I. Site Specific Planning Form

This document is to be completed by each site and posted at all LA Unified schools, along with the most current pre-filled version of the Los Angeles County Department of Public Health COVID-19 Reopening Protocols for K-12 Schools: Appendix T1. Measures that apply at all school sites are reflected in the pre-filled T1 document and those that vary by site are listed in the responses below.

School Name: _____

Date Last Revised: _____

School Address: _____

Location Code: _____

School Phone Number: _____

Campus Density

- Approximate Square Footage open: _____
 - Maximum Student Capacity: _____
 - In-person Class Size is limited to: _____
 - Number of Separate Stable Groups on campus per average day: _____
 - Maximum Number of Members per Stable Group on campus: _____
- The **estimated** total number of administrators, teachers & staff Returning to support resumption of all permitted in-person services: _____

Estimated Total Number of Students that will return for In-Person Instruction			
Enter the estimated total number of students that will return per grade (if none, enter 0)			
TK:	3:	5:	9:
K:	4:	6:	10:
1:	5:	7:	11:
2:	6:	8:	12:

School COVID-19 Compliance Task Force – Suggested job titles are listed in the table below. The Task Force for each school should be led by the principal, with a diverse group of key staff as team members, including the school nurse, plant manager and representatives from the various labor unions, which must include an offer of representation to United Teachers Los Angeles (UTLA) and Service Employees International Union (SEIU).

Role	Job Title	Name	Union Affiliation
Leader			
COVID-19 Compliance Officer			
Attendance Monitor			
Cleaning/Disinfecting Operations			
Exposure Management Advisor			
Health Office Manager			
Data Collection Manager			

Health Office Set-up and Staff

Type of Health Office	Indoor/ Outdoor	Location	Staff Person(s)	Alternate	Runner
General Health Office (Non-COVID)					
Isolation Area (Recommended Outdoors)					
Quarantine Area					

School Communications

Information that was sent to parents/students: (Check all that apply)	
<input type="checkbox"/> Isolation and quarantine policies as they apply to students who have symptoms or may have been exposed	<input type="checkbox"/> Options for COVID-19 testing if the student or a family member has symptoms or exposure to COVID-19
<input type="checkbox"/> Changes in school meals to avert risk	<input type="checkbox"/> Required use of face masks
<input type="checkbox"/> How to conduct a symptom check before students leave home for school	<input type="checkbox"/> Changes in academic and extracurricular programs to avert risk
<input type="checkbox"/> Importance of student compliance with physical distancing and infection control policies	<input type="checkbox"/> Who to contact at the school if students have symptoms or may have been exposed
<input type="checkbox"/> School policies concerning parent visits to school and advisability of contact the school remotely	<input type="checkbox"/> Importance of providing up-to-date emergency contact information, including multiple parent contact options

*Updates to this form are available at <https://achieve.lausd.net/covid19>.

II. Reopening Models

Three Models: In-School, Hybrid and Distance Learning

1: In-School Minimal COVID Spread 	2: Hybrid Moderate COVID Spread 	3: Distance Learning High COVID Spread 
<p>This model invites 100% of the student body to return for five full days of instruction inside school buildings.</p> <p>Selected when there is very low threat of COVID spread.</p>	<p>A blend of distance learning and in-school instruction with heightened social distancing, hygiene and sanitizing to minimize COVID spread.</p> <p>Selected when the threat of COVID spread is low or moderate.</p>	<p>Online instruction.</p> <p>Selected when the Department of Public Health has recommended return to full distance learning due to high volume of COVID outbreak</p>

Los Angeles Unified has considered the following three models for continuing to meet the education needs for successful learning:

1. Five full days of in-school Instruction
2. A Hybrid program of In-School and Remote Learning
3. Distance learning

Students in grades K-12 have been issued iPads, Chromebooks or laptop computers. Online platforms (such as Schoology) will be maintained by all teachers to ensure that we stay ready to move seamlessly and rapidly between in-school instruction, hybrid or distance learning as needed, and to maximize classroom instruction. High quality, online resources and technology tools are in place to support differentiation and personalized learning. We are committed to ensuring that students meet with their teachers, either in-person or online, on a regular basis. In the fall of 2021, LA Unified anticipates returning to the full in-person instruction model.

Health and Safety Compliance

Adjusting to Public Health Data

Working in close partnership with the Los Angeles County Department of Public Health, Los Angeles County Office of Education, the Governor's Office, and experts in the scientific community, we are monitoring changing health conditions in our community in order to modify plans and respond accordingly, based on public health data.

County of Los Angeles Department of Public Health: Reopening Protocols for K-12 Schools

- Schools must have a COVID-19 Containment, Response and Control Plan that describes the school's comprehensive approach to preventing and containing the spread of COVID-19 on campus.
- This plan requires the designation of a COVID-19 Compliance Team that is responsible for establishing and enforcing all COVID-19 Protocols on campus.
- One member of the COVID-19 Compliance team will be designated as a liaison to the Department of Public Health (DPH) in the event of an outbreak on campus.
- The team will also ensure that the students and staff receive education about COVID-19 and the prevention of disease transmission.

Health and Safety

The safety of students and staff is always the District's priority and of paramount importance during the current pandemic. The following plan describes the school's comprehensive approach to preventing and containing the spread of COVID-19 on school campuses. This document is the "COVID-19 Safety Plan" for the Los Angeles Unified School District and is consistent with the California State Public Health Order of June 11, 2021, Los Angeles County Public health orders and the California Code of Regulations, Title 8, Section 3205. This plan does not include protocols for instructional programs. Response to COVID-19 is a dynamic process and is subject to change, pending updates to Los Angeles County Public Health Officer Orders and newly acquired scientific knowledge that informs District actions.

Los Angeles Unified will continuously monitor the guidance and mandates set forth by those entities listed above as well as the Center for Disease Control. Updated information and guidance is posted on the COVID-19 Employee Resources website at <https://achieve.lausd.net/covid19>.

The COVID-19 Compliance Team (Task Force) for each school should be led by the principal, with a diverse group of key staff members as team members, including the school nurse, plant manager and representatives from the various labor unions, which must include United Teachers Los Angeles (UTLA) and Service Employees International Union (SEIU). The other members of the team will vary by site,

based on each school's unique needs, but may include the assistant principal, program coordinator, after-school program supervisor, and others.

The principal will be the designated liaison with LACDPH in the event of an outbreak on campus. The Principal may also designate staff to act as the COVID-19 Compliance Officer as appropriate. This must be someone who is on campus every day. The COVID-19 Compliance Task Force will be responsible for engaging with students, parents, faculty, and staff to answer questions or concerns about health and safety requirements regarding COVID-19 and communicating up-to-date policies and procedures to all families. They will work with Community of Schools (CoS) and Local District administrators to meet expectations for frequency of communication and updates to the district website (<https://achieve.lausd.net/>).

The community will be informed of any critical information or significant changes to district plans by the Superintendent or designee through a combination of Blackboard Connect messages, emails, and postings on the [District website](#). Maintaining updated family contact information is a priority for re-opening, to communicate parent surveys and follow-up communications from each school.

III. Operations Plan

County of Los Angeles Department of Public Health: Reopening Protocols for K-12 Schools

- Consider implementing measures to reduce crowding as students, parents or visitors enter and move through school buildings.
- Consider implementing measures to promote physical distancing within classrooms.
- It is strongly recommended that distance between students in the classroom and between students and teachers be no less than 3 feet.
- Consider offering physical education classes outdoors as much as possible and select activities that allow physical distancing and limited physical contact.
- Consider implementing school policies that promote physical distancing in locker rooms.
- Consider implementing measures to permit physical distancing in school areas used for student support services.
- Maintain an increased distance as much as possible during times when students or staff are not masked (e.g., due to eating, drinking or napping).
- Consider implementing measures to limit risk of infection due to visits by individuals other than staff and students.
- Consider increasing space between employees in any room or area used by staff for meals and/or breaks.

Social Distancing

Maximizing Distance in Classrooms

All classrooms have been configured to maximize space between students where possible. Based upon the recommendation of the CDC and LACDPH guidance, student workstations are spaced to provide a distance separating students that is 3 feet when feasible. Personal furniture and extra district furniture will be removed when possible.

Wherever possible, teachers have a designated presentation area in the classroom that is at least 6 feet from students. Nap or rest areas in classrooms have been placed 6 feet apart and alternating feet to head. Teaching methods have been modified to avoid close contact between students for any classes that may usually involve group activities.

Instructional activities and PE classes are offered outdoors when possible. Outdoor activities will also allow for physical distancing. Access to locker rooms will only be allowed when supervision is possible to ensure physical distancing of 6 feet. This may include staggered room access and relaxed dress out policies.

Theater and dance classes should also maintain at least 6 feet physical distance at all times with the use of face masks. When engaged in activities that could generate respiratory droplets such as enunciating (i.e., theater workshops) or dancing, physical distancing should be increased to 8 feet distance and conducted outdoors. Music classes that involve singing and instruments where a face mask must be removed to play, should maintain at least 8 feet physical distance and be held outdoors.

