Board of Education Report

File #: Rep-133-22/23, Version: 1

2022-23 First Interim Report and Multi-Year Projections December 13, 2022 Office of the Chief Business Officer

Action Proposed:

Approve the 2022-23 First Interim Financial Report, which contains a "positive" certification (enclosed herewith as "Attachment A"). In addition, approve to submit the First Interim Report to the Los Angeles County Superintendent of Schools (CSS).

Background:

Under Education Code Sections 35035(i), 42130, and 42131, District staff must prepare and submit interim financial reports to the governing board at intervals throughout the fiscal year. As part of the interim financial reports, the Board certifies to the County Superintendent of Schools, the State Controller, and the State Superintendent of Public Instruction whether the District is able to meet its financial obligations for the remainder of the current fiscal year and the next two fiscal years, using one of three certification scenarios:

- A *positive* certification indicates that based on current projections, the district *will* meet its financial obligations for the current fiscal year and two subsequent years.
- A *qualified* certification indicates that the district *may not* be able to meet its financial obligations for the current or two subsequent fiscal years.
- A *negative* certification indicates that the district *will not* be able to meet its financial obligations for the current or subsequent fiscal year.

Expected Outcomes:

Upon adoption by the Board, the District files the First Interim Report with the County Superintendent of Schools (CSS) to be in compliance with Education Code requirements.

Board Options and Consequences:

The Board may accept the staff's determination of a positive condition or approve the report with a modification of the revenue and expenditure projections.

CSS shall review the District's certification. It has the authority and responsibility to change the certification if it determines that the District's certification was not appropriate.

In the event the District's certification is other than positive at the first interim period, it must submit a proposal to the CSS that addresses the District's fiscal conditions ("fiscal recovery plan"). In addition, it may not, in that fiscal year or the next fiscal year, issue non-voter approved debt unless the County Superintendent determines that the District shall probably make repayment of such debt issuance. CSS may also impose various restrictions on districts that fail to deal with financial issues raised in interim reports. Finally, rating agencies may consider interim reports when evaluating or revising credit ratings.

Policy Implications:

Approval and submission of the District's 2022-23 First Interim Financial Report shall comply with Education Code and LACOE requirements.

Budget Impact:

This report maintains reserves at the required statutory level.

Student Impact:

Compliance with Education Code ensures that the District shall continue to operate and serve its student population.

Equity Impact:

FIRST INTERIM FINANCIAL REPORT Fiscal Year 2022-23

2022-23 FIRST INTERIM FINANCIAL REPORT AND MULTI-YEAR PROJECTIONS

This section provides an overview of LA Unified's 2022-23 First Interim Financial Report and multi-year projections. As required under Education Code Sections 35035(i), 42130, and 42131, this report shall be submitted to the Los Angeles County Office of Education (LACOE) on or before December 15, 2022. The Board is requested to certify LA Unified's financial condition as "Positive¹," meaning that LA Unified is projected to meet its financial obligations in Fiscal Year 2022-23 and in the two subsequent fiscal years.

The First Interim Financial Report is a comparison between projected actual revenues and expenditures and the Current Modified Budget as of October 31, 2022. The Current Modified Budget includes changes since the Revised Budget in August, including changes from the 2021-22 Unaudited Actuals.

Highlights

- The First Interim Report projects a General Fund (unassigned/unrestricted) ending balance of \$139.7 million in 2022-23, and this is factored to balance future years. This ending balance is \$230.7 million lower than reported at Revised Budget in August, and \$123.3 million lower than the budget as of October 31, 2022². (See Appendix I, Tables 1 to 4, for variances between Budget and First Interim).
- For 2022-23, LA Unified is expected to meet its financial commitments and its 5% General Fund ending balance requirement which includes the 2% Reserve for Economic Uncertainties as set forth in LA Unified's Budget and Finance Policy.
- As of First Interim, the multi-year changes in expenditures and revenues resulted in a cumulative ending balance of \$409 million by the end of 2024-25. This is an increase from the \$356.2 million reported at Revised Budget in August. (See Appendix II for the details of changes in 2023-24 and 2024-25 Unrestricted General Fund).
- Although September 2022 Norm Day enrollment was 2.48% higher than projected for 2022-23, it should be noted that year-to-year enrollment trends show an overall decline. For example, the enrollment declined by 1.79% from 2021-22 to 2022-23.

