounting processes in California, defines “fund” as an accounting entity with a self-balancing set of accounts recording financial resources and liabilities. It is established to carry on specific activities or to attain certain objectives of a Local Educational Agency (LEA) in accordance with special regulations, restrictions, or limitations. (Section 101, December 1998).

LEAs such as the Los Angeles Unified School District are required to budget by fund. The Final Budget is comprised of a General Fund and 23 special funds. The uses of these funds are summarized below.<sup>1</sup>

OPERATING FUNDS

*Fund 010: General Fund* is used to account for the basic instructional, support, and administrative operations of the District. The General Fund includes services to regular K-12 schools, the special education program, and other programs. The General Fund supports and accounts for both restricted and unrestricted funding sources and expenditures. The restricted sources are summarized in the Restricted General Fund section of this document.

*Fund 110: Adult Education Fund* is used to account separately for federal, state, and local revenues for adult education programs, as well as for expenditures that support this program. Expenditures in the Adult Education Fund are limited to those for adult education purposes. Moneys received for programs other than adult education may not be expended for adult education purposes (Education Code §52616[b]).

*Building Funds* exist primarily to account for proceeds from the sale of bonds (Education Code §15146). Expenditures are most commonly made against Object 6000 – Capital Outlay accounts. As the result of the passage of multiple bond elections, the District operates six separate Building Funds.

*Fund 210: **Building Fund – Measure R*** accounts for the proceeds resulting from the passage of Measure R, a local school bond measure approved by the voters in March 2004, for new school construction and repairs to existing schools.

*Fund 211: **Building Fund – Proposition BB*** accounts for the proceeds resulting from the passage of Proposition BB, a local school bond measure approved by the voters in April 1997 for construction of new schools and repair and modernization of existing schools.

*Fund 212: **Building Fund*** accounts for proceeds from the sale of bonds prior to 1997, as well as state allowances and other resources designed for facilities expansion.

*Fund 213: **Building Fund – Measure K*** accounts for the proceeds resulting from the passage of Measure K, a local school bond measure approved by the voters in November 2002, for new school construction and repair and modernization of existing schools.

*Fund 214: **Building Fund – Measure Y*** accounts for the proceeds resulting from the passage of Measure Y, a local school bond measure approved by the voters in November 2005, for school construction and modernization, with the goal of returning all schools to a traditional calendar.

*Fund 215: **Building Fund – Measure Q*** accounts for the proceeds resulting from the passage of Measure Q which was a local school bond measure approved by the voters in November 2008 to fund critical repair and safety needs, create science labs and other specialized classrooms necessary to teach courses that would help students get into college or start careers after they graduate, and help create classrooms that are up to date in technology and high speed internet.

*Fund 216: **Building Fund – Measure RR*** accounts for the proceeds resulting from the passage of Measure RR, a local school bond measure approved by the voters in November 2020, for school upgrades and safety measures.

*Fund 217: **Building Fund – Measure US*** accounts for the proceeds resulting from the passage of Measure US, a measure approved by the voters in November 2024, for local school upgrades and safety measures.

*Fund 250: **Capital Facilities Account Fund*** accounts for resources received from school impact fees levied upon new residential, commercial, or industrial development projects within the District's boundaries. The dollars are used to obtain funds for the construction or acquisition of school facilities to relieve overcrowding.

DESCRIPTION OF FUNDS

**Fund 300: State School Building Lease-Purchase Fund** accounts for state apportionments received in accordance with California Education Code §17700-17780, primarily for relief of overcrowding.

**Fund 351: County School Facilities Fund** account for revenues and expenditures resulting from building projects funded primarily or in part from state bond elections or from matching funds. The District used to operate four separate County School Facilities Funds. In 2013-14, these four funds shown below were consolidated into one single County School Facilities Fund.

*County School Facilities Fund - 1A* accounts for school construction and modernization funds received from proceeds resulting from the passage of Proposition 1A in 1998, as well as for local matching funds.

*County School Facilities Fund – Proposition 47* accounts for apportionments received from the State School Facilities Fund. The passage of Proposition 47 in November 2002 authorized the sale of bonds for new school facility construction, modernization projects, and facility hardship grants.

*County School Facilities Fund – Proposition 55* accounts for the matching funds received as a result of the passage of Measure R. Proposition 55 was passed by the voters in March 2004.

*County School Facilities Fund – Proposition 1D* provides funding from the Kindergarten-University Public Education Facilities Bond Act of 2006. Proposition 1D was approved by the voters in the November 2006 general election. Funds provide additional dollars for existing school facilities programs. Funds also provide new dollars for seismic mitigation of the most vulnerable school facilities, creation of career technical education facilities, reduction of severely overcrowded sites, and incentives for the construction of high-performance “green” schools.

*County School Facilities Fund – Proposition 51* provides funding through the Kindergarten Through Community College Public Education Facilities Bond Act of 2016. Approved by voters in the November 2016 general election, Proposition 51 supports the new construction and modernization of K–12 public schools, the development of career technical education facilities, seismic upgrades for the most vulnerable school buildings, and charter school projects. It also funds infrastructure improvements at California Community Colleges. The proposition was established to improve the safety, capacity, and overall quality of educational facilities throughout the state.

*County School Facilities Fund – Proposition 2* provides funding through the Kindergarten Through Grade 12 Schools and Local Community College Public Education Facilities Modernization, Repair, and Safety Bond Act of 2024, which was approved by voters in the November 2024 general election. The measure supports the modernization and new construction of K–12 public schools, upgrades to career technical education and transitional kindergarten facilities, and improvements to classroom safety and infrastructure. It expands financial hardship grants for small and disadvantaged school districts and increases state matching funds for those with the greatest need. Proposition 2 was established to improve equity, access, and the overall quality of educational facilities throughout the state.

SOURCES AND USES OF FUNDS

SOURCES OF FUNDS

**Beginning Balance** This section of the financial statements basically reflects the ending balance of the prior year. In addition, it may include adjustments due to audit or restatements of amounts.

**Revenue** This section entails the various types of revenues received. They are classified based on the source of funds such as the Local Control Funding Formula, federal, state, and local revenues. For example, entitlements or grants coming from the federal government such as the Federal IDEA and Title I are included under federal revenues; while entitlements or grants coming from the state such as the Special Education funding AB 602 is included in the state revenues. It may also include inter-fund transfers-in from other funds.

USES OF FUNDS

**Expenditure** This section reflects the amounts of funds spent or to be spent based on the type of expenditure which are called the objects of expenditures. These may be certificated and classified employees' salaries, employee benefits, books and supplies, contracts, and capital outlay. It may also include inter-fund transfers-out to other funds.

The district policy pertaining to the staffing at district schools for most certificated and clerical personnel is based on recommended staffing tables that take into account student enrollment, school type, student needs and other school characteristics.

The chart on the next page provides a historical comparison of teacher to student staffing ratios by school type and integration status.

**DISTRICT ENROLLMENT TRENDS**

This section provides information and data related to the number of students served in the district schools.

To project enrollment, the Los Angeles Unified School District uses data on live births in Los Angeles County, historical grade retention rates, and other relevant information. The grade retention ratios measure the percentage of students expected to progress to the next grade level from one year to the next based on past trends. Estimated enrollments in grades 1 through 12 are calculated based on a variety of scenarios using weighted and true averages overtime. Kindergarten enrollments are calculated as a percentage of live births in Los Angeles County from five years earlier. Transitional Kindergarten enrollments are calculated as a percentage of live births in Los Angeles County from four years earlier.

Enrollment peaked in 2002-03 at 746,831 and has declined each year since. This is due to several factors, including the reduced birth rate in Los Angeles County and the increasing cost of living in southern California.

Declining enrollment affects both revenue and expenditures. However, declining enrollment typically causes a more rapid decline in revenue after the first year. This is because declining enrollment districts are essentially “held harmless” for the decline from the previous year. Another contributing factor to the change in revenue and expenditures is the increase in students enrolled in fiscally independent charter schools.

The enrollment projections differentiate between students in fiscally independent charter and non-charter district schools. This helps the district estimate the impact of fiscally independent charter schools on the district’s budget. The fiscally independent charter school data include both schools that have converted from non-charter to fiscally independent charter school status (“conversion charters”) and schools that began their operation as fiscally independent charter schools (“start-up charters”).

## 2025-26 BUDGET

The chart below shows the district enrollment trends for the past decade. The chart depicts the increase in the number of students enrolled in the independent charter schools in contrast with the decline in the district enrollment in TK-12 schools up to fiscal year 2020-21. Beginning fiscal year 2021-22 enrollment trends show a decline in fiscally independent charter schools and district schools.

Beginning in 2019-20 school year, the California Department of Education transitioned from CASEMIS to California Longitudinal Pupil Achievement Data System (CALPADS) for special education data collection and reporting. Enrollment data in CALPADS is as of Census Day, the first Wednesday in October. The Multiple Disabilities (MD) category was added beginning 2022-23 school year. Established Medical Disability (EMD) enrollment data is included with Other Health Impairment (OHI).