Social Distancing Throughout Campus

Social distancing will be maximized to the greatest extent possible. Other mitigating factors may be used when social distancing is not feasible, such as clear plastic or solid surface barriers that can be cleaned often. Signage will be posted to maintain 6-foot distance between office personnel. Tape, signs or other markings will be used to define a 6-foot radius around reception desks or counters. Workstations will be arranged to permit 6 feet between individuals sharing a space or between office personnel and students.

The maximum occupancy load must be posted at all employee breakrooms that is consistent with allowing at least 6 feet physical distance. Tables must be placed at least 8 feet apart to assure 6 feet between seats. In addition, tables or chairs may be removed or taped off to reduce occupancy levels. Seating should be arranged to minimize face-to-face contact while eating as well. Employees will be encouraged to eat outdoors. They may also eat at their desk or cubicle if these areas provide more distance or barriers.

Visual cues may be provided to support compliance with social distancing for all individuals. Distances, paths of travel, and reduced seating may be marked by various means such as "Six Feet Apart Please" signage, stickers, cones, blue painter's tape, chalk, caution barricade tape, or other means.

School employees may be deployed in hallways and areas where lines tend to form to assure physical distancing as students enter, go through symptom checks and proceed to classrooms. Stairways may be designated for up or down traffic to avoid crowding and hallways may be designated for one-way traffic.

Elevator capacity will be limited to the number of people that can be accommodated while maintaining 3-foot distance between riders. During peak building entry and exit times, this number can be adjusted to a maximum of four riders at a time for any elevator that does not allow for 3-foot physical distance between riders. All riders are required to wear face masks.

Material Sharing

Instructional Resources

Protocols have been developed to minimize the need to have multiple students sharing high touch materials when feasible. In doing so, the sharing of materials between students will be restricted. These

materials include, but are not limited to books, computers, calculators, writing utensils, computer keyboards/head phones, hall passes, art supplies, musical instruments and learning aids. Single-use disposable materials are encouraged when feasible. Each school will try to supply each student with their own materials when feasible, but if school materials must be used by multiple students, no two individuals may use the same materials on a given day without being sanitized between users. Cubbies and lockers may not be shared.

Communication/Office Supplies

General paper flyers and communications to all school communities, parents and students should be digital whenever possible, such as email, text message, or video to limit the distribution of paper materials. Encourage people to use their own writing tools instead of shared pens and pencils. Avoid commonly shared items in breakrooms such as coffee pots and dishes. Encourage the use of single use items instead.

Signs, Messages, and Training Protocols

Signs and messages explaining district protocols and expectations to stop the spread of disease will be posted throughout our schools. These signs are age-appropriate and in languages representative of our community. Staff members will all be provided with Personal Protective Equipment (PPE) supplies and will have in-service training for ensuring health and safety in the workplace.

- Signs will be posted in highly visible locations, such as school entrances and restrooms that describe how to stop the spread of germs (i.e. handwashing, facemasks).
- When communicating with families (school website, social media) messages will include health hygiene, mask wearing and social distancing habits to stop the spread of COVID-19.
- Signs and messages related to disease transmission will be accessible for students with disabilities and in languages appropriate for the school population.
- [School reopening safety signage from LAUSD Reprographics](https://www.lausdrepro.net/category/SchoolReopeningCOVID19Items) is available for schools at <https://www.lausdrepro.net/category/SchoolReopeningCOVID19Items>.

Staff members will attend mandatory training on health and safety protocols before in person instruction will begin. All staff members, including substitutes, who are hired after this date, will be required to complete training before their first day of work. Topics covered in the training will include social distancing, cleaning protocols, Health Office referrals and hygiene practices. Additional video training may be provided to students and families so they can practice before the start of school. In-person student instruction on new school protocols will include topics regarding expectations in health and safety practices.

School Building Protocols

Heating, Ventilation and Air Conditioning (HVAC) Systems

- HVAC systems will be inspected and tested regularly to confirm they operate properly.
- Ventilation systems will remain on when buildings are in use.
- HVAC filters have been upgraded to a MERV 13 rating or as high as possible, provided the unit is able to operate safely. The filters will be inspected monthly and changed at least quarterly.
- HVAC systems will be set to maximize indoor/outdoor air exchanges unless outdoor conditions (recent fire, high outdoor temperature, humidity, and pollen levels) make this inappropriate.
- Doors and windows are kept open during the school day when feasible and outdoor conditions make this appropriate. Fire-rated doors must be kept closed, in accordance with existing fire codes.
- Outdoor instruction will take place when feasible and when safety conditions and physical space allow.
- If the HVAC system is not operational, then additional ventilation should be provided with the use of fans or relocating classes until repairs are completed.
- The COVID-19 isolation areas should be outdoors when feasible to maximize ventilation and minimize exposures to COVID-19 infection. Under no circumstances should an isolation or quarantine area be in a room without a functioning HVAC system.

Restroom Protocols and Cleaning

Physical distancing should be maintained in communal bathrooms. The following restroom protocols will be implemented:

- Student restrooms will be serviced at least twice a day. Full cleaning and disinfecting using electrostatic equipment will be conducted by the night cleaning crew once per day.
- Restroom occupancy will vary by each restroom but social distancing will be maintained where feasible.
- Students and staff will be given frequent opportunities to wash their hands for 20 seconds with soap and water. Paper towels will be provided to dry hands thoroughly.
- No personal items may be stored within the restroom (including staff bathrooms).
- Trash cans will be placed near the door and students and staff will be instructed to use a paper towel to prevent touching the handle with their hands.
- A restroom will also need to be dedicated for individuals in the isolation area. This restroom must be cleaned and sanitized before other occupants may use it.

Water systems

- Students and staff will be encouraged to bring their own water or refillable bottles.
- Drinking fountains and bottle filling stations will be turned off.
- Bottled water will be available.
- Drinking water sources such as food preparation faucets will be cleaned and sanitized daily.
- Water systems will be thoroughly flushed after long periods of inactivity.

Cleaning Protocols

Los Angeles Unified will follow LACDPH and CDC guidance for cleaning and disinfecting schools.

- Routine cleaning of all buildings will occur daily.
- Health Office areas including the General Health Office, isolation area, and quarantine area, may require more frequent cleaning and rapid response as needed.
- High touch playground equipment will be disinfected at least once daily.
- When shared supplies (such as art and laboratory equipment) cannot be individualized, objects and surfaces will be sanitized between users when feasible.
- Only District-approved disinfectants effective against COVID-19 that meet all Federal and State standards (listed on the Environmental Protection Agency (EPA)-approved list “N”) will be used. The list of District approved disinfectants is available at <https://bit.ly/2GaGJec>.
- When possible, cleaning and disinfecting products with asthma-safer ingredients will be selected to reduce the risk of asthma.
- Student restrooms will be serviced at least twice daily. Additional disinfecting will be implemented when an individual with COVID-19 symptoms has used a restroom.

- Appropriate personal protective equipment will be worn during cleaning in accordance with cleaning and disinfectant product directions.
- Custodial and other staff responsible for cleaning and disinfecting school surfaces will be trained on the manufacturer's directions and as required by the Healthy Schools Act, as applicable.
- When needed, enhanced cleaning will be conducted when students are not at school or during periods of lowest occupancy with adequate time to let spaces air out before the start of the school day.
- All cleaning products will be kept out of reach for children and stored in secured locations.

Other Considerations

- Supplies of soap, paper towels, and tissues will be available.
- Protective Plexiglas guards may be installed at reception desks/food service lines.
- Personal refrigerators, microwave ovens, and coffee machines are prohibited from classrooms.

Daily Operations

County of Los Angeles Department of Public Health: Reopening Protocols for K-12 Schools

- At this time, all schools are permitted to reopen (for in-person instruction) for all students in any grades TK-12.
- Schools that have reopened may stay open even if the adjusted case rates rise.
- Schools open for in-person learning should also continue to offer 100% distance learning as an option for those families that prefer it.
- Consider adopting a school-wide approach to creating and maintaining stable groups, in which supervising adults and students stay together for all activities.
- Consider implementing measures to limit risk of infection due to visits by individuals other than staff and students.
- The use of school facilities for non-school purposes (community meetings or events) is permitted. Use of indoor school facilities provides more risk of contamination of indoor air and surfaces and care should be taken to avoid unnecessary exposure for regular school employees and students.

Stable Groups in Schools

All schools have returned to full in-person instruction and will place students into stable learning groups when feasible. These groups are implemented to reduce the number of students and staff that may be exposed if a COVID-19 individual is introduced to the group. The maximum occupancy in a classroom is

limited by the ability to maintain 3 feet physical distance.

The following is a description of how different schools may create and implement stable groups:

Early Education Centers (EEC): A single stable group of up to 12 students will be created for each teacher per classroom. The number of students may be further limited by the ability to maintain three (3) feet physical distance at all times.

