Board Report

INTEROFFICE CORRESPONDENCE
Los Angeles Unified School District
Office of the Chief Financial Officer

INFORMATIVE

TO: Members, Board of Education
Austin Beutner, Superintendent

DATE: June 23, 2020

FROM: David D. Hart 
Chief Financial Officer

SUBJECT: ADOPTION OF THE PROPOSED 2020-21 BUDGET

Each year, on or before June 30th, the Board adopts a budget for the upcoming fiscal year. Executive Order N-56-20, signed by the Governor on April 22, 2020, waives the requirement that the Governing Board of the District adopt a 2020-21 Local Control and Accountability Plan (LCAP) prior to adopting the 2020-21 budget and postpones the deadline for the adoption of the LCAP to December 15, 2020.

Pursuant to Executive Order N-56-20, a hearing and adoption of the Proposed 2020-21 Budget are scheduled on June 23, 2020. *All numbers herein are subject to change, potentially materially, at such time that the impacts of the Enacted State Budget are known, which may occur after June 30th.*

I. MAJOR HIGHLIGHTS

Below are the major highlights from the Proposed 2020-21 Budget:

- The District's proposed budget reflects the Governor's May Revision which was noteworthy given the 10% reduction to the Local Control Funding Formula (LCFF).
 - The multi-year projection depicts zero percent (0%) cost-of-living adjustment in fiscal years 2020-21 through 2022-23 for LCFF and other grants.
 - The effective rate is a 7.92% reduction.
- Revenues include Federal funds from the Coronavirus Aid, Relief, and Economic Security (CARES) Act of \$287.7 million in response to the coronavirus pandemic.
- Though the budget is balanced, a significant amount of fund balance is being drawn upon over the multi-year projection. The District has a structural deficit whereby on-going expenditures exceed on-going revenues. The revenue reduction from the Governor's May Revision exacerbates the District's structural deficit.
- The Proposed 2020-21 Budget incorporates the 2019-20 projected unassigned ending balance of \$530.2 million and the release of 2019-20 assigned funds to the unassigned balance in 2020-21.
- Incorporating all revenue changes proposed in the revised State budget and the District's own monies generated from the release of assigned funds, the 2020-21 and 2021-22 projected fiscal years end with positive unassigned ending balances.

- The Los Angeles County Office of Education (LACOE) is certain to require the District to address the 2022-23 fiscal year deficit, should a deficit exist, through a Fiscal Stabilization Plan. However, the uncertainty of revenues at the State level delays the District’s plans. After the fiscal impact of the Enacted State Budget is determined, the District will address the fiscal year 2022-23 deficit, should one exist.

II. FISCAL PICTURE

The District has unassigned ending balances in 2020-21 and 2021-22. After all unassigned ending balances are exhausted, 2022-23 will have a deficit of \$1,078.2 million.

In the 2020-21 fiscal year, the unassigned ending balance increases due to the deposit of 2019-20 estimated unrestricted assigned balances into the 2020-21 unassigned balance. Table I below provides a summary reconciliation of 2020-21 through 2022-23 from the Second Interim Report (March 2020) to the Proposed Budget (June 2020):

Table I. Estimated Unassigned Ending Balances

Reconciliation from Second Interim to Final Budget - March 2020 to June 2020 <i>(Amounts in millions)</i>	2020-21	2021-22	2022-23
Unassigned Ending Balance at Second Interim	\$ 715.2	\$ 0.4	\$ (956.1)
Changes from Second Interim to Final Budget	282.7	120.5	(122.1)
Estimated Unassigned Ending Balance	\$ 997.9	\$ 120.9	\$ (1,078.2)

Attachment D of the Board Report lists the estimated assigned ending balances for 2020-21 through 2022-23.

Declining Reserve Levels

The unassigned ending balance is estimated to drop from 7.81% in 2019-20 to -12.88% in 2022-23.

III. NEXT STEPS:

Prior to COVID-19, the District was faced with preexisting challenges that contributed to its structural deficit such as declining enrollment (without concurrent reductions in costs) and expiration of one-time revenue solutions. The additional costs to the District brought upon by the COVID-19 pandemic and the economic uncertainty that results from it increases the District's deficit in the out-years and lessens the likelihood of a resolution without additional State or Federal aid.

The Assembly and Senate rejected the Governor's initial cuts to K-12 education as presented in the Governor's May Revision. The gap between the Governor and Legislature will require negotiation. Both houses of the Legislature have a constitutional deadline to pass a budget by June 15 and present it to the Governor for action by June 30th.

The District's budget will be updated as new financial developments occur. The Unaudited Actuals Report for 2019-20 is the next State statutory report that will focus on the year-end closing and will be presented to the Board in September. If there are changes to the Enacted State Budget prior to the Unaudited Actuals Report, a budget update will be provided sooner. The District will be required to submit a revised budget which will be available for public review and comment prior to adoption.

The Proposed Budget for 2020-21, once adopted, in all likelihood will become the initially adopted budget for fiscal year 2020-21 given the expectation the budget will necessarily be revised once the impacts of the Enacted State Budget are determined.

Adoption of the Proposed 2020-21 Budget - Public Hearing

June 23, 2020

Office of the Chief Financial Officer

Action Proposed:

Staff seeks authorization for the following actions:

- (1) Adoption of the Proposed 2020-21 Budget to be filed, as approved, with the County Superintendent of Schools on State Form SACS-2020 in the manner prescribed by law.
- (2) Delegation of authority to the Budget Services and Financial Planning Division and the Accounting and Disbursements Division to take all actions necessary to implement the Budget Assumptions and Policies set forth in this Board Report (Attachment A).
- (3) Approval of the enclosed Resolution Regarding Expenditures from the Educational Protection Account ("EPA") for Fiscal Year 2020-21 in accordance with the provision of Proposition 30. (Attachment B)
- (4) Delegation of authority to the Chief Financial Officer, the Controller, or their designee to make interfund transfers or temporary borrowings among the District's various funds in accordance with the 2020-21 adopted and modified District budgets and Education Code section 42603. See Attachment C for a history of interfund borrowing.

Background:

Annually, the Board of Education must hold a public hearing and adopt a budget consistent with the provisions of section 42127 of the Education Code. Upon adoption, the budget is to be submitted to LACOE on or before July 1.

With the passage of Proposition 30, the District will receive part of its State entitlement through revenues from the Education Protection Account (EPA). In order to receive these entitlements, the Board of Education must at an open meeting make spending determinations regarding EPA funds.

Proposition 30 is allocated to school districts through the EPA. These are not additional funds outside of Local Control Funding Formula, but rather another source of the general purpose funds (similarly to local property taxes) that offsets what would otherwise be state funding.

EPA funds may not be used for any salaries or benefits of administrators or any other administrative costs. The District is also required to annually publish on its web site an accounting of how much EPA funds were received and how the funds were spent.

Sections 42127 and 52062 of the Education Code now requires two separate Governing Board public meetings for the Local Control and Accountability Plan (LCAP) and the Budget, one for the public hearing of the LCAP and Budget and a subsequent meeting for the adoption. In addition, the LCAP public hearing and adoption must

occur at the same meetings as the budget public hearing and adoption.

However, due to the COVID-19 pandemic, Governor Gavin Newsom's April 22, 2020, Executive Order N-56-20 waives the requirement that the governing board of a school district adopt a 2020-21 Local Control Accountability Plan (LCAP) prior to adopting the 2020-21 budget, and postpones the deadline for adoption of the LCAP and the associated Budget Overview for Parents from July 1, 2020, to December 15, 2020. Consequently, for the 2020-21 budget, school districts are not required to hold two separate meetings and gives school districts the option of holding one meeting that encompasses both the public hearing and adoption of the budget.

As required by Senate Bill (SB) 858, Attachment D set forth the minimum reserve level required in each year, amounts of assigned and unassigned ending balance that exceed the minimum, and reasons for the reserve being greater than the minimum.

The interfund transfer and temporary borrowing authorization is an annual request to allow staff to process accounting transactions related to interfund transfers and temporary borrowings. Interfund transfers are made between funds for various purposes, including transfers for debt service requirements. Temporary borrowings are made in situations where the District advances cash from a fund with sufficient cash balance to pay obligations of a fund with insufficient cash balance. Repayments of the cash advances are made within statutory timelines.

Expected Outcomes:

The outcome of this Board action is an adopted budget for fiscal year 2020-21 that will enable the District to comply with Education Code Section 42127. Any subsequent revisions to the State budget will require the District to re-submit its budget to reflect changes in revenues and expenditures no later than 45 days after State revisions.

A further expected outcome of this Board Action is an adoption of Resolutions Regarding EPA expenditures for 2020-21.

Approval of interfund transfers and temporary borrowings authorization will ensure that interfund transfers or temporary borrowings are authorized beginning in July 2020. District staff will be able to make required and timely interfund transfers or temporary borrowings in the 2020-21 fiscal year.

Board Options and Consequences:

Should the Board vote to approve, the District will meet the annual budget adoption requirements of Education Code Section 42127. Should the Board vote not to approve, the District will not meet the requirements of Education Code Section 42127.

Non-approval of EPA resolution as set forth in Proposition 30 may place the EPA entitlement at risk.

Without prior approval to process interfund transfers and temporary borrowings, District staff will not have the authority to make required and timely interfund transfers or temporary borrowings in the 2020-21 fiscal year.

Policy Implications:

Adoption of the Proposed 2020-21 Budget, approval of the Resolution Regarding Expenditures from the EPA, and delegation of authority to make interfund transfers or temporary borrowings will comply with the Education Code requirements.

Budget Impact: Adoption of the Proposed 2020-21 Budget

Student Impact: Compliance with Education Code mandate ensures that the District will continue to operate and serve its student population.

8. For 2021-22, an enrollment decline of 13,548 for non-charter and locally-funded (affiliated) charter schools; direct-funded (independent) charter school enrollment is estimated to increase by 2,360. For 2022-23, an enrollment decline of 12,222 for non-charter and locally-funded (affiliated) charter schools; direct-funded (independent) charter school enrollment is estimated to increase by 1,601.
9. CPI of 1.73% in 2021-22 and 2.12% in 2022-23 on other operating expenditures, except utilities which are projected to increase by an average of 1.76% for each fiscal year.
10. Decrease of 0.13% in CalSTRS rates for 2021-22 and an increase of 2.38% for 2022-23 for estimated rates of 16.02% and 18.4%, respectively.

16. Inclusion of the 2021-22 unassigned/unappropriated beginning balances in the General Fund of \$120.9 million results to a negative unassigned/unappropriated ending balance of \$1,078.2 million in 2022-23. The negative unassigned/unappropriated ending balance is brought about by the loss of funding in Prop 98. The current Senate and Assembly agreement on the State's budget rejects the proposed cuts to Prop 98 and instead fully funds LCFF including the 2.31% statutory COLA. With this restoration, the deficit in unassigned/unappropriated amount in 2022-23 will be substantially reduced.

Ending Balance Reserve Requirements

Beginning in 2015-16, the District must determine the minimum reserve level amounts of estimated assigned and unassigned ending balances that exceed the required minimum under Senate Bill (SB) 858/751. The District must also state reasons for the reserve being greater than the minimum.

Approximately 50% of the assigned ending balances are in the General Fund School Allocation, School Site Program, and Proportionality Carryover categories. The general fund school allocations are the main account that school sites use for their local needs. These categories also contain any unspent Targeted Student Population (TSP) program and Charter School Categorical Block grant monies at the school sites. Some of these accounts are also associated with specific local revenues such as donations and filming revenues.

The Districtwide assigned balances include a set aside for the benefit reconciliation. These are one-time balances and will be released once the reconciliation and/or audits are finalized. Additional assigned ending balances include set-asides for specific projects that are to be implemented during the school year such as a teacher pilot program, community of schools, a summer assistance program, and expenses related to reopening schools after closure during the COVID-19 pandemic.

The Unassigned/Unappropriated balances are amounts that could be used for any Board approved purposes and have not been designated for a specific use. However, in the District's case, the unassigned ending balance of \$997.9 million in 2020-21 is a factor in balancing 2021-22 and 2022-23.

The table below shows the calculation of the minimum reserve requirement as well as the estimated assigned and unassigned ending balance for fiscal years 2020-21 through 2022-23:

REVENUE

LA Unified receives \$16,151 in funding per K-12 pupil for school year 2020-21.