**THE TOTAL BUDGET**

The funds are categorized and grouped based on the use of the funds as follows:

1. **Operating Funds**, as discussed further below, is composed of the General Fund, Special Reserve Fund for Other than Capital Outlay, Adult Education Fund, Child Development Fund, and Cafeteria Fund. The total Operating Funds for fiscal year 2025-26 is \$12,507.29 million. These funds are used for the day-to-day operation of LAUSD schools and offices.
2. **Capital Projects Funds** total \$3,353.12 million and account for the acquisition, construction, or upgrade of facilities. The funding comes primarily from the sale of voter-approved bonds. These funds may not be used for the general day-to-day operations, as voters approved them for specific capitalized projects which will benefit current and future students.
3. **Internal Service Funds** total \$1,704.61 million and are used for the payment of employee health and welfare benefits, workers' compensation, and liability insurance. Most funds accumulated in the Internal Service Funds come from funds generated by positions funded in the other funds. For example, *the cost of a teacher's health and welfare benefits* funded by the General Fund is transferred from the General Fund to the Health and Welfare Fund, which is one of the Internal Service Funds.
4. **Debt Service Funds** total \$1,227.17 million and are used for the payment of interest and principal of long-term bonds.
5. **Fiduciary Fund** totals \$0.65 million and is composed of the Other Post-Employment Benefit (OPEB) Fund. This fund is dedicated to the health and welfare benefits of future retirees of LAUSD.
6. **Special Revenue Fund** totals \$36.76 million and is composed of the Student Body Fund.

**Figure 1: 2025-26 TOTAL BUDGET (ALL FUNDS) = \$18.8 BILLION**  
(amounts in millions)

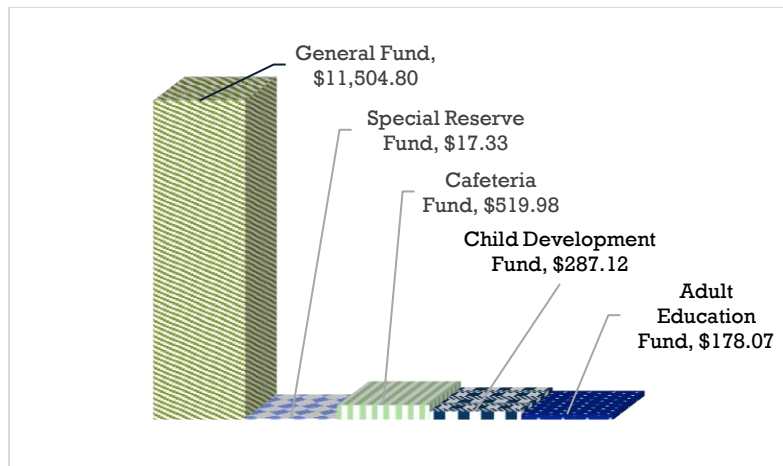

OPERATING FUNDS

As shown on the hierarchy of funds, the Operating Funds category is broken down into the following five individual funds:

1. **General Fund** - \$11,504.80 million includes funds for the basic instructional and administrative expenditures of the District
2. **Special Reserve Fund for Other Than Capital Outlay** - \$17.33 million includes transfer to General Fund
3. **Cafeteria Fund** - \$519.98 million includes funds for the food service programs
4. **Child Development Fund** - \$287.12 million includes funds dedicated for the operation of the Early Childhood Education program
5. **Adult Education Fund** - \$178.07 million includes funds dedicated for the operation of the Adult Education program.

An instructional program, such as the Early Childhood Education (Child Development Fund), may cost more than the revenue it generates. Therefore, support from the General Fund may be necessary.

**Figure 2: 2025-26 OPERATING FUNDS AUTHORIZED  
BUDGET = \$12.5 BILLION**

**GENERAL FUND**

The \$11.5 billion General Fund includes “unrestricted” and “restricted” funds.

- Unrestricted General Fund – These are funds such as the Local Control Funding Formula (LCFF) Base, Supplemental, and Concentration Grants, and one-time Mandated Cost Block Grants that can be used for any general-purpose expenditure.
- Restricted General Fund – These are funds such as the AB 602 Special Education and Title I funds that must be used for specific purposes.

The General Fund is further broken down into major groups as shown below.

General Fund	Unrestricted	Restricted
General Fund School Program	●	
Proportionality Programs	●	
General Programs	●	
Special Education Programs		●
Ongoing and Major Maintenance Account		●

Some programs within the General Fund may also need support. An example is the Special Education Program which is subsidized by the General Program (unrestricted). The support for the Special Education Program from the General Program is called an “inter-program transfer,” where the transfer of funds occur between programs within the General Fund.

HOW EDUCATION IS FUNDED IN CALIFORNIA

Prior to the 1970s, California's schools were financed largely with property tax revenues imposed for the benefit of local school districts. This led to dramatic differences in school district funding. A school district with very high property values could raise more revenue per pupil with a low property tax rate, while a district with low property values could raise less with a much higher property tax rate. The state attempted to reduce these differences by providing more state aid to low-property wealth districts. Despite this effort, per pupil revenues varied considerably between districts. In fiscal year 1968-69, for example, per pupil expenditures ranged from \$577 in Baldwin Park to \$1,232 in Beverly Hills. This disparity led to the important Serrano v. Priest (1976) equal protection litigation, which was resolved through statutory enactments that called for a general equalization of state apportionment revenue to school districts.

In 1978, voters approved Proposition 13. The new law limited property tax rates to one percent of a property's assessed value at the time of acquisition. Proposition 13 reduced property tax revenues available for local governments and school districts. To cushion the impact to school districts, the state Legislature shifted state dollars to schools.

With the adoption of Proposition 98 (1988) and Proposition 111 (1990), a minimum funding level from State and local property taxes was provided to K-14 public schools. California schools today receive the large majority of their funding from the State, primarily from income and sales tax revenues. To a much lesser extent, districts also receive some local property revenues that are collected at the local level but distributed by the State. Income and sales taxes are more volatile revenue sources than property taxes. When the economy sours, unemployment rises, leading to fewer purchases. This correspondingly leads to less income and goods to be taxed. As a result, fewer dollars become available for schools.

California school districts therefore face dramatic cyclical funding variations as the economy rises and falls. Further, California's Governor and State Legislature, whose vote on the State Budget Act determines how State funds may be spent, have enormous control over the ability of local school districts to utilize funding to meet the specific needs of their students. Approximately 60% of all school district funds in California are general purpose in nature; the remaining 40% are restricted to specific purposes, such as the needs of special education students, low income students, limited English-proficient students, and specific grade levels. This greatly constrains local boards of education in their spending decisions. They are further constrained in their ability to raise taxes independently of the State. Bond issues, usually limited to building programs, require a 55% vote for passage. Parcel tax measures require a 2/3 vote.

In 2013, the Governor revising the state's allocation formula for school districts to increase flexibility at the local level. This proposal is known as the Local Control Funding Formula (LCFF). Under LCFF, the state provides a base grant for all students and additional grants for high-need students such as English Learners and socio-economically disadvantaged pupils.

The following provides information on legislation and court rulings that have significantly affected California's funding for education.

**Senate Bill 90 (1972)** – In 1972, the Legislature established revenue limits for California public schools. The legislation placed ceilings on the amount of tax money each district could

receive per pupil. This was in order to help reduce the wide differences in school funding between high and low property-wealth districts. The 1972-73 general purpose spending level became the base amount in determining each district's annual revenue limit.

**Serrano v. Priest (1976)** – This 1976 California Supreme Court decision declared the existing system of financing schools unconstitutional because it violated the equal protection clause of the State Constitution. The Court ruled that property tax rates and per pupil expenditures should be equalized and that, by 1980, the difference in revenue limits per pupil should be less than \$100 (the “Serrano band”). This allowable difference in revenue limits has subsequently been adjusted for inflation. In equalizing funding, districts are divided into three types: elementary, high school, and unified. They are then further divided into small and large districts to ensure that appropriate funding comparisons are made. Special purpose or “categorical” funds are excluded from this calculation.

**Assembly Bill 65 (1977)** – In response to the *Serrano* decision, the California State Legislature passed AB 65, creating an annual inflation adjustment based on a sliding scale in order to equalize revenue limits among districts over time. Higher inflation increases were provided to districts with low revenue limits, with lower (occasionally no) inflation adjustments for high revenue districts.

**Proposition 13 (1978)** – This constitutional amendment (the “Jarvis Amendment”) approved by California voters in 1978 limits property taxes to 1% of a property's assessed value, and caps increases in assessed value at 2% annually or the percentage growth in the Consumer Price Index, whichever is less. It also mandated a 2/3 vote for approval of new taxes, such as parcel taxes.

**Assembly Bill 8 (1978)** – In response to Proposition 13, the Legislature established a formula for dividing property taxes among cities, counties, and school districts. This shielded schools from some of the measure's effects. In the process, the State replaced the lost property taxes and effectively took control of school district funding.

**Gann Limit (Proposition 4, 1979)** – Proposition 4 created a constitutional limit on government spending at every level in the State, including school districts. No agency's expenditures can exceed its Gann Limit, which is adjusted annually for inflation and population increase.

**Senate Bill 813 (1983)** – SB 813 provided additional money to school districts through equalization of revenue limits and new categorical programs, longer school day/year, and higher beginning teachers' salaries. It also established statewide model curriculum standards.

**Lottery Initiative (1984)** – In November 1984, voters approved Proposition 37, a constitutional amendment establishing the California State Lottery. Provisions guarantee that a minimum of 34% of total lottery receipts be distributed to public schools, colleges, and universities. Funds are to supplement, not replace, State support for education. Lottery funds cannot be used for purchase or construction of facilities, for land, or research. Under Proposition 20, passed in March 2000, 50% of lottery funding above the 1997-98 funding level must be used for purchase of instructional materials.

**Proposition 98 (1988)** – This constitutional amendment guarantees a minimum funding level from State and property taxes for K-14 public schools in a complex formula based on State tax revenues. It also requires each school to prepare and publicize an annual School

Accountability Report Card (SARC) that covers at least 13 required topics. A 2/3 vote of the Legislature and the Governor's signature are required to suspend Proposition 98 for a year.

**Proposition 111 (1990)** – This constitutional amendment changed the inflation index for the Gann Limit calculation, effectively raising the limit. Additionally, the minimum Proposition 98 funding guarantee was changed to reflect the growth of California's overall economy. It did so by shifting the adjustment from the growth of per capita personal income (which historically has tended to be a lower amount) to the growth in State per capita General Fund revenues plus one-half percent.