Transitional Kindergarten (TK) to Grade 5: The primary stable group for students in TK through Grade 5 is their classroom. Class groups will be as consistent as feasible, with the same class group remaining with the same staff for the day when practical. The number of in-person students per stable group shall be limited by the ability to maintain three (3) feet physical distance.

Middle and Secondary School Grades 6-12: The number of students per class will be limited by the ability to maintain three (3) feet physical distance.

Visitors

Visits to the school by individuals other than students and staff shall be avoided whenever feasible and limited to those who are essential for the school's operation. Parents of enrolled students are encouraged to conduct business with school personnel remotely. All visitors must check-in and provide their name, phone number and email address, so that they can be contacted if there is an exposure during their visit. Visitors must also complete the daily screening questions through the online Daily Pass or at the entrance to the school. Visitors will be encouraged to come by appointment and alone. If a visitor must be accompanied by another person (e.g. for translation, visitor is a minor or has minor students), then their information needs to be captured in the visitor log as well.

Movement of visitors within the school should be limited to designated areas such as the main office, conference rooms, lobby and public restroom. Visitors should not interact with students.

All visitors will be required to wear a face mask at all times, regardless of vaccination status. This applies to all adults and to children 2 years of age or older. Visitors must arrange for an alternative family member to conduct business on campus if they are not able to wear a face mask. If a visitor arrives without a face mask, one will be provided. Any parent/guardian picking up a student who has been placed on isolation or quarantine, must stay outside campus and the student will be brought to them for dismissal.

Third Party Use

"Third party" means one or more of the following: an individual, group, organization, for-profit or non-profit entity, governmental agency, public (including charter) or private school or other educational institution, contractor, or business that is a separate legal entity from LAUSD.

Until further notice, any third party presence or use of LAUSD property:

1. Shall be restricted by and limited to those currently permitted by LAUSD, the California Department of Public Health (CDPH), Los Angeles County Department of Public Health (LACDPH), and/or other applicable authorities.
2. Must comply with all current requirements and guidelines established by the CDPH, LACDPH, LAUSD, and/or other applicable authorities. This shall include, but not be limited to, incorporating LAUSD's COVID-19 Containment, Response and Control Plan" ("LAUSD's Containment Plan") into any COVID-19 Safety Plan ("CSP").
3. Is not permitted without a written document signed by LAUSD's Chief Facilities Executive (or designee), and such document must be in the third party's possession and on-site at all times when the third party is present.

All charter schools on District property must adhere to the guidelines outlined in the updated containment plan. Please contact the Charter Schools Division at 213-241-0399 for specific questions.

Child Nutrition

County of Los Angeles Department of Public Health: Reopening Protocols for K-12 Schools

- Students will be served meals under the Summer Food School Program (SFSP) and the Child & Adult Care Food Program (CACFP). Three meals, breakfast, lunch and supper will be served daily to all students at no charge.
- Schools and institutions must comply with the U.S. Department of Agriculture's (USDA) regulations and policies for school meals and milk including the meal pattern requirements.
- Food preparation and service operations have been redesigned, where possible, to achieve physical distancing between employees.

Meal Program Compliance

Breakfast and lunch, compliant with USDA guidelines, will continue to be available for all students. Our Grab & Go Table will be open June 14, 2021 to July 30, 2021. Parents and guardians may pick-up meals on behalf of any child 18 and younger between the hours of 9:30 to 10:30 AM Monday through Friday.

Students on campus will be provided meals to take home. Those on virtual learning can pick up meals between 9-10 AM at our walk up Grab & Go table at each school. We will not be providing meals for adults. Additional information can be found at <https://achieve.lausd.net/cafela>.

Student Meals and Food Service

Plan for Students on Campus

If students will be consuming meals at school, they will be located outdoors whenever possible. When eating indoors, space between tables and/or chairs will be increased to 6 feet or marked off. Barriers between tables and chairs may also be utilized when 6 feet distance is not possible.

If students will need to line up to pick up food, tape or other markings will be used to assure 6-foot distance between students. Staff supervision will be exercised during this period to remind students of physical distance requirements. Buffet and family style meals have been eliminated.

Plan for In School Classes and Distance Learning

The plan for the hybrid model of in school classes along with distance learning will incorporate both types of meal services as already identified above. Parent pick up of meals would be utilized on the day(s) that school was not in session of the day(s) that the students are in distance learning.

Where possible, use disposable food service items (e.g., utensils, dishes). If disposable items are not feasible, ensure that all non-disposable food service items are handled with gloves and washed with

dish soap and hot water or in a dishwasher. Individuals should wash their hands after removing their gloves and after handling food service items.

Avoid sharing food and utensils to ensure the safety of children with food allergies and prevent the transmission of COVID-19.

Plan for Student Food Allergies

Students with special diets will be provided meals per their physician's advice.

Transportation

County of Los Angeles Department of Public Health: Reopening Protocols for K-12 Schools

- Consider maintaining measures to promote physical distancing of students on school buses since many students remain unvaccinated.
- All passengers will be required to wear a face mask that completely covers the nose and mouth during transit, prior to boarding the bus, and must be kept in place until they are completely off the bus.
- Bus passengers may sit together if living in the same household.
- Windows should be open if air quality and rider safety concerns allow.

Bus Transportation

Buses may not be filled to capacity to maintain physical distance when transporting students to school. Passengers will load into the bus from the back row to the front (where the first passengers onto the bus sit in the back row) and then unload the bus in a controlled manner upon arrival at the school from front to back by seat.

Bus arrivals may be staggered to permit more than one trip per bus and decrease crowding at drop-off points. Parents are encouraged to transport their students to and from school whenever possible to enable increased social distancing on buses. Parents may request a student be added to a bus roster. Accommodations will be made when space is available.

Bus Protocols

- Bus driver or staff member will conduct the Daily Pass health check and temperature check before allowing the students to board.
- Parents/guardians are required to stay nearby until the bus driver pulls away from the bus stop in case a student does not pass the daily screening.
- Students who report symptoms, experience exposure or who have a temperature of 100° F and

above will be isolated quarantined at the nearest school by the drop-off, if the parent is unable to pick up the student immediately.

- Students will be seated one student to a seat.
- Windows will be open to increase ventilation if air quality and rider safety allow.
- Face masks are required for all bus occupants. Disposable masks will be made available to any student boarding the bus without a mask.
- Bus drivers and bus monitors must wear face masks when there are students or more than one person on the bus.
- Buses are thoroughly cleaned and disinfected daily and after transporting any individual who is exhibiting symptoms of COVID-19 with District approved products that are listed on the EPA's list "N" of effective products for COVID-19. Frequently touched surfaces are disinfected after every completed bus route.
- Drivers will be provided disposable gloves and any other required personal protection equipment (PPE) as needed for use with cleaning products.
- Students are expected to have and wear a face mask at the bus pick-up spot, but buses will have disposable masks available for students who do not have one.

IV. Health Practices and Protocols

Practices and Protocols

Standard Public Health, Hygiene Practices and Instruction

Standard Public Health, Hygiene Practices, and Instruction

Los Angeles Unified Schools will promote health and hygiene practices that prioritize keeping our students and staff safe. District-created videos, CDC videos, posters, signs and classroom instruction will be used to educate students and families in our new health protocols. Families will be provided with informational packet prior to the start of in-person instruction so they can begin to practice protocols at home and acclimate students to the concepts of social distancing, frequent hand washing, correct use of face masks to completely cover nose and mouth, and respiratory and cough etiquette.

The following health and hygiene practices will be observed:

1. Hand Hygiene

- Teaching and reinforcement of hand washing with soap and water for at least 20 seconds.
- If soap and water are not readily available, hand sanitizer with at least 60% ethanol will be made available at school entrances and every classroom. They will be kept in secure areas and used by students with supervision.
- All students and staff will perform hand hygiene on campus at the start of each day.
- Hand-washing breaks will be incorporated into all students' daily routines, including before and after: eating or drinking, outdoor play, group activities, preparing food, touching one's face and face covering, and using the restroom.
- [Hand-washing signs](#) will be posted as visual reminders.
- Staff are instructed to model frequent hand washing, especially in lower grades.

2. Face Masks

- All students, staff and visitors are required to wear face masks while on District sites or being transported by a bus unless 2 years of age or younger.
- Students and staff are encouraged to bring their own face mask but will be provided with one if they do not have one.
- Wearing a face mask does not eliminate the need to social distance or wash hands frequently.

3. Physical distancing

- Physical distancing will be maximized to the greatest extent feasible.
- When eating or drinking, it is preferred to do so outdoors and away from others, including visitors. For staff, eating or drinking at a cubicle or workstation is preferred to eating in a breakroom if eating in a cubicle or workstation provides greater distance from and barriers between staff.

4. Enhanced Cleaning and Disinfection of Surfaces

- Staff members responsible for cleaning and disinfecting will be provided training on the appropriate and safe use of all provided cleaners and disinfectants.

