

In the opinion of Sidley Austin LLP, San Francisco, California, Bond Counsel to the District with respect to the Refunding Bonds, under existing law and assuming compliance with certain covenants in the documents pertaining to the Refunding Bonds and the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), as described herein, interest on the Refunding Bonds will not be included in the gross income of the owners thereof for purposes of federal income taxation. In the opinion of Bond Counsel, under existing law, interest on the Refunding Bonds will be exempt from personal income taxes imposed by the State of California. See "Tax Matters" herein.

\$156,000,000
LOS ANGELES UNIFIED SCHOOL DISTRICT
(County of Los Angeles, California)
2012 General Obligation
Refunding Bonds, Series A

Dated: Date of Delivery**Due: As shown on inside cover**

The Los Angeles Unified School District (the "District") is issuing its \$156,000,000 2012 General Obligation Refunding Bonds, Series A (the "Refunding Bonds"). The Refunding Bonds are general obligation bonds approved by voters within the District and are payable from *ad valorem* property taxes levied by the County of Los Angeles on property within the District which the Board of Supervisors of the County of Los Angeles is empowered and obligated to levy upon all property within the District subject to taxation by the District without limitation of rate or amount (except as to certain personal property which is taxable at limited rates), all as more fully described herein. The Refunding Bonds are being issued pursuant to the laws of the State of California (the "State"), a resolution approved by the Board of Education of the District, and a Paying Agent Agreement, dated as of May 1, 2012, by and between the District and U.S. Bank National Association, as paying agent (the "Paying Agent").

The Refunding Bonds are being issued to refund and defease a portion of the Prior Bonds (defined herein). A portion of the proceeds of the Refunding Bonds will be used to pay the costs of issuance incurred in connection with the issuance of the Refunding Bonds. See "Plan of Refunding" herein.

Interest on the Refunding Bonds is payable on January 1 and July 1 of each year, commencing on January 1, 2013.

The Refunding Bonds will be initially issued in book-entry form only, in denominations of \$5,000 principal amount, or integral multiples thereof, and will be initially issued and registered in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the Refunding Bonds. Owners will not receive certificates representing their interests in the Refunding Bonds. Payments of principal, premium, if any, and interest on the Refunding Bonds will be made by the Paying Agent to DTC, which is obligated to remit such payments to its DTC Participants for subsequent disbursement to the beneficial owners of the Refunding Bonds. See Appendix C – "Book-Entry Only System" attached hereto.

The Refunding Bonds are subject to redemption prior to maturity as described herein. See "The Refunding Bonds – Redemption" herein.

THIS COVER PAGE CONTAINS CERTAIN INFORMATION FOR GENERAL REFERENCE ONLY. IT IS NOT INTENDED TO BE A SUMMARY OF THE SECURITY OR TERMS OF THIS ISSUE. INVESTORS ARE ADVISED TO READ THE ENTIRE OFFICIAL STATEMENT TO OBTAIN INFORMATION ESSENTIAL TO THE MAKING OF AN INFORMED INVESTMENT DECISION.

The Refunding Bonds will be offered when, as and if issued by the District, and received by the Underwriters, subject to the approval as to their legality by Sidley Austin LLP, San Francisco, California, Bond Counsel to the District, and certain other conditions. Certain legal matters will also be passed upon for the District by the General Counsel to the District and by its Disclosure Counsel, Hawkins Delafield & Wood LLP, Los Angeles, California, and for the Underwriters by their counsel, Nossaman LLP, Irvine, California. First Southwest Company, Santa Monica, California and Annette Yee and Company, LLC, Carmel, California are serving as Co-Financial Advisors to the District in connection with the issuance of the Refunding Bonds. The Refunding Bonds, in book-entry form, will be available for delivery through the facilities of DTC in New York, New York on or about May 8, 2012.

No dealer, broker, salesperson or other person has been authorized by the District or the Underwriters to give any information or to make any representations, other than those contained in this Official Statement, and if given or made, such information or representation must not be relied upon as having been authorized by any of the foregoing.

The information contained herein has been obtained from sources that are believed to be reliable. The information and expressions of opinion herein are subject to change without notice, and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, give rise to any implication that there has been no change in the affairs of the District since the date hereof.

The Underwriters have provided the following sentence for inclusion in this Official Statement: The Underwriters have reviewed the information in this Official Statement in accordance with, and as part of, their responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information.

IN CONNECTION WITH THE OFFERING OF THE REFUNDING BONDS THE UNDERWRITERS MAY OVERALLOT OR EFFECT TRANSACTIONS THAT STABILIZE OR MAINTAIN THE MARKET PRICE OF THE REFUNDING BONDS AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME. THE UNDERWRITERS MAY OFFER AND SELL THE REFUNDING BONDS TO CERTAIN DEALERS AND BANKS AT YIELDS HIGHER THAN THE INITIAL PUBLIC OFFERING YIELDS STATED ON THE INSIDE FRONT COVER PAGE HEREOF AND SAID INITIAL PUBLIC OFFERING YIELDS MAY BE CHANGED FROM TIME TO TIME BY THE UNDERWRITERS.

THE REFUNDING BONDS HAVE NOT BEEN REGISTERED WITH THE U.S. SECURITIES AND EXCHANGE COMMISSION UNDER THE SECURITIES ACT OF 1933, AS AMENDED, NOR HAS THE PAYING AGENT AGREEMENT BEEN QUALIFIED UNDER THE TRUST INDENTURE ACT OF 1939, AS AMENDED, IN RELIANCE UPON EXEMPTIONS CONTAINED IN SUCH ACTS.

When used in this Official Statement or in any continuing disclosure by the District, in any press release by the District or in any oral statement made with the approval of an authorized officer of the District, the words or phrases “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimate,” “project,” “forecast,” “expect,” “intend” and similar expressions identify “forward-looking statements.” Such statements are subject to risks and uncertainties that could cause actual results to differ materially from those contemplated in such forward-looking statements. Any forecast is subject to such uncertainties. Inevitably, some assumptions used to develop the forecasts will not be realized and unanticipated events and circumstances may occur. Therefore, there are likely to be differences between forecasts and actual results, and those differences may be material.

The District maintains a website at www.lausd.net. However, the information presented there is not part of this Official Statement, is not incorporated by reference herein and should not be relied upon in making an investment decision with respect to the Refunding Bonds.

\$156,000,000
LOS ANGELES UNIFIED SCHOOL DISTRICT
(County of Los Angeles, California)
2012 General Obligation Refunding Bonds, Series A

INTRODUCTION

This Introduction is only a brief description of, and is qualified by, more complete and detailed information contained in the entire Official Statement, including the cover page through the appendices hereto, and the documents summarized or described herein. The offering of the Refunding Bonds to potential investors is made only by means of the entire Official Statement. A full review should be made of the entire Official Statement.

General

This Official Statement, which includes the cover page through the appendices hereto, is provided to furnish information in connection with the sale of the \$156,000,000 Los Angeles Unified School District (County of Los Angeles, California) 2012 General Obligation Refunding Bonds, Series A (the “Refunding Bonds”) by the Los Angeles Unified School District (the “District”). The Refunding Bonds are issued pursuant to certain provisions of the California Government Code and other applicable law, a resolution adopted by the Board of Education of the District (the “District Board”) on September 13, 2011 (the “District Resolution”) authorizing the issuance of not to exceed \$1.6 billion of general obligation refunding bonds, and a Paying Agent Agreement, dated as of May 1, 2012, by and between the District and U.S. Bank National Association, as paying agent (the “Paying Agent”). A portion of the proceeds of the Refunding Bonds will be applied to refund and defease a portion of the District’s outstanding general obligation bonds (collectively, the “Prior Bonds”). See “Estimated Sources and Uses of Funds” and “Plan of Refunding” herein.

The District

The District’s boundaries encompass approximately 710 square miles in the western section of the County of Los Angeles (the “County”) in the State of California (the “State”) and include virtually all of the City of Los Angeles and all or significant portions of the cities of Bell, Carson, Commerce, Cudahy, Gardena, Hawthorne, Huntington Park, Lomita, Maywood, Rancho Palos Verdes, San Fernando, South Gate, Vernon and West Hollywood, in addition to considerable unincorporated territory which includes residential and industrial areas. As of June 30, 2011, the total population within the District’s boundaries was estimated to be approximately 4.6 million. See Appendix A – “District Financial Information and Regional Economic and Demographic Information” attached hereto for information regarding the County and the region encompassing the District. A map of the District appears after the maturity schedule set forth on the inside cover page hereof.

The District was formed in 1854 as the Common Schools for the City of Los Angeles and became a unified school district in 1960. The District is the second largest public school district in the United States and is the largest public school district in the State. The District estimates it will serve 580,031 K-12 students in Fiscal Year 2011-12. As of June 30, 2011, the District operated 448 elementary schools, 83 middle/junior high schools, 81 senior high schools, 56 options schools, 15 multi level schools, 16 special education schools, 26 magnet schools and 145 magnet centers, 24 community adult schools, 5 regional occupational centers, 5 skills centers, 1 regional occupational program center, 102 early education centers, 4 infant centers, and 20 primary school centers. In addition, as of June 30, 2011, there were 11 affiliated charter schools operated by the District and 171 fiscally independent charter schools within the District’s boundaries.

Additional information on the District is set forth in Appendices C and D hereto. See Appendix A – “District Financial Information and Regional Economic and Demographic Information” and Appendix B – “Audited Financial Statements of the District for the Fiscal Year ended June 30, 2011” attached hereto.

The District’s General Obligation Bond Program

Voters within the District have approved a total of \$20.605 billion of general obligation bonds in five separate bond elections since 1997, as delineated in Table 1 below. A total of \$12.927 billion of the approved general obligation bonds have been issued (including the Prior Bonds (defined herein) to be refunded), with \$7.678 billion remaining to be issued under the bond authorizations listed below (collectively, the “Authorizations”). See “Security and Sources of Payment for the Refunding Bonds - The District’s General Obligation Bond Program and Bonding Capacity” herein.

TABLE 1
Los Angeles Unified School District
General Obligation Bond Authorizations
Amounts and Dates Authorized, Amount Issued, Amount Unissued and Purposes

Bond Authorization	Date Authorized by Voters	Amount Authorized (\$ Billions)	Amount Issued⁽¹⁾ (\$ Billions)	Amount Unissued (\$ Billions)	Purposes
Proposition BB	April 8, 1997	\$ 2.400	\$ 2.400	\$0.000	Health and safety improvements, computer technology and science labs, air conditioning and new construction
Measure K	November 5, 2002	3.350	3.350	0.000	New construction, acquisition, rehabilitation and upgrading of specifically identified school facilities
Measure R	March 2, 2004	3.870	3.635	0.235	New construction, acquisition, rehabilitation and upgrading of specifically identified school facilities
Measure Y	November 8, 2005	3.985	3.542	0.443	New construction, acquisition, rehabilitation and upgrading of specifically identified school facilities
Measure Q	November 4, 2008	<u>7.000</u>	<u>0.000</u>	<u>7.000</u>	New construction, acquisition, rehabilitation and upgrading of specifically identified school facilities
Total		<u>\$20.605</u>	<u>\$12.927</u>	<u>\$7.678</u>	

⁽¹⁾ See Appendix A – “District Financial Information and Regional Economic and Demographic Information – District Financial Information – District Debt – General Obligation Bonds” attached hereto for the amounts of outstanding general obligation bonds under the referenced Authorizations. Excludes general obligation refunding bonds.

Source: Los Angeles Unified School District.

At least \$7.3 billion of State matching funds and other revenue sources supplement the \$20.6 billion of bond proceeds from the five authorizations referenced above to fund the District’s general obligation bond program’s various projects. A portion of these combined revenue sources has been or is expected to be allocated to the Measure K Projects, the Measure R Projects and the Measure Y Projects (each as hereinafter defined). Accordingly, the total program sources of funds are expected to be approximately \$28 billion. The District’s general obligation bond program includes the construction of 131 new schools. One hundred eleven of these schools have been completed. The new schools will provide approximately 6,600 new classrooms that are expected to house approximately 167,000 new seats, which will enable all District students to attend schools with a traditional two-semester school year and eliminate year-round school schedules. In addition, the general obligation bond program includes approximately 25,000 modernization projects that have been or are in the process of being completed at over 800 school sites in the District. The program also includes computer technology and green projects.

Security and Sources of Payment for the Refunding Bonds

The Refunding Bonds are general obligation bonds payable from *ad valorem* property taxes levied by the County on taxpayers within the District. The Board of Supervisors of the County has the power and is obligated under State law pursuant to the authority granted by voters of the District relating to the Authorizations to annually levy *ad valorem* taxes upon all property subject to taxation by the District, without limitation as to rate or amount (except as to certain personal property which is taxable at limited rates, for the payment of the principal of and redemption premium, if any, and interest on the Refunding Bonds. Such *ad valorem* property taxes are deposited with the County and may only be applied to pay the principal of, and redemption premium, if any, and interest on the District's general obligation bonds, including the Refunding Bonds. The District does not receive such funds, nor are they available to pay any of the District's operating expenses. See "Security and Sources of Payment for the Refunding Bonds" herein.

Continuing Disclosure

The District has covenanted for the benefit of the holders and beneficial owners of the Refunding Bonds to provide certain financial information and operating data relating to the District (the "Annual Report") for each fiscal year by not later than 240 days following the end of the District's fiscal year (currently ending June 30) commencing with the Annual Report for Fiscal Year 2011-12, and to provide notices of the occurrence of certain specified events (collectively, the "Listed Events"). The information to be contained in the Annual Report and in a notice of a Listed Event is set forth in Appendix E – "Form of Continuing Disclosure Certificate" attached hereto. The District will provide or cause to be provided the Annual Report and such notices to the Municipal Securities Rulemaking Board in the manner prescribed by the Securities and Exchange Commission ("SEC"). Copies of the District's annual reports and notices of Listed Event filings are available at the website of Digital Assurance Certification, L.L.C. ("DAC"), www.dacbond.com, and at the website of the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system, emma.msrb.org. The information presented on these websites is not incorporated by reference in this Official Statement and should not be relied upon in making an investment decision with respect to the Refunding Bonds. These covenants have been made in order to assist the Underwriters in complying with SEC Rule 15c2-12(b)(5) (the "Rule"). The District has complied in all material respects in the last five years with each of its previous undertakings with regard to the Rule to provide annual reports and notices of events. See "Legal Matters - Continuing Disclosure" herein.

Tax Matters

In the opinion of Sidley Austin LLP, San Francisco, California, Bond Counsel to the District, under existing law and assuming compliance with certain covenants in the documents pertaining to the Refunding Bonds and the requirements of the Code, as described herein, interest on the Refunding Bonds will not be included in the gross income of the owners thereof for purposes of federal income taxation, and is not treated as an item of tax preference in calculating the alternative minimum tax of individuals and corporations; however, interest on the Refunding Bonds owned by a corporation will be included in the calculation of the corporation's alternative minimum tax liability.

In the opinion of Bond Counsel, under existing law, interest on the Refunding Bonds will be exempt from personal income taxes imposed by the State of California.

See "Tax Matters" herein and Appendix D - "Proposed Form of Opinion of Bond Counsel" attached hereto.

Changes from the Preliminary Official Statement

In addition to updates to the Preliminary Official Statement dated April 10, 2012 as a result of pricing, the information contained in the section "Security and Sources of Payment for the Refunding Bonds

- Assessed Valuation of Property within the District” has been updated to reflect information regarding projections of assessed valuation growth within the County. In addition, the information in Appendix A hereto has been revised to reflect updated financial, economic and demographic information.

Other Information

This Official Statement contains brief descriptions of, among other things, the District, the District’s general obligation bond program, the Paying Agent Agreement and certain matters relating to the security for the Refunding Bonds. Such descriptions and information do not purport to be comprehensive or definitive. All references herein to documents are qualified in their entirety by reference to such documents. Copies of such documents are available for inspection at the District by request to the Chief Financial Officer at (213) 241-7888 and, following delivery of the Refunding Bonds will be on file, as applicable, at the corporate trust office of the Paying Agent in Los Angeles, California.

PLAN OF REFUNDING

A portion of the proceeds of the Refunding Bonds will be applied to advance refund and defease a portion of the District’s outstanding general obligation bonds identified below (the “Prior Bonds”). A portion of the proceeds from the Refunding Bonds will be deposited into an escrow fund (the “U.S. Bank Escrow Fund”) established under an escrow agreement to be dated as of May 1, 2012 by and between the District and U.S. Bank National Association, as escrow bank for the portion of the District’s General Obligation Bonds, Election of 1997, Series F (2003) (the “Series F (Proposition BB) Prior Bonds”), General Obligation Bonds, Election of 2002, Series A (2003) (the “Series A (Measure K) Prior Bonds”) and General Obligation Bonds, Election of 2004, Series C (2004) (the “Series C (Measure R) Prior Bonds”) to be refunded.

A portion of the proceeds from the Refunding Bonds will be deposited into an escrow fund (the “Wells Fargo Escrow Fund” and together with the U.S. Bank Escrow Fund, the “Escrow Funds”) established under an escrow agreement to be dated as of May 1, 2012 by and between the District and Wells Fargo Bank, N.A., as escrow bank for the portion of the District’s General Obligation Bonds, Election of 2004, Series E (2005) (the “Series E (Measure R) Prior Bonds”) to be refunded.

A portion of the amount of funds deposited into the Escrow Funds are to be invested in United States Obligations (as defined in resolutions respecting the Prior Bonds), which, together with interest earnings thereon, if any, and any cash to be deposited in the Escrow Funds will be sufficient to fully pay the principal of, premium, if any, and interest on the Prior Bonds to be refunded as the same shall become due or pursuant to a call for redemption. The mathematical computations used to determine the sufficiency of the escrow deposits will be verified by the Verification Agent (defined herein). See “Miscellaneous – Verification of Mathematical Computations” herein.

Set forth below is a description of the Prior Bonds to be refunded.

Series F (Proposition BB) Prior Bonds

Maturity Dates	Principal Amount	Redemption Price	Redemption Date	CUSIP (544644)
July 1, 2014	\$1,000,000	100%	July 1, 2013	QW0

Series A (Measure K) Prior Bonds

ESTIMATED SOURCES AND USES OF FUNDS

The estimated sources and uses of funds with respect to the Refunding Bonds are as follows:

Estimated Sources of Funds

Principal Amount	\$156,000,000.00
Net Original Issue Premium	18,268,124.15
Existing Funds	<u>3,818,011.25</u>
Total Sources	<u>\$178,086,135.40</u>

Estimated Uses of Funds

Deposit to U.S. Bank Escrow Fund	\$ 72,894,782.16
Deposit to Wells Fargo Escrow Fund	104,622,034.73
Underwriters' Discount	226,200.00
Costs of Issuance ⁽¹⁾	<u>343,118.51</u>
Total Uses	<u>\$178,086,135.40</u>

⁽¹⁾ Includes fees of Bond Counsel, Disclosure Counsel, Paying Agent, Co-Financial Advisors, rating agencies, printer, verification agent and other miscellaneous expenses.

THE REFUNDING BONDS

General Provisions

The Refunding Bonds will be dated their date of delivery, will be issued in book-entry form only, without coupons, in denominations of \$5,000 principal amount or any integral multiple thereof, and, when issued, will be initially registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the Refunding Bonds. Owners will not receive physical certificates representing their interest in the Refunding Bonds purchased, except in the event that use of the book-entry system for the Refunding Bonds is discontinued. Payments of principal of, premium, if any, and interest on the Refunding Bonds are payable by the Paying Agent to DTC, which is obligated in turn to remit such payments to its DTC Participants for subsequent disbursement to the beneficial owners of the Refunding Bonds. For information about the securities depository and DTC's book-entry system, see Appendix C – "Book-Entry Only System" attached hereto.

The Refunding Bonds mature in the years and on the dates set forth on the inside front cover page hereof. Interest with respect to the Refunding Bonds is payable on January 1 and July 1 of each year (each, an "Interest Payment Date"), commencing on January 1, 2013. Interest on the Refunding Bonds will be computed on the basis of a 360-day year of twelve 30-day months. Each Bond will bear interest from the Interest Payment Date next preceding the date of authentication thereof, unless it is authenticated on or before an Interest Payment Date and after the close of business on the 15th calendar day of the month preceding such Interest Payment Date (each, a "Record Date"), in which event it shall bear interest from such Interest Payment Date, or unless it is authenticated on or before the Record Date preceding the first Interest Payment Date, in which event it shall bear interest from the date of delivery of the Refunding Bonds.

Redemption

Optional Redemption. The Refunding Bonds maturing on or before July 1, 2022 are not subject to optional redemption. The Refunding Bonds maturing on or after July 1, 2023 are subject to optional redemption on or after July 1, 2022, in whole or in part on any date, from any source of available funds, at a redemption price equal to the principal amount of the Refunding Bonds to be redeemed, without premium, plus accrued interest thereon to the date of redemption.

Selection of Bonds for Redemption. Whenever provision is made in the Paying Agent Agreement for the optional redemption of less than all of the Refunding Bonds, the Paying Agent will select the Refunding Bonds to be redeemed from all Refunding Bonds not previously called for redemption among maturities of the Refunding Bonds as directed in a written request of the District and, within a maturity of the Refunding Bonds, by lot.

Partial Redemption. Upon surrender of any Refunding Bond redeemed in part only, the District will execute and the Paying Agent will authenticate and deliver to the registered owner thereof (the "Owner"), at the expense of the District, a new Refunding Bond of the same maturity in a principal amount equal to the unredeemed portion of the Refunding Bond surrendered.

Notice of Redemption. The Paying Agent on behalf and at the expense of the District shall mail (by first class mail) notice of any redemption to the respective Owners of any Refunding Bonds designated for redemption at their respective addresses appearing on the records maintained by the Paying Agent for the registration of ownership and registration of transfers of the Refunding Bonds pursuant to the Paying Agent Agreement at least 30 but not more than 60 days prior to the date fixed for redemption. Such notice shall state the date of the notice, the redemption date, the redemption place and the redemption price and shall designate the CUSIP numbers, if any, of the Refunding Bonds to be redeemed, the Refunding Bond numbers and the maturity or maturities of the Refunding Bonds to be redeemed (except in the event of redemption of all of the Refunding Bonds of such maturity or maturities in whole), and shall require that such Refunding

Bonds be then surrendered at the Office of the Paying Agent for redemption at the redemption price, giving notice also that further interest on such Refunding Bonds will not accrue from and after the date fixed for redemption. Neither the failure to receive any notice so mailed, nor any defect in such notice, shall affect the validity of the proceedings for the redemption of the Refunding Bonds or the cessation of accrual of interest thereon from and after the date fixed for redemption.

With respect to any notice of any optional redemption of the Refunding Bonds, unless at the time such notice is given the Refunding Bonds to be redeemed shall be deemed to have been paid within the meaning of the Paying Agent Agreement, such notice shall state that such redemption is conditional upon receipt by the Paying Agent, on or prior to the date fixed for such redemption, of moneys that, together with other available amounts held by the Paying Agent, are sufficient to pay the redemption price of, and accrued interest on, the Refunding Bonds to be redeemed, and that if such moneys shall not have been so received said notice shall be of no force and effect and the District shall not be required to redeem such Refunding Bonds. In the event a notice of redemption of the Refunding Bonds contains such a condition and such moneys are not so received, the redemption of the Refunding Bonds as described in the conditional notice of redemption shall not be made and the Paying Agent shall, within a reasonable time after the date on which such redemption was to occur, give notice to the respective Owners of the Refunding Bonds designated for redemption in the manner in which the notice of redemption was given, that such moneys were not so received and that there shall be no redemption of the Refunding Bonds pursuant to such notice of redemption.

While the Refunding Bonds are subject to the book-entry system, the Paying Agent will not be required to give notice of redemption to the Persons for which the Participants have caused the Depository to hold Book-Entry Bonds (collectively, the “Beneficial Owners”) of the Refunding Bonds. DTC and the DTC Participants will have sole responsibility for providing any such notice of redemption to the Beneficial Owners of the Refunding Bonds to be redeemed. Any failure of DTC to notify the Beneficial Owner of any Refunding Bonds to be redeemed, or any failure of a DTC Participant to notify the Beneficial Owner of any Refunding Bond to be redeemed, of a notice of redemption or its content or effect will not affect the validity of the notice of redemption.

Effect of Notice of Redemption. Notice having been mailed as described above, and moneys for the redemption price, and the interest to the applicable date fixed for redemption, having been set aside with the Paying Agent, the Refunding Bonds to be redeemed shall become due and payable on the redemption date and, upon presentation and surrender thereof at the Office of the Paying Agent, said Refunding Bonds shall be paid at the redemption price thereof, together with interest accrued and unpaid to said date. If, on said date fixed for redemption, moneys for the redemption price of all the Refunding Bonds to be redeemed, together with interest to said date, shall be held by the Paying Agent so as to be available therefor on such date, and, if notice of redemption thereof shall have been mailed as aforesaid and not canceled, then, from and after said date, interest on said Refunding Bonds shall cease to accrue. All moneys held by or on behalf of the Paying Agent for the redemption of the Refunding Bonds shall be held in trust for the account of the Owners of the Refunding Bonds so to be redeemed without liability to such Owners for interest thereon.

Modification and Amendments of the Paying Agent Agreement

The Paying Agent Agreement and the rights and obligations of the District, the Paying Agent and the Owners thereunder may be modified or amended from time to time and at any time by a Supplemental Paying Agent Agreement, which the District and the Paying Agent may enter into when there are filed with the Paying Agent the written consents of the Owners of a majority of the aggregate principal amount of the Refunding Bonds then Outstanding, exclusive of the Refunding Bonds disqualified as provided in the Paying Agent Agreement. No such modification or amendment shall (i) extend the fixed maturity of any Refunding Bond, reduce the principal amount thereof or the rate of interest thereon, or alter the redemption provisions thereof, without the consent of the Owner of each Refunding Bond so affected, or (ii) amend the provisions

of the Paying Agent Agreement regarding modifications and amendments without the prior written consent of the Owners of all Refunding Bonds then Outstanding.

The Paying Agent Agreement and the rights and obligations of the District, the Paying Agent and the Owners thereunder may also be modified or amended from time to time and at any time by a Supplemental Paying Agent Agreement, which the District and the Paying Agent may enter into without the consent of any Owners for any one or more of the following purposes: (i) to add to the covenants and agreements of the District contained in the Paying Agent Agreement, other covenants and agreements thereafter to be observed, or to surrender any right or power therein reserved to or conferred upon the District; (ii) to make such provisions for the purpose of curing any ambiguity, inconsistency or omission, or of curing or correcting any defective provision contained in the Paying Agent Agreement; (iii) to permit the qualification of the Paying Agent Agreement under the Trust Indenture Act of 1939, as amended, or any similar federal statute hereafter in effect; and (iv) in any other respect whatsoever as the District may deem necessary or desirable, provided that such modification or amendment does not materially adversely affect the rights or interests of the Owners.

Promptly after the execution by the District and the Paying Agent of any Supplemental Paying Agent Agreement, the Paying Agent will mail a notice by first class mail postage prepaid, setting forth in general terms the substance of such Supplemental Paying Agent Agreement, to the Owners of the Refunding Bonds at the respective addresses shown on the Registration Books. Any failure to give such notice, or any defect therein, will not, however, in any way impair or affect the validity of any such Supplemental Paying Agent Agreement.

Defeasance

Discharge of Paying Agent Agreement. The Paying Agent Agreement provides that, if (i) the District shall pay or cause to be paid or there shall otherwise be paid to the Owners of all outstanding Refunding Bonds the principal thereof and the interest and premium, if any, thereon at the times and in the manner stipulated in the Paying Agent Agreement and the Refunding Bonds, and (ii) all other amounts due and payable under the Paying Agent Agreement shall have been paid, then all agreements, covenants and other obligations of the District under the Paying Agent Agreement will thereupon cease, terminate and become void and the Paying Agent shall be discharged and satisfied. The Paying Agent Agreement provides also that when any Refunding Bond shall have been paid and if, at the time of such payment, the District shall have kept, performed and observed all of the covenants and promises in such Refunding Bond and in the Paying Agent Agreement required or contemplated to be kept, performed and observed by it or on its part on or prior to that time, then the Paying Agent Agreement shall be considered to have been discharged in respect of such Refunding Bond, and all agreements, covenants and other obligations of the District under the Paying Agent Agreement shall cease, terminate, become void and be completely discharged and satisfied as to such Refunding Bond. The Paying Agent Agreement provides that, notwithstanding the discharge and satisfaction of the Paying Agent Agreement or the discharge and satisfaction of the Paying Agent Agreement in respect of any Refunding Bond, those provisions of the Paying Agent Agreement relating to payment of the Refunding Bonds, transfer of the Refunding Bonds, replacement of mutilated, destroyed, lost or stolen Refunding Bonds, the safekeeping and cancellation of the Refunding Bonds, non-presentment of the Refunding Bonds, and the duties of the Paying Agent in connection with all of the foregoing, shall remain in effect and shall be binding upon the Paying Agent and the Owner of such Refunding Bond, and the Paying Agent shall continue to be obligated to hold in trust any moneys or investments then held by the Paying Agent for the payment of the principal of and interest and premium, if any, on such Refunding Bonds, and to pay to the Owner of such Refunding Bond the funds so held by the Paying Agent as and when such payment becomes due.

Bonds Deemed To Have Been Paid. The Paying Agent Agreement provides that, if moneys shall have been set aside and held by the Paying Agent for the payment or redemption of any Refunding Bond,

such Refunding Bond will be deemed to have been paid within the meaning and with the effect described above under heading entitled “–Discharge of Paying Agent Agreement.” The Paying Agent Agreement also provides that any outstanding Refunding Bond shall prior to the maturity date or redemption date thereof be deemed to have been paid within the meaning of and with the effect described above under heading entitled “–Discharge of Paying Agent Agreement” if (i) in case any of such Refunding Bonds are to be redeemed on any date prior to their maturity date, the District shall have given to the Paying Agent in form satisfactory to it irrevocable instructions to mail, on a date in accordance with the provisions of the Paying Agent Agreement, notice of redemption of such Refunding Bond on said redemption date, (ii) there shall have been deposited with the Paying Agent either (a) money in an amount which shall be sufficient, or (b) Defeasance Securities, the principal of and the interest on which when due, and without any reinvestment thereof, will provide moneys which shall be sufficient to pay when due the principal of and interest and premium, if any, on such Refunding Bond, and (iii) in the event such Refunding Bond is not by its terms subject to redemption within the next succeeding 60 days, the District shall have given the Paying Agent, in form satisfactory to the Paying Agent, irrevocable instructions to mail as soon as practicable, a notice to the Owners of such Refunding Bond that the deposit required by clause (ii) above has been made with the Paying Agent and that such Refunding Bond is deemed to have been paid in accordance with the Paying Agent Agreement and stating the maturity date or redemption date upon which money is to be available for the payment of the principal of and interest and premium, if any, on such Refunding Bond.

No Refunding Bond will be deemed to have been paid pursuant the Paying Agent Agreement as described in clause (ii) of subsection (a) of the paragraph above unless the District has caused to be delivered (i) an executed copy of a Verification Report (hereinafter defined) with respect to such deemed payment, addressed to the District and the Paying Agent, in form and in substance acceptable to the District and the Paying Agent, (ii) a copy of the escrow agreement entered into in connection with the deposit pursuant to the Paying Agent Agreement as described in clause (ii) of subsection (a) of the paragraph above resulting in such deemed payment, which escrow agreement shall provide that no substitution of Defeasance Securities (hereinafter defined) will be permitted except with other Defeasance Securities and upon delivery of a new Verification Report, and no reinvestment of Defeasance Securities will be permitted except as contemplated by the original Verification Report or upon delivery of a new Verification Report, and (iii) a copy of a written opinion of a firm of nationally recognized bond counsel selected by the District, dated the date of such deemed payment and addressed to the District and the Paying Agent, in form and in substance acceptable to the District and the Paying Agent, to the effect that such Refunding Bond has been paid within the meaning and with the effect expressed in the Paying Agent Agreement, this Paying Agent Agreement has been discharged in respect of such Refunding Bond and all agreements, covenants and other obligations of the District under the Paying Agent Agreement as to such Refunding Bond have ceased, terminated, become void and been completely discharged and satisfied.

The term “Defeasance Securities” is defined in the Paying Agent Agreement to mean “(a) non-callable direct and general obligations of the United States of America (including state and local government series), or obligations that are unconditionally guaranteed as to principal and interest by the United States of America, including (in the case of direct and general obligations of the United States of America) evidences of direct ownership of proportionate interests in future interest or principal payments of such obligations; provided that investments in such proportionate interests must be limited to circumstances wherein (i) a bank or trust company acts as custodian and holds the underlying United States obligations; (ii) the owner of the investment is the real party in interest and has the right to proceed directly and individually against the obligor of the underlying United States obligations; and (iii) the underlying United States obligations are held in a special account, segregated from the custodian’s general assets, and are not available to satisfy any claim of the custodian, any person claiming through the custodian, or any person to whom the custodian may be obligated; provided that such obligations are rated in one of the two highest rating categories assigned by Standard & Poor’s Rating Services, a division of The McGraw-Hill Companies, Inc (“S&P”) or Moody’s Investors Service, Inc. (“Moody’s”); (b) non-callable obligations of government sponsored agencies that are rated in one of the two highest rating categories assigned by S&P or Moody’s but are not guaranteed by a

pledge of the full faith and credit of the United States of America; and (c) Advance Refunded Municipal Securities (hereinafter defined).

The term “Advance Refunded Municipal Securities” is defined in the Paying Agent Agreement to mean any bonds or other obligations of any state of the United States of America or of any agency, instrumentality or local government unit of any such state (a) which are not callable prior to maturity or as to which irrevocable instructions have been given to the trustee, fiscal agent or other fiduciary for such bonds or other obligations by the obligor to give due notice of redemption and to call such bonds or other obligations for redemption on the date or dates specified in such instructions, (b) which are secured as to principal and interest and redemption premium, if any, by a fund consisting only of cash, direct U.S. or U.S. guaranteed obligations, or any combination thereof, which fund may be applied only to the payment of such principal of and interest and redemption premium, if any, on such bonds or other obligations on the maturity date or dates thereof or the redemption date or dates specified in the irrevocable instructions referred to in clause (a) above, as appropriate, and (c) as to which the principal of and interest on the bonds and obligations of the character described in clause (a) above which have been deposited in such fund, along with any cash on deposit in such fund, have been verified by an independent certified public accountant as being sufficient to pay principal of and interest and redemption premium, if any, on such bonds or other obligations on the maturity date or dates thereof or on the redemption date or dates specified in the irrevocable instructions referred to in clause (a) above, as applicable.

The term “Verification Report” is defined in the Paying Agent Agreement to mean a report of a nationally recognized certified public accountant, or firm of such accountants, verifying that the Defeasance Securities and cash, if any, deposited in connection with the deemed payment of the Prior Bonds satisfy requirements of the Paying Agent Agreement.