**Assembly Bill 1200 (1991)** – AB 1200 established a system for school district accounting practices that specifies how districts must report their revenues and expenditures. It requires that districts project their fiscal solvency two years out, and provide the State with Board-approved financial interim reports twice annually. County offices of education are responsible for monitoring and providing technical assistance to their districts. AB 2756 (2004) adds to the responsibilities and control of county offices of education over the budget and expenditure reporting of local districts.

**Class Size Reduction, K-3 (SB 1777, 1996)** – This legislation provided incentives for school districts to reduce K-3 classes to a pupil-teacher ratio of no more than 20 to 1, and provided additional funding to districts that met these ratios. A one-time allocation of \$25,000 per added classroom was also made available.

**Senate Bill 1468 (1997)** – This legislation changed the way average daily attendance (ADA) is counted, largely eliminating the concept of "excused absences" and basing ADA on students who are actually at school. To ensure that districts did not lose a large proportion of their revenue, the per-pupil revenue limit rate was adjusted by the average attendance rates of each individual school district.

**Assembly Bill 602 (1997)** – This legislation revised the state's allocation formula for special education funding for school districts. The formula distributes a large share of special education funds based on total student population of each school district, rather than the number of special education students at each district or the specific needs of those students.

**Assembly Bill 1115 (1999)** – Under the terms of this bill, an independent charter school is deemed a school of the chartering school district for the purposes of establishing its special education local plan ("SELPA") status unless it designates otherwise in its charter petition. As such, independent charter schools which are members of a school district's SELPA are entitled to an equitable share of special education services and funding.

**Assembly Bill 1600 (1999)** – This bill gave charter schools the option to receive funding directly from the State, rather than from their local district, in the form of a block grant.

**Proposition 39 (2000)** – This constitutional amendment established a 55% vote threshold for the issuance of school facilities construction bonds. In order to issue bonds under Proposition 39, the District must, among other things, use Proposition 39 bond funds only for those projects specifically listed in the ballot measure and strategic execution plans; create and maintain a citizens' bond oversight committee; and annually ensure that performance and financial audits are conducted for Proposition 39 facilities projects. Proposition 39 also requires the District to offer reasonably equivalent District school facility space to independent charter schools.

**Proposition 49 (2002)** – This voter initiative, otherwise known as the "The After School Education and Safety Program Act of 2002," increased state funding for before and after school programs at elementary and middle schools. Funding is provided to the District through a competitive grant process with priority given to school sites that have at least 50 percent of its students receiving free and reduced priced lunch. A portion of state funding under Proposition 49 satisfies the revenue limit guarantee under Proposition 98.

**Assembly Bill 825 (2009)** – Under the terms of this bill, the District receives funding for its Integration Program and for other instructional program needs as part of a Targeted Instructional Improvement Block Grant.

**Senate Bill 1133 (Quality Education Investment Act of 2006)** – Adopted in 2006 as a settlement of the CTA v. Schwarzenegger et al. lawsuit, the QEIA program provides targeted funding for eligible schools in API deciles 1, 2, and 3. The funding is to be used primarily for class-size reduction purposes and overall academic achievement goals. QEIA ended in fiscal year 2016-17.

**Education Trailer Bill - Senate Bill 4 of the 2009-10 Third Extraordinary Session (SBX3 4, 2009)** – For fiscal years 2008-09 through 2012-13, this bill established: (1) Categorical Program Flexibility, which grouped categorical programs into Tiers I, II, and III, and identified Tier III programs as unrestricted; (2) the public hearing requirement as a condition for receipt of Tier III funds; (3) the use of 2008-09 as the base year in calculating for most of the Tier III categorical programs and use of 2007-08 as the base year for calculating the revenue limit-related Tier III categorical programs; and (4) the use of June 30, 2008 ending balances as unrestricted funds with a few program exceptions. See the glossary for additional details on Tiers I, II, and III programs. In addition, SBX3 4 relaxed K-3 Class Size Reduction penalties for fiscal years 2008-09 through 2011-12 only.

**Proposition 30 (2012)** – The initiative passed on November 2012 provides for a personal income tax increase over seven years for California residents with an annual income over \$250,000, through the end of 2018. This also provides for an increase in sales tax by 0.25 percent over four years (from January 1, 2013 through December 31, 2016). This initiative funds K-12 public education among other purposes.

**Local Control Funding Formula (2013)** – This legislation simplified the state's funding allocation formula for school districts. The funding formula intends to increase transparency for state funding to schools and increase decision-making as to expenditure of funds at the local education agency level. Under LCFF, the state provides a base grant for all students and additional grants for high-need students such as English learners, low income, and foster youth.

**Proposition 39 (2013)** – The California Clean Energy Jobs Act changed the corporate income tax code and allocates projected revenue to the state General Fund and the Clean Energy Job Creation Fund for five fiscal years beginning 2013-14. Under the initiative, available funds are to be used for eligible projects to improve energy efficiency and expand clean energy generation in schools. School districts can request funding by submitting an application to the California Energy Commission.

**Proposition 55 (2016)** - Extends by twelve years the temporary personal income tax increases enacted in 2012 (Proposition 30) on earnings over \$250,000, with revenues allocated to K-12 schools, California Community Colleges, and, in certain years, healthcare. Proposition 55 will raise tax revenue by between \$4 billion and \$9 billion a year. Half of funds will go to schools and community colleges, up to \$2 billion a year would go to Medi-Cal, and up to \$1.5 billion will be saved and applied to debt.

**LOCAL CONTROL FUNDING FORMULA (LCFF)**

Up until fiscal year 2012-13, the Revenue Limit was the basic and the largest financial support for District activities. In fiscal year 2013-14, Governor Jerry Brown implemented the new State funding formula for local education agencies called Local Control Funding Formula (LCFF). AB 97 was enacted, amending California Education Code 42238.07 which relates to education finance. The goal of LCFF is to significantly simplify how state funding is provided to local education agencies (LEAs), to create transparency of funding, and to grant local control of funds.

The LCFF eliminated the Revenue Limit and most of the state categorical program funding streams. The categorical programs that were folded in the LCFF are not bound by the program compliance requirements that existed before the implementation of LCFF. Below is a list of categorical programs participated in by LAUSD that are now folded in the LCFF.

Unlike the Revenue Limit which was largely based on COLA and average daily attendance (ADA), the LCFF includes several variables to calculate an LEA’s funding. These are ADA, COLA, enrollment, and unduplicated pupil count.

Below are the various LCFF terminologies and their brief definitions.

**Grade Span** LCFF funding uses grade span ADAs such as TK/K-3, 4-6, 7-8, and 9-12.

**Average Daily Attendance (ADA)** The change in the reporting of ADA was driven by the LCFF formula where ADAs are summed into grade spans of TK/K-3, 4-6, 7-8, and 9-12. LCFF uses the ADA of students from the beginning of the school year to the school month ending on or before April 15th of a fiscal year. This period of attendance is called the Second Principal Apportionment (P-2) ADA. Education Code 42238.5 is amended per the 2022-23 Enacted State Budget to provide funding based on the greater of current year P-2 ADA, prior year P-2 ADA, or average of prior three years’ P-2 ADA. A small portion of the funded ADA comes from the Annual ADA, i.e., ADAs from the beginning to the end of the school year. These are for Community Day Schools, Extended Year Special Education, and Nonpublic Schools. Charter schools are funded based on the current year’s P-2 ADA.

**Cost of Living Adjustment (COLA)** Per Education Code Section 42238.02(d)(2), this is a calculation of the percentage of governmental price increase on goods and services based on Implicit Price Deflator for the 12-month period ending in the third quarter of the prior fiscal year. The LCFF rates per ADA are usually increased annually to reflect the COLA.

**Adjusted Base Grant Per ADA** Adjusted Base Grant Per ADA for each grade span is composed of a prior year Base Grant per ADA adjusted for COLA and Grade Span Adjustments (GSA). For grades TK/K-3, the Base Grant Per ADA includes the TK/K-3 Grade Span Adjustment. The State provides an additional 10.4% of the COLA-adjusted TK/K-3 Base Grant per ADA as funding for TK/K-3 Class Size Reduction. For grades 9-12, the Base Grant Per ADA includes the 9-12 Career Technical Education (CTE) Adjustment. The State provides an additional 2.6% of the COLA-adjusted 9-12 Base Grant per ADA as funding for CTE. The Adjusted Base Grant Per ADA is unique for each grade span and is applied to the respective grade span funded ADA to calculate the initial Base Grant Funding.

**Base Grant Funding** The Base Grant Funding is the result of multiplying the Adjusted Base Grant Per ADA of each grade span by the funded ADAs of each respective grade span.

**Enrollment** This refers to the total count of TK/K-12 students enrolled as of the fall Census Day (first Wednesday in October).

**Unduplicated Pupil Count** Refers to pupils who are identified as either English Learner, met the requirements for free or reduced-priced meals, or in foster care. A student falling into one or more of the criteria mentioned is counted once even if the student meets more than one of the criteria; hence, the term unduplicated pupil count. All pupil counts are based on Fall 1 certified enrollment reported in the California Longitudinal Pupil Achievement Data System (CALPADS) as of fall Census Day (first Wednesday in October).

**Unduplicated Pupil Percentage** This is calculated by dividing the total unduplicated pupil count by the total enrollment and is used in the calculation of the Supplemental and Concentration Grant Funding. With the assumption of LCFF beginning in fiscal year 2013-14, this is expressed as an “average” percentage, i.e., for fiscal year 2014-15, 2-year average; for fiscal year 2015-16 and on, a 3-year average of the last three fiscal years including the current fiscal year.