5. Provide Adequate Supplies

- All restrooms will be supplied with adequate amounts of soap and paper towels.
- Hand sanitizer will be provided to all classrooms and student areas that do not have hand-washing stations, and will be available at the entrance of buildings, offices, stairway entrances and elevators and reception areas.
- All students and staff will be provided with a cloth or disposable face mask by request or if they do not have one.
- Disposable gloves will be provided to staff for medical uses, cleaning/disinfection and when handling food items.
- Facial tissues will be available in each classroom and office area.

Reporting Illnesses and Addressing Vulnerable Populations

County of Los Angeles Department of Public Health: Reopening Protocols for K-12 Schools

- Develop a plan or protocol, for steps that will be taken immediately upon notification of school officials that any member of the school community (faculty, staff, student or visitor) test positive for or has symptoms consistent with COVID-19.
- Instruct students and staff to inform the school if they are sick with COVID-19 related symptoms, particularly if they had a known contact with someone diagnosed with COVID-19 and have also had contact with the school population.
- Educate staff and families about when to stay home.
 - Instruct staff and students (or their parents and guardians) to perform a self-assessment prior to leaving for school to identify fever and other possible COVID-19 symptoms. Communicate this expectation and provide parents with reminders about the symptoms consistent with COVID-19 that require keeping their students at home.
- Symptom screening is recommended to be conducted before students, visitors and staff may enter the school. These checks can be done remotely (using a digital app or other verifiable approach) or in person upon arrival.

Stay at Home Guidelines during the COVID-19 Pandemic

Ordinarily, deciding when a child or staff member is too sick to go to school or work can be a difficult decision. For as long as the risk of community spread of COVID-19 remains, the guidelines below and advice from a health care provider should be consulted when symptoms are experienced. COVID-19 is an illness caused by a virus that can spread person to person. COVID-19 symptoms can range from mild (or no symptoms) to severe illness. The virus is transmitted through respiratory droplets when an infected person talks, coughs or sneezes. The virus may also be airborne or transmitted by touching a

surface or object that has the virus on it, and then touching your mouth, nose or eyes. Anyone with COVID-19 symptoms or COVID-19 exposure must not attend school or work and should inform the school if they are sick with COVID-19 related symptoms or if they have had known contact with someone diagnosed with COVID-19. Exposure is defined as being within 6 feet of an infected person for greater than 15 cumulative minutes within a 24-hour period, or unprotected contact with body fluids of infected person.

1. COVID-19 symptoms can vary, but symptoms may include:

- Fever above 100 degrees Fahrenheit (F)
- Chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

If a student or staff member experiences any of the above symptoms, they must stay home and should contact their health care provider for further instruction. They must also notify the school of their absence and any COVID-19 symptoms.

2. COVID-19 exposure:

If a student or staff member has had close contact (within 6 feet for greater than 15 cumulative minutes within a 24-hour period) with someone who is a confirmed case of COVID-19, the student or staff member must remain in quarantine for at least 10 days from the last day of contact with that COVID-19 case and self-monitor. The exposed person must quarantine for the full 10 days even if their own COVID-19 test result is negative. If Community Engagement has confirmed that the exposed individual is fully vaccinated and does not have symptoms, then Community Engagement may modify the quarantine period.

If a student or staff member has had close contact with someone who is an unconfirmed symptomatic case of COVID-19, they may remain on campus. If the symptomatic case subsequently tests positive for COVID-19, the close contacts, who had contact with the confirmed case during the infectious period, must quarantine immediately for the full 10 days since the last contact with that COVID-19 case, even if their own COVID-19 test is negative. If the symptomatic case tests negative, a copy of the negative COVID-19 molecular test or medical clearance must be provided.

Vulnerable employees (those above age 65 and those with chronic health conditions that would place them at high risk if infected) are assigned work that can be done from home whenever possible. Employees in this category should discuss any concerns with their healthcare provider.

Los Angeles Unified will continue to support students and staff with acute or chronic health issues. Long-term absences may be evaluated if criteria are appropriate for medical leave or other potential medical accommodations under IDEA or Americans with Disabilities Act Amendment Act (ADAAA) guidelines. Employees will also be referred to the District's [Bulletin 93900, Emergency Paid Sick Leave Act \(EPSL\) and Emergency Family and Medical Leave Expansion Act \(FMLA+\) Policy](#).

COVID-19 Daily Health Check Questions

All employees and students (or their parents or guardians) are asked to perform a self-assessment prior to leaving for school to identify fever or other COVID-19 symptoms. If the answer to the question, "Do you agree to the statement below" is NO, employees and students must remain home and notify the school or supervisor of the absence.

DAILY HEALTH CHECK

1. PERSONAL & COMMUNITY SAFETY CHECK

We can help protect the community by practicing healthy behaviors that decrease the risk of getting COVID-19. COVID-19 is commonly transmitted in homes. We successfully make our communities safer when:

We wear face coverings at school and outside the home.

We avoid inviting people into the home, other than those who need to be there.

We minimize close physical contact, which increases your exposure to the virus. (Close physical contact is being next to anyone less than 6 feet away for more than 15 minutes. People who don't have symptoms can still transmit the virus.)

Our goal is to have everyone back to school as safely as possible.

Do you agree to commit to the safest behaviors possible and in so doing, keeping the schools safer?

2. WELLNESS & EXPOSURE CHECK

Do you agree to the statements below? Please respond as accurately and honestly as possible.

I am feeling well. I have not had any of the symptoms below in the past 14 days.

Fever of 100 degrees or greater

Shortness of breath or difficulty breathing

Chills

Fatigue (new or severe)

Any of the following not due to a chronic condition

- Cough
- Congestion or Runny Nose
- Muscle or body aches
- Headache
- Sore throat
- Nausea/Vomiting
- Diarrhea
- Loss of taste or smell

I have not been in close physical contact with anyone with a confirmed or suspected COVID-19 case in the past 14 days.

I have not been informed by my medical provider that I have COVID-19 in the past 14 days.

I have not had a positive test result in the past 14 days.

I am not currently under a quarantine or isolation order.

I have not traveled outside of California in the past 10 days.

I have been as safe as possible.

If you “disagree” with any of the above, you will not be allowed to enter a school or District office and you can schedule a COVID-19 test if you are an employee or student at <https://dailypass.lausd.net>.

Subject to change depending on the LA County Department of Public Health (3/30/20).

A check-in area for the Daily Health Check will be established on site with enough space to ensure privacy and physical distancing markers every six feet. Daily upon arrival at the site, employees are to check in for health screening with the administrator/designee prior to reporting to their classroom, office, post, etc. and prior to beginning work on site.

The “Daily Health Check” signage shall be posted at all entrances so that they are visible to visitors and employees prior to check in. For increased privacy, as each person approaches check in, the administrator/designee asks a single question, “Do you agree with the statements listed?” If an employee answers “NO” they may not stay on site and are to leave the site immediately and contact their supervisor for further instructions on COVID-19 work option guidelines.

Temperature checks may also be taken at the check-in point for students, staff and visitors. If the individual has a temperature of 100° F and above, they will be given an opportunity to step aside and wait a minimum of 5 minutes to cool down and get their temperature checked again. If the temperature for the individual remains at 100° F and above during the second attempt, the individual will not be allowed on campus unless he or she is an unaccompanied student.

Adult visitors and staff who are not allowed entry, have a temperature of 100° F and above or who report symptoms at any point during the school day are instructed to return home, self-isolate and keep away from others until further instructions are given by the COVID-19 Compliance Officer.

Students who screen positive at entry, have a temperature of 100° F and above or who experience symptoms at any point during the school day will be given a surgical mask and accompanied to the designated isolation area where they can remain while arrangements are made for their return home.

The school COVID-19 Compliance Officer is informed of any positive screening results in the school and will then coordinate response with the Community Engagement team.

Screening questions may change, based on updates from the LA County Department of Public Health. Updated questions will be posted at achieve.lausd.net/covid19.

Daily Pass

The District released a web-based tool called the Daily Pass. All employees, students and visitors can use this tool to complete a required daily health check for admission to a campus or office. The daily health check will monitor for COVID-19 symptoms and potential exposure in addition to behavioral habits. Those who affirmatively complete the daily health check will receive a Daily Pass that can be used for admission to schools or District offices. Individuals who do not have access to the online tool can complete the health survey at a school or office entrance.

The Daily Pass is an online URL that provides a QR code that will allow students and employees to answer the daily screening questions in advance of arriving on site. Employees can access the system at <http://dailypass.lausd.net>. Each location has a unique QR code daily, therefore if an employee is going to multiple sites, he/she will need to login for a new QR code at each location daily.

Each site will have a check-in area for the Daily Pass health check with enough space to ensure privacy and physical distancing markers every six feet. Daily upon arrival at the site, employees and students will provide the QR code and their temperature will be checked prior to entering a District site.

