The Honorable Board of Education
Los Angeles Unified School District
333 South Beaudry Avenue
Los Angeles, California 90017

Dear Board Members:

The Comprehensive Annual Financial Report of the Los Angeles Unified School District (District), for the fiscal year ended June 30, 2009, is hereby submitted. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. The report also includes a "State and Federal Compliance Information" section, which is designed to meet the reporting requirements of the Office of the California State Controller, the U.S. General Accounting Office, the U.S. Office of Management and Budget, and the Single Audit Act Amendments of 1996.

Independent Audit

EC §41020 provides that each school district shall arrange for an audit by certified public accountants of its books and accounts, including the District's income by source of funds and expenditures by object and program. The District's contract auditor for 2008-2009 is Simpson & Simpson, CPAs. The independent auditor's report on the basic financial statements is presented in the Financial Section of this report on page 1.

Audit Results

The District received an Unqualified financial audit, which means that there were no significant findings during the audit of the financial statements. For the federal compliance audit, 3 programs received an Unqualified audit and 14 programs were Qualified. The District received an Unqualified state compliance audit. The Qualified federal compliance audit indicates that there were material weaknesses discovered during the audit.

The District is pleased that the number of findings during 2008-2009 declined from 43 to 29. In addition, the amount of the questioned costs declined 67%, from \$17.2 million in 2007-2008 to \$5.6 million in 2008-2009. Even with these improvements, the District will continue to work with schools and offices to focus on resolving the remaining areas of internal control and compliance issues.

Comprehensive Annual Financial Report

This report is presented in five sections:

I. Introductory

This section includes this transmittal letter, a list of members of the Board of Education and principal school district officials, and a chart of the District's current organizational structure.

II. Financial

This section includes the government-wide financial statements and individual fund financial statements and schedules, as well as the Independent Auditor's Report from Simpson & Simpson, CPAs. It also includes a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The MD&A provides an objective and easily readable analysis of the District's financial activities on both a short- and long-term basis. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

III. Supplementary

This section includes combining financial statements for nonmajor funds, schedules for capital assets and long-term obligations, and informational schedules for General Fund, Adult Education Fund, and Child Development Fund.

IV. Statistical

This section includes selected statistical tables and schedules, generally presented on a multi-year basis, which reflect social and economic data, financial trends, and the fiscal capacity of the District.

V. State and Federal Compliance Information

This section includes: the auditor's reports on issues of compliance with reporting requirements of the Office of the California State Controller, U.S. General Accounting Office, U.S. Office of Management and Budget, and the Single Audit Act Amendments of 1996; a schedule of average daily attendance; schedules of State and Federal financial grants and entitlements; a schedule of financial trends and analysis; and the auditor's reports on internal controls and their management improvement recommendations.

Profile of the Los Angeles Unified School District

The District encompasses approximately 710 square miles in the western section of Los Angeles County. The District is located in and includes virtually all of the City of Los Angeles and all or significant portions of the cities of Bell, Carson, Commerce, Cudahy, Gardena, Hawthorne, Huntington Park, Lomita, Maywood, Rancho Palos Verdes, San Fernando, South Gate, Vernon, and West Hollywood, in addition to considerable unincorporated territories devoted to homes and industry. The District was formed in 1854 as the Common Schools for the City of Los Angeles and became a unified school district in 1960.

As of June 30, 2009, the District is operating 437 elementary schools, 76 middle/junior high schools, 68 senior high schools, 60 options schools, 11 multi level schools, 17 special education schools, 22 magnet schools and 138 magnet centers, 24 community adult schools, 5 regional occupational centers, 5 skills centers, 1 regional occupational program center, 100 early education centers, 4 infant centers, and 28 primary school centers. The District is governed by a seven-member Board of Education elected by district to serve alternating four-year terms. As of June 30, 2009, the District employed 46,133 certificated,

33,773 classified, and 19,030 nonregular employees. Enrollment as of October 2008 was 637,051 students in K-12 schools, 147,406 students in adult schools and centers, and 10,787 children in early education centers.

As a reporting entity, the District is accountable for all activities related to public education in most of the western section of Los Angeles County. This report includes all funds of the District with the exception of the fiscally independent charter schools, which are required to submit their own individual audited financial statements, and the Auxiliary Services Trust Fund, which is not significant in relation to District operations. The Auxiliary Services Trust Fund was established in 1935 to receive and disburse funds for insurance premiums on student body activities and property, “all city” athletic and musical events, grants restricted for student activities, and other miscellaneous activities.

Economic Condition and Outlook

As of this writing, the United States economy is still in the recession that began in December 2007. The unemployment rates for both the nation and California has generally been increasing since this date. As indicated in the table below, California’s unemployment rates for the months of January 2009 through December 2009 have been higher than the nation’s.

Month (2009)	U.S.	California
January	7.60%	10.10%
February	8.10%	10.60%
March	8.50%	11.20%
April	8.90%	11.10%
May	9.40%	11.60%
June	9.50%	11.60%
July	9.40%	11.90%
August	9.70%	12.30%
September	9.80%	12.30%

California’s State budget has been revised several times due to unstable economic conditions. The Governor’s State Budget for 2009 was enacted in February 2009, and served as the basis for the school districts’ 2008-2009 Second Interim report. Subsequently, the May Revised State Budget served as the basis for the school districts’ closure of the 2008-2009 budget and the development of the 2009-2010 budget. Lastly, the revised 2009-2010 State Budget enacted in July 2009 served as basis for the school districts’ 2009-2010 budget planning.

The May Revised State Budget included budget balancing solutions which did not materialize in the May 2009 statewide special election. These solutions comprised of Propositions 1A, 1B, and 1C which were most critical and significant for local education agencies. Because the aforementioned propositions did not pass in the May 2009 statewide special election, the basis for the school district’s 2008-2009 budget reverted back to the February 2009 State Budget.

Chronology of State Budget Adoptions

On December 1, 2008, the Governor declared a “fiscal emergency” which required the Legislature to hold a special session that must be acted upon within 45 days.

In response to a 2008-2009 projected deficit of \$11.2 billion and a projected deficit over a two-year period (2008-2009 and 2009-2010) of \$28 billion, the Governor proposed in the *first extraordinary session* a set of actions to address the deficit, including a \$2.5 billion reduction to Proposition 98. The Legislature developed a majority-vote budget package but did not send it to the Governor due to a threat of a veto. During the *second extraordinary session*, the Governor cited a continued decline in revenues and a 2008-2009 deficit of \$14.8 billion with a total projected deficit of \$41.8 billion for 2008-2009 and 2009-2010 periods.

On December 31, 2008, ten days before the constitutional deadline, the Governor released his budget for 2009-2010. In addition to the proposed 2009-2010 budget, the Governor proposed significant proposals to the enacted 2008-2009 budget to address the state’s fiscal crisis. The package included proposals for expenditure reductions across most programs, additional revenues, securitization of the lottery, and borrowing.

In early January, the Legislature came up with its own proposed budget proposals in response to the Governor’s second extraordinary session requests and January budget proposals. The Governor vetoed the package and called a third extraordinary session.

February Action

In February 20, 2009, the budget package was released which included the 2009 Budget Act, amendments to the 2008 Budget Act, various trailer bills that amended the California Education Code and other California codes to reflect technical changes necessary to implement the budget. At this time, the projected deficit for the two-year period 2008-2009 and 2009-2010 was \$41.6 billion. The budget balancing solutions included spending cuts (\$14.9 billion), revenue increases (\$12.5 billion), borrowing (\$5.4 billion), federal dollars (\$7.9 billion), and various ballot measures that were included in the May 2009 election. The budget package specifically includes the following items:

- Funding reductions affecting general purpose funding (revenue limits) and most categorical programs in 2008-2009 and 2009-2010, and
- Flexibility in spending funds from many categorical programs through 2012-2013

Governor’s May Revision

On May 14, 2009, five days before the May election, the Governor released his May revision of the budget which indicated the continued decline in the state’s economy, thus, increasing the estimate of the two-year budget gap. The budget package comprised of two alternatives: (1) if the proposed ballot measures were adopted, and (2) if the proposed ballot measures failed. The ballot measures failed which in turn increased the budget gap to \$63 billion. Some major proposed changes included: (1) additional reductions to school district apportionments in both 2008-2009 and 2009-2010, (2) additional deferrals of school district apportionments payments from 2009-2010 to 2010-2011, (3) child care changes associated with eliminating the CalWORKs cash aid program, and (4) a provision that would allow school districts to reduce the instructional day/year by up to seven days, limited to no more than three years.

Final Amended Budget Act of 2009

On July 1, 2009, the Governor called a fourth extraordinary session to address the state’s worsening economic condition and the out of balance February budget. On July 28, 2009, the Governor signed bills to

address the then \$24 billion budget gap, to amend the Budget Acts of 2008 and 2009, and to make statutory changes necessary to implement the budget package.

The Proposition 98 minimum funding level was certified in ABX4 3 for fiscal years 2005-2006 through 2008-2009, which specifies an outstanding maintenance factor of \$11.2 billion to be restored over time to the Proposition 98 base as the state's economy and revenues improve, per California constitutional requirements. This budget package reduced \$1.6 billion in 2008-2009 Proposition 98 funding through a reversion ("sweep") of undistributed categorical program balances. It provided funding in 2009-2010 to backfill \$1.5 billion of these cuts and provided for a per ADA reduction to revenue limits, charter school general purpose entitlements, and if necessary, categorical programs.

Federal Funding

The Federal government funds from the American Recovery and Reinvestment Act (ARRA) provides additional funds for Title 1 and Individuals With Disabilities Education Act (IDEA). Additionally, the Federal government backfills the 2008-2009 cuts from the revenue limit and categorical programs through the State Fiscal Stabilization Funds. These funds are one-time in nature which will boost 2009-2010 funds but drastically reduce the 2010-2011 funds.

School District Budget

As a result of the various state budget changes, the following are some major highlights for school district budget development.

- COLA for 2008-2009 and 2009-2010 are 5.66% and 4.25%, respectively, with corresponding deficits rates of 7.844% and 18.355%
- COLA for the out years 2010-2011 and 2011-2012 are estimated at -0.38% and 1.80%, respectively, with a deficit rate of 18.355% for both years (based on the Governor's Proposed 10-11 Budget released on January 8, 2010)
- One-time reduction to 2009-2010 revenue limits of \$252.83 per 2008-2009 P-2 ADA
- 2009-2010 revenue limits were originally decreased by the corresponding amount received for Quality Education Investment Act (QEIA) but was later revised in Assembly Bill 56 of the third extraordinary session so that there will be no reductions to revenue limits but instead will be funded from the state's reversion of funds for categorical programs
- Elimination of COLA for all categorical programs for both 2008-2009 and 2009-2010 and reductions to most programs of 15.38% for 2008-2009 and 4.46% for 2009-2010
- Categorical programs were classified into three tiers to help identify the application of funding reduction and flexibility as to use as follows: Tier I with no funding reduction and no flexibility as to use, Tier II with funding reduction but no flexibility as to use, and Tier III with both funding reduction and flexibility as to use
- Flexibilities allowed in the budget include: (a) transfer of 2007-2008 categorical ending fund balances (with some exclusions) to the unrestricted portion of the General Fund on a one-time basis; and (b) transfer of most categorical program balances for any educational purpose, which includes transfer to the unrestricted portion of the General Fund, with some exceptions; this flexibility is in effect from 2008-2009 through 2012-2013
- Change in K-3 Class Size Reduction funding for 2008-2009 to 2011-2012 to reflect the new funding structure and funding cap which is limited to the number of classes applied for in the 2008-2009 application
- Shift of Home-to-School Transportation program from Tier I categorical program to Tier II categorical program

- Reduction of the required contribution into Routine Restricted Maintenance Account from three percent to one percent of the General Fund expenditures through 2012-2013
- Elimination of the district's matching requirements of one-half of one percent for the Deferred Maintenance Program; the State share continues to be funded as part of the Tier III Categorical Program
- Change in the required Reserve For Economic Uncertainties to one-third of the percentage in the Criteria and Standards for 2009-2010 and full restoration of the requirement by 2011-2012
- ARRA funding for Title 1, Individuals With Disabilities Education Act (IDEA), and the State Fiscal Stabilization Funds are one-time funds and should be spent by September 30, 2011
- Flexibility to reduce instruction by up to five days without losing any incentive funding to maintain a 180-day school year through 2012-2013
- Flexibility to reduce the amount of set aside for facility maintenance and to use funds from the sale of surplus property for non-facility related purposes
- Suspension of the purchase of newly adopted instructional materials through 2012-2013
- Extension of the QEIA program for one additional year through 2014-2015
- State's deferrals of specific apportionments and the change in the schedule of principal apportionment payments and special purpose apportionment payments to 5% each month for July and August and 9% each month through the rest of the fiscal year

The District's ongoing financial challenges remain, at the core of which are declining enrollment's impact, revenue reduction, and employee health benefits' rising costs. The District will continue to work to address these challenges and respond to the continuing grim economic situation.

Superintendent's Strategic Plan

The Los Angeles Unified School District's mission is to provide high quality instruction and a coherent and rigorous curriculum in every classroom to facilitate student learning and achievement.

In collaboration with teachers, administrators, classified staff, students in secondary schools, and community members, the Superintendent has developed the following strategies in line with this mission statement:

- Improved academic achievement for all students
- Improved graduation rates for all students
- Effective individual counseling
- Strong parent, community and school connections
- Safe and orderly schools

Local Bonds:

a) Proposition BB Bonds

Proposition BB authorized the District to issue general obligation bonds in an amount not to exceed \$2.4 billion. The purpose of the issuance of the Bonds is to provide needed health and safety improvements to more than 800 deteriorating school buildings and 15,000 classrooms, including upgrading electrical wiring and plumbing; repairing decaying roofs and walls; earthquake retrofitting and asbestos removal; providing infrastructure for computer technology and science laboratories; providing air conditioning for classrooms; enhancing student safety with lighting, fences, and security systems; funding and/or providing matching funds for construction and additions at several schools and the building of 100 new schools to reduce class size and decrease busing.

The Bonds represent a general obligation of the District. The Board of Supervisors of the County of Los Angeles is empowered and obligated to levy ad valorem taxes, for the payment of the interest and principal of the Bonds, upon property subject to taxation by the District. Such taxes, when collected, will be placed by the County in the District's Debt Service Fund, which is required to be maintained by the County and used solely for the payment of the Bonds and interest thereon when due.

b) General Obligation Bonds – Proposition 39

Proposition 39, which was approved by California voters in November 2000, provides an alternative method for passage of school facilities bond measures by lowering the constitutional voting requirement from two-thirds to 55% of voters and allowing property taxes to exceed the current 1% limit in order to repay such bonds. This 55% lower threshold of voters approved applies only for bond issues to be used for construction, rehabilitation, and equipping of school facilities. Additional legislation also placed certain limitations on this lowered threshold, requiring that 1) two-thirds of the governing board of a school district approve placing a bond issue on the ballot, 2) the bond proposal is to be included on the ballot of a statewide or primary election, a regularly scheduled local election, or a statewide special election (rather than a school board election held at any time during the year), 3) the tax rate levied as a result of any single election cannot exceed \$25 for a community college district, \$60 for a unified school district, or \$30 for an elementary school or high school district per \$100,000 of taxable property value, 4) the governing board of the school district appoint a citizens' oversight committee to inform the public concerning the spending of the bond proceeds (the Blue Ribbon Citizens' Oversight Committee serves this role), and 5) an annual, independent financial and performance audit be required until all bond funds have been spent to ensure that the funds have been used only for the projects listed in the measure. The District is in full compliance with all Proposition 39 requirements. The District's Measure K, Measure R, Measure Y and Measure Q bond programs were authorized pursuant to Proposition 39.

- On the November 5, 2002 ballot, Measure K was approved and authorized the District to issue up to \$3.35 billion of General Obligation Bonds (Bonds). These funds would be used to: build new neighborhood schools, repair aging and deteriorating classrooms, improve early childhood programs, upgrade safety and technology, expand public charter schools, develop joint use projects in collaboration with city, state, federal, and private agencies, and provide for library books at new schools and improve library technology.
- Measure R or the Safe and Healthy Neighborhood Schools Improvement Act of 2004 was passed on March 2, 2004. The District was authorized to issue and sell up to \$3.87 billion in General Obligation Bonds to provide financing for specific school facilities projects subject to all of the accountability safeguards such as annual performance audits. All Bond expenditures are subject to review and oversight of the Citizens' Bond Oversight Committee.
- Measure Y or the Safe and Healthy Neighborhood Schools Repair and Construction Act of 2005 was passed on November 8, 2005. It authorized the District to issue and sell up to \$3.985 billion in General Obligation Bonds to provide funds for the renovation, modernization, construction, and expansion of school facilities. The District has established a separate Measure Y Building Fund to account for the income and expenditures of the bond proceeds.
- Measure Q or the Safe Healthy Neighborhood Schools Measure was passed on November 7, 2008. It authorized the District to issue and sell up to \$7.0 billion in General Obligation Bonds to continue to repair/upgrade aging/deteriorating classrooms, restrooms, upgrade fire and earthquake safety, reduce asbestos, lead paint, air pollution, water quality hazards, build/upgrade specialized

classrooms students need to meet job and college requirements and improve classroom internet access. As of August 15, 2009, the District has not issued any Measure Q bonds.

Financial Information

The District maintains internal accounting controls designed to provide reasonable assurance that assets are safeguarded against loss from unauthorized use and disposition and to provide reliable records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes the importance of a close evaluation of costs and benefits, which requires estimates and judgments by management. The objective is to establish effective internal controls, the cost of which should not exceed the benefits derived therefrom. We believe that the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

School districts in California are required by Education Code Section 41010 to follow the California School Accounting Manual in preparing reports to the State. The District, under Assembly Bill 1200 (Chapter 1213, Statutes of 1991), has utilized a dual-adoption budget schedule. The District has adopted a Superintendent's Provisional Budget prior to the State-mandated July 1 deadline and a Superintendent's Final Budget no later than September 8. On October 28, 2008, the Board elected to use a single-adoption budget schedule for 2009-2010 which requires Final Budget adoption by July 1.

Education Code Section (EC§) 42600 mandates that a school district's expenditures may not legally exceed budgeted appropriations by major object classification, namely certificated salaries, classified salaries, employee benefits, books and supplies, services and other operating expenditures, capital outlay, other outgo, and other financing uses. EC §42600 further specifies that districts may not spend more than the amounts authorized in the Final Budget as adjusted during the fiscal year.

Encumbrance accounting is utilized to ensure effective budgetary control and accountability. Unencumbered appropriations lapse at year end and encumbrances outstanding at that time are reported as reservations or designations of fund balance for subsequent year expenditures.

Financial Results

In 2008-2009, the Statement of Changes in Net Assets shows that the District's Net Assets decreased \$78.2 million during the year. The Unrestricted Net Assets, which are negative, declined from (\$605.5 million) to (\$1,492.5 million). The negative Unrestricted Net Assets are largely the result of the liability due to the District's lifetime medical benefits for certain retirees. This liability increased from \$832.7 million to \$1,653.9 million during the year.

In 2008-2009, the fund balance of the General Fund increased \$92.8 million from \$657.2 million to \$750.0 million. This increase was due to the receipt of ARRA-SFSF funding in the amount of \$358 Million. This money is intended to be used over two fiscal years. All of the fund balance is either reserved due to legal restrictions or designated by the board for specific purposes.

Cash Management

Cash temporarily idle during the year and not needed immediately for operations is invested. Substantially all of the District's cash is deposited in the Los Angeles County treasury. The District is limited by EC §41015 and Government Code §53601 to investing in: U.S., state, or local government securities or U.S. government guaranteed securities; banker's acceptances or negotiable certificates of deposits issued by a nationally or state-chartered bank or savings and loan association; and commercial paper of "prime

quality.” These guidelines are followed by the County Treasurer’s Office in making pool and specific investments for the District. At June 30, 2009, the District’s cash in the county pool was \$3,502.2 million.

The District also maintains some cash deposits with various banking institutions. At June 30, 2009, cash deposits, including imprest funds in schools and offices, were \$29.8 million. These deposits are either covered by federal depository insurance or collateralized at the rate of 110% of the deposits.

The District also had \$67.5 million in cash deposit accounts held by various trustees for the acquisition or construction of fixed assets, and for the repayment of long-term debt.

Income earned from all cash deposits in 2008-2009 was \$117.7 million.

Risk Management

The District maintains various insurance programs, the majority of which are partially or entirely self-insured, while the smaller and/or specialized types of coverage are placed with commercial insurance carriers including excess property coverage (\$1 billion above a \$500,000 self-insurance retention for 2008-2009) for loss due to fire.

The District is self-insured for its Workers’ Compensation Program and partially self-insured for the Liability Insurance (excess coverage of \$45 million above a \$3 million self-insurance retention for 2008-2009) and Health and Welfare Insurance Programs. Separate Funds are used to account for amounts set aside to pay claims incurred and related expenditures under the respective insurance programs.

Liabilities for loss and loss adjustment expenses under each program include the accumulation of estimates for losses reported prior to the balance sheet date, estimates of losses incurred but not reported, and estimates of expenses for investigating and adjusting reported and unreported losses.

Such liabilities are estimates of the future expected settlements and are based upon analysis of historical patterns of the number of incurred claims and their values. Individual reserves are continually monitored and reviewed, and as settlements are made or reserves adjusted, the differences are reflected in current operations. (See Note 9 on pages 50 and 51 for a further discussion of Risk Management).

The District has implemented an Owner Controlled Insurance Program (OCIP) covering new construction and renovation projects funded by school bonds. Under an OCIP, owners provide general liability and workers’ compensation insurance coverage to construction contractors. Because contractors remove insurance costs from their bids, savings accrue to the owner. Under the District’s OCIP program, workers’ compensation coverage with statutory limits, and primary general liability and excess liability coverage with limits of \$100 million have been underwritten by three major insurance carriers. Savings to the District over the life of the construction program are estimated to be approximately \$72 million under OCIP I (05/01/1999 – 05/01/2006) and \$117 million under OCIP II (05/01/2006 – 05/01/2013).

The District also has purchased environmental insurance coverage for the construction program. Two policies protect certain contractors and the District from losses resulting from environmental-related incidents occurring during construction, and one policy provides optional coverage to ensure that site clean-up cost overruns are not borne by the District. The limits of coverage on the clean-up cost-cap policy are variable by specific project while the other policies have limits of \$50 million each.

Other Post Employment Benefits

The District offers lifetime medical benefits to retirees who meet certain conditions. The latest actuarial report estimates the present value of this liability for the benefits to be \$11 billion. Generally Accepted Accounting Principles require the District to recognize this liability on the District’s financial statements

over a 30 year period. As mentioned above, the District recognized an additional liability of \$821 million in the current year.

The recognition of this liability has caused the District's Unrestricted Net Assets to become negative. This trend is expected to continue. Unless the District begins to fund its OPEB liability, the District's Total Liabilities will eventually exceed its Total Assets.

Office of the Inspector General

In addition to the independent audit, the District has an Office of the Inspector General (OIG). The OIG reports directly to the Board of Education and is comprised of both auditors and investigators who are authorized to examine any and all functions within the District as well as those entities that do business with the District. The OIG is responsible for detecting and preventing waste, fraud, and abuse, performing contract audits, and for conducting performance audits of District operations in accordance with Government Auditing Standards.

Acknowledgments

We wish to express our appreciation to the Division of Accounting and Disbursements team, the various District divisions who assisted in the preparation of this report, and acknowledge the effort of our independent auditors.

Independent Auditor's Report

The Honorable Board of Education
Los Angeles Unified School District

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Los Angeles Unified School District** (the District) as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the Education Audit Appeals Panel's *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2008-09*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Los Angeles Unified School District as of June 30, 2009, and the respective changes in financial position, and where applicable, cash flows, thereof and respective budgetary comparison for the general fund for the year then ended in conformity with U.S. generally accepted accounting principles.

As described in Note 1 to the financial statements, the Los Angeles Unified School District adopted the provisions of GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*, for the year ended June 30, 2009.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 19, 2010, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's discussion and analysis on pages 3 through 14 is not a required part of the basic financial statements but is supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, the supplementary information section, the statistical section, and the state and federal compliance information section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements. The supplementary information listed in the supplementary section (pages 65 to 127) and the information on pages 195 to 207 and pages 211 to 215 in the state and federal compliance information section have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The information in the introductory section, the supplemental information section (pages 129 to 149), the statistical section, and pages 208 to 209 in the state and federal compliance information section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

Management's Discussion and Analysis

June 30, 2009

As management of the Los Angeles Unified School District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2009. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-x of this report.

Financial Highlights

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$4.9 billion (net assets). This amount is net of a \$1.5 billion deficit in unrestricted net assets resulting from the recognition of unfunded liabilities for other postemployment benefits (OPEB).
- The District's total net assets decreased by \$78.2 million from prior year total, primarily due to the recognition of OPEB expense as stated above.
- As of the close of the 2009 fiscal year, the District's governmental funds reported combined ending fund balances of \$3.0 billion, a decrease of \$267.9 million from June 30, 2008.
- At the end of the current fiscal year, unreserved fund balance for the General Fund, including designated for economic uncertainties, was \$184.6 million, or 2.8% of total General Fund expenditures.
- The District's total long-term obligations increased by \$1.5 billion (16.1%) during the current fiscal year. The increase resulted primarily from recognition of additional net OPEB obligation and from new issues of general obligation bonds.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Each of the government-wide financial statements relates to functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District are all related to public education.

The government-wide financial statements can be found on pages 15-16 of this report.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2009

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains 23 individual governmental funds. In the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances, separate columns are presented for General fund, District bonds fund, County school facilities bonds fund, Debt service fund, and all others. Individual account data for each of the District bonds, County school facilities bonds, Debt service, and all other nonmajor governmental funds are provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with the budget.

The governmental fund financial statements can be found on pages 17 and 19 of this report.

Proprietary funds. The District maintains Internal Service Funds as the only type of proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for Health and Welfare Benefits, Workers' Compensation Self-Insurance, and Liability Self-Insurance. Because all of these services benefit governmental functions, they have been included within governmental activities in the government-wide financial statements.

It is the District's practice to record estimated claim liabilities at the present value of the claims, in conformity with the accrual basis of accounting, for all its internal service funds.

The proprietary fund financial statements can be found on pages 22-24 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statements can be found on pages 25-26 of this report.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2009

Notes to basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27-63 of this report.

Combining and individual fund schedules and statements. The combining schedules and statements showing the individual accounts within the District bonds, County school facilities bonds, County school facilities bonds, Debt service, and nonmajor governmental funds are presented immediately following the notes to the financial statements. Combining and individual fund schedules and statements can be found on pages 65-113 of this report.

Government-Wide Financial Analysis

As noted earlier, net assets over time may serve as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$4.9 billion at the close of the most recent year.

By far the largest portion of the District's net assets (\$4.6 billion) reflects its investments in capital assets (e.g., land, buildings, and equipment), less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investments in its capital assets are reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's net assets (\$1.8 billion) represent resources that are subject to external restrictions on how they may be used. The remaining negative balance in unrestricted net assets (\$1.4 billion) resulted from the recognition of \$1.7 billion of net OPEB obligation.

At the end of the 2009 fiscal year, the District is able to report positive balances in all categories of net assets except for unrestricted net assets.

The \$1.8 billion increase in capital assets primarily relates to the continuing school construction and modernization projects throughout the District.

Long-term liabilities increased by \$1.5 billion primarily due to issuance of general obligation bonds and accrual of net OPEB obligation.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2009

The District's net assets decreased by \$78.2 million in the current fiscal year. The major component of this decrease is in total general revenues which is \$256.0 million lower, primarily in revenue limit sources, due to declining enrollment and higher deficit factor.