Unclaimed Moneys. The Paying Agent Agreement provides that any moneys held by the Paying Agent in trust for the payment and discharge of the principal of, or interest or premium on, any Refunding Bonds and remaining unclaimed for two years after the principal of all of the Refunding Bonds has become due and payable (whether by maturity or upon prior redemption) shall be transferred to the Interest and Sinking Fund of the District for payment of any outstanding bonds of the District payable from such fund or, if no such bonds of the District are at such time outstanding, such moneys shall be transferred to the general fund of the District as provided and permitted by law.

SECURITY AND SOURCES OF PAYMENT FOR THE REFUNDING BONDS

General Description

The Refunding Bonds are payable from *ad valorem* property taxes levied by the County on taxpayers within the District. The Board of Supervisors of the County has the power and is obligated under State law pursuant to the authority granted by voters of the District relating to the Authorizations to annually levy *ad valorem* taxes upon all property subject to taxation by the District, without limitation as to rate or amount (except as to certain personal property which is taxable at limited rates), for the payment of the principal of and interest on the Refunding Bonds. Such *ad valorem* property taxes are deposited in the Interest and Sinking Fund for the Refunding Bonds held by the County and applied only to pay the principal of and interest on the Refunding Bonds. Such taxes are in addition to other taxes levied upon property within the District that are deposited by the County in the General Fund of the District.

California Constitutional and Statutory Provisions Relating to *Ad Valorem* Property Taxes

Article XIII A of the California Constitution. On June 6, 1978, California voters approved Proposition 13, adding Article XIII A to the California Constitution. Article XIII A, among other things, affects the valuation of real property for the purpose of taxation in that it defines the full cash property value

to mean “the county assessor’s valuation of real property as shown on the 1975/76 tax bill under ‘full cash value,’ or thereafter, the appraised value of real property newly constructed, or when a change in ownership has occurred after the 1975 assessment.” The full cash value may be adjusted annually to reflect inflation at a rate not to exceed 2% per year, or a reduction in the consumer price index or comparable local data for the area under taxing jurisdiction, or reduced in the event of declining property value caused by substantial damage, destruction or other factors including a general economic downturn. Any reduction in assessed value is temporary and may be adjusted for any given year by the Assessor. The assessed value increases to its pre-reduction level (escalated to the annual inflation rate of no more than two percent) following the year(s) for which the reduction is applied. Article XIII A further limits the amount of any *ad valorem* tax on real property to 1% of the full cash value except that additional taxes may be levied to pay (i) debt service on indebtedness approved by the voters prior to July 1, 1978, (ii) bonded indebtedness for the acquisition or improvement of real property approved on or after July 1, 1978 by two thirds of the votes cast by the voters voting on the proposition; and (iii) bonded indebtedness incurred by a school district, community college district or county office of education (which is separate from the County) for the construction, reconstruction, rehabilitation or replacement of school facilities or the acquisition or lease of real property for school facilities, approved by 55% of the voters of the school district, community college district or the County, as appropriate, but only if certain accountability measures are included in the proposition.

On June 3, 1986, California voters approved Proposition 46, which added an additional exemption to the 1% tax limitation imposed by Article XIII A. Under this amendment to Article XIII A, local governments and school districts may increase the *ad valorem* property tax rate above 1% for the period necessary to retire new general obligation bonds, if two-thirds of those voting in a local election approve the issuance of such bonds and the money raised through the sale of the bonds is used exclusively to purchase or improve real property.

Future assessed valuation growth allowed under Article XIII A due to new construction, change of ownership, or growth up to the permitted 2% inflation factor will be allocated on the basis of “situs” among the jurisdictions that serve the tax rate area within which the growth occurs. Local agencies and school districts will share the growth of “base” revenue from the tax rate area. Each year’s growth allocation becomes part of each agency’s allocation the following year. The District is unable to predict the nature or magnitude of future revenue sources which may be provided by the State to replace lost property tax revenues. Article XIII A effectively prohibits the levying of any other *ad valorem* property tax above the 1% limit except for taxes to support indebtedness approved by the voters as described above.

Legislation Implementing Article XIII A. Legislation has been enacted and amended a number of times since 1978 to implement Article XIII A. Under current law, local agencies are no longer permitted to levy directly any property tax. The 1% *ad valorem* property tax is automatically levied by the County and distributed according to a formula among taxing agencies. Any such allocation made to a local agency continues as part of its allocation in future years. Separate *ad valorem* property taxes to pay voter approved indebtedness such as the Refunding Bonds are levied by the County on behalf of the local agencies. Article XIII A effectively prohibits the levying of any other *ad valorem* property tax above the Proposition 13 limit except for taxes to support such indebtedness.

The full cash value of taxable property under Article XIII A represents the maximum taxable value for property. Accordingly, the fair market value for a given property may not be the equivalent of the full cash value under Article XIII A. During periods in which the real estate market within the District evidences an upward trend, the fair market value for a given property, which has not been reappraised due to a change in ownership, may exceed the full cash value of such property. During periods in which the real estate market demonstrates a downward trend, the fair market value of a given property may be less than the full cash value of such property and the property owner may apply for a “decline in value” reassessment pursuant to Proposition 8 (“Proposition 8 Reassessments”). Proposition 8 Reassessments, if approved by the Office of the County Assessor, lower valuations of properties (where no change in ownership has occurred) if the

current value of such property is lower than the full cash value of record of the property. The value of a property reassessed as a result of a decline in value may change, but in no case may its full cash value exceed its fair market value. When and if the fair market value of a property which has received a Proposition 8 Reassessment increases above its Proposition 13 factored base year value, the Office of the County Assessor will enroll such property at its Proposition 13 factored base year value.

Legislation enacted by the California Legislature to implement Article XIII A provides that all taxable property is shown at full assessed value as described above. In conformity with this procedure, all taxable property value included in this Official Statement (except as noted) is shown at 100% of assessed value and all general tax rates reflect \$1 per \$100 of taxable value. Tax rates for voter approved bonded indebtedness are also applied to 100% of assessed value.

Fiscal Year Debt Service

The following table sets forth the semi-annual debt service obligations in each Fiscal Year for all of the District's outstanding general obligation bonds. See Appendix A - "District Financial Information and Regional Economic and Demographic Information - District Financial Information - District Debt" attached hereto.

General Obligation Bonds, Semi-Annual Debt Service Schedule by Series
(\$ in millions)

⁽¹⁾ Excludes the Prior Bonds and the Refunding Bonds.

⁽²⁾ Includes debt service related to outstanding general obligation refunding bonds related to such Authorization.

⁽³⁾ Excludes federal subsidies related to Build America Bonds and Qualified School Construction Bonds.

Assessed Valuation of Property within the District

General. As required by State law, the District uses the services of the County for the assessment and collection of taxes for District purposes. District taxes are collected at the same time and on the same tax rolls as are the County, the City of Los Angeles and other local agency and special district taxes.

State law exempts \$7,000 of the full cash value of an owner-occupied dwelling from property tax, but this exemption does not result in any loss of revenue to local entities, including the District, because an amount equivalent to the taxes which would have been payable on such exempt values is paid by the State to the County for distribution to local agencies.

The County levies property taxes on behalf of taxing agencies in the County for each fiscal year on taxable real and personal property which is situated in the County as of the preceding January 1. However, upon a change in ownership of property or completion of new construction, State law permits an accelerated recognition and taxation of increases or decreases in real property assessed valuation (the "Supplemental Assessment"). In such instances, the property is reassessed and a supplemental tax bill is sent to the new owner based on the new value prorated for the balance of the tax year. Accordingly, each school district is to receive allocations of revenue from such Supplemental Assessments and, in accordance with various apportionment factors, to the County, the County superintendent of schools, each community college district, each city and each special district within the County. Such allocations are to be from amounts remaining after allocations to each redevelopment agency in the County in connection with the 1% *ad valorem* property tax levy.

Under State law, property is subject to annual reviews that are initiated by the related county's assessor relating to decline-in-value in addition to Proposition 8 Reassessment reviews initiated by property owners. See "- Legislation Implementing Article XIII A" herein. In 2010, the Officer of the Assessor of the County of Los Angeles received 36,400 assessment appeals, which was a decrease from the 41,800 assessment appeals received in calendar year 2009. In 2011, the Office of the Assessor conducted proactive decline-in-value reviews of 446,000 single-family residences and condominiums in the County that resulted in lower assessments on 393,000 properties, for which the full cash value of the property shown on the Fiscal Year 2010-11 tax bill was more than the fair market value as of January 1, 2011. Decline-in-value changes and other adjustments reduced the County's total assessed valuation by approximately \$4.9 billion for Fiscal Year 2011-12. The decline-in-value changes and other adjustments for 2011-12 for the County were offset by increases of \$12.8 billion attributable to properties sold and transferred, \$6.1 billion attributable to Proposition 13 inflation adjustments and \$3.9 billion attributable to new construction. Foreclosures in the County declined by approximately 13.1% in 2010 relative to 2009, from 36,500 to 31,700.

In December 2011, the County Assessor projected that the gross assessed valuation of property within the boundaries of the County for Fiscal Year 2012-13 would increase by approximately \$18.7 billion compared to the gross assessed valuation in Fiscal Year 2011-12. In April 2012, the County Assessor issued an updated projection which stated that the gross assessed valuation of property within the boundaries of the County for Fiscal Year 2012-13 would increase by approximately \$5.1 billion compared to the gross assessed valuation in Fiscal Year 2011-12. The County Board estimated that the reduced assessed valuation projection represents a reduction of approximately \$50 million in property tax receipts for the County and will also impact cities, school districts, community college districts and other special districts. The County Assessor's projected growth in assessed valuation within the County declined from 1.77% to 0.68%. The County Board has requested that the County Auditor conduct a comprehensive audit of the County Assessor's operations and retain an outside consultant to conduct an independent review of the County Assessor and its projections.

The District cannot predict the results of the reviews and audits of the County Assessor. Further, the District cannot predict the extent to which the County Assessor's projections will reflect the actual assessed

valuation of property within the County for Fiscal Year 2012-13. Accordingly, the District cannot project the amount by which the assessed valuation of property within the County will increase or decrease the portion of the revenue limit revenues derived from the local property tax revenues for Fiscal Year 2012-13. However, to the extent that the portion of the District's revenue limit revenues derived from local property tax revenues is reduced, the State would be required to increase the State Aid portion of the revenue limit to ensure that the District continued to receive the required level of revenue limit funding under State law. Notwithstanding the revised projections of the County Assessor with respect to assessed valuation of property within the County, the District does not expect tax rates for Fiscal Year 2012-13 to be materially different than those currently estimated by the District.

The following Table 2 sets forth the gross assessed valuation of taxable property within the boundaries of the District in Fiscal Years 2002-03 through 2011-12.

Tax Rates, Levies and Collections. Taxes are levied for each Fiscal Year on taxable real and personal property as of the preceding January 1. Real property that changes ownership or is newly constructed is revalued at the time the change occurs or the construction is completed. The current year property tax rate is applied to the reassessed value, and the taxes are then adjusted by a proration factor that reflects the portion of the remaining tax year for which taxes are due. The annual tax rate is based on the amount necessary to pay all obligations payable from *ad valorem* property taxes and the assessed value of taxable property in a given year. Economic and other factors beyond the District's control, such as a general market decline in land values, reclassification of property to a class exempt from taxation, whether by ownership or use (such as exemptions for property owned by State and local agencies and property used for qualified educational, hospital, charitable or religious purposes), or the complete or partial destruction of taxable property caused by natural or manmade disaster such as earthquake, flood, toxic dumping, etc., could cause a reduction in the assessed value of taxable property within the District and necessitate a corresponding

increase in the annual tax rate to be levied to pay the principal of and interest on the District's outstanding general obligation bonds.

For assessment and collection purposes, property is classified as either "secured" or "unsecured" and is listed accordingly on separate parts of the assessment roll. The "secured roll" is that part of the assessment roll containing property (real or personal) the taxes on which are a lien sufficient, in the opinion of the County Assessor, to secure payment of the taxes. Other property is listed on the "unsecured roll."

Property taxes on the secured roll are due in two installments, on November 1 and February 1 of each fiscal year, and become delinquent on December 10 and April 10, respectively. A penalty of 10% attaches immediately to all delinquent payments. Properties on the secured roll with respect to which taxes are delinquent become tax defaulted on or about June 30 of the fiscal year. Such property may thereafter be redeemed by payment of a penalty of 1.5% per month to the time of redemption, plus costs and a redemption fee. If taxes are unpaid for a period of five years or more, the property is deeded to the State and then may be sold at public auction by the County Treasurer and Tax Collector.

Property taxes on the unsecured roll are due in one payment on the January 1 lien date and become delinquent after August 31. A 10% penalty attaches to delinquent unsecured taxes. If unsecured taxes are unpaid at 5 p.m. on October 31, an additional penalty of 1.5% attaches to them on the first day of each month until paid. The County has four ways of collecting delinquent unsecured personal property taxes: (i) a civil action against the taxpayer; (ii) filing a judgment in the office of the County Clerk specifying certain facts in order to obtain a lien on certain property of the taxpayer; (iii) filing a certificate of delinquency for record in the County Recorder's office in order to obtain a lien on certain property of the taxpayer; and (iv) seizure and sale of personal property, improvements or possessory interests belonging or assessed to the assessee.

Proposition 13 and its implementing legislation impose the function of property tax allocation on counties in the State and prescribe how levies on countywide property values are to be shared with local taxing entities within each county. The limitations in Proposition 13, however, do not apply to *ad valorem* property taxes or special assessments to pay the interest and redemption charges on indebtedness, like the District's general obligation bonds, approved by the voters.

The County levies a 1% *ad valorem* property tax on behalf of all taxing agencies in the County. The taxes collected are allocated on the basis of a formula established by State law enacted in 1979. Under this formula, the County and all other taxing entities receive a base year allocation plus an allocation on the basis of "situated" growth in assessed value (new construction, change of ownership, inflation) prorated among the jurisdictions that serve the tax rate areas within which the growth occurs. Tax rate areas are specifically defined geographic areas, which were developed to permit the levying of taxes for less than county-wide or less than city-wide special and school districts. In addition, the County levies and collects additional approved property taxes and assessments on behalf of any taxing agency within the County.

State Government Code Sections 29100 through 29107 provide the procedures that all counties must follow for calculating tax rates. The secured tax levy within the District consists of the District's share of the 1% general *ad valorem* property and unitary taxes assessed on a County-wide basis and amounts levied that are in excess of the 1% general *ad valorem* property taxes. These tax receipts are part of the District's operations. In addition, the secured tax levy also includes the amount for the District's share of special voter-approved *ad valorem* property taxes assessed on a District-wide basis, such as the *ad valorem* property taxes assessed for the District's general obligation bonds issued pursuant to the Authorizations and any related general obligation refunding bonds. *Ad valorem* property taxes levied for general obligation bonds are deposited with the County and may only be applied to pay the principal of, redemption premium, if any, and interest on the District's general obligation bonds and general obligation refunding bonds. The District does not receive such funds nor are they available to pay any of the District's operating expenses. In addition, the total secured tax levy includes special assessments, improvement bonds, supplemental taxes or

other charges which have been assessed on property within the District. Since State law allows homeowners' exemptions (described above) and certain business exemptions from *ad valorem* property taxation, such exemptions are not included in the total secured tax levy. See "California Constitutional and Statutory Provisions Relating to *Ad Valorem* Property Taxes, District Revenues and Appropriations" herein.

Further, State Education Code Section 15251 provides that all taxes levied with respect to general obligation bonds when collected will be paid into the county treasury of the county whose superintendent of schools has jurisdiction over the school district on behalf of which the tax was levied, to the credit of the debt service fund (or interest and sinking fund) of the school district, and will be used for the payment of the principal of and interest on the general obligation bonds and general obligation refunding bonds of the school district and for no other purpose. Accordingly, the County may not borrow or spend such amounts nor can the District receive such funds and use them for operating purposes.

The following Table 5 sets forth the tax rates for the general percentage of the levy applied to all property owners for all of the District's outstanding general obligation bonds and general obligation refunding bonds and State school loan repayment and the total overlapping tax rate levied on real property owners within the District from the Fiscal Years 2001-02 through 2011-12.

⁽¹⁾ Excludes taxpayers with values derived from mineral rights or a possessory interest. Historically, among the top 10 taxpayers within the District are landowners with primary land use of oil and gas production, including Atlantic Richfield Company, Tosco Corporation and Ultramar Inc., which are not reflected in the table above.

⁽²⁾ Percentages are based upon total Fiscal Year 2011-12 Local Secured Assessed Valuation of \$447,659,366,261, based upon a calculation of the total secured assessed valuation less local utility and non-unitary valuations, as reported by California Municipal Statistics, Inc.

Source: California Municipal Statistics, Inc.

The District's General Obligation Bond Program and Bonding Capacity

Voters within the District have approved a total of \$20.605 billion of general obligation bonds in five separate bond elections since 1997. See Appendix A – “District Financial Information and Regional Economic and Demographic Information – District Debt” attached hereto for additional information regarding the District's outstanding general obligation bonds. Pursuant to Sections 15106 of the Education Code, the District's bonding capacity for general obligation bonds may not exceed 2.5% of taxable property value in the District as shown by the last equalized assessment of the County. The taxable property value in the District for Fiscal Year 2011-12 is \$469.1 billion, which results in a total current bonding capacity of approximately \$11.7 billion.

In October 2011, the District received estimates of projected assessed valuation in the District's boundaries from a private econometrics firm. The econometrics model projected annual increases in the District's assessed valuation base over the foreseeable future. See " - Assessed Valuation of Property within the District" herein. The issuance of additional series of general obligation bonds, other than general obligation refunding bonds, in future years will depend upon, among other things, the assessed valuation of property within the District's boundaries, as determined by the District's analysis of information from, among other sources, the Office of the County Assessor. The District currently has approximately \$434.84 million of unused bonding capacity for the issuance of additional new general obligation bonds. The District does not presently expect to issue additional general obligation bonds other than general obligation refunding bonds. See "Security and Sources of Payment for the Refunding Bonds – California Constitutional and Statutory Provisions Relating to *Ad Valorem* Property Taxes" herein.

Measure K, Measure R, Measure Y and Measure Q Projects

The table below summarizes the major categories of \$18.2 billion of projects identified pursuant to Measure K, Measure R, Measure Y and Measure Q authorized to be funded pursuant to their respective authorizations and the District's expected allocation of bond proceeds to each major category of projects, some of which are expected to be funded from future bond issuances. At least \$7.3 billion of State matching funds and other revenue sources have been or are expected to be allocated to the Measure K Projects, the school projects (collectively, the "Measure R Projects") approved by voters in the March 2, 2004 election approving Measure R (the "Measure R Authorization"), and the Measure Y Projects. In addition, the District previously issued all of the \$2.4 billion of general obligation bonds, which were authorized pursuant to the authorization received from voters of the District in the April 8, 1997 election approving Proposition BB (the "Proposition BB Authorization"), to fund land acquisition, school construction and modernization and technology projects. Accordingly, the aggregate total of sources of funds is expected to be approximately \$27.9 billion.

TABLE 8
Los Angeles Unified School District
Summary of Measure K Projects, Measure R Projects, Measure Y Projects and Measure Q Projects
and Target Funding Amounts
(\$ in millions)

Category of Project	Measure K⁽¹⁾ (2002)	Measure R⁽²⁾ (2004)	Measure Y⁽³⁾ (2005)	Measure Q (2008)
School Construction	\$2,580	\$1,837	\$2,630	\$1,130
Repair	526	1,563	690	2,680
Refinancing of Certificates of Participation Payments	--	150	190	--
Technology	66	140	125	1,925

TAX MATTERS

General.

The Internal Revenue Code of 1986, as amended (the “Code”) imposes certain requirements that must be met at and subsequent to the issuance and delivery of the Refunding Bonds for interest thereon to be and remain not includable in gross income under Section 103 of the Code. Non-compliance with such requirements could cause the interest on the Refunding Bonds to be includable in gross income for federal income tax purposes retroactive to the date of their issuance irrespective of the date on which such noncompliance occurs. The District has covenanted in the District Resolution and will covenant in the Tax Certificate to be executed and delivered by the District in connection with the issuance of the Refunding Bonds to comply with the applicable requirements of the Code in order maintain the exclusion of the interest on the Refunding Bonds from gross income for purposes of federal income taxation under Section 103 of the Code.

In the opinion of Sidley Austin LLP, Bond Counsel to the District, based on existing law and assuming compliance by the District with the requirements of the Code and the covenants described above, interest on the Refunding Bonds will not be included in the gross income of the owners thereof for purposes

of federal income taxation under Section 103 of the Code. Interest on the Refunding Bonds may be includable in gross income for purposes of federal income taxation retroactive to their date of issuance if the District fails to comply, subsequent to the issuance of the Refunding Bonds, with the covenants described above, including covenants relating to compliance with certain requirements of the Code and covenants regarding the use, expenditure and investment of the Refunding Bond proceeds and the timely payment of certain investment earnings to the U.S. Treasury. Sidley Austin LLP will render no opinion as to the effect on the exclusion from gross income of interest on the Refunding Bonds of any action taken or not taken after the date of such opinion upon the advice or approval of other counsel.

In the opinion of Sidley Austin LLP, Bond Counsel, under existing law, interest on the Refunding Bonds will not be treated as an item of tax preference in calculating the alternative minimum tax imposed on individuals and corporations under the Code; however, interest on the Refunding Bonds owned by a corporation will be included in the calculation of the corporation's alternative minimum tax liability. The Code contains other provisions that could result in tax consequences, upon which no opinion will be rendered by Bond Counsel, as a result of ownership of the Refunding Bonds or the inclusion in certain computations (including, without limitation, those related to the corporate alternative minimum tax) of interest that is excluded from gross income.

Ownership of tax-exempt obligations may result in collateral federal income tax consequences to certain taxpayers, including, without limitation, financial institutions, property and casualty insurance companies, certain foreign corporations doing business in the United States, certain S-corporations with excess passive income, individual recipients of Social Security or Railroad Retirement benefits, taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations and taxpayers who may be eligible for the earned income tax credit. Prospective purchasers of the Refunding Bonds should consult their tax advisors as to the applicability of any such collateral consequences.

In the opinion of Sidley Austin LLP, Bond Counsel, under existing law, the interest on the Refunding Bonds will be exempt from personal income taxes imposed by the State of California.

Original Issue Discount.

The excess, if any, of the amount payable at maturity of any maturity of the Refunding Bonds purchased as part of the initial public offering over the issue price thereof constitutes original issue discount. The amount of original issue discount that has accrued and is properly allocable to an owner of any maturity of the Refunding Bonds with original issue discount (the "Discount Bonds"), will be excluded from gross income for purposes of federal income taxation to the same extent as interest on the Refunding Bonds. In general, the issue price of a maturity of the Refunding Bonds is the first price at which a substantial amount of the Refunding Bonds of that maturity was sold (excluding sales to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers) and the amount of original issue discount accrues in accordance with a constant yield method based on the compounding of interest. A purchaser's adjusted basis in a Discount Bond is increased by the amount of such accruing discount for purposes of determining taxable gain or loss on the sale or other disposition of such Discount Bond for purposes of federal income taxation. A portion of the original issue discount that accrues in each year to an owner of a Discount Bond that is a corporation will be included in the calculation of the corporation's federal alternative minimum tax liability. In addition, original issue discount that accrues in each year to an owner of a Discount Bond will be included in the calculation of the distribution requirements of certain regulated investment companies and may result in some of the collateral federal income tax consequences discussed above. Consequently, owners of any Discount Bond should be aware that the accrual of original issue discount in each year may result in an alternative minimum tax liability, additional distribution requirements or other collateral federal income tax consequences although the owner of such Discount Bond has not received cash attributable to such original issue discount in such year.

The accrual of original issue discount and its effect on the redemption, sale or other disposition of a Discount Bond that is not purchased in the initial offering at the first price at which a substantial amount of such substantially identical Refunding Bonds is sold to the public may be determined according to rules that differ from those described above.

Owners of Discount Bonds should consult their tax advisors with respect to the determination for purposes of federal income taxation of the amount of original issue discount or interest properly accruable with respect to such Discount Bonds and with respect to State of California and local tax consequences of owning and disposing of Discount Bonds.

Premium Bonds.

The excess, if any, of the tax adjusted basis of the Refunding Bonds purchased as part of the initial public offering to a purchaser (other than a purchaser who holds such Refunding Bonds as inventory, stock in trade or for sale to customers in the ordinary course of business) over the amount payable at maturity is “bond premium.” Bond premium is amortized over the term of such Refunding Bonds for purposes of federal income taxation (or, in the case of a bond with bond premium callable prior to its stated maturity, the amortization period and yield may be required to be determined on the basis of an earlier call date that results in the lowest yield on such bond). Owners of such Refunding Bonds are required to decrease their adjusted basis in such Refunding Bonds by the amount of amortizable bond premium attributable to each taxable year such Refunding Bonds are held. The amortizable bond premium on such Refunding Bonds attributable to a taxable year is not deductible for federal income tax purposes; however, bond premium is treated as an offset to qualified stated interest received on such Refunding Bonds. Owners of such Refunding Bonds should consult their tax advisors with respect to the determination for federal income tax purposes of the treatment of bond premium upon sale or other disposition of such Refunding Bonds and with respect to the state and local tax consequences of owning and disposing of such Refunding Bonds.

Backup Withholding.

Interest paid on the Refunding Bonds will be subject to information reporting in a manner similar to interest paid on taxable obligations. Although such reporting requirement does not, in and of itself, affect the excludability of such interest from gross income for purposes of federal income taxation, such reporting requirement causes the payment of interest on the Refunding Bonds to be subject to backup withholding if such interest is paid to beneficial owners who (a) are not “exempt recipients,” and (b) either fail to provide certain identifying information (such as the beneficial owner’s taxpayer identification number) in the required manner or have been identified by the IRS as having failed to report all interest and dividends required to be shown on their income tax returns. Generally, individuals are not exempt recipients. Amounts withheld under the backup withholding rules from a payment to a beneficial owner would be allowed as a refund or a credit against such beneficial owner’s federal income tax liability provided the required information is furnished to the IRS.

Future Developments.

Future or pending legislative proposals, if enacted, regulations, rulings or court decisions may cause interest on the Refunding Bonds to be subject, directly or indirectly, to federal income taxation or to State or local income taxation, or may otherwise prevent beneficial owners from realizing the full current benefit of the tax status of such interest. Legislation or regulatory actions and future or pending proposals may also affect the economic value of the federal or state tax exemption or the market value of the Refunding Bonds. Prospective purchasers of the Refunding Bonds should consult their tax advisors regarding any future, pending or proposed federal or State tax legislation, regulations, rulings or litigation as to which Bond Counsel expresses no opinion.

For example, based on a proposal by the President, the Senate Majority Leader introduced a bill, S. 1549 (the “Proposed Legislation”), which, if enacted, would subject interest on bonds that is otherwise excludable from gross income for federal income tax purposes, including interest on the Refunding Bonds, to a tax payable by certain bondholders that are individuals, estates or trusts with adjusted gross income in excess of thresholds specified in the Proposed Legislation in tax years beginning after December 31, 2012. The Proposed Legislation would also provide special rules for such bondholders that are also subject to the alternative minimum tax. It is unclear if the Proposed Legislation will be enacted, whether in its current or an amended form, or if other legislation that would subject interest on the Refunding Bonds to a tax or cause interest on the Refunding Bonds to be included in the computation of a tax, will be introduced or enacted. Prospective purchasers should consult their tax advisors as to the effect of the Proposed Legislation, if enacted, in its current form or as it may be amended, or such other legislation on their individual situations.

LEGAL MATTERS

Continuing Disclosure

The District has covenanted for the benefit of the holders and beneficial owners of the Refunding Bonds to provide certain financial information and operating data relating to the District (the “Annual Report”) for each fiscal year by not later than 240 days following the end of the District’s fiscal year (currently ending June 30) commencing with the Annual Report for Fiscal Year 2011-12, and to provide notices of the occurrence of certain Listed Events. The District will provide or cause to be provided the Annual Report and these notices to the Municipal Securities Rulemaking Board through its Electronic Municipal Market Access system, emma.msrb.org, in the manner prescribed by the SEC. Copies of the District’s previous annual reports and notices of event filings are also available at the website of Digital Assurance Certification, L.L.C., www.dacbond.com, although the information presented there is not incorporated by reference in this Official Statement and should not be relied upon in making an investment decision with respect to the Refunding Bonds. The specific nature of the information to be contained in the Annual Report and a notice of a Listed Event is set forth in Appendix E – “Form of Continuing Disclosure Certificate” attached hereto. These covenants have been made in order to assist the Underwriters in complying with SEC Rule 15c2-12(b)(5) (the “Rule”). The District has complied in all material respects in the last five years with each of its previous undertakings with regard to the Rule to provide annual reports and notices of events as required in its continuing disclosure undertakings.

Limitation on Remedies; Amounts Held in the County Treasury Pool

The proposed form of opinion of Bond Counsel, attached hereto as Appendix D, is qualified by reference to bankruptcy, insolvency and other laws relating to or affecting creditor’s rights. Bankruptcy proceedings, if initiated, could subject the owners of the Refunding Bonds to judicial discretion and interpretation of their rights in bankruptcy or otherwise, and consequently may entail risks of delay, limitation, or modification of their rights.

The County on behalf of the District is expected to be in possession of the annual *ad valorem* property taxes and certain funds to repay the Refunding Bonds and may invest these funds in the County’s Treasury Pool, as described in Appendix F – “Los Angeles County Treasury Pool” attached hereto. In the event the District or the County were to go into bankruptcy, a federal bankruptcy court might hold that the owners of the Refunding Bonds are unsecured creditors with respect to any funds received by the District or the County prior to the bankruptcy, which may include *ad valorem* property taxes that have been collected and deposited into the applicable Interest and Sinking Fund, where such amounts are deposited into the County Treasury Pool, and such amounts may not be available for payment of the principal of and interest on the Refunding Bonds unless the owners of the Refunding Bonds can “trace” those funds. There can be no assurance that the Owners could successfully so “trace” such taxes on deposit in the applicable Interest and

Sinking Fund where such amounts are invested in the County Treasury Pool. The County is required by law to annually levy *ad valorem* taxes upon all property subject to taxation by the District, without limitation as to rate or amount (except as to certain personal property which is taxable at limited rates), for the payment of the principal of and interest on the Refunding Bonds.

Legality for Investment in the State

Under provisions of the State Financial Code, the Refunding Bonds are legal investments for commercial banks in the State to the extent that the Refunding Bonds, in the informed opinion of said bank, are prudent for the investment of funds of depositors, and, under provisions of the California Government Code, are eligible for security for deposits of public moneys in the State.

Certain Legal Matters

The validity of the Refunding Bonds and certain other legal matters are subject to the approving opinion of Sidley Austin LLP, San Francisco, California, Bond Counsel to the District, and certain other conditions. A complete copy of the proposed form of opinion of Bond Counsel with respect to the Refunding Bonds is contained in Appendix D, attached hereto. Bond Counsel undertakes no responsibility for the accuracy, completeness or fairness of this Official Statement. Certain legal matters will also be passed upon for the District by its General Counsel and by the District's Disclosure Counsel, Hawkins Delafield & Wood LLP, Los Angeles, California, and for the Underwriters by their counsel, Nossaman LLP, Irvine, California.

FINANCIAL STATEMENTS

The District's Comprehensive Annual Financial Report for Fiscal Year Ended June 30, 2011 (the "Fiscal Year 2010-11 CAFR"), including its general purpose financial statements for the Fiscal Year ended June 30, 2011 is attached hereto as Appendix B. The basic financial statements of the District for the Fiscal Year 2010-11 have been audited by Simpson & Simpson, independent certified public accountants, as stated in their report appearing in Appendix B. The District has not requested nor has the District obtained the consent of Simpson & Simpson to the inclusion of its report in Appendix B. Simpson & Simpson has not been engaged to perform and has not performed, since the date of its report included herein, any procedures on the financial statements addressed in that report. Simpson & Simpson has not been requested to perform and has not performed any procedures relating to the Official Statement.

LITIGATION

There is no litigation pending against the District or, to the knowledge of its respective executive officers, threatened, seeking to restrain or enjoin the issuance, sale, execution or delivery of the Refunding Bonds or in any way contesting or affecting the validity of the Refunding Bonds or the Authorizations or any proceedings of the District taken with respect to the issuance or sale thereof, or the levy or application of *ad valorem* property taxes for the payment of principal of and interest on the Refunding Bonds or the use of the proceeds of the Refunding Bonds. There are no pending lawsuits that, in the opinion of the District's General Counsel, challenge the validity of the Refunding Bonds, the existence of the District, or the title of the executive officers to their respective offices. There are a number of lawsuits and claims pending against the District. In the opinion of the District, the aggregate amount of the uninsured liabilities of the District under these lawsuits and claims will not materially affect the finances of the District. See Appendix A - "District Financial Information and Regional Economic and Demographic Information" attached hereto.

MISCELLANEOUS

Ratings

Moody's and S&P have assigned their municipal bond ratings of "Aa2" and "AA-", respectively, to the Refunding Bonds. The District has furnished to each rating agency certain materials and information with respect to itself and the Refunding Bonds. Generally, rating agencies base their ratings on such information and materials and on their own investigations, studies and assumptions. Each rating reflects only the view of the respective rating agency, and any explanation of the significance of such rating may be obtained only from the issuing rating agency furnishing the same, at the following addresses: Moody's Investors Service, Inc., 7 World Trade Center at 250 Greenwich Street, New York, New York 10007, telephone: (212) 533-0300 and Standard & Poor's, 55 Water Street, New York, New York 10041, telephone: (212) 438-2124. There is no assurance that any such rating will continue for any given period of time or that it will not be revised downward or withdrawn entirely by such rating agency, if, in its judgment, circumstances so warrant. Any such downward revision or withdrawal of any such rating may have an adverse effect on the market price of the Refunding Bonds.

Financial Advisor

The District has retained First Southwest Company and Annette Yee and Company, LLC, as Co-Financial Advisors (the "Co-Financial Advisors") in connection with the issuance of the Refunding Bonds and certain other financial matters. The Co-Financial Advisors are not obligated to undertake and have not undertaken to make an independent verification of the accuracy, completeness or fairness of the information contained in this Official Statement.

Verification of Mathematical Computations

Upon the delivery of the Refunding Bonds, Causey Demgen & Moore Inc. (the "Verification Agent"), will deliver a report stating that the firm has verified the mathematical accuracy of the schedules with respect to the sufficiency of the Escrow Fund established to pay, when due, the principal of, redemption premium and interest on the Prior Bonds to be refunded in full on the dates of redemption thereof. The scope of the verification will be based solely on information and assumptions provided to the Verification Agent by the Underwriters. The Verification Agent will express no opinion on the assumptions provided by it to the Underwriters, nor as to the exemption from taxation of the interest on the Refunding Bonds.