Use of Face Masks and Personal Protective Equipment

County of Los Angeles Department of Public Health: Reopening Protocols for K-12 Schools

- Anyone entering school buildings or transports (school buses, etc.) who has contact with students, parents or other employees is required to wear a face mask, regardless of vaccination status.
- Be prepared to provide a mask to any student or staff member who does not have one.
- Provide a medical grade mask to any employee who cares for sick students or who has close contact.
- All staff must wear a face mask at all times, except when eating or drinking or when working alone in a private office with closed doors.
- Alternative protective strategies may be adopted to accommodate students who are on Individualized Education or 504 Plans and who cannot use or tolerate a face mask.

General Expectations

Los Angeles Unified does require all students, employees and visitors while on school property and on a school bus to wear a face mask and follow the District's protocol. This includes parents who are dropping off or picking up children. A face mask will be provided to any student or employee who does not have one.

Face Masks: A face mask may be a cloth or a disposable mask. Instructions for the [use of face masks](#) are available from the CDC. Face masks must cover the nose and mouth. It can be secured to the head with ties or straps. A cloth face mask may be factory-made or hand sewn. Face masks with one-way valves are not permitted. Face coverings are not respiratory protective equipment.

DO choose masks that	DO NOT choose masks that
 <p>Have two or more layers of washable, breathable fabric</p>	 <p>Are made of fabric that makes it hard to breathe, for example, vinyl</p>
 <p>Completely cover your nose and mouth</p>	 <p>Have exhalation valves or vents, which allow virus particles to escape</p>
 <p>Fit snugly against the sides of your face and don't have gaps</p>	 <p>Are intended for healthcare workers, including N95 respirators or surgical masks</p>

Special Situations: Glasses

If you wear glasses, find a mask that fits closely over your nose or one that has a nose wire to limit fogging

Cloth face masks must be replaced or laundered daily. Cloth masks should be laundered with your regular laundry and detergent on the warmest setting for the cloth used. Soiled or wet face masks will be replaced immediately. Parents are encouraged to provide a second face mask for school each day in case the one a child is wearing is soiled or lost.

Face masks must be worn at all times while on school property except when eating or drinking. Staff and students who are alone in closed offices, or other private, enclosed spaces are not required to wear a face mask. Students may also remove cloth face masks when eating or napping or when wearing a cloth face mask is otherwise impracticable (e.g. showering).

The following individuals are exempt from wearing a face mask per the LACDPH guidelines.

- a. Anyone for whom use of a face mask would be contrary to his or her health or safety because of a medical condition. All students who cannot wear a mask due to medical conditions must have written documentation provided from their physician on file with the school nurse. A Student Mask Accommodations Plan will be created and on file.
- b. Children that are age 2 and under.

Teachers in early grades and those with specialized groups such as Deaf/Hard of Hearing may use a plastic face shield with a tucked-in drape below the chin or a clear mask as a substitute for a cloth face mask to enable students to see their teacher's face and avoid potential barriers to instruction.

Alternative protective strategies may be adopted to accommodate students who are on individualized Education or 504 Plans and who cannot use or tolerate cloth face masks. This may include one-on-one instruction or distance learning.

Face Masks: Surgical grade masks will be provided to the following individuals:

- 1) Healthcare professionals and any staff working in the Health Office areas, including the isolation and quarantine areas
- 2) Students or staff that are placed in isolation during the school day
- 3) Staff that are providing specialized healthcare services that cannot be socially distanced
- 4) Staff that are supervising students with disabilities who cannot socially distance

N95 Respirators: N95 respirators will be worn by Healthcare Professionals who may be involved in aerosol generating procedures, such as suctioning, providing oxygen via high-flow nasal cannula, nebulizer treatments and sample collection for COVID-19 testing. Designated staff must be medically screened, trained and properly fitted to the N95 respirator according to the written Respiratory Protection Plan in compliance with by California Occupational Safety and Health Administration (Cal/OSHA) regulations (8 CCR 5144).

Employees that are in a setting where they are in close contact with other people who may not be fully vaccinated may request a N95 or KN95 respirator. These individuals may voluntarily use these respirators in accordance with the respiratory standard. They must be provided with training or materials on the proper use of these respirators.

Face Shields: Face shields protect the eyes, nose and mouth from contamination from respiratory droplets, along with masks and respirators. Face shields are worn in addition to a face mask to provide additional protection. Face shields may be used by staff who are involved in aerosol-generating procedures, by staff who support students with special healthcare needs and are not able to wear a face mask, by staff assisting students who are not able to socially distance, by staff conducting the screening procedures and by staff assisting with isolation area monitoring. Students may also wear face shields with a tucked-in drape during speech and language exercises when face coverings/masks are not appropriate for the activity, while maintaining social distancing guidelines.

Clear Plastic Barriers: A clear plastic or solid surface barrier that may be sanitized daily may be used in areas where it may be difficult for individuals to remain six feet apart. (E.g. reception desks or workstations). The use of clear plastic barriers do not eliminate the requirement for face masks.

Protective gowns: Disposable protective gowns must be worn by staff providing aerosol-generating procedures. A protective gown may be worn by staff who support students with special healthcare needs, when conducting sample collection during COVID-19 testing or when there is likelihood of coming in contact with respiratory secretions or other body fluid.

Gloves: Standard precautions will be followed by all staff using disposable single-use gloves when there is possible blood or body fluid contact. This includes, but is not limited to, during healthcare procedures, toileting students, assisting with meals, temperature screening, or any other instance where there may be contact with a body fluid, including respiratory secretions. Vinyl disposable gloves will also be required when handling food and chemicals. Gloves are not recommended unless specific responsibilities require them.

All staff will be provided training on the use of face masks and PPE.

V. Health Monitoring and Containment Plan

County of Los Angeles Department of Public Health: Reopening Protocols for K-12 Schools

- Develop a plan or protocol to initiate a [School Exposure Management Plan](#) consistent with DPH guidance that outlines procedures for:
 - Isolation of case(s);
 - Identification of persons exposed to cases at schools;
 - Immediate quarantine of exposed employees and/or students; and
 - Access to testing for all exposed individuals with the school as the basis for further control measures;
 - Reporting all confirmed COVID-19 cases at the school to the Department of Public Health.
- Develop a plan to immediately report a cluster of cases (3 or more cases within 14 days) to the DPH. DPH will work with the school to determine whether the cluster is an outbreak that will require a public health outbreak response.

Health Monitoring and Health Office Guidance

Communicable Disease Monitoring

Students and staff with suspected or positive COVID-19 cases will be managed by the COVID-19 Compliance Task Force, which must include the School Nurse. The Attendance Office will work with the COVID-19 Compliance Task Force to record and track students and staff who are absent due to illness to determine if it is COVID-19 related and requires further investigation. A designated COVID-19 Compliance Task Force member will manage data collection and collaborate with the Community Engagement Team along with the Los Angeles County Department of Public Health (LACDPH).

Daily Health Self-Assessment: All students and staff are to perform a daily self-health screening check prior to leaving home for school each day by answering the Daily Self Screening Questions listed in the previous section titled “Reporting Illnesses and Addressing Vulnerable Populations.” If any student or staff member does not agree with the daily health check questions, they must remain at home and notify their school.

School staff will also monitor self-assessments by asking if students and staff agree with the health check statements. Adult visitors and staff who screen positive at entry or who experience symptoms at any point during the school day are instructed to return home and self-isolate as required by Health Officer Order.

Students who screen positive at entry will be given a surgical mask and accompanied to the designated isolation space where they can remain while arrangements are made for their return home.

Illness at School- Any student or staff member who becomes ill at school with COVID-19 symptoms must be separated from others immediately. Staff will need to exit the school site immediately and are instructed to return home and self-isolate per Health Officer Order.

Students will be given a medical grade mask and will be escorted to the isolation area by designated staff. Students will be supervised until picked up by parent/guardian, emergency contact provided by parent/guardian, or released to another healthcare facility. Students will not be left unattended in the isolation area.

In compliance with LACDPH, each school must have a dedicated isolation area and a dedicated quarantine area separate from the health office for suspected COVID-19 cases. As each school is different and has unique challenges, there are three recommended health office set-up scenarios. Staffing needs should be considered when deciding how to physically set-up the Health Office Complex. You may contact Nursing Services at 213-202-7580 for assistance. The specific information on the health office locations and staffing must be noted on the Site Specific Planning form on page 3.

Isolation Area- Each school will identify an isolation area separate from the health office. LACDPH strongly recommends this area be located outdoors. Students who screen positive or experience COVID-19 symptoms will wait in this area until picked up by parent/guardian or transferred to a healthcare facility. All students in the isolation area will be supervised by a staff member. The staff member will be provided with a surgical mask, face shield, disposable gown and gloves. Social distancing of six feet or greater will be maintained in the isolation area. A log will be maintained by the staff person supervising the isolation area of all persons that enter the isolation area. A separate restroom will be designated for use by anyone utilizing the isolation area.