The following graph shows that operating grants and contributions and state aid are the main revenue sources of the District.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2009

The following graph shows that instruction and support services are the main expenditures of the District.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to facilitate compliance with finance-related requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$3.0 billion, a decrease of \$267.9 million in comparison with the prior year. Approximately 80.9% (\$2.4 billion) of this total combined ending fund balance constitutes unreserved fund balance, which is available for spending at the District's discretion. The remaining 19.1% is reserved to indicate that it is not available for new spending because it has already been committed for: legally restricted balances (\$553.9 million), inventories and prepaid expenses (\$14.9 million), and revolving cash (\$6.7 million).

The General Fund is the primary operating fund of the District. At the end of the 2009 fiscal year, the unreserved fund balance of the General Fund was \$184.6 million, while the total fund balance reached \$750.0 million. As a measure of the General Fund's liquidity, it may be useful to compare both the unreserved fund balance and the total fund balance to the total fund expenditures. The unreserved fund balance represents 2.8% of the total General Fund expenditures, while the total fund balance represents 11.4% of that same amount.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2009

The fund balance of the District's General Fund increased by \$92.7 million during the current fiscal year as a result of lower expenditures. Expenditures in all categories are \$342.8 million lower compared to last fiscal year.

Other changes in fund balances in the governmental funds are detailed as follows (in thousands):

	<u>District Bonds</u>	<u>County School Facilities Bond</u>	<u>Debt Service</u>	<u>Other Governmental Funds</u>		
				<u>Special Revenue</u>	<u>Other Capital Projects</u>	<u>Total</u>

The fund balance increased during the current year: for the County School Facilities Bonds, as a result of higher apportionments from the State bond proceeds, and for the Debt Service, primarily from the deposit into the Bond Interest and Redemption Fund of property taxes levied to pay principal and interest on bond issues. The fund balance decreased for the District Bonds, due to spending for continuing school construction and renovation projects; for the Special Revenue, due to the transfer of deferred maintenance apportionments to the General Fund in accordance with the State flexibility provision as well as increased expenditures in the cafeteria operations; and for Other Capital Projects due to unspent income from developer fees.

Proprietary funds. The District's proprietary funds provide the same type of information found in the government-wide financial statements.

At the end of the year, the District's proprietary funds have unrestricted net assets of \$40.8 million. The net decrease of \$97.1 million in the current year can be attributed to the temporary vacationing of worker's compensation premium contributions from user funds as a budget balancing solution for the General Fund. This was possible because of surplus accumulated in the Workers' Compensation Self-Insurance Fund from aggressive loss control measures undertaken over the past several years.

General Fund Budgetary Highlights

The District closely reviews its revenue and expenditure data to ensure that a sufficient ending balance is maintained. This review occurs throughout the fiscal year, utilizing the State-mandated first and second interim financial reports, and at year end, utilizing the actual revenue and expenditure data for the prior fiscal year.

Differences between the 2008-2009 General Fund original budget (the 2008-2009 Final Budget adopted by the Board of Education in September 2008) and the amended final budget resulted in an overall increase in the ending balance by \$155.4 million. This is primarily due to increased budgeted revenue resulting from additional State budget information and changes known during the amended final budget. These include reduction in the

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2009

Revenue Limit deficit rate from 5.357% to 4.713% and the retraction of a 6.5% reduction on State categorical programs.

The General Fund ending balance increased by \$88.4 million compared to the Final Budget due to lower expenditures, offset by lower revenues. The \$190.9 million unfavorable variance in revenues and other financing sources between the final budget and actual occurred primarily because multi-year categorical program revenues were budgeted in their entirety but earned only to the extent that expenditures occurred.

The \$279.2 million favorable variance in expenditures and other financing uses between the final budget and actual occurred primarily due to under-expenditure in nearly all objects of expenditure in both unrestricted and restricted programs, but mainly in books and supplies (\$160.4 million) and services and other operating expenditures (\$56.1 million). The under-expenditure is due to budget reductions and freeze implemented during the year and also because expenditures in categorical (specially-funded) programs were less than the budget. A significant portion of the categorical variances resulted from the factor described in the revenue variance – the full budgeting of expenditures in the first year of multi-year grants.

Capital Assets and Debt Administration

Capital assets. The District's investment in capital assets for its governmental activities as of June 30, 2009 amounts to \$12.3 billion (net of accumulated depreciation), a 17.2% increase from the prior year. The investment in capital assets includes sites, improvement of sites, buildings and improvements, equipment and construction in progress, net of any related accumulated depreciation.

Major capital asset events during the current fiscal year included the following:

- Continuing construction of additional school buildings as well as school modernization projects throughout the District. Construction in progress as of the close of the fiscal year was \$2.8 billion.
- Various building additions and modernizations were completed at a cost of \$1.6 billion.
- A total of 4 new schools were completed in 2009 of which two opened in 2008-2009 and two will be opening its doors during the 2009-2010 school year to new students.

Total	\$ 12,330,406	\$ 10,517,964

Additional information on the District's capital assets can be found in Note 7 on page 42 of this report.

Long-term obligations. At the end of the current fiscal year, the District had total long-term obligations of \$11.1 billion. Of this amount, \$8.2 billion comprises debt to be repaid by voter-approved property taxes and not by the General Fund of the District.

Outstanding Obligations

Summary of long-term obligations is as follows (in thousands):

	Governmental Activities	
	2009	2008 (restated)
General Obligation Bonds	\$ 8,223,575	\$ 7,500,552
Certificates of Participation (COPs)	442,655	501,875
Capital Lease Obligations	3,008	3,768
State School Building Aid Fund	—	286
Children's Center Facilities Revolving Loan	792	792
California Energy Commission Loan	663	865
Liability for Employee Benefits	234,586	191,297
Self-insurance Claims	551,769	548,702
Other Postemployment Benefits (OPEB)	1,653,926	832,665
Arbitrage Payable	11,967	12,068
Legal Settlements	25,378	12,823
Total	\$ 11,148,319	\$ 9,605,693

The District's total long-term obligations increased by \$1.5 billion (16.1%) during the current fiscal year. The key factors in this increase were the issuance of general obligation bonds during the year and the recognition of additional net OPEB obligation.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2009

On August 16, 2007, the District issued \$1 billion of 2007 General Obligation Bonds as follows: \$150 million of General Obligation Bonds, Election of 2002 (Measure K), Series C; \$550 million of General Obligation Bonds, Election of 2004 (Measure R), Series H; and \$300 million of General Obligation Bonds, Election of 2005 (Measure Y), Series E. The next bond issuance was on February 19, 2009 for \$950 million representing 2009 General Obligation Bonds as follows: \$250 million of General Obligation Bonds, Election of 2002 (Measure K), Series D; \$550 million of General Obligation Bonds, Election of 2004 (Measure R), Series I; and \$150 million of General Obligation Bonds, Election of 2005 (Measure Y), Series F.

The District's current underlying ratings on its general obligation bonds are "Aa3", "AA-" and "A+" from Moody's Investors Service (Moody's), Standard and Poor's Ratings Group (S&P) and Fitch Ratings (Fitch), respectively. The District's current underlying ratings on its nonabatable leases (COPs) are "A1", "A+" and "A" from Moody's, S&P and Fitch, respectively; for abatable leases (COPs), the underlying ratings are "A2", "A+" and "A" from Moody's, S&P and Fitch, respectively. The District purchased municipal bond insurance and/or reserve surety bond policies at the time of issuance for some of its COPs and bonds. Moody's, S&P and Fitch assigned insured ratings of "Aaa", "AAA" and "AAA", respectively, on said COPs and bonds at the time of issuance. Subsequent to February 1, 2008, the rating agencies downgraded the ratings of certain bond insurers, including all of those who had issued bond insurance policies and/or surety bonds on District issues. See Subsequent Events on this page for more information.

State statutes limit the amount of general obligation bond debt a unified school district may issue to 2.5% of its total taxable property. The debt limitation for the District as of June 30, 2009 is \$11.9 billion, which is in excess of the District's outstanding general obligation bond debt.

Additional information on the District's long-term obligations can be found in Notes 10 and 11 on pages 51-58 of this report.

Subsequent Events

Since June 30, 2009, the District has issued the following debts:

On August 13, 2009 the District issued \$750 million of Tax and Revenue Anticipation Notes. The District made the required deposit of \$262.5 million on January 31, 2010, and will make the required deposits of \$262.5 million on March 31, 2010, \$238.5 million on April 30, 2010, and \$1.5 million on June 4, 2010 in anticipation of repayment of TRANS on August 12, 2010. The TRANS carried a coupon of 2.00% and had an arbitrage yield of 0.62%.

On September 29, 2009, the District issued \$40,728,200 of Certificates of Participation 2009 Series A to finance equipment and capital improvements for the Cafeteria Management System and Newman Nutrition Center. The COPs mature on October 1, 2019 and had an arbitrage yield of 3.92%.

On October 15, 2009, the District issued a total of \$1,974.8 million of General Obligation Bonds as follows:

- a. Qualified School Construction Bonds for \$318.8 million, Measure Y, Election of 2005, Series H
- b. Election of 2005, Measure Y Series G, Federally Taxable Bonds for \$5.6 million
- c. Series KRY, Federally Taxable Build America Bonds for \$1,369.8 million and \$205.8 million Tax Exempt General Obligation Bonds or a total of \$1,575.6 million as: \$200 million of Measure K, \$400 million of Measure R, and \$975.6 million of Measure Y, and
- d. Tax Exempt Refunding Bonds Series A for \$ 74.8 million

On January 27, 2010, the District issued \$69,685,000 of Refunding Certificates of Participation 2010 Series A to refinance the 1997 Series A Certificates and the 1998 Series A Certificates. The COPs mature on December 1, 2017 and had an arbitrage yield of 3.20%.

On February 18, 2010, the District completed the sale of General Obligation bonds as follows:

- a. \$491.6 million Series KRY, Tax Exempt General Obligation Bonds
- b. \$1,250.6 million Series RY, Federally Taxable Build America Bonds
- c. \$3.8 million Measure Y, Election of 2005, Series I (Taxable)
- d. \$75 million Tax Exempt Refunding Bonds Series A

This transaction is scheduled to close on March 4, 2010.

LOS ANGELES UNIFIED SCHOOL DISTRICT
Reconciliation of the Governmental Funds Statement of Revenues, Expenditures,
and Changes in Fund Balances to the Statement of Activities
June 30, 2009
(in thousands)

Total Net Changes in Fund Balances – Governmental Funds	\$ (267,854)
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay (\$2,126,185) and gain on exchange of capital assets (\$44) exceed depreciation (\$323,892) in the period.	1,802,337
Some of the capital assets acquired this year were financed with capital leases. The amount financed is reported in the governmental funds as a source of financing. On the other hand, the proceeds are not revenues in the statement of activities, but rather, constitute long-term liabilities in the statement of net assets	(1,196)
Proceeds of new debt and repayment of debt principal are reported as other financing sources and uses in the governmental funds, but constitute additions and reductions to liabilities in the statement of net assets.	(660,960)
Premiums, discounts, refunding charges and issuance costs are reported as other financing sources and uses in the governmental funds, but presented as liabilities or deferred charges, net of amortization in the statement of net assets.	(14,225)
Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered "available" revenues for this year.	12,554
In the statement of activities, compensated absences and other retirement benefits are measured by the amounts the employees earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).	(45,074)
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental fund because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of financial resources. In the statement of activities, however, interest expense is recognized as interest accrues, regardless of when it is due.	16,957
Some expenses, including legal settlements and rebatable arbitrage, are recognized in the government wide statements as soon as the underlying event has occurred but not until due and payable in the governmental funds.	(2,405)
OPEB expenditures are recorded in the governmental funds to the extent of amounts actually funded. In the statement of activities, however, the expense is recorded for the full amount of the accrual-basis annual OPEB cost.	(821,261)
An internal service fund is used by the District's management to charge the costs of health and welfare, workers' compensation and liability self-insurance premiums and claims to the individual funds. The net revenue of the internal service fund is reported with governmental activities.	(97,087)

Notes to Basic Financial Statements

(1) Summary of Significant Accounting Policies

The Los Angeles Unified School District accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The following summary of the more significant accounting policies of the District is provided to assist the reader in interpreting the basic financial statements presented in this section. These policies, as presented, should be viewed as an integral part of the accompanying basic financial statements.

(a) Reporting Entity

The District is primarily responsible for all activities related to K-12 public education in most of the western section of Los Angeles County, State of California. The governing authority, as designated by the State Legislature, consists of seven elected officials who together constitute the Board of Education (Board). Those organizations, functions, and activities (component units) for which the Board has accountability comprise the District's reporting entity.

The District's Comprehensive Annual Financial Report includes all Funds of the District and its component units with the exception of the fiscally independent charter schools, which are required to submit audited financial statements individually to the State, and the Auxiliary Services Trust Fund, which is not significant in relation to District operations. This fund was established in 1935 to receive and disburse funds for insurance premiums on student body activities and property, "all city" athletic and musical events, and grants restricted for student-related activities. The District has certain oversight responsibilities for these operations but there is no financial interdependency between the financial activities of the District and the fiscally independent charter schools or the Auxiliary Services Trust Fund.

Blended Component Units

The District Finance Corporation and the District Administration Building Finance Corporation (the Corporations) were formed in 2000 and 2001, respectively, to finance properties leased by the District. The Corporations have a financial and operational relationship which meets the reporting entity definition criteria of GASB for inclusion of the Corporations as blended component units of the District. These Corporations are nonprofit public benefit corporations, and they were formed to provide financing assistance to the District for construction and acquisition of major capital facilities. The District currently occupies all completed Corporation facilities and, upon completion, intends to occupy all Corporation facilities under construction under lease purchase agreements. At the end of the lease terms, or pursuant to relevant transaction documents with the District, or upon dissolution of the Corporations, title to all Corporations property passes to the District.

(b) *Government-Wide and Fund Financial Statements*

The District's basic financial statements consist of fund financial statements and government-wide statements which are intended to provide an overall viewpoint of the District's finances. The government-wide financial statements, which are the statement of net assets and the statement of activities, report information on all nonfiduciary District funds excluding the effect of interfund activities. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which are primarily supported by fees and service charges. The District does not conduct any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements on pages 17 and 19. Nonmajor funds are aggregated in a single column.

(c) *Measurement Focus and Basis of Accounting*

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. The same measurement focus and basis of accounting also apply to trust funds. The agency fund, however, reports only assets and liabilities and therefore has no measurement focus.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when susceptible to accrual, i.e., both measurable and available to finance expenditures of the fiscal period. "Available" means collectible within the current period or soon enough thereafter to pay current liabilities. Application of the "susceptibility to accrual" criteria requires consideration of the materiality of the item in question and due regard for the practicality of accrual, as well as consistency in application.

Federal revenues and State apportionments and allowances are determined to be available and measurable when entitlement occurs or related eligible expenditures are incurred. Secured and unsecured property taxes related to debt service and community redevelopment purposes that are estimated to be collectible and receivable within 60 days of the current period are recorded as revenue. Investment income is accrued when earned. All other revenues are not considered susceptible to accrual.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

Expenditures for the governmental funds are generally recognized when the related fund liability is incurred, except debt service expenditures and expenditures related to compensated absences which are recognized when payment is due.

(d) Financial Statement Presentation

The District's comprehensive annual financial report includes the following:

- Management's Discussion and Analysis is a narrative introduction and analytical overview of the District's financial activities as required by GASB Statement No. 34. This narrative overview is in a format similar to that in the private sector's corporate annual reports.
- Government-wide financial statements are prepared using full accrual accounting for all of the District's activities. Therefore, current assets and liabilities, capital and other long-term assets, and long-term liabilities are included in the financial statements.
- Statement of net assets displays the financial position of the District including all capital assets and related accumulated depreciation and long-term liabilities.
- Statement of activities focuses on the cost of functions and programs and the effect of these on the District's net assets. This financial report is also prepared using the full accrual basis and shows depreciation expense and unfunded OPEB expense.

(e) Fund Accounting

The District's accounting system is organized and operated on the basis of funds. A fund is a separate accounting entity with a self-balancing set of accounts. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A description of the activities of the various funds is provided below:

Major Governmental Funds

The District has the following major governmental funds for the fiscal year 2008-2009:

General Fund – The General Fund is used to account for all financial resources relating to educational activities and the general business operations of the District, including educational programs funded by other governmental agencies. The General Fund consists of unrestricted and restricted funds.

District Bonds Fund – This category represents the total of the following building accounts: Building Account – Bond Proceeds (BB Bonds), established to account for bond proceeds received as a result of the passage of Proposition BB; Building Account – Measure K, established to account for bond proceeds received as a result of the issuance of General Obligation Bonds (G.O. Bonds) authorized pursuant to ballot measure "Measure K"; Building Account – Measure R, established to account for bond proceeds received by the passage of Measure R; and Building Account – Measure Y, established to account for bond proceeds received by the passage of Measure Y.

County School Facilities Bonds Fund – This fund is established to account for apportionments received from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

Facilities Fund (Proposition 47), the 2004 State School Facilities Fund (Proposition 55), and the 2006 State School Facilities Fund (Proposition 1D).

Debt Service Funds – Debt Service Funds are used to account for all financial resources intended for the repayment of general long-term debt principal and interest. The District maintains the following Debt Service Funds: Bond Interest and Redemption, Tax Override, and Capital Services.

Other Governmental Funds

The District has the following nonmajor governmental funds:

Special Revenue Funds – Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than for Capital Projects) that are legally restricted to expenditures for specified purposes. The District maintains the following Special Revenue Funds: Adult Education, Cafeteria, Child Development, and Deferred Maintenance.

Capital Projects Funds – Capital Projects Funds are used to account for all financial resources related to the acquisition or construction of major capital facilities and equipment other than those financed by the General and Special Revenue Funds. The District maintains the following nonmajor Capital Projects Funds: Building, State School Building Lease-Purchase, Special Reserve, Special Reserve – FEMA-Earthquake, Special Reserve – FEMA-Hazard Mitigation, Special Reserve – Community Redevelopment Agency, and Capital Facilities Account. The District Bonds Fund (BB Bonds, Measure K, Measure R, and Measure Y) and the County School Facilities Bonds Fund (Prop 1A, Prop 47, Prop 55, and Prop 1D) are reported separately as a major fund in fiscal year 2008-2009.

Proprietary Funds

The District has the following Proprietary Funds:

Internal Service Funds – Internal Service Funds are used to account for all financial resources intended to provide self-insurance services to other operating funds of the District on a cost-reimbursement basis. The District maintains the following Internal Service Funds: Health and Welfare Benefits, Workers' Compensation Self-Insurance, and Liability Self-Insurance. The Health and Welfare Benefits Fund was established to pay for claims, administrative costs, insurance premiums, and related expenditures; the Workers' Compensation Self-Insurance Fund and the Liability Self-Insurance Fund were established to pay for claims, excess insurance coverage, administrative costs, and related expenditures.

Under the full accrual basis of accounting that is generally accepted for Internal Service Funds, total estimated liabilities for self-insurance are recorded based on estimated claims liabilities, including the estimated liability for incurred but not reported claims. For the Workers' Compensation and Liability Self-Insurance Funds, the estimates are determined by applying an appropriate discount rate to estimated future claim payments. No discount is applied to estimated Health and Welfare Benefits Fund claims because they are generally paid within a short period of time after the claims are filed.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges to other operating funds for self-insurance services. Operating expenses include the cost of services including insurance premiums, claims, and administrative costs. All revenues and expenses not meeting this definition are nonoperating revenues and expenses.

Fiduciary Funds

The District has the following Fiduciary Funds:

Pension Trust Funds – Pension Trust Funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, postemployment benefit plans or other employee benefit plans. The District maintains two types of pension trust funds:

Annuity Reserve Fund – The Annuity Reserve Fund accounts for all financial resources used to provide additional retirement benefits to employees who were members of the District Retirement System on June 30, 1972. On November 18, 2003, participant members voted to dissolve the fund and distribute its net assets to the members. As of June 30, 2009, the fund's remaining equity of \$473,213 has been transferred to the General Fund.

Attendance Incentive Reserve Fund – The Attendance Incentive Reserve Fund is used to account for 50% of funds from salary savings as a result of reduced costs of absenteeism of the United Teachers of Los Angeles (UTLA) represented employees.

Agency Fund - The Student Body Fund accounts for cash held by the District on behalf of student bodies at various school sites.

(f) Budgetary Control and Encumbrances

School districts in California are required by Education Code Section 41010 to follow the California School Accounting Manual in preparing reports to the State. The District, under Assembly Bill 1200 (Chapter 1213/Statutes of 1991), has utilized a dual-adoption budget schedule consisting of a Provisional Budget adopted prior to the State-mandated July 1 deadline and a Final Budget no later than September 8. These budgets are revised by the District's Board during the year to give consideration to unanticipated revenues and expenditures (see Note 4 – Budgetary Appropriation Amendments). Effective with the 2009-2010 fiscal year, the Board elected, on October 28, 2008, to change to a single-adoption budget schedule which requires Final Budget adoption by July 1.

In accordance with the District's Board policy, management has the authority to make routine transfers of budget appropriations among major categories within a fund. Routine budget transfers are summarized and periodically reported to the Board for ratification. Nonroutine transfers may not be processed without prior Board approval.

During the year, several supplementary appropriations were necessary. The original and final revised budgets are presented in the financial statements. Budgets for all governmental fund types are adopted on a basis consistent with generally accepted accounting principles. Budgets are adopted for

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

the General, Special Revenue, Debt Service, Capital Projects, Internal Service, and Pension Trust Funds.

Formal budgetary integration is employed as a management control device during the year for all budgeted funds. The District employs budgetary control by minor (sub) object and by individual program accounts. Expenditures may not legally exceed budgeted appropriations by major object level as follows: Certificated Salaries, Classified Salaries, Employee Benefits, Books and Supplies, Services and Other Operating Expenditures, Capital Outlay, Other Outgo, and Other Financing Uses.

The District utilizes an encumbrance system for all budgeted funds, except Proprietary and Fiduciary Funds, to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid or liabilities are incurred. All encumbrances expire at June 30; however, a reserve representing incomplete contracts is provided for at year end. Appropriation authority lapses at the end of the fiscal year.

(g) *Cash and Investments*

Cash includes amounts in demand deposits with the Los Angeles County Treasury and various financial institutions, imprest funds in schools and offices, and cafeteria change funds. The District maintains some cash deposits with various banking institutions for collection clearing, check clearing, or revolving fund purposes. The District also maintains deposit accounts held by various trustees for the acquisition or construction of capital assets, for the repayment of long-term debt, and for the repayment of tax and revenue anticipation notes.

In accordance with State Education Code Section 41001, the District deposits virtually all of its cash with the Treasurer of the County of Los Angeles. The District's deposits, along with funds from other local agencies such as the county government, other school districts, and special districts, make up a pool, which the County Treasurer manages for investment purposes. Earnings from the pooled investments are allocated to participating funds based on average investment in the pool during the allocation period.

All District-directed investments are governed by Government Code Section 53601 and Treasury investment guidelines. The guidelines limit specific investments to government securities, domestic chartered financial securities, domestic corporate issues, and California municipal securities. The District's securities portfolio is held by the County Treasurer. Interest earned on investments is recorded as revenue of the fund from which the investment was made. All District's investments are stated at fair value based on quoted market prices.

(h) *Short-term Interfund Receivables/Payables*

During the course of operations, numerous transactions occur between individual funds for goods provided, services rendered, or support to other funds. These receivables or payables are classified as "due from other funds" or "due to other funds" on the governmental funds balance sheet. Interfund balances within governmental activities are eliminated on the government-wide statement of net assets.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

(i) Inventories

Inventories consist of expendable materials and supplies held for consumption, which are valued at cost, using the average-cost method. Except for food and cafeteria supplies, which are expended when received, inventories are recorded as expenditures when shipped to schools and offices. Balances of inventory accounts are offset by corresponding reservations of fund balance, which indicate that these amounts are not available for appropriation and expenditure.

(j) Capital Assets

Capital assets, which include sites, improvement of sites, buildings and improvements, equipment, and construction in progress, are reported in the government-wide financial statements. Such assets are valued at historical cost or estimated historical cost unless obtained by annexation or donation, in which case they are recorded at estimated market value at the date of receipt. The District utilizes a capitalization threshold of \$25,000.

Projects under construction are recorded at cost as construction in progress and transferred to the appropriate asset account when substantially complete. Costs of major improvements and rehabilitation of buildings are capitalized. Repair and maintenance costs are charged to expense when incurred. Equipment disposed of, or no longer required for its existing use, is removed from the records at actual or estimated historical cost, net of accumulated depreciation.

All capital assets, except land and construction in progress, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Improvement of sites	20
Buildings	50
Portable buildings	20
Building improvements	20
Furniture and fixtures	20
Playground equipment	20
Food services equipment	15
Transportation equipment	15
Telephone system	10
Reprographics equipment	10
Broadcasting equipment	10
Vehicles	8
Computer system and equipment	5
Office equipment	5

(k) Contracts Payable

Contracts payable includes only the portion applicable to work completed and unpaid as of June 30, 2009. All significant incomplete portions of contracts are reported as reserved fund balance.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

(l) *Compensated Absences*

All vacation leaves are accrued in the government-wide statements when they are incurred. A liability is reported in the governmental funds only for vested or accumulated vacation leave of employees who have separated from the District as of June 30 and whose vacation benefits are payable within 60 days from the end of the fiscal year. The District, as a practice, does not accrue a liability for unused sick leave since accumulated sick leave is not a vested benefit. Employees who retire after January 1, 1999 who are members of the Public Employees' Retirement System (PERS) may use accumulated sick leave to increase their service years in the calculation of retirement benefits.

In 1995, pursuant to the District/UTLA Agreement (Article XIV, Section 1.2), the District agreed to compensate eligible employees for furlough days taken during the 1992-93 fiscal year to be paid in a lump-sum bonus upon retirement. The amount of bonus corresponds to the percentage that the employee's compensation was reduced in the 1992-1993 school year based on the employee's salary band for that year.

An attendance incentive plan was developed and adopted as part of the collective bargaining agreement between the District and UTLA in fiscal year 1992-1993. The objective of the plan is to reduce the cost of absenteeism by rewarding deserving teachers with cash bonuses based on their unused sick leave at the end of the fiscal year. Funding for the plan comes from the undisbursed balance of certain day-to-day substitute teacher accounts.

Annually, 50% of the savings in the account is disbursed as cash payments to eligible teachers and the remaining 50% is deposited in the Attendance Incentive Reserve Fund, to be disbursed in a lump-sum distribution as employees retire or terminate their employment with the District.

(m) *Long-term Obligations*

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net assets. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective-interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt using straight-line method.

In the fund financial statements, debt issuances including any related premiums or discounts as well as bond issuance costs are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

(n) *Revenue Limit Sources/Property Taxes*

The revenue limit is the basic financial support for District activities. The District's revenue limit is received from a combination of local property taxes and state apportionments. For the fiscal year 2008-2009, the District received local property taxes amounting to \$927.4 million and State aid amounting to \$2,517.5 million.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

The county is responsible for assessing, collecting, and apportioning property taxes. Taxes are levied for each fiscal year on taxable real and personal property in the county. The levy is based on the assessed values as of the preceding March 1, which is also the lien date. Property taxes on the secured roll are due on November 1 and February 1, and taxes become delinquent after December 10 and April 10, respectively. Property taxes on the unsecured roll are due on the lien date (March 1), and become delinquent if unpaid by August 31.

Secured property taxes are recorded as revenue when apportioned, in the fiscal year of the levy. The county apportions secured property tax revenue in accordance with the alternate method of distributions prescribed by Section 4705 of the California Revenue and Taxation Code. This alternate method provides for crediting each applicable fund with its total secured taxes upon completion of the secured tax roll, approximately on October 1 of each year. The County Auditor reports the amount of the District's allocated property tax revenue to the California Department of Education. Property taxes are recorded as local revenue limit sources by the District.

The California Department of Education reduces the District's entitlement by the District's local property tax revenue. The balance is paid from the State General Fund, and is known as the State Apportionment. As a result, a receivable has not been recorded for the related property taxes in the general fund as any receivable is offset by a payable on the state apportionment.