¹ A *positive* certification indicates that based on current projections, the district *will* meet its financial obligations for the current fiscal year and two subsequent years.

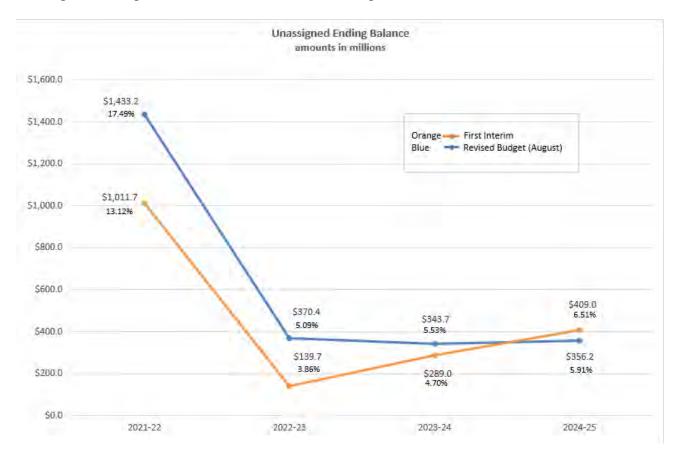

A *qualified* certification indicates that the district *may not* be able to meet its financial obligations for the current or two subsequent fiscal years.

A *negative* certification indicates that the district *will not* be able to meet its financial obligations for the current or subsequent fiscal year.

² Final Budget released in June 2022 adjusted to incorporate the Enacted State Budget, the results of Unaudited Actuals, and other changes.

Reserve Levels

LA Unified's statutory reserve requirement for economic uncertainty is 2% of total expenditures and other financing uses. LA Unified's projected expenditures exceed annual revenues. Unassigned Ending balances are shown in the following chart.

FISCAL OUTLOOK

As indicated previously, Fiscal Years 2023-24 and 2024-25 budgets utilize one-time ending fund balance; LA Unified continues to be challenged with deficit spending wherein expenditures are greater than projected revenues. The projected deficits in FY 2023-24 and 2024-25 are \$85.6 million and \$121.4 million, respectively. When calculated as a percent of the LA Unified's Unrestricted General Fund projected expenditures and other financing uses, these deficits equal to 1.53% and 2.25% in FY 2023-24 and FY 2024-25, respectively. LA Unified's practice of using one-time/non-recurring resources for ongoing expenses does not comply with prevailing best practices and has drawn comment from LACOE.

The fiscal outlook is uncertain, and we consider government agencies on projection assumptions for fiscal and policy guidance. A November 2022 report from the Legislative Analyst's Office (LAO) projects a state budget shortfall of \$25 billion in 2023-24 due to lower revenue estimates than projected in the 2022-23 Enacted State Budget. The lower revenue projections are due to an increased risk of an economic downturn brought about by rising inflation. However, LAO does not yet assume a recession in its fiscal analysis; a recession may result in further reductions to

ATTACHMENT A

revenues. Proposition 98, which establishes the minimum funding guarantee for schools and community colleges, is estimated at \$108.2 billion for 2023-24, which is \$2.2 billion below the \$110.4 billion established for the 2022-23 Enacted State Budget. Despite the decline in Proposition 98, LAO anticipates that key adjustments would allow \$7.6 billion to be available for increases to existing programs in the new year. These key adjustments include backing out one-time costs, withdrawal from the Proposition 98 Reserve (Public School System Stabilization Account), and expenditure reductions to align with student attendance. The available funding in Proposition 98 is expected to cover COLA of up to 8.38% in 2023-24. The Governor is required to submit a balanced budget proposal to the Legislature for 2023-24 by January 10, 2023. At that time, the proposal shall provide details on the State's spending plan including Proposition 98.

Revenues – The First Interim revenue projections for the General Fund (Unrestricted) are higher than the Modified Budget by a net amount of \$6.2 million primarily due to \$3.5 million refund of sales and use tax received from California Board of Equalization and \$1.5 million received in a legal settlement of a dispute over title to real property subject to eminent domain.

General Fund (Restricted) revenues are projected to be lower compared to the Modified Budget by \$1,145.6 million. Federal revenues are comprised primarily of grants, which recognize revenue based on expenditures incurred. The net decrease is primarily attributed to lower projected spending on Title I (\$111.7 million), and Elementary and Secondary School Emergency Relief (ESSER III \$742.8 million).