Underwriting

The Refunding Bonds are being purchased by E. J. De La Rosa & Co., Inc., Morgan Stanley & Co. LLC and Rice Financial Products Company (collectively, the "Underwriters"), for whom E. J. De La Rosa & Co., Inc. is acting as representative. The Underwriters have agreed to purchase the Refunding Bonds at the purchase price of \$174,041,924.15 (which is equal to the aggregate principal amount of the Refunding Bonds, plus a net original issue premium of \$18,268,124.15 and less an underwriters' discount of \$226,200.00) pursuant to a Bond Purchase Agreement (the "Bond Purchase Agreement") relating to the Refunding Bonds.

Pursuant to the Bond Purchase Agreement, the Underwriters will purchase all of the Refunding Bonds if any of such Bonds are purchased. The respective Underwriters may offer and sell the Refunding Bonds to certain dealers and others at prices or yields different from the initial public offering prices or yields stated on the inside cover pages of this Official Statement. The initial public offering prices or yields may be changed from time to time by the respective Underwriters, as applicable.

De La Rosa & Co., one of the Underwriters of the Refunding Bonds, has entered into separate agreements with Credit Suisse Securities USA LLC, UnionBanc Investment Services LLC and City National Securities, Inc. for retail distribution of certain municipal securities offerings, at the original issue prices. Pursuant to said agreement, if applicable to the Bonds, De La Rosa & Co. will share a portion of its underwriting compensation with respect to the Refunding Bonds, with Credit Suisse Securities USA LLC, UnionBanc Investment Services LLC or City National Securities, Inc.

Additional Information

The purpose of this Official Statement is to supply information to prospective buyers of the Refunding Bonds. Quotations from and summaries of the Refunding Bonds, the District Resolution and the Paying Agent Agreement, and the constitutional provisions, statutes and other documents described herein do not purport to be complete, and reference is made to said documents, constitutional provisions and statutes for full and complete statements of their provisions. Copies of the District Resolution and the Paying Agent Agreement are available for inspection at the District by request to the Chief Financial Officer at (213) 241-7888, and following issuance of the Refunding Bonds will be on file at the corporate trust office of the Paying Agent.

Any statements in this Official Statement involving matters of opinion, whether or not expressly so stated, are intended as such and not as representations of fact. This Official Statement is not a contract or agreement between the District and the purchasers or owners of any of the Refunding Bonds.

Execution and Delivery

The District has duly authorized the execution and delivery of this Official Statement.

This Appendix A provides information concerning the operations and finances of the Los Angeles Unified School District (the “District”). The Refunding Bonds are general obligation bonds of the District, secured and payable from ad valorem property taxes assessed on taxable properties within the District. The Bonds are not an obligation of the County or of the general fund of the District. See “SECURITY AND SOURCES OF PAYMENT FOR THE REFUNDING BONDS” in the forepart of this Official Statement. See also “GLOSSARY OF CERTAIN TERMS AND ABBREVIATIONS” herein for a description of certain terms and abbreviations used in this Appendix A.

DISTRICT GENERAL INFORMATION

District Boundaries

The District, encompassing approximately 710 square miles, is located in the western section of the County and includes virtually all of the City of Los Angeles (the “City”) and all or significant portions of the Cities of Bell, Carson, Commerce, Cudahy, Gardena, Hawthorne, Huntington Park, Lomita, Maywood, Rancho Palos Verdes, San Fernando, South Gate, Vernon and West Hollywood, in addition to considerable unincorporated portions of the County which includes residential and industrial areas. The boundaries for the District are about 80% coterminous with the City, with the remaining 20% included in smaller neighboring cities and unincorporated County areas. The District was formed in 1854 as the Common Schools for the City and became a unified school district in 1960.

District Governance; Senior Management

The District is governed by a seven-member Board of Education (the “District Board”) elected by voters within the District to serve alternating four-year terms. The chief executive officer of the District, appointed by the District Board to manage the day-to-day operations of the District, is the Superintendent of Schools (the “Superintendent”). John E. Deasy currently serves as the Superintendent. Brief biographical information for Superintendent Deasy and other senior management of the District is set forth below.

John E. Deasy, Ed. D., Superintendent. Dr. Deasy was appointed to serve as the Superintendent on April 1, 2011. Prior to his appointment as Superintendent, Dr. Deasy served as a Deputy Superintendent for the District since August 2010, during which time he led the overall programmatic and systems work of the District. Prior to joining the District, Dr. Deasy served as the Deputy Director of Education at the Bill & Melinda Gates Foundation, Superintendent of the Prince George’s County Public Schools in Maryland, Superintendent of the Santa Monica-Malibu Unified School District in California and of the Coventry Public Schools in Rhode Island. Dr. Deasy has nearly three decades of experience in education and has written extensively on education and serves on numerous boards. He has been a Broad Fellow, an Annenberg Fellow, a State Superintendent of the Year, a presenter at numerous state and national conferences, and a consultant to school districts undertaking high school reform and district-wide improvement strategies. Dr. Deasy holds a Bachelor of Arts in Biology and Chemistry Education and a Master of Arts in Education Administration from Providence College and a Doctor of Philosophy in Education from the University of Louisville.

David Holmquist, General Counsel. Mr. Holmquist has served as the District’s General Counsel since October 1, 2009. As General Counsel for the District, Mr. Holmquist is responsible for administering the legal activities of the District’s legal staff and outside legal firms. In addition, he coordinates the District’s legal affairs, conducts litigation for the District and participates in trials related to matters of major importance to the District. Prior to his appointment as General Counsel, Mr. Holmquist served as Chief Operating Officer, Chief Risk Officer and as the Director of Risk Management and Insurance Services. Mr. Holmquist previously held positions with various public sector entities including Risk Manager of the

City of Beverly Hills from 1996 to 2003, Risk Manager of the City of Buena Park from 1987 to 1996, and Safety Coordinator for the City of Fullerton from 1986 to 1987. Mr. Holmquist earned a Bachelor of Science degree in Business Administration from Oregon State University in 1983 and his Juris Doctorate degree from Western State University in 1995. A frequent lecturer and speaker, Mr. Holmquist was admitted to practice law before both the California and federal courts in 1995 and serves as an adjunct professor at the University of Southern California.

Megan K. Reilly, Chief Financial Officer. Ms. Reilly began serving as the District's Chief Financial Officer in December 2007. Ms. Reilly served at the Naval Postgraduate School for 12 years, first as the Deputy Comptroller from 1995 to 1997 and then as Executive Director of Business Services and Comptroller from 1997 to 2007, during which time she directed a \$700 million financial management program for, among other things, education, facilities and capital improvement projects. Ms. Reilly has also served as the Comptroller of the Fleet Numerical Meteorology & Oceanography Center, Budget Analyst for the Naval Postgraduate School and Budget Analyst for the Department of the Navy Centralized Financial Management Trainee Program. Ms. Reilly graduated from Loyola College with a Bachelor of Science degree, Marion Knott Scholar, *cum laude*, from the Naval Postgraduate School with a Master of Science, Financial Management, and from Monterey College of Law with a Juris Doctorate.

Enrique Boull't, Chief Operating Officer. Mr. Boull't has been employed by the District for the past 34 years in a number of capacities. Currently, he is serving as the District's Interim Chief Operating Officer responsible for the administrative oversight of multiple business operations including Food Services, Procurement, Risk Management and Insurance Services, Transportation and Environmental Health and Safety. Mr. Boull't has over 20 years as a District administrator having served in various executive level positions with oversight of Transportation, Accounts Payable and Payroll Customer Support. He is a graduate of Cal State Dominguez Hills with a Bachelor of Arts degree in Interdisciplinary Studies with an emphasis on Labor Relations. Mr. Boull't is an active member of a number of professional organizations including the Association of California School Administrators, California Association of School Transportation Officials, School Transportation Coalition and the Schools Federal Credit Union Supervisory Committee.

Luis Buendia, Interim Controller. Mr. Buendia began serving as the District's Controller in February 2012. He has been employed by the District since 1990 in various capacities in both School Fiscal Services and Finance. Mr. Buendia served as Assistant Budget Director of Budget Services and Financial Planning from 2002 through 2008 and as Deputy Controller from 2008 through February 2012. Mr. Buendia graduated from De La Salle University, with a Bachelor of Science degree in Accounting, and received a Master of Business Administration degree from the Graziadio School of Business and Management at Pepperdine University. Mr. Buendia is a member of the Government Finance Officers Association.

John Walsh, Interim Director of Finance Policy. Mr. Walsh began serving as the District's Interim Director of Finance Policy in April 2012. Mr. Walsh served as Assistant General Counsel to the District from January 2002 to March 2012. Prior to joining the District, Mr. Walsh was an attorney with Best, Best & Krieger LLP and Crowell & Moring LLP. Mr. Walsh graduated from Queen's University with honors with Bachelor of Arts degree in History and Politics, graduated from American University with a Master of Arts degree in History, and graduated from Claremont Graduate School with a doctorate in History. Mr. Walsh graduated from Loyola Law School *cum laude* with a Juris Doctorate.

Timothy S. Rosnick, Deputy Controller. Mr. Rosnick joined the District in October 2006 and has served as the District's Controller since June 2008. Mr. Rosnick became Deputy Controller on June 13, 2011. He served as the District's Director of Accounting Controls from October 2006 through June 2007 and the Director of Treasury and Accounting Controls from July 2007 through June 2008. Prior to joining the District, Mr. Rosnick served as an Administrator at the Orange County Department of Education and as a Financial Officer with the Los Angeles County Office of Education. Mr. Rosnick graduated from the

University of Washington with a Bachelor of Arts degree with Distinction in Economics and received a Master of Business Administration degree from the University of Texas at Austin. Mr. Rosnick is a member of the Government Finance Officers Association.

Facilities and Staff

As of June 30, 2011, the District operated 437 elementary schools, 78 middle/junior high schools, 70 senior high schools, 56 options schools, 12 multi-level schools, 16 special education schools, 25 magnet schools and 145 magnet centers, 24 community adult schools, five regional occupational centers, five skills centers, one regional occupational program center, 100 early education centers, four infant centers and 23 primary school centers. In addition, as of June 30, 2011, there were 11 affiliated charter schools operated by the District and 171 fiscally independent charter schools within the District's boundaries. The District has certain fiscal oversight and other responsibilities with respect to both affiliated and fiscally independent charter schools. However, independent charter schools receive their funding directly from the State of California (the "State") and function as separate local educational agencies, including having control over their staffing and budget. Accordingly, information regarding enrollment, average daily attendance ("ADA"), budgets and other financial information relating to such independent charter schools is not included in the District's audit reports or in this Official Statement unless otherwise noted. See "State Funding of Education—Charter School Funding" herein.

As of June 30, 2011, the District employed approximately 43,702 certificated (full-time equivalent ("FTE")) employees, approximately 29,226 classified FTE employees and approximately 20,992 non-regular employees. The District also employs part-time and temporary employees.

Petitions have occasionally been filed with the Los Angeles County Office of Education ("LACOE") to divide portions of the District into smaller school districts. In addition, the County Committee on School District Organization has been periodically requested to approve petitions to form smaller school districts within the District. There are presently no petitions pending with LACOE or the County Committee on School District Organization to divide the District.

Academic Performance and Instructional Initiatives

Public Schools Accountability Act of 1999. The California's Public Schools Accountability Act of 1999 (the "PSAA") established the State's Academic Performance Index ("API"), which is the State's basic measurement of academic progress. In order to calculate the API, which score ranges from 200 to 1000, the California Department of Education analyzes the results from the Standardized Testing and Reporting Program and the California High School Exit Examination. The Statewide API performance target for all schools is 800. The CDE measures API growth by the extent to which a school or local education agency moves toward or past the statewide performance target of 800. The API is used in meeting state requirements under the PSAA and federal Adequate Yearly Progress ("AYP") requirements under the federal No Child Left Behind Act of 2001 (the "NCLB Act"). Under State requirements, if a school meets certain API participation and growth criteria, it may be eligible to become a California Distinguished School, National Blue Ribbon School, or Title I Academic Achievement Award School. If a school does not meet or exceed its growth targets and is ranked in the lower part of the statewide distribution of the Base API, it may be identified for participation in State intervention programs, which are designed to help the school improve its academic performance. Under federal NCLB Act requirements, the API is one of the factors for determining AYP.

During the last decade, the District has made progress regarding its students' performance on the API. The District obtained an overall API score of 728 for Fiscal Year 2010-11, which is an increase of 16% from the District's API score for Fiscal Year 2009-10, although the District's mean API scores for elementary schools, middle schools and high schools are lower than the Statewide API target of 800.

However, approximately one-third of the District's schools have obtained or surpassed the Statewide target. The District attributes its improved API performance to the implementation of a focused academic curriculum with rigorous standards in the core subjects, including reading and mathematics.

Elementary and Secondary Education Act. In connection with the reauthorization of the Elementary and Secondary Education Act of 1965, the United States Congress passed the NCLB Act. Under the NCLB Act, a state is required to identify a local educational agency ("LEA") for improvement ("Program Improvement") if the LEA fails to make AYP, evaluated by state standards, for two consecutive years. Despite academic gains on the State's API, the District has been deemed a "Program Improvement District" based on measures established under the NCLB Act. The State evaluates AYP based on, among other things, a LEA's (1) percentage participation rates in English-language arts and mathematics assessments measured LEA-wide, by grade span (grades two through five, grades six through eight and grade ten) and by numerically significant subgroups within grade spans, (2) graduation rate criteria LEA-wide, if a LEA has high school students, and (3) percentage of students performing at or above the proficient level in English-language arts and mathematics (also measured LEA-wide, by grade span and by subgroups) as compared to performance targets established under the NCLB Act. The District believes that the reason for this designation related mainly to the academic performance of the District's special education students and students for whom English is not their native language.

In addition, the NCLB Act requires that each LEA identified for Program Improvement take a variety of actions, including but not limited to developing or revising an improvement plan, promptly implementing that plan and informing parents of the LEA's Program Improvement status. Failure to achieve AYP in three consecutive years will result in corrective action by the state education agency. As of April 2012, the State had identified more than 200 school districts, including the District, and county offices of education in California for Program Improvement Year 3 Corrective Action, Year 4 Corrective Action and Year 5 Corrective Action due to their respective failures to meet or exceed AYP goals for at least four consecutive years. Based upon the year or program improvement status, a local education agency may be required to incur additional expenditures relating to, among other things, pupil transportation to schools that have met AYP or the provision of supplemental educational services. Schools that are in Year 5 Corrective Action and beyond may close and reopen as charter schools, transfer management to private entities or the State, replace staff, contract with private management companies, or undergo major governance restructuring. See "District General Information - Public School Choice Program" herein.

More than 300 schools and independent charter schools within the District's boundaries have been identified for Program Improvement Year 3 Corrective Action, Year 4 Corrective Action and Year 5 Corrective Action due to their respective failures to meet or exceed AYP goals for at least four consecutive years. The District has adopted an LEA Program Improvement Plan designed to address these academic performance concerns and has received additional categorical funding from the State for this purpose. The State Board of Education may invoke additional sanctions for Program Improvement LEAs in corrective action at any time. The District continues to work with the State during the State's evaluation process. The District does not expect its Program Improvement status or the Program Improvement status of individual schools to jeopardize the availability of federal or State categorical funding.

In March 2010, the President and the United States Department of Education published a policy framework (the "ESEA Blueprint") in connection with the proposed reauthorization of the Elementary and Secondary Education Act of 1965. The proposals contained in the ESEA Blueprint, if adopted, would overhaul the current NCLB Act and establish new accountability standards, grant programs, and school reform initiatives. In August 2011, the State Superintendent of Public Instruction requested that the United States Department of Education freeze certain sanctions and designations that are expected to be applied to school districts within California in order to provide additional time for California to implement current interventions.

In September 2011, the United States Secretary of Education announced a policy pursuant to which the federal government will provide to States and local education agencies, subject to an application and approval process, waivers to certain existing requirements set forth in the NCLB Act. The waivers relate to, among other things, timelines for determining AYP, implementation of school improvement requirements, interventions with respect to the educational programs in the schools, implementation of improvement plans relating to highly qualified teachers, the ability to transfer certain funds and the ability to use school improvement grant funds to support priority schools. The State has not submitted an application seeking waivers to certain existing requirements set forth in the NCLB Act. The District cannot predict what actions the District will take or what actions will be taken in the future by the State, Congress or the President in connection with the proposed reauthorization of the Elementary and Secondary Education Act of 1965 or the waiver of certain requirements set forth therein. Further, the United States Secretary of Education may terminate any waivers that the Department of Education has granted if such waivers are superseded by the reauthorization of the Elementary and Secondary Education Act of 1965. To the extent that the reauthorization of the Elementary and Secondary Education Act of 1965 or the waivers result in reduced revenues or increased expenses for the District or requires programmatic changes, the District will be required to make adjustments to its budget.

Public School Choice Program

In August 2009, the District Board authorized the “Public School Choice Program” under which the District invited operational and instructional plans from school planning teams, local communities, pilot school operators, labor partners, charter schools and others to operate the District’s new schools and Program Improvement-3+ schools identified by the Superintendent and authorized under the NCLB Act. The application process requires approval of a plan by, among others, local review teams, and an advisory panel selected by the Superintendent. The District Board makes the final decision regarding each application. Schools that participate in the Public School Choice Program may be operated as traditional schools, pilot schools, iDesign schools, magnet schools, affiliated charter schools or independent charter schools.

In December 2011, the District and UTLA (defined herein) entered into an agreement pursuant to which proposals from non-District affiliated applicants to operate schools pursuant to the Public School Choice Program are suspended for Fiscal Years 2011-12 through 2013-14. In addition, during such period, the Public School Choice program will be limited to applicants who provide plans that rely on District employees to staff the school’s faculty positions. The agreement further provides that schools that continue to underperform or fail to meet designated benchmarks will continue to be subject to the interventions set forth in the NCLB Act, excluding the transfer of operational control to a non-District operator.

Recent Events Regarding Suspended and Former District Employees

In January 2011, the Los Angeles County Sheriff’s Department (the “Sheriff’s Department”) informed the District of a pending investigation of a teacher based at Miramonte Elementary School (“Miramonte”). Upon notice of the investigation, the District suspended and terminated the teacher. In January 2012, the Sheriff’s Department arrested the former teacher and charged him with several criminal counts relating to lewd acts against minors. The Sheriff’s Department has indicated that the investigation regarding this former teacher is ongoing and additional counts may be filed. In February 2012, the Sheriff’s Department arrested a second teacher based at Miramonte and charged him with several criminal counts relating to sexual misconduct. Upon notice of the allegations, the District suspended and terminated the teacher.

In response to the acts alleged to have been committed by former employees of the District, the District temporarily reassigned teachers and staff at Miramonte to other sites in the District, mandated that a two-person team of a teacher and a counselor be present in each class, offered counseling services, and commenced a review of events that occurred at Miramonte. In addition, the District announced that an

independent commission chaired by Carlos Moreno, retired Associate Justice of the Supreme Court of California, had been appointed to review the events that occurred at Miramonte and provide recommendations to the District.

Following these events, in February 2012, the State's Commission on Teacher Credentialing (the "Credentialing Commission") issued a letter to the District stating the District's failure to timely notify the Credentialing Commission of the dismissal of credentialed employees while allegations of misconduct are pending poses a risk to student safety and may constitute professional misconduct by the Superintendent. Superintendent Deasy acknowledged that the District failed to timely inform the Credentialing Commission of the initial termination referenced above and directed District staff to investigate the cause of such failure. Further, Superintendent Deasy noted that such failure was contrary to District practice, but directed District staff to review other dismissals to ensure that the Credentialing Commission has received the required notice under State law.

The Joint Legislative Audit Committee of the California Legislature (the "Legislative Audit Committee") has requested that the State Auditor conduct a performance audit of the District to review and evaluate the District's processes for handling and documenting claims of abuse against students. The Legislative Audit Committee has asked the State Auditor to evaluate matters including, among other things, training, monitoring and oversight of employees relating to the prevention, identification and reporting of misconduct, removal of offending employees from school sites, tracking claims of misconduct, and the use of settlement agreements for claims or lawsuits filed alleging misconduct and the amounts of such settlement agreements, if any.

The District is currently investigating additional allegations of misconduct by current and former District personnel. In addition, the District and its officials are cooperating with the Sheriff's Department in connection with its investigations of former and current District employees. The District has been presented with 103 claims relating to the actions described above by current or former employees of the District. The District anticipates that it will receive complaints seeking declaratory, injunctive, and monetary relief relating to such actions. The District cannot predict whether any plaintiffs listed in the aforementioned complaints will be successful, and if so, how any final court decision with respect to any lawsuit may affect the financial status, insurance claims, policies or operations of the District, as the nature of any court's remedy and the responses thereto are unknown at the present time. The District is self-insured in an amount not to exceed \$5 million per occurrence with a \$45 million excess coverage limit. See "District Financial Information - Insurance" herein.

DISTRICT FINANCIAL INFORMATION

District Budget

General. State law requires that each school district maintain a balanced budget in each fiscal year, and that each district project beginning balances, revenues, expenditures, and ending balances for two subsequent years in order to provide, based upon the available information, that the district can project a positive, qualified or negative certification. See "- State Financial Accountability and Oversight Provisions—Interim Reporting Requirements" below.

The CDE imposes a uniform budgeting and accounting format for school districts. Under current law, a school district governing board for school districts using a single adoption process must file with the county superintendent of schools a budget by June 30 immediately prior to each Fiscal Year (referred to herein as the "Final Adopted Budget"). A school district using a dual adoption process must file a provisional budget with the county superintendent of schools by June 30 immediately prior to each Fiscal Year and revise and readopt its budget by September 8 of each fiscal year. After approval of the Final Adopted Budget, the school district's administration may submit budget revisions for governing board approval.

during the fiscal year. The District has used a single adoption process for its budget since its Fiscal Year 2009-10 Final Adopted Budget.

School districts in the State must also conduct a review of their budgets according to certain standards and criteria established by the CDE. A written explanation must be provided for any element in a budget that does not meet the established standards and criteria. The school district superintendent or designee must certify that such a review has been conducted and the certification, together with the budget review checklist and a written narrative, must accompany the budget when it is submitted to the school district's county office of education. The balanced budget requirement makes appropriations reductions necessary to offset any revenue shortfalls, unless sufficient balances exist to cover the shortfall.

Furthermore, county offices of education are required to review school district budgets, complete the budget review checklist and conduct an analysis of any budget item that does not meet the established standards and criteria. In addition, county offices of education are required to determine whether the adopted budget will allow the school district to meet its financial obligations during the fiscal year and is consistent with a financial plan that will enable the school district to satisfy its multiyear financial commitments. Pursuant to the Education Code, on or before August 15 of each year, the county superintendent of schools must approve, conditionally approve, or disapprove the adopted budget for each school district. A copy of the completed checklist, together with any comments or recommendations, must be provided to the school district and its governing board by November 1 of such year.

If the county office of education disapproves the school district's budget, the county superintendent will submit to the governing board of the school district on or before August 15 of such year, recommendations regarding revisions of the budget and the reasons for the recommendations, including, but not limited to, the amounts of any budget adjustments needed before the county superintendent can conditionally approve that budget. On or before September 8 of each year, the governing board of the school district will revise the adopted budget to reflect changes in its projected income or expenditures subsequent to July 1, and to include any response to the recommendations of the county superintendent of schools, will adopt the revised budget, and will file a revised budget with the county superintendent of schools. If the county superintendent of schools disapproves the revised budget, he or she will call for the formation of a budget review committee. By November 30 of each year, every school district must have an adopted and approved budget, or the county superintendent of schools will impose one and report such school district to the State Legislature and the State Department of Public Finance.

Budget and Finance Policy. The District has adopted a Budget and Finance Policy that provides for the District to fund reserves for various purposes, including anticipated balances (the "Reserve for Anticipated Balances"), economic uncertainties (the "Reserve for Economic Uncertainties"), general financial flexibility and accumulation of funding for replacement of depreciated capital items. The budgeting of the Reserve for Anticipated Balances reflects the District's best estimate of the year-end District General Fund balance. By establishing in the budget an anticipated ending balance level, the Reserve for Anticipated Balances allows the District to manage its budget with the intent of ending the fiscal year in a specific financial position, while also enabling the budget to more accurately reflect the actual level of anticipated District General Fund expenditures. Generally, the Reserve for Anticipated Balances is represented by the aggregate amount of the estimated Assigned Ending Balance and the estimated Restricted Ending Balance in the District's budget for each fiscal year. The District's Chief Financial Officer has recommended that, with the exception of the Reserve for Economic Uncertainties which State law requires to be fully funded and the Reserve for Anticipated Balances, the District henceforth postpone contributions to its reserves until the District can fund such reserves without significant adverse impacts to the District's instructional program and its other essential activities. See "District Financial Information - District Budget - Fiscal Year 2011-12 District Budget" herein.

Fiscal Year 2011-12 District Budget. The District Board adopted its budget for Fiscal Year 2011-12 on June 30, 2011 (the “Fiscal Year 2011-12 District Budget”) and submitted the Fiscal Year 2011-12 District Budget to LACOE in a timely manner for review. LACOE approved the District’s Fiscal Year 2011-12 District Budget on August 9, 2011. Due to concerns about the District’s fiscal status in Fiscal Year 2012-13 and 2013-14, LACOE requested that the District submit options that the District Board would consider implementing as part of a fiscal stabilization plan to meet the District’s fiscal requirements in Fiscal Years 2012-13 and 2013-14. See “District Financial Information - State Financial Accountability and Oversight Provisions - District First Interim Report for Fiscal Year 2011-12” herein.

The Fiscal Year 2011-12 beginning balances reflected estimates based upon the District’s interim financial report for Fiscal Year 2010-11 submitted to LACOE in June 2011. The Fiscal Year 2011-12 District Budget projected a District General Fund beginning balance of \$828.6 million, revenues of \$6.12 billion, total estimated expenditures of \$6.31 billion and an ending balance of \$641.9 million. The General Fund beginning balance of \$828.6 million included \$65.4 million for the mandatory Reserve for Economic Uncertainties the latter amount of which equals the State’s required Reserve for Economic Uncertainty of 1% of the District’s General Fund expenditures, \$282.0 million of legally restricted funds, \$10.8 million reserved for inventories and revolving cash funds, \$355.3 million from the undesignated balance from Fiscal Year 2010-11 and \$115.2 million from the assigned balance from Fiscal Year 2010-11. See “ - Reductions to Fiscal Year 2011-12 Education Expenditures and District Contingency Plan” and “ - District Fiscal Policies” below.

The District’s projected funded revenue limit ADA is 561,061 for Fiscal Year 2011-12. Declining enrollment statutes enabled the District to claim Fiscal Year 2011-12 revenue limit funding based on the ADA for Fiscal Year 2010-11. The full extent of revenue losses attributable to enrollment declines are expected to occur in special education, lottery, and other funding sources, as those funding sources are not afforded the same benefit that is provided for revenue limit funding by the declining enrollment statutes.

In the Fiscal Year 2011-12 District Budget, the Base Revenue Limit is the largest unrestricted General Fund revenue source. The Fiscal Year 2011-12 District Budget assumed a 2.24% cost of living adjustment and a 19.754% deficit factor for the Base Revenue Limit. After the cost of living adjustment, deficit factor and other adjustments by the State are applied, the District’s funded revenue limit was expected to generate approximately \$3.0 billion in Fiscal Year 2011-12. The Fiscal Year 2011-12 District Budget projected fund balances for the District’s General Fund of \$641.9 million as of June 30, 2012, which is approximately 10.5% of General Fund revenues.

The Fiscal Year 2011-12 District Budget included certain assumptions and policies, including among other things: (i) no cost of living adjustment for the State-funded portion of Special Education’s AB 602 funding; (ii) funding for AB 3632 mental health services in the amount of \$15 million in Fiscal Year 2011-12; (iii) no cost of living adjustment for Tier I, II, and III categorical programs; (iv) an enrollment decline of 26,861 from Fiscal Year 2010-11 for non-charter school enrollment and an enrollment increase of 19,298 from Fiscal Year 2010-11 for fiscally independent charter school enrollment; (v) a projected increase of 7% for utility expenditures and a California Consumer Price Index increase of 3.1% on other operating expenditures; (vi) the restoration of positions as specified in the bargaining unit agreements with UTLA, AALA (defined herein), Unit B (defined herein), Unit C (defined herein), Unit E (defined herein), Unit F (defined herein), has been implemented; (vii) implementation of budget balancing solutions adopted by the District Board in February 2011; (viii) four furlough days for UTLA, AALA, Service Employees International Union Local 99, Unit A, Unit B, Unit C, Unit F, Unit E, Unit H and District- represented employees (See “District Financial Information - Collective Bargaining - Furlough Days” herein); (ix) funding for employee health and medical benefits is being budgeted at the 2011 per participant rate level pursuant to the 2009-2011 Health and Welfare Agreement; (x) funding for Other Postemployment Benefit (“OPEB”) Plans in an amount greater than the estimated pay-as-you-go funding amount with a contribution of \$22.5 million for 2011-12 and \$25 million from prior years’ funds designated for OPEB; (xi) a

contribution of \$74 million to the Worker's Compensation fund and a total Workers' Compensation actuarially determined funded liability of \$423.7 million.

In addition, the Fiscal Year 2011-12 District Budget authorized the District to transfer amounts, as necessary, to implement technical adjustments related to development of the budget. In addition, the Fiscal Year 2011-12 District Budget authorized the District to appropriate new, unanticipated Fiscal Year 2011-12 revenues. The Fiscal Year 2011-12 District Budget included a commitment to continue to use all non-restricted amounts in the deferred maintenance fund in Fiscal Years 2010-11 to 2014-15 on non-routine related maintenance expenditures. The Fiscal Year 2011-12 District Budget also included a commitment to continue the use of the adult education fund and transfer a portion of the related State apportionment into the adult education fund for Fiscal Years 2011-12 to 2014-15.

The following Table A-1 sets forth the District's Final Adopted Budgets for the District General Fund, inclusive of regular and specially funded programs for Fiscal Years 2007-08 through 2011-12. See "- Significant Accounting Policies, System of Accounts and Audited Financial Statements" herein for audited financial results for Fiscal Years 2006-07 through 2010-11.

TABLE A-1

LOS ANGELES UNIFIED SCHOOL DISTRICT
District Budgets for Fiscal Years 2007-08 through 2011-12
for the District General Fund⁽¹⁾⁽²⁾⁽³⁾
(\$ in millions)

	Final Adopted Budget 2007-08	Final Adopted Budget 2008-09	Final Adopted Budget 2009-10⁽⁴⁾	Final Revised Budget 2010-11⁽⁵⁾	Final Adopted Budget 2011-12
Beginning Balance⁽⁶⁾	\$ 518.3	\$ 574.3	\$ 300.1	\$ 646.9	\$ 828.6
Revenue:					
State Apportionment	\$2,912.0	\$2,762.7	\$2,368.7	\$2,026.9	\$ 2,232.4

Ending Balance	\$ 470.2	\$ 464.6	\$ 292.0	\$ 475.8	\$ 641.9

(1) Totals may not equal sum of component parts due to rounding.

(2) Includes the Regular Program and the Specially-Funded Programs.

(3) The District's Fiscal Year 2009-10 Final Adopted Budget was based upon information from the State through the May Revision (as defined herein) to the State Budget Act (as defined herein) for Fiscal Year 2009-10. Accordingly, the information set forth above does not reflect the information that was later set forth in the State Budget Act (as defined herein) for Fiscal Year 2009-10.

(4) Amounts set forth in Table A-1 reflect the "Estimated Amounts" in the District's budget for the respective fiscal year rather than the "Authorized Amount". Pursuant to the Education Code, school districts may not spend more than Authorized Amount in the Final Adopted Budget as adjusted during the fiscal year.

(5) The Fiscal Year 2010-11 Revised District Budget was based upon information from the State through September 2010 and the assumptions described above. Accordingly, the information set forth above does not reflect the information that was later set forth in the Fiscal Year 2010-11 State Budget Act (as defined herein).

(6) Actual beginning balance for each Fiscal Year, except for (a) Fiscal Year 2008-09, which was an unaudited estimate that was later revised to reflect refinements of Fiscal Year 2007-08 expenditures in selected programs, (b) Fiscal Year 2009-10, which was estimated and reflected a downward adjustment to the estimate in the Fiscal Year 2009-10 Adopted Budget to account for certificates of participation that had been assumed but ultimately were not issued in Fiscal Year 2008-09, and (c) Fiscal Year 2011-12, which was subsequently updated by the Fiscal Year 2010-11 Unaudited Actuals amount of \$899.6 million.

Sources: Los Angeles Unified School District's Final Adopted Budgets for Fiscal Years 2007-08 through 2009-10 and 2011-12; Final Revised Budget for Fiscal Year 2010-11.

Funding from the Quality Education Investment Act of 2006. The District received approximately \$129.0 million in Fiscal Year 2010-11 under the Quality Education Investment Act of 2006 (“QEIA”), which was signed into law in 2006 to implement the terms of the *CTA, et al. v. Schwarzenegger, et al.* settlement and to discharge the outstanding balance of the maintenance factor regarding Proposition 98 funding that was due but not provided in Fiscal Years 2004-05 and 2005-06. The purpose of QEIA funding is to provide additional support to raise academic performance at low performing schools. QEIA funding for a particular school can be eliminated if such school fails to timely meet certain academic achievement targets. In Fiscal Year 2010-11, QEIA funding for eligible students in grades K-3 is \$500 per pupil, grades 4-8 is \$900 per pupil and grades 9-12 is \$1,000 per pupil and the District expects the same level of funding per pupil in Fiscal Year 2011-12. The District expects total funding from QEIA of \$119.6 million in Fiscal Year 2010-11. See “State Funding of Education—State Budget” herein.

Reductions to Fiscal Year 2011-12 Education Expenditures and District Contingency Plan. The 2011-12 State Budget Act authorized approximately \$601.0 million in funding reductions in the areas of higher education, health and human services and public safety beginning in January 2012, if the State’s Director of Finance estimated that the State’s General Fund revenues for Fiscal Year 2011-12 would be less than \$87.4 billion, but were at least \$86.4 billion. If the State’s Director of Finance estimated that the State’s General Fund revenues for Fiscal Year 2011-12 would be less than \$86.4 billion, the 2011-12 State Budget Act authorized an additional \$1.86 billion in education reductions. These reductions would include reductions to certain Proposition 98 allocations, a reduction of up to \$1.5 billion from K-12 education, including reductions in the school year by up to seven days, and a reduction of up to \$248 million relating to funding for home-to-school transportation (collectively, the “Maximum Trigger”). In order to address the possible impact of the Maximum Trigger and uncertainties related to State funding generally, the District set aside \$334 million in the Reserve for Anticipated Balances as part of the Fiscal Year 2011-12 District Budget. See “District Financial Information - District Budget - Budget and Finance Policy” herein.