The District's base revenue limit is the amount of general purpose revenue, per average daily attendance (ADA), that the District is entitled to by law. This amount is multiplied by the second period ADA to derive the District's total entitlement.

(o) *New Accounting Pronouncement*

GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*, became effective for the year ended June 30, 2009. However, except as stated hereinafter, the District did not identify any obligating event that constitutes a liability. Accordingly, no liability was recognized for pollution remediation obligation in the government wide statements, as of June 30, 2009.

In the course of acquiring sites for the construction of new schools, the District has acquired property with known pollution, which the District expects to remediate to prepare the property for use. Although the project unavoidably included pollution remediation activities, the primary objective is school construction. Such pollution remediation outlays are capitalized in the government wide statements when goods and services are acquired.

Older schools buildings in the District are known to have asbestos-containing materials, but the asbestos is encapsulated in the materials and does not pose health hazards unless they are altered in a way that exposes the asbestos. This can occur when a modernization project is undertaken. When this happens, outlays are recognized and capitalized in the government wide statements only when goods and services are acquired.

(p) Restatement

In 1995, pursuant to the District/UTLA Agreement (Article XIV, Section 1.2), the District agreed to compensate eligible employees for furlough days taken during the 1992-93 fiscal year to be paid in a lump-sum bonus upon retirement. The amount of bonus corresponds to the percentage that the employee's compensation was reduced in the 1992-1993 school year based on the employee's salary band for that year. This liability, estimated at \$102.6 million as of June 30, 2009, should have been recognized starting in Fiscal Year 2001-2002 when the District implemented GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. The adjustment was recorded to beginning net assets to recognize this liability, as a result of which, the net assets as of June 30, 2008 has been restated as follows (in thousands):

Net Assets at June 30, 2008, as previously reported	\$ 5,084,399
Liability for Employee Benefits	<u>102,560</u>
Net Assets at June 30, 2008, as restated	\$ <u>4,981,839</u>

(q) Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses in the accompanying basic financial statements. Actual results may differ from those estimates.

(2) Tax and Revenue Anticipation Notes

Tax and Revenue Anticipation Notes (TRANs) are short-term debt instruments used to finance temporary cash flow deficits in anticipation of receiving taxes and other revenues. On December 11, 2007, the District issued \$600.0 million of 2007-2008 Tax and Revenue Anticipation Notes (TRANs) with an overall weighted true interest cost of 3.2% and total premium of \$5.0 million. These notes were retired on their due date of December 29, 2008.

On July 31, 2008, the District issued a total of \$500.0 million of 2008-2009 TRANs with an overall weighted true interest cost of 1.5% and total premium of \$7.1 million. The principal and interest on the notes are payable at maturity on July 30, 2009.

(3) Reconciliation of Government-Wide And Fund Financial Statements

(a) *Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Assets*

The accompanying governmental fund balance sheet includes reconciliation between *total fund balances – governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds.” The details of the \$10,595,676 difference are as follows (in thousands):

Bonds payable	\$ (8,223,575)
Certificates of participation (COPs)	(442,655)
Capital lease obligations	(3,008)
Children center facilities revolving loan	(792)
California energy commission loan	(663)
Liability for employee benefits	(233,194)
Other Post Employment Benefits (OPEB)	(1,653,926)
Arbitrage payable	(11,967)
Legal settlements	(25,378)
Other	<u>(518)</u>
Net adjustment to reduce <i>total fund balances – governmental funds</i> to arrive at <i>net assets – governmental activities</i>	<u>\$ (10,595,676)</u>

(b) *Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-Wide Statement of Activities*

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between *total net changes in fund balances – governmental funds* and *changes in net assets of governmental activities* as reported in the accompanying government-wide statement of activities. One element of that reconciliation explains that “Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.” The details of this \$1,802,337 difference are as follows (in thousands):

Capital related expenditures	\$ 2,126,185
Depreciation expense	(323,892)
Gain on exchange of capital assets	<u>44</u>
Net adjustment to increase net changes in <i>total fund balances – governmental funds</i> to arrive at <i>changes in net assets – governmental activities</i>	<u>\$ 1,802,337</u>

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

Another element of that reconciliation states that “Proceeds of new debt and repayment of debt principal are reported as other financing sources and uses in the governmental funds, but constitute additions and reductions to liabilities in the statement of net assets.” The details of this \$660,960 difference are as follows (in thousands):

Debt issued or incurred:	
General obligation bonds	\$ (950,000)
Certificates of participation	(120,950)
Principal repayments:	
General obligation bonds	228,825
Certificates of participation	178,720

State school building aid fund payable	286
California energy commission loan	<u>203</u>
Net adjustment to decrease net changes in <i>total fund balances – governmental funds</i> to arrive at <i>changes in net assets – governmental activities</i>	<u>\$ (660,960)</u>

(4) Budgetary Appropriation Amendments

During the fiscal year, only \$0.7 million modification was necessary to reduce appropriations for expenditures and other financing uses for the General Fund.

(5) Cash and Investments

Cash and investments as of June 30, 2009 are classified in the accompanying basic financial statements as follows (in thousands):

Statement of net assets:

Subtotal	4,152,038
Fiduciary funds:	
Cash and investments	<u>40,176</u>
Total cash and investments	<u>\$ 4,192,214</u>

Cash and investments as of June 30, 2009 consist of the following (in thousands):

Cash on hand (cafeteria change funds)	\$ 69
Deposits with financial institutions and LA County Pool (a)	3,599,404
Investments (b)	<u>592,741</u>
Total cash and investments	<u>\$ 4,192,214</u>

- (a) Deposits with financial institutions include cash in the Los Angeles County Pooled Surplus Investment Fund (\$3,502,155), cash held by fiscal agents or trustees (\$67,463), and cash deposited with various other financial institutions, including imprest funds in schools and offices (\$29,786).

School districts are required by Education Code Section 41001 to deposit their funds with the county treasury. Cash in county treasury refers to the fair value of the District’s share of the Los Angeles County (County) Pooled Surplus Investment (PSI) Fund.

- (b) Investments include funds set aside in a county repayment account for TRANs (\$515,000), sinking funds invested by trustees of COPs (\$17,760), and specific purpose investments arranged by the District with the County Treasurer for internal service funds that are not needed for daily operations (\$59,981).

Except for investments by trustees of COPs proceeds, the authority to invest District funds deposited with the county treasury is delegated to the County Treasurer and Tax Collector. Additional information about the investment policy of the County Treasurer and Tax Collector may be obtained from the web site at <http://ttax.co.la.ca.us/>. The table below identifies some of the investment types permitted in the investment policy:

Debt proceeds held by trustees are governed by provisions of debt agreements. The table below identifies the investment types that are authorized for such funds:

<u>Authorized Investment Type</u>	<u>Maximum Maturity</u>	<u>Maximum Total Par Value</u>	<u>Maximum Par Value per Issuer</u>
A. Obligations of the U.S. government, its agencies and instrumentalities.	None	None	None
B. Commercial Paper (CP) rated "A-1" (S&P) and "P-1" (Moody's)	270 days	None	None
C. Investment agreements, the provider of which is rated at one of the two highest rating categories	None	None	None
D. Money market funds	None	None	None

Interest-rate risk is the risk involved with fluctuations of interest rates that may adversely affect the fair value of the investments. The County's investment guidelines target the weighted average maturity of its portfolio to less than 18 months. As of June 30, 2009, 56.2% of district funds in the County PSI Fund does not exceed one year. In addition, variable-rate notes that comprised 3.51% of the County PSI Fund and other investments portfolio are tied to periodic coupon resets eliminating interest-rate risk by repricing back to par value at each rest date.

Credit risk means the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment, as measured by assignment of a rating by a nationally recognized statistical rating organization. This County's investment guidelines establish minimum acceptable credit ratings issued by any two nationally recognized statistical rating organizations. For a short term debt issuer, the rating must be no less than A-1 from Standard & Poor's or P1 from Moody's, while for a long-term debt issuer, the rating must be no less than A from Standard & Poor's or P from Moody's. The County PSI Fund is not rated.

Concentration of credit risk means the risk of loss attributed to the magnitude of an investment in a single issuer. For District funds in the County pool, the County's investment policy states that no more than 5% of total market value of the pooled funds may be invested in securities of any one issuer, except for obligations of the United States government, and its agencies and instrumentalities. In addition, no more than 10% may be invested in one money market mutual fund. As of June 30, 2009, the County did not exceed these limitations.

Custodial credit risk for deposits is the risk that in the event of failure of a depository financial institution, the District will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. Cash in the county treasury is not exposed to custodial credit risk since all county deposits are either covered by federal depository insurance or collateralized with securities held by the County. Deposits other than those with the County are also covered by federal depository insurance or collateralized at the rate of 110% of the deposits, although the collateral may not be held specifically in the District's name.

(8) Retirement, Termination and Other Postemployment Benefit Plans

The District provides a number of benefits to its employees including, retirement, termination, and postemployment health care benefits.

Retirement Plans

Qualified District employees are covered under either multiple-employer defined benefit retirement plans maintained by agencies of the State of California, a multiple-employer defined contribution retirement benefit plan administered under a Trust and/or single employer retirement benefit plans maintained by the District. The retirement plans maintained by the State are 1) the California Public Employees’ Retirement System (CalPERS), 2) the State Teachers’ Retirement System (STRS), and 3) the Public Agency Retirement (PARS) which is administered under a Trust. A retirement plan maintained by the District, the Annuity Reserve Fund was dissolved in November 18, 2003 and fully liquidated in June 2009. In general, certificated employees are members of STRS and classified employees are members of CalPERS. Part-time, seasonal, temporary and other employees who are not members of CalPERS or STRS are members of PARS.

(a) *California Public Employees’ Retirement System (CalPERS)*

The District contributes to the Public Employees’ Retirement Fund (PERF), an agent multiple-employer defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees’ Retirement Law. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Fiscal Services Division, P.O. Box 942703, Sacramento, CA 94229-2703, or by calling (888) CalPERS (225-7377).

LOS ANGELES UNIFIED SCHOOL DISTRICT

Active plan members are required to contribute 7% (miscellaneous) or 9% (safety) of their monthly salary and the District is required to contribute based on an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rates for fiscal year 2008-2009 were 9.428% for miscellaneous and 30.066% for safety members. The District paid the employee's contribution of 9% for most of the safety members, and certain percentages for employees covered under other collective bargaining units. The contribution requirements of the plan members are established by state statute. The following table shows employer and employee contributions for all members for the fiscal years ended June 30, 2009, 2008, and 2007.

The District's contributions for all members for the fiscal years ended June 30, 2009, 2008, and 2007 were in accordance with the required contribution rates calculated by the CalPERS actuary for each year.

(b) California State Teachers' Retirement System (STRS)

The District contributes to the STRS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan and a tax-deferred supplemental program established and administered by the State Teachers' Retirement Law (Section 22000 et seq.) of the California Education Code. The Teachers' Retirement Fund (TRF) is a defined benefit pension plan under the STRS. At June 30, 2009, there were approximately 1,745 contributing employers (school districts, community college districts, county offices of education and regional occupational programs). The State of California is a nonemployer contributor to the TRF.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

The Plan provides defined retirement benefits based on members' final compensation, age, and years of credited service. In addition, the retirement program provides benefits to members upon disability and to survivors upon the death of eligible members. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. STRS issues a separate comprehensive annual financial report that includes a ten-year trend information showing the progress in accumulating sufficient assets to pay benefits when due. Copies of the STRS annual financial report may be obtained from California State Teachers' Retirement System, P.O. Box 15275, Sacramento, CA 95851-0275.

Active plan members are required to contribute 8% of their salary (6% to the Defined Benefit (DB) Program and 2% to the Defined Benefit Supplement (DBS) Program). The District is required to contribute based on an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the STRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2008-2009 was 8.25% of annual payroll. The contribution requirements of the plan members are established by State statute. Contributions to STRS for fiscal years ended June 30, 2009, 2008, and 2007 are as follows:

	Percentage of applicable member earnings	2009	2008	2007
District contributions	8.25%	\$ 270,178,492	\$ 264,383,052	\$ 262,974,286
Employee contributions (including adjustments)	8.00%	278,131,825	268,377,194	258,877,451
Total STRS contributions	16.25%	\$ 548,310,317	\$ 532,760,246	\$ 521,851,737

The District's contributions to STRS for the fiscal years ended June 30, 2009, 2008, and 2007 were equal to the required contributions at statutory rates.

Beginning July 1, 2003, the State's contribution to the system is 2.017% of the previous calendar year's teachers' payroll. Subsequent to achieving a fully funded System, the State will contribute only the amount necessary to help fund the normal cost of the current benefit program unless a subsequent unfunded obligation occurs.

(c) Public Agency Retirement System (PARS)

The Omnibus Budget Reconciliation Act of 1990 requires state and local public agencies to provide a retirement plan for all employees not covered under existing employer pension plans and/or Social Security. These employees are primarily part-time, seasonal, and temporary employees (PSTs). This Act also requires that contributions for PSTs be vested immediately and permits any split of the minimum contributions between employee and employer.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

On July 1, 1992, the District joined the PARS, a multiple-employer retirement trust established by a coalition of public employers. The plan covers the District's part-time, seasonal, temporary, and other employees not covered under CalPERS or STRS, but whose salaries would otherwise be subject to Social Security tax. Benefit provisions and other requirements are established by District management based on agreements with various bargaining units. PARS is a defined contribution qualified retirement plan under Section 401 (a) of the Internal Revenue Code.

The minimum total contribution is 7.5% of employees' salaries, of which the District and the employees contribute 3.75% each. The District paid the employee's contribution for certain collective bargaining units. Employees are vested 100% in both employer and employee contributions from the date of membership. Upon resignation, retirement, or death prior to retirement, the employee or the beneficiary will receive 100% of the amount credited to the employee account, including any share of net fund gains or losses after payment of administrative expenses. If at the time of distribution the amount in the employee's account is less than \$3,500, it will be paid in one lump sum. If the amount is \$3,500 or greater, the employee may elect to receive it in a lump sum or leave it with PARS until the normal retirement age (60) is reached and then receive it as a lump sum.

District employees covered under PARS total 53,636 as of June 30, 2009. The District's contributions to the plan for the last three fiscal years are as follows: 2008-2009 – \$6,895,868, 2007-2008 – \$8,764,699, and 2006-2007 – \$3,472,503.

The District's contributions for the fiscal years ended June 30, 2009, 2008, and 2007 were equal to the required contributions.

(d) *Annuity Reserve Fund*

The Annuity Reserve Fund is a single-employer defined contribution plan. A defined contribution plan bases benefits solely on amounts contributed to the participant's account. All contributions were made when the Fund was established in 1972. Neither the District nor the employees make any additional contributions to the Fund. All of the original 34,031 eligible employees were vested from the date of establishment of the Fund. An employee's pro rata share of the fund is the ratio of his/her contributions to the retirement system, including interest, to the total of the contributions, including interest, of all participants in the fund, calculated as of June 30, 1972.

District employees eligible to receive additional retirement benefits from the fund are those who, as of June 30, 1972 were:

- a. Members on the active and retired rolls, including deferred retirees, of the District Retirement System.
- b. Probationary or permanent certificated employees of the District, holding membership in the STRS or CalPERS and making contributions to either System on that date.

On November 18, 2003, members voted to dissolve the fund and distribute its net assets to the members. The fund was fully liquidated in June 2009.

Termination Benefits

In fiscal year 2008-2009, the District offered an early retirement incentive program to the following groups of employees: certificated, school-based classified, and organizational unit or division identified classified employees. This was offered to lessen the impact of an anticipated reduction in work force in 2009-2010 school year. The retirement incentive is equal to 40% of 2008-2009 basic salary in effect on February 24, 2009 for certificated employees and May 1, 2009 for classified employees. The basic benefit is paid in the form of an annuity with lifetime monthly payment options or fixed term monthly payments ranging from 5 to 15 years. It was purchased from Pacific Life Insurance Company and is administered by the Public Agency Retirement System (PARS). The benefits are to be funded in five (5) annual District contributions of \$10.6 million over a four (4) year period starting in 2009-2010. After discounting the expected future payments to their present value, the total cost of the early retirement incentive is \$51.2 million.

In 2008-2009, the District also purchased 2 years of additional service credits for certain employees covered by the California Public Employees' Retirement System (CalPERS). The cost of this incentive is estimated at \$1.5 million and is expected to be paid in full in 2009-2010.

Postemployment Benefits – Health and Welfare for Retirees

Plan Description

The District administers a single-employer defined benefit healthcare plan. The plan provides other post-employment (health care) benefits, in accordance with collective bargaining unit agreements and Board rules. Certificated and classified employees who retire from the District receiving a STRS/CalPERS retirement allowance (for either age or disability) are eligible to continue coverage under the District-paid hospital/medical, dental and vision plans which cover both active and retired members. The following are the eligibility requirements:

- a. Those hired prior to March 11, 1984 must have served a minimum of five consecutive qualifying years immediately prior to retirement;
- b. Those hired from March 11, 1984 through June 30, 1987 must have served a minimum of ten consecutive qualifying years immediately prior to retirement;
- c. Those hired from July 1, 1987 through May 31, 1992 must have served a minimum of 15 consecutive qualifying years immediately prior to retirement, or served ten consecutive qualifying years immediately prior to retirement plus an additional previous ten years which are not consecutive.
- d. Those hired from June 1, 1992 through February 28, 2007 must have at least 80 years combined total of consecutive qualifying service and age.
- e. Those hired from March 1, 2007 through March 31, 2009 must have at least 80 years combined total of consecutive qualifying service and age. In addition, the employee must have 15 consecutive years of qualifying service immediately prior to retirement.

- f. Those hired on or after April 1, 2009 must have at least 85 years combined total of consecutive qualifying service and age. In addition, the employee must have a minimum of 25 consecutive years of qualifying service immediately prior to retirement.

School Police (sworn personnel) hired on or after April 1, 2009 must have at least 80 years combined total of consecutive qualifying service and age. In addition, the employee must have a minimum of 20 consecutive years of qualifying service immediately prior to retirement. In order to maintain coverage, the retirees must continue to receive a STRS/CalPERS retirement allowance and must enroll in those parts of Medicare for which they are eligible. As of July 1, 2008, approximately 35,000 retirees now meet these eligibility requirements. The plan does not issue a separate financial report.

Funding Policy

The District's contribution obligation for the fiscal year for the health and welfare benefits of District personnel, including the cost of term life insurance coverage and employee assistance for active employees and coverage under health plans for dependents and retirees, generally is subject to an aggregate contribution limit. Determination of this fiscal year contribution obligation limit occurs through discussions with the relevant collective bargaining units and recommendation by the District-wide Health and Welfare Committee, and is subject to approval by the Board of Education.

For fiscal year 2009, the District contributed \$267,262,382 to the plan for the cost of total District expenditures for health and medical benefits for retired employees. These expenditures consist of retirees' current-year insurance premiums already paid to the Health Maintenance Organizations, retirees' claims reported to the District but not yet paid, and an estimate for claims incurred but not yet reported to the District.

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the plan (in thousands):

Net OPEB obligation – end of year	\$ <u><u>1,653,926</u></u>

* The District has elected to implement GASB Statement No. 45 prospectively. As a result, there are no interests on net OPEB obligation and adjustment to ARC, and beginning liability is set at zero at the beginning of the initial year.

The District’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2008 and 2009 were as follows (in thousands):

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>

6/30/2009	1,088,523	25	821,261

The District elected for prospective implementation of GASB Statement No. 45 which became effective in fiscal year 2008. Accordingly, comparative data for prior years is not available. Three-year trend information will be presented in future years.

Funded Status and Funding Progress

As of June 30, 2007, the most recent actuarial valuation date, the plan was substantially unfunded. The actuarial accrued liability for benefits was \$10.6 billion, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$10.6 billion. The covered payroll (annual payroll of active employees covered by the plan) was \$4.6 billion, and the ratio of the UAAL to the covered payroll was 229%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about the future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents information for the most recent actuarial valuation and in future years, multi-year trend information about whether the actuarial value of plan assets, if any, is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs, as applicable, between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, if any, consistent with the long-term perspective of the calculations.

In the June 30, 2007 actuarial valuation, the actuarial method used in estimating the liability is the entry age normal, level dollar cost method which is based on the assumption that the Actuarial Present Value (APV) of employees' expected postretirement benefits accrue on a level basis over their expected working careers, from hire until the date of full eligibility for postretirement medical benefits. The significant assumptions used in the computation include a 5% discount rate and a healthcare cost trend of 9% for HMOs and 11% for PPOs in 2008, ultimately declining to 5% in 2016 and 2014 respectively and remaining at that level thereafter. A healthcare cost trend rate of 5% is assumed for dental and vision. The UAAL is being amortized as a level dollar closed of projected payroll over a 30-year period. The remaining amortization period at June 30, 2009 was twenty-eight years.

(9) Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; job-related illness or injury to employees; and natural disasters. The District has established several self-insurance funds (Internal Service Funds) as follows: the Workers' Compensation Self-Insurance Fund, the Liability Self-Insurance Fund, and the Health and Welfare Benefits Fund. These funds account for the uninsured risk of loss and pay for insurance premiums, management fees, and related expenses. The District is self-insured for its Workers' Compensation Insurance Program and partially self-insured for the Health and Welfare and Liability Insurance Programs. Premium payments to Health Maintenance Organizations for medical benefits and to outside carriers for vision services, dental services, and optional life insurance are paid out of the Health and Welfare Benefits Fund.

Excess insurance has been purchased for fire loss damages, which currently provides \$1 billion coverage above a \$500,000 self-insurance retention and for general liability, which currently provides \$45 million coverage above a \$3 million self-insurance retention. No settlements exceeded insurance coverage in the last four fiscal years ended June 30, 2009.

The District has implemented an Owner Controlled Insurance Program (OCIP) covering new construction and renovation projects funded by school bonds. Under an OCIP, owners provide general liability and workers' compensation insurance coverage to construction contractors. Because contractors remove insurance costs from their bids, potential savings accrue to the owner. Under the District's program, workers' compensation coverage with statutory limits and primary general liability and excess liability coverage with limits of \$100 million have been underwritten by three major insurance carriers.

The District has also purchased environmental insurance coverage for the construction program. Two policies protect certain contractors and the District from losses resulting from environmental related

LOS ANGELES UNIFIED SCHOOL DISTRICT

incidents occurring during construction and one policy provides optional coverage to ensure that site cleanup cost overruns are not borne by the District. The limits of coverage on the cleanup cost-cap policy are variable by specific project while the other policies have limits of \$50 million each.

Liabilities for loss and loss adjustment expenses under each program are based on the estimated present value of the ultimate cost of settling the claims including the accumulation of estimates for losses reported prior to the balance sheet date, estimates of losses incurred but not reported, and estimates of expenses for investigating and adjusting reported and unreported losses. Such liabilities are estimates of the future expected settlements and are based upon analysis of historical patterns of the number of incurred claims and their values. Individual reserves are continuously monitored and reviewed and as settlements are made, or reserves adjusted, differences are reflected in current operations.

As of June 30, 2009, the amount of the total claims liabilities recorded for medical liability and workers' compensation was \$551.8 million. During the fiscal year, the District recorded workers' compensation claims liability at reduced levels as a result of legislative changes and a reduction in open and litigated claims. The actuary used a 3% discount rate for the worker's compensation calculation. Changes in the reported liabilities since July 1, 2007 are summarized as follows:

	<u>Beginning of Fiscal Year Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>End of Fiscal Year Liability</u>
2008-2009

(10) Certificates of Participation, Long-Term Capital Leases, and Operating Leases

The District has entered into Certificates of Participation (COPs) for the acquisition of school sites, relocatable classroom buildings, a new administration building, furniture and equipment, and for various other construction projects as follows:

On December 9, 1997, the District issued variable rate COPs 1997 Series A in the amount of \$91,400,000. Interest is payable monthly and has ranged from 0.10% to 8.75% over the life of the COPs. The interest

rate on June 30, 2009 was 0.16%. Principal payments are due annually through 2017. The proceeds are to fund the construction of the Vista Hermosa (formerly known as the Belmont Learning Complex).

On June 10, 1998, the District issued COPs 1998 Series A (1993 Ambassador Refunding) in the amount of \$60,805,000. Interest is due semiannually ranging from 4.00% to 5.25%. Principal payments are due annually through 2013. The proceeds from the issuance are to finance an escrow fund to prepay the District's 1993 Refunding COPs, to fund a reserve fund, and to pay the costs associated with the issuance of the certificates.

On May 23, 2000, the District issued COPs 2000 Series A (Qualified Zone Academy Bonds Project) in the amount of \$30,446,700, a first-of-its-kind bond under a federal program that offers investors tax credits rather than interest payments. Of this amount, \$3,800,000 was issued on behalf of Fenton Avenue Charter School and \$3,800,000 for Vaughn Next Century Learning Center. Scheduled payments to a sinking fund are to be made annually through maturity in 2012. The proceeds from the issuance are to pay for the rehabilitation or repair of facilities and the acquisition and installation of equipment at School to Career Academy Programs school sites and at the two charter schools. This issue was partially refunded by COPs 2004 Series B in July 2004. A portion of this issue is being repaid from Measure Y funds.

On October 4, 2000, the District issued COPs 2000 Series B (Multiple Properties Project) in the amount of \$172,715,000. Interest is payable semiannually ranging from 4.00% to 5.50% with annual principal payments through 2010. The proceeds are to pay for internet connectivity, portable classrooms, air-conditioning projects, sports facility improvements, and construction at adult schools.

On November 6, 2001, the District issued COPs 2001 Series B (Administration Building Project I) in the amount of \$68,890,000. Interest is paid semiannually at 5.00%. Principal payments are due annually beginning 2024 through 2031. The proceeds are to pay for improvements at the District's new administration building. This issue was partially refunded by COPs 2004 Series A in July 2004.

On December 19, 2002, the District issued COPs 2002 Series C (Administration Building Project II) in the amount of \$9,490,000. Interest is payable semiannually ranging from 2.00% to 5.00%. Principal payments are due annually through 2031. The proceeds are to fund tenant improvements and Heating, Ventilation and Air Conditioning (HVAC) upgrades for the 12th floor and painting and lighting upgrades of the garage of the Administration Building. This issue was partially refunded by COPs 2004 Series A in July 2004.

On June 26, 2003, the District issued COPs 2003 Series B (Capital Project I) in the amount of \$31,620,000. Interest is payable semiannually ranging from 2.00% to 5.00%. Principal payments are due annually through 2028. The proceeds are used to purchase and equip a turn-key warehouse in the City of Pico Rivera. This issue was partially refunded by COPs 2004 Series A in July 2004.

On July 28, 2004, the District issued COPs 2004 Series A (Refinancing and Refunding Project I) in the amount of \$50,700,000. Interest is payable semiannually ranging from 3.00% to 5.00%. Principal payments are due annually through 2014. Proceeds are to refinance certain prior debt service payments and to refund portions of the District COPs. This advance refunding was undertaken to reduce General Fund debt service payments in fiscal years 2004-2005 and 2005-2006 by \$45.0 million with an increase to total debt service payments of \$17.8 million over the next ten years. This issue was partially refunded by Measure Y Series D Bonds in February 2006.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Year Ended June 30, 2009

On July 28, 2004, the District issued COPs 2004 Series B (Refinancing and Refunding Project I – Federally Taxable) in the amount of \$6,925,000. Interest is payable semiannually at 4.25%. The principal payment was paid in full in October 2008. Proceeds are to refund portions of the 2000 Series A (Qualified Zone Academy Bonds) and the 2001 Series C (Beaudry I) COPs. This advance refunding was undertaken to reduce General Fund debt service payments in fiscal years 2004-2005 and 2005-2006 by \$6.5 million with an increase to total debt service payments of \$1.1 million over the next four years. This issue was partially refunded by Measure Y Series D Bonds in February 2006.