AUTHORIZED BUDGET

LA Unified authorizes \$17,856 per pupil, which is comprised of:

- \$16,151 from 2020-21 revenue

- \$212 from prior years balances allocated to a school and anticipated to be unspent

ACTUAL SPENDING

Based on actual spending over the past few years, the District projects to spend about 92 percent of its revenue.

Support Personnel

SUPPORT PERSONNEL ALLOCATIONS – 2020-2021

Custodial personnel are allocated to schools as follows:

Custodial Personnel – K – 12 Schools

Custodial Personnel allocations for K-12 schools are based on a combination of factors, mainly space (square footage of different types of areas) and student enrollment. For most K - 12 schools, allocations are based on the following:

- The minimum staffing allocation for a K-12 school is 16 hours and each school is allocated a Plant Manager within the allocation. Schools may also be allocated an Assistant Plant Manager based on the number of custodial hours on the night shift. The Plant Manager level is determined by the size of the campus. The placement of an Assistant Plant Manager as well as the levels of both the Plant Manager and Assistant Plant Manager can only be changed after review by Personnel Commission.
- Square footage area of interior space and exterior area hardscape and planted areas are used to determine a time value to clean the spaces daily.
- A Budget reduction factor is applied based on available funding for custodial staffing.
- An Enrollment factor of .41 minute per enrolled student is added back in after the above reduction.
- Custodial time is rounded to the nearest 4-hour increment to determine the amount of staffing budgeted for the school site.
- High schools and middle schools are also allocated C – basis School Facilities Attendant(s) whose main duty is to service restrooms and provide other miscellaneous duties within their job classification description when the school is in session.
- Pool custodians will be assigned to the Maintenance and Operations (M&O) Areas and will service schools' swimming pools in their respective M&O areas.

Custodial allocations are also augmented based on enrollment at schools using the criteria below. These criteria and allocations are subject to change based on availability of funds in Program 11694.

- Elementary schools with an enrollment greater than 606 students that are allocated 16 hours of custodial time will receive an additional 4 hours custodial allocation.
- Middle schools with an enrollment greater than 1,744 will receive an additional 4 hours custodial allocation.

Custodial Personnel – Special Education Centers and Special Education Program in K-12 Schools

Custodial staffing allocation for Special Education Centers and for combined special education and traditional school sites is first calculated like a traditional site. Custodial staffing hours may be added to site allocation due to:

- Special Education allocation rules below also apply to traditional schools with 500 or greater enrollment
- Traditional sites or stand-alone special ed sites with 5 or greater classrooms designated for students in the following programs: PCC, PAL, PSC, AUT, IDS, MDS, IDM, MD, EE, VI, and DHH.
- The following allocations will be made the sites described above:
 - 4 custodial hours if using 5-12 classrooms for designated programs
 - 8 custodial hours if using 13-17 classrooms for designated programs
 - 12 custodial hours if using 18-23 classrooms for designated programs
 - 16 custodial hours if using 24-29 classrooms for designated programs
 - 20 custodial hours if using 30 or more classrooms for designated programs

Custodial Personnel – Option Schools

Custodial allocations for continuation schools, opportunity schools, community day schools, and independent study schools are calculated similarly to K-12 sites subject to the following guidelines:

- Continuation schools, opportunity schools, community day schools, and independent study schools are often contained within a larger K-12 campus. For these sites, enrollment and square footage values are included in the main site's allocation.
- The continuation school, opportunity schools, community day school, or independent study school program contribute funding based on the size of the area used on the main campus. The time apportioned to the continuation schools, opportunity schools, community day schools, or independent study schools and the funding program are included on the main site's custodial allotment sheet.

When a continuation school, opportunity school, community day school, or independent study school is not co-located with a larger campus, custodial allocation is calculated similarly to a typical K-12 school site.

Custodial Personnel – Adult Education Sites

Custodial allocations for Adult Education sites are calculated similarly to K-12 sites. Stand-alone Adult Education sites are assigned to a team cleaning group consisting of an appropriate level plant manager and an assistant plant manager as needed. The Division of Adult Education funds custodial staffing for these sites. When Adult Education uses a portion of a larger host campus, the Adult Education custodial team assigned to the Adult Ed centers in that area will provide custodial services for the campus areas used, in coordination with the site's plant manager and administrator. No additional custodial hours will be added to the host school site allotment, as the Adult Ed custodial team will provide needed custodial support.

Campus Aides

Campus aides are allocated to provide a range of three (3) to eight (8) hours of supervision support to schools subject to review and approval by Local District and District Operations based upon security considerations.

Teacher Librarians

Per the District - UTLA agreement of January 2019 (part of the settlement of the UTLA work stoppage), the District funds a full-time Teacher Librarians for all secondary schools, including SPAN schools. The agreement allowed a two-year period for implementation (2019-20 and 2020-21 school years). K-8 SPAN schools are included in this agreement. Each secondary school receives a one (1.0) position. For shared sites, the funding for the 1.0 position is divided among the schools sharing the site. The schools then pool the funding to purchase the 1.0 TL position. The funding provided for the Teacher Librarian position may not be repurposed.

School Nurses

The District has allocated resources to your school in Targeted Student Populations (TSP) School Program 10529 to provide School Nurse services. Allocations are based on historical health needs, such as the number of students requiring mandated state screenings, with an Individualized Education Plans who need a health assessment, with medical protocols, with diabetic care needs, with sports physicals requiring clearance, etc. Allocations were also adjusted upwards based on a school's duplicated target student population.

Mandated health requirements must be met. Once the District's minimum requirements are budgeted in Program 10529, additional categorical supplemental resources may be purchased to supplement, not supplant. Minimum requirements are established by the appropriate support unit. The Staffing and Resources Report reflects the minimum requirement. The allocation of nursing time has been determined based on a student-need norming model. Nurse resources may be adjusted during Norm Day Settle-up to ensure nursing services are aligned to identified student needs. District Nursing Services will have discretion to re-allocate nursing time based on students' health needs. While every effort will be made to minimize changes to the nursing allocation to schools, student health needs criteria will determine the need for nursing services therefore resulting in changes throughout the school year. These funds should not be used for activities such as health office management or to provide services that can be assigned to trained unlicensed staff.

There is no flexibility allowed on this resource.

Whenever possible, schools will receive their full School Nurse allocation. However, in the event there is a nursing staff shortage, schools may not be allocated the entirety of their School Nurse time. Schools may purchase additional nursing time from their budget based on student needs.

School Psychologists

School Psychologists and related personnel are allocated to schools based on student needs and type of school. The following allocations represent minimum requirements for general education K-12 schools.

Elementary Schools	.25 day per week
Middle Schools	.4 day per week
Senior High Schools	.5 day per week

In addition to special education and general education allocations, schools purchase additional psychological services based on the needs of their students and the schools' ability to fund the positions.

Pupil Services and Attendance Counselors

Schools purchase Pupil Services and Attendance Counselors services based on their needs for attendance services and the schools' ability to fund the positions.

STUDENT EQUITY NEEDS INDEX (SENI)

The District uses the Student Equity Needs Index score to determine the Targeted Student Population (TSP) allocation to schools.

Overview

There are four fundamental principles in designing an equity-based funding formula:

- Equity – funds should be allocated according to need.
- Transparency – the methodology for allocating funds is clear, simple, and understandable.
- Fairness – schools with similar needs should receive similar funds per TSP student.
- Stability and Feasibility – funds should be allocated in a manner that causes minimal disruption to school planning.

Equity-Based Funding Formula

- Based on the school's SENI score, there are five rankings: Highest, High, Moderate, Low, and Lowest.
- Funds are allocated on a continuous per pupil rate based on the school's Student Equity Needs Index score.
- In Fiscal Year 2019-2020, some schools are held harmless to match their 2018-19 TSP allocation (Program 10183, 10400, 10405). It is a one-time hold harmless adjustment to transition to the new SENI ranking.
- The SENI per pupil rates for secondary schools are higher than elementary schools to recognize the higher costs to operate middle and high schools.

DISTRICT ENROLLMENT TRENDS

This section provides information and data related to the number of students served in the district schools.

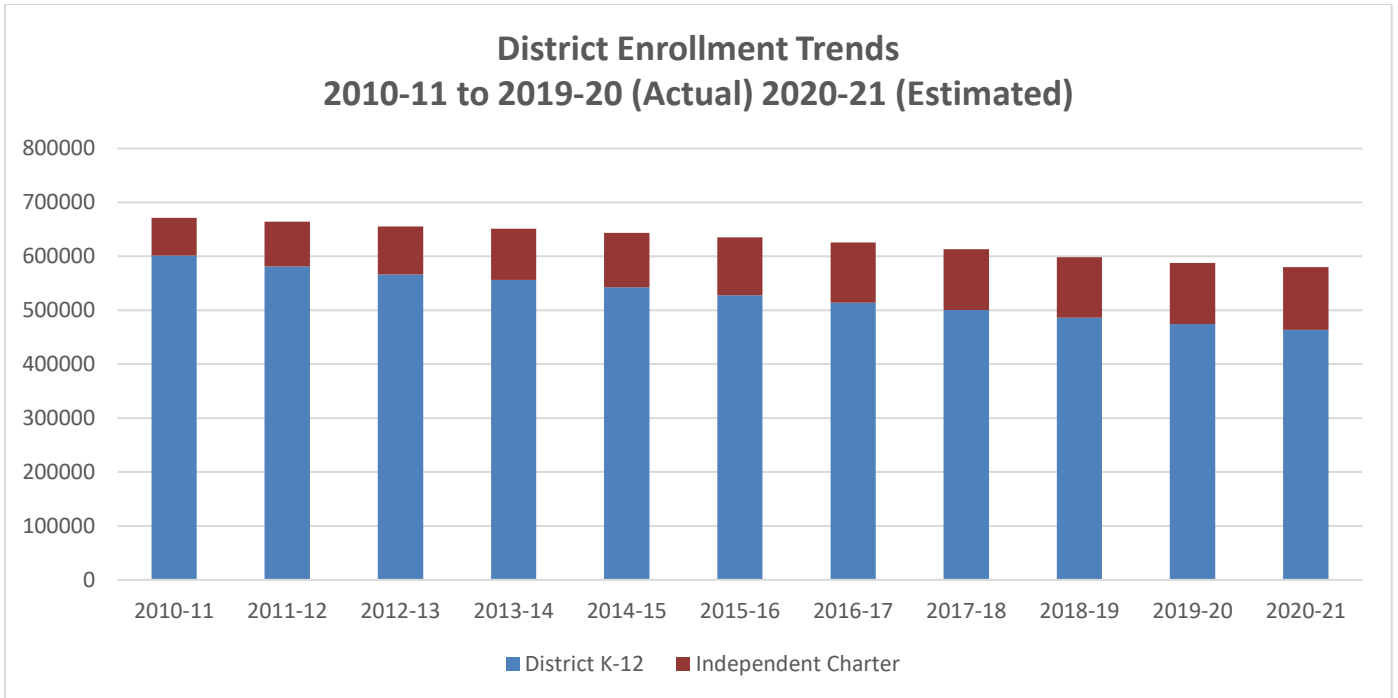

Enrollment and Enrollment Projections. To project enrollment, the Los Angeles Unified School District uses data on live births in Los Angeles County, historical grade retention rates, economic factors, and other relevant informations. The grade retention ratios measure the percentage of students expected to progress to the next grade level from one year to the next based on past trends. Estimated enrollments in grades 1 through 12 are calculated based on a variety of scenarios using weighted and true averages overtime. Kindergarten enrollments are calculated as a percentage of live births in Los Angeles County from five years earlier.

Enrollment peaked in 2002-03 at 746,831, and has declined each year since. This is due to several factors, including the reduced birth rate in Los Angeles County and the increasing cost of living in southern California.

Declining enrollment affects both revenue and expenditures. However, declining enrollment typically causes a more rapid decline in revenue after the first year. This is because declining enrollment districts are essentially “held harmless” for the decline from the previous year. Another contributing factor to the change in revenue and expenditures is the increase in students enrolled in fiscally independent charter schools.

The enrollment projections differentiate between students in fiscally-independent charter and non-charter district schools. This helps the district estimate the impact of fiscally-independent charter schools on the District’s budget. The fiscally-independent charter school data include both schools that have converted from non-charter to fiscally-independent charter school status (“conversion charters”) and schools that began their operation as fiscally-independent charter schools (“start-up charters”).