**Supplemental Grant Funding**

Every student identified as either English Learner, met the requirements for free or reduced-priced meals, or in foster care generates additional funding above the Base Grant Funding through the Supplemental Grant Funding. For each grade span, this is calculated by multiplying the Base Grant Funding by the Unduplicated Pupil Percentage times 20%.

**Concentration Grant Funding**

In addition to the Supplemental Grant Funding, school districts in which student population of either English Learner, met the requirements for free or reduced-priced meals, or in foster care exceed 55% of their enrollment are entitled to the Concentration Grant Funding. For each grade span, this is calculated by multiplying the Base Grant Funding by the Unduplicated Pupil Percentage in excess of 55% times 65%, with 15% to be used to increase the number of credentialed and/or classified staff who provide direct services to students in schools

**Allowance and Add-On Funding**

For LAUSD, this includes the Targeted Instructional Improvement Block Grant (TIIBG), Home-To-School Transportation, Economic Recovery Target (ERT), and funding for Transitional Kindergarten (TK) to lower classroom student-to-adult ratio. Home-To-School Transportation and TK Ratio Add-on Funding are usually increased annually to reflect the COLA.

**Economic Recovery Target (ERT)**

It is the difference between the amount a school district or charter school would have received under the old funding system (Revenue Limit, Charter School Block Grants, and Categorical Programs) and the estimated amount it would receive for LCFF funding, based on certain criteria. Only school districts and charter schools that were at, or below, the 90th percentile of per-pupil funding rates of school districts under the old funding system as determined at the 2013-14 P-2 certification, are eligible for ERT payments. Two of the District's locally-funded (affiliated) charter schools, namely Colfax Elementary School and Community Magnet Charter, are eligible to receive this funding.

**LCFF Entitlement/Revenue**

Sum of the Base Grant Funding, Supplemental Grant Funding, Concentration Grant Funding, and Allowance and Add-on Funding. The 2018-19 Enacted State Budget fully funded the LCFF to close the funding

gap. Since then, local educational agencies are funded on their Entitlement. LCFF is funded through: (1) local property taxes, (2) the Education Protection Act (EPA) which was enacted by Proposition 30 in November 2012, and amended by Proposition 55 in November 2016, and (3) state aid. The portion of the LCFF revenue that is not covered by local property taxes and EPA is funded by state aid.

As a condition of receiving the TK/K-3 Grade Span Adjustment, LAUSD is required to maintain an average K-3 class size enrollment of not more than 24 pupils or a collectively bargained alternative class size at each school site. The failure of one school site to maintain the maximum average K-3 class size of 24:1, will jeopardize the whole TK/K-3 Grade Span Adjustment for all funded K-3 ADA. Charter schools receive the adjustment but do not have to comply on maintaining or making progress toward the required average class size of 24 pupils. For transitional kindergarten (TK), average maximum class size should be no more than 24 students at each school site. TK class size penalty under current law is equal to TK/K-3 Grade Span Adjustment for all reported TK P-2 ADA. The 2025-26 May Revision amends the penalty to only those students that exceed the average of 24 TK students per class, per school site.

In the 2025-26 school year, transitional kindergarten (TK) expansion hits full implementation and is required to be offered to all children turning 4 by September 1. LCFF provides an add-on funding to lower classroom staffing ratios in transitional kindergarten. Student-to-adult ratio for TK classrooms is at 10 students to 1 adult for the 2025-26 school year. Shortfall in student-to-adult ratio will result in a prorated reduction in the amount of funding generated by the LCFF TK Ratio add-on. The LCFF TK ratio add-on funding is \$5,545 per current year's P-2 TK ADA inclusive of a 2.30% COLA and additional funding to lower student-to-adult ratio to 10:1 from 12:1 as provided by the 2025-26 May Revision.

The Supplemental and Concentration Grant Funding are dependent on an LEA's number of unduplicated student count, specifically, the percentage of the unduplicated count to total enrollment. And although LCFF funding is considered unrestricted, the Supplemental and Concentration Grant Funding are earmarked to be spent on the Targeted disadvantaged student population. LEAs are required to specify on the Local Control Accountability Plan (LCAP), the amount of expenditures for the Targeted Disadvantaged Student population.

The 2025-26 May Revision provides for 2.30% statutory COLA for LCFF. Also, the LCFF revenue is projected to be funded on the average of the 3 prior years' P-2 ADA for 2025-26 and for the two succeeding fiscal years. The 2022-23 Enacted State Budget amended the California Education Code Section 42238, to fund LCFF with the greater of the current year, prior year, or the average of the prior 3 years' ADA to mitigate the impact of lower enrollment and attendance. This is a change in prior practice whereby funded ADA is the greater of the current or prior year ADA. A small portion of the funded ADA comes from the Annual ADA of Community Day Schools, Extended Year Special Education, and Nonpublic Schools. Locally-funded (affiliated) charter schools are funded at the current year's P-2 ADA.

Below is a graph that shows LA Unified’s LCFF Revenue by component for the TK/K-12 schools including locally-funded (affiliated) charter schools.

BUDGET PRINCIPLES AND PROCESS

**A. Principles of Budgeting and Accounting**

The California School Accounting Manual and the California Education Code govern budget development for California school districts, and their standards form the basis for development of the District's Adopted Final Budget. Among these standards are:

Basis for Accounting. The California School Accounting Manual mandates that districts use either the accrual basis or the modified accrual basis in accounting for revenues and expenditures. The difference between the two is as follows:

- In the Modified Accrual Basis, revenues are recognized in the period when they become available and measurable, and expenditures are recognized when a liability is incurred, regardless of when the receipt or payment of cash takes place. School districts use the modified accrual basis in accounting for governmental funds such as the General Fund and Adult Education Fund.
- In the Accrual Basis, revenues are recorded when earned, and expenditures are recorded when a liability is incurred, regardless of when the receipt or payment of cash takes place. School districts use the accrual basis in proprietary funds such as Self-Insurance Funds.

Basis for Budgeting. The California School Accounting Manual also mandates the basis for school district budgeting. It requires that "generally, for California (school districts), the basis of budgeting should be the same as the basis of accounting used in the audited financial statements. Budgetary accounting must conform to the account codes in the standardized account code structure." California school districts are required to display their budgets by fund, by object, and by function.

Budgetary accounts are "projections and show how much is estimated to be spent or received during a given period of time to carry out the local educational agency's (LEA's) goals." In general, budgetary accounts have two purposes: (1) to record the estimated revenues of a fund by source and amount, and (2) to record and control the limits that are set on the expenditure levels by the appropriations. The recording of actual revenue and expenditures allows a comparison to the available amounts to be committed or expended within the limits set by law or by the governing board.

Revenue Budget. For each fund, the revenue budget anticipates all income from federal, state, and local sources, as well as the anticipated beginning balance. The total of beginning balance and income is the maximum amount a school district may legally budget to spend for any fund.

Expenditure Budget. Each fund has an expenditure budget reflecting the fund's authorized costs, and, for most funds, the anticipated expenditure level.

**B. Budget Process**

*Budget Preparation.* The first step in preparing the budget is to determine the cost to continue the existing program. Enrollment-related costs are adjusted for projected changes. Costs not directly controllable by the District, such as utilities, retirement contributions, insurance, continuing contractual obligations, and legal costs, are adjusted to reflect estimated expenditures for the coming fiscal year.

Estimates of income are developed based on a review of federal and State statutory provisions and local revenue sources. Beginning balance amounts for the budget year are calculated utilizing a comparison of anticipated revenues and expenditures for the current year. The projected beginning balances and revenues are compared to the cost of continuing current programs to determine whether budget reductions may be necessary or whether unanticipated amounts may be available for allocation.

*Board and public participation.* Board meetings are scheduled for discussion of proposed budget changes. A public hearing, at which any member of the public may address the Board regarding the District’s proposed budget, is mandated prior to Board adoption of the Final Budget in June.

**C. Budget Revision Process**

*Budget adjustments.* The Budget Services and Financial Planning Division either receives or initiates well over 20,000 requests annually to adjust or revise the adopted budget. Generally, a budget adjustment (B.A.) enables a school or office to use funds previously budgeted for a particular purpose.

Certain limitations apply to B.A.s. For example, schools or offices may not transfer funds from a restricted program into an unrestricted one (e.g., transfers from Title I into a District-funded school instructional materiel account would not be permitted).

B.A.s may be either continuous (ongoing), or limited to the remainder of the current fiscal year. They may be either “routine,” requiring only normal handling by staff, or “non-routine,” requiring formal approval by the Board of Education.

Categories of “non-routine” B.A.s are determined by the Board, and are currently defined as follows:

- A. All B.A.s from Undistributed Reserves.
- B. All B.A.s which increase the total number of regular, non-school-based budgeted positions, except for those that are fully funded from the budgeted resources of the requesting office (“cost-neutral” budget adjustments).

In addition to the above, California Education Code §42602 authorizes Boards of Education to increase income to reflect unanticipated new revenues during the course of the fiscal year.

BUDGET AND FINANCE POLICY

**I. Purpose of the Budget and Finance Policy**

The California School Accounting Manual, the State's financial guide for school districts, defines a budget as "a plan of financial operation consisting of an estimate of proposed income and expenditures for a given period and purpose". It is through the budget that the Board and Superintendent set priorities and allocate resources.

California school districts, including LAUSD, are bound by legal requirements, administrative regulations, and oversight protocols during the budget process. These include:

Legal Requirements for Budget

- Budgets must show a plan for all proposed expenditures of the school district and of all estimated revenues for the fiscal year (Education Code 42122).
- School districts may not spend more than authorized in the adopted Final Budget, as adjusted during the fiscal year (Education Code 42600).