On May 24, 2005, the District issued variable rate COPs 2005 Series A (Administration Building Project) in the amount of \$86,525,000. Interest is paid monthly at a weekly rate payable on the first business day of each month commencing on June 1, 2005 through October 1, 2024. Through June 30, 2009, the interest rate has ranged from 1.95% to 10.00% over the life of the COPs. The 2005 A Certificates were used to refund the 2001C COPs in the amount of \$84.5 million, which resulted in a net present value savings of approximately \$9.4 million based on an assumed variable rate of 3.05% (15-year average of Bond Member Association (BMA)), semiannual interest payments, and 30/360 semiannual compounding. This issue was fully refunded by COPs 2008 Series A in August 2008.

On May 24, 2005, the District issued variable rate COPs 2005 Series B (Administration Building Project III) in the amount of \$21,340,000. Interest is paid monthly at a weekly rate payable on the first business day of each month commencing on June 1, 2005 through October 1, 2031. Through June 30, 2009, the interest rate has ranged from 2.00% to 7.40%. The 2005 B Certificates were to finance certain property improvements of the District and to fund capitalized interest and fees. This issue was fully refunded by COPs 2008 Series B in August 2008.

On May 24, 2005, the District issued variable rate COPs 2005 Series C (Multiple Properties Project) in the amount of \$44,225,000. The 2005 C Certificates were initially delivered in a term mode at a rate of 4.00% for a period from the date of delivery through October 1, 2006, payable on April 1 and October 1 commencing October 1, 2005. The Certificate converted to a weekly mode on October 2, 2006. While in a weekly mode, interest is payable on the first business day of each month, maturing on October 1, 2025. Through June 30, 2009, the variable interest rate has ranged from 1.00% to 7.80% over the life of the COPs. The proceeds from the issuance were used to refund the outstanding Refunded 1996 COPs (1996A COPs – ELA/King Drew Refunding) in the amount of \$41.95 million as variable bonds. This advance refunding resulted in a net present value savings of \$2.9 million based on an assumed variable rate of 3.05% (15-year average of BMA). This issue was redeemed in full in May 2009.

On December 13, 2005, the District issued COPs 2005 (2004-2005 Qualified Zone Academy Bonds) in the amount of \$10,000,000. The zero interest tax credit bonds are used for modernizing nine schools to accommodate existing or planned academy programs that address student career pathway/higher education interests. Scheduled payments to a sinking fund are to be made annually through maturity in 2020.

On November 15, 2007, the District issued COPs 2007 Series A (Information Technology Projects) in the amount of \$99,660,000. Interest is payable semiannually ranging from 4.00% to 5.00%. Principal payments are due annually through 2017. The proceeds are used to finance acquisition, development and installation of the information technology systems of the District.

On August 6, 2008, the District issued variable rate refunding COPs 2008 Series A (Administration Building Project) in the amount of \$97,530,000. Interest is payable monthly and has ranged from 0.12% to 7.30% over the life of the COPs. The interest rate on June 30, 2009 was 0.17%. Principal payments are due annually through 2024. The proceeds are to prepay all of the outstanding Series 2005A Certificates, fund a reserve account for the Series 2008A Certificates, fund portions of reserve accounts for the 2001B and 2002C Certificates and pay cost of issuance incurred in connection with the Series 2008A Certificates.

On August 6, 2008, the District issued variable rate refunding COPs 2008 Series B (Administration Building Project III) in the amount of \$23,420,000. Interest is payable monthly and has ranged from 0.15% to 8.00% over the life of the COPs. The interest rate on June 30, 2009 was 0.25%. Principal payments are due annually through 2031. The proceeds are to prepay all of the outstanding Series 2005B Certificates, fund a reserve account for the Series 2008B Certificates, fund portions of reserve accounts for the 2001B and 2002C Certificates and pay cost of issuance incurred in connection with the Series 2008B Certificates.

Other Leasing Arrangements

The District has entered into various lease agreements ranging from three to five years to finance the acquisition of office equipment. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. The future minimum lease payments (principal plus interest) and the net present value of these minimum lease payments (principal only) are detailed in Note 11 – Long-Term Obligations.

The District's operating leases consist of various leased facilities and office equipment (primarily copiers). The leased facilities have varying terms ranging from less than a year to 36 years. Some leases are month to month and a few are year to year. The leases expire over the next 11 years subject to renewal option provisions.

The office equipment lease (primarily copiers) is also under various lease terms that range from less than a year to 5 years. The leases expire during the next 5 years.

The total expenditure for all operating leases amounted to \$27,536,570 in 2008-2009. The future minimum commitments for noncancelable operating lease of the District as of June 30, 2009 are as follows (in thousands):

5. Series "I" bonds sold in February 2009 at \$550.0 million par value.

(d) six issuances of Measure Y bonds:

1. four issuances of Measure Y bonds sold in February 2006: Series "A" bonds at \$56.8 million par value, Series "B" bonds at \$80.2 million par value, Series "C" bonds at \$210.0 million par value and Series "D" bonds at \$47.4 million par value, all of which, except for Series C and \$5.7 million of Series D, were used to partially or fully refund certain certificates of participation;
2. In August 2007, Measure Y bonds, Series "E" was sold for \$300.0 million;
3. In February 2009, Measure Y bonds, Series "F" was sold for \$150.0 million; and

(e) general obligation refunding bonds:

1. 2004 Series "A-1" and "A-2" sold in December 2004 at \$219.1 million par value;
2. 2005 Series "A-1" and "A-2" sold in July 2005 at \$467.7 million par value, 2006 Series "A" sold in February 2006 at \$132.3 million par value;
3. 2006 Series "B" sold in November 2006 at \$574.9 million par value;
4. 2007 Series "A-1" and "A-2" sold in January 2007 at \$1.289 billion par value; and
5. 2007 Series "B" sold in February 2007 at \$24.8 million par value, all of which were used to partially refund certain general obligation bonds as stated above.

In fiscal year 2008-2009, no refunding bond was issued by the District. The total amount of debt outstanding that is considered defeased is \$2.9 billion.

The State School Building Aid Fund payable represents loans under the State Education Code Section 16310 for the replacement or rehabilitation of pre-1933 buildings. These loans are repaid with interest at varying rates, as specified by the State Allocation Board at the time of approval of each project application, from annual tax collections received by the Tax Override Fund. Principal and interest are to be paid in 20 equal annual amounts, not to exceed the amount that would be produced by a property tax levy of 4.375 cents per \$100 of assessed value. The loan is substantially paid in full as of June 30, 2009.

The Children Center Facilities revolving loan represents loan proceeds from the State Child Development Revolving Fund for the purchase of relocatable buildings, sites and site improvements for child care facilities. The loan, which does not incur interest charges, must be repaid in ten years. Annual repayment will begin when the full amount of the loan is received.

The California Energy Commission has agreed to provide the District with State funding of up to \$8 million (at a 3.95% annual interest rate) of which \$1.32 million was received in fiscal year 2004-2005. An additional \$0.06 million was received in fiscal year 2005-2006. The principal and interest will be repaid in its entirety through energy cost avoidance that the District intends to achieve from its energy

project. The project involves use of energy efficient equipment, certain building shell components and improved methods of lighting and lighting controls.

The Arbitrage Payable balance reflects amounts due to the United States Treasury in order to comply with Internal Revenue Code Section 148(f). When the District issues tax-exempt debt, IRS regulations limit the yield that the District can earn on the bond proceeds. If the District earns an amount in excess of the bond yield and does not qualify for a spending exception, the District must remit the excess earnings to the US Treasury. Payments equal to 90% of the calculated excess earnings are due on each fifth anniversary of a bond's issuance date. When a bond issue is retired, all of the remaining excess earnings must be remitted.

The Legal Settlements balance of \$25.378 million represents liabilities arising from legal cases that were settled in the subsequent fiscal year but not yet paid.

(12) Interfund Transactions

(a) Interfund Receivables/Payables (Due to/from Other Funds)

Interfund receivables/payables are eliminated on the government-wide statement of net assets but are reported on the fund financial statements. The following is a summary of interfund receivables and payables at June 30, 2009 (in thousands):

<u>Fund Group</u>	<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
General:	Unrestricted	\$ 294,981	\$ —
	Restricted	—	274,833

	Total Special Revenue	<u>—</u>	<u>20,148</u>
Total Interfund Receivables/Payables		<u>\$ 294,981</u>	<u>\$ 294,981</u>

The outstanding balances of interfund receivables and payables result mainly from timing differences between the dates that interfund exchange of services or reimbursable expenditures occur, transactions are recorded and payments between funds are made. Interfund receivables and payables also arise when transfers are made to move revenue collected in one fund to another fund where the resources are spent or accounted for, in accordance with budgetary authorization, including amounts provided as matching funds or for debt service.

Designated fund balances represent those portions segregated to indicate tentative plans for financial resource utilization in a future period.

Undesignated fund balances represent the portion available for appropriation in the next fiscal year.

(14) Contingencies

(a) General

The District has been named as a defendant in numerous lawsuits. These seek, among other things, to require the District to reinstate terminated and laid-off employees, to remedy alleged noncompliance regarding special education schools, and to change existing instructional programs, pupil integration methods, and employment and administration procedures. In certain instances, monetary damages

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

are sought including claims for retroactive pay. Based on the opinion of counsel, management believes that the ultimate outcome of such lawsuits will not have a material effect on the District's financial condition.

(b) Grants

The District has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under the terms of the grants, management believes that any required reimbursement will not be material to the financial statements.

(c) Construction Contracts

The District has entered into various contracts for the construction of facilities throughout the campuses. During fiscal year 2008-2009 the District entered into approximately 307 contracts with a combined value of \$584.4 million. The durations of the contracts range from four weeks to three years.

(15) Subsequent Events

On July 28, 2009 Governor Schwarzenegger signed a package of bills amending the 2008-2009 and 2009-2010 California State budgets. The budget amendments were designed to address the State's budget gap of \$24 billion that had developed as a result of the deepening recession since the State's last budget actions in February 2009. The July budget package reduced, on a statewide basis, \$1.6 billion in 2008-2009 Proposition 98 funding through a reversion of undistributed categorical program balances. The budget language identified 51 specific programs and required the amount associated with these programs that were "unallocated, unexpended, or not liquidated as of June 30, 2009" to be reverted back to the State's General Fund. The July budget package also provided an appropriation in 2009-2010 to backfill \$1.5 billion of these cuts to repay the 2008-2009 reversion of the undistributed categorical program balances.

The District recorded the revenue and related receivable associated with its portion of the unallocated, unexpended or unliquidated categorical program balances identified in the July 2009 State Budget package prior to notification by the State that the 2009-2010 re-appropriation should not be accrued. In accordance with Governmental Accounting Standards Board Statement No. 33, an adjustment to reduce revenue and the related receivable has been included in these financial statements.

Financing Transactions

On August 13, 2009, the District issued \$750 million of Tax and Revenue Anticipation Notes that mature on August 12, 2010 that carry a coupon of 2.00%, and had an arbitrage yield of 0.62%.

On September 29, 2009, the District issued \$40,728,200 of Certificates of Participation 2009 Series A to finance equipment and capital improvements for the Cafeteria Management System and Newman Nutrition Center. The COPs mature on October 1, 2019 and had an arbitrage yield of 3.92%.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2009

On October 15, 2009, the District issued a total of \$1,974.8 million of General Obligation Bonds as follows:

- a. Qualified School Construction Bonds for \$318.8 million, Measure Y, Election of 2005, Series H
- b. Election of 2005, Measure Y Series G, Federally Taxable Bonds for \$5.6 million
- c. Series KRY, Federally Taxable Build America Bonds for \$1,369.8 million and \$205.8 million Tax Exempt General Obligation Bonds or a total of \$1,575.6 million as: \$200 million of Measure K, \$400 million of Measure R, and \$975.6 million of Measure Y, and
- d. Tax Exempt Refunding Bonds Series A for \$74.8 million

On January 27, 2010, the District issued \$69,685,000 of Refunding Certificates of Participation 2010 Series A to refinance the 1997 Series A Certificates and the 1998 Series A Certificates. The COPs mature on December 1, 2017 and had an arbitrage yield of 3.20%.

On February 18, 2010, the District completed the sale of General Obligation bonds as follows:

- a. \$491.6 million Series KRY, Tax Exempt General Obligation Bonds
- b. \$1,250.6 million Series RY, Federally Taxable Build America Bonds
- c. \$3.8 million Measure Y, Election of 2005, Series I (Taxable)
- d. \$75 million Tax Exempt Refunding Bonds Series A

This transaction is scheduled to close on March 4, 2010.

LOS ANGELES UNIFIED SCHOOL DISTRICT

County School Facilities Bonds Fund

The County School Facilities Fund was established on March 9, 1999 in accordance with Education Code Section 17070 and is used to account for funds received from the State's Proposition 1A bond proceeds.

The County School Facilities Fund – Proposition 47 was established on March 25, 2003 in accordance with Education Code Section 17070.43 and is used to account for apportionments received from the State School Facilities Fund. The passage of Proposition 47 in November 2002 authorizes the sale of bonds, which provides funding for new school facility construction, modernization projects, and facility hardship grants.

The County School Facilities Fund – Proposition 55 was established on July 19, 2004 to account for the matching funds received as a result of the passage of Measure R. Proposition 55 was passed by the voters in March 2004.

The County School Facilities Fund – Proposition 1D was established on December 12, 2006. The passage of Proposition 1D in November 2006 provides State bond funds to repair and renovate old and outdated classrooms and to build new schools and classrooms to relieve overcrowding. Proposition 1D provides matching State funds for locally approved school bond measures.

Debt Service Funds

The Bond Interest and Redemption Fund is used to account for the payment of the principal and interest on the Proposition BB, Measure K, Measure R, and Measure Y bond issues. Revenues are derived from ad valorem taxes levied upon all property subject to tax by the District. Such taxes, when collected, are placed and maintained by the County of Los Angeles in a Debt Service Fund under the District's name.

The Tax Override Fund is used to account for the accumulation of resources from ad valorem tax levies for the repayment of State School Building Aid Fund apportionments. The loan is substantially paid in full as of June 30, 2009.

The Capital Services Fund is used to account for the accumulation of resources for the repayment of principal and interest on Certificates of Participation and long-term capital lease agreements. Revenues are derived primarily from operating transfers from user funds and investment income.

Nonmajor Governmental Funds

Special Revenue Funds

The Adult Education Fund is used to account for resources committed to the operation of Community Adult Schools including educational programs funded by other government agencies. This Fund was established as authorized by State Education Code Section 42238. Revenues are primarily derived from State apportionments, federal subventions, investment income, and adult education fees.

The Cafeteria Fund is used to account for resources designated for the operation of the District's food services programs. Revenues are primarily derived from federal and state subsidies, food sales, and investment income. Since the primary source of revenues is from federal and state subsidies rather than food sales, this fund is classified as a Special Revenue Fund rather than as an Enterprise Fund.

The Child Development Fund is used to account for resources committed to the operation of the District's child development programs. Revenues are primarily derived from federal and state grants and apportionments, early education center fees, investment income, and operating transfers from the General Fund.

The Deferred Maintenance Fund is used to account for resources designated for the major repair or replacement of District property under the plan approved by the State Allocation Board. Revenues are derived from State apportionments, District matching funds, and investment income.

Capital Projects Funds

The Building Fund is used to account for revenue from rentals and leases of real property and other resources designated for facility expansion.

The State School Building Lease - Purchase Fund is used to account for State apportionments received in accordance with State Education Code Sections 17700-17780. Projects are funded by the State subject to appropriation of funds in the State Budget. The District may be required to transfer to this fund any available moneys from other funds as the District's contribution to a particular project.

The Special Reserve Fund is used to account for District resources designated for capital outlay purposes such as land purchases, ground improvements, facilities construction and improvements, new acquisitions, and related expenditures.

The Special Reserve Fund – FEMA-Earthquake is used to account for funds received from the Federal Emergency Management Agency (FEMA) for capital outlay projects resulting from the January 17, 1994 Northridge Earthquake.

The Special Reserve Fund – FEMA-Hazard Mitigation was established on April 15, 1996 to account for funds received from FEMA and for the 25% District-matching funds for the retrofit/replacement of pendant lighting and suspended ceilings in selected buildings at schools, offices, and children's centers.

The Special Reserve Fund – Community Redevelopment Agency is used to account for reimbursements of tax increment revenues from certain community redevelopment agencies based on agreements between the District and the agencies. These reimbursements are to be used for capital projects within the respective redevelopment areas covered in the agreements.

The Capital Facilities Account Fund was established in January 1, 1987 in accordance with Section 53080 of the California Government Code and is used to account for resources received from fees levied upon new residential, commercial, or industrial development projects within the District's boundaries in order to obtain funds for the construction or acquisition of school facilities to relieve overcrowding.

Internal Service Funds

The Health and Welfare Benefits Fund was established pursuant to Education Code 39602 to pay for claims, administrative costs, insurance premiums, and related expenditures for the District's Health and Welfare Benefits program. Medical and dental claims for the self-insured portion of the Fund are administered by outside claims administrators. Premium payments to health maintenance organizations for medical benefits and to outside carriers for vision services, dental services, and optional life insurance are also paid out of this Fund.

The Workers' Compensation Self-Insurance Fund was established pursuant to Education Code 39602 to pay for claims, excess insurance coverage, administrative costs, and related expenditures. Workers' compensation claims are administered for the District by an outside claims administrator.

The Liability Self-Insurance Fund was established pursuant to Education Code 39602 to pay claims, excess insurance coverage, administrative costs and related expenditures, and to provide funds for insurance deductible amounts. Liability claims are administered for the District by an outside claims administrator.

Fiduciary Funds

Pension Trust Funds:

The Annuity Reserve Fund was established in 1972 to account for all financial resources used to provide vested retirement benefits to certificated employees resulting from the dissolution of the District's teacher retirement system. On November 18, 2003, participants voted to dissolve the Fund and distribute its net assets to the members. The Fund was closed out in June 2009 and all remaining equity was transferred to the General Fund.

The Attendance Incentive Reserve Fund was established on November 21, 1994 to account for 50% of the salary savings from substitute teachers' accounting resulting from reduced costs of absenteeism of UTLA represented employees. The intent was to reward regular attendance of teachers in order to improve the instructional program.

Agency Fund:

The Student Body Fund was established to account for cash held by the District on behalf of the student bodies at various school sites.

**STATISTICAL
SECTION**

LOS ANGELES UNIFIED SCHOOL DISTRICT

Statistical Information

The Statistical Section of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the District's overall financial health.

Contents

Financial trends

These schedules contain information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue capacity

These schedules contain information to help the reader assess the District's most significant local revenue sources.

Debt capacity

These schedules contain information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and economic information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and activities it performs.

Source: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented GASB Statement No. 34 in 2002; schedules presenting government-wide information include information beginning in that year.

* Beginning with fiscal year 2007-08, the principal apportionment for Adult is no longer a revenue limit item. It was determined by the State to be more appropriately classified as other state apportionments.

** Per SBX3 4 (Chapter 12, Statutes of 2009), funding for fiscal years 2008-2009 through 2012-2013 is based on the District's 2007-2008 proportionate share of funding to the State's total available funding for the program. CDE will revert back to the usual funding formula for this program in fiscal year 2013-2014.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to State Compliance Information

Year Ended June 30, 2009

(1) Purpose of Schedules

(a) *Schedule of Average Daily Attendance*

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

The schedule of average daily attendance for each of the District's affiliated charter schools is provided separately.

(b) *Schedule of Instructional Time Offered*

The District has received incentive funding for increasing instructional time as provided by the Incentive for longer instructional day. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46201 through 46206.

(c) *Schedule of Financial Trends and Analysis*

This schedule focuses on financial trends by displaying past years' data along with current budget information and evaluates the District's ability to continue as a going concern for a reasonable period of time.

(d) *Reconciliation of Unaudited Actual Financial Reports with Audited Financial Statements*

This schedule provides the information necessary to reconcile the differences between fund balances reported on the unaudited actual financial reports and the audited financial statements.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Schedule of Expenditures of Federal Awards

Year Ended June 30, 2009

(1) General

The accompanying schedule of expenditures of federal awards presents the expenditures of all federal financial assistance programs for the Los Angeles Unified School District (District). The District's reporting entity is defined in the notes to the District's basic financial statements.

(2) Basis of Accounting

The accompanying schedule of expenditures of federal awards is presented using the modified accrual basis of accounting, as described in Note 1 of the notes to the District's basic financial statements. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in, the preparation of the District's basic financial statements but agrees in all material respects.

(3) Noncash Assistance

Included in the schedule of expenditures of federal awards is (CFDA #10.555) \$13,162,672 of donated food commodities received from the U.S. Department of Agriculture, passed-through the State of California, during the year ended June 30, 2009.

(4) Subrecipient Awards

Of the federal expenditures presented in the schedule of expenditures of federal awards, the District provided a significant amount of funding to various subrecipients. Due to the extensive number of federal programs and volume of subrecipients, it is not practical to display the detailed subrecipient information in the schedule of expenditures of federal awards.

**Report on Internal Control over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

The Honorable Board of Education
Los Angeles Unified School District

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Los Angeles Unified School District** (the District) as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 19, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the Education Audit Appeal Panel's *Standards and Procedures for Audits of California K-12 Local Education Agencies 2008-09*.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with U.S. generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control. We consider deficiencies FS-09-01 and FS-09-02 described in the accompanying schedule of findings and questioned costs to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we

believe that deficiency FS-09-01 of the significant deficiencies described above is a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the District in a separate letter dated February 19, 2010.

The District's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Board of Education, District management, federal awarding agencies, state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Report on Compliance with Requirements Applicable to
 Each Major Program and on Internal Control over Compliance in Accordance
 with OMB Circular A-133**

The Honorable Board of Education
 Los Angeles Unified School District

Compliance

We have audited the compliance of the **Los Angeles Unified School District** (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2009. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

As described in the table below and in the accompanying schedule of findings and questioned costs, the District did not comply with requirements that are applicable to the following programs:

Compliance requirement	Program Name and Catalog of Federal Domestic Assistance (CFDA) number	Finding number
Allowable Costs	Child Nutrition Cluster: School Breakfast Program, CFDA 10.553; National School Lunch Program, CFDA 10.555; Summer Food Service Program for Children, CFDA 10.559; Title I Grants to Local Educational Agencies, CFDA 84.010; Special Education Cluster: Special Education Grants to States, CFDA 84.027; Special Education Pre-School Grants, CGDA 84.173; Safe and Drug-Free Schools and Communities, CFDA 84.186;	F-09-01

Compliance with such requirements is necessary, in our opinion, for the District to comply with the requirements applicable to those programs.

In our opinion, except for the noncompliance described in the table above, the District complied, in all material respects, with the requirements that are applicable to each of its major federal programs for the year ended June 30, 2009. The results of our auditing procedures also disclosed other instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items: F-09-01, F-09-02, F-09-03, F-09-05, F-09-06, F-09-08, F-09-09, F-09-10, F-09-13 and F-09-19.

Internal Control over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District’s internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the entity’s internal control that might be significant deficiencies or material weaknesses as defined below. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies and others that we consider to be material weaknesses.

A control deficiency in an entity’s internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity’s ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity’s internal control. We consider the deficiencies in internal control over compliance described

in the accompanying schedule of findings and questioned costs as items F-09-01 to F-09-20 to be significant deficiencies.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. Of the significant deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs, we consider items: F09-01, F09-04, F-09-07, 09-09, F-09-10, F-09-12, F-09-14, F09-15, F-09-16, F-09-17, F-09-19, and F-09-20 to be material weaknesses.

The District's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the District's response, and accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Board of Education, District management, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Auditor's Report on State Compliance

The Honorable Board of Education
 Los Angeles Unified School District

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Los Angeles Unified School District** (the District), as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 19, 2010.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States; and the Education Audit Appeals Panel's *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2008-09* (the Guide). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions. Our audit does not provide a legal determination of the District's compliance with those requirements.

The District's management is responsible for the District's compliance with laws and regulations. In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:

Section II – Findings Relating to the Basic Financial Statements which are Required to be Reported in Accordance with GAS

FS-09-01 - Lack of IFS Security Reporting - Material Weakness

State Audit Guide Finding Code: 30000

Criteria

Security reporting is a key mechanism to facilitate the effective review of access to critical and sensitive accounting system transactions, for example, journal entry creation, vendor record update, accounts payable transactions, etc.

Condition

Security user access reports are not generated and reviewed periodically to certify access to IFS system accounting transactions.

Cause and Effect

The lack of sufficient security reporting could result in management's inability to effectively manage access to sensitive accounting transactions and ensure that the system adequately enforces segregation of duties.

Recommendation

IFS user access security reports be developed to facilitate management review of user access to IFS transactions. These reports should be reviewed periodically by Accounting Department management to ensure access to sensitive accounting system transactions is appropriate and restricted based upon the user's job function.

View of Responsible Officials and Planned Corrective Action

Management agrees with finding and is in the process of developing an IFS user access security report. (Estimated completion date: July 1, 2010.)

FS-09-02 - Lack of Logging and Security Monitoring Control Processes - Significant Deficiency

State Audit Guide Finding Code: 30000

Criteria

The logging of user activity is a critical audit trail control. Within the Windows network, event logs may be set to record user account related events (e.g., account logons, use of security administration privileges, etc.) by a success/failure criteria.

Condition

The Windows server network audit logging is not enabled to log the use of network system privileges for successes and failures. Also, although the following logs are enabled, they are not reviewed on a regular basis:

- Audit account logon events

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

- Audit account management
- Audit system events
- Audit policy change
- Audit directory service accesses
- Audit object access
- Audit logon events

Cause and Effect

Unauthorized access to the network may not be detected if unsuccessful user authentication attempts and other types of potential security violations are not consistently logged and reviewed periodically.

Recommendation

Windows network logs which capture critical activities should be reviewed on a timely basis. If necessary, log filtering tools can be used to enable efficient monitoring and review of access.

View of Responsible Officials and Planned Corrective Action

ITD management is currently configuring a network log tool, e.g., MARS (Monitoring Analysis & Response System) for June 1, 2010 implementation to facilitate automating log filtering and review.

- Where employees work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personnel activity reports or equivalent documentation that meets the standards in subsection (5) unless a statistical sampling system (see subsection (6)) or other substitute system has been approved by the cognizant federal agency. Such documentary support will be required where employees work on:
 - (a) More than one federal award,
 - (b) A federal award and a nonfederal award,
 - (c) An indirect cost activity and a direct cost activity,
 - (d) Two or more indirect activities which are allocated using different allocation bases, or
 - (e) An unallowable activity and a direct or indirect cost activity.
- Personnel activity reports or equivalent documentation must meet the following standards:
 - (a) They must reflect an after the fact distribution of the actual activity of each employee,
 - (b) They must account for the total activity for which each employee is compensated,
 - (c) They must be prepared at least monthly and must coincide with one or more pay periods, and
 - (d) They must be signed by the employee.

Condition

As part of our compliance review over payroll expenditures, we selected a sample of payroll expenditures charged to the program to ascertain if they were allowable per program regulations, accurately charged to the program, and appropriately supported in accordance with the OMB Circular A-87.

Child Nutrition Cluster: In our sample of 60 payroll expenditures, we noted that 15 of the 60 sampled employees did not have appropriate documentation in accordance with OMB Circular A-87 to support the payroll expenditures charged to the program as follows:

- 4 employees totaling \$2,689 were unable to provide either multifunded timesheets or semiannual certifications to support the payroll expenditures charged to the program.
- 2 employees totaling \$869 provided semiannual certifications; however, the certifications were not dated subsequent to our requests.
- 2 employees totaling \$836 provided semiannual certifications; however, the certifications were signed but not dated. As such, we were unable to determine if the certifications were prepared timely.
- 2 employees totaling \$6,871 provided semiannual certifications; however, the certifications were not prepared timely (approximately 3 months late).

Cause and Effect

In March 2009, the District updated its procedures in monitoring compliance with federal time reporting requirements. The significant noncompliance resulted from a lack of understanding of the federal compliance requirements by the District's employees.