The chart below shows the district enrollment trends for the past decade. The chart depicts the increase in the number of students enrolled in the independent charter schools in contrast with the decline in the districtwide enrollment in K-12 schools.

3. With the exception of Health and Medical costs, **Employee Benefits** are based on salary estimates and appropriate rates for retirement, workers' compensation, and unemployment. Employer contribution rate to CalSTRS is 16.02%, a decrease of 0.13% from prior year. Employer contribution rate to CalPERS is 22.84%, an increase of 2.14% from prior year. Funding for Employee Health and Medical Benefits is at the Per Participant rate pursuant to the 2018-2020 Health and Welfare Agreement. There is no OPEB Trust contribution for 2021-22.
4. **Other Expenses (4000-6000)** were estimated using the prior year level as the base and adjusted for known changes as shown below:
- a. Inflation on cost of supplies and materials, including utilities and telecommunication of \$2.7 million. Inflation is based on a 1.73% California CPI for 2021-22.
 - b. Includes additional distribution of direct-funded charter schools' share of the Special Education AB602 and Federal IDEA which totals to \$3.1 million

Employer contribution rate to CalSTRS is 18.4%, an increase of 2.38% from prior year. Employer contribution rate to CalPERS is 25.5%, an increase of 2.66% from prior year. 6. **Reserve for Economic Uncertainties** at \$77.8 million is 1% of total General Fund Expenditures and Other Financing Uses.
7. **Indirect Cost Rate** is at 4.2%.
9. **Undesignated Balance** of \$(1,078.2) million is mainly a result of the loss of funding in Prop 98. The current Senate and Assembly agreement on the State's budget rejects the proposed cuts to Prop 98 and instead fully funds LCFF including the 2.31% statutory COLA. With this restoration, the deficit in unassigned/unappropriated amount in 2022-23 will be reduced.

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD MET - Funded ADA has not been overestimated by more than the standard percentage level for the first prior year.

Explanation:
(required if NOT met)

1b. STANDARD MET - Funded ADA has not been overestimated by more than the standard percentage level for two or more of the previous three years.

Explanation:
(required if NOT met)

For 2017-18, actual ADA came a lot lower due to the impact of a lower actual enrollment and higher net Charter ADA shift.

2. CRITERION: Enrollment

STANDARD: Projected enrollment has not been overestimated in 1) the first prior fiscal year OR in 2) two or more of the previous three fiscal years by more than the following percentage levels:

3. CRITERION: ADA to Enrollment

STANDARD: Projected second period (P-2) average daily attendance (ADA) to enrollment ratio for any of the budget year or two subsequent fiscal years has not increased from the historical average ratio from the three prior fiscal years by more than one half of one percent (0.5%).

3C. Comparison of District ADA to Enrollment Ratio to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. **STANDARD NOT MET** - Projected P-2 ADA to enrollment ratio is above the standard for one or more of the budget or two subsequent fiscal years. Provide reasons why the projected ratio exceeds the district's historical average ratio by more than 0.5%.

Explanation:
(required if NOT met)

There was a 6-day teacher strike in 2018-19 that affected attendance for the year. This lowered the historical average to 94% from a usual historical average of 95%.

4. CRITERION: LCFF Revenue

STANDARD: Projected local control funding formula (LCFF) revenue for any of the budget year or two subsequent fiscal years has not changed from the prior fiscal year by more than the change in population, plus the district's gap funding or cost-of-living adjustment (COLA)¹ and its economic recovery target payment, plus or minus one percent.

For basic aid districts, projected LCFF revenue has not changed from the prior fiscal year by more than the percent change in property tax revenues plus or minus one percent.

For districts funded by necessary small school formulas, projected LCFF revenue has not changed from the prior fiscal year amount by more than the district's gap funding or COLA¹ and its economic recovery target payment, plus or minus one percent.

¹ Districts that are already at or above their LCFF target funding as described in Education Code Section 42238.03(d) receive no gap funding. These districts have a COLA applied to their LCFF target, but their year-over-year revenue increase might be less than the statutory COLA due to certain local factors and components of the funding formula.

4A. District's LCFF Revenue Standard

Indicate which standard applies:

The District must select which LCFF revenue standard applies.

Explanation:
(required if NOT met)

The 2020-21 Governor's May Revision Budget proposed a reduction to LCFF of 10% which includes the elimination of the 2.31% statutory COLA. Zero COLA is assumed in 2021-22 and 2022-23. The effective reduction for 2020-21 through 2022-23 is 7.92%.

5. CRITERION: Salaries and Benefits

STANDARD: Projected ratio of total unrestricted salaries and benefits to total unrestricted general fund expenditures for any of the budget year or two subsequent fiscal years has not changed from the historical average ratio from the three prior fiscal years by more than the greater of three percent or the district's required reserves percentage.

6. CRITERION: Other Revenues and Expenditures

STANDARD: Projected operating revenues (including federal, other state, and other local) or expenditures (including books and supplies, and services and other operating), for any of the budget year or two subsequent fiscal years, have not changed from the prior fiscal year amount by more than the percentage change in population and the funded cost-of-living adjustment (COLA) plus or minus ten percent.

For each major object category, changes that exceed the percentage change in population and the funded COLA plus or minus five percent must be explained.

2nd Subsequent Year (2022-23)	769,028,838.00	0.14%	No

Explanation:
(required if Yes)

The variance in 2020-21 and 2021-22 is due to a one-time CARES Act ESSER Funds of \$287.7 million recognized in 2020-21.

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD MET - Unrestricted deficit spending, if any, has not exceeded the standard percentage level in two or more of the three prior years.

Explanation:
(required if NOT met)

Fiscal Year 2019-20 deficit spending is due to the COVID-19 pandemic related expenditures. Most of the revenue, mainly the CARES Act ESSER Funds, will not be recognized until 2020-21 even though most of the pandemic-related expenditures occur in 2019-20

9. CRITERION: Fund Balance

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - Projected available reserves are below the standard in one or more of the budget or two subsequent fiscal years. Provide reasons for reserves falling below the standard and what plans and actions are anticipated to be taken to increase reserves to, or above, the standard.

Explanation:
(required if NOT met)

The deficit in the third year FY 2022-23 is brought about by the loss of funding in Prop 98. The current Senate and Assembly agreement on the State's budget rejects the proposed cuts to Prop 98 and instead fully funds LCFF including the 2.31% statutory cost-of-living adjustment. With this restoration, the deficit amount in the 3rd year FY 2022-23 will be reduced.

(required if NOT met)

1b. NOT MET - The projected transfers in to the general fund have changed by more than the standard for one or more of the budget or subsequent two fiscal years. Identify the amount(s) transferred, by fund, and whether transfers are ongoing or one-time in nature. If ongoing, explain the district's plan, with timelines, for reducing or eliminating the transfers.

Explanation:
(required if NOT met)

The variance in 2020-21 and 2021-22 is due to the one-time transfer of \$225 million in 2020-21 from the Health and Welfare Fund in accordance with the 2019-20 Fiscal Stabilization Fund. The fund transfer represents healthcare savings from the 50-State Medicare Advantage Plan of \$125 million and health benefit savings of \$100 million.

1c. NOT MET - The projected transfers out of the general fund have changed by more than the standard for one or more of the budget or subsequent two fiscal years. Identify the amount(s) transferred, by fund, and whether transfers are ongoing or one-time in nature. If ongoing, explain the district's plan, with timeframes, for reducing or eliminating the transfers.

Explanation:
(required if NOT met)

The higher Transfers Out in 2020-21 is due to the higher encroachment of the Child Development Fund.

1d. NO - There are no capital projects that may impact the general fund operational budget.

Project Information:

ASSUMPTIONS FOR ESTIMATED REVENUES

Enrollment

The Los Angeles Unified School District uses data on live births in Los Angeles County, historical grade retention ratios, economic factors, and other relevant information to project enrollment. Estimated enrollments in grades 1 through 12 are calculated using a variety of scenarios, generally involving weighted and true averages. The grade retention ratio measures the percentage of students expected to progress to the next grade level from one year to the next, based on past trends. Kindergarten enrollments are calculated as a percentage of live births in Los Angeles County from five years earlier.

Estimated Norm Day Enrollment

Non-charter schools	421,150
Locally-funded (affiliated) charter schools	42,389
Direct-funded (fiscally-independent) charter schools*	116,257
Total LAUSD enrollment	579,796

*Not included in the revenue projections for LAUSD

Average Daily Attendance (ADA)

The P-2 ADA for grades K-12 are estimated for the budget year 2020-21 and for the two succeeding fiscal years, 2021-22 and 2022-23, by applying the three-year average percentage of P-2 ADA to enrollment by grade span of the three completed fiscal years 2015-16 through 2017-18. The Annual ADA for grades K-12 are estimated for the budget year 2020-21 and for the two succeeding fiscal years, 2021-22 and 2022-23, by applying the three-year average percentage of Annual ADA to enrollment by grade span of the three completed fiscal years 2015-16 through 2017-18.

The table below shows the estimated funded ADAs that were used as the basis for estimating the 2020-21 LCFF entitlements.

Grade Span	Estimated Funded ADA	
	Non-charter Schools	Locally-funded Charter Schools
K-3	138,678.61	13,017.34
4-6	93,334.21	9,876.74
7-8	57,801.44	6,679.84
9-12	116,322.90	10,895.46
Total	406,137.16	40,469.38

General Fund
Budget Assumptions
Fiscal Year 2020-21

Based on the declining enrollment provision in the California Education Code Section 42238, LAUSD (K-12 non-charter schools) is estimated to be funded at the prior year ADA with adjustments for prior year ADA of students who transferred to and from the District and its charter schools. This provision does not apply to the locally-funded (affiliated) charter schools which are funded at the current year P-2 ADA.

Local Control Funding Formula (LCFF)

The Governor’s 2020-21 May Revision Budget released on May 14, 2020 proposes a reduction of 10% which suspends the statutory cost-of-living adjustment (COLA) of 2.31% and an effective reduction of 7.92% to the 2019-20 base grant amounts. In addition, Targeted Instructional Improvement Grants, Home-to-School Transportation, and Economic Recovery Target which are all LCFF add-on funding for the District will also receive a 10% reduction.

Below are the 2020-21 Adjusted Base Grant Rates per ADA used in the estimation of the LCFF funding.

Adjusted Base Grant Rates per ADA

Grades K-3*	\$7,830
Grades 4-6	\$7,199
Grades 7-8	\$7,412
Grades 9-12*	\$8,813

*Includes grade span adjustments

For the non-charter schools including the district-funded county program students, the three-year average unduplicated pupil count is estimated at 369,385 and the corresponding three-year average percentage to total enrollment is 84.92%. The locally-funded charter schools’ percentage of unduplicated student count to enrollment was calculated separately by school.

LAUSD’s LCFF estimates for fiscal year 2020-21 are detailed below. The estimated LCFF entitlements for the locally-funded charter schools were calculated separately for each school but are shown as totals below.

	Non-charter schools	Locally-funded charter schools	Total
Local Property Taxes	\$1,288,711,569	\$118,953,267	\$1,407,664,836
Education Protection Act	707,527,928	48,941,880	756,469,808
State Aid	2,725,154,098	191,161,781	2,916,315,879

Section IV

INTRODUCTION

LAUSD’s budget is large and complex. The chart below shows the hierarchy of LAUSD’s fund structure based on California’s Standardized Account Code Structure (SACS). This will guide and help the reader understand the LAUSD’s budget and its various components.

The following pages in this section are designed to look at LAUSD’s fund structure from the overall total budget drilling down to the General Fund, which is the largest Operating Fund of LAUSD. Therefore, this section of the budget overview will focus on the General Fund.

THE TOTAL BUDGET

As required by California law, LAUSD’s budget is classified and reported by “fund”. The funds are categorized and grouped based on the use of the funds as follows:

1. **Operating Funds**, as discussed further below, is composed of the General Fund, Adult Education Fund, Child Development Fund, and Cafeteria Fund. The total Operating Funds for fiscal year 2020-21 is \$8.9 billion. These funds are used for the day-to-day operation of LAUSD schools and offices.
2. **Capital Projects Funds** total to \$2.8 billion and account for the acquisition or construction of capital facilities. The funding comes primarily from the sale of voter-approved bonds. These funds may not be used for the general day-to-day operations, as voters approved them for specific capitalized projects which will benefit current and future students.
3. **Internal Service Funds** total to \$1.6 billion and are used for the payment of employee health and welfare benefits, workers’ compensation, and liability insurance. The majority of funds accumulated in the Internal Service Funds come from funds generated by positions funded in the other funds. For example, *the cost of a teacher’s health and welfare benefits* funded by the General Fund is transferred from the General Fund to the Health and Welfare Fund, which is one of the Internal Service Funds.
4. **Debt Service Funds** total to \$0.9 billion and are used for the payment of interest and principal of long-term bonds.
5. **Fiduciary Fund** totals to \$0.4 million and is composed of the Other Post-Employment Benefit (OPEB) Fund. This fund is dedicated for the health and welfare benefits of future retirees of LAUSD.