On December 13, 2011, the State of California Department of Finance (the “Department of Finance”) released its 2011-12 Revenue Forecast/Determination Pursuant to Chapter 41, Statutes of 2011 (the “DOF Revenue Forecast”). According to the DOF Revenue Forecast, the Department of Finance’s updated revenue estimate for the State’s General Fund for Fiscal Year 2011-12 was \$86.2 billion, an amount which would cause the implementation of the Maximum Trigger. See State Funding of Education - State Budget - State Budget for Fiscal Year 2011-12” herein. Although the Maximum Trigger reduced State expenditures for home-to-school transportation by \$248 million, the Governor approved Senate Bill 81 (“SB 81”). SB 81, among other things, authorized an appropriation to the California Department of Education from the State General Fund in the amount of \$248 million to restore funding for home-to-school transportation and small school district transportation for Fiscal Year 2011-12. In addition, SB 81 authorized an increase to the deficit factor for Fiscal Year 2011-12 in order to offset the increase to the home-to-school transportation appropriation.

Projected Impacts of Assembly Bill 114 upon District Budget. In connection with the 2011-12 State Budget Act, Assembly Bill 114 (“AB 114”) directed each school district to adopt its budget for Fiscal Year 2011-12 based upon the same level of revenue per unit of ADA as it received in Fiscal Year 2010-11 and to maintain staffing and program levels commensurate with that level. Pursuant to AB 114, the State reduced funding due to the DOF Revenue Forecast. In addition, pursuant to AB 114, during Fiscal Year 2011-12, the State does not require any school district to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years as part of the budget process. AB 114 also provides school districts with the authority to reduce the minimum number of instructional days and minutes by up to seven days during Fiscal Year 2011-12, which is in addition to the authority to reduce the number of instructional days by up to five days under the Education Code. See “State Funding of Education - State Budget - Fiscal Year 2011-12 State Budget” herein.

As part of its review of the District's Fiscal Year 2011-12 District Budget, LACOE determined that the District was in compliance with the provisions of AB 114. Although the District was not required to demonstrate that it would be able to meet its financial obligations for two subsequent fiscal years under the provisions of AB 114, the Education Code requires the District to prepare and submit interim financial reports and to certify whether the District is able to meet its financial obligations for the remainder of the current fiscal year and the next two fiscal years. See "District Financial Information - State Financial Accountability and Oversight Provisions - District First Interim Report for Fiscal Year 2011-12" and " - District Second Interim report for Fiscal Year 2011-12" herein.

Parcel Tax Measure. In March 2012, the District Board approved a resolution ordering an election to authorize a parcel tax (the "Parcel Tax Measure") at the general election to be held in November 2012. The Parcel Tax Measure would authorize the levy of a special tax of \$298 per year on each parcel of taxable real property within the District, commencing in Fiscal Year 2013-14 for five years. The District projects that the Parcel Tax Measure, if approved, would provide public schools in the District's boundaries, including charter schools, with an aggregate annual amount of \$255 million, of which approximately \$220 million would be allocated to the District and the remainder would be allocated to charter schools. The parcel tax revenues would be used for such operating expenses as teachers and staff for various programs, student transportation and early education, and career and technical programs.

District Budget and Interim Financial Estimates. The following Table A-2 summarizes the originally budgeted revenues and expenditures and the projected year-end amounts, including the projected year-end General Fund Balance as reported in the Fiscal Year 2011-12 District Budget, the Fiscal Year 2011-12 First Interim Report (as defined herein) and the Fiscal Year 2011-12 Second Interim Report (as defined herein). The District has timely prepared each of these estimates of its Fiscal Year 2011-12 financial results and provided this information to the District Board and LACOE. See " - State Financial Accountability and Oversight Provisions - Interim Reporting Requirements - District First Interim Report for Fiscal Year 2011-12" and " - District Second Interim Report for Fiscal Year 2011-12" herein. The District expects to submit an update to the Second Interim Report for Fiscal Year 2011-12 in June 2012.

TABLE A-2

LOS ANGELES UNIFIED SCHOOL DISTRICT
District General Fund
Summary of Balances, Revenues and Expenditures
Fiscal Year 2011-12
(\$ in millions)⁽¹⁾

	Fiscal Year 2011-12 District Budget	First Interim Report (December 2011)	Second Interim Report (March 2012)
Beginning Balance	\$ 899.6	\$ 899.6	\$ 903.5 ⁽²⁾
Revenues/Other Sources	6,104.1	5,839.7	5,861.0
Expenditures/Other Uses	6,290.1	5,966.7	6,056.9
Operating Surplus (Deficit)	\$ (186.7)	\$ (127.0)	\$ (195.9)
Ending Balance	\$ 641.9	\$ 772.5	\$ 707.6

⁽¹⁾ Totals may not equal sum of component parts due to rounding.

⁽²⁾ The Adjusted Beginning Balance of \$903.5 million set forth in the Second Interim Report reflects the estimated Beginning Balance of \$899.6 million, less Audit Adjustments in the amount of approximately \$1.1 million, plus Other Restatements in the approximate amount of \$5.1 million.

State Financial Accountability and Oversight Provisions

Interim Reporting Requirements. State Assembly Bill 1200 (“A.B. 1200”), effective January 1, 1992, tightened the budget development process and interim financial reporting for public school districts, enhancing the authority of the offices of the county superintendents of schools and establishing guidelines for emergency State aid apportionments. State Assembly Bill 2756 (“A.B. 2756”), effective June 21, 2004, revised the existing provisions of A.B. 1200 and imposed additional financial accountability and oversight requirements on public school districts. Under the provisions of A.B. 1200, each school district is required to file interim certifications with the county office of education as to its ability to meet its financial obligations for the remainder of the then-current fiscal year and, based on current forecasts, for the two subsequent fiscal years. A positive certification is assigned to any school district that, based on then-current projections, will meet its financial obligations for the current fiscal year and subsequent two fiscal years. A negative certification is assigned to any school district that, based on then-current projections, will be unable to meet its financial obligations for the remainder of the fiscal year or subsequent fiscal year. A qualified certification is assigned to any school district, based on then-current projections, which may not meet its financial obligations for the current fiscal year or two subsequent fiscal years. Under the provisions of A.B. 2756, for school districts that are certified as qualified or negative, the county superintendent of schools is required to report to the State Superintendent of Public Instruction on the financial condition of the school district and his or her proposed remedial actions and to take all actions that are necessary to ensure that the school district meets its financial obligations. The county office of education reviews the interim reports and certifications made by school districts and may change certification to qualified or negative if necessary. If a school district has a qualified or negative certification report in any year, the school district may not issue non-voter-approved debt instruments in that fiscal year or in the next succeeding fiscal year, unless the county office of education, using criteria from the State Superintendent of Public Instruction, determines repayment is probable.

District First Interim Report for Fiscal Year 2011-12. The District’s Fiscal Year 2011-12 First Interim Report (the “Fiscal Year 2011-12 First Interim Report”) was filed with LACOE by December 15, 2011, the deadline therefor. The District submitted its Fiscal Year 2011-12 First Interim Report with a self-certified qualified certification of its financial condition. The Fiscal Year 2011-12 First Interim Report stated that the District would be able to meet its financial obligations in Fiscal Year 2011-12 and projected that the District would need budget-balancing solutions and/or shared commitments from its collective bargaining units to close projected deficits for Fiscal Years 2012-13 and 2013-14. The Fiscal Year 2011-12 First Interim Report assumed the Maximum Trigger would reduce District revenues by \$188.8 million on a one-time only basis and impact revenue limit and home-to-school transportation revenues. See “District Financial Information - District Budget - Reductions to Fiscal Year 2011-12 Education Expenditures and District Contingency Plan” and “State Funding of Education- State Budget - Fiscal Year 2011-12 State Budget” herein.

The District’s Fiscal Year 2011-12 First Interim Report projected that the District’s ending balance of \$772.5 million would consist of approximately \$10.4 million of nonspendable moneys, \$210.3 million of restricted funds, \$468.3 million of assigned funds, \$65.4 million to be deposited in the Reserve for Economic Uncertainties and \$18.1 million of unassigned/unappropriated funds. The Fiscal Year 2011-12 First Interim Report projected that the District would satisfy the minimum percentages required to be deposited in its Reserve for Economic Uncertainties in Fiscal Years 2011-12, 2012-13 and 2013-14. However, absent corrective action set forth in the December 2011 Fiscal Stabilization Plan (defined herein), the Fiscal Year 2011-12 First Interim Report projected deficits of \$980.7 million and \$1.19 billion in Fiscal Years 2012-13 and 2013-14, respectively (revised from the Fiscal Year 2011-12 First Interim Report projected Unrestricted General Fund deficits of \$532 million and \$1.051 billion in Fiscal Years 2012-13 and 2013-14, respectively, set forth in the Preliminary Official Statement dated April 10, 2012 relating to the Refunding Bonds).

In connection with the Fiscal Year 2011-12 First Interim Report, the District submitted a fiscal stabilization plan (the “December 2011 Fiscal Stabilization Plan”) to LACOE in order to address its fiscal status. The December 2011 Fiscal Stabilization Plan was a multi-phased plan that addresses a projected budget deficit of \$532 million for Fiscal Year 2012-13 under three scenarios: (i) shared commitments between the District and its bargaining units and new ongoing sustainable revenue sources which would restore approximately \$532 million of services; (ii) shared commitments between the District and its bargaining units, but without a new ongoing sustainable revenue source which would restore approximately \$169.3 million of services; or (iii) no shared commitments approved between the District and its bargaining units and no new ongoing sustainable revenue sources which would lead to reductions of \$532 million of services. Pursuant to the December 2011 Fiscal Stabilization Plan, the District must reduce expenditures in Fiscal Year 2012-13 by approximately \$362.7 million or secure a sustainable source of revenue to eliminate the ongoing operating deficit caused by declining enrollment and other factors. In the event the District is unable to secure a sustainable source of revenues and secured shared commitments, the District expects to consider reductions to, among other things, adult education, cafeteria support, the regional occupancy career education program, early childhood education, school readiness language development program, and certain classified and certificated personnel. See “- District Second Interim Report for Fiscal Year 2011-12 - March 2012 Fiscal Stabilization Plan” herein.

District Second Interim Report for Fiscal Year 2011-12. The District’s Fiscal Year 2011-12 Second Interim Report (the “Fiscal Year 2011-12 Second Interim Report”) was filed with LACOE by March 15, 2012, the deadline therefor. The District submitted its Fiscal Year 2011-12 Second Interim Report with a self-certified qualified certification of its financial condition. The Fiscal Year 2011-12 Second Interim Report projects that the District will be able to meet its financial obligations in Fiscal Year 2011-12. However, the Fiscal Year 2011-12 Second Interim Report states that the District must implement budget-balancing solutions, including commitments from its collective bargaining units, to reduce or eliminate projected deficits for Fiscal Years 2012-13 and 2013-14.

The Fiscal Year 2011-12 Second Interim Report projects a \$27.3 million increase in projected revenues from the amount projected in the Fiscal Year 2011-12 First Interim Report. The Fiscal Year 2011-12 Second Interim Report projects a \$20.6 million decrease in projected revenues for the unrestricted portion of the District’s General Fund due to, among other things, the effect of the Maximum Trigger and a revenue reduction of \$31.6 million, net of an \$8.3 million projected increase in revenues relating to ADA. See “- District Budget - Reductions to Fiscal Year 2011-12 Education Expenditures and District Contingency Plan” herein. In addition, the Fiscal Year 2011-12 Second Interim Report projects that federal reimbursement revenues will decrease by \$9 million but that the District will receive a \$5.8 million increase in revenues attributable to the State lottery.

The Fiscal Year 2011-12 Second Interim Report projects that General Fund expenditures will increase by \$90.2 million from the amount projected in the Fiscal Year 2011-12 First Interim Report. In addition, Unrestricted General Fund expenditures are expected to increase by \$26.4 million as compared to the Fiscal Year 2011-12 First Interim Report. The District attributes this change to the uncertainty of savings related to furlough days for District employees, which savings are not included in the District’s projections in the Fiscal Year 2011-12 Second Interim Report. However, the District projects lower health and welfare contributions of \$15.4 million due to fewer employees receiving these benefits. Further, compared to the Fiscal Year 2011-12 First Interim Report, General Fund contributions to restricted programs are projected to increase by \$14.4 million and interfund transfers to special education programs and the cafeteria fund are expected to increase by \$11.8 million and \$7.9 million, respectively. The Fiscal Year 2011-12 Second Interim Report projected that the District’s expenditures would be reduced by approximately \$7.8 million in connection with the federal Early Retirement Reimbursement Program, which provides funds for health care coverage for certain early retirees of the District and their dependents, and lower rates of interest on the District’s outstanding variable rate COPs (defined herein).

The Fiscal Year 2011-12 Second Interim Report projects that the budgetary deficit for Fiscal Year 2012-13 would be \$377 million absent corrective action, which amount is less than the \$557 million deficit projected in the Fiscal Year 2011-12 First Interim Report. Subsequent to the submission of the Fiscal Year 2011-12 First Interim Report, the State implemented the Maximum Trigger and adopted SB 81 which impacted the District's financial projections and assumptions. See “ - District Budget - *Reductions to Fiscal Year 2011-12 Education Expenditures and District Contingency Plan*” herein. In addition, the 2012-13 Proposed State Budget included a proposal to implement a weighted pupil funding formula to be phased in over the next five years. See “State Funding of Education - State Budget - State Budget for Fiscal Year 2012-13 - *Fiscal Year 2012-13 Proposed State Budget*” herein. However, the District expects the application of the weighted pupil funding formula to be revenue-neutral provided that the commitment from the Governor to school districts to hold school districts harmless is realized. Accordingly, the District expects a net increase in revenues from the State in the amount of approximately \$103 million for Fiscal Year 2012-13. Further, the District expects budgetary adjustments to provide an additional \$77.5 million to reduce the projected deficit for Fiscal Year 2012-13 to approximately \$377 million.

The District's Fiscal Year 2011-12 Second Interim Report projects that the District's ending balance for Fiscal Year 2011-12 will be \$707.6 million which is approximately 11.5% of total General Fund revenues. Such amount would consist of approximately \$10.4 million of nonspendable moneys, \$199.3 million of restricted funds, \$358.0 million of assigned funds, \$65.4 million to be deposited in the Reserve for Economic Uncertainties and \$74.6 million of unassigned/unappropriated funds. The District's ending balance of \$65.4 million in the Reserve for Economic Uncertainties would satisfy the minimum percentages required by the State only for Fiscal Years 2011-12 and 2012-13. In connection with the Fiscal Year 2011-12 Second Interim Report, the District submitted an updated fiscal stabilization plan to LACOE in order to address the District's fiscal status and has continued to revise update its fiscal stabilization plan (as updated, the “March 2012 Fiscal Stabilization Plan”).

March 2012 Fiscal Stabilization Plan. The March 2012 Fiscal Stabilization Plan outlines the District's strategies to address deficits that are projected as of June 30, 2013, in the amount of \$390 million and in the amount of \$557 million. The projected deficit of \$557 million as of June 30, 2013, is based upon the District's February 2012 assessment of its structural budget deficit and the Maximum Trigger. See “ - District Financial Information - District Budget - *Reductions to Fiscal Year 2011-12 Education Expenditures and District Contingency Plan*” herein. The projected deficit of \$390 million as of June 30, 2013, reflects the \$557 million projected deficit reduced by the amounts the Governor has committed to reverse, those being \$78.8 million in transportation reductions and \$24.9 million in reductions caused by the adoption of a new pupil funding formula (collectively, the “Governor's Commitments”), and reduced by \$76.5 million of additional revenues that are in the District's budget set forth in the Fiscal Year 2011-12 Second Interim Report.

In connection with the deficit reduction due to the above-described \$103.4 million from the Governor's Commitments and the \$76.5 million budget improvement projected in the Fiscal Year 2011-12 Second Interim Report, the District Board voted to restore certain programs and positions that the District previously considered eliminating and to eliminate certain proposed increases in class-size ratios for Fiscal Year 2012-13. In the event that all or a portion of the \$76.5 million improvement projected in the Fiscal Year 2011-12 Second Interim Report fails to materialize and the Governor's Commitments are not enacted into law, the District Board does not expect to restore such programs and positions. In the event the Governor's Commitments are enacted into law, the District plans to maintain class sizes for grades kindergarten through three, grades four through six, and grades six through eight at their current levels rather than increasing the class sizes by six students, three students and one student, respectively, in accordance with the March 2012 Fiscal Stabilization Plan.

The Governor's Commitments have not been enacted into State law and the benefits related thereto may not be realized. Accordingly, the District Board issued approximately 11,700 March 15 Notices (defined

herein) to certificated employees based on a projected net General Fund deficit of \$557 million rather than \$390 million. See “District Financial Information - Collective Bargaining - Employment Status Notices” herein. The District expects the Governor to affirm all or a portion of the Governor’s Commitments in connection with the May Revision to the Proposed State Budget for Fiscal Year 2012-13.

In connection with the projected \$390 million deficit as of June 30, 2013 identified in the Fiscal Year 2011-12 Second Interim Report, the District Board adopted three dependent options intended to restore certain programs and positions. The first option was based on the District prevailing in the then-pending arbitration between the District and UTLA, which concluded in April 2012, and thereby restoring \$60 million, \$27.0 million of which would be used by schools based upon students’ needs and approximately \$33.0 million of which would be used for adult education programs. See “District Financial Information - Collective Bargaining - Furlough Days” herein.

The second option was premised on the District not prevailing in the then-pending arbitration with UTLA which concluded in April 2012. In this instance, the District would seek negotiated labor concessions in the amount of \$220 million and various revenues in the aggregate amount of \$173.5 million. The \$220 million of labor concessions would include, among other things, furlough days, salary adjustments and benefit adjustments. In the event the District cannot obtain \$220 million of labor concessions, the District would save such amount by, among other things, the elimination of fourteen Option Centers, reductions in early education programs and adult education programs, reductions to cafeteria support and reductions to the School Readiness Language Development program.

The third option was to obtain \$173.5 million of additional revenue from the State or otherwise obtain a new, ongoing revenue source. In the event that \$173.5 million of new revenues are not identified, additional budget reductions including, among other things, further reductions to adult education programs, further reductions to cafeteria support, reductions to central office costs, and reductions relating to teacher block grants, would be implemented.

Contingency Plan to Address Voter Dependent State Revenues. In accordance with LACOE’s recommended assumptions for Fiscal Year 2012-13 school district budgets, the District assumed that the Governor’s 2012 Tax Initiative (defined herein) would be approved by the voters. Further, the District currently assumes that voters will approve the Governor’s Revised 2012 Tax Initiative (defined herein). Accordingly, projections and assumptions contained in the March 2012 Stabilization Plan reflect increased revenues that will be available to the District as a result of the Governor’s Revised 2012 Tax Initiative. In the event the Governor’s Revised 2012 Tax Initiative is not approved and the State reduces expenditures to school districts, the District estimates this could cause reductions in an amount ranging from \$370 per ADA to \$470 per ADA which would total between approximately \$200.9 million to \$255.0 million. In order to address these potential reductions, the District has reserved approximately \$333 million as a Reserve for Revenue Uncertainty for Fiscal Year 2012-13, the cash for which is deferred until Fiscal Year 2013-14. In the event such reductions are implemented, the District expects to use a portion of the Reserve for Revenue Uncertainty to offset such reductions and to fund the reductions from temporary borrowing from internal sources or through the issuance of tax and revenue anticipation notes. See “District Financial Information - Future Financings - Tax and Revenue Anticipation Notes” herein.

Significant Accounting Policies, System of Accounts and Audited Financial Statements

The CDE imposes by law uniform financial reporting and budgeting requirements for K-12 school districts. Financial transactions are accounted for in accordance with the California School Accounting Manual. The District uses fund accounting and maintains governmental funds, proprietary funds and fiduciary funds. The General Fund is the chief operating fund of the District. For a description of the other major funds of the District, see the description thereof contained in Appendix B - “Audited Financial

Statements of the District for the Fiscal Year ended June 30, 2011” attached hereto. Note 1 to such audited financial statements sets forth significant accounting policies that the District follows.

In addition to the significant accounting policies set forth in the District’s audited financial statements for the fiscal year ended June 30, 2011, included in Appendix B attached hereto, the District, beginning with the Fiscal Year 2011-12 District Budget, will follow Governmental Accounting Standards Board Statement No. 54 - “Fund Balance Reporting and Governmental Fund Type Definitions” (“GASB 54”) which was developed in order for governments to classify amounts consistently regardless of the fund type or column in which they are presented. Pursuant to GASB 54, the fund balances will be designated as one of the following five categories: (i) nonspendable fund balance which includes amounts that are not in a spendable form or are required to be maintained intact, (ii) restricted fund balance which includes amounts constrained to specific purposes by their providers, through constitutional provisions, or by enabling legislation; (iii) committed fund balance which includes amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint; (iv) assigned fund balance which includes amounts a government intends to use for a specific purpose whereby the intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority; and (v) unassigned fund balance which includes amounts that are available for any purpose; these amounts are reported only in the General Fund.

The District is required to file its audited financial statements for the preceding fiscal year with the State Controller’s Office, the CDE and the County Superintendent of Schools by December 15 of each year. The District filed its audit report for the Fiscal Year 2005-06 in compliance with such requirement. However, in 2005 the District commenced the implementation of an enterprise resource planning system, called the “Business Tools for Schools.” Implementation problems relating to the human resources and payroll components of Business Tools for Schools led to delayed reconciliation of the District’s audited financial statements for Fiscal Year 2006-07, which, in turn, affected the timely delivery of the District’s comprehensive annual financial reports (“CAFRs”) for Fiscal Years 2007-08 and 2008-09 to LACOE by the respective December 15, 2008 and December 15, 2009 deadlines therefor set forth in Section 41020 of the Education Code. The District timely filed its CAFRs for Fiscal Year 2009-10 and 2010-11 with LACOE pursuant to the Education Code by the respective deadlines therefor. The human resources and payroll components of Business Tools for Schools are currently operating within industry standards. The District is currently reconciling data with respect to its CalSTRS, CalPERS and PARS (each term as defined herein) contributions, particularly in relation to the Business Tools for Schools’ implementation problems. The District cannot predict whether such reconciliation will result in an upward or downward estimate of the District’s required CalSTRS, CalPERS and PARS contributions or the amounts of such revised estimate. The District expects to timely file its CAFR for Fiscal Year 2011-12.

Notwithstanding the delays relating to the reconciliation of the District’s audited financial statements for Fiscal Years 2006-07 through 2008-09, the District complied with the continuing disclosure undertakings for each such fiscal year with respect to its outstanding debt obligations by filing with the appropriate repositories unaudited financial statements by the respective deadlines therefor set forth in the District’s continuing disclosure undertakings. Further, the District filed the audited financial statements for Fiscal Years 2006-07 and 2007-08 when they were available and timely filed its audited financial statements for Fiscal Years 2008-09, 2009-10 and 2010-11 in accordance with its continuing disclosure agreements. See “Legal Matters—Continuing Disclosure” in the forepart of this Official Statement.

Simpson & Simpson Certified Public Accountants, Los Angeles, California, served as independent auditor to the District for its audited financial statements for Fiscal Year 2010-11. See Appendix B - “Audited Financial Statements of the District for the Fiscal Year ended June 30, 2011” attached hereto.

The following Table A-3 sets forth the District's audited District General Fund revenues, expenditures and fund balances for the Fiscal Years 2006-07 through 2010-11.

⁽¹⁾ Totals may equal sum of component parts due to rounding.

⁽²⁾ Includes Regular Program and the Specially-Funded Programs.

⁽³⁾ Includes operating transfers in, support costs transferred to the District General Fund, insurance proceeds and proceeds from capital leases.

⁽⁴⁾ Includes operating transfers out, support costs transferred from the District General Fund and funds transferred to pay non-general obligation bond debt service.

Sources: Los Angeles Unified School District's audited financial statements for Fiscal Years 2006-07 through 2010-11.

Collective Bargaining

General. The District has 11 bargaining units with existing contracts. In addition, approximately 290 classified supervisors expect to form a new bargaining unit. The negotiations with respect to which are ongoing. The largest bargaining unit among the District's employees is the United Teachers of Los Angeles ("UTLA"), which is comprised of, among other employees, teachers, instructors, counselors, advisers, nurses, psychologists, and social workers. As of June 30, 2011, the District employed approximately 46,382 teachers, including credentialed and non-credentialed teachers. The following Table A-4 sets forth the expiration dates of the labor agreements with each of the District's employee bargaining units.

TABLE A-4

**LOS ANGELES UNIFIED SCHOOL DISTRICT
Employee Bargaining Units**

Employee Bargaining Unit	Contract Expiration Date (June 30)⁽¹⁾
Associated Administrators of Los Angeles	2014
Unit A (School Police)	2014
Unit B (Instructional Aides)	2011
Unit C (Operations – Support Services)	2011
Unit D (Office – Technical and Business Services)	2014
Unit E (Skilled Crafts)	2014
Unit F (Teacher Assistants)	2011
Unit G (Playground Aides)	2011
Unit H (Sergeants and Lieutenants)	2008
Unit S (Classified Supervisors)	2011
United Teachers of Los Angeles	2011

⁽¹⁾ The District and each of the employee bargaining units set forth in the table above for which the applicable contract has expired are operating under the terms of the applicable expired contract. As of the date hereof, the District and such bargaining units are negotiating terms to be contained in new contracts.

Source: Los Angeles Unified School District.

Labor Agreements. The District is currently in negotiations with UTLA regarding the recommendations made by the Teacher Effectiveness Task Force in April 2010 and from the Joint Statement of Interest (the “Joint Statement of Interest”) by and between the District and UTLA which was executed in December 2011. The Joint Statement of Interest focuses successor negotiations on mitigating the impact of the State budget crisis, potential new revenue sources and matters relating to teacher support, development and evaluation. In connection with the current contract by and between the Associated Administrators of Los Angeles (“AALA”) and the District, AALA may reopen negotiations with respect to certain matters relating to salaries, furlough days or compensation and two additional articles thereof. The District has submitted initial proposals to reopen negotiations with AALA regarding compensation and evaluations.

In November 2011, the District reached a three-year agreement with all bargaining units regarding health and welfare benefits. The multi-year agreement defines the District’s contribution towards health and welfare benefits for active and retired employees. The agreement establishes the estimated contribution by the District of \$981.1 million for Fiscal Year 2011-12, a 0% increase from Fiscal Year 2010-11, \$1 billion for Fiscal Year 2012-13, a 4.7% increase from the prior fiscal year, and \$1.04 billion for Fiscal Year 2013-14, a 4.5% increase from the prior fiscal year. The agreement also requires contributions to be drawn from the reserve account established by the Health Benefits Committee, which is comprised of representatives of the respective bargaining units and one District representative, to match each of the District’s contributions. See “—Other Postemployment Benefits” herein.

Furlough Days. Seven out of the eleven bargaining units have signed furlough agreements (each, a “Furlough Agreement”) for four furlough days for Fiscal Year 2011-12. Unit F, Unit G, and District-represented employees will also take the corresponding number of furlough days as those bargaining units requiring negotiated agreements. The Furlough Agreements include a formula that provides for a reduction of the number of furlough days as the District’s base revenue limit appropriation improves and an increase in the number of furlough days up to a maximum of six in the event economic conditions worsen. Unit S (Teamsters) has not agreed to take furlough days for the 2012-13 school year. UTLA is contested the

calculation of the base revenue limit figure that is part of the formula used in each of the Furlough Agreements. The arbitration hearing between UTLA and the District concluded with a decision in favor of the District.

Employment Status Notices. Pursuant to the Education Code, in general the District must give written notice to a certificated employee by the March 15 (each, a “March 15 Notice”) prior to the commencement of a school year if such certificated employee is to be released, demoted or reassigned for that school year. If such certificated employee is in a position that requires an administrative or supervisory credential, the District must provide notice to such certificated employee not less than 45 days prior to the effective date of a change in employment status. In March 2012, the District issued notices (each, a “March 15 Notice”) to approximately 11,700 certificated personnel notifying them that they may be released, demoted or reassigned for the following school year beginning July 1, 2012. In addition, classified employees who are employed through specially funded programs whose classified positions will be eliminated at the end of a school year and classified employees whose positions will be eliminated due to funding must be given written notice of termination on or before April 29. If the specially funded programs will terminate on a date other than June 30, the District must provide notice to the affected classified employee not less than 45 days prior to the effective date of his or her layoff. In the event the District must layoff a classified employee due to a lack of work, the District must give notice to the affected employee not less than 45 days prior to the effective date of layoff. The District expects to rescind a portion of the March 15 Notices subsequent to the release of the Governor’s May Revision to the Proposed 2012-13 State Budget and the District’s analysis of the revised projections of revenues and expenditures. However, the number of March 15 Notices to be rescinded by the District will depend upon the enactment of the Government’s Commitments into law and the revenue projections contained in the Governor’s May Revision to the Proposed 2012-13 State Budget.

On March 22, 2012, the LAO released a report entitled “ A Review of the Teacher Layoff Process in California” (the “LAO Teacher Layoff Report”) which provided an overview by the LAO of the existing layoff process in the State, an evaluation of process, and recommendations for improvement. According to the LAO, timing differences between statutory deadlines for layoff notices and the availability of certain State budget information is one of the most significant problems for school districts in planning their budgets. In order to satisfy the statutory deadlines and provide budgetary flexibility, the LAO noted that school districts are routinely providing layoff notices to teachers in amounts that greatly exceed the actual amount necessary. In addition, the LAO noted that unnecessary costs are routinely incurred by school districts because of inefficiencies in the hearing and appeals process. The LAO has recommended that the State modify the notice deadlines to link them with the availability of State and local fiscal information. Further, the LAO recommended that the State give school districts additional flexibility when making employment decisions beyond seniority. The District cannot predict at this time whether the State Legislature and the Governor will adopt any of the suggestions provided by the LAO or the extent to which such proposals, if adopted, would impact the District’s finances or layoff process.

Litigation Regarding District Layoff Procedures. A complaint for injunctive and declaratory relief was filed on February 24, 2010 against the District and the State entitled *Reed, et al. v. State of California and the Los Angeles Unified School District, et al.* in the Los Angeles County Superior Court. The plaintiffs, who were students at three middle schools within the District, alleged in this complaint that the State’s and the District’s budgetary measures resulted in increased layoffs and use of substitute teachers at the schools named therein that were disproportionate to other schools within the District. As a result, the complaint alleged, the plaintiffs had been deprived of educational equality. Among other relief, the plaintiffs sought declaratory relief that the State and the District had violated their rights under the State Constitution and the State Government Code and injunctive relief prohibiting the defendants from implementing future layoffs of teachers at the schools named therein that were disproportionate to other schools within the District or hindering the ability of the schools to maintain an effective corps of teachers.

On May 13, 2010, the presiding judge issued a preliminary injunction restraining the District from implementing any budget-based layoffs at the subject middle schools during the pendency of the action but no later than the end of the 2010-11 school year and to skip teachers then-currently assigned at the three middle schools during the then-current layoff proceedings. In October 2010, the District Board approved a tentative settlement agreement pursuant to which the District would no longer lay off teachers based solely on seniority. Pursuant to the tentative settlement agreement, layoffs based, in part, on seniority would be distributed evenly among schools within the District. UTLA opposed the tentative settlement agreement. The Los Angeles County Superior Court entered a final order in February 2011. UTLA has appealed the matter. The District is unable to predict the outcome of this appeal. The District conducted its Reduction in Force (“RIF”) notice procedure for Fiscal Year 2011-12 in accordance with the tentative settlement agreement.

Retirement Systems

General. The District currently participates in CalSTRS (defined herein), CalPERS (defined herein) and PARS (defined herein). The amounts of the District’s contributions to STRS, CalPERS and PARS are subject to, among other things, the implementation of any layoff proposal with respect to the District’s workforce and modifications to or approvals of collective bargaining agreements. See Table A-5 “Annual Regular CalSTRS Contributions” and Table A-7 “Annual CalPERS Regular Contributions” and Table A-9 “Annual PARS Contribution” for the estimated contributions by the District for Fiscal Year 2011-12 for CalSTRS, CalPERS and PARS, respectively. For additional information regarding the District’s pension and retiree health care programs and costs, see the District’s financial statements for Fiscal Year 2010-11 contained in Appendix B - “Audited Financial Statements of the District for the Fiscal Year ended June 30, 2011” attached hereto.

The information set forth below regarding CalSTRS, CalPERS, and PARS has been obtained from publicly available sources and has not been independently verified by the District, the Underwriters or the Co-Financial Advisors, not guaranteed as to the accuracy or completeness of the information and is not to be construed as a representation by the District, the Underwriters or the Co-Financial Advisors. Furthermore, the summary data below should not be read as current or definitive, as recent gains or losses on investments made by the retirement systems generally may have changed the unfunded actuarial accrued liabilities stated below.

California State Teachers’ Retirement System. The California State Teachers’ Retirement System (“CalSTRS”) is a defined benefit plan that covers all full-time certificated District employees and some classified District employees, which are District employees employed in a position that does not require a teaching credential from the State.

CalSTRS is operated on a Statewide basis and, based on publicly available information, has substantial unfunded liabilities. Additional funding of CalSTRS by the State and the inclusion of adjustments to such State contributions based on consumer price changes were provided for in 1979 Statutes, Chapter 282. The District is unable to predict what the amount of State pension liabilities will be in the future, or the amount of the contributions which the District may be required to make to CalSTRS. Accordingly, there can be no assurances that the District’s required contributions to CalSTRS will not significantly increase in the future above current levels. Pursuant to the CalSTRS’ comprehensive annual financial report for the Fiscal Year ended June 30, 2011, absent corrective action, the CalSTRS fund will be depleted in 2042, and the State will be obligated to pay the difference between the benefits paid and the contributions received.

The following Table A-5 sets forth the District’s regular annual contributions to CalSTRS for Fiscal Years 2006-07 through 2010-11, the estimated contribution for Fiscal Year 2011-12 and the contributions as a percentage of the District’s Total Governmental Funds expenditures for Fiscal Years 2006-07 through 2010-11 (revised from the percentage of the District’s General Fund expenditures for Fiscal Years 2006-07

through 2011-12 set forth in the Preliminary Official Statement dated April 10, 2012 relating to the Refunding Bonds). The District has always paid all required CalSTRS annual contributions.

TABLE A-5

⁽¹⁾ Excludes employee contributions paid by the District.

⁽²⁾ Estimated.

⁽³⁾ Projected Total Governmental Funds expenditures are not included in the District's Fiscal Year 2011-12 Second Interim Report. The District's Total Governmental Funds expenditures for Fiscal Year 2011-12 will be included in the District's audited financial statements for Fiscal Year 2011-12.

Source: Los Angeles Unified School District Comprehensive Annual Financial Reports for Fiscal Years 2006-07 through 2010-11; Fiscal Year 2011-12 Second Interim Report.