These findings are repeat findings, have been reported previously for June 30, 2005 to June 30, 2008 (F-05-01, F-06-01, F-07-01, and F-08-01).

Recommendation

We recommend that the District continue to provide ongoing training to appropriate personnel on the updated procedures. We also recommend that the District meet with the School Administrative Assistants who oversee time reporting in schools, and provide them additional guidance.

Views of Responsible Officials and Planned Corrective Actions

By March 2010, the District will issue another revision to the "Time reporting for Federal and State Categorical Programs" bulletin which will further clarify which employees must complete the certification form, and add a monitoring component to further ensure that affected employees are in compliance. The new bulletin will concentrate on the certification requirements; the timekeeping components will be addressed in a separate bulletin.

A report that lists employees that need semi-annual certification/multi-funded time report/personnel activity reports will be sent to schools. The Local District's and schools will be required to certify correctness of the file sent to them and keep the certifications on file.

The District is also contemplating enhancing the centralized monitoring function of time reporting and certification compliance for federally funded employees. Staff has visited the LA County Office of Education to discuss/observe their centralized system in order to determine if their methodology is viable and applicable to the District.

OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, Attachment A, General Principles for Determining Allowable Costs, Part C, Basic Guidelines:

- Factors affecting allowability of costs. To be allowable under federal awards, costs must meet the following general criteria:
 - a. Be necessary and reasonable for proper and efficient performance and administration of federal awards.
 - b. Be allocable to federal awards under the provisions of this circular.
 - c. Be authorized or not prohibited under state or local laws or regulations.
 - d. Conform to any limitations or exclusions set forth in these principles, federal laws, terms and conditions of the federal award, or other governing regulations as to types or amounts of cost items.
 - e. Be consistent with policies, regulations, and procedures that apply uniformly to both federal awards and other activities of the governmental unit.
 - f. Be accorded consistent treatment. A cost may not be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the federal award as an indirect cost.
 - g. Except as otherwise provided for in this circular, be determined in accordance with generally accepted accounting principles.
 - h. Not be included as a cost or used to meet cost sharing or matching requirements of any other federal award in either the current or a prior period, except as specifically provided by federal law or regulation.
 - i. Be the net of all applicable credits.
 - j. Be adequately documented.
- Allocable costs.
 - a. A cost is allocable to a particular cost objective if the goods or services involved are chargeable or assignable to such cost objective in accordance with relative benefits received.
 - b. Any cost allocable to a particular federal award or cost objective under the principles provided for in this circular may not be charged to other federal awards to overcome fund deficiencies, to avoid restrictions imposed by law or terms of the federal awards, or for other reasons.

Condition

As part of our procedures over program expenditures, we selected a sample of adjusting journal vouchers for non-payroll expenditures that were recorded and charged to the program to ascertain if they were appropriately supported in accordance with OMB cost circular documentation requirements. We noted that 7 of the 25 sampled adjusting journal vouchers recorded to expenditure accounts were not allowable in accordance with OMB Circular A-87 or the program guidelines:

- 1 journal voucher totaling \$8,262 was charged for the regular textbooks for foreign language subject. Textbooks are not allowable cost to Title I as they are not supplemental activities.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

- 1 journal voucher totaling \$5,541 was charged for hotel charges; however, the District was unable to provide appropriate documentation to support allowable activity of this charge.
- 3 journal vouchers totaling \$14,088 were charged for food services provided to students who were enrolled in the Learning Academy program which provides intervention/supplemental services to students who are at risk or struggling for learning. Food costs are not allowable to this program.
- 2 journal vouchers totaling \$38,026 were charged to “other expense”. The expenditures were originally recorded in a suspense account in SAP payroll and then transferred at year-end through journal vouchers to object code 5805, other expense. However, we were unable to obtain documentation to support the nature of the expenditures and the allowabilty to the program.

Total exception of \$65,917 of the \$2,645,671 sampled of the \$29,320,357 charges of journal vouchers for the fiscal year 2008-09.

Cause and Effect

Adequate controls are not in place to ensure that all adjusting journal vouchers for charges to federal programs have sufficient supporting documentation for allowable activities.

This is a repeat finding from June 30, 2008 (F-08-02) and June, 30, 2007 (F-07-04).

Questioned Costs

\$65,917

Recommendation

We recommend that the District provide additional guidance/training to ensure appropriate documentation is maintained to support expenditures charged to federally funded programs. The District should also strengthen its controls over its charges to the federally funded programs to ensure that the reimbursement is in accordance with federal guidelines.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the finding. The District will provide more guidance and training to ensure appropriate documentation is on file. Although the cost of the errors is due to a technical assignment issue, the District will strengthen its controls.

- d. Any cost allocable to a particular federal award or cost objective under the principles provided for in this circular may not be charged to other federal awards to overcome fund deficiencies, to avoid restrictions imposed by law or terms of the federal awards, or for other reasons.

Condition

As part of our procedures over program expenditures, we selected samples of non-payroll expenditures charged to each program to ascertain if the expenditures were allowable per program regulations, accurately charged to the program, and appropriately supported in accordance with the OMB cost circular documentation requirement.

Safe and Drug-free Schools and Communities: In the sample of 40 non-payroll expenditures we noted the following exceptions:

- 1 expenditure sampled totaling \$2,620 was paid for 160 books for poem and quotes called "Inspiration 52", which were not a program related activity.
- 1 expenditure sampled totaling \$10,000 was paid to a vendor to assist Beyond the Bell in preparing the 21st Century Community Learning Centers grant applications to the California Department of Education, which was not a program related activity.

The total exceptions amounted to \$12,620 out of the \$3,607,216 sampled from the \$2,376,497 total non-payroll program expenditures for the fiscal year ended June 30, 2009.

Fund for the Improvement of Education: In the sample of 40 non-payroll expenditures we noted the following exceptions:

- 1 expenditure sampled totaling \$5,461 was paid for algebra textbooks; which was an unallowed cost per program.
- 5 expenditures sampled totaling of \$5,238 was charged for laser cartridges and toners charged; however, insufficient documentation was provided to support the purchase of the toners.

The total exceptions amounted to \$10,699 out of the \$744,973 sampled from the \$1,580,660 total non-payroll program expenditures for the fiscal year ended June 30, 2009.

Cause and Effect

Adequate controls are not in place to ensure that all expenditures charged to these federally funded programs are for allowable activities and have sufficient supporting documentation.

These findings are repeat findings, having been reported previously for June 30, 2007 (07-05).

- d. Documentation of training;
- e. Documentation of parental incapacity;
- f. Documentation of child's exceptional needs;
- g. Documentation of homelessness;
- h. Documentation of seeking permanent housing for family stability
- i. Written referral from a legally qualified professional from a legal, medical or social services agency or emergency shelter for children at risk of abuse, neglect or exploitation;
- j. Written referral from a county welfare department, child welfare services worker, certifying that the child is receiving protective services and the family requires child care and development services as part of the case plan;
- k. For parents receiving cash assistance, documentation regarding the approved welfare to work plan or activity that may include documentation of days and hours of need;
- l. If the parent of the child was on cash assistance, the date the parental cash aid was terminated.
 - A signed Child Care data collection Privacy Notice and Consent Form CD 9600A (Rev. 01/04) shall be included.
 - Notice of Action, Application for Services and/or Recipient of Services shall be included.
 - The family data file shall contain all child health and current emergency information required by California Code of regulations, Title 22, Social Security, Division 12, and Community Care Facilities Licensing Regulations with the following exception. Immunization records are not required to be in the family data file for children attending a public or private elementary school or for children receiving care in licensed facilities and reimbursed pursuant to Education Code sections 8220 and 8350.

Condition

In our procedures performed to determine eligibility for the childcare program called CCTR, we sampled a total of 60 files from 10 out of 100 Early Education Child Care Centers and requested the children files such as annual recertification forms, pay stubs or letter to determine if the eligibility status recorded in the Early Education Student Information System (EESIS) was accurate and supported. A total of 4 exceptions were noted as a result of the review and they were as follows:

- 2 recertification forms were provided without any back up supporting the reported annual income.
- 1 recertification form was provided without any paystubs supporting the annual income calculation. According to the employment verification form, the applicant was paid biweekly with checks. Therefore, paystubs were required.
- 1 file was provided without any evidence of recertification being performed for the fiscal year 2008-09.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

Hence, we were unable to determine if the 4 families were eligible for the program and/or if any applicable fees should have been collected for child care services rendered to those children.

Cause and Effect

A lack of effective and timely monitoring by the District over the functions performed by the center managers and possible staffing issues has resulted in a failure to follow procedures during eligibility determination and annual recertification.

Questioned Costs

\$30,801

The final program cost for the child care program is calculated by the California Department of Education (CDE) in accordance with sections 18039, 18054 and 18064 under the Title 5 of the California Code of Regulations. The calculation is also performed and determined on the form CDFS 9500F. As of our report date, CDE has not submitted such form or the final cost determination to the District. As such, the questioned cost we projected is based on *the actual numbers of enrollment days of those 4 children¹* multiplied by *the Maximum Rate per Child day of enrollment of \$34.38* for the fiscal year 2008-09 which amounted to \$30,801.

1. *The actual numbers of enrollment days are retrieved from the EESIS system which details the number of days of each child attendance for the period starting from the date of the recertification date to June 30, 2009.*

Recommendation

We recommend the District strengthen its monitoring process to ensure that student files are reviewed on a regular basis in order to comply with the contract and records provision. The District should also provide training sessions for the center managers to ensure that they are aware of the federal requirements in relation to eligibility and that the required documentation is being maintained.

Views of responsible Officials and Planned Corrective Actions

The District agrees with the finding. Local District Early Childhood Education (ECE) Directors will meet with the Office Managers and Administrators to review the current Bulletins and Guidelines on Income Verification and Recertification. The guidelines are in Bulletin 4358.0, dated July 21, 2008, "Verification of Monthly Income of Families Enrolled in Early Childhood Education Programs" and Bulletin 4365.0 dated July 21, 2008, "Recertification Procedures for Families Enrolled in Early Childhood Education Programs". In addition, the central office ECE Administrators will work with the Local District Superintendents to support the continuing training and provide updated information to reinforce the mandates of the Child Development Programs. The central office Administration will request Local Districts to provide copies of the meetings and the agenda on Early Childhood Education professional development and trainings.

Criteria

Eligibility – Participation Schools, Reading First Program Subgrant Application, Section I. Program

To be eligible to be a participating school, a school must (1) be in an eligible LEA, (2) have 40% or more of its second and third graders scoring in categories “below basic” and “far below basic” in reading on the California Standards Test, and (3) be a program improvement school or have 50 percent or more of its students counted for allocation of Title I, Part A, funding.

LEAs will identify which of the eligible schools will participate in the LEA’s Reading First Program. LEA’s should choose schools based on need, and ability and desire to implement the program. *As part of the Subgrant Application, LEAs will be asked to describe their selection processes and why each school was chosen.*

Condition

In our procedures performed to determine eligibility for 214 participating schools funded in the fiscal year 2008-09, we noted that Ochoa Learning Center, which was not approved by the California Department of Education (CDE), was added to the 2008-09 Reading First Schools list. Total expenditure of \$47,333 was transferred to the Reading First grant for this school through journal voucher for the fiscal year 2008-09.

Cause and Effect

Effective controls are not in place to ensure that only CDE approved schools can be funded by Reading First grant. Costs claimed for the ineligible school may be disallowed.

Recommendation

Since this is the last year for the Reading First Program under No Child Left Behind, we recommend that the District resolve the questioned cost with CDE directly.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the finding. The Reading First Office underwent a reorganization. In the process it appears that a list of Reading First schools included Ochoa Learning Center in error was used in making allocations. The list of schools has been reviewed and corrected and only those schools that have been approved by CDE are now on the list.

Recipient procedures for managing equipment shall, as a minimum, meet the following requirements (including replacement equipment) until such actions as transfer, replacement or disposal takes place:

- a) Property records shall be maintained accurately. (Subpart D of this part contains retention and access requirements for these records.) The records shall include for each item of equipment the following:

- (1) A description of the equipment including manufacturer’s serial numbers.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

- (2) An identification number, such as the manufacturer's serial number.
 - (3) Identification of the grant under which the recipient acquired the equipment.
 - (4) The information needed to calculate the Federal share of the equipment (see § 3015.172).
 - (5) Acquisition date and unit acquisition cost.
 - (6) Location, use and condition of the equipment and the date the information was reported.
 - (7) All pertinent information on the ultimate transfer, replacement, or disposal of the equipment.
- b) Every two years, at a minimum, a physical inventory shall be conducted and the results reconciled with the property records to verify the existence, current utilization, and continued need for the equipment. Any discrepancies between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the differences.
- c) In order to insure adequate safeguards to prevent loss, damage or theft of equipment, a control system shall be used. Any loss, damage or theft of equipment shall be investigated and fully documented. The awarding agency may require a report of the circumstances involving the loss, damage, or theft of equipment.
- d) In order to keep the equipment in good condition, adequate maintenance procedures shall be implemented.

Condition

The Food Services Branch (FSB) has implemented an automated system of accounting for equipment inventory called Filemaker, which has the capabilities to capture all equipment purchased with cafeteria funds. In our procedures performed over accuracy and completeness of the equipment inventory, we noted that the acquisition cost and other necessary information to calculate the Federal share of the equipment were omitted.

In addition, we also selected 40 sites to verify if inventory of equipment was performed properly in accordance with the Food Services Branch's internal policy and procedures dated March 27, 2008 and noted the following:

- a. A check mark was not placed on the inventory log indicating the equipment was on site for 10 schools;
- b. 34 schools did not have the cafeteria personnel's signature on the inventory log;
- c. Inventory logs for 35 schools were not dated.
- d. The items to be deleted indicated on the deletion worksheets for 13 schools could not be located on the equipment logs.
- e. Evidence for follow-up action taken for 3 out of 3 missing items was not provided for review.

Cause and Effect

Adequate supervision and sufficient guidance/training are not provided to the cafeteria personnel who were assigned to perform the inventory of equipment.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

Questioned Costs

Not applicable. This finding is considered a programmatic non-compliance issue as well as a deficiency in the internal control system to properly monitor and supervise the cafeteria personnel who are assigned to perform the inventory count of equipment.

Recommendation

We recommend FSB strengthen processes and controls by providing adequate supervision/training to ensure that inventory management be performed properly by the cafeteria staff. FSB should also update the Filemaker to include information required by Federal Regulations.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the finding. The Equipment team will be providing a training to all Senior and Supervisor staff on February 26th detailing the inventory process and what is needed to have a complete inventory listing. The Area Food Services Supervisor will be required to perform the inventory process this school year in order to update the current listing and information. Supervisors will then be required to submit all documentation before April 30th. The listings will then be input into Filemaker and it will include all information required by federal regulations.

Supervisors will also train Cafeteria Staff on the process, so the equipment inventory can be conducted again in September. This process will require cafeteria staff to submit all proper documentation.

Code of Federal Regulations – Title 34 – Education, Part 80 – Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments – Subpart C – Post-Award Requirements, Section 80.24, Matching or cost sharing:

- Records. Costs and third-party in-kind contributions counting toward satisfying a cost sharing or matching requirement must be verifiable from the records of grantees and subgrantee or cost-type contractors. These records must show how the value placed on third-party in-kind contributions was derived. To the extent feasible, volunteer services will be supported by the same methods that the organization uses to support the allocability of regular personnel costs.

U.S Department of Education: Gaining Early Awareness and Readiness for Undergraduate Programs, Office of Postsecondary Education:

- Section 404C(b) of the Higher Education Act requires at least 50% of the total cost of a GEAR UP project to be paid with State, local, institutional, or private funds.
- Some GEAR UP grantees proposed in their applications matching contributions exceeding the statutory minimum. - Grantees are required by the GEAR UP regulations at 34 CFR 694.7(a)(2) to comply with the matching percentage stated in their applications for each individual year of the grant.

State Administrative Matching Grants for Food Stamp Program:

Per Contract Exhibit B (Budget Detail and Payment provisions) of District's contract with California Department of Public Health (CDPH):

- The contractor shall contribute qualifying network nutrition education contributions from its own State share resources to the extent of the Contractor's State share as detailed in the State share budgets signed and approved as final by the contractor. The Contractor's State share cannot be used to match another federal program.
- The contractor is responsible for maintaining verifiable records of all State share contributions. The Contractor shall submit quarterly, State share reports documenting State share contributions. The State share documentation report shall be submitted in a form and format prescribed by the State.
- The Contractor shall return any funds necessary to repay the State for any Federal audit exceptions resulting in the disallowance of contract funds in which the contractor has not complied with the requirements of this agreement and applicable Federal regulations.
- The contractor agrees to match each federal dollar with two dollars of State share contributions as detailed in the State share budgets.

Condition

GEAR-UP (*Material weaknesses and Non-compliance findings*) – In our procedures performed over matching contributions, we selected two grants (P334A050008 and P334A050178) that reported matching expenditures totaling \$795,606 and \$3,980,398, respectively, for the fiscal year. We requested documentation to support the reported matched expenditures and noted the following:

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

Grant P334A050008 (Local District 2 “LD2”):

LD2’s salary expenditure for matching was computed based on a percentage of annual salary and it was documented on a Personnel Activity Report (PAR) prepared annually. Through discussions with the program director, we noted that the percentage reported on the PAR was an estimate and no other documentation was provided to support how the percentage was derived. Therefore, we were unable to determine if salary matching was adequately supported to meet the minimum requirement. Additionally, we also noted that the annually prepared PAR did not provide an adequate description of activities contributed to the program. In accordance with OMB A-87, the PAR must be prepared at least monthly and coincide with one or more pay periods. As such, we were unable to determine if the activities for matching are necessary and reasonable for proper and efficient accomplishment of the program objectives, allowable under the applicable cost principles and conform to the provisions of the OMB circular, as applicable.

Additionally, through discussions with the program director, we also noted that LD2 did not have a system in place to verify if the sources of matching contributions were provided from non-federal grants. We selected a sample of 25 employees from one month to verify the sources of matching contributions and noted that 1 employee’s salary and benefit was funded solely by a federal program. Moreover, we also noted that LD2 did not maintain sufficient documentation to support the matching for non-personnel costs.

The total cash match of personnel and non-personnel costs amounted to \$213,785 and \$327,313, respectively. The remaining balance of the \$254,508 matching was contributed from LD2’s subrecipients.

Grant P334A050178 (Local District 4 “LD4”):

In our procedures performed for the valuation of salary matching for one month for LD4, we noted that the salary rates used in the calculation for the matching contributions were more than the actual rates we obtained from the District’s payroll system for 11 out of 25 samples tested.

The total variance amounted to \$17,345 of \$210,680 sampled from \$2,669,531 of the total cash match for salary and benefits.

Through discussion with the program director, we also noted that LD4 did not have a system in place to verify if the sources of matching contributions were provided from non-federal grants. We selected a sample of 25 employees from one month to verify the sources of matching contributions and noted that 1 employee’s salary and benefit were funded solely by a federal program. The employee’s salary and benefits for the matching amounted to \$1,290 of \$210,680 sampled from \$2,669,531 of the total cash match for salary and benefits.

The total cash match of personnel and non-personnel amounted to \$2,652,188 and 738,958, respectively. The remaining balance of the \$589,252 matching was contributed from LD4’s subrecipients.

State Administrative Matching Grants for Food Stamp Program *(Significant Control Deficiency)*

– Through discussions with the program director, we noted that the District did not have a system in

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

place to verify if the sources of matching contributions were provided from non-federal grants. As such, we randomly selected a month and 40 employees whose salary and benefits were reported for matching to determine the sources of the matching. During our review, we found that 6 employees whose salaries and benefits were partially funded by Title I Grants, a federally funded program. However, based upon the evidence provided, the salaries for the matching contributed by those employees were also only a small portion of the month tested; as such, the reported matching for this program were not charged against the Title I Grants. Although, the result of our sample review did not result in any matching cost in question, it is the District's responsibility to establish proper policies and procedures to monitor and review the sources of matching contributions.

Cause and Effect

The causes of the above conditions were due to insufficient controls in place by the District and lack of knowledge of the federal compliance requirements for matching.

These findings are repeat findings, having been reported previously for June 30, 2005 to June 30, 2008 (F-05-16, F-06-13, F-07-12, and F-08-08).

Questioned Costs

GEAR-UP

Questioned matching cost for LD2 under grant P334A050008 is \$541,098.

Questioned matching cost for LD4 under grant P334A050178 is \$18,635 (the sum of \$1,290 and \$17,345).

State Administrative Matching Grants for Food Stamp Program

No questioned matching costs were noted from the review.

Recommendation

The District should establish sufficient controls, policies and procedures to ensure that (1) adequate support for matching be maintained; (2) the sources of matching contributions are from an allowable source; (3) the values placed on contributions (including third party in-kind contributions) are supported and accurate; and (4) the activities used for matching contributions are allowable costs/cost principles requirements and properly documented.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the finding. Local District 2 GEAR-UP program has revised and prepared new forms to document matching funds by dollar amount. These forms include a detailed description of activities performed and a verification that matching funds are not coming from federal sources. Local District 4 GEAR-UP program has corrected the rates used on their matching forms to the actual rates paid to the employees in question. The Nutrition Network office has revised its procedures to ensure that salaries paid by federal funds are not used to meet the matching requirement.

Condition

Vocational Education – Basic Grants to States: During our procedures performed over program earmarking requirements, we noted that the District had claimed 5 percent of total program costs for administrative for the fiscal year 2008-09. However, during our payroll review, we noted that the District’s program expenditures that were administrative in nature should have been included in the total administrative expenditures.

Through further discussion with the program personnel and additional analysis, we were able to identify the following positions and their salaries which appeared to be administrative functions, but their salaries were included in the program expenditures for the fiscal year 2008-09.

Secretary	\$	54,032
Office Technicians		93,211
		<u>147,243</u>
	\$	<u>147,243</u>

Since the District had already claimed 100 percent of its administrative expenditures for indirect costs, these additional expenditures would appear to cause the District to further exceed its earmarking limitation for the fiscal year ended June 30, 2009 by \$147,243.

Twenty-First Century Community Learning Centers: The District does not report administrative expenditures in separate general ledger accounts from the direct program expenditures. The District tracks the administrative costs on a spreadsheet to support the earmarking provision.

In our review of the spreadsheet used for program classes 2987, 2990, 2983, 3001, 2993, 2994, 2995, 2985, and 3004, the District’s administrative costs did not exceed its 15% administrative earmarking limitation for those grants awarded in the fiscal year. However, based on our review of the spreadsheet, the salary expenditures for the administrative positions (such as accountants,

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

administrative assistants, secretary, administrative analyst) that should have been 100% included in the administrative cost were allocated between program and administrative expenditures.

According to the program’s principal accountant and program’s coordinator, the positions in question were assigned to more than just administrative functions. For instance, the assistant contract administrator was also responsible for contacting the student’s parents; the micro-computer support assistant also provided computer support at the school/centers. Therefore, their salaries were allocated between program direct and administrative cost. However, the allocation basis was determined based on predetermined percentages and no other supporting documentation was provided to support these percentages.

According to the spreadsheet prepared for the 2008-09 grants (9 grants), the total costs that appear to be 100% administrative were \$1,365,284 and \$684,105 of which was allocated/charged as direct program cost. Since we were unable to determine the appropriateness of the allocation, the District’s administrative cost could have exceeded the 15% administrative earmarking limitation.

The total awarded amounts for the grants sampled for review amounted to \$16,230,961, of which 15% would amount to \$2,434,644. Of the total maximum administrative cost, \$1,217,871 were reserved and passed down to the District’s subrecipients. As such, the maximum available administrative cost for the District was \$1,216,773 (\$2,434,644 - \$1,217,871). As a result, the District exceeded the earmarking limitation by \$148,511 (\$1,365,284- \$1,216,773).

Reading First State Grants: In our procedures performed over program earmarking requirements, we noted that the District had claimed 3.5 percent for its administrative and planning for the program. However, based on payroll review, we noted certain positions that would be considered administrative and planning in nature incurred to administer the program and not reported in the total administrative and planning expenditures.

Through further discussion with the program personnel and additional analysis, we were able to identify the following positions which appeared to be administrative functions, but their salaries were included in the program expenditures for the fiscal year 2008-09.

Office technician	\$	37,388
Senior office technician		87,728
Senior secretary		68,536
		<u>\$ 193,652</u>

Since the District had already claimed 100 percent of its administrative expenditures for indirect costs, these additional expenditures would appear to cause the District to further exceed its earmarking limitation for the fiscal year ended June 30, 2009 by \$193,652.

English Language Acquisition Grants: During procedures performed over program earmarking requirements, we noted that the District had claimed the program administrative costs in excess of 2 percent for the fiscal year 2008-09. The District’s program expenditures for the fiscal year 2008-09 were \$12,455,203, of which 2% would amount to \$249,104; however, the District claimed \$267,374 to the program. As a result, the program administrative cost was over-charged by \$18,270.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

Through further discussion with the program personnel and additional analysis, we were also able to identify 5 office technicians' salaries totaling \$273,463 whose duties appeared to be administrative functions, but their salaries were included in the program expenditures for the fiscal year 2008-09.

Since the District had already claimed over 100 percent of its administrative expenditures for indirect costs, these additional expenditures would appear to cause the District to further exceed its earmarking limitation for the fiscal year ended June 30, 2009 by \$273,463.

Total administrative cost which exceeded the 2 percent limitation amounted to \$291,733.

Safe and Drug-Free Schools and Communities: During procedures performed over program earmarking requirements, we noted that the District had claimed 2 percent of total program cost for administrative for the fiscal year 2008-09. In addition, we also noted that the District's program expenditures that were administrative in nature should have been included in the total administrative expenditures.

Through further discussion with the program personnel and additional analysis, we were able to identify the following positions which appeared to be administrative functions, but their salaries were included in the program expenditures for the fiscal year 2008-09.

Financial Analyst	\$	50,744
Secretary		25,902
Senior Secretary		47,161
Stock Clerk		26,491
	\$	<u>150,298</u>

Since the District had already claimed 100 percent of its administrative expenditures for its indirect costs, these additional expenditures would appear to cause the District to further exceed its earmarking limitation for the fiscal year ended June 30, 2009 by \$150,298.

Adult Education and Family Literacy Act: During procedures performed over program earmarking requirements, we noted that the District's program costs claimed for the planning, administration, personnel development, and interagency coordination (administrative) did not exceed more than 5 percent of the total grant award. The District also accounts for such administrative expenditures in a separate program code in the Integrated Financial System (IFS).

During our program salary review, we noted that the salary expenditures of the Office Technicians were included in the program expenditures. Through our discussion with the program personnel and accountant, these office technicians were responsible for coordinating all WIA-related testing and data collection activities at the school with specific software knowledge. We were also provided an interoffice correspondence indicating that these positions were requested for such specific purpose for this program. In our procedures performed to verify their job activity, we requested time documentation for 4 out of 20 office technicians and we were provided with their semi-annual certifications which indicated they were solely working for the WIA program for the periods selected for review. However, no other supporting documentation was provided to support that their activities

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

were WIA-related testing and data collection activities. As such, we were unable to determine if their funded activity should have been administrative or programmatic.

The total contract award for the fiscal year 2008-09 was \$13,085,886, of which 5% would amount to \$654,294; however, the District claimed \$595,855 to the program. As a result, the program administrative was under-claimed by \$58,439. In our samples of the 4 positions, we noted that the total salary expenditures of the 4 office technicians amounted to \$218,783 out of total classified salary expenditures of \$1,927,302 reported under program salary for the fiscal year. Total administrative costs which exceeded the 5 percent limitation amounted to \$160,344 (\$218,783 - \$58,439).

Gaining Early Awareness and Readiness: During our procedures performed over program earmarking requirements for two grants (local district 2 and local district 4), the District’s indirect cost claimed was based on its approved cost rate of 5.16 percent, which was in compliance with the grant limitation provision. However, based upon our review of the payroll expenditures, we noted that the districts’ program direct expenditures that were indirect in nature should have been included in the indirect expenditures. The following table shows the positions that appear to be indirect cost but their salary expenditures were not included in the indirect expenditures.

