**CAUTION: EXTERNAL EMAIL**

Hi.

I did just get a call back from an AQMD inspector who asked me if the emission was ongoing and I said I was not at the Site presently to know, but said what I observed is a customary part of operations at the Atlas Site. The inspector said after it came up during the discussion that I had been on the school vs. Atlas, that AQMD is aware of the situation and are working to resolve it "between the parties".

He said in the future if I were to observe something again, to call while at the Site and be able to attest that the emission is happening when someone from AQMD calls. Also, he said due to scheduling, they do not respond quickly on Mondays, unless there are three complaints made about the same incident.

Jon

Hi All,

Please find attached the complaint submitted through SCAQMD’s online system yesterday with the photo I uploaded, related to observations made when I was at the School on Friday morning. I tried to upload a video also, but was having trouble with the AQMD system and was not able to.