Administrative Regulations for Budget

- The California School Accounting Manual provides detailed definitions of income and expenditure categories together with approved budget and accounting practices.
- The Superintendent of Public Instruction annually issues budget and expenditure documents that specify the income and expenditure categories to be reflected in each school district budget.

Oversight Processes for Budget

- The Los Angeles County Office of Education (LACOE) monitors the financial health of the District with oversight and review from the Superintendent of Public Instruction (Education Code 33127, 33128, 42120 et seq., 42637).
- Should a district's financial condition deteriorate below the State's standards, LACOE is authorized to take corrective action. This could include assuming management of that District's financial affairs (Education Code 42127.3).

The District must also comply with the Governmental Accounting Standards Board's (GASB) accounting standards and rules. The budget process should also strive to meet the Government Finance Officers Association's (GFOA) best practices for finance, accounting, and budgeting by government agencies.

Consistent with State law and regulation, the LAUSD budget is developed, adopted, refined, and reviewed on a timely basis, through an annual cycle, as highlighted by the table below.

**II. Finance and Budget Policy**

To assist the Board of Education in making sound policy, guide the development of the District’s budget, enhance the management of the District’s finances, minimize the risk of LACOE action, and reduce potential audit concerns, the Board has adopted this Finance and Budget Policy which is based on five core principles. The budget should:

1. Be based on the goals of the Board and Superintendent.

2. Be based on sound financial principles.
3. Be clear and easy to understand.
4. Be timely, and easy to manage at the school level.
5. Be based on a process that informs stakeholders.

This policy was developed after reviewing the document “Recommended Budget Practices” developed by the GFOA. The policy is also consistent with the standards and criteria established by the State Board of Education (Education Code Sections 33127, 33128), as well as current GASB rules and standards. To the extent that LAUSD’s current budgeting and accounting practices are not in compliance with this policy, implementation of this policy is to be phased in.

The Finance and Budget Policy is a “living document.” LAUSD expects that it shall evolve over time to best connect District policy, budgeting, and financing principles.

***Principle One: The budget should be based on the goals of the Board of Education and Superintendent.***

The Board of Education and Superintendent have the primary responsibility for developing and articulating the District’s goals; these goals shall be the framework for the budget.

***Principle Two: The budget should be based on sound financial principles.***

LAUSD’s budget should be based on financial principles that shall keep the District viable and able to sustain its key programs over time. The following specific financial principles, based on law, expert advice, and experience, are offered to this end:

- a) Structurally Balanced Operating Budget
- b) Appropriate Use of One-Time Revenues
- c) Alignment of Budget with Expected Expenditures
- d) Maintenance of Appropriate and Adequate Fund Balance and Reserves
- e) Revenue Maximization
- f) Revenue and Expenditure Estimation
- g) Cost Recovery through Fees and Charges
- h) Capital Plan
- i) Asset Management
- j) Prudent Debt Management
- k) Program Sustainability
- l) GASB Compliance

**A) STRUCTURALLY BALANCED OPERATING BUDGET**

The Superintendent must annually prepare and recommend a structurally balanced budget where operating revenues are equal to, or exceed, operating expenditures (Education Code Sections 42100, 42127.5).

The Office of the Chief Business Officer shall prepare the First and Second Period Interim Financial Reports in accordance with the law and make appropriate recommendations to the Board if financial adjustments are necessary. Annual appropriations shall be made to responsibly address all identified liabilities,

including pension, vacation accrual, workers' compensation, and retiree health needs.

**B) APPROPRIATE USE OF ONE-TIME REVENUES**

Ongoing District expenditures should not exceed ongoing revenues. One-time revenues should be applied first toward restoration of Operating Reserves (as described under Section D below). This shall assist meeting the minimum three-year reserve target amounts in accordance with AB 1200 (The "Three-Year Sustainability Plan"). The Chief Financial Officer shall be responsible for identifying one-time revenues and expenditures and for making recommendations regarding their use. One-time revenues cannot be relied on in future budget periods. This policy on one-time revenues minimizes the disruptive effects on services.

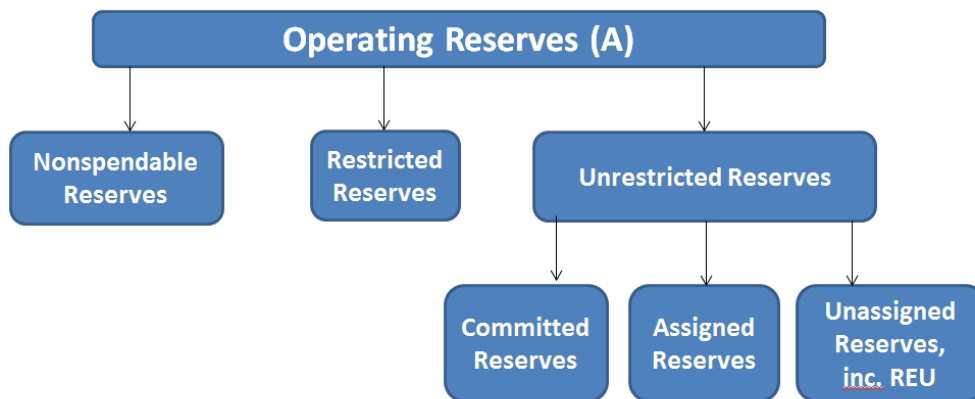

Any new or unanticipated unrestricted revenues recognized during the current fiscal year should also be applied to reduce any operating deficit or unplanned one-time mandatory cost before being used for other purposes.

**C) ALIGNMENT OF BUDGET WITH EXPECTED EXPENDITURES**

Actual expenditures should closely approximate the estimated appropriation. To the extent that funding is required for expenditures spanning fiscal years, appropriate financial techniques should be identified and employed.

**D) MAINTENANCE OF APPROPRIATE AND ADEQUATE FUND BALANCES AND RESERVES**

LAUSD shall strive to maintain certain reserve funds to provide financial stability. The reserves described in these policies supersede all prior District reserve policies. These reserve funds shall be for operations or for liabilities, and includes, but not limited to, the following described categories:

**A. Operating Fund Balance:**

The operating fund balance includes reserves set aside to meet the minimum reserves policy target in the Three-Year Sustainability Plan.

The current classifications of fund balances<sup>1</sup> are as follows:

- Non-spendable fund balance (*inherently non-spendable*). This category includes reserves for Revolving Cash, Stores, and Prepaid Expenditures.
- Restricted fund balance (*externally enforceable limitations on use*). This category includes balances related to federal and state programs.
- Committed fund balance (*self-imposed limitations on use*)
- Assigned fund balance (*limitation resulting from intended use*)
- Unassigned fund balance (*residual resources for unrestricted use*)

General Fund Balance Policy:

The District shall maintain Total General Fund balances at a level which is 5% or more of Total General Fund expenditures and net transfers out (the “5% Minimum Reserve Threshold”). This level is the minimum necessary to sustain the District’s strong credit ratings.

Reserve funding levels shall be reviewed annually and adjusted as appropriate. The reserve policy is as follows:

1. The District shall maintain at least the 5% Minimum Reserve Threshold in the Three-Year Sustainability Plan.
2. Whenever the District projects a failure to meet the 5% Minimum Reserve Threshold, all one-time monies received shall be set-aside until the Threshold is met in each of the years.
3. In addition, other recommendations shall be developed to restore reserve balances. These recommendations shall be completed within the next fiscal year.

Reserve for Economic Uncertainties:

A legally required reserve that mandates Districts whose average daily attendance is 250,001 and over to reserve 1% of total General Fund expenditures and other financing uses.

Reserves for Revolving Cash, Stores, and Prepaid Expenditures:

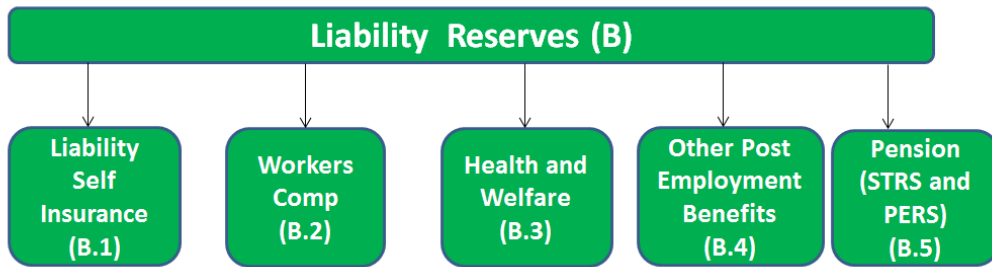

The District’s accounting practice establishes a reserve for revolving cash, stores, and prepaid expenditures.

**B. Liability Reserves:**

The purpose of the Liability Reserves is to set aside monies for legal liabilities. Funding these liability reserves provides resources to help prevent disruptive reductions to LAUSD operating programs.

---

<sup>1</sup> Under GASB Statement No. 54, Fund Balance Reporting and Government Fund Type Definitions.

**B.1 Liability Self-Insurance Fund:**

Liability Self Insurance funding shall be based on the current year claims and the amount to fully fund the estimated liability as determined by a third-party actuarial report.

**B.2 Worker’s Compensation Fund:**

Worker’s Compensation funding shall be based on the current year claims and the amount to fully fund the estimated liability as determined by a third-party actuarial report.

**B.3 Health and Welfare Fund:**

Health & Welfare funding shall be based on the Health and Welfare Memorandum of Understanding Agreement in place.