Senior Office Technician	\$ 38,821
Office Technician	14,397
	<u>\$ 53,218</u>

Since the District had already claimed over 100 percent of its indirect costs, these additional expenditures of \$53,218 would appear to cause the District to further exceed its earmarking limitation for the fiscal year ended June 30, 2009.

Total questioned cost is \$53,218.

Cause and Effect

Based upon the situations noted above, the District’s policies and procedures do not require a proper accounting for administrative costs for the grants which impose the earmarking limitation. Further, it is not uncommon that an employee is assigned to more than just one activity between direct and indirect or administrative and program direct. Such multiple functions/activities must be accounted for adequately and supported properly to meet the time documentation requirements for allowable activity as well as the earmarking provisions. Until further evidence (timekeeping efforts such as Personnel Activity Report) and a separate accounting system is developed and implemented to support the program direct costs distributed by the administrative personnel, the cost claimed for administrative personnel would always be in question.

These findings are repeat findings, having been reported previously for June 30, 2005 to June 30, 2008 (F-05-17, F-06-14, F-06-15, F-07-15, F-07-16, F-08-07, and F-08-09).

Recommendation

We recommend that the District establish policies and procedures to ensure that administrative costs are appropriately computed and accounted for separately by each federal program. The policies and procedures should also require employees whose duties crossover with multiple activities/functions, which are apart from their original job descriptions, be required to prepare a personal activity report (PAR) in accordance with OMB A-87 to clearly identify the employees' daily activities supporting the hours worked outside of their normal positions.

Views of Responsible Officials and Planned Corrective Actions

The District partially agrees with the finding. The District believes that it is correctly accounting for all costs and expenditures of the programs. The District has developed additional measures to facilitate the correct identification and monitoring of administrative expenses. A unique program code for administrative expenses has been developed for those grants identified in this finding. The implementation of this additional method of tracking administrative expenditures was partially implemented in fiscal year 2009-2010 and will be fully implemented in fiscal year 2010-2011.

Criteria

Code of Federal Regulations Title 34 – Education, Part 80 – Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments – Subpart C – Post-Award Requirements, Section 80.23, Period of availability of funds:

- General: Where a funding period is specified, a grantee may charge to the award only costs resulting from obligations of the funding period unless carryover of unobligated balances is

permitted, in which case, the carryover balances may be charged for costs resulting from obligations of the subsequent funding period.

- Liquidation of obligations: A grantee must liquidate all obligations incurred under the award not later than 90 days after the end of the funding period (or as specified in a program regulation) to coincide with the submission of the annual Financial Status Report (SF-269). The federal agency may extend this deadline at the request of the grantee.

Condition

In our review of the period of availability, we noted that the following federal programs were assigned the same general ledger program identifier (i.e. program code) for all award years. By not using separate program codes each year, there is no clear cutoff of expenditures being charged in specific award year or budget period, which increase the risk that the District could charge expenditures to the incorrect period or could claim the expenditures against 2 different awards in overlapping periods. It also makes the District monitoring of the 90-day liquidation period after the end of an award year more difficult when the specific obligations are not easily identifiable to award years.

- Title I Grants to Local Education Agencies
- Special Education Cluster
- Vocational Education – Basic Grants to States
- Safe and Drug Free Schools and Communities
- English Language Acquisition Grants
- Improving Teacher Quality State Grants
- State Grants for Innovative Programs

In our procedures of reviewing the District's compliance with the period of availability requirement, we selected samples of encumbrances from each grant that were recorded during the period of availability to verify that the underlying obligations occurred within the period of availability and the payment was made within the required liquidation period of 90 days after the end of the grant funding period. During our review and understanding of the District's internal controls over this compliance requirement, we noted that the District did not have policies and procedures to identify by grant the unliquidated obligations and to ensure that those obligations were liquidated within 90 days.

Vocational Education Basic Grants to States: During our review of the encumbrances totaling \$716,930 reported for program #1356 for the fiscal year ending June 30, 2009, we noted that 33 transactions totaling \$95,289 were encumbrances rolled forward from prior years 2003-04. Of the total obligations in question at June 30, 2009, \$77,961 had already been questioned in the fiscal year 2007-08 audit. Therefore, the questioned cost for this fiscal year amounted to \$17,328.

For the current year expenditure testing of 40 samples, we noted that 4 transactions totaling \$132,682 were paid for goods purchased or services rendered in fiscal year 2007-08. Since the District combined the expenditures for the 2 grants open during fiscal year 2008-09 into one program, we were unable to determine if the carryover funds from the fiscal year 2007-08 grant were obligated

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

within the twelve month carryover period and liquidated no later than 90 days after the end of the period of availability, or September 30, 2009.

The total exceptions amounted to \$132,682 of \$1,255,243 sampled from the \$5,365,746 total program expenditures for the fiscal year ended June 30, 2009.

Safe and Drug-Free Schools and Communities: For the current year expenditure testing of 40 samples, we noted that 3 transactions totaling \$95,329 were paid for goods purchased or services rendered in fiscal year 2007-08. Since the District combined the expenditures for the 2 grants open during fiscal year 2008-09 into one program, we were unable to determine if the carryover funds from the fiscal year 2007-08 grant were obligated within the twelve month carryover period and liquidated no later than 90 days after the end of the period of availability, or September 30, 2009.

The total exceptions amounted to \$ 95,329 of \$3,607,216 sampled from the \$6,529,799 total program expenditures for the fiscal year ended June 30, 2009.

English Language Acquisition: During our review of encumbrances totaling \$1,107,315 reported for the fiscal year ending June 30, 2009, we noted that 45 transactions totaling \$948,305 were encumbrances rolled forward from prior years starting 2004-05 through 2007-08. Of the total, \$894,506 had been questioned in the fiscal year 2007-08 audit. Therefore, the questioned cost for fiscal year 2008-09 audit is \$53,799.

For the current year expenditure testing of 40 samples, we noted that 2 transactions totaling \$28,418 were paid for goods purchased or services rendered in fiscal year 2007-08. Since the District combined the expenditures for 2 grants open during the fiscal year into one program, we were unable to determine if the carryover funds from the fiscal year 2007-08 grant were obligated within the twelve month carryover period and liquidated no later than 90 days after the end of the period of availability, or September 30, 2009.

Total exceptions amounted to \$28,418 of \$942,673 sampled from the \$12,722,576 total program expenditures for the fiscal year ended June 30, 2009.

State Grants for Innovative Programs: For the current year expenditure testing of 40 samples, we noted that 14 transactions totaling \$118,572 were paid for goods purchased or services rendered in fiscal year 2007-08. Since the District combined the expenditures for the 2 grants open during fiscal year 2008-09 into one program, we were unable to determine if the carryover funds from the fiscal year 2007-08 grant were obligated within the twelve month carryover period and liquidated no later than 90 days after the end of the period of availability, or September 30, 2009.

The total exceptions amounted to \$118,572 of \$279,545 sampled from the \$1,801,464 total program expenditures for the fiscal year ended June 30, 2009.

Education Technology State Grants: In our procedures of reviewing the District's grant expenditures for fiscal year 2008-09, we noted that the District charged an expenditure of \$43,164 to grant #2453, which had a contract end date of August 31, 2006.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

According to the final cost report for grant #2453, the total grant expenditures reported to CDE were \$5,839,800. Of that total, \$1,363,746 was reported as obligated funds which were required to be liquidated within 90 days of the grant end date, or by November 30, 2006. Therefore, the expenditures charged against this grant #2453 during fiscal year 2008-09 were not in compliance with this provision.

Through our further discussion with the program accountant, we also became aware that after the \$43,164 was claimed, the grant still had a remaining unused balance of \$23,145 at June 30, 2009. The unused balance was a result of the unliquidated obligations by November 30, 2006 and which should have been returned to CDE during the fiscal year 2006-07. Therefore, the questioned cost is the expenditure claimed and the unused fund totaling \$66,309.

Cause and Effect

Through discussions with District accounting personnel, we have noted that new project/program codes are not established for recurring grant awards (i.e., entitlements, formula grants, etc.) for each grant award year where the District is expected to receive funding in the subsequent year. Thus, funding is comingled for multiple award years in the general ledger. By not using separate project/program codes each year, there is no clear cutoff of expenditures being charged to a specific award year or budget period, which increases the risk that the District could charge expenditures to the incorrect period, claim the expenditures against two different awards in overlapping periods, or not liquidate the funds within the required time period.

Moreover, there appears to be a lack of internal control procedures to ensure that (1) all obligations are liquidated under the award not later than 90 days after the end of the funding periods and (2) unliquidated obligations are reconciled and adjusted so that the balance remaining in encumbrance is properly returned to the grantor.

These findings are repeat findings, having been reported previously for June 30, 2005 to June 30, 2008 (F-05-19, F-06-17, F-06-18, F-06-19, F-07-18, F-07-19, F-08-12, and F-08-13).

Questioned cost is not applicable for the following programs because no instances of non-compliance (exceptions) were noted from our sample testing. However, the condition described above applies to these programs, and the lack of policies and procedures is a deficiency in internal control over compliance:

Recommendation

We recommend that the District implement policies and procedures to closely monitor the expenditures charged to an appropriate grant award period. The District should also perform additional analysis for the grants that do not have separate program/project codes for each award year to ensure that reported program expenditures for each grant award year were claimed and obligated appropriately.

We further recommend that the District strengthen controls over its monitoring of outstanding obligations to ensure that all obligations are liquidated under the award not later than 90 days after the end of the funding periods; and unliquidated obligations are reconciled and adjusted so that the balance remaining in encumbrance is properly returned to the grantor.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the finding. To comply with the requirements, the District will undertake the following measures:

- Review grant end dates currently in the system for all federal grants and ensure that they do not go past 90 days after end of the funding periods.
- Strictly enforce the rule against extending grant end dates beyond the 90-day liquidation period to accommodate payment processing by Accounts Payable unless the grantor extends the deadline.
- Remind program staff of the 90-day requirement to liquidate obligations on federal programs.

Criteria

Code of Federal Regulations, Title 34 – Education, Part 80 – Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments – Subpart C – Post-Award Requirements, Section 80.36, Procurement:

- Procurement standards:
 - i. Grantees and subgrantees will use their own procurement procedures, which reflect applicable state and local laws and regulations, provided that the procurements conform to applicable federal law and the standards identified in this section.
 - ii. Grantees and subgrantees will maintain records sufficient to detail the significant history of a procurement. These records will include, but are not necessarily limited to the following: Rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.
- Methods of procurement to be followed:
 - i. Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source, or after solicitation of a number of sources, competition is determined inadequate.
 - a. Procurement by noncompetitive proposals may be used only when the award of a contract is infeasible under small purchase procedures, sealed bids or competitive proposals and one of the following circumstances applies:
 - (A) The item is available only from a single source;

- (B) The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
 - (C) The awarding agency authorizes noncompetitive proposals; or
 - (D) After solicitation of a number of sources, competition is determined inadequate.
- ii. Cost analysis, i.e., verifying the proposed cost data, the projections of the data, and the evaluation of the specific elements of costs and profits, is required.

Condition

Food Stamp Cluster: In our sample of 13 expenditures, we noted the following 5 exceptions:

- Of the expenditures from purchase orders or contracts between \$10,000 to \$72,400, which require either 3 written quotations or an approved waiver, we noted that neither the required 3 quotations nor a waiver were obtained for 2 samples totaling \$2,676.
- Of the expenditures from professional services over \$100,000 and below \$250,000 situations, which require an informal request for proposals/pricing or an approved waiver, we noted that the waiver did not have the proper approval for 1 sample totaling \$39,234.
- Of the expenditures reviewed, we were not provided with any procurement documentation (i.e. Procurement Documentation/Certification form, bids/quotes, RFP, evaluation summary, score sheets, contract, etc.) for 2 samples totaling \$15,257.

Total exceptions amounted to \$57,167 of the \$218,194 sampled from the \$1,394,983 of total procured expenditures for the fiscal year ended June 30, 2009.

Child Nutrition Cluster: In our sample of 40 expenditures, we noted the following 24 exceptions:

- Of the procurement omitted due to “sole source”, which require justifications, we noted that the justifications for the sole source were not properly justified and approved for 3 samples totaling \$45,112.
- Of the expenditures reviewed, we were not provided with any procurement documentation (i.e. Procurement Documentation/Certification form, bids/quotes, RFP, contract, etc.) for 21 samples totaling \$573,779.

Total exceptions amounted to \$618,891 of the \$1,529,041 sampled from the \$44,621,374 of total procured expenditures for the fiscal year ended June 30, 2009.

Title I Grants to LEA: In our sample of 40 expenditures, we noted the following 5 exceptions:

- Of the expenditures from purchase orders or contracts between \$10,000 to \$72,400, which require either 3 written quotations or an approved waiver, we noted that neither the required 3 quotations nor a waiver were obtained for 1 sample totaling \$19,595.

Cause and Effect

There does not appear to be effective controls in place to ensure that all procurement files contain sufficient evidence to support investigation of the Excluded Parties List System website, to verify that the subgrantees or contractors are not debarred, suspended, or excluded/ineligible from participating in federally funded programs.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

Questioned Costs

Not applicable. Alternative audit procedures were performed for all exceptions to verify contractors were not debarred or suspended.

Recommendation

We recommend that the District continue to monitor the internal controls as documented in the new procurement policy manual to ensure compliance with federal suspension and debarment regulations. It is also our recommendation that the District continue to provide training to the appropriate procurement staff on the new procurement manual and hold periodic meetings for any future updates or revisions.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the finding. The District uses a variety of sources of information to determine if a vendor has been debarred or suspended. The District will strengthen controls over retention of evidence in contract files to verify that subgrantees or contractors are not debarred, suspended, or excluded/ineligible from participating in federally funded programs.

- **Internal controls.** The school food authority shall establish internal controls which ensure the accuracy of lunch counts prior to the submission of the monthly Claim for Reimbursement. At a minimum, these internal controls shall include: an on-site review of the lunch counting and claiming system employed by each school within the jurisdiction of the school food authority; comparisons of daily free, reduced-price and paid lunch counts against data that will assist in the identification of lunch counts in excess of the number of free, reduced-price, and paid lunches served each day to children eligible for such lunches; and a system for following up on those lunch counts that suggest the likelihood of lunch-counting problems.

Condition

In our procedures in observing the cash and meal tickets collections process during our school visits at 17 schools (8 elementary and 9 secondary schools), we noted that the same employee who collects cash and meal tickets from the students, also prepares daily reports, inputs the data into the District's Food Services Data Capture (FSDC), and deposits collected cash to the bank in all 8 elementary schools.

The total cash collected from the 496 elementary schools amounted to \$8,485,355 for the fiscal year 2008-09. The total cash collections for the fiscal year 2008-09 for all 643 non Provision 2 schools operating the meal program amounted to \$14,280,413.

Total numbers of meals claimed for all of the elementary schools were 76,555,815 out of 119,424,137 for the fiscal year 2008-09.

Cause and Effect

There does not appear to be enforcement of controls designed by the District to ensure appropriate segregation of duties and adequate reviews of reconciliations are being performed for the elementary schools. Segregation of duties is critical to effective internal control because it reduces the risk of error or mistakes and inappropriate actions. It also helps fight fraud by discouraging collusion. Based on the estimated total cash collected for the fiscal year, control deficiencies could result in more than inconsequential noncompliance.

This is a repeat finding from June 30, 2005 to June 30, 2008 (F-05-23, F-06-23, F-07-22, and F-08-16).

Questioned Costs

The questioned cost is not applicable as it is an internal control deficiency weakness.

Recommendation

We recommend the District strengthen controls over cash and meal ticket collections and reporting process.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the finding. The process to have segregation of duties was started in August of 2009. The Division has changed the banking procedures to require two employees (cashier and manager/senior/designee) to count and verify and sign-off on tills, cash drawers and deposits. A Food Services Manager at a secondary school would also have a signature by the Financial Manager

for the funds dropped off in the office. The Financial Manager will sign for the receipt of the locked bag(s). The FM will not be responsible for verifying the amount of cash in the bags. The training includes new "Sales and Cash Reconciliation Forms," "Till Worksheets" and "Banking Transfer Logs". Training was completed during employee orientation in August 2009 and again in September 2009 for year-round schools.

Food Services had to order supplies from two vendors (bank bags, locked cloth bags, deposit forms, deposit bags, safes, etc.) and because not all schools received the supplies in a timely manner, the new procedures were pushed forward till March however 8 schools are currently piloting this new banking procedure. Procurement had to be completed as well for the safes.

All supplies were received by the end of November, including the safes. eight schools began the new procedures on January 25th as pilot schools to test out the procedures before it is rolled out to all schools.

- Permit the tracing of funds to a level of expenditures adequate to establish that such funds have not been used in violation of the restrictions and prohibitions or applicable statutes.
- The financial management systems of other grantees and subgrantees must meet the following standards:
 - Financial reporting: Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance with the financial reporting requirements of the grant or subgrant.
 - Accounting records: Grantees and subgrantees must maintain records which adequately identify the source and application of funds provided for financially-assisted activities. These records must contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income.

Condition

During our review of the Annual Performance Report for Partnership and State Projects reported for the fiscal 2007-08 (APRs) prepared by Local District 2, we noted that there was a discrepancy of \$10,017 between the APR and the report generated from the Financial Reporting Database (FRDB) for grant P334A050008. In addition, we also noted that the data reported on the APR was outside of the grant reporting period. According to the grant agreement, the grant period is from 9/1/2005 to 8/31/2011. However, based on our review of the 2007-08 APR submitted in April 2009, we noted that the financial information (except for matching contributions) reported on the 2007-08 APR was obtained from July 2008 to June 2009. Additionally, we also noted that the support for the reported matching contributions were from the period April 08 to March 2009.

Cause and Effect

Through discussions with the program director, it appears to us that Local District 2 misunderstood the reporting requirements.

This is a repeat finding from June 30, 2006 to June 30, 2008 (F-06-25, F-07-27, and F-08-17)

Questioned Costs

Questioned cost is not applicable. The deficiencies noted above did not result in over billing to the grantor. The Local District's program cost was reimbursed based on actual costs incurred and reported in the Financial Reporting Data Base (FRDB) for the period.

Recommendation

Local District 2 should strengthen its controls over APR reporting to ensure that reports are accurately reconciled to the actual expenditures for the correct reporting period. Local District 2 should contact the grantor for clarification and guidance for the reporting requirements. They should also consult with the grantor to determine if an amended report should be prepared to correct the prior periods.

Criteria

Code of Federal Regulations Title 7 – Agriculture, Chapter II – Food and Nutrition Service, Department of Agriculture, Part 210 – National School Lunch Program, Subpart E – State Agency and School Food Authority Responsibilities, Section 210.23, Other Responsibilities:

- Retention of records. State agencies and school food authorities may retain necessary records in their original form or on microfilm. State agency records shall be retained for a period of 3 years after the date of submission of the final Financial Status Report for the fiscal year. *School food authority records shall be retained for a period of 3 years after submission of the final Claim for Reimbursement for the fiscal year.* In either case, if audit findings have not been resolved, the records shall be retained beyond the 3-year period as long as required for the resolution of the issues raised by the audit.

Condition

It is our understanding that the District's retention policy for the claimed meal tickets is 3 months plus the current month after they were collected. The Meal Ticket Reconciliation forms prepared by the school cafeteria personnel are retained for 3 years plus the year when they are prepared. The purpose of Meal Ticket Reconciliation forms is to serve as daily summary reports to summarize all meal tickets collected. Upon collection of all meals, a school cafeteria staff counts and reports the numbers of respective meals tickets collected during the day and records such data into the District's information system called Food Service Data Capture (FSDC). The data input by the school cafeteria

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

personnel into FSDC is then fed into the District's claiming system called Unisys, which is used to prepare the monthly billing to California Department of Education (CDE).

From the audit perspective, the original meal tickets collected from the students are the main source to support the meal counts for each day. Since the tickets were not retained, we were unable to perform our verification of the initial input into the FSDC system.

Cause and Effect

Through our discussion with the District's responsible personnel, we noted that it was the District's policy to retain the meal tickets for three months plus the current month, as per a CDE-issued bulletin; however, we were unable to obtain specific documentation to support this policy.

This is a repeat finding from June 30, 2008 (F-08-20).

Questioned Costs

The questioned cost, if any, was undeterminable because we were unable to perform the verification procedures of the accuracy of the meal tickets reporting.

Recommendation

The District should revise its retention policies to comply with the federal compliance with respect to the retention period.

Views of Responsible Officials and Planned Corrective Actions

The District does not agree with the finding. The previous Food Services Administration received a verbal notification from the California Department of Education to keep meal tickets for three months, plus the current month. The State agreed as long as Food Services was following a "Food Services policy (memo attached)", the Division is in compliance.

These records must contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income.

Condition

Program Reporting: In our procedures performed over programmatic reporting, we noted that the District compiled CDE Form 101: E1 Report of Career Technical Education Enrollment and Program Completion (CDE Form 101 or E1) for both adult education and secondary education by retrieving data submitted by individual schools and the Student Information System (SIS). Further, we noted that the District class code was converted to the CBED code for secondary education.

In order to test the accuracy of the data reported on the E1, for Secondary Vocational Education, we traced 6 items of student population data reported on the E1 to SIS and noted discrepancies between the numbers of the students reported. In the E1 report for school year 2007-2008, we were unable to reconcile the data for 6 of the 6 line items sampled to the baseline information from SIS.

In order to test the accuracy of the data reported on the E2 for Secondary Vocational Education, we traced 3 items of student population data reported on the E2 to the data submitted by schools and the summary schedule prepared for E2 report. We were unable to reconcile the data for 3 of the 3 items sampled to the baseline information from the schools.

In order to test the reasonableness of the conversion table for secondary education codes used by the District, we compared the District course titles and numbers with the CBED description code. For 2 out of the 25 line items sampled, the District's secondary education course description did not match with the CDE course definition. The District was also unable to provide us with the definitions for 4

LOS ANGELES UNIFIED SCHOOL DISTRICT

out of 25 courses; as such, we were unable to verify if the data reported for those 4 courses were reported appropriately.

Cause and Effect

The District’s policy does not require documentation to be maintained to support numbers reported or any reconciliation between the information submitted by the individual schools and SIS. The District does not have policies and procedures in place to ensure accuracy of the conversion from CDE course definition to the District secondary education class code.

This is a repeat finding from June 30, 2006 and June 30, 2008 (F-06-25, F-07-25 and F-08-18).

Questioned Costs

Not applicable. This finding is considered a programmatic non-compliance issue as well as a deficiency in the internal control system over the reporting to CDE.

Recommendation

The District should implement policies and procedures to strengthen its controls over reporting for the Secondary Vocational Education program, to ensure that reports are accurately reconciled to the actual data. The District should consult with CDE to determine if it is required to resubmit the revised reports with corrections.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the finding. Career Technical Education (CTE) staff will align the District's CTE course codes with the corresponding CBED codes. It is estimated that this could be completed by December 2010.

Condition

In our procedure performed over the attendance reporting to California Department of Education (CDE), we sampled the first half year report to CDE and 30 schools to trace the reported attendance information from the District's Semiannual Attendance Report (SAR) submitted to CDE to the "Quarterly Attendance Report" (QAR), a report provided directly by the District's individual afterschool providers related to the school attendance data. We noted that the attendance was under-and-over-reported for 13 and 14 schools, respectively.

The District explained to us that the under-reporting was due to the eliminations on the duplicated attendance records reported on QARs by its sub-recipients. However, the District did not maintain supporting documentation to support the reconciliation process; therefore, we were unable to verify accuracy of the variances. With respect to the over-reporting, the District did not provide us with any

LOS ANGELES UNIFIED SCHOOL DISTRICT

explanations except for 1 school, Robert A. Millikan Middle School “Millikan”. The District’s Program Coordinator explained that they added approximately 5,000 attendance counts from another school called Romer Middle School “Roy Romer” to Millikan. However, based on our review of grant application number 08-14349-6473-4A which Millikan is funded, Roy Romer was not included in the grant; therefore, the attendance records of Roy Romer should not be added.

Cause and Effect

The District’s internal control policy and procedures do not require documentation to be maintained to support the reconciliation between the QAR and SAR and that SARs be reviewed and approved by the supervisor prior to submission.

This is a repeat finding from June 30, 2008 (F-08-19).

Questioned Costs

Questioned cost is not applicable as the payments for this program is not made based on the basis of attendance.

Recommendation

The District should strengthen its controls to ensure attendance data is compiled and reported accurately and include only schools authorized for the program. The District should also maintain sufficient documentation to support its results of the reconciliation between the SAR and QAR.

Views of Responsible Officials and Planned Corrective Actions

The District will work with the CDE to properly amend the grant to reflect the definition of the school community. The District will strengthen internal procedures to maintain required documentation to support the reconciliations between the SAR and the QAR.

Compliance Requirement: Sub-recipient Monitoring

State Audit Guide Finding Code: 30000 and 50000

Criteria

United States Code, Title 31 – Money and Finance, Subtitle V – General Assistance Administration, Chapter 75 – Requirements for Single Audits, Section 7502, Audit requirements; exemptions:

- Each pass-through entity shall:
 - (a) provide such subrecipient the program names (and any identifying numbers) from which such assistance is derived, and the federal requirements which govern the use of such awards and the requirements of this chapter;
 - (b) monitor the subrecipient’s use of federal awards through site visits, limited scope audits, or other means;
 - (c) review the audit of a subrecipient as necessary to determine whether prompt and appropriate corrective action has been taken with respect to audit findings, as defined by the Director, pertaining to federal awards provided to the subrecipient by the pass-through entity; and
 - (d) require each of its subrecipients of federal awards to permit, as a condition of receiving federal awards, the independent auditor of the pass-through entity to have such access to the subrecipient’s records and financial statements as may be necessary for the pass-through entity to comply with this chapter.

Condition

GEAR-UP – In our procedures performed for the subrecipient monitoring, we noted the following discrepancies:

1. Local District 4 contracted with 4 subrecipients under grant number P334A050008. Based on our review of the agreements between District 4 and the subrecipients, we noted that none of the agreements contained the appropriate award identification information (i.e. CFDA No., federal awarding agencies, compliance requirements).
2. One of the subrecipient’s Single Audit Report for 2007-08 disclosed 1 material weakness and 3 significant deficiencies findings on the internal control over financial reporting. However, through discussions with the program directors for both grants (P334A050008 and P334A050178), we noted that the District did not perform the following required actions with respect to the findings:
 - Issue a management decision on audit findings within 6 months after receipt of the subrecipient’s audit report.
 - Ensure that the subrecipient takes timely and appropriate corrective action on all audit findings.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

3. The District's subrecipients for grant numbers P334A05008 and P334A050178 were contracted to provide matching contributions to the program. The subrecipients provided summary schedules and Personnel Activity Reports to the District to support their matching contributions. However, through our discussions with the program directors, we became aware that the District did not have formal monitoring policies and procedures in place which require monitoring reviews of its subrecipients' matching costs to ascertain whether or not (1) they were necessary and reasonable for proper and efficient accomplishment of the GEAR-UP program objectives; and, (2) if the cost were allowable under the applicable cost principles and conformed to the provisions of the OMB circular. For the grant year 2008-09 (September 08 – August 09), the total matching contributions derived from the subrecipients amounted to \$254,508 and \$523,751 for grant numbers P334A05008 and P334A050178, respectively. The District's total reported matching contributions for the 2 grants amounted to \$795,606 and \$3,408,491 for P334A05008 and P334A050178, respectively.

Twenty-First Century Community Learning Centers: The District contracted with 32 agencies under the Beyond the Bell program funded by the 21st Century Community Learning Centers. During our procedures performed over subrecipient monitoring, we noted the following:

Review of Subrecipients' Single Audit Report: Based on our review of the District's sub recipients Single Audit reports, we noted that 1 agency did not submit a copy of the financial audit report for the fiscal year 2007-08. In addition, we also noted that four (4) agencies which had submitted their 2006-07 Single Audit Reports, did not submit one for 2007-08. The District did not provide us with documentation supporting any follow-up action taken to determine if the four (4) agencies were required to have a Single Audit, or were exempt for 2007-08.