Figure 1: 2020-21 TOTAL BUDGET (ALL FUNDS) = \$14.2 BILLION
(amounts in billions)

OPERATING FUNDS

As shown on the hierarchy of funds, the Operating Funds category is broken down into the following four individual funds:

1. **General Fund** - includes funds for the basic instructional and administrative expenditures of the District
2. **Cafeteria Fund** - includes funds for the food service programs
3. **Child Development Fund** - includes funds dedicated for the operation of the Early Childhood Education program
4. **Adult Education Fund** - includes funds dedicated for the operation of the Adult Education program.

An instructional program such as the Early Childhood Education may cost more than the revenue it generates. Therefore, a support from the General Fund is necessary. This is also true for operational programs such as the ones offered by the Food Services Division.

Figure 2: 2020-21 OPERATING FUNDS = \$8.9 BILLION

(amounts in millions)

GENERAL FUND

The \$8.17 billion General Fund includes “unrestricted” and “restricted” funds.

- Unrestricted General Fund – These are funds such as the Local Control Funding Formula (LCFF) Base Grant portion and one-time Mandated Cost Block Grant that can be used for any general-purpose expenditure.
- Restricted General Fund – These are funds such as the AB 602 Special Education and Title I funds that must be used for specific purposes.

The General Fund is further broken down into “District-defined Programs” as shown below.

General Fund’s District-defined Program	Unrestricted	Restricted
General Program	✓	
Special Education Program		✓
Regional Occupational Program	✓	
Ongoing and Major Maintenance Account		✓

Some district-defined programs within the General Fund may also need support. An example is the Special Education Program which is subsidized by the General Program (unrestricted). The support for the Special Education Program from the General Program is called an “inter-program transfer”, where the transfer of funds occur *between District-defined programs* within the General Fund.

DESCRIPTION OF FUNDS

California State law requires school districts to organize their financial reporting by “fund”. The California School Accounting Manual (CSAM), which governs school district budgeting and accounting processes in California, defines “fund” as an accounting entity with a self-balancing set of accounts recording financial resources and liabilities. It is established to carry on specific activities or to attain certain objectives of a Local Educational Agency (LEA) in accordance with special regulations, restrictions, or limitations.” (Section 101, December 1998).

LEAs such as the Los Angeles Unified School District are required to budget by fund. The Proposed Budget is comprised of a General Fund and 23 special funds. The uses of these funds are summarized below.¹

OPERATING FUNDS

*Fund 010: **General Fund*** is used to account for the basic instructional, support, and administrative operations of the District. The General Fund includes services to regular K-12 schools, the special education program, and other programs. The General Fund supports and accounts for both restricted and unrestricted funding sources and expenditures. The restricted sources are summarized in the Restricted General Fund section of this document.

*Fund 110: **Adult Education Fund*** is used to account separately for federal, state, and local revenues for adult education programs, as well as for expenditures that support this program. Expenditures in the Adult Education Fund are limited to those for adult education purposes. Moneys received for programs other than adult education may not be expended for adult education purposes (Education Code §52616[b]).

*Fund 120: **Child Development Fund*** is used to account for federal, state, and local revenues to operate child development programs. In the Los Angeles Unified School District, the Child Development Fund supports the activities of the Early Childhood Education Centers that operate throughout the District. This fund may be used only for expenditures for the operation of child development programs and may be subsidized by the General Fund as well.

*Fund 130: **Cafeteria Fund*** is used to account for federal, state, and local resources to operate the District’s food service program (Education Code §38091 and §38100).

¹ Definitions reflect the California School Accounting Manual descriptions where available, augmented by information from the District budget and the District’s 2018-19 Audited Annual Financial Report to reflect specific District use of various funds

CAPITAL PROJECTS FUNDS

Building Funds exist primarily to account for proceeds from the sale of bonds (Education Code §15146). Expenditures are most commonly made against Object 6000 – Capital Outlay accounts. As the result of the passage of multiple bond elections, the District operates six separate Building Funds.

Fund 210: Building Fund – Measure R accounts for the proceeds resulting from the passage of Measure R, a local school bond measure approved by the voters in March 2004, for new school construction and repairs to existing schools.

Fund 211: Building Fund – Proposition BB accounts for the proceeds resulting from the passage of Proposition BB, a local school bond measure approved by the voters in April 1997 for construction of new schools and repair and modernization of existing schools.

Fund 212: Building Fund accounts for proceeds from the sale of bonds prior to 1997, as well as state allowances and other resources designed for facilities expansion.

Fund 213: Building Fund – Measure K accounts for the proceeds resulting from the passage of Measure K, a local school bond measure approved by the voters in November 2002, for new school construction and repair and modernization of existing schools.

Fund 214: Building Fund – Measure Y accounts for the proceeds resulting from the passage of Measure Y, a local school bond measure approved by the voters in November 2005, for school construction and modernization, with the goal of returning all schools to a traditional calendar.

Fund 215: Building Fund – Measure Q accounts for the proceeds resulting from the passage of Measure Q which was a local school bond measure approved by the voters in November 2008 to fund critical repair and safety needs, create science labs and other specialized classrooms necessary to teach courses that would help students get into college or start careers after they graduate, and help create classrooms that are up to date in technology and high speed internet.

Fund 250: Capital Facilities Account Fund accounts for resources received from developer fees levied upon new residential, commercial, or industrial development projects within the District's boundaries. The dollars are used to obtain funds for the construction or acquisition of school facilities to relieve overcrowding.

Fund 300: State School Building Lease-Purchase Fund accounts for state apportionments received in accordance with California Education Code §17700-17780, primarily for relief of overcrowding.

Fund 351: County School Facilities Fund account for revenues and expenditures resulting from building projects funded primarily or in part from state bond elections or from matching funds. The District used to operate four separate County School Facilities Funds. In 2013-14, these four funds shown below were consolidated into one single County School Facilities Fund.

County School Facilities Fund - 1A accounts for school construction and modernization funds received from proceeds resulting from the passage of Proposition 1A in 1998, as well as for local matching funds.

County School Facilities Fund – Proposition 47 accounts for apportionments received from the State School Facilities Fund. The passage of Proposition 47 in November 2002 authorized the sale of bonds for new school facility construction, modernization projects, and facility hardship grants.

County School Facilities Fund – Proposition 55 accounts for the matching funds received as a result of the passage of Measure R. Proposition 55 was passed by the voters in March 2004.

County School Facilities Fund – Proposition 1D provides funding from the Kindergarten- University Public Education Facilities Bond Act of 2006. Proposition 1D was approved by the voters in the November 2006 general election. Funds provide additional dollars for existing school facilities programs. Funds also provide new dollars for seismic mitigation of the most vulnerable school facilities, creation of career technical education facilities, reduction of severely overcrowded sites, and incentives for the construction of high-performance “green” schools.

Special Reserve Funds for Capital Outlay Projects provide for the accumulation of General Fund moneys for capital outlay purposes (Education Code §42840). Transfers authorized by the governing board must be utilized for capital outlay purposes. The District operates four Special Reserve Funds:

*Fund 400: **Special Reserve Fund – Community Redevelopment Agency*** accounts for reimbursements of tax increment revenues from certain community redevelopment agencies based on agreements between the District and the agencies. The reimbursements are to be used for capital projects within the respective redevelopment areas covered in the agreements.

*Fund 401: **Special Reserve Fund*** accounts for District resources designated for capital outlay purposes such as land purchases, ground improvements, facilities construction and improvements, new acquisitions, and related expenditures.

*Fund 402: **Special Reserve Fund – FEMA – Earthquake*** accounts for funds received from the Federal Emergency Management Agency (FEMA) for capital outlay projects resulting from the January 17, 1994 Northridge earthquake.

*Fund 403: **Special Reserve Fund – FEMA – Hazard Mitigation*** accounts for funds received from FEMA and for the 25% District matching funds for the retrofit/replacement of pendant lighting and suspended ceilings in selected buildings at schools, offices, and Early Childhood Education Centers.

DEBT SERVICE FUNDS

*Fund 510: **Bond Interest and Redemption Fund*** accounts for the payment of the principal and interest on Proposition BB and Measures K, Q, R, and Y bond issues. Revenues are derived from ad valorem taxes levied upon all properties subject to tax by the District.

*Fund 530: **Tax Override Fund*** accounts for the accumulation of resources from ad valorem tax levies for the repayment of State School Building Aid Fund apportionments.

*Fund 560: **Capital Services Fund*** accounts for the accumulation of resources for the repayment of principal and interest on certificates of participation (COPs) and long-term capital lease agreements. Revenues are derived primarily from operating transfers from user funds and investment income.

INTERNAL SERVICE FUNDS

*Fund 670: **Health and Welfare Benefits Fund*** pays for claims, administrative costs, insurance premiums, and related expenditures for the District's Health and Welfare Benefits program. Medical and dental claims for the self-insured portion of the Fund are administered by outside claims administrators. Premium payments to Health Maintenance Organizations for medical benefits and to outside carriers for vision services, dental services, and optional life insurance are also paid out of this Fund.

*Fund 671: **Workers' Compensation Self-Insurance Fund*** pays for claims, excess insurance coverage, administrative costs, and related expenditures. An outside claims administrator manages Workers' Compensation claims for the District.

*Fund 672: **Liability Self-Insurance Fund*** pays for claims, excess insurance coverage, administrative costs, and related expenditures, and to provide funds for insurance deductible amounts. An outside claims administrator manages liability claims for the District.

FIDUCIARY FUND

*Fund 713: **Other Post-employment Benefits (OPEB) Fund*** accounts for resources to be distributed to a trust account for employees' Other Post-employment Benefits.

Student Body Fund at the school sites account for cash held by the District on behalf of the student bodies. The CSAM does not require that Student Body Fund moneys be reported to CDE as part of the District's budget. However, it must be included in the audited financial statements to meet GAAP reporting requirements.

SOURCES AND USES OF FUNDS

SOURCES OF FUNDS

Beginning Balance

This section of the financial statements basically reflects the ending balance of the prior year. In addition, it may include adjustments due to audit or restatements of amounts.

Revenue

This section entails the various types of revenues received. They are classified based on the source of funds such as the Local Control Funding Formula, federal, state, and local revenues. For example, entitlements or grants coming from the federal government such as the Federal IDEA and Title I are included under federal revenues; while entitlements or grants coming from the state such as the Special Education funding AB 602 is included in the state revenues. It may also include inter-fund transfers-in from other funds.

USES OF FUNDS

Expenditure

This section reflects the amounts of funds spent or to be spent based on the type of expenditure which are called the objects of expenditures. These may be certificated and classified employees' salaries, employee benefits, books and supplies, contracts, and capital outlay. It may also include inter-fund transfers-out to other funds.

- *Certificated Salaries* include salaries for positions that require a credential or permit issued by the Commission on Teacher Credentialing such as salaries of school administrators, teachers, librarians, counselors, nurses, and certificated central office administrators.
- *Classified Salaries* include salaries for positions that do not require a credential or permit issued by the Commission on Teacher Credentialing such as salaries of instructional aides, school administrative assistants, bus drivers, carpenters, custodians, plumbers, and those non-certificated employees who supervise their work.
- *Employee Benefits* include employers' contributions to retirement plans and health and welfare benefits for employees, their dependents, retired employees, and board members; and other post-employment benefits.
- *Books and Supplies* include the cost of textbooks, instructional materials, general supplies, and fuel.

- *Services and Other Operating Expenses* include the cost of contracts, travel and conferences, dues and memberships, utilities, rentals, leases, repairs, and professional or consulting services.
- *Capital Outlay* includes the cost of facilities (land and buildings), books and media for new libraries or major expansion of school libraries, equipment, and equipment replacement. Most of LAUSD's capital outlay costs are in bond funds devoted specifically to school construction and modernization.
- *Other Outgo* includes pass through of apportionments to county-educated LAUSD-resident students, transfers of taxes to direct-funded (fiscally-independent) charter schools, bond redemptions, and bond interest and other service charges.

