

The Division of Instruction in partnership with Cengage National Geography presents

# Financial Algebra Professional Development

## WHAT IS THE PD?

This PD emphasizes the use of mathematics to model and explore real-world financial phenomena, including interpreting and justifying reasoning to make data-supported financial decisions

This PD is for high school math teachers recommended by their principals to teach Financial Algebra 1AB or Financial Algebra 2AB

## COMPENSATION

High School math teachers identified by their principals to teach Financial Algebra 1 and/or Financial Algebra 2 will be compensated at their hourly rate