The unfunded actuarial accrued liabilities and funded status of the CalSTRS pension fund as of June 30 of Fiscal Years June 30, 2007 through June 30, 2011 are set forth in the following Table A-6. The individual funding progress for the District is not provided in the actuarial report from CalSTRS.

TABLE A-6

**Actuarial Value of State Teachers' Retirement Fund Defined Benefit Program
Valuation Dates June 30, 2007 through June 30, 2011
(\$ in billions)**

Valuation Date (June 30)	Accrued Liability	Actuarial Value of Assets⁽¹⁾	Unfunded Liability	Funded Ratio (Actuarial Value)	Funded Ratio (Fair Market Value)
2007	\$167.129	\$146.419	\$20.710	89.0%	88.0%
2008	177.734	155.215	22.519	87.0	85.0
2009	185.683	145.142	40.541	78.0	58.0
2010	196.315	140.291	56.024	71.5	59.7
2011	208.405	143.930	64.475	69.1	67.2

⁽¹⁾ Actuarial Value of Assets does not include amounts allocable to the CalSTRS Supplemental Benefits Maintenance Account

Sources: California State Teachers' Retirement System Defined Benefit Program Actuarial Valuations as of June 30, 2006 through June 30, 2011.

The actuarial assumptions set forth in the California State Teachers' Retirement System Defined Benefit Program Actuarial Valuation as of June 30, 2011 (the "2011 CalSTRS Actuarial Valuation") use the

“Entry Age Normal Cost Method” and, among other things, an assumed 7.50% investment rate of return, which reflects a decrease from the previously assumed investment rate of return of 7.75%, and 4.50% interest on accounts, which reflects a decrease from the previously assumed interest on accounts of 6.00%, projected 3.00% inflation and demographic assumptions relating to mortality rates, length of service, rates of disability, rates of withdrawal, probability of refund, and merit salary increases. In addition, the Teacher’s Retirement Board changed the mortality assumption to reflect the fact that members are living longer and lowered the assumption of wage growth to 3.75% from 4.00%. The actuarial assumptions and methods used in the 2011 CalSTRS Actuarial Valuation were based on the Experience Analysis July 1, 2006 – June 30, 2010 adopted by the Teacher’s Retirement Board in February 2012 (the “CalSTRS Experience Analysis”). The amounts of CalSTRS’ unfunded liability will vary from time to time depending upon actuarial assumptions, and actual rates of return on investment, salary scales and levels of contribution.

CalSTRS’ Experience Analysis projects that bringing CalSTRS to full funding would require a payroll contribution of 16.23% of projected expenditures. However, the 2011 CalSTRS Actuarial Valuation projected that full funding would require an increase in employer rates to 13% of projected expenditures. The 2011 CalSTRS Actuarial Valuation projects that, absent any changes in contribution rates or liabilities, the fund will deplete its assets in approximately 30 years. Benefit provisions are established by State legislation in accordance with the State Teachers’ Retirement Law. Employees and the District contribute 8.00% and 8.25%, respectively, of gross salary expenditures to CalSTRS. The District has not received any notice from CalSTRS of any plans CalSTRS has to change the rates currently in effect or of any proposed changes in the State law with respect to the contribution rates.

The market value of the CalSTRS pension fund as of June 30, 2010 and June 30, 2011 was \$129.8 billion and \$147.1 billion, respectively. CalSTRS produces a comprehensive annual financial report which includes financial statements and required supplementary information. Copies of the CalSTRS’ comprehensive annual financial report may be obtained from CalSTRS, P.O. Box 15275, Sacramento, California 95851. The information presented in these reports is not incorporated by reference in this Official Statement.

California Public Employees’ Retirement System. The California Public Employees’ Retirement System (“CalPERS”) is a defined benefit plan that covers classified personnel who work four or more hours per day. Benefit provisions are established by State legislation in accordance with the Public Employees’ Retirement Law. The District’s contribution to CalPERS is capped at 13.02% of gross salary expenditures. If the District’s contribution rate to CalPERS is less than 13.02% of gross salary expenditures for a given year, the State will reduce the District’s revenue limit for that year by the amount of the difference between the District’s contribution calculated based on a contribution rate of 13.02% of gross salary expenditures and the District’s actual contribution. Moreover, if the required contribution rate is greater than 13.02% for a given year, then the State will provide revenue limit allocations to the District for that year by the amount of the difference between the District’s actual contribution to CalPERS and the District’s contribution calculated based on a contribution rate of 13.02% of gross salary expenditures. The District is unable to predict what the amount of State pension liabilities will be in the future, or the amount of the contributions which the District may be required to make to CalPERS. Accordingly, there can be no assurances that the District’s required contributions to CalPERS will not significantly increase in the future above current levels.

Active plan members are required to contribute 7% (miscellaneous) or 9% (safety) of their monthly salary and the District is required to contribute based on an actuarially determined rate. The actuarial methods and assumptions used for determining the rates are based on those adopted by Board of Administration of CalPERS. The required employer contribution rates for the Fiscal Year 2011-12 are 10.923% for miscellaneous and 34.056% for safety members. The District paid the employee’s contribution of 9% for most of the safety members and certain percentages for employees covered under other collective bargaining units.

The following Table A-7 sets forth the District's regular annual contributions, inclusive of employee contributions paid by the District, to CalPERS for Fiscal Years 2006-07 through 2010-11, the estimated contribution for Fiscal Year 2011-12 and the contributions as a percentage of the District's Total Governmental Funds expenditures for Fiscal Years 2006-07 through 2010-11 (revised from the percentage of the District's General Fund expenditures for Fiscal Years 2006-07 through 2011-12 set forth in the Preliminary Official Statement dated April 10, 2012 relating to the Refunding Bonds). The District has always paid all required CalPERS annual contributions.

TABLE A-7

**LOS ANGELES UNIFIED SCHOOL DISTRICT
Annual CalPERS Regular Contributions
Fiscal Years 2006-07 through 2011-12⁽¹⁾
(\$ in millions)**

Fiscal Year	District Contributions⁽¹⁾	District Contribution as Percentage of Total Governmental Funds Expenditures
2006-07	\$149.7	1.62%
2007-08	160.6	1.63
2008-09	163.6	1.61
2009-10	156.0	1.68
2010-11	142.6	1.59
2011-12	98.4 ⁽²⁾	N/A ⁽³⁾

⁽¹⁾ Includes regular contributions and employee contributions paid by the District and "PERS Recapture." Pursuant to State law, the State is allowed to recapture the savings corresponding to a lower CalPERS rate by reducing a school district's revenue limit apportionment by the amount of the school district's CalPERS savings in that year. Such recapture has occurred with respect to the District in each fiscal year since Fiscal Year 1982-83.

⁽²⁾ Estimated. Excludes employee contributions paid by the District.

⁽³⁾ Projected Total Governmental Funds expenditures are not included in the District's Fiscal Year 2011-12 Second Interim Report. The District's Total Governmental Funds expenditures for Fiscal Year 2011-12 will be included in the District's audited financial statements for Fiscal Year 2011-12.

Source: Los Angeles Unified School District Comprehensive Annual Financial Reports for the Fiscal Years 2006-07 through 2010-11; Fiscal Year 2011-12 Second Interim Report.

CalPERS is operated on a Statewide basis and, based on publicly available information, has unfunded liabilities. The amounts of the pension/award benefit obligation or unfunded actuarially accrued liability will vary from time to time depending upon actuarial assumptions, and actual rates of return on investments, salary scales, and levels of contribution.

Unlike typical defined benefit programs such as those administered by CalPERS, neither the CalSTRS employer nor the State contribution rate varies annually to make up funding shortfalls or assess credits for actuarial surpluses. The State does pay a surcharge when the teacher and school district contributions are not sufficient to fully fund the basic defined benefit pension (generally consisting of 2% of salary for each year of service at age 60 referred to as "pre-enhancement benefits") within a 30-year period. However, this surcharge does not apply to the system-wide unfunded liability resulting from recent benefit enhancements. As indicated above, there is presently no required contribution from teachers, school districts or the State to fund this unfunded liability. Historically, the school district employer contribution rate has remained at 8.25%. However, the District is unable to predict what the amount of liabilities will be in the future or the amount of contributions which the District may be required to make.

The unfunded actuarial accrued liabilities and funded status of CalPERS as of June 30 of Fiscal Years June 30, 2006 through June 30, 2010 are set forth in the following Table A-8.

TABLE A-8
Actuarial Value of Schools Portion of CalPERS
Historical Funding Status
Valuation Dates June 30, 2006 through June 30, 2010
(\$ in millions)

Valuation Date (June 30)	Actuarial Accrued Liabilities	Market Value of Assets (MVA)	Funded Status (MVA)	Unfunded Liabilities/ (Surplus) (MVA)	Projected Payroll for Contribution	Unfunded/ (Surplus) as a % of Payroll
2006	\$41,408.65	\$40,852.35	98.7%	\$ 556.31	\$ 9,880.89	5.60%
2007	44,810.07	48,292.93	107.8	(3,482.86)	10,249.83	(34.00)
2008	48,537.68	45,547.90	93.8	2,989.78	11,137.70	26.80
2009	52,493.08	34,146.45	65.0	18,346.63	11,109.76	165.10
2010	55,306.96	38,435.17	69.5	16,871.79	11,283.40	149.50

Sources: CalPERS State & Schools Actuarial Valuations as of June 30, 2006 through June 30, 2010.

In December 2009, the CalPERS Board of Administration adopted changes to the asset smoothing method in order to phase in over a three year period the impact of the negative 24% investment loss experienced by CalPERS in Fiscal Year 2008-09. Under the new methodology, which is not mandatory for employers, investment gains and losses will be tracked and the net unamortized gain or loss will be amortized and paid off over a fixed and declining 30-year period instead of the current, rolling 30-year amortization period, with the exception of gains and losses in Fiscal Years 2008-09, 2009-10, and 2010-11. For Fiscal Years 2008-09, 2009-10, and 2010-11, such fiscal year's gains or losses will be isolated and amortized over fixed and declining 30-year periods. In addition, CalPERS has adopted a policy such that if a plan's accrued liability exceeds the actuarial value of assets, the annual contribution with respect to the total unfunded liability of such plan may not be less than the amount produced by a 30-year amortization of the unfunded liability. Further, all CalPERS plans will be subject to a minimum employer contribution rate equal to the employer normal cost plus a 30-year amortization of surplus, if any.

The actuarial funding method used in the CalPERS State & Schools Actuarial Valuation as of June 30, 2010 is the "Individual Entry Age Normal Cost Method". The CalPERS State & Schools Actuarial Valuation as of June 30, 2010 assumes, among other things, a 7.75% investment rate of return, projected salary increases of 3.45% to 11.05%, projected 3.00% inflation and projected 2.00% or 3.00% post-retirement benefit increases. In March 2012, the CalPERS Board of Administration voted to reduce the actuarial assumed rate of return/discount rate to 7.50% from 7.75%. In connection therewith, State and schools employer contributions will increase by 1.2% to 1.6% for Miscellaneous plans and will increase by 2.2% to 2.4% for Safety plans beginning Fiscal Year 2012-13. CalPERS estimates that these modifications will increase expenditures by participating school districts. The District is evaluating the impact of the aforementioned rate increase upon its finances. The District has paid all required contributions in prior fiscal years and expects to continue to do so.

The market value of the CalPERS pension fund as of June 30, 2009 and June 30, 2010 was \$177.0 billion and \$200.5 billion, respectively. CalPERS issues a comprehensive annual financial report and actuarial valuations that include financial statements and required supplementary information. Copies of the CalPERS CAFR and actuarial valuations may be obtained from the CalPERS Financial Services Division,

P.O. Box 942703, Sacramento, California 94229-2703. The information set forth therein is not incorporated by reference in this Official Statement.

Public Agency Retirement System. On July 1, 1992, the District joined the Public Agency Retirement System (“PARS”), a multiple-employer retirement trust. This defined contribution plan covers the District’s part-time, seasonal, temporary and other employees not otherwise covered by CalPERS or CalSTRS, but whose salaries would otherwise be subject to Social Security tax. Benefit provisions and other requirements are established by District management based on agreements with various bargaining units.

The District is unable to predict the amount of the contributions which the District may be required to make to PARS in the future. Further, the District cannot estimate the current amount of unfunded liabilities of the PARS plans or the funding progress therefor. Accordingly, there can be no assurances that the District’s required contributions to PARS will not significantly increase in the future above current levels. The District has always paid all required PARS annual contributions.

The following Table A-9 sets forth the District’s annual contributions to PARS for Fiscal Years 2006-07 through 2010-11, the estimated contribution for Fiscal Year 2011-12 and the contributions as a percentage of the District’s Total Governmental Funds expenditures for Fiscal Years 2006-07 through 2010-11 (revised from the percentage of the District’s General Fund expenditures for Fiscal Years 2006-07 through 2011-12 set forth in the Preliminary Official Statement dated April 10, 2012 relating to the Refunding Bonds).

TABLE A-9

**LOS ANGELES UNIFIED SCHOOL DISTRICT
Annual PARS Contribution
Fiscal Years 2006-07 through 2011-12
(\$ in millions)**

Fiscal Year	District Contributions⁽¹⁾	District Contribution as Percentage of Total Governmental Funds Expenditures
2006-07	\$3.5	0.04%
2007-08	8.8	0.09
2008-09	6.9	0.07
2009-10	5.7	0.06
2010-11	5.2	0.06
2011-12	3.6 ⁽³⁾	N/A ⁽⁴⁾

⁽¹⁾ Reflects payments to PARS for pension costs associated with the District’s regular and specially funded programs, except specially funded programs are not included in Fiscal Years 2007-08 and 2008-09.

⁽²⁾ Includes amounts related to prior years’ PARS contributions.

⁽³⁾ Estimated.

⁽⁴⁾ Projected Total Governmental Funds expenditures are not included in the District’s Fiscal Year 2011-12 Second Interim Report. The District’s Total Governmental Funds expenditures for Fiscal Year 2011-12 will be included in the District’s audited financial statements for Fiscal Year 2011-12.

Source: Los Angeles Unified School District Comprehensive Annual Financial Report for Fiscal Years 2006-07 through 2009-11; Fiscal Year 2011-12 Second Interim Report.

Other Postemployment Benefits

In addition to employee health care costs, the District provides postemployment health care benefits in accordance with collective bargaining agreements. As of July 1, 2011, there are approximately 37,000

retirees who meet the eligibility requirements for these benefits. The District currently funds these benefits on a pay-as-you-go basis, paying an amount in each Fiscal Year equal to the benefits distributed or disbursed in that Fiscal Year. The following Table A-10 sets forth the District's funding of other postemployment benefits for Fiscal Years 2006-07 through 2010-11, the estimated contribution for Fiscal Year 2011-12 and the contributions as a percentage of the District's Total Governmental Funds expenditures for Fiscal Years 2006-07 through 2010-11 (revised from the percentage of the District's General Fund expenditures for Fiscal Years 2006-07 through 2011-12 set forth in the Preliminary Official Statement dated April 10, 2012 relating to the Refunding Bonds).

TABLE A-10

**LOS ANGELES UNIFIED SCHOOL DISTRICT
Expenditures for Other Postemployment Benefits
Fiscal Years 2006-07 through 2010-11
(\$ in millions)**

Fiscal Year	Amount	Expenditure as Percentage of Total Governmental Funds Expenditures
2006-07	\$233.5	2.52%
2007-08	255.9	2.60
2008-09	267.3	2.63
2009-10	237.3	2.55
2010-11	240.1	2.68
2011-12	252.4 ⁽¹⁾	N/A ⁽²⁾

⁽¹⁾ Estimated.

⁽²⁾ Projected Total Governmental Funds expenditures are not included in the District's Fiscal Year 2011-12 Second Interim Report. The District's Total Governmental Funds expenditures for Fiscal Year 2011-12 will be included in the District's audited financial statements for Fiscal Year 2011-12.

Source: Los Angeles Unified School District Comprehensive Annual Financial Report for Fiscal Years 2006-07 through 2009-11; Fiscal Year 2011-12 Second Interim Report.

On June 21, 2004, the GASB released its Statement No. 45 "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions" ("Statement No. 45"). Statement No. 45 establishes standards for the measurement, recognition and display of postemployment healthcare as well as other forms of postemployment benefits, such as life insurance, when provided separately from a pension plan expense or expenditures and related liabilities in the financial reports of state and local governments. Under Statement No. 45, governments are required to: (i) measure the cost of benefits, and recognize other postemployment benefits expense, on the accrual basis of accounting in periods that approximate employees' years of service; (ii) provide information about the actuarial liabilities for promised benefits associated with past services and whether, or to what extent, those benefits have been funded; and (iii) provide information useful in assessing potential demands on the employer's future cash flows. The District's postemployment health benefits fall under Statement No. 45. The Statement No. 45 reporting requirements for the District became effective during Fiscal Year 2007-08.

The District's OPEB consists of post-employment benefits of health, prescription drug, dental, vision and life insurance coverage for retirees; long-term care coverage, life insurance and death benefits that are not offered as part of a pension plan; and long-term disability insurance for employees. As of the date hereof, the most recent actuarial report prepared for the District is its "GASB 43 and 45 Valuation Report as of June 30, 2009 and Annual Required Contribution for the Fiscal Year Ending June 30, 2010," dated February 25, 2010 (the "2010 Postemployment Valuation").

The following are the principal actuarial assumptions used in the 2010 Postemployment Valuation:

1. Measurement Date: June 30, 2009
2. Census Date: June 30, 2009
3. Economic Assumptions:
 - a. Discount Rate: 5.00%;
 - b. Investment Rate of Return: 5.00% for pay-as-you-go funding;
 - c. Valuation Date: June 30, 2009;
 - d. Annual Inflation Rate: 3.25%;
 - e. Annual Payroll Growth: 4.25%;
 - f. Administrative Expenses: No administrative expenses were valued separately from the premiums; and
 - g. Actuarial Cost Method: Entry Age Normal; level dollar, open. Entry age is based on current age minus years of service.
4. Demographic Assumptions
 - a. Retirement: Age-based ranges;
 - b. Termination: Service-related ranges;
 - c. Disability Retirement: Age-based rates for all participants;
 - d. Mortality: (i) Active Employees: 1994 Group Annuity Mortality table, 5 year setback for males, 4 year setback for females; (ii) Retirees: 1994 Group Annuity Mortality table, 3 year setback for males, 2 year setback for females; and (iii) Disabled Lives – Select Rates used during the first three years of disability and Ultimate Rates used after three years of disability;
 - e. Plan Participation: 100% of current active employees with medical coverage are assumed to continue coverage upon retirement;
 - f. Marital Characteristics: (i) Retirees: actual data and (ii) Active Employees: 75% of male participants are assumed to elect spousal coverage, with female spouses five years younger than male participants and 50% of female participants are assumed to elect spousal coverage, with male spouses two years older than female participants; and
 - g. Plan Participation: 100% of the current active employees with medical coverage are assumed to continue medical coverage at retirement.
5. Benefit Assumptions
 - a. Premium Rates: Used for Retiree Medical Coverage, including prescription drugs, Retiree Dental Coverage and Retiree Vision Coverage;
 - b. Health Care Cost Subsidy Trend Rates: 9.25% (graded down over 10 years to ultimate rate of 5.00%) for the health maintenance organizations and 9% (graded down over 10 years to ultimate rate of 5.00%) for the preferred provider organizations; and
 - c. Dental and Vision Care Inflation: 5.00%.

The 2010 Postemployment Valuation sets forth the District's actuarial valuation of postemployment medical benefits as of June 30, 2009 for its employees and retirees. The 2010 Postemployment Valuation sets forth the liabilities of the postemployment benefit plan based upon GASB Statement Nos. 43 and 45. The market value of plan net assets as of June 30, 2009 is estimated to be \$0. The 2010 Postemployment Valuation reports that, as of June 30, 2009, the unfunded actuarial accrued liability ("UAAL") of the District's post-retirement health and welfare benefits program is approximately \$9.925 billion. Pursuant to Statement No. 45, OPEB expense in an amount equal to annual OPEB cost is recognized in government-wide financial statements on an accrual basis. Net OPEB obligations, if any, including amounts associated with under- or over-contributions from governmental funds, are to be displayed as liabilities (or assets) in government-wide financial statements.

The 2010 Postemployment Valuation recommended an annual required contribution ("ARC") of \$1.01 billion, or 21.7% of the District's payroll at the June 30, 2009 valuation date, for Fiscal Year 2009-10.

As of June 30, 2010, the “pay-as-you-go” cost of providing postemployment benefits is projected to be \$257.963 million. Accordingly, the District’s net pension obligation (“NPO”) as of June 30, 2010 was expected to be greater than the NPO as of June 30, 2009. NPO is the cumulative difference between the annual pension cost (the “Annual OPEB Cost”) to the District of the postemployment benefit plan and the actual contribution in a particular year. Annual OPEB Cost is equal to (i) the ARC, (ii) one year’s interest on the NPO, and (iii) an adjustment to the ARC to offset, approximately, the amount included in item (i) for amortization of the past contribution deficiencies.

The Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (collectively, the “Health Care Reform Act of 2010”) were signed into law in March 2010. The Health Care Reform Act of 2010 imposes an excise tax (the “Health Care Reform Excise Tax”) of 40% on employers that carry “Cadillac healthcare plans” beginning in 2018. The excise tax will be applied to the amount of premium in excess of stated single (\$10,200) and family (\$27,500) thresholds. The 2010 Postemployment Valuation was released prior to the enactment of the Health Care Reform Act of 2010. However, the District’s actuary has estimated the impact of the excise tax using the assumptions and calculations from that valuation. The 2010 Postemployment Valuation was updated by the District’s Actuary to reflect the projected impact of the Health Care Reform Act of 2010 (the “Updated Postemployment Valuation”). Based on the Updated Postemployment Valuation, the actuarial accrued liability for benefits was \$10.3 billion as of June 30, 2011, and the actuarial value of assets was \$0, resulting in a UAAL of \$10.3 billion, of which \$400 million is attributable to the Health Care Reform Excise Tax. The covered payroll (annual payroll of active employees covered by the plan) was \$4.6 billion, and the ratio of the UAAL to the covered payroll was 223%. See Note 8 to the audited financial statements of the District contained in Appendix B - “Audited Financial Statements of the District for the Fiscal Year ended June 30, 2011” attached hereto.

In consideration of the Health Care Reform Act of 2010, the District’s actuary states that the ARC would be \$1.050 billion as of June 30, 2011, which reflects an increase of approximately \$43.9 million compared to the ARC as if June 30, 2010 if the District pays the tax on “Cadillac healthcare plans” under the Health Care Reform Act of 2010 on behalf of its employees and retirees. The District has not determined whether it will pay such a tax and may elect to have eligible employees and retirees pay the tax themselves.

The Fiscal Year 2011-12 District Budget included a contribution of \$20 million greater than the pay-as-you-go contribution for OPEB for Fiscal Year 2011-12 and a contribution of \$25 million relating to OPEB from prior fiscal years. The District has not placed the aforementioned funds in an irrevocable trust as defined in GASB Statement No. 45. Accordingly, such funds are not restricted to OPEB costs and the District’s Actuary has not included such funds in its analysis of the District’s OPEB liability.

Table A-11 below reflects the District’s ARC, annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for Fiscal Years 2008-09 through 2010-11.

TABLE A-11

LOS ANGELES UNIFIED SCHOOL DISTRICT
Annual Required Contributions, OPEB Costs and Net OPEB Obligations
Fiscal Years 2008-09 through 2010-11
(\$ in thousands)

Fiscal Year	Annual Required Contribution	Annual OPEB Cost	Annual OPEB Cost Contributed	Net OPEB Obligation
2008-09	\$1,088,523	\$1,088,523	25%	\$1,653,926
2009-10	1,006,755	977,150	24	2,393,811
2010-11	1,050,646	1,022,031	23	3,175,742

Source: Los Angeles Unified School District Comprehensive Annual Financial Reports for Fiscal Years 2008-09, 2009-10 and 2010-11.

The District expects to continue to review the Postemployment Valuation in conjunction with the District's obligations under its postemployment benefit plan to determine, among other things, its course of action with respect to postemployment benefit contributions and what other postemployment benefit liability must be reported. In the opinion of District management, any further increase in the District's UAAL as described in the Postemployment Valuation will not adversely affect the District's ability to pay debt service on its general fund obligations, tax and revenue anticipation notes, COPs, or general obligation bonds, including the Refunding Bonds described in the forepart of this Official Statement, the last of which are payable from voter-approved *ad valorem* property taxes.

For additional information regarding the District's OPEB, see Appendix B - "Audited Financial Statements of the District for the Fiscal Year ended June 30, 2011" attached hereto.

Insurance

The District maintains various excess property, casualty and fidelity insurance programs, which are self-insured, with varying self-insured retentions. The District's excess property coverage is provided currently through its membership in the Public Entity Property Insurance Program ("PEPIP"), an insurance pool comprised of certain cities, counties and school districts. The District maintains excess property insurance on all District facilities under a combination of self-insurance retentions and varying sublimits through the excess insurance policies of PEPIP. The current self-insured retention for fire loss damage for excess property coverage is \$500,000 per occurrence and the policy limit is \$1 billion. The District maintains what it considers to be adequate reserves to cover losses within the self-insurance retention. District General Fund resources are used to pay for property loss insurance and uninsured repairs for property damage. In addition to the above excess property policies, the District purchases a separate boiler and machinery policy with \$100 million in occurrence limits and a Fidelity crime policy with \$1 million in occurrence limits.

Excess liability insurance is maintained through a combination of excess policies totaling \$45 million in aggregate above a \$3 million self-insured retention per occurrence. The District maintains reserves that it believes are adequate to cover losses within the self-insured retention.

The District is self-insured for its Workers' Compensation Program. The lower amount of claims is the result of workers' compensation reforms implemented by the State as well as District activities to improve third party management of claims and reduce workers' compensation fraud. Separate funds are used to account for amounts set aside to pay claims incurred and related expenditures under the respective

insurance programs. The following Table A-12 sets forth the workers' compensation liability, claims and changes in estimates and claims paid from Fiscal Years 2006-07 through 2010-11.

TABLE A-12

Source: Los Angeles Unified School District Comprehensive Annual Financial Report for Fiscal Years 2006-07 through 2010-11.

The District purchased through the American International Group's ("AIG") companies a pollution legal liability ("PLL") policy with coverage of \$50 million for each incident, with an aggregate of \$100 million (coverage period of August 11, 1999 through August 11, 2019). The District filed a lawsuit in Los Angeles County Superior Court in March 2006 against AIG alleging the insurance carrier committed acts of bad faith for failure to honor claims incurred during the PLL policy period. In March 2012, the District Board approved a proposed settlement agreement with AIG which, upon its execution, will require AIG to pay to the District \$78,750,000 over a period of ten years, commencing Fiscal Year 2011-12.

The District implemented an owner-controlled insurance program ("OCIP") on May 1, 2006 ("OCIP II") after the expiration of its initial OCIP. OCIP II covers new construction and renovation projects funded by school bonds. Under an OCIP, the District provides general liability and workers' compensation insurance coverage to enrolled construction contractors. Builder's risk and CPL coverage are also provided. The benefits derived from the large buying power of an OCIP, along with centralized risk management and safety creates savings that accrue for the District. Under the OCIP II, workers' compensation coverage with statutory limits, and primary and excess liability coverage with limits of \$100 million have been underwritten by six major insurance carriers. In addition, buildings under construction and renovation with project values under \$50 million, a portion of the costs of which are financed with the proceeds of District general obligation bond issues, are covered under PEPPI. Builder's risk coverage for projects with construction values above \$50 million is currently covered under individual policies underwritten by various carriers. Savings to the District from May 1, 2006 through May 1, 2013 from OCIP II are estimated in the range of approximately \$68 million to \$117 million.

Liabilities for loss and loss adjustment expenses under each of the District's insurance programs include the accumulation of estimates for losses reported prior to the balance sheet date, estimates of losses incurred but not reported and estimates of expenses for investigating and adjusting reported and unreported losses. Such liabilities are estimates of the future expected settlements and are based upon analysis of historical patterns of the number of incurred claims and their values. The District believes that, given the inherent variability in any such estimates, the aggregate liabilities are within a reasonable range of adequacy. Individual reserves are continually monitored and reviewed, and, as settlements are made or reserves adjusted, differences are reflected in current operations. For additional information regarding the District's insurance programs, see the District's financial statements for Fiscal Year 2010-11 contained in

Appendix B - “Audited Financial Statements of the District for the Fiscal Year ended June 30, 2011” attached hereto.

Cafeteria Fund Expenditures

In March 2011, the District signed a Memorandum of Understanding (“MOU”) with the CDE to resolve allegations that certain expenditures relating to administrative support were inappropriately charged to the District’s Cafeteria Fund (the “Cafeteria Fund”) in Fiscal Years 2004-05 through 2007-08. The MOU sets forth a repayment plan for the District to repay \$109 million into the Cafeteria Fund over a period not to exceed 10 years for the transfers made in Fiscal Years 2004-05 through 2007-08. The District transferred approximately \$32 million to the Cafeteria Fund from the General Fund during Fiscal Year 2010-11 pursuant to the MOU. In addition, pursuant to the MOU the State Controller’s Office is auditing the Cafeteria Fund’s expenditures for Fiscal Years 2008-09 and 2009-10 to determine whether additional amounts may need to be repaid. The repayment plan requirement for Fiscal Year 2011-12 is provided for in the Fiscal Year 2011-12 District Budget. The District currently expects to repay any amounts owed to the Cafeteria Fund in accordance with the final MOU. However, there can be no assurances that the MOU will not be modified in the future or that any agreement by and between the District and the CDE will not modify the terms for repayment. The District continues to work with the CDE and the United States Department of Agriculture to finalize the required repayment amounts pursuant to the MOU.

District Fiscal Policies

Debt Management Policy. In October 2003, the District Board adopted a debt management policy that established formal guidelines for the issuance and management of various types of debt instruments and other financial obligations (the “Debt Management Policy”). The Debt Management Policy establishes targets and ceilings for certificates of participation (“COPs”) and unhedged variable rate exposure and sets forth benchmark debt ratios that include both COPs and the District’s general obligation bonds.

The Debt Management Policy is required to be reviewed annually. The current Debt Management Policy was approved by the District Board on September 13, 2011. The Debt Management Policy sets forth an annual gross debt service cap of \$105 million attributable to COPs and establishes a target of 2.0% and a ceiling of 2.5% for the ratio of gross COPs debt service to District General Fund appropriations. A target may be increased only through District Board authorization each time a new debt is proposed, but is not intended to exceed the ceiling established in the Debt Management Policy.

The District’s current maximum fiscal year COPs debt service is \$58.722 million, which is below the \$105.0 million cap, and was 0.95% of budgeted District General Fund appropriations for Fiscal Year 2010-11, which is below the 2.0% to 2.5% range established by the Debt Management Policy.

The Debt Management Policy limits unhedged variable rate debt to 20% of outstanding COPs or \$100 million, whichever is less, and requires reporting of the debt ratios and benchmarks set forth in Tables A-13 and A-14 below in the annual Debt Report.

As of April 1, 2012, the District had \$464.4 million of outstanding COPs, of which \$97.5 million are variable rate COPs (net of amounts set aside to make payments on certain of the fixed rate COPs). As of April 1, 2012, the net amount of COPs outstanding is \$430.3 million. The District’s average daily General Fund cash balance is projected to be \$642.6 million for Fiscal Year 2011-12. Accordingly, the District believes that interest rate exposure on its variable rate COPs is naturally hedged by this cash position.

The following Table A-13 sets forth the debt factors for COPs which are to be repaid from the District General Fund or other internal District resources as reported in the District’s Fiscal Year 2010-11 Debt Report.

TABLE A-13

**LOS ANGELES UNIFIED SCHOOL DISTRICT
Debt Management Policy – Debt Factors
(as of June 30, 2011)**

Debt Factor	Target⁽¹⁾	Ceiling⁽²⁾	Actual	Over (Under) Policy Ceiling
Maximum COPs Gross Debt Service Limit (percentage)	2.0% of District General Fund Expenditures	2.5% of District General Fund Expenditures	0.95%	(1.55)%
Maximum COPs Gross Debt Service Limit ⁽²⁾	Not applicable	\$105.0 million	\$58.7 million	(\$46.2 million)
Unhedged Variable Rate Debt as % of total COPs Debt	Not applicable	20.0%	0.0%	(20.0)%

⁽¹⁾ “District General Fund Expenditures” includes said amounts based upon the District’s Fiscal Year 2009-10 Final Adopted Budget.

⁽²⁾ May increase with each approved execution of COPs.

Source: Los Angeles Unified School District.

The following Table A-14 sets forth the benchmark debt burden ratios that recognize the combined direct debt and overall debt of the District. Table A-14 also provides a summary of the District’s performance against policy benchmarks for the District’s general obligation bond and COPs debt and debt issued by overlapping agencies. These benchmarks pertain to large school districts nationwide whose ratings are in the double-A or higher rating category.

Due to the statistical dispersion of the underlying data for the benchmarks in the following Table A-14 and the large size of the District’s bonding program relative to other large school districts, the District’s debt burden ratios are not unexpectedly higher than most of the benchmark values. Even though some of the other large school districts have school funding mechanisms different than the District’s and may have budgets that are considerably smaller than the District’s, the District believes that the “large, highly-rated” school district cohort to be the most appropriate cohort group against which it should be compared.

TABLE A-14

LOS ANGELES UNIFIED SCHOOL DISTRICT
Debt Management Policy Benchmarks for District's Direct and Overall Debt
(As of June 30, 2011)⁽¹⁾

Debt Burden Ratio	Benchmark	Benchmark's Value	LAUSD Actual⁽¹⁾
Direct Debt to Assessed Value	Moody's Median for "Aa"-Rated School Districts With Student Population Above 200,000	1.10%	2.60%
	Standard & Poor's Mean for "AA"-Rated School Districts With Student Population Above 150,000	1.50%	
Overall Debt to Assessed Valuation	Moody's Median for "Aa"-Rated School Districts With Student Population Above 200,000	2.60%	4.22%
	Standard & Poor's Mean for "AA"-Rated School Districts With Student Population Above 150,000	3.20%	
Direct Debt Per Capita ⁽²⁾	Standard & Poor's Median for "AA"-Rated School Districts With Student Population Above 150,000	\$ 736	\$2,639
	Standard & Poor's Mean for "AA"-Rated School Districts With Student Population Above 150,000	\$ 847	
Overall Debt Per Capita ⁽²⁾	Standard & Poor's Median for "AA"-Rated School Districts With Student Population Above 150,000	\$1,665	\$4,291
	Standard & Poor's Mean for "AA"-Rated School Districts With Student Population Above 150,000	\$2,639	

⁽¹⁾ Benchmark Value information in Table A-14 is as set forth in the District's Debt Report for Fiscal Year 2010-11. The District's CAFRs report these calculations differently by adjusting for outstanding bond and COP unamortized premiums and discounts.

⁽²⁾ Per capita debt calculations are based upon the estimated District population of 4.6 million as of June 30, 2011.