**B.4 Other Post-Employment Benefits (OPEB) Fund:**

The District has an irrevocable trust for its OPEB liability (OPEB Trust) to:

1. Minimize encroachment on the District’s operating budget;
2. Provide funding to protect retiree benefits;
3. Improve the return on investment on the Trust assets;
4. Align contributions to more adequately recover costs from federal, capital and grant programs;
5. Provide an initiative-taking response to address the impacts of GASB 45 on the District’s finances; and
6. Preserve the District’s net assets.

According to best practices recommended by the Government Finance Officers Association, employers who offer OPEB shall fund the long-term cost of the benefits promised to participants. The appropriate way to attain reasonable assurance that benefits remain sustainable is to accumulate resources for future benefits in a systematic and disciplined manner during the active service life of the benefiting employees. A commitment to fund benefit promises is a prudent practice and helps achieve intergenerational equity among those who are called on to financially support the benefits, thereby avoiding the transfer of costs into the future.

Contributions to the Trust shall be annually calculated and distributed as follows:

1. An annual per employee set-aside, at rates consistent with the District’s current budget assumptions and policies, shall be contributed to the OPEB Trust on or before June 30th. Such contributions shall be subject to maintaining an Unrestricted General Fund balance of 5% of the unrestricted revenue. These Trust contributions shall be made from all appropriate funding sources. The annual OPEB per employee

growth rates shall continue until such time that the District shall be able to meet its unfunded liability in accordance with GASB standards.<sup>2</sup>

2. If the Unrestricted General Fund is above 5% of the unrestricted revenues (after the annual OPEB contribution has been determined), an additional contribution from the assigned OPEB reserve shall be placed in the Trust.
3. In the event the interim depicts a negative balance in any of the current and two subsequent fiscal years, it is incumbent upon the Chief Financial Officer to recommend changes to the OPEB contribution to ensure fiscal sustainability.

**E) REVENUE MAXIMIZATION**

LAUSD receives most of its funding from the State of California. To supplement these funds, LAUSD shall seek additional revenues from other funding sources including the Federal Government, foundations, corporations, mandate funding, parent and community organizations, and through new and changes to funding legislations. These additional resources should be for purposes that are consistent with the District's goals and objectives, and which complement the LAUSD's resources. LAUSD shall also seek the approval of granting agencies to provide flexibility in the use of scarce resources.

**F) REVENUE AND EXPENDITURE ESTIMATION**

LAUSD shall strive to include in the budget all revenues that can be expected for the fiscal year. The Chief Business Officer shall appropriate funds for expenditure based on a prudent assessment of the risks associated with each revenue source. The authority to spend in part or all the budgeted revenue shall be provided based on revenue certainty.

**G) COST RECOVERY THROUGH FEES AND CHARGES**

LAUSD may charge fees to recover costs of certain services, such as those provided to charter schools. LAUSD shall set fees so that they cover the entire cost of the service provided, including all direct and indirect costs subject to any legal restrictions.

**H) CAPITAL PLAN**

LAUSD shall strive to provide comprehensive planning and budgeting for its capital needs by:

- Developing, on a periodic basis, a Statement of Need for capital programs.
- Annually adopting a multi-year capital budget that identifies the projects planned, the estimated cost of each project, the expected sources of revenue for each project, and the fiscal year or years in which project funds must be committed.

---

<sup>2</sup> Beginning in 2017-18 as part of the fiscal stabilization plan, there is no OPEB contribution in FY 2018-19 through FY 2021-22. OPEB contribution resumed in FY 2022-23.

- Annually presenting an analysis of the future operational impact of the capital projects.

**I) ASSET MANAGEMENT**

The District shall strive to:

- Budget appropriate amounts so that physical assets are properly maintained and replaced when needed.
- Maintain inventories of assets and the condition of major assets assessed on a regular basis to develop appropriate replacement and maintenance programs.
- Prepare a maintenance plan to sustain the need to maintain the value of its assets and protect the health and safety of students and employees.
- Annually estimate and set aside resources for preventative maintenance.
- Maintain a restricted account within the general fund for the exclusive purpose of providing funds for ongoing and major maintenance of school buildings to comply with the requirements set forth in Education Code Section 17070.75 and 17070.77. Deposit into this account, in each fiscal year for at least 20 years after receipt of School Facility Program (SFP) funds, an amount equal to or greater than required percent of the total general fund expenditures of the District, including other financing uses, for that fiscal year.

**J) DEBT MANAGEMENT**

LAUSD shall adhere to the Debt Management Policy as adopted by the Board of Education.

**K) PROGRAM SUSTAINABILITY**

To achieve sustainability, LAUSD shall strive to:

- Link multi-year programs to multi-year funding. When funding is non-continuous, the program shall be identified as limited.
- Set parameters for multi-year programs and offices by identifying specific “sunset dates” for program termination as well as the ending date for personnel assignments funded in the program.
- Make defined fiscal commitments rather than open-ended commitments (e.g. fund health benefits at a specific cost level rather than a specific service level).
- Identify impact on the budget of unfunded mandates and other spending pressures.

**L) GASB STANDARDS FOR FINANCIAL ACCOUNTING AND REPORTING**

The Governmental Accounting Standards Board promotes rules governing financial accounting and reporting. LAUSD shall comply with these rules. LAUSD shall strive to receive the GFOA Certificate for Excellence in Financial Reporting annually.

***Principle Three: The budget should be clear and easy to understand.***

A broad cross-section of stakeholders in the District relies on LAUSD’s budget and related financial documents for crucial financial information. These stakeholders include parents,

teachers, community groups, administrators, and oversight bodies. LAUSD's budget shall be organized and presented in such a way that both lay persons and experts can understand:

- What the District intends to do and how it intends to do it
- The District's overall financial condition
- The historical context for LAUSD programs

In addition, LAUSD shall strive to develop its annual budget in a manner consistent with the GFOA standards for budget presentation. These guidelines are established to provide appropriate disclosure of financial information to the public and other interested parties, while facilitating management decisions on program expenditures.

LAUSD has identified guidelines for the presentation of budgets consistent with GFOA standards from four perspectives:

- a) Policy Document
- b) Financial Plan
- c) Operations Guide
- d) Communications Device

***Principle Four: The budget should be timely and easy to manage at the school level.***

The process of managing the budget is easier for schools and offices if they have access to systems and training. The District shall define the parameters under which schools and offices shall manage their budgets.

***Principle Five: The budget process should inform stakeholders.***

Prior to the adoption of the final budget, District staff shall inform stakeholders in accordance with the budget Timetable and materials shall be posted to the website.

**III. FUND BALANCE POLICY AND PROCEDURES**

**A. PURPOSE**

This Fund Balance Policy establishes the policy and procedures for reporting and maintaining fund balance in the District's financial statements. The policy also authorizes and directs the Chief Business Officer to prepare financial reports which accurately categorize fund balance as per Governmental Accounting Standards Board (GASB) Statement No. 54, Fund Balance Reporting and Government Fund Type Definitions, effective beginning the 2010-11 fiscal year.

**B. GENERAL POLICY**

There are five separate components of fund balance. Each component identifies the extent to which the District is bound by constraints on the specific purpose for which amounts can be spent.

- Nonspendable fund balance (*inherently nonspendable*)

- Restricted fund balance (*externally enforceable limitations on use*)
- Committed fund balance (*self-imposed limitations on use*)
- Assigned fund balance (*limitation resulting from intended use*)
- Unassigned fund balance (*residual resources for unrestricted use*)

The first two components listed above are not addressed in this policy due to the nature of their restrictions. An example of nonspendable fund balance is inventory. Restricted fund balance is either imposed by law or constrained by grantors, contributors, or laws or regulations of other governments. This policy is focused on the last three components listed above.

The District considers restricted fund balances to have been spent first when expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. Similarly, when an expenditure is incurred for purposes for which amounts in any of the unrestricted classifications of fund balance could be used, the District considers committed amounts to be reduced first, followed by assigned amounts, and then unassigned amounts.

### C. PROVISIONS

#### **Committed Fund Balance**

The Governing Board, as the District's highest level of decision-making authority, may commit Fund balances for specific purposes pursuant to constraints imposed by formal actions. Commitment of funds can be made through the adoption of the budget if the intent to commit the funds is specifically stated. These committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specific use through formal action. Governing Board action to commit fund balance needs to occur within the fiscal reporting period, no later than June 30. The amount which shall be committed can be determined subsequently but prior to the release of the District's financial statements.

Pursuant to GASB 54, the District commits to maintaining the Adult Education fund to support programs for which the funds were originally established. Amounts transferred into or retained in the funds shall be determined annually per Board adoption of the budget and approval of the year end unaudited actuals report.

#### **Assigned Fund Balance**

Amounts that are neither restricted nor committed may be constrained by the District's intent to be used for specific purposes. This policy hereby delegates the authority to assign amounts to the Superintendent, or designee.

#### **Unassigned Fund Balance**

These are residual positive net resources for the General Fund more than what can properly be classified in one of the other four categories. There are reserves that do not meet the requirements of the components of fund balance. For financial statement reporting purposes, these reserves are included in the unassigned fund balance. This includes:

- **Reserve For Economic Uncertainty** – The District shall maintain an economic uncertainty reserve, consisting of unassigned amounts, of at least 1% of total General Fund expenditures and other financing uses in accordance with Section 15450 of the California Code of Regulations.

**Accounts Receivable** – Amounts due and owed from private persons, business firms, governmental units, or others for goods received and/or services rendered. It includes amounts billed but not received.

**Accrual Basis of Accounting** – An accounting method in which revenues are recorded when earned, and expenditures when a liability is incurred, regardless of when the receipt or payment of cash takes place. School districts use the accrual basis of accounting for proprietary funds such as the Cafeteria and Self-Insurance funds and fiduciary funds such as the Annuity Reserve Fund. (See “Cash Basis of Accounting” and “Modified Accrual Basis of Accounting”).