Quarantine Area- Students who have had close contact with an individual that has a confirmed COVID-19 case will be quarantined in a designated area, preferably outdoors, until picked up by a parent/guardian. Students will be grouped by stable groups and not intermingled when possible in this area. Social distancing of 6 feet or greater will be maintained. All students in the quarantine area will be supervised by a staff member. This space must remain separate and apart from the isolation and Health Office areas. If an entire stable group must be quarantined, they may remain in their classroom as a group.

Students and staff who have had close contact with an individual who is unconfirmed symptomatic for COVID-19 may continue to attend school. If the symptomatic individual subsequently tests positive for COVID-19, all individuals who were close contacts during the positive case's infectious period, must be immediately quarantined and sent home. Fully vaccinated individuals that do not develop any symptoms may only be released from quarantine by Community Engagement.

Health Office Guidance- In order to prevent potential exposure to infectious diseases for vulnerable students receiving other medical treatments, all student visits to the Health Office will be triaged and prioritized based on the severity of injury or illness. All students and staff will have their temperature and COVID-19 risk factors screened prior to arrival at the Health Office.

The School Nurse will train classroom staff on basic first aid and schools will provide basic first aid supplies in order to reduce close contacts in the health office areas.

Containment of Infection

Illness at School

If an ill person displays symptoms of COVID-19, they must be separated from others immediately. Staff will be sent home immediately. A designated isolation area and separate restroom will be utilized by students with COVID-19 symptoms until arrangements can be made for the parent/guardian to pick up or discharge to a healthcare facility.

Ill Student: Parent/guardian will be required to pick up their ill student within one hour. All students will be monitored while in the isolation area at all times. Parents/guardians should take the student to get a molecular COVID-19 test immediately, preferably at a Los Angeles Unified symptomatic testing site and should consider seeking medical advice from their health care provider. The parent/guardian will need to upload any external COVID-19 test results to the student's Daily Pass or provide a copy to the school.

Ill staff: An ill staff member will leave work immediately. If the staff member requires urgent medical care, they will be placed in the isolation area while waiting for transfer to a health care facility. Staff members should get a molecular COVID-19 test immediately, preferably at an LAUSD symptomatic testing site. They must upload any external test results to their Daily Pass and notify their employer when test results are known.

Confidentiality of the ill individuals will be maintained in accordance with Health Insurance Portability and Accountability Act of 1996 (HIPAA), privacy expectations and the ADAAA. All communication will follow the District's COVID-19 Response and Communication Protocols.

Confirmed COVID-19 Positive Student

When a school is notified that a student who was physically on campus is confirmed to have COVID-19, the COVID-19 Compliance Officer must complete the line list and have it available upon request of LACDPH or the CE Team. If the student was tested externally, the school will need to ensure the parent/guardian uploads the test result to the Daily Pass. In addition, those in close contact with the student will be notified of the potential exposure by school administration and instructed on current [LACDPH protocol](#) and [decision pathways](#) related to exposure.

In the event of multiple COVID-19 positive cases in a school or District site, the Local Superintendent may implement a distance learning to allow for LACDPH to investigate the COVID-19 situation and to implement further cleaning and disinfection procedures as recommended by LACDPH and CDC. Los Angeles Unified will communicate all dismissal decisions and possible COVID-19 exposure with all staff, families, students and stakeholders.

The Superintendent will decide, in consultation with LACDPH, if any staff will be allowed in the building during school closure and when students and staff can safely return to in-school learning.

Confirmed COVID-19 Positive Staff

When a school or office is notified that a staff member is confirmed to have COVID-19, the COVID-19 Compliance Officer must complete the line list and have it available upon request of LACDPH or the CE Team. If the employee was tested externally, the supervisor will need to ensure the employee uploads the test results to the Daily Pass. In addition, those in close contact with the staff member will be notified of the exposure by the site administrator and instructed on current LACDPH protocol related to exposure.

The Site Administrator must also ensure that the positive employee has been provided with the [workers' compensation claims form](#) (DWC-1). All positive reports for COVID-19 tests of staff must be immediately reported to the district's third party administrator for workers' compensation, Sedgwick CMS. The School Administrative Assistant or Office Manager shall follow the procedures outlined in Reference Guide [REF-1279 Workers' Compensation Claims Reporting](#).

All "serious" employee illnesses must be reported to the California Occupational Safety and Health Administration (Cal-OSHA) within 8 hours. A COVID-19 case would be considered serious if it resulted in the employee's transport to the hospital from the work place, if the employee was admitted to the hospital or if the employee passed away due to an illness occurring in or in connection with employment. All notifications to Cal-OSHA need to be made immediately and documented in ISTAR. You must also contact the Office of Environmental Health and Safety at 213-241-3199. You may refer to [Safety Alert 02-09, Reporting Employee Injuries to OSHA](#).

Exposure Management Plan

The District formed a dedicated Community Engagement team to contact those who test positive for COVID-19 on an LAUSD-provided test. Community engagement is a confidential process used to reduce the spread of the virus. Those known to be exposed to an employee or student with the virus will be contacted and will be referred for testing and medical care as appropriate.

If an employee or student tests positive, they will receive a link to view their test result via text and email with instructions to isolate immediately. The Community Engagement team will call the individual and will provide isolation instructions and proceed to contact household members, employees, and students identified to have been in close contact with the positive case, provide quarantine instructions and refer them for a test. Details of the case and the list of those exposed is submitted to the Los Angeles County Department of Public Health to conduct full public health contact tracing.

Implementing Exposure Management Plan in LA Unified Schools (Appendix T2)

Planning

Each District site is required to designate a School COVID-19 Task Force (C-19 Task Force) that ensures

that safety protocols are observed and that education is provided to staff, families and students. The leader of the school's C-19 Task Force is the principal or site administrator. The COVID-19 Compliance Officer, who acts as liaison to the Los Angeles County Department of Public Health (LACDPH), may be filled by the principal/site administrator, or it can be assigned to a designee. When selecting C-19 Task Force members, schools should include staff members who are reporting to work and represent the breadth of the school community including representatives from the various labor unions. The School Nurse and Plant Manager must be members of the COVID-19 Compliance Task Force. Members of the C-19 Task Force and the Compliance Officer must be listed on the Site Specific Planning Form (page 3).

Every positive COVID-19 case connected to a school or office requires home isolation per LACDPH protocol and generating a list of students and/or employees with exposure to the case while infectious. **Infectious** is defined as two days before symptoms first appeared until the time they are no longer required to be isolated. A person with a positive COVID-19 test but no symptoms is considered to be infectious from 2 days before their test was taken until 10 days after their test. **Exposed** is defined as being within 6 feet for more than 15 cumulative minutes within a 24-hour period, even if non-medical face masks are worn, or unprotected contact with body fluids or secretions.

Case Management

One case

The COVID-19 Compliance Officer instructs the individual who tested positive (case) to follow the COVID-19 Home Isolation Instructions and informs the case that LACDPH will contact the case directly to collect additional information and issue Health Officer Order for isolation.

The COVID-19 Compliance Officer works with the case to identify close contacts and notifies the contacts to quarantine at home and test for COVID-19 five or more days after exposure. The contacts will also be contacted by LACDPH directly to collect additional information and issue Health Officer Order for quarantine.

The School COVID-19 Compliance Officer must update the list of exposed individuals daily on the [COVID-19 Case and Contact Line List for the Educational Sector](#) of all laboratory confirmed COVID-19 cases. This information will be maintained at the site and transmitted to LACDPH via email to ACDC-Education@ph.lacounty.gov and copied to the Community Engagement team at CE-leads@lausd.net only when requested by LACDPH.

The Compliance Officer notifies the principal/site administrator of all positive cases. Community Engagement will provide the Principal with a notice to send to all employees, their union representatives and all other employers that were on the worksite during the infectious period who may have had a COVID-19 exposure within one business day. This notice of potential exposure will not reveal any personal identifying information of the COVID-19 case. Personal information of COVID-19 cases or persons with COVID-19 symptoms shall be kept confidential.

The District has a dedicated Community Engagement team who will contact each person who receives a positive test result (case) through the District's testing program, as well as those who may have been

exposed to the case. Employees or students who test positive will receive a link to view their test result with instructions to isolate immediately. The Community Engagement team will call the individual and provide isolation instructions. In addition to the list submitted by the Compliance Officer, the Community Engagement team will also contact household members, employees, and students who may have been in contact with a positive case, provide quarantine instructions and refer them for a test.

Two cases within 14 days

In addition to implementing the above measures, the Task Force reviews the need for additional infection control measures.

Three cases within 14 days

In addition to implementing the above measures, the Community Engagement Team will report the potential cluster to the LACDPH Acute Communicable Disease Control (ACDC) Education Sector Team within one business day via email at: ACDC-Education@ph.lacounty.gov or by calling (888) 397-3993 or (213) 240-7821. If the LACDPH Acute Communicable Disease team determines that these cases meet the criteria for an outbreak, LACDPH will send a public health investigator to coordinate next steps.