Expenditures³ - the First Interim General Fund (Unrestricted) expenditure projection is lower than the Modified Budget by a net amount of \$410.6 million, primarily due to the following:

- Lower expenditures in school programs: Targeted Student Population (\$530.1 million) primarily due to vacancies and maximization of one-time COVID funding, as allowed, and textbooks (\$82.1 million). These programs carry over, which means that the net unspent portion of these accounts is placed in committed and assigned fund balances to pay for program expenditures in future years.
- Lower nursing program expenditures due to vacancies and to maximize the use of one-time COVID funding, as allowed (\$71.8 million)
- Higher contribution to health and welfare and workers compensation (\$119.7 million)
- Higher contracted bus services based on new rates (\$7.4 million)
- Higher projected election costs (\$6.3 million)
- General Fund (Restricted) expenditures are projected to be lower by \$1,700.1 million compared to the Modified Budget primarily due to vacancies that also causes decline in fringe benefits and timing of spending especially on books and supplies, which compared to Modified Budget are projected based on authority.

³ Projections of expenditures are primarily based on analysis using current and historical trends with comparison to the budget as of specific periods of time. This includes validation with program staff for projection of future trends and estimates.

Net Contributions/Transfers 4

- Indirect costs recovery in Unrestricted decreased due to lower expenditures projected in restricted programs and other special revenues funds
- Transfer-out from GF Unrestricted to support the Child Development Fund is lower by \$10.7 million. For 2022-23, Districts are allowed to recognize revenue in the Child Development Program based on contract amount instead of child days of enrollment. This resulted in higher revenue earned in the Child Development Fund, thereby reducing the support/transferout from GF Unrestricted.
- Contribution from GF Unrestricted to support GF Restricted programs is lower by \$63.5 million compared to the Modified Budget. This is a result of charging qualified expenditures to one-time COVID funds instead of charging to the Special Education (SPED) program. These include ARP-IDEA, which can be used to support any Special Education expenditures; SPED Learning Recovery, which is used for additional SPED teachers and assistants; and the board-approved ELOG plan, which supports the Extended School Year program. This is offset by a higher GF Unrestricted contribution to Routine Restricted Maintenance Account of \$3.5 million based on higher projected spending.

Cash flow – The ending cash balance as of June 30, 2023, is projected to be approximately \$5.5 billion.

5

⁴ Contributions represent amounts contributed within the General Fund when expenditures incurred for a given restricted resource (e.g., Special Ed program) exceed the amount available for expenditure. Transfers are inflows/outflows of moneys between funds (e.g., Child Development Fund) for various purposes including support for program activities.

General Fund Ending Balances – The summary of changes as discussed above resulted in a net increase in the unrestricted and restricted ending balances by \$441.9 million and \$538.1 million, respectively. The unrestricted ending balance is composed of non-spendable, committed, assigned and unassigned/unrestricted categories, and shall be used to balance future fiscal years.

- Committed Ending Balance: funds are subject to internal policies and constraints. These policies are self-imposed by the LA Unified's highest level of decision-making authority. Projected contributions to the OPEB Trust are part of this committed balance.
- Assigned Ending Balance: carryover funds that are intended to be used for a specific purpose.
- Unassigned/Unrestricted Ending Balance: The First Interim unassigned/unrestricted ending balance is \$123.3 million lower than the Modified Budget for 2022-23 fiscal year. This results in a reduction of the beginning balance for the 2023-24 fiscal year.

Restricted ending balance represents unspent balance from legally restricted funding sources.

- This is primarily comprised of federal grants such as Titles I – IV and COVID Funding such as ESSER II and ESSER III.

APPENDIX II

2023-24 AND 2024-25 UNASSIGNED/UNRESTRICTED GENERAL FUND MULTI-YEAR BUDGET PROJECTIONS

The chart below shows the net changes in unassigned/unrestricted General Fund balance by comparing First Interim with Revised Budget in August. This considers cumulative projected increases and decreases in revenues and expenditures across the three fiscal years:

Amounts in Millions	2022-23	2023-24	2024-25
Unassigned/Unrestricted Ending Balance at Revised Budget (August)	\$370.4	\$343.7	\$356.2
Net Changes from Revised Budget to First Interim	(\$230.7)	(\$54.7)	\$52.8
Revised Unassigned/Unrestricted Ending Balance at First Interim (October)	\$139.7	\$289.0	\$409.0

The 2021-22 Unassigned/Unrestricted Ending Balance, which resulted in a lower beginning balance starting in 2022-23, has been factored into the 2023-24 and 2024-25 multi-year projections. The estimated unassigned/unrestricted ending balance by the end of 2024-25 is \$409 million.