Source: Los Angeles Unified School District.

Budget and Finance Policy. The District's Budget and Finance Policy became effective on July 1, 2005. The purposes of the Budget and Finance Policy are to establish best practices for the District's budget process and to establish a reserves policy for District operations, liabilities and asset/equipment replacement. The purpose of the operating reserves is to set aside monies for current year obligations. These reserves include the Reserve for Anticipated Balances, the Reserve for Revolving Cash, Stores, and Prepaid Expenses, the Emergency Reserve, and the Reserve for Economic Uncertainties. The purpose of the liability reserves is to set aside monies for future obligations of the District. Liability reserves include the Liability Self Insurance Account Reserve, the Workers' Compensation Fund Unfunded Liability Reserve, and the Health & Welfare Fund Retirement Benefits for Employees Reserve. The Budget and Finance Policy also created the Special Reserve for Equipment Replacement.

Under State law, the District is required to maintain only one of the operating reserves, the Reserve for Economic Uncertainties. In the Fiscal Year 2011-12 Second Interim Report, the Reserve for Economic Uncertainties is projected to be funded at the current legally mandated minimum of 1.0% of the District's General Fund expenditures, or approximately \$65.4 million at the end of Fiscal Year 2011-12. For Fiscal Year 2012-13, the statutory required minimum Reserve for Economic Uncertainties is projected to be budgeted at \$65.4 million. The District's other operating reserves may be funded and phased in annually based on the District Board's actions, although the Chief Financial Officer of the District has not recommended any such funding at present.

District Debt

General Obligation Bonds. Pursuant to Sections 15106 and 17422 of the State Education Code, the District's bonding capacity for general obligation bonds is 2.5% of taxable property value in the District. The taxable property value in the District for Fiscal Year 2011-12 is \$469.1 billion, which results in a total current bonding capacity of approximately \$11.7 billion. The District currently has approximately \$434.84 million of unused bonding capacity for the issuance of additional general obligation bonds. The District does not presently expect to issue additional general obligation bonds other than general obligation refunding bonds in the near future.

The District may not issue general obligation bonds without voter approval and may not issue general obligation bonds in an amount greater than its bonding capacity. From July 1997 through March 2003, the District issued the entire amount of general obligation bonds pursuant to a \$2.4 billion authorization approved by voters in the April 8, 1997 election (the "Proposition BB Authorization"). A \$3.35 billion general obligation bond authorization was approved by voters on November 5, 2002 (the "Measure K Authorization"). The District has issued \$3.350 billion aggregate principal amount of Measure K general obligation bonds. A \$3.87 billion general obligation bond authorization was approved by the voters on March 2, 2004 (the "Measure R Authorization"). The District has issued \$3.635 billion aggregate principal amount of Measure R general obligation bonds. A \$3.985 billion general obligation bond authorization was approved by the voters on November 8, 2005 (the "Measure Y Authorization"). The District has issued \$3.542 billion of aggregate principal amount of Measure Y general obligation bonds. A \$7.0 billion general obligation bond authorization was approved by voters on November 7, 2008 (the "Measure Q Authorization"). No general obligation bonds have been issued pursuant to the Measure Q Authorization.

In October 2011, the District received updated estimates of projected assessed valuation from a private econometrics firm. The econometrics model projected small annual increases in the District's assessed valuation base over the foreseeable future. See "- Assessed Valuation of Property within the District" herein. There remains approximately \$235 million of the Measure R Authorization, approximately \$443 million of the Measure Y Authorization and the entire \$7.0 billion of the Measure Q Authorization. Based upon the aggregate assessed valuation of taxable property within the District for Fiscal Year 2011-12, the District has approximately \$416.33 million of bonding capacity for new issuances of general obligation bonds. See "California Constitutional and Statutory Provisions relating to *Ad Valorem* Property Taxes, District Revenues and Appropriations—Article XIII A of the State Constitution" herein.

Williams Settlement Agreement and Legislation; Funding for the New School Construction Program. In 2004, a class action lawsuit, *Eliezer Williams, et al., vs. State of California, et al.* ("Williams"), against the State and State education agencies, including the California Department of Education (the "CDE") relating to equal access to instructional materials, safe and decent school facilities, and qualified teachers was settled. One component of the settlement agreement and subsequent legislation was the requirement that school districts eliminate the use of the multi-track, year-round school calendar (known as the "Concept 6 calendar"), by July 1, 2012. Pursuant to the terms of the settlement agreement and in accordance with the *Williams* legislation, in December 2004, the District Board adopted a new school construction plan that prioritizes school construction and revised the allocation of its funding pursuant to the Measure Q Authorization to ensure all schools are removed from the Concept 6 calendar by July 1, 2012.

Citizens' Bond Oversight Committee. Pursuant to Section 1(b)(3) of Article XIII A of the State Constitution, Chapters 1 and 1.5 of Part 10 of Division 1 of Title 1 of the State Education Code, as amended, and other applicable law (collectively, the "Act"), the District Board has appointed a Citizens' Bond Oversight Committee. The Citizens' Bond Oversight Committee is composed of 16 members representing numerous community groups and operates to inform the public concerning the spending of Measure K, Measure R, Measure Y and Measure Q Authorization bond funds authorized by the Act. The Citizens' Bond

Oversight Committee regularly reviews the potential bond projects and budgets and provides non-binding advice to the District Board on how to allocate and reallocate scarce bond proceeds in order to ensure the completion of viable projects and to avoid non-completion of projects once commenced. The Citizens' Bond Oversight Committee also informs the public concerning the spending of funds attributable to the Proposition BB Authorization, although Proposition BB was approved under statutes other than the Act. The Citizens' Bond Oversight Committee meets monthly in order to review all matters including, among other things, changes in budget, scope and schedules that relate to the District's general obligation bonds and the projects proposed to be funded therefrom. In addition, the Citizens' Bond Oversight Committee makes recommendations to the District Board regarding such matters. See "California Constitutional and Statutory Provisions relating to *Ad Valorem* Property Taxes, District Revenues and Appropriations—Proposition 39" herein. The District's OIG conducts yearly audits on all construction management firms to ensure that funds from the New School Construction Program are spent in compliance with the Act and the District's policies relating thereto. The District's outside auditor, Simpson & Simpson, currently prepares the required bond audits regarding the expenditures of general obligation bond proceeds.

The members of the District's Bond Citizens' Oversight Committee and the community groups represented by such members are set forth below.

**LOS ANGELES UNIFIED SCHOOL DISTRICT
Bond Citizens' Oversight Committee
(As of April 1, 2012)**

Member	Community Group Represented
Elizabeth Bar-El, Chair	LAUSD Parent Representative
Stephen English, Vice-Chair	Office of the Controller, City of Los Angeles
John Naimo, Secretary	Office of the Auditor-Controller, County of Los Angeles
Ilene Ashcraft	Tenth District Parent Teacher Student Association
Maria Cabildo	LAUSD Parent Representative
Paul Escala	California Charter Schools Association
Eva S. Hain	American Association of Retired Persons
John Hakel	Associated General Contractors of California
Robbie Hunter	Los Angeles County Federation of Labor AFL-CIO
Lynda Levitan	Thirty-First District Parent Teacher Student Association
Pamela Schmidt	Early Education Coalition
Joan Sullivan	Office of the Mayor, City of Los Angeles
Barry Waite	LAUSD Parent Representative
Wendy Watanabe	County of Los Angeles Auditor-Controller
Chester A. Widom	American Institute of Architects

Outstanding General Obligation Bonds. The following Tables A-15, A-16, A-17 and A-18 set forth the outstanding bonds issued under the Proposition BB, Measure K, Measure R and Measure Y Authorizations, respectively. The following Tables A-15 and A-16 exclude the Refunding Bonds and include the Prior Bonds to be refunded.

TABLE A-15

Certificates of Participation. As of April 1, 2012, the District had outstanding lease obligations issued in the form of COPs in the aggregate principal amount of \$464.4 million, excluding COPs that are economically defeased. Outstanding lease obligations represent approximately \$620.9 million in total debt service, based upon certain assumed interest rates for the District's variable rate lease obligations and the receipt of a direct cash subsidy payment from the United States Department of the Treasury equal to 35% of the interest evidenced by the District's Certificates of Participation 2010 Series B-1 (Federally Taxable Direct Pay Build America Bonds)(Capital Projects I). In June 2012, the District expects to execute and deliver its Refunding Certificates of Participation 2012 Series A (Headquarters Building Project) and Refunding Certificates of Participation 2012 Series B (Headquarters Building Projects) (collectively, the "Series 2012 COPs") to refinance a portion of its outstanding COPs. The following Table A-19 sets forth the District's lease obligations paid from the District General Fund, developer fees, and the Cafeteria Fund with respect to its outstanding COPs.

TABLE A-19

2036	<u>2,079</u>	<u>--</u>	<u>--</u>	<u>2,079</u>
	<u>\$516,861</u>	<u>\$29,658</u>	<u>\$74,340</u>	<u>\$620,858</u>

⁽¹⁾ Totals may not equal sum of component parts due to rounding.

⁽²⁾ The District has assumed an interest rate of 2.75% per annum, remarketing fees of 0.08% and letter of credit fees of 1.00% for its Variable Rate Refunding Certificates of Participation 2008 Series A (Administration Building Project) and Variable Refunding Certificates of Participation 2008 Series B (Administration Building Project III).

⁽³⁾ The lease payments stated above reflect the net obligations of the District, due to the defeasance of certain COPs.

⁽⁴⁾ The District has timely deposited the portion of the principal and interest evidenced by its outstanding COPs due during Fiscal Year 2011-12 prior to the date hereof.

⁽⁵⁾ The District expects to execute and deliver the Series 2012 COPs in June 2012 to refinance a portion of its outstanding COPs. Table A-19 includes the COPs to be refinanced with the Series 2012 COPs.

⁽⁶⁾ In the event that insufficient developer fees or cafeteria funds are available to pay these respective lease obligations, the District General Fund is obligated to pay these obligations, subject to the terms of the applicable leases. However, such fees have been sufficient to date to pay these lease obligations. Debt service payments for the Fiscal Year 2017-18 will be paid in part from funds in a debt service reserve fund.

Source: Los Angeles Unified School District.

Other Long-Term Obligations. The following Table A-20 summarizes the District's other long-term obligations, which exclude outstanding general obligation bonds and COPs, as of June 30, 2011.

TABLE A-20

LOS ANGELES UNIFIED SCHOOL DISTRICT
Other Outstanding Long-Term Obligations
(\$ in thousands)

	Balance as of June 30, 2011
Self-Insurance Claims ⁽¹⁾	\$ 503,305
Net Pension Obligation – OPEB ⁽²⁾⁽³⁾	3,175,742
Liability for Employee Benefits	202,032
Revolving loan and other loans ⁽⁴⁾	1,009
Capital lease/obligations	2,359
Arbitrage payable	5,470
Legal Settlements	--
TOTAL	<u>\$3,889,917</u>

⁽¹⁾ Includes the total claims liabilities recorded for medical, dental, liability and workers' compensation. Beginning with Fiscal Year 2003-04, the District, in conformity with generally accepted accounting principles, implemented a change that recognizes estimated claims liabilities at the full present value of claims in its fund financials. In the past, the District recorded estimated claims liabilities only to the extent funded in its fund financial statements, which was substantially less than the present value for the Workers' Compensation Self-Insurance Fund.

⁽²⁾ Pursuant to Statement No. 45, OPEB expense in an amount equal to annual OPEB cost is recognized in government-wide financial statements on an accrual basis. Net OPEB obligations, if any, including amounts associated with under- or over-contributions from governmental funds, are to be displayed as liabilities (or assets) in government-wide financial statements. The Statement No. 45 reporting requirements for the District became effective during Fiscal Year 2007-08.

⁽³⁾ The District's current funding policy on OPEB Benefits is pay-as-you-go. There are no dedicated assets at this time to offset the Actuarial Accrued Liability. A Net OPEB Obligation is created under GASB 45 reporting requirements to the extent that the calculated Annual Required Contribution exceeds the annual pay-as-you-go cost of providing postemployment benefits.

⁽⁴⁾ Includes the Children's Care Facilities Revolving Loan and California Energy Commission Loan.

Source: Los Angeles Unified School District Comprehensive Annual Financial Report for Fiscal Year 2010-11.

Tax and Revenue Anticipation Notes. The District has issued tax and revenue anticipation notes annually since Fiscal Year 1990-91 to fund shortfalls due to timing differences between receipts and disbursements. In July 2011, the District issued its 2011-2012 Tax and Revenue Anticipation Notes, Series A (the "2011-2012 Tax and Revenue Anticipation Notes, Series A") in a principal amount of \$550,000,000. The 2011-2012 Tax and Revenue Anticipation Notes, Series A are scheduled to mature and be paid on August 1, 2012. The District has set aside funds in a repayment account held by the County in an amount sufficient to repay the 2011-2012 Tax and Revenue Anticipation Notes when due.

Future Financings

General Obligation Bonds. The District has approximately \$235.2 million authorized and unissued general obligation bond authorization remaining under the Measure R Authorization, \$442.8 million authorized and unissued general obligation bond authorization remaining under the Measure Y Authorization and \$7 billion authorized and unissued general obligation bond authorization remaining under the Measure Q Authorization. Based upon the aggregate assessed valuation of taxable property within the District for Fiscal Year 2011-12, the District has approximately \$416.33 million of bonding capacity for new issuances of general obligation bonds. The District does not presently expect to issue additional general obligation bonds other than general obligation refunding bonds.

The District may issue additional refunding bonds to refund outstanding general obligation bonds from time to time, depending on market conditions. In addition, as described in the text of each of the ballots of Proposition BB, Measure K, Measure R, Measure Y and Measure Q, the District Board does not guarantee that the respective bonds authorized and issued under the Proposition BB, Measure K, Measure R, Measure Y and Measure Q Authorizations will provide sufficient funds to allow completion of all potential projects listed in connection with said measures.

Certificates of Participation. The District expects that, from time to time, additional capital projects may be approved by the District Board for funding through the execution and delivery of COPs.

Tax and Revenue Anticipation Notes. In April 2012, the District Board approved the issuance of the District's 2012-13 Tax and Revenue Anticipation Notes in the principal amount not to exceed \$1.5 billion in one or more series. The District expects to issue its 2012-2013 Tax and Revenue Anticipation Notes on or about July 2, 2012.

Overlapping Debt Obligations

Set forth on Table A-21 on the following page is the Debt Report prepared by California Municipal Statistics Inc., which provides information with respect to direct and overlapping debt within the District as of March 1, 2012 (the "Debt Report"). The Debt Report is included for general information purposes only. The District has not reviewed the Debt Report for completeness or accuracy and makes no representations in connection therewith. The Debt Report generally includes long-term obligations sold in the public credit markets by public agencies whose boundaries overlap the boundaries of the District. Such long-term obligations generally are not payable from revenues of the District (except as indicated) nor are they necessarily obligations secured by land within the District. In many cases, long-term obligations issued by a public agency are payable only from the general fund or other revenues of such public agency.

The first column in Table A-21 names each public agency which has outstanding debt as of the date of the report and whose territory overlaps the District in whole or in part. Column 2 shows the percentage of each overlapping agency's assessed value located within the boundaries of the District. This percentage, multiplied by the total outstanding debt of each overlapping agency (which is not shown in Table A-21) produces the amount shown in column 3, which is the apportionment of each overlapping agency's outstanding debt to taxable property in the District.

STATE SCHOOL BUILDING AID REPAYABLE AS OF 6/30/11: \$0

Source: California Municipal Statistics, Inc.

STATE FUNDING OF EDUCATION

General

Public school district revenues consist primarily of guaranteed State moneys, *ad valorem* property taxes and funds received from the State and federal government in the form of categorical aid, which are amounts restricted to specific categories of use, under various ongoing programs. All State apportionment of revenue limit aid (“State Aid”) is subject to the appropriation of funds in the State’s annual budget. Decreases in State revenues may affect appropriations made by the State Legislature to the District. See “District Financial Information” herein.

Historically, approximately 85% of the annual District General Fund revenues have consisted of payments from or under the control of the State. Payments made to K-12 public schools and public colleges and universities are priority payments for State funds and are expected to be made prior to other State payment obligations. Although the State Constitution protects the priority of payments to K-12 schools, college and universities, it does not protect the timing of such payments and other obligations may be scheduled and have been scheduled to be paid in advance of those dates on which payments to school districts are scheduled to be made.

School districts in the State have historically received most of their revenues under a formula known as the “revenue limit.” Each school district’s revenue limit, which is funded by State moneys and local *ad valorem* property taxes from the general 1% *ad valorem* property tax levy, is allocated based on the ADA of each school district for either the current or preceding school year. Each school district receives a portion of the local *ad valorem* property taxes that are collected from the general 1% *ad valorem* property tax levy within its district boundaries. Generally, State Aid to a school district will amount to the difference between the school district’s revenue limit and the school district’s local property tax allocation from the general 1% *ad valorem* property tax levy. In the District’s 2010-11 Fiscal Year, approximately 48.3% of the District’s General Fund revenues were derived from the revenue limit. See “California Constitutional and Statutory Provisions relating to *Ad Valorem* Property Taxes, District Revenues and Appropriations” herein.

A large percentage of a school district’s budgeted revenues comes from categorical funds provided exclusively by the State and federal government. These funds are to be used for specific programs and typically cannot be used for any other purpose. The State lottery is another source of funding for school districts, providing approximately 1.7% of a school district’s general fund budget. Every school district receives the same amount of lottery funds per pupil from the State. The initiative authorizing the State lottery mandates the funds be used for instructional purposes and prohibits their use for land acquisition, construction or research and development. A small part of a school district’s budget is from local sources other than property taxes, such as interest income, donations and sales of property. Some school districts derive a significant portion of their operating funds from voter-approved parcel taxes.

The revenue limit calculation formula was first instituted in Fiscal Year 1973-74 to provide a mechanism to calculate the amount of general purpose revenue a school district is entitled to receive from the State and local allocations of the general 1% *ad valorem* property tax levy. Prior to Fiscal Year 1973-74, taxpayers in school districts with low property values per pupil paid higher tax rates than taxpayers in school districts with high property values per pupil. However, despite higher tax rates, less was spent per pupil in school districts with low property values per pupil than school districts with high property values per pupil. Thus, the State revenue limit funding helps to alleviate the inequities between the two types of school districts.

ADA is reported by school districts each year in April, July and December. Revenue limit calculations are adjusted annually in accordance with a number of factors designed primarily to provide cost

of living increases and to equalize revenues among school districts in the State of similar type (i.e., unified school districts, high school districts or elementary school districts) and size (e.g., large or small).

The calculation of the amount of State Aid a school district is entitled to receive each year is basically a five-step process. First, the prior year school district revenue limit per ADA is established, with recalculations as are necessary for adjustments for equalization or other factors. Second, the adjusted prior year revenue limit per ADA is inflated according to formulas based on the implicit price deflator for government goods and services and the statewide average revenue limit per ADA for school districts. During this phase, a deficit factor may be applied to the base revenue limit if so provided in the State Budget Act (as defined herein) for a given fiscal year (when appropriation of funds in the State's annual budget for revenue limits or for any categorical program is not sufficient to pay all claims for State Aid, a deficit factor is applied to reduce the allocation of State Aid to the amount appropriated). Third, the current year's revenue limit per ADA for each school district is multiplied by such school district's ADA for the current or prior year. For a school district with declining enrollment, the current year's revenue limit per ADA is multiplied by the school district's ADA for the prior year. This has been the case for the District in recent years, thereby providing a cushion until the District's cost structure adjusts to lower ADA. Fourth, revenue limit add-ons are calculated for each school district if such school district qualified for the add-ons. Add-ons include the necessary small school district adjustments, meals for needy pupils and small school district transportation, and are added to the revenue limit for each qualifying school district. Finally, local *ad valorem* property taxes allocated from the general 1% *ad valorem* property tax levy are deducted from the revenue limit to arrive at the amount of State Aid to which each school district is entitled for the current year.

The following Table A-22 sets forth the District's revenue limit per unit of ADA from Fiscal Years 2002-03 through 2010-11 and the estimated revenue limit per unit of ADA for Fiscal Year 2011-12.

TABLE A-22
LOS ANGELES UNIFIED SCHOOL DISTRICT
K-12 Base Revenue Limit Per Unit of Average Daily Attendance
Fiscal Years 2002-03 through 2011-12

Fiscal Year	K-12 Base Revenue Limit ⁽¹⁾
2002-03	\$4,747.13
2003-04	4,835.13
2004-05	4,968.66
2005-06	5,179.66
2006-07	5,544.56
2007-08	5,796.56
2008-09	5,645.07
2009-10	4,962.13
2010-11	5,264.22
2011-12	5,209.38 ⁽²⁾

⁽¹⁾ The K-12 Base Revenue Limit figures represent the funded revenue limits.

The following Table A-23 sets forth the deficit factor and COLA from Fiscal Years 2001-02 through 2010-11 as reflected in the State Budget Acts with respect to Fiscal Years 2001-02 through 2010-11. In connection with the Revised 2009-10 State Budget Act, the State Legislature approved legislation stating that

most programs, including universities, the courts and various social service programs would no longer receive a COLA or inflationary adjustments. Pursuant to the Fiscal Year 2011-12 State Budget Act, the COLA for school districts is 2.24%.

TABLE A-23

**LOS ANGELES UNIFIED SCHOOL DISTRICT
Deficit Factor and Cost of Living Adjustment
Fiscal Years 2002-03 through 2011-12**

Fiscal Year	Deficit Factor	Cost of Living Adjustment
2002-03	0.000%	2.00%
2003-04	3.002	1.86
2004-05	2.143	2.41
2005-06	0.892	4.23
2006-07	0.000	5.92
2007-08	0.000	4.53
2008-09	7.844	5.66
2009-10	18.355	4.25 ⁽¹⁾
2010-11	17.963	(0.39)
2011-12	20.602 ⁽²⁾	2.24

⁽¹⁾ The 4.25% increase of the statutory COLA for Fiscal Year 2009-10 is offset is by a deficit factor of 18.355% on the base revenue limit, which results in a net funded COLA of a negative 7.64%.

⁽²⁾ Pursuant to SB 81, the deficit factor for Fiscal Year 2011-12 was increased to 20.602% from 19.754% which was set forth in the 2011-12 State Budget Act.

Source: Los Angeles Unified School District.

As of June 30, 2011, the District projected enrollment declines of 4.50% for Fiscal Year 2011-12, 2.98% for Fiscal Year 2012-13 and 2.49% for Fiscal Year 2013-14 as compared to each prior fiscal year. The District projects that such enrollment declines are due to, among other things, lower birth rates in the County, migration of students outside of the District's boundaries, and increases in charter school enrollment. Accordingly, funded Average Daily Attendance is expected to decline for Fiscal Years 2011-12 through 2013-14. The following Table A-24 sets forth the District's annual ADA record for Fiscal Year 2002-03 through 2011-12.

TABLE A-24

Source: Los Angeles Unified School District Comprehensive Annual Financial Report for Fiscal Years 2002-03 through 2010-11; Fiscal Year 2011-12 Second Interim Financial Report.

As part of the Fiscal Year 1992-93 State budget resolution, the State required counties, cities and special districts to shift *ad valorem* property tax revenues to school districts by contributing to the Education Revenue Augmentation Fund ("ERAF") in lieu of direct payments to school districts from the general fund of the State (the "State General Fund"). This transfer is commonly referred to as the "ERAF shift." The Fiscal Year 1993-94 State Budget Act required a similar shift of *ad valorem* property taxes to school districts from local government entities, which shift of *ad valorem* property taxes has continued. The manner in which the shift of *ad valorem* property taxes has occurred has varied year by year. The Fiscal Year 2004-05 State Budget Act included a \$1.3 billion ERAF shift in local *ad valorem* property taxes from cities, counties, special districts and redevelopment agencies to school districts. However, the Fiscal Year 2004-05 State Budget Act also included a \$1.136 billion diversion of ERAF funds from school districts and community colleges to local governments to offset the reduction in sales tax revenues to local governments used by the State to pay debt service on the State's economic recovery bonds. In addition, \$2.8 billion was reduced from *ad valorem* property tax allocations to school districts to replace the shift of vehicle license fee revenues from local governments to the State. As a result of the various shifts of *ad valorem taxes*, school districts no

longer receive ERAF funds. See Table 6 in the forepart of this Official Statement, which sets forth real property tax levies and collections for the District's last ten Fiscal Years, in the Section entitled "Security and Sources of Payment for the Refunding Bonds - Assessed Valuation of Property within the District".

Proposition 1A (defined herein) generally prohibited the State from shifting to schools or community colleges any share of *ad valorem* property tax revenues allocated from the 1% levy to local governments for any fiscal year, as set forth under the laws in effect as of November 3, 2004. Proposition 1A provided, however, that beginning in Fiscal Year 2008-09, the State could shift to schools and community colleges up to 8% of local government property tax revenues from the general 1% *ad valorem* property tax levy, which amount must be repaid, with interest, within three years, if the Governor proclaims that the shift is needed due to a severe State financial hardship, the shift is approved by two-thirds of both houses and certain other conditions are met. Notwithstanding the aforementioned shifts in property tax revenues in prior years, certain levels of funding are guaranteed as described in " - Proposition 98" below. *Ad valorem* property taxes levied to pay debt service on the District's general obligation bonds, are not subject to the shifts described above for *ad valorem* property taxes provided from the 1% levy. Further, the State's ability to initiate future exchanges and shifts of funds will be limited by Proposition 22. See "California Constitutional and Statutory Provisions relating to *Ad Valorem* Property Taxes, District Revenues and Appropriations—Proposition 1A" and " - Proposition 22" and "State Funding of Education - Litigation Regarding Redevelopment Agency Revenues and Education Expenditures" herein.

Charter School Funding

A charter school is a public school authorized by a school district, county office of education or the State Board of Education. A proposed charter school submits a petition to one of these entities for approval and that petition details the operations of the charter school. State law requires that charter petitions be approved if they comply with the statutory criteria. The District has certain fiscal oversight and other responsibilities with respect to both affiliated and independent charter schools. However, independent charter schools that receive their funding directly from the State are not included in the District's audit report and function like independent agencies, including having control over their staffing and budgets, which are received directly from the State. Affiliated charter schools receive their funding from the District and are included in the District's budgets and audit reports. In addition, as of June 30, 2011, there were 11 affiliated charter schools operated by the District and 171 fiscally independent charter schools within the District's boundaries. In Fiscal Years 2009-10 and 2010-11, the revenue limit ADA for the District's affiliated charter schools was estimated to be 6,906 and 7,866, respectively.

Charter schools generally receive funding in three broad categories. Charter schools receive a block grant that is similar to school district revenue limit funding and is based on Statewide average revenue limits for school districts within specified ranges of grades. These charter school revenues are deducted from the amount of State Aid a school district is entitled to receive each year. Charter schools also receive a block grant in lieu of many categorical programs. Charter schools may spend these block grants for any educational purpose. The third broad category of funding for charter schools is categorical funds not included in the block grant. A charter school must apply for these funds, program by program, and if received, must spend the funds in accordance with the same program requirements as traditional schools. An increase in the number of independent charter schools within a school district, or of independent charter school students in a school district who had previously been students at a traditional school in that same school district, results in a reduction of the revenue limit and, possibly, program funding for that school district.

In November 2010, the District Board approved the "Quality Schools Compact," which commits the District and leaders of charter schools to improve the way that they work together over the next five years in order to increase the numbers of students attending traditional schools and charter schools. Pursuant to the Quality Schools Compact, the District has agreed to, among other things, work with charter schools to increase funding for all students attending public schools. The Quality Schools Compact approves a policy

whereby traditional schools and charter schools will collaborate to procure products and services. In addition, the District and interested charter schools will consider options that allow traditional schools and charter schools to meet short-term working capital needs through, among other things, the issuance of tax and revenue anticipation notes with due consideration given to the cost to the District. The District does not presently expect to issue tax and revenue anticipation notes on behalf of any fiscally independent charter school in Fiscal Year 2012-13.

Proposition 98

On November 8, 1988, voters of the State approved Proposition 98, a combined initiative constitutional amendment and statute called the “Classroom Instructional Improvement and Accountability Act.” Proposition 98 changed State funding of public education below the university level and the operation of the State’s appropriation limit as described in Article XIII B of the State Constitution, primarily by guaranteeing K-14 schools a minimum share of State General Fund revenues. Under Proposition 98 (as modified by Proposition 111, which was enacted on June 5, 1990), there are currently three tests which determine the minimum level of K-14 funding. See “Constitutional and Statutory Provisions Relating to *Ad Valorem* Property Taxes, District Revenues and Appropriations” herein. Proposition 98 also contains provisions transferring certain State tax revenues in excess of the revenue limit to K-14 schools under Article XIII B of the State Constitution.

Proposition 98 permits the State Legislature, by two-thirds vote of both houses and with the Governor’s concurrence, to suspend the K-14 schools’ minimum funding formula for a one-year period. The amount of suspension is eventually repaid according to a specified State Constitutional formula, thereby restoring Proposition 98 funding to the level that would have been required in the absence of such suspension. The Fiscal Year 2004-05 State Budget Act suspended the Proposition 98 minimum guarantee for Fiscal Year 2004-05; however, the suspended amount was fully paid in Fiscal Year 2005-06. The Proposition 98 minimum guarantee was fully funded for Fiscal Years 2005-06 through Fiscal Year 2009-10. The State Budget Act for Fiscal Year 2010-11 suspended the Proposition 98 minimum guarantee in Fiscal Year 2010-11. The Fiscal Year 2011-12 State Budget Act proposes to fully fund the Proposition 98 minimum guarantee.

Assembly Bill No. 6 (“ABx8 6”), which was adopted in March 2010, authorized the State to eliminate the sales tax on gasoline and replace it with an excise tax. The elimination of the sale tax on gasoline would reduce the State General Fund. Under current law, any reduction in the State General Fund could reduce the minimum guarantee under Proposition 98. Pursuant to ABx8 6, the State Director of Finance is directed to adjust the percentage of State General Fund revenues appropriated for school districts and community college districts such that the provisions of ABx8 6 will have no net fiscal impact upon the amounts that are otherwise required to be applied by the State for the support of school districts and community college districts pursuant to Proposition 98. However, there can be no assurances that any action taken by the State Director of Finance will not adversely affect Proposition 98 revenues. See “ - State Budget—State Budget for Fiscal Year 2010-11” and “California Constitutional and Statutory Provisions relating to *Ad Valorem* Property Taxes, District Revenues and Appropriations—Proposition 98,” and “ - Proposition 22” herein.

In addition to traditional calculations based upon General Fund revenues, the Proposition 98 guarantee set forth in the 2011-12 State Budget Act reflects: (i) an increase of \$578.1 million to ensure that the Proposition 98 minimum guarantee does not decrease with the shift in motor vehicle fuel revenues; (ii) an increase of \$221.8 million to reflect the inclusion of mental health and out-of-home care services within the Proposition 98 guarantee; (iii) a decrease of \$1.134 billion to reflect the exclusion of child care programs, with the exception of part-day preschool programs from Proposition 98; and (iv) a decrease of \$1.7 billion to ensure that the total Proposition 98 guarantee remains unchanged as a result of new local revenue related to redevelopment agencies. See “ - State Budget - Fiscal Year 2011-12 State Budget” herein.

Litigation Regarding State Budgetary and Fiscal Actions

On May 20, 2010, more than 60 individual students and their respective families, nine school districts within the State, the California Congress of Parents Teachers & Students, the Association of California School Administrators, and the California School Boards Association filed a complaint for declaratory and injunctive relief, entitled *Maya Robles-Wong, et al. v. State of California, et al.*, (the “Robles Complaint”) in the Alameda County Superior Court. The Robles Complaint alleges, among other things, that the State’s current system of funding public education is not designed to support the core education program required by the State and that the State has failed to meet its duties under the State Constitution to keep up and support a “system of common schools.” The Robles Complaint further alleges that the State does not provide and sufficiently fund an educational finance system that is intentionally, rationally, and demonstrably aligned with the goals and objectives of the State’s prescribed educational program and the costs of ensuring that all children of all needs have the opportunity to become proficient in accordance with the State’s academic standards. The Robles Complaint requests that the court enter a permanent injunction to, among other things, require the State to align its school finance system with its prescribed educational program and direct the defendants to cease operating the existing public school finance system or any other system of public finance that does not meet the requirements of the State Constitution. The District was not listed as a party in the Robles Complaint.

On July 13, 2010, 18 individual students and their respective families, three taxpayer citizens, the Campaign for Quality Education, the Alliance of Californians for Community Empowerment, Californians for Justice and the San Francisco Organizing Project filed a complaint for declaratory and injunctive relief, entitled *Campaign for Quality Education, et al., v. State of California and Arnold Schwarzenegger, Governor of the State of California*, (the “CQE Complaint”) in the Alameda County Superior Court. The CQE Complaint alleged, among other things, that the State violated its constitutional duties by failing to provide the individual plaintiffs’ school districts with sufficient funds and that the State failed to adopt policies to enable the districts to ensure that the individual plaintiffs and students of the districts have access to a meaningful education. The CQE Complaint further alleged that the State violated the constitutional guarantees of equal protection under the State Constitution by failing to fulfill its constitutionally mandated duties to maintain a school finance system that allocates funds sufficient to provide students in the individual plaintiffs’ school districts with a meaningful education and to first set apart and provide those funds to the public school system. The CQE Complaint requested that the court issue a declaratory judgment that the State failed to adhere to its constitutional duties relating to the system of education, and provide injunctive relief as necessary to achieve compliance with the State Constitution. The District was not listed as a party in the CQE Complaint.

The District cannot predict whether the plaintiffs listed in the Robles Complaint or the CQE Complaint will be successful, and if so, how any final court decision with respect to either lawsuit would affect the financial status of the District, as the nature of any court’s remedy and the responses of the State Legislature and the Governor are unknown.