Ending Balance

This section entails the ending fund balance for the fiscal year which are classified into various categories. GASB 54 implemented a five-tier fund balance classification that sets the parameters and spending constraints as to use of funds.

- *Non-spendable Fund Balance* consists of funds that cannot be spent due to their form. These include inventory and prepaid items or funds that are legally or contractually-required to remain intact, such as the principal of a permanent endowment.
- *Restricted Fund Balance* consists of funds that are subject to externally-imposed and legal constraints.
- *Committed Fund Balance* consists of funds that are subject to internal policies and constraints. These policies are self-imposed by the District's highest level of decision-making authority.
- *Assigned Fund Balance* consists of funds that are intended to be used for a specific purpose by the district's highest level or an official with the authority to assign funds.
- *Unassigned Fund Balance* consists of residual fund balance that has not been classified in the previous four categories. It represents resources available for future spending.

HOW EDUCATION IS FUNDED IN CALIFORNIA

Prior to the 1970s, California's schools were financed largely with property tax revenues imposed for the benefit of local school districts. This led to dramatic differences in school district funding. A school district with very high property values could raise more revenue per pupil with a low property tax rate, while a district with low property values could raise less with a much higher property tax rate. The state attempted to reduce these differences by providing more state aid to low-property wealth districts. Despite this effort, per pupil revenues varied considerably between districts. In fiscal year 1968-69, for example, per pupil expenditures ranged from \$577 in Baldwin Park to \$1,232 in Beverly Hills.¹ This disparity led to the important *Serrano v. Priest* (1976) equal protection litigation, which was resolved through statutory enactments that called for a general equalization of state apportionment revenue to school districts.

In 1978, voters approved Proposition 13. The new law limited property tax rates to 1 percent of a property's assessed value at the time of acquisition. Proposition 13 reduced property tax revenues available for local governments and school districts. To cushion the impact to school districts, the state Legislature shifted state dollars to schools.

With the adoption of Proposition 98 (1988) and Proposition 111 (1990), a minimum funding level from State and local property taxes was provided to K-14 public schools. California schools today receive the large majority of their funding from the State, primarily from income and sales tax revenues. To a much lesser extent, districts also receive some local property revenues that are collected at the local level but distributed by the State. Income and sales taxes are more volatile revenue sources than property taxes. When the economy sours, unemployment rises, leading to fewer purchases. This correspondingly leads to less income and goods to be taxed. As a result, fewer dollars become available for schools.

California school districts therefore face dramatic cyclical funding variations as the economy rises and falls. Further, California's Governor and State Legislature, whose vote on the State Budget Act determines how State funds may be spent, have enormous control over the ability of local school districts to utilize funding to meet the specific needs of their students. Approximately 60% of all school district funds in California are general purpose in nature; the remaining 40% are restricted to specific purposes, such as the needs of special education students, low income students, limited English-proficient students, and specific grade levels. This greatly constrains local boards of education in their spending decisions. They are further constrained in their ability to raise taxes independently of the State. Bond issues, usually limited to building programs, require a 55% vote for passage. Parcel tax measures require a 2/3 vote.

In 2013, the Governor proposed revising the state's allocation formula for school districts to increase flexibility at the local level. This proposal is known as the Local Control Funding Formula (LCFF). Under LCFF, the state provides a base grant for all students and additional grants for high-need students such as English Learners and socio-economically disadvantaged pupils.

¹ California Budget Project, *School Finance in California and the Proposition 98 Guarantee* (April 2006).

The following provides information on legislation and court rulings that have significantly affected California's funding for education.²

Senate Bill 90 (1972) – In 1972, the Legislature established revenue limits for California public schools. The legislation placed ceilings on the amount of tax money each district could receive per pupil. This was in order to help reduce the wide differences in school funding between high and low property-wealth districts. The 1972-73 general purpose spending level became the base amount in determining each district's annual revenue limit.

Serrano v. Priest (1976) – This 1976 California Supreme Court decision declared the existing system of financing schools unconstitutional because it violated the equal protection clause of the State Constitution. The Court ruled that property tax rates and per pupil expenditures should be equalized and that, by 1980, the difference in revenue limits per pupil should be less than \$100 (the "Serrano band"). This allowable difference in revenue limits has subsequently been adjusted for inflation. In equalizing funding, districts are divided into three types: elementary, high school, and unified. They are then further divided into small and large districts to ensure that appropriate funding comparisons are made. Special purpose or "categorical" funds are excluded from this calculation.

Assembly Bill 65 (1977) – In response to the *Serrano* decision, the California State Legislature passed AB 65, creating an annual inflation adjustment based on a sliding scale in order to equalize revenue limits among districts over time. Higher inflation increases were provided to districts with low revenue limits, with lower (occasionally no) inflation adjustments for high revenue districts.

Proposition 13 (1978) – This constitutional amendment (the "Jarvis Amendment") approved by California voters in 1978 limits property taxes to 1% of a property's assessed value, and caps increases in assessed value at 2% annually or the percentage growth in the Consumer Price Index, whichever is less. It also mandated a 2/3 vote for approval of new taxes, such as parcel taxes.

Assembly Bill 8 (1978) – In response to Proposition 13, the Legislature established a formula for dividing property taxes among cities, counties, and school districts. This shielded schools from some of the measure's effects. In the process, the State replaced the lost property taxes and effectively took control of school district funding.

Gann Limit (Proposition 4, 1979) – Proposition 4 created a constitutional limit on government spending at every level in the State, including school districts. No agency's expenditures can exceed its Gann Limit, which is adjusted annually for inflation and population increase.

Senate Bill 813 (1983) – SB 813 provided additional money to school districts through equalization of revenue limits and new categorical programs, longer school day/year, and higher beginning teachers' salaries. It also established statewide model curriculum standards.

Lottery Initiative (1984) – In November 1984, voters approved Proposition 37, a constitutional amendment establishing the California State Lottery. Provisions guarantee that a minimum of 34% of total lottery receipts be distributed to public schools, colleges, and universities. Funds are to supplement, not replace, State support for education. Lottery funds cannot be used for purchase or construction of

² Many of these rulings have been amended by subsequent legislations.

facilities, for land, or research. Under Proposition 20, passed in March 2000, 50% of lottery funding above the 1997-98 funding level must be used for purchase of instructional materials.

Proposition 98 (1988) – This constitutional amendment guarantees a minimum funding level from State and property taxes for K-14 public schools in a complex formula based on State tax revenues. It also requires each school to prepare and publicize an annual School Accountability Report Card (SARC) that covers at least 13 required topics. A 2/3 vote of the Legislature and the Governor’s signature are required to suspend Proposition 98 for a year.

Proposition 111 (1990) – This constitutional amendment changed the inflation index for the Gann Limit calculation, effectively raising the limit. Additionally, the minimum Proposition 98 funding guarantee was changed to reflect the growth of California’s overall economy. It did so by shifting the adjustment from the growth of per capita personal income (which historically has tended to be a lower amount) to the growth in State per capita General Fund revenues plus one-half percent.

Assembly Bill 1200 (1991) – AB 1200 established a system for school district accounting practices that specifies how districts must report their revenues and expenditures. It requires that districts project their fiscal solvency two years out, and provide the State with Board-approved financial interim reports twice annually. County offices of education are responsible for monitoring and providing technical assistance to their districts. AB 2756 (2004) adds to the responsibilities and control of county offices of education over the budget and expenditure reporting of local districts.

Class Size Reduction, K-3 (SB 1777, 1996) – This legislation provided incentives for school districts to reduce K-3 classes to a pupil-teacher ratio of no more than 20 to 1, and provided additional funding to districts that met these ratios. A one-time allocation of \$25,000 per added classroom was also made available.

Senate Bill 1468 (1997) – This legislation changed the way average daily attendance (ADA) is counted, largely eliminating the concept of “excused absences” and basing ADA on students who are actually at school. To ensure that districts did not lose a large proportion of their revenue, the per-pupil revenue limit rate was adjusted by the average attendance rates of each individual school district.

Assembly Bill 602 (1997) – This legislation revised the state’s allocation formula for special education funding for school districts. The formula distributes a large share of special education funds based on total student population of each school district, rather than the number of special education students at each district or the specific needs of those students.

Assembly Bill 1115 (1999) – Under the terms of this bill, an independent charter school is deemed a school of the chartering school district for the purposes of establishing its special education local plan (“SELPA”) status unless it designates otherwise in its charter petition. As such, independent charter schools which are members of a school district’s SELPA are entitled to an equitable share of special education services and funding.

Assembly Bill 1600 (1999) – This bill gave charter schools the option to receive funding directly from the State, rather than from their local district, in the form of a block grant.

Proposition 39 (2000) – This constitutional amendment established a 55% vote threshold for the issuance of school facilities construction bonds. In order to issue bonds under Proposition 39, the District must, among other things, use Proposition 39 bond funds only for those projects specifically listed in the ballot

measure and strategic execution plans; create and maintain a citizens' bond oversight committee; and annually ensure that performance and financial audits are conducted for Proposition 39 facilities projects. Proposition 39 also requires the District to offer reasonably equivalent District school facility space to independent charter schools.

Proposition 49 (2002) – This voter initiative, otherwise known as the "The After School Education and Safety Program Act of 2002," increased state funding for before and after school programs at elementary and middle schools. Funding is provided to the District through a competitive grant process with priority given to school sites that have at least 50 percent of its students receiving free and reduced priced lunch. A portion of state funding under Proposition 49 satisfies the revenue limit guarantee under Proposition 98.

Assembly Bill 825 (2009) – Under the terms of this bill, the District receives funding for its Integration Program and for other instructional program needs as part of a Targeted Instructional Improvement Block Grant.

Senate Bill 1133 (Quality Education Investment Act of 2006) – Adopted in 2006 as a settlement of the CTA v. Schwarzenegger et al. lawsuit, the QEIA program provides targeted funding for eligible schools in API deciles 1, 2, and 3. The funding is to be used primarily for class-size reduction purposes and overall academic achievement goals. QEIA ended in fiscal year 2016-17.

Education Trailer Bill - Senate Bill 4 of the 2009-10 Third Extraordinary Session (SBX3 4, 2009) – For fiscal years 2008-09 through 2012-13, this bill established: (1) Categorical Program Flexibility, which grouped categorical programs into Tiers I, II, and III, and identified Tier III programs as unrestricted; (2) the public hearing requirement as a condition for receipt of Tier III funds; (3) the use of 2008-09 as the base year in calculating for most of the Tier III categorical programs and use of 2007-08 as the base year for calculating the revenue limit-related Tier III categorical programs; and (4) the use of June 30, 2008 ending balances as unrestricted funds with a few program exceptions. See the glossary for additional details on Tiers I, II, and III programs. In addition, SBX3 4 relaxed K-3 Class Size Reduction penalties for fiscal years 2008-09 through 2011-12 only.

Proposition 30 (2012) – The initiative passed on November 2012 provides for a [personal income tax](#) increase over seven years for California residents with an annual income over \$250,000, through the end of 2018. This also provides for an increase in [sales tax](#) by 0.25 percent over four years (from January 1, 2013 through December 31, 2016). This initiative funds K-12 public education among other purposes.

Local Control Funding Formula (2013) – This legislation simplified the state's funding allocation formula for school districts. The new funding formula intends to increase transparency for state funding to schools and increase decision-making as to expenditure of funds at the local education agency level. Under LCFF, the state provides a base grant for all students and additional grants for high-need students such as English learners, low income, and foster youth.

Proposition 39 (2013) – The California Clean Energy Jobs Act changed the corporate income tax code and allocates projected revenue to the state General Fund and the Clean Energy Job Creation Fund for five fiscal years beginning 2013-14. Under the initiative, available funds are to be used for eligible projects to improve energy efficiency and expand clean energy generation in schools. School Districts can request funding by submitting an application to the California Energy Commission.

Proposition 55 (2016) - Extends by twelve years the temporary personal income tax increases enacted in 2012 (Proposition 30) on earnings over \$250,000, with revenues allocated to K-12 schools, California Community Colleges, and, in certain years, healthcare. Proposition 55 will raise tax revenue by between \$4 billion and \$9 billion a year. Half of funds will go to schools and community colleges, up to \$2 billion a year would go to Medi-Cal, and up to \$1.5 billion will be saved and applied to debt.