- Changes in Revenues Revenues and Other Financing Sources in 2023-24 and 2024-25 are estimated to increase mostly due to higher estimates of LCFF revenue and interest income.
 - o The 2022-23 norm day enrollment is higher than projected, which resulted in increased funded ADA in subsequent years. LCFF revenue increased by \$41.3 million in 2023-24 and \$42.9 million in 2024-25. Beginning in 2022-23, LCFF revenue for LA Unified is calculated based on the average of the three prior years' ADA.
 - o Increased estimates for interest income are due to assumptions of a higher interest rate from previous estimates and average daily cash balance. Estimated interest income increased by \$41.6 million and \$38.7 million in 2023-24 and 2024-25, respectively.
 - Pool to increase in interest rates has also caused the unrealized losses in the Treasury Pool to increase. Although not included in the First Interim Report, the unrealized loss attributable to the General Fund is \$216 million as of September 30; \$159 million was recognized as of year-end 2021-22 and was factored in the lower beginning balance starting 2022-23. The increase of \$57 million in the unrealized loss is subject to and expected to change prior to June 30, 2023. At this juncture, it would be premature and border on being speculative for us to give an assurance that the number would grow or improve the balance as of June 30, 2022.
- Changes in Expenditures, Contributions, and Assignments Net changes in estimated expenditures, contribution, and assignments in 2023-24 and in 2024-25 are projected to change the estimated ending balance. Major changes include the following:
 - o Decrease in support to Child Development Fund of \$36.6 million and \$32.3 million for 2023-24 and 2024-25, respectively, to align expenditures.

ATTACHMENT A

- o Higher utilities costs mostly due to increased usage in schools and offices of \$32.5 million and \$36.4 million for 2023-24 and 2024-25, respectively.
- Lower indirect cost rates due to the exclusion of food costs from indirect cost calculations. The revision to the calculation was released by the Office of Financial Accountability and Information Services within the California Department of Education.

Assigned Ending Balances

Appendix III shows assigned ending balances by program. School site carryovers, which include the General Fund School Allocation and School Site Programs, account for an approximate 3-year average of 88% of LA Unified's assigned ending balances. Some of the estimated carryovers also have corresponding matching revenues, such as donations, filming, civic centers' permits, class fees, and other fee for service programs.

GENERAL FUND FIRST INTERIM FINANCIAL REPORT 2022-23

Comments on Significant Differences between Budget and Projections

Revenues, Expenditures, and Other Financing Sources/Uses

Revenues

- A-1 The Federal Revenue is lower by \$1,027.3 million primarily due to the projected lower spending in grants such as: Title I, \$111.7 million (to be spent in the summer of FY 2023); Title II, \$18.0 million; Title III, \$11.0 million; Title IV, \$21.4 million; Other NCLB/ESSA (Every Student Succeeds Act), \$5.3 million; Gear Up, \$10.8 million; Special Ed IDEA Entitlements, \$27.5 million; ESSER, \$742.8 million; and ELOG, \$53.1 million.
- A-2 The \$118.0 million projected lower Other State Revenue is mainly due to lower projected spending in grants such as: Career Technical Education Incentive Grant, \$5.1 million; After School Education and Safety, \$53.0 million; Educator Effectiveness, \$26.5 million; and A-G Completion Improvement Grant, \$14.9 million.
- A-3 The projected higher Other Local Revenue of \$5.8 million is primarily due to Sales Tax (\$3.5 million) and legal settlement (\$2.0 million) recoveries.

Expenditures

- B-1 The lower expenditures in Certificated Salaries is primarily due to salary savings from various vacant positions across the District.
- B-2 The decrease in Classified Salaries is primarily due to salary savings from various vacant positions across the District.
- B-3 The lower expenditure projection in Employee Benefits is primarily due to lower projections for salary and wages due to various vacant positions across the District.
- B-4 The decrease in Books and Supplies is mainly due to projected underspending in materials and supplies in specially funded and Path to Recovery programs. The net unspent portion of these accounts will carry over into the next fiscal year to pay future obligations.
- B-5 The projected over-spending in Services and Other Operating Expenditures is primarily due to higher projected liability insurance premiums and utilities.