**Allocation** – Appropriation earmarking expenditures for a specific purpose.

**Administered Budget** – Resources managed by a division but spent elsewhere. For example, Facilities Services Division manages the utilities budget for schools and offices, but the expenditures are distributed to schools and offices.

**Administrative Service Charge** – Credit (negative) amount budgeted to reflect indirect administrative services costs charged to certain programs. This is necessary to eliminate duplication of the cost in the total District budget.

**Ad Valorem Tax** – Tax based on a percentage of the value of goods or services.

**Arbitration** – A form of alternative dispute resolution in which a third party reviews the evidence in the case and imposes a decision that is legally binding for both sides and enforceable.

**Audit** – An examination of documents, records, and accounts for the purpose of (1) determining the propriety of transactions; (2) ascertaining whether transactions are recorded properly; and (3) determining whether statements drawn from accounts reflect an accurate picture of financial operations and financial status for a given period.

**Audit Adjustments** – Adjustments made to the financial statements as a result of the LEA’s independent audit. They are made after the general ledger is closed but before the audited financial statements are issued. Audit adjustments relating to revenues or expenditures are posted to the general ledger in the fiscal year subsequent to the audit year.

**Authorized Positions** – Positions, both filled and vacant, for which authority is provided in the budget.

**Average Daily Attendance** – Measure of pupil attendance used as the basis for providing revenue to school districts and as a measure of unit costs. Only in-seat attendance is counted in computing ADA.

**Base Grant Funding** – In LCFF, it is the result of multiplying the Base Grant Per ADA of each grade span by the funded ADAs of each respective grade span. All students generate Base funding.

**Bond** – Certificate containing a written promise to pay a specified amount of money, called the face value, at a fixed time in the future, called the date of maturity, and specifying interest at a fixed rate, usually payable periodically.

**Budget** – Plan of financial operation consisting of an estimate of proposed revenue and expenditures for a given period and purpose. The term usually indicates a financial plan for a single fiscal year.

**Budget Adjustment (or “Budget Transfer”)** – Adjustment that may increase or decrease revenues or expenditures, or a change in amounts between objects of expenditures. The adjustment can be for the current fiscal year or for multi-years.

**California State Lottery** – Proposition 37, passed by the voters in November 1984, established the California State Lottery. The Lottery distributes funds to school districts for instructional purposes. Lottery funds cannot be used for the purchase or construction of facilities, for land, or for research. School districts have wide latitude in the use of lottery funds because the initiative does not define “instructional.” Districts are required to utilize 50% of any increased funding above the 1997-1998 base year for instructional materials.

**California State Preschool Program (CSPP)** – a state-funded preschool program that provides both part-day and full-day services that provides a core class curriculum that is developmentally, culturally, and linguistically appropriate for the children served. **Capital Assets** – Assets of significant value and having a useful life of more than one year. Capital assets are also called fixed assets.

**Capital Expenditures** – According to the California School Accounting Manual, capital expenditures are those “for sites, buildings, books, and equipment, including leases with option to purchase, that meet the LEA’s (Local Education Agency) threshold for capitalization.” Categories of expenses recorded as capital expenditures include land, buildings, site improvements, and some types of equipment. Equipment also includes library books and project management costs that can be assigned to an individual capital project.

**Capital Improvement Plan (CIP)** – Is a long-range plan of proposed Capital Improvement Projects with single and multiple-year capital expenditures. The CIP shall be updated annually. Appropriations for each approved project shall be presented in the annual budget, with some projects spanning multiple fiscal years. A capital plan should cover a period of at least three years, preferably five or more.

**Capital Outlay** – Amounts paid for fixed assets or additions to fixed assets, including land or existing buildings, improvement of grounds, construction of buildings, additions to buildings, remodeling of buildings, or initial and additional equipment.

**Capital Project Funds** – District funds dedicated to facilities construction and repair.

**Career Technology Education** – A program of study that involves a multiyear sequence of courses that integrates core academic knowledge with technical and occupational knowledge to provide students with a pathway to post-secondary education and careers.

**Carryover (or Carryforward)** – Unexpended balances carried forward from one fiscal year to the next in accordance with programmatic or District guidelines. Funds may be carried forward at a particular cost center or may be carried forward and redistributed as part of a new fiscal year's allocation depending on program guidelines.

**Cash Basis of Accounting** – Accounting method in which revenues are recorded when cash is received, and expenditures (or expenses) are recorded when cash is disbursed. School districts do not use the cash basis of accounting. (See “Accrual Basis of Accounting” and “Modified Accrual Basis of Accounting”).

**Categorical Programs** – Funds from the state or federal government granted to qualifying schools or districts for specific children with special needs, certain programs such as Class Size Reduction, or special purposes. In general, schools or districts must spend the money for the specific purpose. This money is in addition to the funding schools receive for their general education program.

**Certificated Salaries** – Salaries paid for services that require a credential. These include teachers, counselors, assistant principals, and principals.

**Certificates of Participation (COPs)** – A financing technique that provides long-term financing through a lease (with an option to purchase or a conditional sale agreement).

**Charter School** – Under State law, charter schools operate semi-autonomously of the District. A locally funded (affiliated) charter school continues to receive funding from the District but develops curriculum that may differ from that of a non-charter school. A direct funded (fiscally independent) charter school receives funding directly from the State and develops curriculum in compliance with state and federal guidelines.

**Child Days of Enrollment** – Children's centers generate revenue based on Child Days of Enrollment as opposed to K-12 schools which uses Average Daily Attendance as the basis for revenue.

**Civic Center Rentals** – Rental of space at school sites during non-school hours by designated groups. The District is required to charge an appropriate amount for the use of the facilities. These charges become part of the District's General Fund revenues.

**Classified Salaries** – Salaries for services that do not require a credential such as clerical and custodial staff.

**Common Core State Standards (CCSS)** – Education standards, particularly in English and Math, that describe what students should know and be able to do in each subject in each grade.

**Compensatory Education** – Comprised of Every Student Succeeds Act Titles I (Socioeconomically Disadvantaged Students), II (High Quality Teachers), and III (English Learners). Provides supplemental funding for schools qualifying for resources under program guidelines.

**Concentration Grant Funding** – In LCFF, school districts that have unduplicated pupil percentage greater than 55% are entitled to the Concentration Grant Funding. For each grade span, this is calculated by multiplying the Base Grant Funding by the Unduplicated Pupil Percentage in excess of 55% times 65%.

**Concurrently-Enrolled** – Students enrolled simultaneously in a K-12 school and a Regional Occupational Center or Adult Education Program.

**Coronavirus (COVID-19)** – Illness caused by a novel coronavirus called severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).

At roughly \$2 trillion dollars, the CARES Act is the largest stimulus bill in U.S. history. The other two relief bills include the Coronavirus Preparedness and Response Supplemental Appropriations Act of 2020 (H.R. 6074), and the Families First Coronavirus Response Act (H.R. 6201).

**Cost of Living Adjustment (COLA)** – This is a percentage calculated by the State and is based on the Implicit Price Deflator as of the month of May prior to the beginning of each fiscal year. The LCFF rates per ADA are increased annually to reflect the COLA.

**Current Expense of Education** – The current General Fund operating expenditures for kindergarten through grade twelve. This excludes expenditures for food services, community services, non-agency activities, fringe benefits for retired persons, acquisition and construction of facilities, and other outgo items.

**Debt Limit** – The maximum amount of legally-permitted debt.

**Debt Service** – Expenditures for retirement of debt and interest on debt (e.g., COPS and bonds).

**Defeasance** – is a legal and financial process by which a borrower nullifies a debt or obligation, typically by setting aside sufficient funds or securities to cover the remaining payments.

**Deficit Spending** – Excess of actual expenditures over actual revenues (also referred to as an operating deficit).

**Designated Ending Balance** – The portion of the previous year's ending balance committed by statute or by District policy and therefore unavailable for general purpose spending.

**Developer Fees** – District revenue resulting from fees levied upon new residential, commercial, or industrial development projects within the District’s boundaries to obtain additional funds for the construction of schools.

**Direct Services** – Services that are delivered at a school site where the student is the direct recipient or beneficiary of the services. Examples include personnel that provide direct, hands-on instruction to students.

**Education Protection Act (EPA)** – The Education Protection Account (EPA) provides local educational agencies (LEAs) with general purpose state aid funding pursuant to Proposition 30, The Schools and Local Public Safety Protection Act of 2012, approved by the voters on November 6, 2012. The EPA funding is a component of LEA’s total LCFF entitlement as calculated in the Principal Apportionment.

**Education Stabilization Fund (ESF)** – Authorized under the CARES Act, the ESF appropriated approximately \$31 billion to create funding streams for several distinct education programs that addressed the impact of the Novel Coronavirus Disease 2019 (COVID-19) on educational services across the nation.

**Educator Effectiveness Block Grant (EEBG)** – funding to provide professional learning and to promote educator equity, quality, and effectiveness.

**Elementary and Secondary Education Act (ESEA)** – In 1965, President Lyndon B. Johnson passed the Elementary and Secondary Education Act as a part of the "War on Poverty." ESEA emphasizes equal access to education and establishes high standards and accountability. The law authorizes federally funded education programs that are administered by the states. In 2002, Congress amended ESEA and reauthorized it as the No Child Left Behind Act (NCLB). In 2015, Congress amended NCLB and reauthorized it as “Every Student Succeeds Act” (ESSA).

**Elementary and Secondary School Emergency Relief Fund (ESSER)** – Resources under the federal CARES Act to provide school districts with emergency relief funds to address the impact of COVID-19 on elementary and secondary schools across the nation.

**Employee Benefits** – Expenditures for employer contributions to retirement plans, for social security, workers’ compensation, unemployment insurance, health and medical benefits, and other employee “fringe benefits.”