On-site Sub-recipients Monitoring Review: According to the District's inter-Office Correspondence regarding the on-site monitoring of its sub recipients, it is required by the District's policy to perform on-site visits of all elementary and middle schools at least once a month. The District maintains a log to track completion of the site visits for each school. Based upon our review of the log, we noted that the visit information was missing for 17 out of 127 elementary and middle schools. The District was unable to provide us with any documentation to substantiate the on-site visits. Therefore, we were not able to determine if site visits were ever performed.

There were no formal policies and procedures in place for those agencies which did have a Single Audit performed to (1) ensure that the required audits were completed within 9 months of the end of the subrecipients' audit period; (2) issue a management decision on audit findings within 6 months after receipt of the subrecipient's audit reports; and (3) ensure that the subrecipient takes timely and appropriate correction action on all audit findings.

Cause and Effect

Proper policies and procedures for subrecipient monitoring do not appear to be in place to ensure that the District is in compliance with the applicable OMB requirements.

These findings are repeat findings, having been previously reported for June 30, 2005 to June 30, 2008 (F-05-30, F-06-28, F-06-29, F-07-29, and F-08-21).

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the finding. The District will work closely with our contracts department to include the required information on sub-recipient contracts. Policies and procedures related to sub-recipient monitoring have been updated to include a determination of whether the sub-recipient is required to have an A-133 audit, a review of relevant findings, management decision relative to the findings, and follow up on corrective actions taken by the sub-recipient.

- *Eligibility changes.* Based on the verification activities, the local educational agency shall make appropriate modifications to the eligibility determinations made initially. The local educational agency must notify the household of any change. Households must be notified of any reduction in benefits in accordance with paragraph (j) of this section. Households with reduced benefits or that are longer eligible for free or reduced price meals must be notified of their right to reapply at any time with documentation of income or participation in one of the eligible programs in paragraph (a)(1) of this section.

Condition

The student's eligibility determination for the school meal programs are processed automatically by a software called Meal Compliance Software "MCS". MCS is also programmed to upload the updated eligibility status of the student to the District's Student Information System (SIS) for meal ticket issuance purposes. The information provided by MCS is also being used for ranking procedures for the No Child Left Behind programs.

When an applicant fails to respond to the District's requests for submission of his income verification by October 31st, the status of the family is automatically updated on MCS as "no response" which results in terminating the student from the free or reduced meal status. In our procedures performed over the eligibility verification in accordance with 7 CFR section 245 as quoted under the criteria, we became aware that when the applicant failed to respond to the District's requests for income verification, MCS only changed the status of the eligibility for the student who was originally selected from the sampling; however, the eligibility status of the other siblings on the same application was not changed appropriately for 4 out of 420 applications from a total of 1,075 applications which had more than one child listed and with a status of no-response. The District had performed an extensive review of 980 applications that had more than one child and with no response status. The result of their review also disclosed 4 exceptions where the eligibility status of the siblings was not terminated accordingly.

Cause and Effect

The District continued to extend meal benefits to children who should have been denied benefits resulting from failure by households to respond to the income verification.

Title 34 – Education, Secondary Education, Department of Education, Part 200 – Title I – Improving The Academic Achievement of the Disadvantaged, Subpart A – Improving Basic Programs Operated by Local Educational Agencies, Section 200.58, Qualifications of paraprofessionals:

- New paraprofessionals. A paraprofessional covered under paragraph (a) of this section, who is hired after January 8, 2002, must have:
 - (1) Completed at least two years of study at an institution of higher education;
 - (2) Obtained an associate's or higher degree; or
 - (3) (i) Met a rigorous standard of quality, and can demonstrate through a formal State or local academic assessment knowledge of, and the ability to assist in instructing, as appropriate:
 - (a) Reading/language arts, writing, and mathematics or
 - (b) Reading readiness, writing readiness, and mathematics readiness.
 - (ii) A secondary school diploma or its recognized equivalent is necessary, but not sufficient, to meet the requirement in paragraph (c)(3)(i) of this section.
- Existing paraprofessionals. Each paraprofessional, who was hired on or before January 8, 2002, must meet the requirements in paragraph (c) of this section no later than January 8, 2006.

Condition

During procedures we performed to ascertain if the District was in compliance with the highly qualified teacher and paraprofessional requirements, we made inquiries with the District as to its compliance status for the school year 2008-09.

Teachers: The District provided us with a copy of its California Basic Education Data System (CBEDS) report submitted to the California Department of Education (CDE) in October 2008. According to CBEDS, the District reached 84.8% highly qualified teachers overall for the fiscal year starting 2008-09.

Paraprofessionals: During our review, we were provided a listing of all non-highly qualified paraprofessionals totaling 423 for the school year 2008-09. According to the list, it appeared that the District had 45 non-highly qualified paraprofessionals who were assigned to Title I schools operating schoolwide programs. As this finding was in the 2007-2008 audit issued August 15, 2009, the District was unable to implement a tracking system as recommended in the prior year audit to monitor the placement/transfer of non-highly qualified paraprofessionals hired before January 8, 2002 to ensure that they were not assigned to Title I schools.

Cause and Effect

The District indicated challenges in hiring and placement of prospective teachers who might have been hesitant to serve at low-performing schools. It was this inability to attract desirable candidates that appeared to contribute to the number of non-highly qualified teachers.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

In addition, the District indicated lack of funds for administrative personnel necessary to track placement of non-highly qualified paraprofessionals.

This is a repeat finding from June 30, 2006 to June 30, 2008 (F-06-33, F-06-34, F-07-34, and F-08-23).

Questioned Costs

Not applicable. This finding is considered a programmatic non-compliance issue as well as a deficiency in the internal control system to properly track highly qualified paraprofessionals assigned to Title I schools.

Recommendation

We recommend that the District continue to implement policies and procedures to ensure the remainder of its teachers obtain their highly qualified status to comply with NCLB requirements.

We also recommend that the District implement policies and procedures to ensure that non-highly qualified paraprofessionals hired before January 8, 2002 are not placed in Title I schools where a highly qualified status is required to comply with NCLB requirements.

Views of responsible Officials and Planned Corrective Actions

The District agrees with the finding. The District continues in its effort to increase the percentage of teachers meeting NCLB requirements. The strategic steps taken to achieve the requirement are included in the recruitment plan and the Equitable Distribution Plan that were previously provided to the auditors. In prior years, the percentage of highly qualified teachers in the District, 92.3% , was based upon a manually prepared report and is considered to be very accurate. The current percentage, 84.8%, is based upon the automated CBEDS report. However, this report does not take into account teachers at special education schools or teachers at alternative sites and therefore reflects a lower figure. That information is gathered manually and due to reduced staff, the information was not gathered in the year being audited. The District believes that the percentage of highly qualified teachers is much greater due to the fact that budget reductions have forced the District to lay off teachers who are not highly qualified. Furthermore, the District is in regular contact with CDE to inform them of the progress being made to meet the requirement.

Highly Qualified Paraprofessionals

The District agrees with the finding. As of June 2009, the number of non-highly qualified paraprofessionals assigned to Title 1 schools operating the schoolwide program has been reduced to about 40 paraeducators. The District will continue to move these individuals into positions that are not in Title 1 schools.

- a) Detailing:
 - The right that parents have to have their child immediately removed from such program upon their request and
 - The options that parents have to decline to enroll their child in such program or to choose another program or method of instruction, if available and
 - Assisting parents in selecting among various programs and methods of instruction, if more than one program or method is offered by the eligible entity.
 - b) Separate Notification – In addition to providing the information required to be provided under subsection (a), each eligible entity that is using funds provided under this title to provide a language instruction educational program, and that has failed to make progress on the annual measurable achievement objectives described in Section 3122 for any fiscal year for which part A is in effect, shall separately inform a parent or the parents of a child identified for participation in such program, or participating in such program, of such failure not later than 30 days after such failure occurs.
 - c) Receipt of Information – The information required to be provided under subsections (a) and (b) to a parent shall be provided in an understandable and uniform format and, to the extent practicable, in a language that the parent can understand.

Condition

In our procedures performed over participating limited English proficiency (LEP) students, we requested copies of the required parental notifications for the students participating in the program during the 2008-2009 school year. We also requested copies of the school certification forms for notification sent to parents for failure of Annual Measurable achievement Objectives (AMAO).

In our sample of 40 participating students for the initial parent notifications, we noted the following:

- 8 notification forms were not provided;
- 1 notification form was not dated;
- 11 notification forms were dated either later than 30 days after the beginning of the school year or 2 weeks of the child's enrollment;
- 2 notification forms were not completed to inform the parents of the result of the initial testing;
- 6 notification forms were dated before the children's enrollment dates.

In our sample of 40 participating students for annual parental notifications, we noted the following:

- 5 annual parent notifications were not provided;
- 16 annual parent notifications were dated later than 30 days after the beginning of the school year.

In our samples of certifications of AMAO from 40 schools, we noted the following:

- 14 certifications were dated after October 3, 2008;

Cause and Effect

In general, effective controls are not in place to ascertain that sufficient documentation is maintained to support compliance.

This is a repeat finding from June 30, 2006 – June 30, 2008 (F-06-36, F-07-33, and F-08-22).

Questioned Costs

Not applicable. This finding is considered a programmatic non-compliance issue as well as a deficiency in the internal control system to properly monitor the parental notification process.

Recommendation

We recommend the District continue to strengthen its policies and procedures to ensure that the schools comply with the requirement that all parental notifications are made in a timely manner and that supporting documentation be maintained on file to support the schools' compliance.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with this finding. The District has established policies and procedures in place to communicate program requirements to school personnel. The District updated its policies in September 2009. Secondary Schools use BUL-4871.01 titled Annual Parent Notification Requirements Under Title III of the No Child Left Behind Act for Secondary Schools, dated September 3, 2009. Elementary schools use BUL-4872.0, titled Annual Parent Notification Requirements Under Title III of the No Child Left Behind Act for Elementary Schools, dated September 3, 2009. Condition, Cause and Effect

In our sample of 25 schools, we traced daily attendance records for a sample of teachers to the monthly teacher control card. We then traced the monthly control cards to the monthly school Statistical Report totals, which in turn were traced to the *Second Principal Report* (P2) and the *Annual Principal Report* (P3). We also traced the days reported on the monthly teacher control cards to the Student Apportionment Attendance Record Card, which is completed by the classroom teacher daily for a total of 19,315 days of attendance, 632 days of excused absences, and 335 days of unexcused absences, and noted differences for 16 of the 25 schools sampled.

- **Carson Elementary School** – Of 1,088 days of attendance, 75 excused and 17 unexcused absences sampled, we noted the following differences for 3 of 57 students sampled:
 - One student was understated by one day of attendance and overstated by one day of excused absence.
 - Two students were understated by one day of excused absence and overstated by one day of unexcused absence.
- **Allesandro Elementary School** – Of 239 days of attendance, 7 excused and 1 unexcused absences sampled, we noted the following differences for 1 of 13 students sampled:

Recommendation

We recommend that the District ensure that its schools strengthen the review process over student attendance reporting, which includes but is not limited to the compilation of the Student Apportionment Attendance Cards, Monthly Control Cards, and Monthly Statistical Reports so that they accurately reflect student attendance data.

Views of Responsible Officials and Planned Corrective Actions

Schools will in-service staff on attendance recording and reporting procedures and discuss the importance of keeping the attendance records consistent and accurate. Attendance records will also be reviewed to help ensure accuracy. Revised statistical reports will be submitted, as needed.

In addition, the new attendance system (ISIS) has been rolled out to all elementary schools for the 2009-2010 school year. Implementation of the ISIS and its procedures will help ensure consistency and accuracy of attendance data.

In our sample of 12 schools, we traced the schools' monthly Statistical Report to the Revised Annual Attendance Legers (i.e., ACES Dump Report) for the school month seven, which in turn were traced to the *Second Principal Report* (P2) and the *Annual Principal Report* (P3). To test for attendance data integrity, consistency and documents of origination support, we traced the attendance reported on the Teacher's Sign-off reports to the Student Attendance Update Report (AT06) in combination with the Student Attendance Record (AT10) from the ISIS and SSIS.

We also tested the District's absence recording for accuracy and support by various documents of origination through our random selections of recorded absences and tracing our sample selections to absence notes, logs and other evidentiary matter to ensure that absences were not included in the Average Daily Attendance reporting.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

We selected a sample of 7,206 days of attendance; 725 population of students; 443 excused absences and 501 unexcused absences for testing. We noted differences and observations for 6 of the 12 schools sampled, which are summarized and described as follows:

- **Bancroft Middle School** – Of 428 days of attendance, 28 excused absences and 4 unexcused absences sampled, we noted the following observations for 23 of 23 students sampled:
 - The original Teacher's Sign-offs for school month seven were not available for testing. Even though we were provided copies of the unsigned Teacher's Sign-off reports, Teacher's Sign-offs were required to be printed and signed by the teacher as evidence of certifying the correctness of the attendance entered by teacher to the Integrated Student Information System (ISIS) of attendance. However, since the computerized ISIS system is designed to log and track the user (teacher) who entered the attendance data by name, date and time, as an alternative audit procedure, we were able to verify the daily attendance reporting entries from the ISIS and substantiate that the daily entries were entered by the classroom teacher or authorized school administrative school staff. Based on the evidence provided by these alternative procedures, we do not question the attendance reported associated with those students. However, it is required by CDE as part of the attendance reporting procedures for the District that the teacher sign and certify the Teacher's Sign-off reports and retain origination documentation for attendance. In this regard, the school was not in compliance with such requirements.

- **Porter Middle School** - Of 726 days of attendance, 17 excused absences and 14 unexcused absences sampled, we noted the following observations for 11 of 156 students:
 - The original Teacher's Sign-offs for one teacher for March 23 to March 27, 2009 were not available for testing. Even though we were provided copies of the unsigned Teacher's Sign-off reports, Teacher's Sign-offs were required to be printed and signed by the teacher as evidence of certifying the correctness of the attendance entered by teacher to the Integrated Student Information System (ISIS) of attendance. However, since the computerized ISIS system is designed to log and track the user (teacher) who entered the attendance data by name, date and time, , as an alternative audit procedure, we were able to verify the daily attendance reporting entries from the ISIS and substantiated that the daily entries were entered by the classroom teacher or authorized school administrative school staff. - **Widney High School** – Of 462 days of attendance, 116 excused and 1 unexcused absences sampled, we noted that 12 out of 30 students sampled:
 - Twelve students were overstated by one day of excused absence and understated by one day of unexcused absence. There was no documentation on file to support the excused absences.

- **Gardena High School** – Of 1201 days of attendance, 25 excused and 219 unexcused absences sampled, we noted the following differences for 14 out of 77 students sampled:

- Since the computerized ISIS system is designed to log and track the user (teacher) who entered the attendance data by name, date and time, as an alternative audit procedure, we were able to verify the daily attendance reporting entries from the ISIS and substantiated that the daily entries were entered by the classroom teacher or authorized school administrative school staff. Based on the evidence provided by these alternative procedures we do not question the attendance reported associated with those students. However, it is required by CDE as part of the attendance reporting procedures for the District that the teacher sign and certify the Teacher’s Sign-off reports by the next school day after the school week ends. In this regard, the school was not in compliance with such requirements.
- During our testing, we also noted that there were a certain number of teachers that did not submit attendance for certain days. On a sample basis, we selected ten (10) teachers that did not submit attendance and reviewed the ISIS screen prints to verify how attendance was reported for the students of those teachers. Since attendance was not reported by those teachers, the students’ attendance for the day was relied upon by other teachers’ attendance submission. Even though we have no exceptions on the attendance reported as a result of verifying supporting documentation from the Secondary Student Information System and the Integrated Student Information System, there could be a potential under reporting of attendance due to teachers not submitting attendance. In cases where other teachers also may not submit attendance for that day or the student was absent from all the other classes except for the class of the teacher which did not submit attendance, the system would not report attendance for that student. Therefore, attendance would be under reported in those circumstances.
- **Washington Preparatory Senior High** – Of 659 days of attendance, 63 excused and 123 unexcused absences sampled, we noted the following differences and observations for 29 of 45 students:
 - One student was overstated by one day of attendance and understated by one day of unexcused absence.

- The District’s attendance reporting procedures require the teacher to sign the Teacher Sign-off by the next school day after the school week ends. There were several Teacher's Sign-offs that were signed and back dated much later than the required signing dates:

 - One student was overstated by one day of excused absence and understated by one day of unexcused absence.
 - Three students were overstated by two days of excused absence and understated by two days of unexcused absence.

These findings are repeat findings, having been reported previously for June 30, 2008 (S-08-02), June 30, 2007 (S-07-15), but for different schools.

Recommendation

We recommend that the District strengthen its review process over the compilation of the *Monthly Statistical Reports* to ensure that the report accurately reflects student attendance data. Also, we recommend that the District implement procedures to ensure original attendance documentation are signed timely and retained for the required period of time; implement procedures to strengthen the controls to ensure teacher submitting attendance daily as required. Furthermore, we recommend that the District provide adequate attendance reporting training to the schools so that proper attendance reporting procedures are adhered to.

Views of Responsible Officials and Planned Corrective Actions

Schools will in-service teachers and office personnel on attendance procedures, including consistency of attendance records and record retention. Attendance records will also be reviewed to help ensure accuracy.

In addition, CDE had approved the District's use of electronic certification beginning with the 2009-10 school year for schools using the ISIS system. Certification will be maintained in the attendance system, thus eliminating paper certifications for these schools.

S-09-03 Attendance Accounting – Continuation Education – Attendance Computations

State Audit Guide Finding Codes: 10000 and 40000

School Affected

- Independence High School
- Pueblo de Los Angeles High School

Criteria

Title 5, California Code of Regulations, Section 401(d) – in all classes for adults, continuation schools, and classes, and regional occupational centers and programs, attendance shall be reported to the supervising administrator at least once each school month.

California Education Code, Section 46300(a) – in computing average daily attendance of a school district or county office of education, there shall be included the attendance of pupils while engaged in educational activities required of those pupils and under the immediate supervision and control of an employee of the district or county office who possessed a valid certification document, registered as required by law.

California Education Code, Section 46170 – in continuation high schools and continuation education classes, a day of attendance is 180 minutes of attendance but no pupil shall be credited with more than 15 hours of attendance per school per week, proportionately reduced for those school weeks having weekday holidays on which classes are not held.

Condition, Cause and Effect

In our sample of two continuation schools, we traced the total on *Worksheet for Completing the Statistical Report* and compared the totals to the monthly school's *Statistical Report* totals, which in turn were traced to the *Second Principal Report (P2)* and the *Annual Principal Report (P3)* for the seventh school month. We also employed the same sample of two continuation schools, and traced

the days reported on the Monthly School *Statistical Report* and compared the totals to the *Student Apportionment Attendance Cards*.

We noted the following differences as follows:

- **Independence High School** – Of 3,039 hours (1,013 days) of attendance, 312 hours (104 days) excused absences sampled, we noted difference for 22 of the 34 students:
 - Twenty-two students' attendance was overstated by an aggregate total of 93 hours (31 days).
- **Pueblo de Los Angeles High School** – Of 4,557 hours (1,519 days) of attendance, 7 hours (2.33 days) excused we noted difference for 62 of the 74 students:
 - Sixty-two students' attendance were understated by an aggregate total of 372 hours (124 days), excused absence was overstated by an aggregate total of 117 hours (39 days), and unexcused absence was overstated by an aggregate total of 240 hours (125 days).

This is a repeat finding from June 30, 2008 (S-08-03), June 30, 2007 (S-07-02) and June 30, 2006 (S-06-08), but for different schools.

Questioned Costs

\$(4,038) [(0.7153) Total ADA understated x \$5,645]

- 93 hours Independence High School overstated/3 hours per day/130 days in single track school year = 0.2385 ADA

Recommendation

We recommend that the District strengthen its review process over the compilation of the *Monthly Statistical Reports* to ensure that the report accurately reflects student attendance data.

Views of Responsible Officials and Planned Corrective Actions

The schools have strengthened their practices in the proper attendance reporting for continuation students. Schools also implemented additional measures to tighten the attendance review process and improve accuracy of attendance data.

Criteria

California Education Code, Section 51747(c) – a requirement that a current written agreement for each independent study pupil shall be maintained on file including, but not limited to, all the following:

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

- The manner, time, frequency, and place for submitting a pupil's assignments and for reporting his or her progress.
- A statement of the number of course credits or, for the elementary grades, other measures of academic accomplishment appropriate to the agreement, to be earned by pupil upon completion.

Condition, Cause and Effect

In our sample of 3 schools with independent study programs, we noted 5 students, whose work assignments, were either on file but not completed, or not maintained on file. For the few that were on file, there were no hours earned or due dates on the work assignments. As a result, the attendance reporting was impacted as follows:

- One student was overstated by one day of attendance.
- Three students were overstated by six days of attendance.
- One student was overstated by seven days of attendance.

Questioned Costs:

\$ 917 = [0.1625 Total ADA overstated x \$5,645]

- 26 days Youth Opportunity Unlimited overstated /160 days in single track school year = 0.1625 ADA

Recommendation

We recommend that the District strengthen its review process over independent study to ensure all required documentation on file for students in order for proper reporting of attendance.

Views of Responsible Officials and Planned Corrective Actions

The school had discontinued its Independent Study Program. If the school decides to reinstate an Independent Study Program, it would follow all District and state policies and guidelines as stated in the California Education Code, Section 51747(c).

Condition, Cause and Effect

- **Canyon Elementary School** – Of 519 days of attendance, 8 excused and 13 unexcused absences sampled, we noted the following differences affecting the entire school for school month seven:
 - The monthly control cards totals did not agree to the monthly school Statistical Report totals. The monthly school Statistical Report was understated by five days of attendance, overstated by three days of excused absences and over by four days of unexcused absences.
- **Westwood Elementary School** – Of 1,239 days of attendance, 42 excused and 19 unexcused absences sampled, we noted the following differences for 4 of 65 students sampled:
 - One student was understated by one day of attendance and overstated by one day of unexcused absence.
 - Two students were overstated by one day of attendance and understated by one day of excused absence.
 - One student was understated by one day of attendance and overstated by one day of excused absence.

Questioned Costs:

(\$ 216) = [(0.0382Total ADA understated x \$5,645]

- 5 days Canyon understated /131 days in single track school year = (0.0382) ADA

Recommendation

We recommend that the District strengthen its review process over dependent charter schools to ensure accuracy of supporting documentation in order for proper reporting of attendance.

Views of Responsible Officials and Planned Corrective Actions

Schools will in-service staff on attendance recording and reporting procedures and discuss the importance of keeping the attendance records consistent and accurate. Attendance records will also be reviewed to help ensure accuracy. Revised statistical reports will be submitted, as needed.

In addition, the new attendance system (ISIS) has been rolled out to all elementary schools for the 2009-2010 school year. Implementation of the ISIS and procedures will help ensure consistency and accuracy of attendance data.

Criteria

California Education Code 8483(a)(2) - It is the intent of the Legislature that elementary school pupils participate in the full day of the program every day during which pupils participate and that pupils in middle school or junior high school attend a minimum of nine hours a week and three days a week to accomplish program goals.

California Education Code 8482 – The purpose of this program is to create incentives for establishing locally driven before and after school enrichment programs both during schooldays and summer, intersession, or vacation days that partner public schools and communities to provide academic and literacy support and safe, constructive alternatives for youth. The applicants for grants pursuant to this article agree to provide schoolday attendance rates and Program attendance to the Department of Education.

Condition, Cause and Effect

On a sample basis, we tested attendance documentation of thirty-six (36) schools and one hundred and eight (108) students who participated in the After School Education and Safety Program. We noted the following exceptions:

After Schools

There were 29 of students who did not have complete sign-in and sign-out time on the sign-in/sign-out sheets. Some students either didn't have the sign-in time or sign-out time. Some students didn't have both. Due to the missing sign-in or sign-out time, we could not determine whether the elementary school students participated in the full day of after school program on everyday during which students participated except as consistent with the established early release policy; and whether students in middle or junior high schools attended the after school program a minimum of nine hours a week and three days a week, except as consistent with the established early release policy. The following are the details of the exceptions:

- Playa Del Rey Elementary School - one student did not have complete sign-in/sign-out time for 3 days.

- Clinton Middle School -3 students did not have complete sign-in/sign-out time for a total of 5 days.
- Bret Harte Prep Middle School - 2 students did not have complete sign-in/sign-out time for a total of 2 days.

There were 17 schools that reported attendance inconsistent with the established early release policy. As a result, the following elementary schools had students that did not participate in the full day of the after school program on every day during which pupils participated, and the following middle schools had students that participated less than nine hours a week and three days a week :

- 75th Street Elementary School – One student was released inconsistent with the early release policy for a total of 4 days.
- Danube Elementary School – Three students were released inconsistent with the early release policy for a total of 10 days.

Before Schools

There were 2 students who attended less than one-half of the daily program hours. The following are the details of the exceptions:

- Fernangeles Elementary School - One Student (1 attendance day) attended less than one half of the daily program hours.
- Langdon Elementary School - One Student (1 attendance day) attended less than one-half of the daily program hours.

There was one student that was absent for one day but was reported as in attendance from the following school:

- Miller Elementary School

During our procedures performed over the Before and After School attendance reporting to California Department of Education (CDE), we noted variances between the District's Semiannual Attendance Report (SAR) to the Quarterly Attendance Reports which were the source documentation of the attendance data. However, the District did not maintain supporting documentation of the reconciliation process; therefore, we were unable to determine the extent of the variances.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2009

Questioned Costs

As a result of the above testing, the total over reporting of attendance was 129 days. The California Department of Education will determine the impact of the above exceptions on the After School Education and Safety funding if there is any.

Recommendation

We recommend that the District strengthen its procedures on attendance documentation for the After School Education and Safety program. Furthermore, the District should provide more training on the policies and procedures to the after school providers.

Views of Responsible Officials and Planned Corrective Actions

Beyond The Bell (BTB) agrees with the recommendation. BTB staff will help ensure that agencies maintain accurate attendance records pursuant to the terms of the contract, which includes review and verification of actual Weekly Attendance Rosters against the documents prepared by the Site Coordinator prior to completing the Monthly Attendance Report. BTB will also ensure that the Program Director of the afterschool program makes site visits frequently to comply with attendance policies. BTB has increased oversight of agencies attendance functions and will notify them of the requirements to have accurate and timely attendance data in its next audit findings letter.

 - 1) Possession of a valid California teaching credential, services credential, visiting faculty permit, children's center instructional permit, or children's center supervision permit, which credential or permit authorizes the holder to provide instruction to pupils in preschool, kindergarten, any of grades 1 to 12, inclusive, or classes primarily organized for adults, except for any of the following:
 - (A) Emergency credentials or permits.
 - (B) Exchange credentials as specified in Section 44333.
 - (C) District intern credentials as specified in Section 44325.
 - (D) Sojourn certificated employee credentials as specified in Section 44856.
 - (E) Teacher education internship credentials as specified in Article 3 (commencing with Section 44450) of Chapter 3.
 - 2) Passage of one or more examinations that the commission determines are necessary for demonstrating the knowledge and skills required for effective delivery of the services authorized by the certificate.
 - 3) Completion of at least six semester units, or nine quarter units, of coursework in a second language at a regionally accredited institution of postsecondary education. The commission shall establish minimum standards for scholarship in the required coursework. The commission shall also establish alternative ways in which the requirement can be satisfied by language-learning experience that creates an awareness of the challenges of second-language acquisition and development.
- (c) Completion of coursework in human relations in accordance with the commission's standards of program quality and effectiveness that includes, at a minimum, instruction in the following:
 - (1) The nature and content of culture.
 - (2) Cross-cultural contact and interactions.
 - (3) Cultural diversity in the United States and California.
 - (4) Providing instruction responsive to the diversity of the pupil population.
 - (5) Recognizing and responding to behavior related to the characteristics listed in Section 220.
 - (6) Techniques for the peaceful resolution of conflict.
- (d) The commission shall establish alternative requirements for a teacher to earn the certificate, which shall be awarded as a supplementary authorization pursuant to subdivision (e) of Section 44225. (e) A teacher who possesses a credential or permit described in paragraph (1) of subdivision (b) and is able to present a valid out-of-state credential or certificate that authorizes the instruction of English language learners may qualify for the certificate issued under this section by submitting an

application and fee to the commission. (f) The certificate shall remain valid as long as the prerequisite credential or permit specified in paragraph (1) of subdivision (b) remains valid.

