

INTEROFFICE CORRESPONDENCE
Los Angeles Unified School District
Office of Environmental Health and Safety

TO: Local District Superintendents
Local Districts

DATE: August 17, 2022

FROM: Carlos A. Torres, Director
Office of Environmental Health and Safety

SUBJECT: AIR QUALITY ADVISORY FOR AUGUST 18, 2022

The South Coast Air Quality Management District (SCAQMD) forecasts air quality levels on Thursday, August 18, 2022, to be “unhealthy for sensitive groups” for communities located within the San Gabriel Mountains. Active children and adults, and people with lung disease, such as asthma, should reduce prolonged or heavy exertion outdoors. Refer to the attached map of schools that fall within this designated area.

The Office of Environmental Health and Safety (OEHS) will continue to monitor air quality conditions and provide updates as necessary. Please share this information as needed. Additional information may be found in each school’s Integrated Safe School Plan. Should you have any questions or need assistance, do not hesitate to contact my office at (213) 241-3199.