Norms generally use student enrollments to determine the resources to be allocated to individual schools. For example, norms may dictate that schools should receive 1 teacher per 30 students, one clerical employee per 100 students, one counselor per 500 students, etc.

To calculate norm allocations, the District uses the number of students enrolled at each school on “norm day,” which is generally the Friday of the fourth week of school. The District norms are published in the form of “norm tables” which describe the factors utilized in determining the individual norms.

**Special Education Program** – School-based program providing instruction and support services based on an Individualized Education Program (IEP). To qualify for an IEP, a student must be assessed and determined to have a disability as defined by the Individuals with Disabilities Education Act (IDEA) and have a need for specialized services to access the instructional program.

**Special Education Local Plan Area (SELPA)** – IDEA requires that each State organize in a way that allows effective programming and services be provided to students with disabilities. In the State of California, the mechanism used to meet this requirement is the Special Education Local Plan Area or SELPA. Each SELPA develops and maintains a local plan describing how special education programs and services are provided to students with disabilities within the boundaries of the SELPA. Due to its size, the Los Angeles Unified School District is a single-district SELPA.

**Supplemental Grant Funding** – In LCFF, every student identified as either English Learner, eligible for free or reduced-priced meal, or foster youth, generate this funding. This is calculated by multiplying the Base Grant Funding by the Unduplicated Pupil Percentage times 20%. This funding is intended to increase or improve services for the identified high-needs student groups.

**Targeted Instructional Improvement Block Grant (TIIBG)** – Funds the costs of ongoing desegregation efforts and, if funds remain, the needs of underachieving schools. It replaces Student Integration funding in the 2002-03 State Budget.

**Targeted Student Population** – Under the Local Control Funding Formula, targeted pupils are those classified as English learners (EL), meet income requirements to receive free or reduced-price meal (FRPM), foster youth, or any combination of these factors. DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD MET - Unrestricted deficit spending, if any, has not exceeded the standard percentage level in two or more of the three prior years.

**Explanation:**  
(required if NOT met)

The deficit spending in FY2024-25 is a combination of decreasing revenues due to lower enrollment, higher expenditures from bargaining agreements & retention of employees who were previously funded by one-time funds, interfund transfers, contribution to the OPEB trust, and spending of carryover.

**9. CRITERION: Fund and Cash Balances**

A. Fund Balance STANDARD: Budgeted beginning unrestricted general fund balance has not been overestimated for two out of three prior fiscal years by more than the following percentage levels:

1.3%	301 to 1,000
1.0%	1,001 to 30,000

- 1a. STANDARD MET - Unrestricted general fund beginning fund balance has not been overestimated by more than the standard percentage level for two or more of the previous three years.

**Explanation:**  
(required if NOT met)

The beginning balance of the FY2022-23 original budget is based on 2021-22 estimated actuals. The beginning balance of the 2022-23 estimated actuals is based on 2021-22 unaudited actuals. The decline in unrestricted ending balance between 2021-22 estimated actuals and 2021-22 unaudited actuals are mostly due to recognition of unrealized loss in cash market value in compliance with GASB No. 31 and higher liability self-insurance and transportation expenditures.

**1d. Impact of Capital Projects**

Do you have any capital projects that may impact the general fund operational budget? Yes

\* Include transfers used to cover operating deficits in either the general fund or any other fund.

**S5B. Status of the District's Projected Contributions, Transfers, and Capital Projects**

DATA ENTRY: Enter an explanation if Not Met for items 1a-1c or if Yes for item 1d.

1a. NOT MET - The projected contributions from the unrestricted general fund to restricted general fund programs have changed by more than the standard for one or more of the budget or subsequent two fiscal years. Identify restricted programs and amount of contribution for each program and whether contributions are ongoing or one-time in nature. Explain the district's plan, with timeframes, for reducing or eliminating the contribution.

**Explanation:** (required if NOT met) FY2025-26 is higher due to increased contribution to Special Education programs. Special Education programs were able to use onetime resources in 2024-25 that are no longer available in 2025-26.

1b. NOT MET - The projected transfers in to the general fund have changed by more than the standard for one or more of the budget or subsequent two fiscal years. Identify the amount(s) transferred, by fund, and whether transfers are ongoing or one-time in nature. If ongoing, explain the district's plan, with timelines, for reducing or eliminating the transfers.

**Explanation:**  
 (required if NOT met)

The positive change in FY2025-26 and 2026-27 are due to one-time transfers from Special Reserve Fund-Other Than Capital Outlay of \$20 million and \$39 million, respectively. These one-time transfers are the reason for the negative change in 2027-28.

1c. NOT MET - The projected transfers out of the general fund have changed by more than the standard for one or more of the budget or subsequent two fiscal years. Identify the amount(s) transferred, by fund, and whether transfers are ongoing or one-time in nature. If ongoing, explain the district's plan, with timeframes, for reducing or eliminating the transfers.

**Explanation:**  
 (required if NOT met)

FY2025-26 is lower due to the transfer to Special Reserve Fund-Other Than Capital Outlay (Fund 170) in 2024-25; no transfer to Fund 170 is anticipated in 2025-26. FY2026-27 is higher due to the start of debt service related to Judgment Obligation Bonds (JOBS).

1d. YES - Capital projects exist that may impact the general fund operational budget. Identify each project, including a description of the project, estimated completion date, original project budget, original source of funding, and estimated fiscal impact on the general fund.

**Project Information:**  
 (required if YES)

Delivery of Districtwide cybersecurity enhancements that address vulnerabilities identified in the 2021 Information Audit as well as recommendations from the Cybersecurity Task Force, which was convened in the wake of the September 2022 cyber attack.

The Cybersecurity Improvement Program includes augmentation of people, processes, and technology tools to identify and mitigate the risk of future cyber-attacks and disruption to District operations, requiring capital and reoccurring operational expenditures.

- Estimated completion date – Project is estimated to be completed by the end of fiscal year 2025-26 • Original Project Budget 285.5 million
- Original Source(s) of funding – Certificates of participation, bond funds, and general funds. • Estimated fiscal impact to the General Fund (2025-26 only) - \$73,458,225.

**Los Angeles Unified School District**

**2025-26 BUDGET**

**GENERAL FUND ASSUMPTIONS FOR 2025-26**

**Major Revenue Assumptions**

**Enrollment**

The Los Angeles Unified School District uses data on live births in Los Angeles County, historical grade retention ratios, regional socio-economic and geographic trends, economic factors, and other relevant information to project enrollment. Estimated enrollments in grades 1 through 12 are calculated using a variety of scenarios, generally involving weighted and true averages. The grade retention ratio measures the percentage of students expected to progress to the next grade level from one year to the next, based on past trends. Transitional Kindergarten and Kindergarten enrollments are calculated as a percentage of live births in Los Angeles County from four years earlier and five years earlier respectively.

Estimated Norm Day Enrollment

Non-charter schools	358,299
Locally-funded (affiliated) charter schools	37,771
Estimated Norm Enrollment	396,070
Nonpublic Schools	1,260
Estimated CALPADS enrollment	397,330

**Average Daily Attendance (ADA)**

The P-2 ADA for grades TK/K-12 are estimated for the budget year 2025-26 and for the two succeeding fiscal years, 2026-27 and 2027-28, by applying a ratio of ADA to enrollment of 92% (ADA%). The Annual ADA for grades TK/K-12 are estimated for the budget year 2025-26 and for the two succeeding fiscal years, 2026-27 and 2027-28, by applying as well, the ratio of ADA to enrollment of 92% (ADA%).

The 2022-23 Enacted State Budget amended the California Education Code Section 42238, to fund LCFF with the greater of the current year, prior year, or the average of the prior 3 years' ADA to mitigate the impact of lower enrollment and attendance. This is a change in prior practice whereby funded ADA is the greater of the current or prior year ADA. The LCFF revenue is projected to be funded on the average of the 3 prior years' P-2 ADA for 2025-26 and for the two succeeding fiscal years. A small portion of the funded ADA comes from the Annual ADA, and these are for Community Day Schools, Extended Year Special Education, and Nonpublic Schools. Locally-funded (affiliated) charter schools are funded at the current year's P-2 ADA.

**Los Angeles Unified School District**

**2025-26 BUDGET**

**Major Revenue Assumptions (continued)**

The table below shows the estimated funded ADAs that were used as the basis for estimating the 2025-26 LCFF revenue.

Total	338,657.80	35,068.29

**Local Control Funding Formula (LCFF)**

The Governor’s 2025-26 May Revision provides a 2.30% increase for the Local Control Funding Formula (LCFF) and TK ratio add-on funding of \$5,545 per ADA inclusive of a 2.30% COLA and additional funding to reduce staffing ratio to 10:1 from 12:1.

The unduplicated pupil count for FY2025-26 is estimated at 309,661 for non-charter schools (including County Program students) and 18,715 for locally-funded (affiliated) charter schools. The projected three-year average unduplicated pupil percentage to total enrollment for non-charter schools is 85.95%. The locally-funded (affiliated) charter schools’ percentage of unduplicated student count to enrollment was calculated separately by school or 50.46% on average in total.

***Special Education***

The 2025-26 estimated AB602 funding for Special Education yields a total of \$477.6 million, \$445.0 million is State-funded and \$32.6 million is funded by local property taxes. ***Proposition 28 (Arts and Music in Schools)***

It is estimated that the District will receive \$71.9 million from Proposition 28 funding. Annual amount is equal to 1% of the prior year Proposition 98 K-12 minimum guarantee. 70% of the funds will be distributed to LEAs based on share of statewide enrollment in preschool through grade 12 and the remaining 30% will be distributed based on share of low-income students.