LOCAL CONTROL FUNDING FORMULA

Up until fiscal year 2012-13, the Revenue Limit was the basic and the largest financial support for District activities. In fiscal year 2013-14, Governor Jerry Brown implemented the new State funding formula for local education agencies called Local Control Funding Formula (LCFF). AB 97 was enacted, amending California Education Code 42238.07 which relates to education finance. The goal of LCFF is to significantly simplify how state funding is provided to local education agencies (LEAs), to create transparency of funding, and to grant local control of funds.

The LCFF eliminated the Revenue Limit and most of the state categorical program funding streams. The categorical programs that were folded in the LCFF are not bound by the program compliance requirements that existed before the implementation of LCFF. Below is a list of categorical programs participated in by LAUSD that are now folded in the LCFF.

Unlike the Revenue Limit which was largely based on COLA and average daily attendance (ADA), the LCFF includes several variables to calculate an LEA’s entitlement. These are ADA, COLA, enrollment, unduplicated pupil count, and gap funding percentage.

To familiarize one’s self with the LCFF calculation, it would help to know the definitions of the various terminologies used in LCFF. Below are the various terminologies and their brief definitions in the order as they are encountered in the formula.

Grade Span	LCFF funding uses grade span ADAs such as K-3, 4-6, 7-8, and 9-12. Transition Kindergarten (TK) is included in the Kindergarten enrollment.
Average Daily Attendance (ADA)	The change in the reporting of ADA was driven by the LCFF formula where ADAs are summed into grade spans of K-3, 4-6, 7-8, and 9-12. LCFF uses the ADA of students from the beginning of the school year to the school month ending on or before April 15th of a fiscal year. This period of attendance is called the Second Principal Apportionment (P-2) ADA. After adjusting LAUSD’s prior year ADA for students who transferred to and from LAUSD and charter schools, Education Code 42238.5 allows school districts to use the larger of the current year or prior year’s P-2 ADA; while charter schools use the current year’s P-2 ADA. A small portion of the funded ADA comes from the Annual ADA, i.e., ADAs from the beginning to the end of the school year. The ADAs are sub-totaled by grade span which is multiplied by the corresponding funding rates per ADA.

Cost of Living Adjustment (COLA)	This is a percentage calculated by the State and is based on the Implicit Price Deflator as of the month of May prior to the beginning of each fiscal year. The LCFF rates per ADA are increased annually to reflect the COLA.
Base Grant Per ADA	Each Base Grant Per ADA is composed of a base rate per ADA plus COLA. The Base Grant Per ADA is unique for each of the grade span and is applied to the respective grade span ADA to calculate the initial Base Grant Funding. For grades K-3, the Base Grant Per ADA includes the K-3 Grade Span Adjustment. The State provides an additional 10.4% of the initial K-3 Base Grant as funding for K-3 Class Size Reduction. For grades 9-12, the Base Grant Per ADA includes the 9-12 Career Technical Education (CTE) Adjustment. The State provides an additional 2.6% of the initial 9-12 Base Grant as funding for CTE.
Base Grant Funding	The Base Grant Funding is the result of multiplying the Base Grant Per ADA of each grade span by the funded ADAs of each respective grade span.
Enrollment	This refers to the total count of K-12 students enrolled as of the fall Census Day (first Wednesday in October).
Targeted Disadvantaged Students/Unduplicated Pupils	The unduplicated student count refers to pupils who are identified as either English Learner, met the requirements for free or reduced-priced meals, or in foster care. A student falling into one or more of the criteria mentioned is counted once even if the student meets more than one of the criteria; hence, the term unduplicated pupil count. All pupil counts are based on Fall 1 certified enrollment reported in the California Longitudinal Pupil Achievement Data System (CALPADS) as of fall Census Day (first Wednesday in October).
Unduplicated Pupil Percentage	This is calculated by dividing the total unduplicated pupil count by the total enrollment, and is used in the calculation of the Supplemental and Concentration Grant Funding. With the assumption of LCFF beginning in fiscal year 2013-14, this is expressed as an “average” percentage, i.e., for fiscal year 2014-15, 2-year average; for fiscal year 2015-16, a 3-year average; and for fiscal years 2016-17 and on, a 3-year average of the last three fiscal years including the current fiscal year.

Supplemental Grant Funding	Every Targeted Disadvantaged Student generates additional funding above the Base Grant Funding through the Supplemental Grant Funding. For each grade span, this is calculated by multiplying the Base Grant Funding by the Unduplicated Pupil Percentage times 20%.
Concentration Grant Funding	In addition to the Supplemental Grant Funding, school districts that have unduplicated pupil percentage greater than 55% are entitled to the Concentration Grant Funding. For each grade span, this is calculated by multiplying the Base Grant Funding by the Unduplicated Pupil Percentage in excess of 55% times 50%.
Allowance and Add-On Funding	For LAUSD, this includes the Targeted Instructional Improvement Block Grant (TIIBG) and the Home-To-School Transportation in the amounts received in fiscal year 2012-13.
LCFF Target Entitlement	The LCFF Target Entitlement is the sum of the Base Grant Funding, Supplemental Grant Funding, Concentration Grant Funding, and Allowance and Add-on Funding. It is recalculated for each of the implementation year based on the current fiscal year's funded ADA and COLA.
Floor Entitlement	This represents the minimum amount an LEA may receive for a LCFF fiscal year. This is composed of the following: 1) the 2012-13 Revenue Limit per ADA times the current year funded ADA, 2) total amount of the 2012-13 Categorical Programs that were folded into LCFF, and 3) the prior year cumulative gap rates per ADA times the current year funded ADA.
Current Year Gap	This is the difference between the Target Entitlement and the Floor Entitlement. If the Target Entitlement is greater than the Floor Entitlement, the LEA has not reached its full LCFF implementation entitlement. Hence, there is still a gap or a need to reach full implementation. Otherwise, the LEA will be funded based on the Target Entitlement and is deemed to have reached the full implementation amount of LCFF.
Statewide Gap Funding Rate	Based on the State's available resources, the Gap Funding Rate is set at the State level and is used to calculate the Current Year Gap Funding.

Current Year Gap Funding	This represents the “funded” portion of the gap between the Target Entitlement and the Floor Entitlement, and is funded incrementally each fiscal year until full funding of the Target Entitlement is realized.
Economic Recovery Target	It is the difference between the amount a school district or charter school would have received under the old funding system (Revenue Limit, Charter School Block Grants, and Categorical Programs) and the estimated amount it would receive for LCFF funding in 2020–21, based on certain criteria. This is not applicable to LAUSD because only school districts and charter schools that were at, or below, the 90th percentile of per-pupil funding rates of school districts under the old funding system as determined at the 2013-14 P-2 certification, are eligible for ERT payments.
Transition Funding	This represents the amount of LCFF entitlement a LEA receives for the fiscal year. If the Target Entitlement has not been realized, each current year’s LCFF funding is composed of the Floor Entitlement and the Current Year Gap Funding. If the Target Entitlement has been realized, the Transition Funding is the Target Entitlement. The Transition Funding is funded through: 1) local property taxes, 2) the Education Protection Act (EPA) which was enacted by Proposition 30 in November 2012, and 3) state aid. The portion of the Transition Funding that is not funded by local property taxes and EPA is funded by state aid.

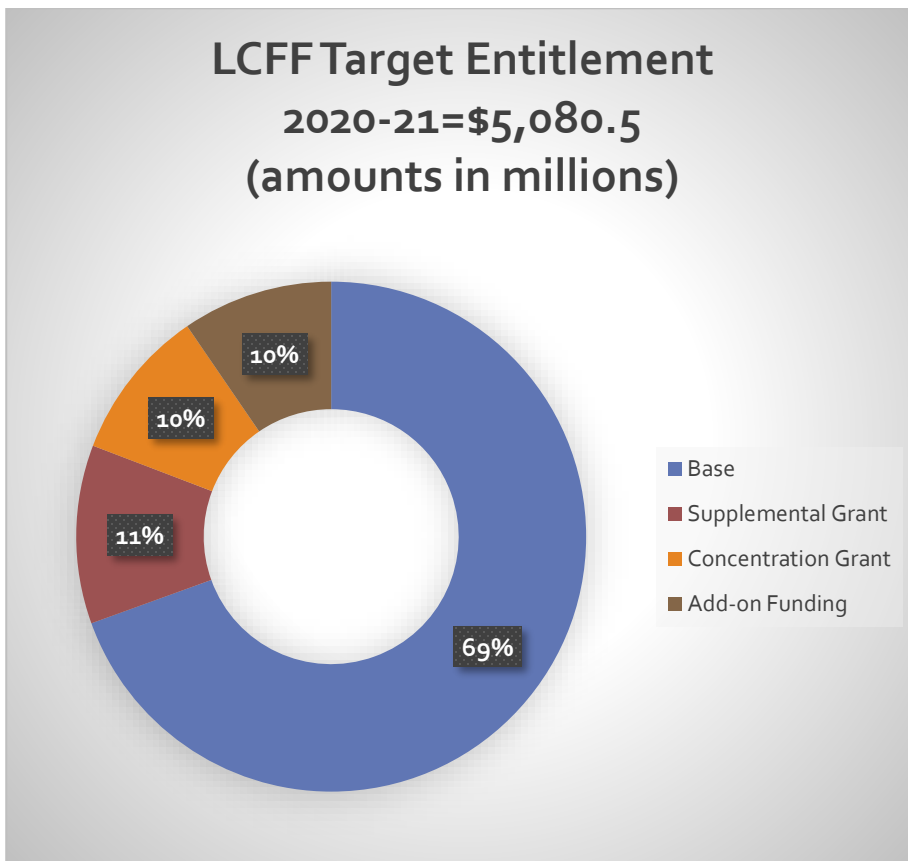

The 2018-19 Enacted State Budget fully implemented the LCFF and closed the funding gap. Since then, local educational agencies are funded on their Target Entitlement.

As a condition of receiving the K-3 Grade Span Adjustment, LAUSD is required to maintain an average K-3 class size enrollment of not more than 24 pupils or a collectively-bargained alternative class size at each school site. Failure of one school site to maintain the maximum average K-3 class size of 24:1, will jeopardize the whole K-3 Grade Span Adjustment funding. On the other hand, charter schools do not have to maintain or make progress toward the required average class size of 24 pupils.

The Supplemental and Concentration Grant Funding are dependent on an LEA’s number of unduplicated student count, specifically, the percentage of the unduplicated count to total enrollment. And although LCFF funding is considered unrestricted, the Supplemental and Concentration Grant Funding are earmarked to be spent on the Targeted disadvantaged student population. LEAs are required to specify on the Local Control and Accountability Plan (LCAP), the amount of expenditures for the Targeted Disadvantaged Student population. Proposed investments to support targeted youth can be found on Section II -23 and II - 24.

The Governor’s 2020–21 Proposed Budget included an increase of \$1.2 billion in Proposition 98 funding for the LCFF reflecting the 2.29% COLA. This brought LCFF funding to \$64.2 billion. With the COVID-19 outbreak few months after, a pandemic was declared worldwide and “stay-at-home” order was issued by Governor Newsom in mid-March for California. The economic interruption caused by the COVID-19 pandemic resulted to a drastic revenue decline and now the State faces a deficit of \$54 million as reflected in the Governor’s 2020-21 May Revision Budget. In order to balance the state budget, LCFF now faces a total cut of 10% or \$6.5 billion absent additional federal funding. The May proposal suspends the 2.31% statutory COLA and implements an effective reduction of 7.92% from the base grant. In addition, all other LCFF add-on funding such as Targeted Instructional Improvement Grant, Home-to-School Transportation, and Economic Recovery Target are receiving a 10% cut as well.

Below is a graph that shows LAUSD’s LCFF Target Entitlement by component for the K-12 schools including affiliated charter schools.