- B-6 Capital Outlay is projected to be higher due to decreased spending for equipment and buildings and improvements of buildings.
- B-7 Other Outgo is projected to be lower due to lower debt service.
- B-8 Transfers of Indirect Costs are projected to be lower due to lower spending in other funds.

Other Financing Sources/Uses

D-1 The decrease in Transfers Out is primarily due to a lower projected subsidy for Child Development Fund.

Provide methodology and assumptions used to estimate ADA, enrollment, revenues, expenditures, reserves and fund balance, and multiyear commitments (including cost-of-living adjustments).

Deviations from the standards must be explained and may affect the interim certification.

CRITERIA AND STANDARDS

1. CRITERION: Average Daily Attendance

STANDARD: Funded average daily attendance (ADA) for any of the current fiscal year or two subsequent fiscal years has not changed by more than two percent since budget adoption.

District's ADA Standard Percentage Range: -2.0% to +2.0%

1A. Calculating the District's ADA Variances

DATA ENTRY: Budget Adoption data that exist for the current year will be extracted; otherwise, enter data into the first column for all fiscal years. First Interim Projected Year Totals data that exist for the current year will be extracted; otherwise, enter data for all fiscal years. Enter district regular ADA and charter school ADA corresponding to financial data reported in the General Fund, only, for all fiscal years.

1B. Comparison of District ADA to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD NOT MET - The projected change since budget adoption for funded ADA exceeds two percent in any of the current year or two subsequent fiscal years. Provide reasons why the change(s) exceed the standard, a description of the methods and assumptions used in projecting funded ADA, and what changes will be made to improve the accuracy of projections in this area.

Explanation:

(required if NOT met)

The increase in funded ADA is due to the (1) implementation of the COVID-19 ADA relief which adjusts the 2021-22 reported attendance to the 2019-20 attendance yield, and (2) update of 2022-23 projected ADA using 2022-23 actual (norm day) enrollment (applies only to 2023-24 and 2024-25).

2. CRITERION: Enrollment

STANDARD: Projected enrollment for any of the current fiscal year or two subsequent fiscal years has not changed by more than two percent since budget adoption

District's Enrollment Standard Percentage Range: -2.0% to +2.0%

2B. Comparison of District Enrollment to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD NOT MET - Enrollment projections have changed since budget adoption by more than two percent in any of the current year or two subsequent fiscal years. Provide reasons why the change(s) exceed the standard, a description of the methods and assumptions used in projecting enrollment, and what changes will be made to improve the accuracy of projections in this area.

Explanation:

(required if NOT met)

The change in 2022-23 is due to the reflection of norm day enrollment. Yearly enrollment shown above is actual/projected norm day enrollment plus actual/projected nonpublic schools enrollment.

3. CRITERION: ADA to Enrollment

STANDARD: Projected second period (P-2) average daily attendance (ADA) to enrollment ratio for any of the current fiscal year or two subsequent fiscal years has not increased from the historical average ratio from the three prior fiscal years by more than one half of one percent (0.5%).

While ESSER III's grant in 2022-23 was budgeted in its entirety, First Interim in 2022-23 reflects ESSER III's projected revenue earned based on estimated expenditures. Any projected unspent amount is reflected in 2023-24 for further program implementation. In 2024-25, the adopted budget is the authorized budget which includes carry over and new fundings that the District anticipated while the First Interim budget projection is based upon the current year spending trend.

The decrease in 2022-23 is mainly due to the redistribution of projected costs for Path to Recovery from 4000 Objects to 5000 Objects. The increase in 2023-24 is mainly due to higher projected ESSER III and ELOP related spending. The increase in 2024-25 is mainly due to higher projected spending in schools temporarily placed in objects 4000-4999 until the proper objects of expenditures are determined.

DATA ENTRY: Enter an explanation if Not Met for items 1a-1c or if Yes for Item 1d.

1a. NOT MET - The projected contributions from the unrestricted general fund to restricted general fund programs have changed since budget adoption by more than the standard for any of the current year or subsequent two fiscal years. S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements that have been ratified since budget adoption, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

If salary and benefit negotiations are not finalized, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards and may provide written comments to the president of the district governing board and

	superintendent.