On September 28, 2011, the District and four other petitioners filed a complaint for declaratory and injunctive relief, entitled *California School Boards Association, et. al v. State of California, et. al* (the “Proposition 98 Complaint”) in the Superior Court of the State of California located in the County of San Francisco. The Proposition 98 Complaint alleged, among other things, that the 2011-12 State Budget Act violated the State’s constitutional obligation to fund public education. Pursuant to the 2011-12 State Budget Act, the State diverted a portion of the State’s Sales and Use tax revenues from the State General Fund to counties and cities and thereby excluded such revenues from the calculation of the required Proposition 98 minimum funding guarantee. See “State Funding of Education - State Budget - Fiscal Year 2011-12 State Budget” herein. The petitioners alleged that the State improperly lowered the Proposition 98 minimum funding guarantee by redefining these revenues, which were expected to total approximately \$5.1 billion in Fiscal Year 2011-12 as “not General Fund revenues”. Accordingly, the aggregate amount of General Fund

revenues used to calculate the minimum guarantee under Test 1 of Proposition 98 was reduced. Due to this action, among other things, the petitioners alleged that the minimum funding requirement set forth in the 2011-12 State Budget Act was at least \$2.1 billion less than the amount required by Proposition 98. See “California Constitutional and Statutory Provisions relating to *Ad Valorem* Property Taxes, District Revenues and Appropriations - Proposition 98” herein. The 2011-12 State Budget Act provided that the modified calculation may be terminated if voters approve certain ballot measures at or prior to the statewide election in November 2012. In the alternative, the State could adopt a five year repayment plan. The petitioners alleged that neither option would satisfy the minimum guarantee under Proposition 98 and requested a judicial declaration directing the State to recalculate the minimum guarantee under Proposition 98 and implement such recalculation in a manner to ensure that school and community college districts do not receive less than the constitutionally required minimum level of funding. In March 2012, the Superior Court for the County of San Francisco tentatively ruled that the State can reduce funding to education by diverting State revenues into different funds rather than the State’s General Fund without violating the minimum funding requirement of Proposition 98. The District cannot predict whether any of the parties listed in the Proposition 98 Complaint will appeal the ruling, and if so, how any final court decision with respect to the Proposition 98 Complaint would affect the financial status of the District, as the nature of any court’s remedy and the responses of the State Legislature, the State Attorney General and the Governor are unknown.

Litigation Regarding Redevelopment Agency Revenues and Education Expenditures

In connection with Assembly Bill 26 and Assembly Bill 27 of the 2010-11 First Extraordinary Session (“ABx1 26”), the State required redevelopment agencies to cease operations and provided an alternative for communities to continue certain redevelopment practices. Upon the dissolution of such redevelopment agencies, the State required any property taxes that would have been allocated to redevelopment agencies to be allocated to successor agencies to make payments on the indebtedness incurred by the dissolved redevelopment agencies, with remaining balances to be allocated in accordance with applicable constitutional and statutory provisions.

On December 29, 2011, the Supreme Court of the State, in a case entitled *California Redevelopment Association v. Matosantos*, held that the dissolution provisions set forth in ABx1 26 were constitutional. Revenues that would have been directed to the redevelopment agencies will be used to make pass-through payments (*i.e.*, payments that such entities would have received under prior law) to local agencies and to successor agencies for retirement of the debts and certain administrative costs of the redevelopment agencies. The Fiscal Year 2012-13 Proposed State Budget projects that the elimination of redevelopment agencies will provide additional property tax revenue in the amount of \$1.05 billion for K-14 schools, \$340 million for counties, \$220 million for cities and \$170 million for special districts. The State plans to reduce State Aid to school and community college districts in the approximate amount of the redevelopment agency revenues. The District cannot predict the amount, if any, of revenues that will be reallocated to the District as a result of the dissolution of redevelopment agencies operating within the boundaries of the District during Fiscal Year 2011-12 and the extent to which the District’s revenue limit apportionment could be offset by any redevelopment revenues received.

State Budget

General. The District’s operating income consists primarily of two components, which include the State Aid portion funded from the State General Fund and a locally generated portion derived from the District’s share of the general 1% *ad valorem* property tax levy authorized by the State Constitution. In addition, school districts, such as the District, may be eligible for other special categorical funding, including funding for certain State and federal programs. Currently, the District receives approximately 78% of District General Fund revenues from funds of or controlled by the State. As a result, decreases in State revenues, or in State legislative appropriations made to fund education, may significantly affect District operations.

The following discussion of the State's budget has been obtained from publicly available information which the District believes to be reliable; however, none of the District, its counsel (including Disclosure Counsel), the Co-Financial Advisors or the Underwriters guarantees the accuracy or completeness of this information and have not independently verified such information. Additional information regarding State budgets is available at various State-maintained websites, including www.dof.ca.gov. These websites are not incorporated herein by reference and none of the District, its counsel (including Disclosure Counsel), the Co-Financial Advisors or the Underwriters make any representation as to the accuracy of the information provided therein.

The State Budget Process. The State's fiscal year begins on July 1 and ends on June 30. According to the State Constitution, the Governor of the State (the "Governor") is required to propose a budget for the next fiscal year (the "Governor's Budget") to the State Legislature no later than January 10 of each year. State law requires the Governor to update the Governor's Budget projections and budgetary proposals by May 14 of each year (the "May Revision"). Proposition 25, which was adopted by voters in the State at an election held on November 2, 2010, amended the State Constitution such that a final budget must be adopted by a simple majority vote of each house of the State Legislature by no later than June 15 and the Governor must sign the adopted budget by no later than June 30. The budget becomes law upon the signature of the Governor (the "Budget Act").

Under State law, the annual proposed Governor's Budget cannot provide for projected expenditures in excess of projected revenues and balances available from prior fiscal years. Following the submission of the Governor's Budget, the State Legislature takes up the proposal. Under the State Constitution, money may be drawn from the State Treasury only through an appropriation made by law. The primary source of the annual expenditure authorizations is the Budget Act, as approved by the State Legislature and signed by the Governor. The Governor may reduce or eliminate specific line items in the Budget Act or any other appropriations bill without vetoing the entire bill. Such individual line-item vetoes are subject to override by a two-thirds majority vote of each House of the State Legislature. Appropriations also may be included in legislation other than the Budget Act. Bills containing appropriations (except for K-14 education) must be approved by a two-thirds majority vote in each House of the State Legislature and be signed by the Governor. Bills containing K-14 education appropriations require only a simple majority vote. Continuing appropriations, available without regard to fiscal year, may also be provided by statute or the State Constitution. Funds necessary to meet an appropriation need not be in the State Treasury at the time such appropriation is enacted; revenues may be appropriated in anticipation of their receipt. However, delays in the adoption of a final State budget in any fiscal year may affect payments of State funds during such budget impasse. See "- State Funding of Schools Without a State Budget" herein for a description of payments of appropriations during a budget impasse.

Fiscal Year 2011-12 State Budget. On June 30, 2011, the Governor signed the 2011 State Budget Act for Fiscal Year 2011-12 (the "2011-12 State Budget Act") to address a then-projected \$26.6 billion deficit through June 30, 2012. After accounting for budgetary actions adopted by the State Legislature, higher than expected revenues and updated expenditure projections, the 2011-12 State Budget Act projected that the State's structural deficit had been reduced to less than \$5 billion annually. The 2011-12 State Budget Act estimates Fiscal Year 2011-12 revenues and transfers of \$88.5 billion, total expenditures of \$85.9 billion and a year-end surplus of \$1.3 billion (net of the negative \$1.2 billion prior-year State General Fund balance). The 2011-12 State Budget Act allocated the projected surplus to the reserve for the liquidation of encumbrances (\$770 million) and the special fund for economic uncertainties (\$543 million).

The 2011-12 State Budget Act authorized approximately \$601.0 million in funding reductions in the areas of higher education, health and human services and public safety, beginning in January 2012, if the State's Director of Finance estimated that the State's General Fund revenues for Fiscal Year 2011-12 would be less than \$87.5 billion, but would be at least \$86.5 billion. If the State's Director of Finance estimated that the State's General Fund revenues for Fiscal Year 2011-12 would be less than \$86.5 billion, the 2011-12

State Budget Act authorized an additional \$1.86 billion in education reductions including, among other things, the reductions described in paragraph (5) below. See “District Financial Information - District Budget - Reductions to Fiscal Year 2011-12 Education Expenditures and District Contingency Plan” herein.

Certain of the features of the 2011-12 State Budget Act which could affect school districts in the State included the following:

1. The 2011-12 State Budget Act proposed to fund Proposition 98 for Fiscal Year 2011-12 at approximately \$48.7 billion, which reflected a decrease of \$1.1 billion from the estimated Fiscal Year 2010-11 funding level.

2. In addition to traditional calculations based upon General Fund revenues, the Proposition 98 guarantee set forth in the 2011-12 State Budget Act reflected: (i) an increase of \$578.1 million to ensure that the Proposition 98 minimum guarantee does not decrease with the shift in motor vehicle fuel revenues; (ii) an increase of \$221.8 million to reflect the inclusion of mental health and out-of-home care services within the Proposition 98 guarantee; (iii) a decrease of \$1.134 billion to reflect the exclusion of child care programs, with the exception of part-day preschool programs from Proposition 98; and (iv) a decrease of \$1.7 billion to ensure that the total Proposition 98 guarantee remains unchanged as a result of new local revenue related to redevelopment agencies. See “State Funding of Education - Litigation Regarding State Budgetary and Fiscal Actions” herein.

3. In connection with the 2011-12 State Budget Act, Assembly Bill 114 directed school districts to budget based upon the same level of revenue per unit of average daily attendance as it received in Fiscal Year 2010-11 and to maintain staffing and program levels commensurate with that level. Pursuant to AB 114, the State reduced funding beginning in February 2012 because the State’s revenues were below the projections set forth in the 2011-12 State Budget Act. In addition, for the 2011-12 fiscal year, each school district is not required to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years as part of the interim report process. AB 114 also provided schools with the authority to reduce the minimum number of instructional days and minutes by up to seven days during Fiscal Year 2011-12, which is in addition to the authority to reduce the number of instructional days by up to five days under previous law.

4. Pursuant to the 2011-12 State Budget Act, certain sales and use tax revenues transferred in accordance with the Governor’s realignment plan would not be General Fund revenues for the purposes of calculating the Proposition 98 guarantee. The State’s treatment of such revenues will be operative for Fiscal Year 2011-12 and subsequent years only if one or more ballot measures, which must be approved before November 17, 2012, authorize such revenues to be so treated and provide funding for school districts and community college districts in an amount equal to that which would have been provided if such tax revenues were General Fund revenues for purposes of Proposition 98. See “State Funding of Education - Litigation Regarding State Budgetary and Fiscal Actions” herein.

5. The 2011-12 State Budget Act authorized trigger reductions to certain Proposition 98 allocations in the event the State’s Director of Finance determined that the State’s revenues for Fiscal Year 2011-12 would not meet or exceed projected levels. In such event, the 2011-12 State Budget Act authorized a reduction of up to \$1.5 billion from K-12 education relating to the aforementioned seven day reduction in the school year and a reduction of up to \$248 million relating to the elimination of funding for home-to-school transportation. See “District Financial Information - District Budget - Reductions to Fiscal Year 2011-12 Education Expenditures and District Contingency Plan” herein.

6. The 2011-12 State Budget Act included the deferral of \$2.1 billion in State Aid to Fiscal Year 2012-13 from Fiscal Year 2011-12 which was proposed in the 2011-12 Proposed State Budget and withdrawn in the May Revision to the 2011-12 Proposed State Budget.

7. The 2011-12 State Budget Act imposed a deficit factor of 19.754% on the revenue limit for Fiscal Year 2011-12, which reflected an increase from the deficit factor of 19.608% previously authorized for Fiscal Year 2011-12 under the Education Code.

8. In connection with the Governor's realignment plan, the 2011-12 State Budget Act approved a Voluntary Alternative Redevelopment Program ("VARP"), pursuant to which redevelopment agencies may continue operating provided that their respective establishing cities or counties agree to provide \$1.7 billion in payments to K-12 schools. If the establishing cities or counties did not agree to make payments to K-12 schools, the related redevelopment agency would be required to cease operations pursuant to Assembly Bill X1 26 and any property tax revenues that remained after payment of such redevelopment agency's outstanding debt service obligations and allowable administrative costs would be distributed to cities, counties, special districts, and K-14 schools.

9. The 2011-12 State Budget Act provided \$98.6 million from the Mental Health Services Fund to county mental health services on a one-time basis for mental health services to special education students. On-going responsibility for these services, including out-of-home residential services, is realigned to school districts. The Governor stated that schools districts may contract with counties to provide services using Proposition 63 funds, but school districts would be responsible for any costs exceeding this amount.

10. The 2011-12 State Budget Act allocated \$6.6 million in federal funding for the California Longitudinal Pupil Achievement Data System. The Governor vetoed the provision of \$2.1 million in federal funds that the State Legislature had provided for the California Longitudinal Teacher Integrated Data Education System in Fiscal Year 2011-12.

11. The 2011-12 State Budget Act allocated \$3.2 million to support the Clean Technology and Renewable Energy Job Training, Career Technical Education, and Dropout Prevention Program. The program is designed to create partnerships between schools and businesses to provide occupational training for at-risk high school students in areas such as conservation, renewable energy, and pollution reduction.

12. The 2011-12 State Budget Act authorized flexibility to school districts for an additional two years for categorical programs, routine and deferred maintenance expenditure requirements, class size requirements, instructional time requirements, sale of surplus property, instructional materials purchase requirements, and local budget reserve requirements.

State Budget for Fiscal Year 2012-13

Fiscal Year 2012-13 Proposed State Budget. On January 5, 2012, Governor Brown released his 2012-13 Proposed Budget (the "Fiscal Year 2012-13 Proposed State Budget"), which estimates that, without corrective action, the State will end Fiscal Year 2012-13 with a \$9.2 billion deficit consisting of a \$4.1 billion State General Fund deficit through the end of Fiscal Year 2011-12 (rather than the \$1.5 billion reserve balance assumed in the 2011-12 State Budget Act) and a \$5.1 billion excess of expenditures over revenues for Fiscal Year 2012-13. The Fiscal Year 2012-13 Proposed State Budget proposes \$10.3 billion in expenditure reductions and increased revenues (including a temporary increase in income and sales taxes proposed for the November 2012 ballot (the "Governor's 2012 Tax Initiative")) to balance the State's budget for Fiscal Year 2012-13 and to rebuild a reserve. Subsequent to the release of the Governor's 2012 Tax Initiative, the Governor released the Governor's Revised 2012 Tax Initiative (defined herein). See "- Governor's Revised 2012 Tax Initiative" herein. Assuming the passage of the Governor's 2012 Tax Initiative, the Fiscal Year 2012-13 Proposed State Budget estimated Fiscal Year 2012-13 revenues and transfers of \$95.4 billion, total expenditures of \$92.6 billion and a year-end surplus of \$1.9 billion (net of the negative \$985 million prior-year State General Fund balance). The Fiscal Year 2012-13 Proposed State Budget allocates the projected surplus to the reserve for the liquidation of encumbrances (\$719 million) and the special fund for economic uncertainties (\$1.1 billion).

The Fiscal Year 2011-12 Proposed State Budget relied in part on passage of the Governor's 2012 Tax Initiative, pursuant to which the personal income tax rates for certain high income earners would increase for five years (2012 through 2016) and State sales and use tax would increase by one-half percent for four years (2013 through 2016). The Fiscal Year 2012-13 Proposed State Budget projected that Governor's 2012 Tax Initiative, if approved, would generate approximately \$6.9 billion through Fiscal Year 2012-13 and generate billions of dollars per year until its expiration. The taxes would be deposited into the State's General Fund to pay for Proposition 98 school funding obligations and certain State programs. In the event the Governor's 2012 Tax Initiative failed to pass, the Fiscal Year 2012-13 Proposed State Budget specified approximately \$5.4 billion in expenditure reductions in, among other things, education (accounting for 90% of the targeted reductions) and judicial branch appropriations. The Governor noted that the implementation of many of the proposals contained in the Fiscal Year 2012-13 Proposed State Budget would require additional time before savings are accrued and additional expenditure reductions would be needed. Subsequent to the release of the 2012 Tax Initiative and the Fiscal Year 2012-13 Proposed State Budget, the Governor released the Governor's Revised 2012 Tax Initiative (defined herein). See " - Governor's Revised 2012 Tax Initiative" herein.

Certain of the features of the Fiscal Year 2012-13 Proposed State Budget which could affect school districts in the State include the following:

1. The Fiscal Year 2012-13 Proposed State Budget proposes State General Fund expenditures for Proposition 98 of approximately \$37.5 billion during Fiscal Year 2012-13 which reflects an increase from the projected \$32.6 billion General Fund expenditures for Proposition 98 during Fiscal Year 2011-12. Such increase includes a proposal to increase General Fund expenditures for Proposition 98 by \$2.2 billion during Fiscal Year 2012-13 to reduce inter-year budgetary deferrals. The proposed Proposition 98 expenditures assumed approval of the Governor's 2012 Tax Initiative.

2. The Fiscal Year 2012-13 Proposed State Budget proposes a zero percent COLA for Fiscal Year 2012-13 rather than the projected statutory COLA of 3.17% (which would have provided a \$1.8 billion increase in expenditures from the State to the extent Proposition 98 resources were sufficient). Due to the absence of a COLA, the Fiscal Year 2012-13 Proposed State Budget proposes to establish a deficit factor for school district and county office of education revenue limit apportionments.

3. The Fiscal Year 2012-13 Proposed State Budget proposes to eliminate the mandate that local education agencies provide transitional kindergarten instruction, which is the first year of a two-year kindergarten program that uses a modified kindergarten curriculum for children not eligible for kindergarten based on their age. Such proposal, if enacted, would reduce the State's General Fund expenditures by \$223.7 million. Local education agencies would have the option to enroll children not meeting kindergarten age on a case-by-case basis.

4. The Fiscal Year 2012-13 Proposed State Budget proposes to increase General Fund expenditures for Proposition 98 for special education by approximately \$190 million, inclusive of \$98.6 million for students with exceptional needs supported with Mental Health Services Act funds for Fiscal Year 2011-12, \$91.4 million to backfill budgetary adjustments in Fiscal Year 2011-12 and \$12.3 million for increases in ADA.

5. The Fiscal Year 2012-13 Proposed State Budget proposes to provide to charter schools additional access to funds by specifying that local educational agencies may include charter schools in their issues of County Treasury Revenue Anticipation Notes. Local education agencies that issue County Treasury Revenue Anticipation Notes would be statutorily identified as senior creditors for the purposes of the repayment of the County Treasury Revenue Anticipation Notes issued on behalf of a charter school.

6. The Fiscal Year 2012-13 Proposed State Budget proposes to modify the mandate reimbursement system for K-14 schools and provide an increase of \$110.1 million in General Fund expenditures to fund the new system. If approved, the proposal would eliminate certain mandates beginning and consolidate the remaining mandates in a block grant commencing Fiscal Year 2013-14. The Fiscal Year 2012-13 Proposed State Budget proposes to allow local education agencies the option to receive block grant funding for all mandates in the block grant or claim reimbursement separately for each individual program.

7. In *California Redevelopment Association et al. v. Matosantos et al.*, the California Supreme Court upheld Assembly Bill 26 of the 2010-11 First Extraordinary Session, which will lead to the dissolution of all redevelopment agencies within the State on February 1, 2012. Revenues that would have been directed to the redevelopment agencies will be used to make pass-through payments (*i.e.*, payments that such entities would have received under prior law) to local agencies and to successor agencies for retirement of the debts and certain administrative costs of the redevelopment agencies. The Fiscal Year 2012-13 Proposed State Budget projects that the elimination of redevelopment agencies will provide additional property tax revenue in the amount of \$1.05 billion for K-14 schools, \$340 million for counties, \$220 million for cities and \$170 million for special districts. See “State Funding of Education - Litigation Regarding Redevelopment Agency Revenues and Education Expenditures” herein.

8. The Fiscal Year 2012-13 Proposed State Budget proposes to implement a weighted pupil funding formula which would consolidate funding for the majority of categorical programs (excluding federally required programs such as special education) and revenue limit funding into a single source of funding. If approved, the formula would allocate funds based on the costs of educating specific student populations, including among others, economically disadvantage students and English language learners. The Fiscal Year 2012-13 Proposed State Budget proposes to phase in the formula over a period of five years. During such period, funding for the programs to be replaced by the formula would be made flexible for use in supporting any locally determined educational purpose.

9. The Fiscal Year 2012-13 Proposed State Budget proposes a decrease of \$694 million in Fiscal Year 2011-12 for school district and county office of education revenue limits as a result of a decrease in projected ADA from the 2011 Budget Act. The Fiscal Year 2012-13 Proposed State Budget proposes an increase of \$158 million in 2012-13 for school district and county office of education revenue limits as a result of projected growth in ADA for Fiscal Year 2012-13.

LAO Analysis of the 2012-13 Proposed State Budget. On January 11, 2012, the LAO released a report entitled “The 2012-13 Budget: Overview of the Governor’s Budget” (the “2012 LAO Budget Overview”), which provides an analysis by the LAO of the Fiscal Year 2012-13 Proposed State Budget. The 2012 LAO Budget Overview states that the Governor has made a good-faith effort in revenue and economic forecasting despite the many uncertainties involved in projecting the State’s recovery from the current economic downturn. Nevertheless, the LAO’s revenue estimates for Fiscal Years 2011-12, 2012-13, and subsequent years currently are lower than the Governor’s estimates and the LAO’s estimates of revenues from the Governor’s 2012 Tax Initiative are significantly lower than those of the Governor’s. In reviewing the Governor’s major proposals, the 2012 LAO Budget Overview states that the Governor’s proposals for restructuring the school finance system, community college categorical funding and education mandates and his proposals for reducing social services and child care program funding merit consideration. The 2012 LAO Budget Overview also stated that the Governor’s 2012 Tax Initiative would increase the State budget’s dependence on the volatile income tax payments by the State’s wealthiest individuals and the trigger reductions proposed therein would create significant uncertainty for schools, community colleges, and universities in Fiscal Year 2012-13 if implemented. The 2012 LAO Budget Overview concludes that if the State chooses either of the Governor’s two paths (*i.e.*, the multiyear tax increases and significant reductions in social services and subsidized child care programs or the trigger reductions largely relating to schools), the State budget would come closer to being balanced over the next several years.

LAO Economic and Revenue Update. On February 27, 2012, the LAO released a report entitled “The 2012-13 Budget: Economic and Revenue Update” (the “Economic and Revenue Update”), which provides analysis and projections by the LAO of the trends in the economy and State revenues. The LAO notes that the economic recovery in the State and in the United States is continuing. However, the LAO cautions that such recovery is limited by an unemployment rate within the State that remains significantly high compared to other states, a growth in long-term unemployment, and a labor force participation rate in the State is lower than the United States as a whole. Nevertheless, the Economic and Revenue Update projects that employment and personal income will continue to increase during Fiscal Year 2012-13. The Economic and Revenue Update notes that recovery is generally on track with expectations but has been limited by lingering foreclosure activity and declining home values, weak growth in disposable income, and constrained spending by federal, State and local governments. The LAO cautions that certain economic risks and uncertainties, including among others, future federal policies, spikes in oil prices, a prolonged slump in the housing market that reduces growth of building permits and the State’s construction industry, and significant and persistent economic problems in Europe limit the certainty within the forecasts set forth in the Economic and Revenue Update.

The Economic and Revenue Update projects that the State’s revenues for Fiscal Years 2011-12 and 2012-13, including consideration of federal tax policy assumptions, estimates relating to the Governor’s 2012 Tax Initiative, and estimates of revenues due to the public stock offerings of technology companies located in the State, will be \$6.5 billion less than the Governor’s projections. The Economic and Revenue Update indicates that the State will have to identify additional budgetary measures to balance the State’s budget for Fiscal Year 2012-13 in the event the LAO’s revenue projections are more accurate than those set forth in the Fiscal Year 2012-13 Proposed State Budget.

Governor’s Revised 2012 Tax Initiative. On March 14, 2012, the Governor announced that he would combine the Governor’s 2012 Tax Initiative with an initiative proposed by the California Federation of Teachers to place the “California Sales and Income Tax Increase Initiative” (the “Governor’s Revised 2012 Tax Initiative”) on the November 2012 ballot. If approved in its current form, the Governor’s Revised 2012 Tax Initiative would temporarily increase maximum marginal personal income tax rates for individuals, heads of households and joint filers above 9.3 percent by creating three additional tax brackets of 10.3 percent, 11.3 percent and 12.3 percent. The LAO projects that the increased personal income tax rates would affect approximately 1 percent of personal income tax filers in the State due to the high income threshold. If approved, the Governor’s Revised 2012 Tax Initiative would be in effect from the 2012 tax year to the 2018 tax year. In addition, the Governor’s Revised 2012 Tax Initiative would temporarily increase the State’s sales and use tax rate by 0.25 percent from 2013 to 2016. On March 16, 2012, the LAO released its review of the Governor’s Revised 2012 Tax Initiative. The LAO projects that revenues attributable to the Governor’s 2012 Tax Initiative will be less than the Governor’s \$9 billion estimate.

Additional Information. Information about the State budget and State spending for education is regularly available at various State-maintained websites. Text of the State budget may be found at the website of the Department of Finance, www.dof.ca.gov, under the heading “California Budget.” Various analyses of the budget may be found at the website of the LAO at www.lao.ca.gov. In addition, various State official statements, many of which contain a summary of the current and past State budgets and the impact of those budgets on school districts in the State, may be found via the website of the State Treasurer, www.treasurer.ca.gov. The information presented in these websites is not incorporated by reference in this Official Statement.

Future State Budgets. The District cannot predict what actions will be taken in the future by the State Legislature and the Governor to address the State’s current or future budget deficits and cash management practices. Future State budgets will be affected by national and State economic conditions, including the current economic downturn, over which the District has no control, and other factors over which the District will have no control. To the extent that the State budget process results in reduced

revenues, deferred revenues or increased expenses for the District, the District will be required to make adjustments to its budget and cash management practices. In the event current or future State Budgets decrease the District's revenues or increase required expenditures by the District from the levels assumed by the District, the District will be required to generate additional revenues, curtail programs or services, or use its reserve funds to ensure a balanced budget.

State Funding of Schools Without a State Budget

Although the State Constitution requires that the State Legislature adopt a budget for the State by June 15 of the prior Fiscal Year and that the Governor sign a budget by June 30, this deadline has been missed from time to time. Delays in the adoption of a Budget Act in any Fiscal Year could impact the receipt of State funding by the District. On May 29, 2002, the California Court of Appeal for the Second District decided the case of *Howard Jarvis Taxpayers Association, et al. v. Kathleen Connell* (as Controller of the State of California), et al. (also referred to as *White v. Davis*) ("*Connell*"). The California Court of Appeal concluded that, absent an emergency appropriation, the State Controller may authorize the payment of State funds during a budget impasse only when payment is either (i) authorized by a "continuing appropriation" enacted by the State Legislature, (ii) authorized by a self-executing provision of the State Constitution, or (iii) mandated by federal law. The Court of Appeal specifically concluded that the provisions of Article XVI, Section 8 of the State Constitution—the provision establishing minimum funding of K-14 education enacted as part of Proposition 98—did not constitute a self-executing authorization to disburse funds, stating that such provisions merely provide formulas for determining the minimum funding to be appropriated every budget year but do not appropriate funds. Nevertheless, the State Controller has concluded that the provisions of the State Education Code establishing K-12 and county office of education revenue limit funding do constitute continuing appropriations enacted by the State Legislature and, therefore, has indicated that State payments of such amounts would continue during a budget impasse. The State Controller, however, has concluded that K-12 categorical programs are not authorized pursuant to a continuing appropriation enacted by the State Legislature and, therefore, cannot be paid during a budget impasse. To the extent the *Connell* decision applies to State payments reflected in the District's budget, the requirement that there be either a final budget bill or an emergency appropriation may result in the delay of some payments to the District while such required legislative action is delayed, unless the payments are self-executing authorizations, continuing appropriations or are subject to a federal mandate.

The State Supreme Court granted the State Controller's petition for review of the *Connell* case on a procedural issue unrelated to continuous appropriations and on the substantive question as to whether the State Controller is authorized to pay State employees their full and regular salaries during a budget impasse. No other aspect of the Court of Appeal's decision was addressed by the State Supreme Court. On May 1, 2003, with respect to the substantive question, the State Supreme Court concluded that the State Controller is required, notwithstanding a budget impasse and the limitations imposed by State law, to timely pay those State employees who are subject to the minimum wage and overtime compensation provisions of the federal Fair Labor Standards Act.

CALIFORNIA CONSTITUTIONAL AND STATUTORY PROVISIONS RELATING TO *AD VALOREM* PROPERTY TAXES, DISTRICT REVENUES AND APPROPRIATIONS

Constitutionally Required Funding of Education

The State Constitution requires that from all State revenues there shall first be set apart the moneys to be applied by the State for the support of the public school system and public institutions of higher education. California school districts receive a significant portion of their funding from State appropriations. As a result, decreases as well as increases in State revenues can significantly affect appropriations made by the State Legislature to school districts.

Article XIII A of the State Constitution

On June 6, 1978, California voters approved Proposition 13 (“Proposition 13”), which added Article XIII A to the State Constitution (“Article XIII A”). The provisions of Article XIII A were subsequently modified pursuant to Proposition 39, which was approved by California voters on November 7, 2000. (See “ - Proposition 39” below). Article XIII A limits the amount of any *ad valorem* property tax to 1% of the full cash value thereof, except that additional *ad valorem* property taxes may be levied to pay debt service on (i) bonded indebtedness approved by the voters prior to July 1, 1978, (ii) bonded indebtedness approved by a two-thirds vote on or after July 1, 1978, for the acquisition or improvement of real property, and (iii) bonded indebtedness incurred by a school district or community college district for the construction, reconstruction, rehabilitation or replacement of school facilities or the acquisition or lease of real property for school facilities, approved by 55% of the voters of the school district or community college district, but only if certain accountability measures are included in the proposition. Article XIII A defines full cash value to mean “the county assessor’s valuation of real property as shown on the 1975-76 tax bill under “full cash value,” or thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment.” The full cash value may be adjusted annually to reflect inflation at a rate not to exceed 2% per year, or a reduction in the consumer price index or comparable local data at a rate not to exceed 2% per year, or reduced in the event of declining property value caused by substantial damage, destruction or other factors including a general economic downturn. Subsequent amendments further limit the amount of any *ad valorem* tax on real property to 1% of the full cash value except that additional taxes may be levied to pay debt service on bonded indebtedness approved by the requisite percentage of voters voting on the proposition.

Legislation Implementing Article XIII A

Legislation has been enacted and amended a number of times since 1978 to implement Article XIII A. Under current law, local agencies are no longer permitted to levy directly any *ad valorem* property tax (except to pay voter-approved indebtedness). The 1% *ad valorem* property tax is automatically levied by the County and distributed according to a formula among taxing agencies. The formula apportions the tax roughly in proportion to the relative shares of taxes levied prior to 1989.

Increases of assessed valuation resulting from reappraisals of property due to new construction, change in ownership or from the up to 2% annual inflationary adjustment of the 1% tax base are allocated among the various jurisdictions in the “taxing area” based upon their respective “situs.” Any such allocation made to a local agency continues as part of its allocation in future years. Separate *ad valorem* property taxes to pay voter approved indebtedness such as general obligation bonds are levied by the County on behalf of the local agencies. Article XIII A effectively prohibits the levying of any other *ad valorem* property tax above the Proposition 13 limit except for taxes to support such indebtedness.

The full cash value of taxable property under Article XIII A represents the maximum taxable value for property. Accordingly, the fair market value for a given property may not be the equivalent of the full cash value under Article XIII A. During periods in which the real estate market within the District evidences an upward trend, the fair market value for a given property, which has not been reappraised due to a change in ownership, may exceed the full cash value of such property. During periods in which the real estate market demonstrates a downward trend, the fair market value of a given property may be less than the full cash value of such property and the property owner may apply for a “decline in value” reassessment pursuant to Proposition 8. Reassessments pursuant to Proposition 8, if approved by the Office of the County Assessor, lower valuations of properties (where no change in ownership has occurred) if the current value of such property is lower than the full cash value of record of the property. See “District Financial Information—Assessed Valuation of Property within the District” herein. The value of a property reassessed as a result of a decline in value may change, but in no case may its full cash value exceed its fair market value. When and if the fair market value of a property which has received a downward reassessment pursuant to Proposition 8

increases above its Proposition 13 factored base year value, the Office of the County Assessor will enroll such property at its Proposition 13 factored base year value.

Article XIII B of the State Constitution

An initiative to amend the State Constitution entitled “Limitation of Government Appropriations” was approved on September 6, 1979 thereby adding Article XIII B to the State Constitution (“Article XIII B”). In June 1990, Article XIII B was amended by the voters through their approval of Proposition 111. Under Article XIII B, the State and each local governmental entity have an annual “appropriations limit” and are not permitted to spend certain moneys that are called “appropriations subject to limitation” (consisting of tax revenues, State subventions and certain other funds) in an amount higher than the appropriations limit. Article XIII B does not affect the appropriations of moneys that are excluded from the definition of “appropriations subject to limitation,” including debt service on indebtedness existing or authorized as of January 1, 1979, or bonded indebtedness subsequently approved by the voters. In general terms, the appropriations limit is to be based on certain 1978-79 expenditures, and is to be adjusted annually to reflect changes in costs of living and changes in population, and adjusted where applicable for transfer of financial responsibility of providing services to or from another unit of government. Among other provisions of Article XIII B, if these entities’ revenues in any year exceed the amounts permitted to be spent, the excess would have to be returned by revising tax rates or fee schedules over the subsequent two years. However, in the event that a school district’s revenues exceed its spending limit, the district may, in any fiscal year, increase its appropriations limit to equal its spending by borrowing appropriations limit from the State, provided the State has sufficient excess appropriations limit in such year. See “State Funding of Education—State Budget” herein.

The District Board adopted the annual appropriation limit for Fiscal Year 2010-11 was approximately \$3.97 billion. The limitation applies only to proceeds of taxes and therefore does not apply to service fees and charges, investment earnings on non-proceeds of taxes, fines, and revenue from the sale of property and taxes received from the State and federal governments that are tied to special programs. For Fiscal Year 2010-11, the funds subject to limitation totaled approximately \$3.77 billion and are approximately \$201.3 million below the Article XIII B limit.

Article XIII C and Article XIII D of the State Constitution

On November 5, 1996, the voters of the State approved Proposition 218, the so called “Right to Vote on Taxes Act.” Proposition 218 added Articles XIII C and XIII D to the State Constitution (“Article XIII C” and “Article XIII D”), which contain a number of provisions affecting the ability of local agencies, including school districts, to levy and collect both existing and future taxes, assessments, fees and charges.

Article XIII D deals with assessments and property related fees and charges. Article XIII D explicitly provides that nothing in Article XIII C or XIII D shall be construed to affect existing laws relating to the imposition of fees or charges as a condition of property development; however, it is not clear whether the initiative power is therefore unavailable to repeal or reduce developer and mitigation fees imposed by the District.

Proposition 98

On November 8, 1988, State voters approved Proposition 98, a combined initiative, constitutional amendment and statute called the “Classroom Instructional Improvement and Accountability Act” (the “Accountability Act”). The Accountability Act changed State funding of public education below the university level, and the operation of the State’s Appropriations Limit, primarily by guaranteeing State funding for K-12 school districts and community college districts (collectively, “K-14 districts”).