BUDGET PRINCIPLES AND PROCESS

A. Principles of Budgeting and Accounting

The California School Accounting Manual and the California Education Code govern budget development for California school districts, and their standards form the basis for development of the District's Adopted Final Budget. Among these standards are:

Basis for Accounting. The California School Accounting Manual mandates that districts use either the accrual basis or the modified accrual basis in accounting for revenues and expenditures. The difference between the two is as follows:

- In the *Modified Accrual Basis*, revenues are recognized in the period when they become available and measurable, and expenditures are recognized when a liability is incurred, regardless of when the receipt or payment of cash takes place. School districts use the modified accrual basis in accounting for governmental funds such as the General Fund and Adult Education Fund.
- In the *Accrual Basis*, revenues are recorded when earned, and expenditures are recorded when a liability is incurred, regardless of when the receipt or payment of cash takes place. School districts use the accrual basis in proprietary funds such as Self-Insurance Funds.

Basis for Budgeting. The California School Accounting Manual also mandates the basis for school district budgeting. It requires that "generally, for California (school districts), the basis of budgeting should be the same as the basis of accounting used in the audited financial statements. Budgetary accounting must conform to the account codes in the standardized account code structure." California school districts are required to display their budgets by fund, by object, and by function.

Budgetary accounts are "projections and show how much is estimated to be spent or received during a given period of time to carry out the local educational agency's (LEA's) goals." In general, budgetary accounts have two purposes: (1) to record the estimated revenues of a fund by source and amount, and (2) to record and control the limits that are set on the expenditure levels by the appropriations. The recording of actual revenue and expenditures allows a comparison to the available amounts to be committed or expended within the limits set by law or by the governing board.

Revenue Budget. For each fund, the revenue budget anticipates all income from federal, state, and local sources, as well as the anticipated beginning balance. The total of beginning balance and income is the maximum amount a school district may legally budget to spend for any fund.

Expenditure Budget. Each fund has an expenditure budget reflecting the fund's authorized costs, and, for most funds, the anticipated expenditure level.

B. Budget Process

Budget Preparation. The first step in preparing the budget is to determine the cost to continue the existing program. Enrollment-related costs are adjusted for projected changes. Costs not directly controllable by the District, such as utilities, retirement contributions, insurance, continuing contractual obligations, and legal costs, are adjusted to reflect estimated expenditures for the coming fiscal year.

Estimates of income are developed based on a review of federal and State statutory provisions and local revenue sources. Beginning balance amounts for the budget year are calculated utilizing a comparison of anticipated revenues and expenditures for the current year. The projected beginning balances and revenues are compared to the cost of continuing current programs to determine whether budget reductions may be necessary or whether unanticipated amounts may be available for allocation.

Board and public participation. Board meetings are scheduled for discussion of proposed budget changes. A public hearing, at which any member of the public may address the Board regarding the District's proposed budget, is mandated prior to Board adoptions of the Final Budget in June.

C. Budget Revision Process

Budget adjustments. The Budget Services and Financial Planning Division either receives or initiates well over 20,000 requests annually to adjust or revise the adopted budget. Generally, a budget adjustment (B.A.) enables a school or office to use funds previously budgeted for a particular purpose.

Certain limitations apply to B.A.s. For example, schools or offices may not transfer funds from a restricted program into an unrestricted one (e.g., transfers from Title I into a District-funded school instructional material account would not be permitted).

B.A.s may be either continuous (ongoing), or limited to the remainder of the current fiscal year. They may be either "routine," requiring only normal handling by staff, or "non-routine," requiring formal approval by the Board of Education.

Categories of "non-routine" B.A.s are determined by the Board, and are currently defined as follows:

- A. All B.A.s from Undistributed Reserves.
- B. All B.A.s which increase the total number of regular, non-school-based budgeted positions, except for those that are fully funded from the budgeted resources of the requesting office ("cost-neutral" budget adjustments).

In addition to the above, California Education Code §42602 authorizes Boards of Education to increase income to reflect unanticipated new revenues during the course of the fiscal year.

ADOPTED BUDGET AND FINANCE POLICY (NOVEMBER 2013)

I. Purpose of the Budget and Finance Policy

The California School Accounting Manual, the State's financial guide for school districts, defines a budget as "a plan of financial operation consisting of an estimate of proposed income and expenditures for a given period and purpose". It is through the budget that the Board and Superintendent set priorities and allocate resources.

California school districts, including LAUSD, are bound by legal requirements, administrative regulations, and oversight protocols during the budget process. These include:

Legal Requirements for Budget

- Budgets must show a plan for all proposed expenditures of the school district and of all estimated revenues for the fiscal year (Education Code 42122).
- School districts may not spend more than authorized in the adopted Final Budget, as adjusted during the fiscal year (Education Code 42600).

Administrative Regulations for Budget

- The California School Accounting Manual provides detailed definitions of income and expenditure categories together with approved budget and accounting practices.
- The Superintendent of Public Instruction annually issues budget and expenditure documents that specify the income and expenditure categories to be reflected in each school district budget.

Oversight Processes for Budget

- The Los Angeles County Office of Education (LACOE) monitors the financial health of the District with oversight and review from the Superintendent of Public Instruction (Education Code 33127, 33128, 42120 et seq., 42637).
- Should a district's financial condition deteriorate below the State's standards, LACOE is authorized to take corrective action. This could include assuming management of that District's financial affairs (Education Code 42127.3).

The District must also comply with the Governmental Accounting Standards Board's (GASB) accounting standards and rules. The budget process should also strive to meet the Government Finance Officers Association's (GFOA) best practices for finance, accounting, and budgeting by government agencies.

Consistent with State law and regulation, the LAUSD budget is developed, adopted, refined and reviewed on a timely basis, through an annual cycle, as highlighted by the table below.

II. Finance and Budget Policy

To assist the Board of Education in making sound policy, guide the development of the District’s budget, enhance the management of the District’s finances, minimize the risk of LACOE action, and reduce potential audit concerns, the Board has adopted this Finance and Budget Policy which is based on five core principles. The budget should:

1. Be based on the goals of the Board and Superintendent.
2. Be based on sound financial principles.
3. Be clear and easy to understand.
4. Be timely, and easy to manage at the school level.
5. Be based on a process that informs stakeholders.

This policy was developed after reviewing the document “Recommended Budget Practices” developed by the GFOA. The policy is also consistent with the standards and criteria established by the State Board of Education (Education Code Sections 33127, 33128), as well as current GASB rules and standards. To the extent that LAUSD’s current budgeting and accounting practices are not in compliance with this policy, implementation of this policy is to be phased in.

The Finance and Budget Policy is a “living document.” LAUSD expects that it will evolve over time to best connect District policy, budgeting, and financing principles.

Principle One: The budget should be based on the goals of the Board of Education and Superintendent.

The Board of Education and Superintendent have the primary responsibility for developing and articulating the District’s goals; these goals will be the framework for the budget.

Principle Two: The budget should be based on sound financial principles.

LAUSD’s budget should be based on financial principles that will keep the District viable and able to sustain its key programs over time. The following specific financial principles, based on law, expert advice and experience, are offered to this end:

- a) Structurally Balanced Operating Budget
- b) Appropriate Use of One-Time Revenues
- c) Alignment of Budget with Expected Expenditures
- d) Maintenance of Appropriate and Adequate Fund Balance and Reserves
- e) Revenue Maximization
- f) Revenue and Expenditure Estimation
- g) Cost Recovery through Fees and Charges
- h) Capital Plan
- i) Asset Management
- j) Prudent Debt Management
- k) Program Sustainability
- l) GASB Compliance

A) STRUCTURALLY BALANCED OPERATING BUDGET

The Superintendent must annually prepare and recommend a structurally balanced budget where operating revenues are equal to, or exceed, operating expenditures (Education Code Sections 42100, 42127.5).

The Office of the Chief Financial Officer shall prepare the First and Second Period Interim Financial Reports in accordance with the law and make appropriate recommendations to the Board if financial adjustments are necessary. Annual appropriations shall be made to

responsibly address all identified liabilities, including pension, vacation accrual, workers' compensation, and retiree health needs.

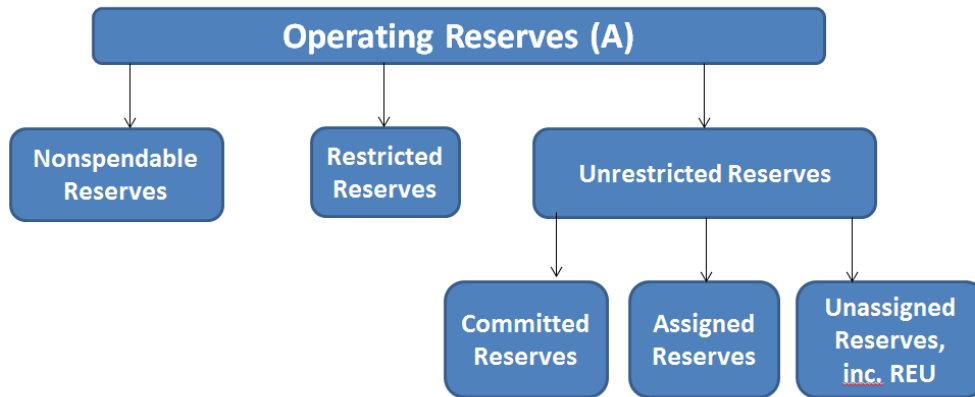

SECTION B IS DELETED PER BOARD OF EDUCATION AMENDMENT

B) ALIGNMENT OF BUDGET WITH EXPECTED EXPENDITURES

Actual expenditures should closely approximate the estimated appropriation. To the extent that funding is required for expenditures spanning fiscal years, appropriate financial techniques should be identified and employed.

C) MAINTENANCE OF APPROPRIATE AND ADEQUATE FUND BALANCES AND RESERVES

LAUSD shall strive to maintain certain reserve funds to provide financial stability. The reserves describe in these policies supersedes all prior District reserve policies. These reserve funds shall be for operations or for liabilities, and includes, but not limited to, the following described categories:

A. Operating Reserves:

The purpose of operating reserves is to set aside monies and to meet the minimum reserves policy target in the Three-Year Sustainability Plan.

The current classifications of fund balances¹ are as follows:

- Non-spendable fund balance (*inherently non-spendable*) This category includes reserves for Revolving Cash, Stores, and Prepaid Expenditures
- Restricted fund balance (*externally enforceable limitations on use*) This category includes balances related federal and state programs.
- Committed fund balance (*self-imposed limitations on use*)
- Assigned fund balance (*limitation resulting from intended use*)

¹ Under GASB Statement No. 54, Fund Balance Reporting and Government Fund Type Definitions.

- Unassigned fund balance (*residual resources for unrestricted use*)

General Fund Balance Policy:

The District shall maintain Total General Fund balances at a level which is 5 % or more of Total General Fund expenditures and net transfers out (the “5% Minimum Reserve Threshold”). This level is the minimum necessary to sustain the District’s strong credit ratings.

Reserve funding levels shall be reviewed annually and adjusted as appropriate. The reserve policy is as follows:

1. The District shall maintain at least the 5% Minimum Reserve Threshold in the Three-Year Sustainability Plan.
2. Whenever the District projects a failure to meet the 5% Minimum Reserve Threshold, all one-time monies received shall be set-aside until the Threshold is met in each of the years.
3. In addition, other recommendations will be developed to restore reserve balances. These recommendations will be completed within the next fiscal year.

Reserve for Economic Uncertainties:

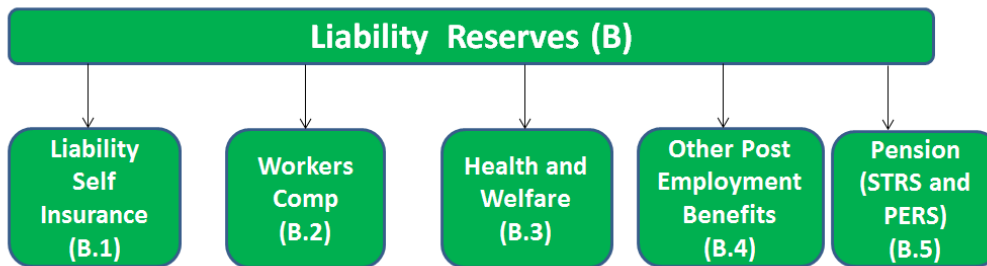

This is a legally required reserve which is currently at 1% of total General Fund expenditures and other financing uses.

Reserves for Revolving Cash, Stores, and Prepaid Expenditures:

The District’s accounting practice establishes a reserve for revolving cash, stores, and prepaid expenditures.

B. Liability Reserves:

The purpose of the Liability Reserves is to set aside monies for legal liabilities. Funding these liability reserves provides resources to help prevent disruptive reductions to LAUSD operating programs.