An outbreak for K-12 schools is determined to be at least three confirmed cases within 14 days in a group that is epidemiological linked. The group can be a classroom, school event, extracurricular, team, club, transportation. Infected persons must have been present in the same setting during the same time while infectious.

Household contacts will be grouped as a single case. Cases who have close contact outside of the school setting will be grouped as a single case. For example, if two unrelated students are being babysat by the same provider after school, and both test positive for COVID-19, they will be considered one case when establishing epi-links on campus.

The Compliance Task Force will investigate and determine possible workplace related factors that contributed to the COVID-19 outbreak. The Task Force will also review COVID-19 policies, procedures and controls and implement changes as needed to prevent further spread. The investigation and review will be documented.

Communication Plan for Transition between Instructional Models

In the event that there is a report of possible COVID spread within a school where the LACDPH recommends long-term or short-term suspension of in-person instruction, the communication plan will follow the same protocols from the District Closings & Dismissal Procedures. The District will use Blackboard Connect messages and the District and school websites to communicate with families and staff regarding any school closure. The Board of Education will be immediately informed of the reasons for the closure and procedures being put into place by the District. The District may transition to distance learning under the advisement of LACDPH.

COVID-19 Response Teams and Responsibilities

School Compliance Task Force Team

The School COVID-19 Compliance Task Force Officer will:

- Monitor illness trends of student and staff absences;
- Collaborate with the Community Engagement Team and LACDPH regarding contact tracing and any other mitigation or containment procedure as directed; and
- Notify the Principal/Site Administrator of suspected or confirmed COVID-19 illness.
- Will provide support to the student and family regarding concerns arising from COVID-19 diagnosis or exposure.
- Conduct regular Task Force meetings to identify and address deficiencies in a timely manner.

The Attendance Monitor will:

- Notify the School COVID-19 Compliance Officer daily of student or staff absences that include suspected or confirmed COVID-19 diagnosis or any symptom of COVID-19;
- Assure confidentiality of all medical information of student or staff member.

The school Principal/Site Administrator will:

- Notify close contacts of students or staff with COVID-19 exposure while maintaining confidentiality;
- Manage school dismissal if necessary and notification of school community;
- Assure confidentiality of all medical information of student or staff member.

The Plant Manager will:

- Under direction of the Facilities Director and/or School Principal will clean and disinfect the area utilized by ill students or staff per District and LACDPH and CDC protocols.

The School Nurse will:

- Provide emergency medical care, medication administration, specialized health care procedures
- Supervise and train licensed and unlicensed school staff
- Act as the Exposure Management Advisor
- Train classroom staff on basic first aid, the identification of COVID-19 symptoms and the health office area referral process.

In the event that the school does not have a full-time nurse, a Health Office Manager must also be designated. This staff member needs to be on-site full time and will be trained by the school nurse to manage the Health Office areas when the nurse is not present.

District Response Team to COVID-19 Illness

The District's COVID-19 Compliance Officer will:

- Ensure that the school and district response team have followed protocols, the communication tree has been followed and responsibilities completed;
- Will be available to students, staff and family or community members to answer questions and provide guidance.

The Superintendent will:

- In collaboration with LACDPH, determine school dismissal and closure;

The Director of Maintenance and Operations will:

- Communicate with plant managers and building custodians regarding cleaning and disinfecting protocols consistent with CDC, State and District protocols.
- Close areas used by the infected person until additional cleaning and disinfection is completed.
- Ensure custodial staff will wait 24-hours prior to conducting this cleaning in accordance with LACDPH and CDC protocols whenever possible.

The Community Engagement Team will:

- Provide guidance and information to an employee regarding medical leave due to illness or exposure;
- Conduct contact tracing and notification of potentially exposed student, staff and visitors.
- Complete the line list and notify LACDPH on all positive results and clusters.

Return to School or Work after COVID-19 Diagnosis, Symptoms or Exposure

All students or staff returning from any or suspected COVID-19 illness or exposures are to adhere to the following guidelines. All students will need clearance from the COVID-19 Compliance Task Force after safely quarantining to return to school. All staff will need clearance from the Community Engagement Team after safely quarantining to return to work.

Positive COVID-19 Diagnosis

If diagnosed with COVID-19, with or without symptoms, the following LACDPH guidelines will be followed for returning to school or work.

1. COVID-19 with symptoms - person may return when **ALL** the following are met:
 - At least 10 days have passed since the first symptoms
 - 24 hours of no fever without using fever reducing medications
 - Symptoms such as cough and shortness of breath have improved
2. COVID-19 with no symptoms - person may return when the following is met:
 - 10 days from the test date

COVID-19 Symptoms with NO testing

1. Person may return when **ALL** the following are met:
 - At least 10 days from when symptoms appeared or medical provider note 24 hours of no fever without using fever reducing medications
 - Symptoms such as cough and shortness of breath have improved

COVID-19 Symptoms with Negative Test Result

1. Person may return when all of the following are met:
 - 24 hours of no fever without fever reducing medications
 - Symptoms such as cough and shortness of breath have improved

COVID-19 Exposure

Exposure is defined as being within 6 feet of an infected person for greater than 15 cumulative minutes within a 24-hour period, or unprotected contact with body fluids of infected person. A person may return when the following is met:

- After quarantine at home for 10 days from last exposure to positive COVID-19 case.
- Exposed individuals that have tested negative for COVID-19 must still quarantine for the full 10 days.
- Exposed individuals that have been fully vaccinated may return to work or school when their vaccination status has been verified by Community Engagement.
- If individual becomes symptomatic, must follow the above guideline for COVID-19 symptoms.

VI. COVID-19 Testing Program

County of Los Angeles Department of Public Health: Reopening Protocols for K-12 Schools

- Develop a plan or protocol for incorporating COVID-19 testing in to regular school operations.
- The plan must provide that all surveillance test results are reported to the Department of Public Health.
- The plan should describe the strategy for ensuring access to testing for students or employees who are symptomatic or have known or suspected exposure to a positive case.

In response to the COVID-19 pandemic, Los Angeles Unified implemented a program to provide the enhanced safety measures at schools. The key components of the program include daily health checks, COVID-19 testing of students and staff, and community engagement to follow up on positive cases of COVID-19 and individuals who may have been exposed. Additionally, reporting procedures have been developed in accordance with the law to keep the school community informed of this testing and its results and of the District's continued health mitigation measures.

COVID-19 Testing Process

COVID-19 testing of employees and students is conducted on a regular basis, at frequencies recommended by a consortium of leading health experts from UCLA, the Johns Hopkins University and Stanford University. Additionally, household members who are symptomatic or may have been exposed to a student or employee who tests positive will be offered testing.

COVID testing is offered at multiple District sites on a daily basis. The District is providing nasal swab tests as the primary testing method. A saliva test is also available, if requested. Testing is provided to all at no charge to anyone receiving a test. Test kits have been procured from labs that are able to provide most test results within 24-36 hours.

Individuals will be notified via email and/or phone call when it is time to schedule their baseline test appointment. The samples collected are scanned, packaged and sent to the lab. Test results and demographic data collected during the testing process are shared with public health authorities in accordance with the law. All test results and data collected is stored in a secure database and kept private. Some of the data is also provided to our health experts at UCLA, the Johns Hopkins University and Stanford University for additional research, which will hopefully inform others across the nation or world of ways to keep our schools safer. Such information is only shared to the extent permitted under applicable privacy laws and/or when your express authorization has been obtained to share the information.

Baseline testing will be conducted for unvaccinated students and employees. In the 7 days prior to the reopening the school, all LA Unified students and staff who will be returning to the school campus will be provided with a back-to-school baseline test. Students whose families choose for them to remain on 100% online instruction and staff who are working remotely are not required to participate in this testing program.

Students and staff who return to school campuses will participate in symptomatic and response testing, in addition to ongoing asymptomatic testing, offered on or near their school campus.

Symptomatic and response testing is offered at various sites that are geographically identified throughout the District. Students and employees who are experiencing symptoms or who are a close contact to a positive case are directed to select sites where drive-up testing is provided by a health care provider. Individuals requiring symptomatic and response testing are provided testing services away from the asymptomatic population.

Staff and students are required to participate in the District's COVID-19 testing program prior to entering a District site, which includes testing of asymptomatic, symptomatic and exposed individuals. More information is available at <http://achieve.lausd.net/covidtesting>.

VII. Serving Students with Disabilities

County of Los Angeles Department of Public Health: Reopening Protocols for K-12 Schools

- Develop a plan for updating Individualized Education Programs (IEPs) and 504 Plans of students with special needs to ensure that education can continue without undue risk to the student.
- This plan includes a method for proactive school contact with parents to assure that issues related to the student's education and safety are being addressed.
- Modifications to IEPs and 504 plans may involve remote learning, modifications to the classroom to accommodate student needs, school attendance in a separate area with few students, or a hybrid approach combining in-class and remote learning.
- Steps taken to modify IEPs and 504 plans to assure student safety comply with relevant provisions of state and federal law.