Condition, Cause and Effect

During our procedures performed for each class sampled for attendance procedures for regular and special day classes, adult education, continuation, and community day school, we reviewed the classroom teacher’s credentials to determine if they possessed valid credentials and if their teaching position assigned was consistent with the certification. We tested a total of 111 teachers and noted two (2) exceptions for K-12 teachers without an English instruction certification that taught a class in which more than 20% of the pupils were English learners:

- Independence High School – 1 teacher taught a class with more than 20% of English learners without a proper English instruction certification.
- Pueblo De Los Angeles High School - 1 teacher taught a class with more than 20% of English learners without proper English instruction certification.

Recommendation

We recommend that the school and District implement controls to ensure that the teachers who provide instruction to classes with over 20% English learners have the required English teaching credentials.

Views of Responsible Officials and Planned Corrective Actions

On August 25, 2009 the Board of Education adopted Board Rule 1918, whereby “All teachers assigned to K-12 schools shall be prepared to meet the needs of English Learners. Effective September 1, 2009, all newly hired K-12 teachers shall be required to hold an authorization to teach English Learners (EL Authorization) to be eligible to receive an offer of probationary employment. By March 1, 2010, all teachers assigned to K-12 schools shall hold an EL authorization. An authorization to teach English Learners shall be required of all teachers assigned to K-12 schools to be eligible for continued employment after June 30, 2010.” This policy provides the District with the ability to dismiss teachers who do not hold an EL authorization. Planning is currently taking place on the implementation of Board Rule 1918. To date this school year, teachers without an EL authorization or holding an Emergency CLAD have received three reminder letters of the District EL policy. The first letter was sent through regular mail, with the second letters being sent certified mail. Principals were copied on all mailings.

February 19, 2010

The Honorable Board of Education
Los Angeles Unified School District
Los Angeles, California

Members of the Board:

We have audited the financial statements of the **Los Angeles Unified School District** (the District) as of and for the year ended June 30, 2009, and have issued our report thereon dated February 19, 2010. In planning and performing our audit of the basic financial statements of the District, in accordance with auditing standards generally accepted in the United States of America, we considered the District's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies and a deficiency that we consider to be a material weakness.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider items FS-09-01 and FS 09-02 to be significant deficiencies in internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We believe item FS-09-01 constitutes a material weakness.

Although not considered to be significant deficiencies or material weaknesses, we also noted certain items during our audit, which we would like to bring to your attention. These comments are summarized in the following report to management on pages 317 - 325.

We did not audit the District's response to the findings and comments identified in our audit, and accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the Board of Education, District management, the State Controller's office, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Current Year Management Letter Comments

ML-09-01 - CICS System Access

Observation

CICS (Customer Information Control System) facilitates on-line transaction processing and database access functionality for the IFS application system. As such, CICS plays an integral role in the operation of IFS. IFS is the District's legacy book of record for the comprehensive financial report (CAFR). CICS has a series of operator transactions to include CEDA (perform define, modify or delete user profiles, transactions, program definitions, etc), CEMT (perform master terminal transactions to include shutting down a CICS region) and CEDF (perform application program interception and testing to support trouble shooting). Accordingly, these transactions are sensitive and warrant prudent access security restriction. However, the following was noted:

- Sixteen (16) RACF user accounts assigned to retired/terminated employees have CEMT and CEDF CICS transactions access.
- Five (5) ITD-BTS personnel who do not support IFS have CEMT and CEDF CICS transactions.
- One (1) RACF user account assigned to a contractor who no longer works with LAUSD has CEDA CICS transaction access.

Impact

Inappropriate access to CICS operator transactions could adversely impact the integrity of IFS accounting data and system operations.

Recommendation

We recommend that unnecessary and excessive CICS transaction access be deleted. We also recommend that CICS transaction access be reviewed by ITD management on a periodic basis, at least annually, to ensure that inappropriate access is removed/disabled in a timely manner.

Management Response

While ITD agrees that unnecessary and excessive transaction access should be deleted in a timely manner, management feels that the existing RACF policy of revoking accounts after 90 days of non-use mitigates to some extent the identified risk. ITD is committed to removing access for the 17 RACF user accounts belonging to separated employees and contractors by February 28, 2010, and will review the accounts of the 5 ITD-BTS personnel for appropriate access levels.

ML-09-02 - SAP to IFS System Interface Controls

Observation

Payroll transaction expenditures detail is sent from SAP to IFS via a series of daily application interface programs. This interface is critical to financial reporting as it updates IFS with payroll expenditures processed in SAP. Accordingly, to ensure payroll expense data has been captured accurately and completed by IFS, a year-end SAP to IFS system reconciliation is performed by the Controller's Office Accounting Control function. However, this reconciliation process is not formally documented.

Impact

System reconciliation procedures may not be performed consistently and in accordance with management's criteria.

Recommendation

We recommend that the year-end SAP to IFS system reconciliation process be documented to ensure management's criteria are consistently applied in the reconciliation process.

Management Response

ITD management agrees with the recommendation and will work with the business departments to document the SAP to IFS reconciliation process for fiscal year 2010 closing. We have identified a series of software changes specifically to aid the reconciliation of SAP payroll expenditures to IFS. Also, this reconciliation process will be performed more frequently on a periodic basis as oppose to once at year end.

ML-09-03 - UNIX-AIX Root Password Security

Observation

UNIX-AIX is the operating system for the District's SAP application. As such, it plays a critical role relative to controlling and managing system resources for SAP. The root account is a privileged UNIX account that possesses access to all UNIX commands, files and is able to grant access permissions for UNIX users. As a result, root is a powerful account that warrants strong password protection. However, the UNIX root password is not changed periodically (i.e., every 60 - 90 days).

Impact

Lack of stringent root password security controls could result in unauthorized access and changes to accounting (e.g., payroll) data.

Recommendation

We recommend that the UNIX root account password be set to expire every 90 days.

Management Response

ITD management agrees with this finding and will take the following actions by February 28, 2010:

- 1) Lock the root account on the in-scope AIX servers, effectively preventing logins with the root account. ITD staff would continue to login to the AIX servers with non-root accounts and use sudo to perform root-level actions. This change will remove the need to:
 - a. set a password for the root account;
 - b. reset the root password at regular intervals.
- 2) Update the AIX security hardening document (ITD Security Procedure ITD-SEC-005) to reflect new policy.

ML-09-04 - UNIX-AIX User Account Security

Observation

An effective mechanism for combating DoS (Denial of Service) or brute force attacks is to enable UNIX-AIX's "Logindisable" parameter to a level that sufficiently restricts the entering of a bad or invalid password for a user account. However, the District's "Logindisable" parameter is currently set to allow five (5) invalid or bad passwords before the account is disabled instead of three (3) attempts.

Impact

Allowing excessive invalid password attempts increases UNIX's susceptibility to unauthorized system intrusion.

Recommendation

We recommend that the UNIX "logindisable" parameter be changed to three (3) invalid attempts.

Management Response

ITD management disagrees with this finding. By definition, a brute force attack is an exhaustive attempt to guess the correct password credentials by enumerating all possibilities. Based on the current AIX hardening document, logins are limited to 5 failed attempts before the account is locked. ITD management feels this policy mitigates against a brute force attack against an account.

ML-09-05 - Oracle Security Logging

Observation

Oracle is the relational database management system for SAP, as such, it is the central storage location where SAP payroll data resides. When database audit logging is enabled for Oracle, critical configuration changes made by users with system level privileges can be detected and reviewed by management periodically to ensure all changes were expected and follow the change management process. However, Oracle database audit logging is not enabled for monitoring the use of system level privileges.

Impact

Lack of security logging could result in unauthorized system configuration changes not being detected in an effective and timely manner.

Recommendation

We recommend that ITD management evaluate an efficient method/process for enabling the audit logging of system privilege use.

Management Response

ITD-BTS team is researching enabling audit logging on the Oracle DB and the impact to SAP. If SAP does not have any issues with enabling audit logging on the Oracle DB we will enable auditing logging (target date July 1, 2010).

ML-09-06 - Oracle Security Patch Management

Observation

Security patches are periodically released by Oracle to facilitate protecting the confidentiality, integrity and availability of the Oracle database management system. Although security patches are currently being implemented by ITD management, patch management procedures are not formally documented for Oracle database operations.

Impact

Security patches may not be applied in a consistent and timely manner when patch management procedures are not documented.

Recommendation

We recommend that ITD management document security patch application management procedures for Oracle.

Management Response

ITD management has documented the security patch application management procedures for Oracle databases as recommended.

ML 09-07 - Construction in Progress and Transfers to Depreciable Capital Assets

Observation

Every year, the District undertakes numerous construction projects to either modernize existing school facilities or build new ones. Facilities Support Services, a branch within the District's Facilities Services Division (FSD) facilitates the proper accumulation and recording of the costs related to these construction projects. Also, part of the department's responsibilities is to inform the General Accounting Branch whenever a construction of an asset is completed. The General Accounting Branch is in charge of the proper accounting of these assets, once they are put in service.

Construction in progress (CIP) is a District general ledger account that refers to the temporary classification of capital assets that are being built/assembled before being placed in service. The District tracks all its costs related to the building/assembly of such assets until the asset is completed. When the asset is completed or substantially completed, all these accumulated costs are transferred to another account, to indicate that such assets are ready to be put in service and as such, are to be depreciated. Subsequently, depreciation is accounted for using the most appropriate method to properly account for the asset's wear and tear.

Upon testing the correctness of the amounts accumulated in CIP and subsequently transferred to depreciable capital assets, we noted that some costs are already transferred to completed projects even before the construction of the related asset is finished or substantially finished. Consequently, depreciation of such assets is prematurely recorded. We noted about \$340,134,075 in CIP that were prematurely classified as completed, which resulted in an overstatement of depreciation expenses of about \$ 4,618,014. Moreover, we noted certain indirect labor expenses unrelated to the construction of the related assets and expenses below the internal capitalization threshold of \$25,000 amounting to \$41,269,122 that were improperly accumulated in CIP. The District properly adjusted its financial statements to correct the above errors.

*The Honorable Board of Education
Los Angeles Unified School District
February 19, 2010*

Impact

Lack of written guidelines led to incorrect information submitted to General Accounting Branch from Facilities Services Division, which in turn resulted in a significant misstatement of construction in progress, depreciable capital assets and depreciation expenses.

Recommendation

We recommend that the FSD perform more thorough analysis and work more closely with General Accounting Branch when deciding whether expenses are to be capitalized as part of construction in progress. In addition, the District should establish and implement a clearer policy that addresses proper identification of completed projects. This policy should be agreed to by both the General Accounting Branch and FSD.

Management Response

LAUSD concurs with the audit recommendation. Facilities Services Division will enhance controls and procedures and perform a more thorough analysis to appropriately determine expenses to be capitalized as part of Construction in Progress and to properly transfer CIP to Depreciable Capital Assets.

ML 09-08 - Third Party Payroll Deductions

Observation

Financial Accounting/Controlling (FI/CO) module in SAP is designed to provide automatic third party transaction posting from SAP-Payroll to SAP-General Ledger. Every payroll cycle, the payroll data is interfaced between the Payroll and Accounting modules in SAP through the FI/CO process. In this process, the salary expenditures and payroll liabilities are posted to the appropriate general ledger accounts. The reclassification posting from payroll payable to third party deductions payable, to reflect amounts to be deducted from employee payroll for payment of third party deductions is created through the FI/CO process.

The SAP-Payroll module generates a Third Party Transaction Report which is designed to reflect summarized payroll deductions by vendor, for amounts withheld from employees' pay checks, from which vendor payments are made. This functionality did not work as originally designed, so the Third Party Transaction Report was not used as the basis of the vendor payments, except for the wage garnishments deductions. This was a control deficiency noted in the prior year audit and the District concurred with it. During the fiscal years 2007-08 and 2008-09, manual controls were implemented to ensure timely payments to third parties.

Due to the volume of transactions related to third party deductions, manual controls implemented were insufficient to prevent or monitor inaccuracies of payments to third parties and inaccuracies in the reclassifications from payroll payable to third party deductions payable. In our audit of payroll payable at June 30, 2009, we were unable to identify the cause of the understatement of \$14,489,040 in the account due to inability of the current procedures to timely identify inaccuracies.

Impact

Lack of proper review and timely analysis of payroll payable and third party deductions payable resulted in misstatements in the accounts.

*The Honorable Board of Education
Los Angeles Unified School District
February 19, 2010*

Recommendation

We recommend that the District analyze and identify inaccuracies in the third party liabilities in a timely manner.

The District is aware of the functionality issues of the third party deductions report and the third party postings generated by FI/CO posting process. Also, the Office of Inspector General (OIG) had issued detailed audit report on the Third Party Payroll Deductions process and controls. We recommend that the District implement fully all recommendations in the OIG report.

Management Response

The District agrees that the third party liabilities must be reconciled in a timely manner. The District recently implemented the Third Party Remittance (3PR) Completeness Check Report and SAP FI Completeness Check Report. These reports allow the District to accurately identify unevaluated and un-posted payroll transactions in a more efficient and timely manner. Currently, we have cleared the remaining unevaluated transactions for fiscal year 2008-2009.

In addition, full implementation of 3PR functionality is underway, which will allow automated reporting and posting of taxes, deductions, retirement, benefits, and garnishments.

The District also agrees to fully implement all recommendations in the OIG report. Currently, the District has implemented 9 of the 10 recommendations.

Status of Prior Year Management Letter Comments

ML 08-01 – Inappropriate Update/Delete access to System Resources in the Production Environment

Recommendation

A review of access to critical SAP privilege functions should be performed periodically by management to ensure access is valid and appropriately restricted.

Current Status

As stated in the prior year report, BTS has removed all update capability to all user roles in production. BIWREMOTE has been modified and no longer has access to SAP_ALL, SAP_NEW or PFCG. SAP Security has removed RZ10 access to all business users in the system. BTS provided evidence supporting removal of access from BTS.

ML 08-02 – Non-compliance with ITD Security Policy for SAP User Accounts

Recommendation

The SAP Payroll password parameter setting should be modified to ensure compliance with the District's password policy and IT best practices.

Current Status

As stated in the prior year report, BTS has modified the password for those accounts that have back-end access to SAP to comply with ITD security standards. BTS provided a copy of RSPARM report reflecting current SAP password parameter settings from BTS.

ML-08-03 Excessive Assignment of SAP Payroll Batch Job Execution Amortization Privileges

Recommendation

Develop and implement an SAP Payroll task procedure for pre-scheduled or on-request batch job submissions. Also, District management should consider having the BTS BASIS Operations group own the scheduling, execution, and monitoring of batch processes. Policies and procedures should also be developed to govern these processes.

Current Status

As stated in the prior year report, BTS has removed the ability of business users to schedule batch jobs by removing access to SM36. BTS recognizes the need for developing policies and procedures to manage the submissions of batch jobs and will work with the business units to develop the process to manage risk and support their business needs.

ML -08-04 – Inadequate SAP Default Account Password Setting

Recommendation

SAP default system settings (e.g. default passwords) and unnecessary system services should be disabled and/or modified to include changing vendor default passwords, deleting or renaming default IDs, disabling unnecessary system services, etc.

Current Status

As stated in the prior year report, The SAP delivered default IDs have been locked and their passwords changed. In addition, BTS has established a two-step process to manage the usage of these IDs. The required system IDs have been locked by the SAP Security team and their passwords are only known by the BASIS team.

ML-08-05 Excessive Number of Customized T-Codes in SAP

Recommendation

ITD-BTS and Accounting management should review the 650 custom t-codes to determine which T-codes are no longer required and should be removed from the production environment. We also recommend that more complete descriptions of the custom t-code functionality be documented for these transactions.

The Honorable Board of Education
Los Angeles Unified School District
February 19, 2010

Current Status

No progress has been made in the review of the custom T-codes. This activity is being postponed due to staffing and other business priorities around calendar year-end of 2009, this is contingent upon funding. This is a process that may require joint ownership between ITD and payroll operations.

ML-08-06 - Review of SAP Payroll User Access

Recommendations

Management should review the SAP Payroll roles and assigned transactions to ensure system access is restricted to users solely based on what is required for their respective job functions. A tool can be used to help facilitate identifying and correcting potential segregation of duties conflict.

Current Status

ITD-BTS is working with the payroll area to provide signoff for the review of security roles in SAP to be completed by January 2, 2010. The ITD-BTS team and Payroll are meeting regularly to determine proper procedures. The review of the security payroll rules has been completed manually as a one-time activity. However, the SAP SOD tool has not been procured to practically monitor SOD and role.

ML-08-07 - Lack of a Business Continuity Plan

Recommendation

Although a Business Impact Analysis (BIA) was completed, a Business Continuity Plan based on risks and threats identified in the BIA should be developed. This plan should address the requirements for alternative processing and timely recovery of mission critical IT services. The plan should be tested on a regular basis to ensure that IT systems can be effectively recovered, shortcomings are addressed and the plan remains relevant.

Current Status

There is no documented business continuity plan although funding is incorporated in Measure “Q” funding. However, funding is contingent upon issuance of the bond.

ML-08-08 – Outdated Policies and Procedures

Recommendation

We recommended that IT policies and procedures providing overall direction for the implementation of IT General Computer Controls be centrally managed, reviewed by management on a timely basis (e.g. annually) and made easily accessible to the District’s IT personnel.

Current Status

ITD agrees with this recommendation. Remediation is in process. ITD Security provided a sample updated policy.

ML-08-09 - Network Vulnerability Monitoring

Recommendation

ITD management should periodically run vulnerability scans of the network to ensure network vulnerabilities are identified and contained in a timely manner. Also, ITD management should consider having a periodic (e.g., annual) independent network vulnerability assessment performed to ensure the network is sufficiently hardened against the latest known network vulnerabilities.

Current Status

No progress has been made in contracting for an independent network vulnerability assessment. An effort has been started by ITD to identify funding and procure such services by 6/30/2010.

ML - 08-10 Third Party Payroll Deductions – This remains a management letter comment for fiscal year 2008-09. See **ML 09-08**.

ML -08-11 – Delay of Reconciliation of Accounts Payable Accrual Accounts

Recommendation

The District should establish controls to ensure that appropriate procedures for accuracy of the year-end accruals based upon the open Pos be established to avoid over-accrual. The District should update their written policies and procedures to require reconciliation of the subsequent payments of the accruals in a timely manner.

Current Status

As mentioned in the 2007-08 audit, the Accounts Payable accruals for 1994-95 (\$61,000), 2002-03 (\$24,000), and 2004-05 (\$13,348,000) were reconciled and closed as of the audit date of August 15, 2009.

The Accounts Payable accruals for 2005-2006 (\$18,443,000) have been reconciled and closed as of September 2009.

Findings Related to the Basic Financial Statements Reporting in Accordance with *Government Auditing Standards*

FS-08-01 - Inadequate Documentation for Program Changes to the Production System – Material Weakness

State Audit Guide Finding Code: 30000

Recommendation

The requirement for documenting and approving application changes should be consistently followed to prevent unauthorized program changes. This includes documenting and retaining management approvals to confirm that program changes are aligned with management intentions and user requirements.

Current Status

ITD-BTS has implemented a governance process to provide a consistent procedure that provides business owners oversight and approval of changes to the SAP system. These procedures and controls are documented and managed using “TransportConnect” to track and log change requests and transports to the SAP system.

FS-08-02 - Lack of IFS Security Reporting – Material Weakness

State Audit Guide Finding Code: 30000

Recommendation

IFS user access security reports be developed to facilitate management review of user access to IFS transactions. These reports should be reviewed periodically by Accounting Department management to ensure access to sensitive accounting system transactions is appropriate and restricted based upon the user’s job function.

Current Status

Module/transaction level user access rights security reports have not yet been developed for the IFS accounting application, a service request will be issued in February 2010 to develop the required report.

FS-08-03 - Developers with Update Access to IFS Production Data - Significant Deficiency

State Audit Guide Finding Code: 30000

Recommendation

Access to the IFS.SAPPRD.*.* and IFS.LEF10.*.* IFS datasets should be reviewed by both the Data Owner (Accounting Department management) and ITD management to indentify and remove inappropriate access.

Current Status

Inappropriate RACF user account access was reviewed and removed for the indicated IFS datasets.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Status of Prior Year Findings and Recommendations

June 30, 2009

FS-08-04 - Lack of Logging and Security Monitoring Control Processes - Significant Deficiency

State Audit Guide Finding Code: 30000

Recommendations

SAP Payroll Security logging should be activated to enable the monitoring and review of security violations and privileged user access. Incidents should be investigated until final resolution and if necessary escalated to the District management.

Windows network logs which capture critical activities should be reviewed on a timely basis. If necessary, log filtering tools can be used to enable efficient monitoring and review of access.

Current Status

ITD-BTS has enabled logging to track inappropriate access attempts to all SAP T-codes. These logs are reviewed and stored per LAUSD ITD standard of 90 days. ITD-BTS will formally document these reviews and obtain formal signoff from business owners.

Windows network logging has not been enabled. However, ITD management is currently configuring a network log tool, e.g., MARS (Monitoring Analysis & Response System) for June 1, 2010 implementation.

FS-08-05 - Lack of User Access Review and Certification - Significant Deficiency

State Audit Guide Finding Code: 30000

Recommendations

Management should review the SAP Payroll roles and assigned transactions to ensure system access is restricted to users solely based on what is required for their respective job functions. A tool can be used to help facilitate identifying and correcting potential segregation of duties conflict.

Users defined to RACF should be reviewed with an objective to validate group assignments and revoke users should be purged following confirmation from business owners that their status warrants purging.

RACF system attributes/privileges (e.g., Special attribute) should be restricted to personnel responsible for security administration. Also, such privileges should be reviewed by ITD management on a periodic basis to ensure access remains appropriate and properly restricted.

Current Status

ITD-BTS has not completed a review of SAP Payroll user roles. Also, ITD-BTS has not procured a SAP SOD tool. However, ITD-BTS is working with the payroll area to provide signoff for the review of security Payroll roles in SAP to be completed by January 2, 2010. The review of the security Payroll roles has been completed, manually as a one-time activity. However, the SAP SOD tool has not been procured to proactively monitor SOD and roles.

The approximately 3,000 accounts in revoked status have been reviewed and purged from the RACF system.

ITD has reviewed the accounts identified as having the Special attribute and has verified that access for each account holder is appropriate.

FS-08-06 - Time Management Segregation of Duties (SOD) Conflict - Significant Deficiency

State Audit Guide Finding Code: 30000

Recommendation

We recommend that a review of the remaining personnel with conflicting SAP access be performed to ensure an adequate level of segregation of duties is maintained. The review should include verification of role and transaction assignments and management's acceptance of the associated risks. Any remaining instances of conflicting access should be addressed with countermeasures (e.g., review of audit logging activity) that sufficiently mitigate the risk associated with such access.

Current Status

A review of personnel with conflicting Time Management access has been performed. Those with continuing conflicting access have been documented indicating the business need/rationale for the access and management's acceptance of the associated risk.

Recommendation

We recommend that the District consider implementing a more automated system of accounting for equipment inventory with a software program, which should have the capabilities to capture all equipment over the federal equipment threshold of \$5,000. These detailed equipment records should be used both by the District to reconcile its equipment recorded in the general ledger for financial reporting purposes and at the schools to support the accuracy and completeness of the school classroom inventory equipment listing.

The software should also have the ability to generate reports to detail annual equipment acquisitions and dispositions by federal program and by school site location.

Current Status

Implemented with alternative policies and procedures

District's Explanation if Not Implemented

The District issued BUL-3508.1 – Inventory for Equipment Purchased through Categorical Programs on February 4, 2008 and updated and re-issued it as BUL-3508.2 under the same title on February 16, 2010. These bulletins implement new procedures that address the requirements for inventory control. Local District categorical coordinators provide training on the bulletin to school-site categorical program advisors. The District continues to train School Administrative Assistants in equipment inventory requirements.

Recommendation

It is highly important that the District develop and maintain sufficient documentation that can be used to rebut the supplement, not supplant presumption, as stated above.

In the following instances, pursuant to guidance from the U.S. Office of Management and Budget (OMB) and the U.S. Department of Education (USED), it is presumed that supplanting has occurred if the District:

LOS ANGELES UNIFIED SCHOOL DISTRICT

Status of Prior Year Findings and Recommendations

Year Ended June 30, 2009

- Uses Federal funds (except Bilingual) to provide services that the District is required to make available under other Federal, State, or local laws;
- Uses Federal funds to provide services that the District provided with non-Federal funds in the prior year;
- Uses Title I, Part A or MEP funds to provide services for participating children that the District provides with non-Federal funds for nonparticipating children.
- However, according to the OMB guidance, “These presumptions are rebuttable if the SEA or LEA can
- Demonstrate that it would not have provided the services in question with non-Federal funds had the Federal funds not been available.”
- For schoolwide programs (approximately 90% of all of the District’s Title I schools), the distinction between state/local funds and Federal funds – and hence the notion of supplantation – becomes unclear. In general, when services are delivered through schoolwide programs, Federal, State, and local funds are pooled, making it difficult to distinguish among funding streams in an audit because a schoolwide school does not have to:
 - (1) Show that Federal funds used within the school are paying for additional services that would not otherwise be provided; or
 - (2) Demonstrate that Federal funds are used only for specific target populations, or
 - (3) Separately track Federal program funds once they reach the school.

Such a school, however, is required to use funds available under Title I and any other Federal programs to supplement the total amount of funds that would, in the absence of the Federal funds, be made available from non-Federal sources for that school, including funds needed to provide services that are required by law for children with disabilities and children with limited English proficiency.

Although there is no precise formula for determining what kinds of records will overcome a presumption of supplanting, or otherwise demonstrate that Federal funds were used in a supplemental manner, we recommend that the District develop additional analysis and procedures to determine for each of their schools where the presumption of supplanting and/or the reduction in general funding has occurred and Federal funding has increased, to demonstrate that they believe the school could not maintain services previously paid with State or local funds had Federal program funds not been available. We also recommend that the District implement policies and procedures to perform such analysis on a quarterly basis to closely monitor the District’s compliance and documentation to support any exceptions noted from their review. The analysis should be reviewed and approved formally by the officials.

Current Status

Implemented with alternative policies and procedures

District Explanation if Not Implemented

During the fiscal year 2008-09 audit, the auditors were provided additional information regarding the District’s policies and procedures over the Supplement, Not Supplant provisions. We were able to demonstrate how the budgeting process at the local school level provides support of specific program expenses which are over and above the general revenue funds the schools receive to support the core program.

District's Explanation if Not Implemented

The Branch has strengthened controls over cash collections by developing worksheets to assist schools to reconcile the cash collection to sales. The worksheets are kept at the school site where the manager has easy access to discuss information when a Financial Accountant contacts them regarding their cash collections.

Food Services has improved the reporting accuracy in the implementation of a web-based Food Services Data Capture System (FSDC) to automate the Cafeteria Managers' data entry of weekly meal counts/sales and monthly inventory tracking and cash collections. All schools have been on the current system since April 2008. All Cafeteria Personnel have undergone training prior to the system being implemented at their school site. Cafeteria Managers, Senior Cafeteria Workers, and Financial Managers attend a mandatory 4-hour training course (Financial Managers training is 1-2 hours). Ongoing training of newly promoted managers and senior workers is also available.