B.1 Liability Self-Insurance Fund:

Liability Self Insurance funding will be based on the current year claims and the amount to fully fund the estimated liability as determined by a third party actuarial report.

B.2 Worker’s Compensation Fund:

Worker’s Compensation funding will be based on the current year claims and the amount to fully fund the estimated liability as determined by a third party actuarial report.

B.3 Health and Welfare Fund:

Health & Welfare funding will be based on the Health and Welfare Memorandum of Agreement in place.

B.4 Other Post-Employment Benefits (OPEB) Fund:

The District will establish an irrevocable trust for its OPEB liability (OPEB Trust) to:

1. Minimize encroachment on the District’s operating budget;
2. Provide funding to protect retiree benefits;
3. Improve the return on investment on the Trust assets;
4. Align contributions to more adequately recover costs from federal, capital and grant programs;
5. Provide a proactive response to address the impacts of GASB 45 on the District’s finances; and
6. Preserve the District’s net assets.

Contributions to the Trust will be annually calculated and distributed as follows:

1. An annual per employee set aside, at rates consistent with the District’s current budget assumptions and policies, will be contributed to the OPEB Trust on or before June 30th. Such contributions will be subject to maintaining an Unrestricted General Fund balance of 5% of the unrestricted revenue. These Trust contributions will be made from all appropriate funding sources. The annual OPEB per employee growth rates will continue until such time that the District will be able to reasonably meet its unfunded liability in accordance with GASB standards.²
2. In the event that the Unrestricted General Fund is above 5% of the unrestricted revenues (after the annual OPEB contribution has been determined), an additional contribution from the assigned OPEB reserve will be placed in the Trust.

E) REVENUE MAXIMIZATION

LAUSD receives the majority of its funding from the State of California. To supplement these funds, LAUSD shall seek additional revenues from other funding sources including the Federal Government, foundations, corporations, mandate funding, parent and community organizations, and through new and changes to funding legislations. These additional resources should be for purposes that are consistent with the District’s goals and objectives and which complement the LAUSD’s resources. LAUSD shall also seek the approval of granting agencies to provide flexibility in the use of scarce resources.

F) REVENUE AND EXPENDITURE ESTIMATION

LASUD shall strive to include in the budget all revenues that can reasonably be expected for the fiscal year. The Chief Financial Officer shall appropriate funds for expenditure based on a prudent assessment of the risks associated with each revenue source. The authority to spend in part or all of the budgeted revenue will be provided based on revenue certainty.

² Beginning in 2017-18 as part of the fiscal stabilization plan, there is no OPEB contribution in FY 2018-19 through FY 2020-21.

Reserve for Anticipated Balances:

This is a non-budget add reserve requested by the Los Angeles County of Education to allow for technical adjustment for expenditure.

G) COST RECOVERY THROUGH FEES AND CHARGES

LAUSD may charge fees to recover costs of certain services, such as those provided to charter schools. LAUSD shall set fees so that they cover the entire cost of the service provided, including all direct and indirect costs subject to any legal restrictions.

H) CAPITAL PLAN

LAUSD will strive to provide comprehensive planning and budgeting for its capital needs by:

- Developing, on a periodic basis, a Statement of Need for capital programs.
- Annually adopting a multi-year capital budget that identifies the projects planned, the estimated cost of each project, the expected sources of revenue for each project, and the fiscal year or years in which project funds must be committed.
- Annually presenting an analysis of the future operational impact of the capital projects.

I) ASSET MANAGEMENT

The District will strive to:

- Budget appropriate amounts so that physical assets are properly maintained and replaced when needed.
- Maintain inventories of assets and the condition of major assets assessed on a regular basis to develop appropriate replacement and maintenance programs.
- Prepare a maintenance plan to sustain the need to maintain the value of its assets and protect the health and safety of students and employees.
- Annually estimate and set aside resources for preventative maintenance.
- Maintain a restricted account within the general fund for the exclusive purpose of providing funds for ongoing and major maintenance of school buildings to comply with the requirements set forth in Education Code Section 17070.75 and 17070.77. Deposit into this account, in each fiscal year for at least 20 years after receipt of School Facility Program (SFP) funds, an amount equal to or greater than required percent of the total general fund expenditures of the District, including other financing uses, for that fiscal year.

J) PRUDENT DEBT MANAGEMENT

LAUSD shall adhere to the Debt Management Policy as adopted by the Board of Education.

K) PROGRAM SUSTAINABILITY

To achieve sustainability, LAUSD should strive to:

- Link multi-year programs to multi-year funding. When funding is non-continuous, the program should be identified as limited.
- Set parameters for multi-year programs and offices by identifying specific “sunset dates” for program termination as well as the ending date for personnel assignments funded in the program.
- Make defined fiscal commitments rather than open-ended commitments (e.g. fund health benefits at a specific cost level rather than a specific service level).
- Identify impact on the budget of unfunded mandates and other spending pressures.

L) GASB STANDARDS FOR FINANCIAL ACCOUNTING AND REPORTING

The Governmental Accounting Standards Board promotes rules governing financial accounting and reporting. LAUSD shall comply with these rules. LAUSD shall strive to receive the GFOA Certificate for Excellence in Financial Reporting annually.

Principle Three: The budget should be clear and easy to understand.

A broad cross-section of stakeholders in the District rely on LAUSD’s budget and related financial documents for crucial financial information. These stakeholders include parents, teachers, community groups, administrators, and oversight bodies. LAUSD’s budget should be organized and presented in such a way that both lay persons and experts can understand:

- What the District intends to do and how it intends to do it
- The District’s overall financial condition
- The historical context for LAUSD programs

In addition, LAUSD should strive to develop its annual budget in a manner consistent with the GFOA standards for budget presentation. These guidelines are established to provide appropriate disclosure of financial information to the public and other interested parties, while facilitating management decisions on program expenditures.

LAUSD has identified guidelines for the presentation of budgets consistent with GFOA standards from four perspectives:

- a) Policy Document
- b) Financial Plan
- c) Operations Guide
- d) Communications Device

Principle Four: The budget should be timely and easy to manage at the school level.

The process of managing the budget is easier for schools and offices if they have access to systems and training. The District will define the parameters under which schools and offices will manage their budgets.

Principle Five: The budget process should inform stakeholders.

Prior to the adoption of the final budget, District staff will inform stakeholders in accordance with the budget Timetable and materials will be posted to the website.

III. FUND BALANCE POLICY AND PROCEDURES

A. PURPOSE

This Fund Balance Policy establishes the policy and procedures for reporting and maintaining fund balance in the District's financial statements. The policy also authorizes and directs the Chief Financial Officer to prepare financial reports which accurately categorize fund balance as per Governmental Accounting Standards Board (GASB) Statement No. 54, Fund Balance Reporting and Government Fund Type Definitions, effective beginning the 2010-11 fiscal year.

B. GENERAL POLICY

There are five separate components of fund balance. Each component identifies the extent to which the District is bound by constraints on the specific purpose for which amounts can be spent.

- Nonspendable fund balance (*inherently nonspendable*)
- Restricted fund balance (*externally enforceable limitations on use*)
- Committed fund balance (*self-imposed limitations on use*)
- Assigned fund balance (*limitation resulting from intended use*)
- Unassigned fund balance (*residual resources for unrestricted use*)

The first two components listed above are not addressed in this policy due to the nature of their restrictions. An example of nonspendable fund balance is inventory. Restricted fund balance is either imposed by law or constrained by grantors, contributors, or laws or regulations of other governments. This policy is focused on the last three components listed above.

The District considers restricted fund balances to have been spent first when expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. Similarly, when an expenditure is incurred for purposes for which amounts in any of the unrestricted classifications of fund balance could be used, the District considers committed amounts to be reduced first, followed by assigned amounts, and then unassigned amounts.

C. PROVISIONS Committed Fund Balance

The Governing Board, as the District's highest level of decision-making authority, may commit Fund balances for specific purposes pursuant to constraints imposed by formal actions. Commitment of funds can be made through the adoption of the budget as long as the intent to commit the funds is specifically stated. These committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specific use through formal action. Governing Board action to commit fund balance needs to occur within the fiscal reporting period, no later than June 30. The amount which will be committed can be determined subsequently but prior to the release of the District's financial statements.

Pursuant to GASB 54, the District commits to maintaining the Deferred Maintenance and Adult Education funds to support programs for which the funds were originally established. Amounts transferred into or retained in the funds will be determined annually per Board adoption of the budget and approval of the year end unaudited actuals report.

Assigned Fund Balance

Amounts that are neither restricted nor committed may be constrained by the District’s intent to be used for specific purposes. This policy hereby delegates the authority to assign amounts to the Superintendent, or designee.

Unassigned Fund Balance

These are residual positive net resources for the General Fund in excess of what can properly be classified in one of the other four categories. There are some reserves that do not meet the requirements of the aforementioned components of fund balance. For financial statement reporting purposes, these reserves are included in the unassigned fund balance. This includes:

- **Reserve For Economic Uncertainty** – The District will maintain an economic uncertainty reserve, consisting of unassigned amounts, of at least 1% of total General Fund expenditures and other financing uses in accordance with Section 15450 of the California Code of Regulations. The primary purpose of this reserve is to avoid the need for service level reductions in the event that an economic downturn causes revenues to be substantially lower than budgeted. In the event that the District must expend all or part of this reserve, the District will identify and implement a budgetary plan to replenish this reserve the following year. This reserve may be increased by legal requirement.

GLOSSARY AND ABBREVIATIONS

GLOSSARY

Abatement – A complete or partial cancellation of an expenditure or revenue item.

Academic Performance Index (API) – The API measures student achievement on certain standardized tests. Several Governor’s Initiative programs use schools’ API scores and their growth over time on the Index to determine funding.

Accounts Payable – Amounts due and owed to private persons, business firms, governmental units, or others for goods received and/or services rendered. It includes amounts billed but not yet paid.

Accounts Receivable - Amounts due and owed from private persons, business firms, governmental units, or others for goods received and/or services rendered. It includes amounts billed but not received.

Accrual Basis of Accounting – An accounting method in which revenues are recorded when earned, and expenditures when a liability is incurred, regardless of when the receipt or payment of cash takes place. School districts use the accrual basis of accounting for proprietary funds such as the Cafeteria and Self-Insurance funds, and fiduciary funds such as the Annuity Reserve Fund. (See “Cash Basis of Accounting” and “Modified Accrual Basis of Accounting”).

Administered Budget – An administered budget refers to resources managed by a division but spent elsewhere. For example, Facilities Services Division manages the utilities budget for schools and offices, but the expenditures are distributed to schools and offices.

Administrative Service Charge – A credit (negative) amount budgeted to reflect indirect administrative services costs charged to certain programs. This is necessary to eliminate duplication of the cost in the total District budget.

Ad Valorem Tax – A tax based on a percentage of the value of goods or services.

Arbitration – A form of alternative dispute resolution in which a third party reviews the evidence in the case and imposes a decision that is legally binding for both sides and enforceable.

Appropriation – An authorization granted by the governing board to make expenditures and to incur obligations for special purposes. An appropriation is usually limited in purpose, amount, and the time period during which it may be expended.

Audit – An examination of documents, records, and accounts for the purpose of (1) determining the propriety of transactions; (2) ascertaining whether transactions are recorded properly; and (3) determining whether statements drawn from accounts reflect an accurate picture of financial operations and financial status for a given period of time.

Authorized (budgeted) Amount – The maximum budget authority granted by the governing board, as opposed to the “estimated amount”. “Authorized” and “estimated” amounts will differ when, for example, actual grant revenues or expenditures are projected to be less than the authorized amount.

Authorized Positions – Positions, both filled and vacant, for which authority is provided in the budget.

The District norms are published in the form of “norm tables” which describe the factors utilized in determining the individual norms.

Special Education Local Plan Area (SELPA) – IDEA requires that each State organize in a way that allows effective programming and services be provided to students with disabilities. In the State of California, the mechanism used to meet this requirement is the Special Education Local Planning Area or SELPA. Each SELPA develops and maintains a local plan describing how special education programs and services are provided to students with disabilities within the boundaries of the SELPA. Due to its size, the Los Angeles Unified School District is a single-district SELPA.

Special Education – Low Incidence – In order to ensure students with certain disabilities have access to highly specialized equipment and materials, the State of California provides restricted funding to support the needs of students who are Deaf or Hard of Hearing, Blind or Visually Impaired and/or who have serious physical disability.