Individuals with Disabilities Education Act /Americans with Disabilities Act

Los Angeles Unified is prepared to provide Free Appropriate Public Education (FAPE) in the least restrictive environment for each child. All students with disabilities will receive services according to their IEP. In accordance with IDEA, it is critical to reinforce the understanding that students receiving special education services or 504 accommodations are general education students first. Balancing the educational needs with the health and well-being of students and staff is the District's top priority.

Every student with a disability is entitled to FAPE, and is entitled to special education services based on their individualized education program. In order to provide the required level of safety, systems, processes and service delivery models have been reviewed. Adherence to physical distancing guidelines will be followed as feasible. Employees engaged in activities (such as provision of physical therapy or personal assistance to individual students) which may not permit physical distancing will be equipped with appropriate personal protective equipment (gloves, masks, gowns, etc.), as appropriate.

Timelines and Evaluations

All IDEA/ADA compliance timelines will be followed on schedule and in accordance with IDEA/ADA regulations. All IEP and 504 meetings will continue either virtually or in-person, as appropriate.

Service Provision

Students attending in-person instruction will receive services as outlined in their IEP.

- Where possible, each student will be included into the Least Restrictive Environment. Special education teachers supporting students in the general education setting will provide services, in small groups to students, a push in model into the classroom, one-to-one, or a combination of these, as appropriate.
- Related service providers will provide services to students in the following ways, in small groups to students, a push in model into the classroom, one-to-one, or a combination of these, as appropriate.
- The IDEA allows for flexibility in determining how to meet the individualized needs of students receiving special education services. State guidelines for the delivery of special education and related services will be implemented while protecting the health and safety of students as well as the individuals providing the services.
 - If a student is unable to access their education in person due to medical or other circumstances, alternative means of delivering these services will be provided.
- In the event that the Department of Public Health requires the level of mitigation that would require the District to return to a full Distance Learning Model, each student will have an Individualized Distance Learning Plan reinstated that is in accordance with the IEP. FAPE will continue to be provided.
- The District will provide appropriate protective equipment relative to the responsibilities of all Support Service Staff.
- If a student in special education is unable to wear a face mask, alternative protection strategies may be adopted. Additional PPE will be considered to mitigate COVID-19 spread. A Face Mask Accommodations Process is in place to support the needs of students who are unable to comply with wearing a face mask due to a disability, medical, or mental condition.
- Staff will be supplied with protective equipment as appropriate, including masks, shields, gloves and gowns.
- All Staff and students will receive training on the appropriate use of PPE and healthy hygiene practices that are proven to mitigate the spread of COVID-19.

504 Accommodations

The 504 Plan is developed to ensure that a child who has a disability identified under ADA receives appropriate accommodations that provides equitable access to the learning environment. All

accommodations within the 504 Plan will be followed. The team may need to provide other accommodations to meet specific criteria under the reopening school plan. Case managers will review 504 Plans to make sure that students receiving accommodations have equitable access to their education under the reopening plan. When required a 504 meeting will be held to provide appropriate added accommodations.

VIII. Family and Student Engagement

Family Support and Communication

County of Los Angeles Department of Public Health: Reopening Protocols for K-12 Schools

- Implement measures that communicate to the school community and the public related to policies and procedures for COVID-19 testing, physical distancing, changes in academic and extracurricular programming, parent visits to school, etc.
- Comply with all state and federal family engagement requirements (e.g., School Governance Councils and Title I requirements) during the COVID-19 pandemic.
- Prepare to provide families with clear and ongoing communication about what to expect, during and prior to reopening. This includes, but is not limited to, guidance on the school protocols related to health and safety guidelines.

Communication with, and in Support of, our Families

LA Unified places a high priority on providing timely communications to our stakeholders during this unprecedented time. The District communicates with families through multiple platforms including:

- Traditional communications (email, calls, text, U.S. mail)
- Social media (Facebook, Twitter)
- Digital media (Website, Zoom and Google Meet).
- Video broadcasts (via KLCS)

Los Angeles Unified is committed to the continual support of our families.

- The schools will engage and communicate with families via newsletters, Blackboard Connect messages, virtual informational sessions about health protocols, academic requirements, distance and in-person learning expectations and resources available for support.
- The District will continue to comply with state and federal family engagement requirements during the COVID-19 pandemic. Virtual platforms may be used to facilitate the various events the District hosts including, but not limited to monthly PTO meetings, board of education meetings, School Governance meetings, open houses, introductions from administrators, virtual tours and orientations.
- Staff training will be provided at the beginning of the school year to cover safety protocols, including physical distancing, hand washing, face coverings, respiratory/cough etiquette, and cleaning/disinfection of surfaces. Training will also be available for substitutes and new staff.
- Student training will be provided in a format appropriate to students' age groups.

COVID-19 Vaccination Support

The availability of vaccines for children ages 12-18 is an important part of our school's path to recovery. There are various Community Partner and Student & Family Wellness Centers throughout the District that will continue to offer all vaccines to children. The COVID vaccine (where available) will also be offered.

Students ages 12 and up can visit any one of our LAUSD run school-based clinic sites to receive a COVID vaccination. Please note that parents/caregivers will need to accompany children ages 12-15 years of age when they are vaccinated. All children eligible to receive the COVID vaccine who are 17 years of age and younger will require a signed parent/guardian consent. The accompanying adult may also be offered the COVID vaccine. Student appointments can be made by calling 213-202-7590. Additional information can be found at <https://achieve.lausd.net/sms#spn-content>.

Los Angeles Unified is expanding the safety net we are providing to include vaccinations as part of our commitment to do all we can to protect the health and safety of everyone in the school community. Family members of Los Angeles Unified students are eligible to receive COVID vaccinations at several of our schools' partner run vaccination centers. Additional information for an updated list of school sites can be found at <https://achieve.lausd.net/Page/17638> or by calling the Los Angeles Unified Family Vaccination Hotline at (213) 328-3958.

Social and Emotional Support

Children and adults watching the news, reading content on-line and in newspapers and overhearing talk about the current coronavirus pandemic, may feel stressed, scared, confused or anxious. Some react right away; while others may show signs that they are having a difficult time later. Every person can support wellness and healing by teaching and implementing resilience strategies. For more information, please contact our Student Health and Human Services Division at <https://achieve.lausd.net/Page/16621#spn-content> or call the Student and Family Hotline at 213-241-3840.

Student Health & Human Services provides support with mental health, accessing food, health insurance and other basic needs such as school enrollment and immunizations.

IX. COVID-19 Related Employee Benefits

California 2021 COVID-19 Supplemental Paid Sick Leave Act (SPSL):

The 2021 COVID-19 SPSL Act is a temporary law effective March 29, 2021. SPSL benefit entitlement is retroactive to January 1, 2021, set to expire on September 30, 2021, and provides up to eighty (80) hours of paid, job-protected time away from work to covered employees for qualifying reasons under the 2021 COVID-19 SPSL Act.

SPSL benefits are paid at 100% of the employee's daily assigned hours for staff who:

- are subject to a federal, state, or local quarantine or isolation order related to COVID-19;
- has been advised by a health care provider to quarantine due to COVID-19;
- have COVID-19 symptoms and are seeking a diagnosis;
- is attending a COVID-19 vaccine appointment;
- cannot work or telework due to vaccine-related symptoms.

Paid leave under the 2021 COVID-19 SPSL Act is in addition to any other paid leave benefits provided by the District and supersedes other leave forms available for use to employees for specified reasons.

District-Sponsored & Employee Benefits:

The Family & Medical Leave Act (FMLA) and the California Family Rights Act (CFRA) provide up to 12 workweeks of unpaid, job-protected time away from work to eligible employees for qualifying reasons, including an employee's own serious health condition. An employee must have at least 12 months of employment with the District within the last 7 years AND at least 130 days worked (1250 hours for units A, E, G & Classified Substitutes) in the 12 months immediately preceding the first absence for the qualifying reason. Employees may be eligible to use their own available illness (full & half-pay) days, Personal Necessity, and/or vacation with or without FMLA/CFRA benefited time for their own serious health condition.

Workers' Compensation:

Workers' compensation provides wage replacement benefits to employees who are unable to work due to an illness or injury arising out of and in the course of employment with the District. It provides medical care at no cost to the employee related to on-the-job illnesses and injuries. It prohibits employers from retaliating against employees who file a Workers' Compensation claim.

Union Contracts:

Employees may be eligible and entitled to mandatory and/or permissive leave as outlined under the Leaves of Absences section of their Collective Bargaining Agreement (CBA). Employees may be eligible

and entitled to additional benefits as outlined under any Memorandum of Understanding (MOU) and/or Side Letter Agreements for their respective bargaining unit.

Union contract information can be found on the LAUSD Labor Relation webpage: <http://www.lausd.net>. Go to “Offices,” then “Office of Labor Relations.”

State Disability Benefits (SDI):

Classified employees may be eligible for State Disability Benefits for their own illness or injury through the California Employment Development Department. SDI information can be found on the EDD website: www.edd.gov.