Under Proposition 98 (as modified by Proposition 111, which was enacted on June 5, 1990), K-14 districts are guaranteed the greater of (i) in general, a fixed percent of the State General Fund's revenues ("Test 1"), (ii) the amount appropriated to K-14 districts in the prior year, adjusted for changes in the cost of living (measured as in Article XIII B by reference to State per capita personal income) and enrollment ("Test 2"), or (iii) a third test, which would replace Test 2 in any year when the percentage growth in per capita State General Fund revenues from the prior year plus 0.05% is less than the percentage growth in State per capita personal income ("Test 3"). Under Test 3, schools would receive the amount appropriated in the prior year adjusted for changes in enrollment and per capita State General Fund revenues, plus an additional small adjustment factor. If Test 3 is used in any year, the difference between Test 3 and Test 2 would become a "credit" to schools which would be the basis of payments in future years when per capita State General Fund revenue growth exceeds per capita personal income growth. Legislation adopted prior to the end of Fiscal Year 1988-89 that implemented Proposition 98, determined the K-14 districts' funding guarantee under Test 1 to be 40.3% of the State General Fund tax revenues, based on 1986-87 appropriations. However, that percentage has been adjusted to 34.559% to account for a subsequent redirection of local property taxes whereby a greater proportion of education funding now comes from local property taxes.

Proposition 98 permits the State Legislature, by a two-thirds vote of both houses of the State Legislature and with the Governor's concurrence, to suspend the K-14 districts' minimum funding formula for a one-year period. In the fall of 1989, the State Legislature and the Governor utilized this provision to avoid having 40.3% of revenues generated by a special supplemental sales tax enacted for earthquake relief go to K-14 districts. In the fall of 2004, the State Legislature and the Governor agreed to suspend the K-14 districts' minimum funding formula set forth pursuant to Proposition 98 in order to address a projected shortfall during Fiscal Year 2004-05. Proposition 98 also contains provisions transferring certain State tax revenues in excess of the Article XIII B limit to K-14 districts.

The Fiscal Year 2011-12 Proposed State Budget proposes to increase Proposition 98 expenditures for Fiscal Year 2012-13 to \$52.5 billion (inclusive of local property tax revenues), which reflects an increase of \$4.9 billion compared to the projected Proposition 98 expenditures for Fiscal Year 2011-12. For further information concerning the impact of State Budgets on Proposition 98 funding, see "District Financial Information—State Budget" herein.

Proposition 39

Proposition 39, which was approved by California voters in November 2000 ("Proposition 39"), provides an alternative method for passage of school facilities bond measures by lowering the constitutional voting requirement from two-thirds to 55% of voters and allows property taxes to exceed the current 1% limit in order to repay such bonds. The lower 55% vote requirement would apply only to bond issues to be used for construction, rehabilitation, or equipping of school facilities or the acquisition of real property for school facilities. The State Legislature enacted additional legislation which placed certain limitations on this lowered threshold, requiring that (i) two-thirds of the governing board of a school district approve placing a bond issue on the ballot, (ii) the bond proposal be included on the ballot of a Statewide or primary election, a regularly scheduled local election, or a Statewide special election (rather than a school district election held at any time during the year), (iii) the tax rate levied as a result of any single election not exceed \$25 for a community college district, \$60 for a unified school district, or \$30 for an elementary school or high school district per \$100,000 of taxable property value, and (iv) the governing board of the school district appoint a citizen's oversight committee to inform the public concerning the spending of the bond proceeds. In addition, the school board of the applicable district is required to perform an annual, independent financial and performance audit until all bond funds have been spent to ensure that the funds have been used only for the projects listed in the measure. The District's Measure K, Measure R, Measure Y and Measure Q bond programs were authorized pursuant to Proposition 39. See "District Financial Information - District Debt - General Obligation Bonds" herein. The District is in full compliance with all Proposition 39 requirements.

Proposition 1A

Proposition 1A (“Proposition 1A”), proposed by the Legislature as a Senate Constitutional Amendment in connection with the 2004-05 Budget Act and approved by California voters in November 2004, provides that the State may not reduce any local sales tax rate, limit existing local government authority to levy a sales tax rate or change the allocation of local sales tax revenues, subject to certain exceptions. Proposition 1A generally prohibits the State from shifting to schools or community colleges any share of property tax revenues allocated to local governments for any fiscal year, as set forth under the laws in effect as of November 3, 2004. Any change in the allocation of property tax revenues among local governments within a county must be approved by two-thirds of both houses of the Legislature. Proposition 1A provided, however, that beginning in fiscal year 2008-09, the State could shift to schools and community colleges up to 8% of local government property tax revenues, which amount must be repaid, with interest, within three years, if the Governor proclaims that the shift is needed due to a severe state financial hardship, the shift is approved by two-thirds of both houses of the State Legislature and certain other conditions are met. The State may also approve voluntary exchanges of local sales tax and property tax revenues among local governments within a county. Proposition 1A also provides that if the State reduces the VLF rate below 0.65 percent of vehicle value, the State must provide local governments with equal replacement revenues. Further, Proposition 1A requires the State, beginning July 1, 2005, to suspend State mandates affecting cities, counties and special districts, excepting mandates relating to employee rights, schools or community colleges, in any year that the State does not fully reimburse local governments for their costs to comply with such mandates. The Revised 2009-10 State Budget Act enacted a shift of approximately \$1.9 billion of city, county, and special district property taxes pursuant to Proposition 1A and used such funds to offset State General Fund spending for education and other programs. The State is required to repay this obligation by June 15, 2013. The State’s ability to initiate future exchanges and shifts of funds will be limited by Proposition 22. See “ - Proposition 22” below.

Proposition 22

Proposition 22 (“Proposition 22”), which was approved by California voters in November 2010, prohibits the State, even during a period of severe fiscal hardship, from delaying the distribution of tax revenues for transportation, redevelopment, or local government projects and services and prohibits fuel tax revenues from being loaned for cash-flow or budget balancing purposes to the State General Fund or any other State fund. Due to the prohibition with respect to State’s ability to take, reallocate, and borrow money raised by local governments for local purposes, Proposition 22 supersedes certain provisions of Proposition 1A of 2004. See “ - Proposition 1A” herein. In addition, Proposition 22 generally eliminated the State’s authority to temporarily shift property taxes from cities, counties, and special districts to schools, temporarily increased school and community college district’s share of property tax revenues, prohibited the State from borrowing or redirecting redevelopment property tax revenues or requiring increased pass-through payments thereof, and prohibited the State from reallocating vehicle license fee revenues to pay for State-imposed mandates. In addition, Proposition 22 requires a two-thirds vote of each house of the State Legislature and a public hearing process to be conducted in order to change the amount of fuel excise tax revenues shared with cities and counties. The LAO stated that Proposition 22 would prohibit the State from enacting new laws that require redevelopment agencies to shift funds to schools or other agencies. However, the California Supreme Court, in *California Redevelopment Association v. Matosantos*, held that the dissolution provisions set forth in ABx1 26 were constitutional and permitted the State to allocate revenues that would have been directed to the redevelopment agencies to make pass-through payments (*i.e.*, payments that such entities would have received under prior law) to local agencies and to successor agencies for retirement of the debts and certain administrative costs of the redevelopment agencies. See “District Financial Information - Litigation Regarding Redevelopment Agency Revenues and Education Expenditures” herein.

Proposition 22 prohibits the State from borrowing sales taxes or excise taxes on motor vehicle fuels or changing the allocations of those taxes among local government except pursuant to specified procedures involving public notices and hearings. In addition, Proposition 22 requires that the State apply the formula setting forth the allocation of State fuel tax revenues to local agencies revert to the formula in effect on June 30, 2009. The LAO stated that Proposition 22 would require the State to adopt alternative actions to address its fiscal and policy objectives, particularly with respect to short-term cash flow needs. The District does not believe that the adoption of Proposition 22 will have a significant impact on their respective revenues and expenditures during Fiscal Year 2011-12.

State School Facilities Bonds

Proposition 47 and Proposition 1A of 1998. The Class Size Reduction Kindergarten - University Public Education Facilities Bond Act of 2002 appeared on the November 5, 2002 ballot as Proposition 47 and was approved by State voters ("Proposition 47"). This measure authorizes the sale and issuance of \$13.05 billion in general obligation bonds by the State for funding construction and renovation of K-12 school facilities (\$11.4 billion) and higher education facilities (\$1.65 billion). Proposition 47 includes \$6.35 billion for acquisition of land and new construction of K-12 school facilities. Of this amount, \$2.9 billion will be set aside to fund backlog projects for which school districts submitted applications to the State on or prior to February 1, 2002. The balance of \$3.45 billion would be used to fund projects for which school districts submitted applications to the State after February 1, 2002. K-12 school districts will be required to pay 50% of the costs for acquisition of land and new construction with local revenues. In addition, Proposition 47 provided that up to \$100 million of the \$3.45 billion would be allocated for charter school facilities. Proposition 47 provides up to \$3.3 billion for reconstruction or modernization of existing K-12 school facilities. Of this amount, \$1.9 billion will be set aside to fund backlog projects for which school districts submitted applications to the State on or prior to February 1, 2002 and the balance of \$1.4 billion would be used to fund projects for which school districts submitted applications to the State after February 1, 2002. K-12 school districts will be required to pay 40% of the costs for reconstruction or modernization with local revenues. Proposition 47 provides a total of \$1.7 billion to K-12 school districts which are considered critically overcrowded, specifically to schools that have a large number of pupils relative to the size of the school site. In addition, \$50 million will be available to fund joint-use projects. Proposition 47 also includes \$1.65 billion to construct new buildings and related infrastructure, alter existing buildings and purchase equipment for use in the State's public higher education systems.

Proposition 1A was previously approved in November 1998 and provided \$6.7 billion of capital funding for K-12 public schools ("Proposition 1A of 1998").

Proposition 55. The Kindergarten-University Public Education Facilities Bond Act of 2004 appeared on the March 2, 2004 ballot as Proposition 55 and was approved by State voters ("Proposition 55"). This measure authorizes the sale and issuance of \$12.3 billion in general obligation bonds by the State for funding the construction and renovation of public K-12 school facilities (\$10 billion) and public higher education facilities (\$2.3 billion). Proposition 55 includes \$5.26 billion for the acquisition of land and construction of new school buildings. A school district would be required to pay for 50% of costs with local resources unless it qualifies for state hardship funding. The measure also provides that up to \$300 million of these new construction funds is available for charter school facilities.

Proposition 55 makes \$2.25 billion available for the reconstruction or modernization of existing public school facilities. Districts would be required to pay 40% of project costs from local resources. Proposition 55 directs a total of \$2.44 billion to school districts with schools which are considered critically overcrowded. These funds would go to schools that have a large number of pupils relative to the size of the school site. Proposition 55 also makes a total of \$50 million available to fund joint-use projects. Proposition 55 includes \$2.3 billion to construct new buildings and related infrastructure, alter existing buildings and purchase equipment for use in these buildings for the State's public higher education systems.

The measure allocates \$690 million to the University of California and California State University and \$920 million to community colleges in the State. The Governor and the State Legislature select specific projects to be funded by the bond proceeds.

Proposition 1D. The Kindergarten-University Public Education Facilities Bond Act of 2006 appeared on the November 7, 2006 ballot as Proposition 1D and was approved by State voters (“Proposition 1D”). This measure authorizes the sale and issuance of \$10.4 billion in general obligation bonds by the State for funding the construction and renovation of public K-12 school facilities (\$7.3 billion) and public higher education facilities (\$3.1 billion). Proposition 1D includes \$1.9 billion for the acquisition of land and construction of new school buildings. A school district would be required to pay for 50% of costs with local resources unless it qualifies for state hardship funding. Proposition 1D also provides that up to \$500 million of these construction funds is available for charter school facilities.

Proposition 1D makes \$3.3 billion available for the reconstruction or modernization of existing public school facilities. Districts would be required to pay 40% of project costs from local resources. Proposition 1D directs a total of \$1.0 billion to school districts with schools that are considered critically overcrowded. These funds would go to schools that have a large number of pupils relative to the size of the school site. Proposition 1D also makes a total of \$29 million available to fund joint-use projects. Proposition 1D includes \$3.1 billion to construct new buildings and related infrastructure, alter existing buildings and purchase equipment for use in these buildings for California’s public higher education systems. The measure allocates \$890 million to the University of California campuses and \$690 million to the California State University campuses and \$1.5 billion to California community colleges. Pursuant to Proposition 1D, the Governor and the State Legislature select specific projects to be funded by the bond proceeds. See “District General Information—*Williams* Settlement Agreement and Legislation; Funding for the New School Construction Program” herein.

The District applies for apportionments from State bond initiatives and historically has received funding from such State bond initiatives. No assurances can be given that the District will continue to apply for apportionments from current or future State bond initiatives or that the District will continue to receive funding from State bond initiatives for which it applies.

Future Initiatives

The foregoing described amendments to the State Constitution and propositions were each adopted as measures that qualified for the ballot pursuant to the State’s initiative process. From time to time, other initiative measures could be adopted that further affect District revenues or the District’s ability to expend revenues.

REGIONAL ECONOMIC AND DEMOGRAPHIC INFORMATION

The District is located in the City of Los Angeles and portions of the County of Los Angeles. This Appendix A includes economic and demographic information pertaining to the City of Los Angeles and the County of Los Angeles. The Refunding Bonds are general obligations of the District, but they are not general obligations of the City or the County.

Population

The following Table A-25 sets forth the estimates of the population of the City, the County and the State in calendar years 2007 through 2011.

**TABLE A-25
POPULATION ESTIMATES
2007 through 2011**

Year (as of January 1)	City of Los Angeles	County of Los Angeles	State of California
2007	3,764,062	9,780,808	36,399,676
2008	3,774,497	9,785,474	36,704,375
2009	3,781,951	9,801,096	36,966,713
2010	3,793,106	9,822,121	37,223,900
2011	3,810,129	9,858,989	37,510,766

Commercial Activity

Table A-29 below sets forth taxable sales in the County for calendar years 2006 through 2008. In 2007, the California State Board of Equalization began a process of converting business codes of sales and use tax permit holders to North American Industry Classification System (“NAICS”) codes. The California State Board of Equalization completed the process of converting business codes of sales and use tax permit holders to NAICS codes for 2009 data. As a result of the coding change process, industry data for 2006, 2007 and 2008 is not comparable with data from 2009 and 2010 as set forth in Table A-30. Table A-30 reflects implementation of the NAICS codes and new industry categories.

TABLE A-29

**County of Los Angeles
Taxable Transactions⁽¹⁾⁽²⁾
(\$ in thousands)**

Type of Business	2006 Annual	2007 Annual	2008 Annual

Leading County Employers

The economic base of the County is diverse with no one sector being dominant. Some of the leading activities include government (including education), business/professional management services (including engineering), health services (including training and research), tourism, distribution, and entertainment. The top twenty-five non-governmental employers in the County are set forth below in Table A-31.

TABLE A-31
County of Los Angeles
Major Non-Governmental Employers⁽¹⁾⁽²⁾

Employer	Product/Service	Employees
Kaiser Permanente	Healthcare	32,700
Northrop Grumman Corp.	Defense contractor	19,000
University of Southern California	Private university	15,121
Boeing Co.	Aerospace and defense systems	13,623
Ralphs/Food 4 Less (A Division of Kroger Co.)	Grocery retailer	13,500 ⁽¹⁾
Target Corp.	Retailer	13,000

GLOSSARY OF CERTAIN TERMS AND ABBREVIATIONS

The following are definitions and abbreviations of certain terms used in this Appendix A.

“AALA” means the Associated Administrators of Los Angeles, which represents the middle managers in the District.

“Accountability Act” means the Classroom Instructional Improvement and Accountability Act, approved by California voters on November 8, 1988, which guarantees State funding for K-12 school districts and community college districts.

“ADA” means average daily attendance, a measure of pupil attendance used as the basis for providing revenue to school districts and as a measure of unit costs. ADA includes only in-seat attendance.

“API” means Academic Performance Index. Schools’ scores on the API scale, and their improvement as reflected by API scores, form the basis for funding in several Governors’ Initiatives programs. The API scale measures student achievement on certain standardized tests.

“ARC” means annual required contribution.

“ARRA” means the American Recovery and Reinvestment Act of 2009.

“AYP” means adequate yearly progress as defined under the NCLB Act.

“CAFR” means comprehensive annual financial report.

“CalPERS” means the California Public Employees’ Retirement System, a defined benefit plan which covers classified personnel who work four or more hours per day.

“CalSTRS” means the California State Teachers’ Retirement System, a defined benefit plan which covers all full-time certificated and some classified District employees.

“CDE” means the California Department of Education.

“COLA” means cost-of-living adjustments, which is used in determining the District’s revenue limit.

“ERAF” means the State’s Education Revenue Augmentation Fund used to collect property taxes in each county that are shifted from cities, the county, and special districts prior to their reallocation to school local education agencies.

“FTE” means full-time equivalent.

“GASB” means the Governmental Accounting Standards Board, an operating entity of the Financial Accounting Foundation established to set standards of financial accounting and reporting for state and local governmental entities.

“IDEA” means the Individuals with Disabilities Act of 1990, as amended.

“LACOE” means the Los Angeles County Office of Education.

“LAO” means the Legislative Analyst’s Office of the State of California.

“LEA” means local education agency as defined under the NCLB Act.

“NCLB Act” means the federal No Child Left Behind Act of 2001.

“NPO” means net pension obligation.

“PARS” means the Public Agency Retirement System, a defined contribution plan which covers the District’s part-time, seasonal, temporary and other employees not otherwise covered by CalPERS or CalSTRS, but whose salaries would otherwise be subject to Social Security tax.

“PEPIP” means the Public Entity Property Insurance Program, an insurance pool comprised of certain cities, counties and school districts.

“PSAA” means the State of California’s Public Schools Accountability Act of 1999.

“QEIA” means the Quality Education Investment Act of 2006.

“UAAL” means unfunded actuarial accrued liability.

“UTLA” means the United Teachers of Los Angeles, which is the collective bargaining unit representing teachers and support service personnel throughout the District.

The Honorable Board of Education
Los Angeles Unified School District
333 South Beaudry Avenue
Los Angeles, California 90017

Dear Board Members:

The Comprehensive Annual Financial Report of the Los Angeles Unified School District (District), for the fiscal year ended June 30, 2011, is hereby submitted. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. The report also includes a "State and Federal Compliance Information" section, which is designed to meet the reporting requirements of the Office of the California State Controller, the U.S. General Accounting Office, the U.S. Office of Management and Budget, and the Single Audit Act Amendments of 1996.

Independent Audit

EC §41020 provides that each school district shall arrange for an audit by certified public accountants of its books and accounts, including the District's income by source of funds and expenditures by object and program. The District's contract auditor for 2010-11 is Simpson & Simpson, CPAs. The independent auditor's report on the basic financial statements is presented in the Financial Section of this report on page 1.

Management Discussion and Analysis (MD&A)

The MD&A provides an objective and easily readable analysis of the District's financial activities on both a short- and long-term basis. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Profile of the Los Angeles Unified School District

The District encompasses approximately 710 square miles in the western section of Los Angeles County. The District is located in and includes virtually all of the City of Los Angeles and all or significant portions of the cities of Bell, Carson, Commerce, Cudahy, Gardena, Hawthorne, Huntington Park, Lomita, Maywood, Rancho Palos Verdes, San Fernando, South Gate, Vernon, and West Hollywood, in addition to considerable unincorporated territories devoted to homes and industry. The District was formed in 1854 as the Common Schools for the City of Los Angeles and became a unified school district in 1960.

As of June 30, 2011, the District is operating 448 elementary schools, 83 middle/junior high schools, 81 senior high schools, 56 options schools, 15 multi level schools, 16 special education schools, 26 magnet schools and 145 magnet centers, 24 community adult schools, 5 regional occupational centers, 5 skills centers, 1 regional occupational program center, 102 early education centers, 4 infant centers, and 20 primary school centers. The District is governed by a seven-member Board of Education elected by district to serve alternating four-year terms. As of June 30, 2011, the District employed 43,702 certificated, 29,226 classified, and 20,992 unclassified employees. Enrollment as of October 2010 was 601,713 students in K-12 schools, 136,400 students in adult schools and centers, and 12,139 children in early education centers.

As a reporting entity, the District is accountable for all activities related to public education in most of the western section of Los Angeles County. This report includes all funds of the District with the exception of the fiscally independent charter schools, which are required to submit their own individual audited financial statements, and the Auxiliary Services Trust Fund, which is not significant in relation to District operations. The Auxiliary Services Trust Fund was established in 1935 to receive and disburse funds for insurance premiums on student body activities and property, “all city” athletic and musical events, grants restricted for student activities, and other miscellaneous activities.

Economic Condition and Outlook

Diminished revenues resulting from the sluggish California economy, along with declining enrollment and rising costs have continued to be a challenging fiscal reality for the District.

As of October 2011, California’s unemployment rate is the second highest in the nation with Nevada ranking first at 13.4%. The table below shows slightly improving unemployment percentages for both the US and California from January through October 2011, but also accentuates how high California’s unemployment rate is in relation to the rest of the country.

Month (2011)	U.S.	California
January	9.0%	12.4%
February	8.9%	12.1%
March	8.8%	12.0%
April	9.0%	11.8%
May	9.1%	11.7%
June	9.2%	11.8%
July	9.1%	12.0%
August	9.1%	12.1%
September	9.1%	11.9%
October	9.0%	11.7% (P)
November	8.6%	(not available)

P – Preliminary estimate

Source: Bureau of Labor Statistics – Labor Force Statistics from the Current Population Survey; Local Area Unemployment Statistics

Per the UCLA Anderson forecast in December 2011, California employment growth of 1.4% and 2.1% is expected in 2012 and 2013, respectively; and the unemployment rate will hover around 11.6% through 2012. On the national level, the economy will be sustained by modest increases in consumption and business investment along with the beginnings of a housing recovery in 2013.

On December 13, 2011 Governor Brown announced mid-year “trigger reduction” that were contingent upon actual revenue falling below estimated revenues. The reductions included a decrease of \$248 million to the Home to School Transportation program and \$79.6 million to Revenue Limit funding.

Before the mid-year reductions, the District was already facing reduced funding. Revenue limit sources, the largest source for unrestricted funding, is projected to be deficated by 19.754% for 2011-12, 2012-13, and 2013-14 after Cost of Living Adjustments (COLA) of 2.24% (zero % effective COLA), 3.20%, and 2.70%, respectively, have been applied. The District has taken a cautious approach in the event that funded COLAs do not materialize in the out-years.

In addition to State revenue reductions, the District is impacted by declining enrollment. For 2011-12, 2012-13, and 2013-14, the District has projected a 4.50%, 2.98%, and 2.49% enrollment declines. This is largely due to lower county birth rates, migration out of the District’s boundaries, and increase in charter school enrollment. As a result, funded Average Daily Attendance, the basis for the majority of operating revenues, for 2011-12, 2012-13, and 2013-14 is expected to decline.

The District has assumed increased costs associated with opening new schools and step and column pay advances. In addition, the District assumes a Consumer Price Index of 3.1%, 2.7%, and 3.1% for fiscal years 2011-12, 2012-13, and 2013-14, respectively on non-salary related expenses. The exception is the expenditure for utilities which is projected to increase by 7% in each of these three fiscal years. Funding for health and welfare benefits is expected to increase annually.

The District continues to work to address these challenges and respond to the continuing uncertain economic situation.

Superintendent’s Strategic Plan

The Los Angeles Unified School District has four interconnected strategies that will help us meet our goals and ensure all students are college-prepared and career-ready.

1. Using data to drive standards based instruction – Use data to drive standards-based, effective instruction for all students, coupled with support and intervention, when students need extra assistance or accelerated learning.
2. Supporting All Employees – We are accountable for our students’ success. We will use data to personalize the supports that all of our employees need to serve our students, from professional development and training, to creating measurable performance goals.
3. Budgeting for Student Achievement – We will make the District budget more transparent, align resources for greater impact and equity, and give schools the ability to target resources to meet their school specific needs, bringing funding and decision-making closer to schools and classrooms.
4. Creating and Supporting Quality Schools – We will analyze multiple data points to differentiate the service and support we deliver to schools. In addition, we will capture and share best practices across all of our schools regardless of school models.

Financial Information

The District maintains internal accounting controls designed to provide reasonable assurance that assets are safeguarded against loss from unauthorized use and disposition and to provide reliable records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes the importance of a close evaluation of costs and benefits, which requires estimates and judgments by management. The objective is to establish effective internal controls, the cost of which

should not exceed the benefits derived therefrom. We believe that the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

School districts in California are required by Education Code Section 41010 to follow the California School Accounting Manual in preparing reports to the State. The District, in accordance with Board election on October 28, 2008, utilizes a single-adoption budget schedule that requires Final Budget adoption by the State-mandated July 1 deadline. The District is allowed to modify its adopted budget within 45 days of the passage of the State budget.

Education Code Section (EC§) 42600 mandates that a school district's expenditures may not legally exceed budgeted appropriations by major object classification, namely certificated salaries, classified salaries, employee benefits, books and supplies, services and other operating expenditures, capital outlay, other outgo, and other financing uses. EC §42600 further specifies that districts may not spend more than the amounts authorized in the Final Budget as adjusted during the fiscal year.

Encumbrance accounting is utilized to ensure effective budgetary control and accountability. Unencumbered appropriations lapse at year end and encumbrances outstanding at that time are reported as reservations or designations of fund balance for subsequent year expenditures.

Financial Results

In 2010-11, the Statement of Changes in Net Assets shows that the District's Net Assets increased \$239.1 million during the year. The Unrestricted Net Assets, which are negative, declined from (\$1,959.6 million) to (\$2,472.9 million). The negative Unrestricted Net Assets are largely the result of the District's retiree health benefit liability (OPEB liability). The liability reflected, which represents the previous year's liability increased by the current year's unfunded expense, is \$2,393.8 million, an increase of \$782 million from 2009-10. The latest actuarial report estimates the present value of the entire 30-year liability to be \$10.3 billion. Unless the District begins to fund or reduce its OPEB liability, the District's Total Liabilities will eventually exceed its Total Assets.

In 2010-11, the fund balance of the General Fund increased \$235.6 million from \$668.0 million to \$903.5 million. This increase was due to lower deficit factor, combined with the elimination of a one-time per ADA revenue limit reduction applied in prior year.

Audit Results

The District received an Unqualified financial audit, which means that there were no significant findings during the audit of the financial statements. For the federal compliance audit, 28 programs received an Unqualified audit and 3 programs were Qualified. The District received an Unqualified state compliance audit.

The District is pleased that the number of findings declined from 32 in 2009-10 to 26 in 2010-11. In addition, the amount of the questioned costs declined 58%, from \$2.0 million in 2009-10 to \$0.8 million in 2010-11. Even with these improvements, the District will continue to work with schools and offices to focus on resolving the remaining areas of internal control and compliance issues.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Los Angeles Unified School District for its comprehensive annual financial report for the fiscal year ended June 30, 2010. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently

organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

We wish to express our appreciation to the Division of Accounting and Disbursements team, the various District divisions who assisted in the preparation of this report, and acknowledge the effort of our independent auditors.

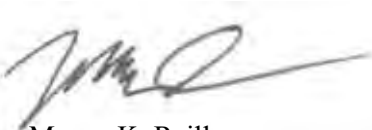

Respectfully submitted,

John E. Deasy
Superintendent of Schools

Independent Auditor's Report

The Honorable Board of Education
Los Angeles Unified School District

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Los Angeles Unified School District** (the District), as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the provisions of the *California Code of Regulations* (CCR), Title 5, Education, Section 19810 et seq. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Los Angeles Unified School District, as of June 30, 2011, and the respective changes in financial position, and where applicable, cash flows, thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1 to the financial statements, the Los Angeles Unified School District adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* for the year ended June 30, 2011.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2011, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's discussion and analysis on pages 3 to 13, and the required supplementary information on page 68 are not required parts of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements. The introductory section, the supplementary information section, the statistical section, and the state and federal compliance information section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements. The supplementary information section on pages 69 to 110, the schedule of expenditures of federal awards on pages 210 to 214, and the information on pages 189 to 204 and page 209 in the state and federal compliance information section have been subjected to the auditing procedures applied in the audit of the basic financial statements and in our opinion, are fairly stated in all material respects in relation to the basic financial statements as a whole. The information in the introductory and statistical sections, the information on pages 159 to 188 and pages 205 to 208 in the state and federal compliance information section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion on them.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2011

As management of the Los Angeles Unified School District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2011. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-v of this report.

Financial Highlights

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$4.5 billion (net assets). This amount is net of a \$2.5 billion deficit in unrestricted net assets resulting from the recognition of unfunded liabilities for other postemployment benefits (OPEB).
- The District's total net assets increased by \$239.1 million from prior year total, primarily due to higher revenues.
- As of the close of the 2011 fiscal year, the District's governmental funds reported combined ending fund balances of \$5.4 billion, a decrease of \$0.2 billion from June 30, 2010.
- At the end of the current fiscal year, committed, assigned and unassigned fund balances for the General Fund, including reserve for economic uncertainties, was \$626.7 million, or 10.2% of total General Fund expenditures.
- The District's total long-term obligations increased by \$443.6 million (2.8%) during the current fiscal year. The increase resulted primarily from additional net OPEB obligation.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Each of the government-wide financial statements relates to functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District are all related to public education.

The government-wide financial statements can be found on pages 14-15 of this report.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2011

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains 22 individual governmental funds, one less than last year after close-out of the Deferred Maintenance Fund at the end of the fiscal year. In the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances, separate columns are presented for General fund, District bonds fund, County school facilities bonds fund, Bond interest and redemption fund, and all other funds. Individual account data for all other nonmajor governmental funds are provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with the budget.

The governmental fund financial statements can be found on pages 16 and 18 of this report.

Proprietary funds. The District maintains Internal Service Funds as the only type of proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for Health and Welfare Benefits, Workers' Compensation Self-Insurance, and Liability Self-Insurance. Because all of these services benefit governmental functions, they have been included within governmental activities in the government-wide financial statements.

It is the District's practice to record estimated claim liabilities at the present value of the claims, in conformity with the accrual basis of accounting, for all its internal service funds.

The proprietary fund financial statements can be found on pages 21-23 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statements can be found on page 24 of this report.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2011

Notes to basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25-67 of this report.

Combining and individual fund schedules and statements. Combining schedules and statements consisting of the budget to actual comparisons for district bonds fund, county school facilities bonds fund, and bond interest and redemption fund, the individual accounts within the nonmajor governmental funds, the internal service funds and the fiduciary funds are presented immediately following the required supplementary information. Combining and individual fund schedules and statements can be found on pages 69-99 of this report.

Government-Wide Financial Analysis

As noted earlier, net assets over time may serve as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$4.5 billion at the close of the most recent year.

By far the largest portion of the District's net assets (\$5.5 billion) reflects its investments in capital assets (e.g., land, buildings, and equipment), less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investments in its capital assets are reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's restricted net assets (\$1.5 billion) represent resources that are subject to external restrictions on how they may be used. The remaining negative balance in unrestricted net assets (-\$2.5 billion) resulted from the recognition of \$3.2 billion of net OPEB obligation.

At the end of the 2011 fiscal year, the District is able to report positive balances in all categories of net assets except for unrestricted net assets.

The \$0.9 billion increase in capital assets primarily relates to the continuing school construction and modernization projects throughout the District.

Long-term liabilities increased by \$443.6 million primarily due to additional net OPEB obligation.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2011

The District's net assets increased by \$239.1 million in the current fiscal year. The major components of this increase are in capital grants and contributions (\$480.2 million) due to increased funding from the State bond funds, and in total general revenues (\$339.9 million). The increase in general revenues is due to higher property taxes levied for debt service, elimination of the one-time \$250 per ADA reduction applied in the prior fiscal year, lower deficit factor on revenue limit sources, and higher unemployment insurance revenue. The State reimbursement is offset by higher unemployment insurance contributions resulting from higher unemployment claims.

The following graph shows that operating grants and contributions and state aid are the main revenue sources of the District.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2011

The following graph shows that instruction and support services are the main expenditures of the District.

Expenses
Year ended June 30, 2011

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to facilitate compliance with finance-related requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. Committed, assigned, and unassigned balances comprise the unrestricted fund balances and may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$5.4 billion, a decrease of \$0.2 billion in comparison with the prior year. Approximately 12.3% (\$0.7 billion) of this total combined ending fund balance constitutes unrestricted fund balance, which is available for spending at the District's discretion. The remaining 87.7% are either restricted or nonspendable and are not available for new spending: restricted balances (\$4.7 billion), nonspendable inventories (\$12.5 million), and nonspendable revolving cash (\$6.8 million).

The General Fund is the primary operating fund of the District. At the end of the 2011 fiscal year, the unrestricted fund balance of the General Fund was \$626.7 million, while the total fund balance is \$903.5 million. As a measure of the General Fund's liquidity, it may be useful to compare both the unrestricted fund balance and the total fund balance to the total fund expenditures. The unrestricted fund balance represents 10.2% of the total General Fund expenditures, while the total fund balance represents 14.8% of that same amount.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2011

The fund balance of the District's General Fund increased by \$235.6 million during the current fiscal year primarily from higher revenues. Revenue limit sources, federal revenues, and local revenues are all higher compared to last fiscal year. Other State revenues are also higher after eliminating the effects of a State-recommended change in accounting treatment for Adult Education apportionments.

Other changes in fund balances in the governmental funds are detailed as follows (in thousands):

	District Bonds	County School Facilities Bond	Bond Interest and Redemption	Other Governmental Funds			Total
				Special Revenue	Debt Service	Other Capital Projects	
Fund balance, June 30, 2011:							
Nonspendable							
Revolving cash and imprest funds	\$ 3,800	\$ —	\$ —	\$ 115	\$ —	\$ —	\$ 115
Inventories	—	—	—	4,935	—	—	4,935
Restricted	2,816,528	712,540	724,608	3,843	82,138	132,449	218,430
Committed	—	—	—	11,391	—	—	11,391
Assigned	—	—	—	51	—	29,731	29,782
Total	2,820,328	712,540	724,608	20,335	82,138	162,180	264,653
Fund balance, July 1, 2010	3,492,603	501,615	630,810	127,817	72,643	166,949	367,409
Increase (decrease) in fund balance	\$ (672,275)	\$ 210,925	\$ 93,798	\$ (107,482)	\$ 9,495	\$ (4,769)	\$ (102,756)

The fund balance increased during the current year: for the County School Facilities Bonds, due to higher apportionments from the State bond proceeds, and for the Bond and Interest Redemption, primarily from higher property taxes levied to pay principal and interest on bond issues. The fund balance decreased for the District Bonds, due to spending for continuing school construction and renovation; for the Special Revenue, due to lower transfers of adult education apportionments from General Fund in accordance with State flexibility provisions and the transfer of all remaining balance in the Deferred Maintenance Fund to the General Fund; and for Other Capital Projects, primarily due to the use of developer fees towards debt service payments on certain Certificate of Participation issues.

Proprietary funds. The District's proprietary funds provide the same type of information found in the government-wide financial statements.

At the end of the year, the District's proprietary funds have unrestricted net assets of \$250.5 million. The net increase of \$90.8 million in the current year can be attributed to lower premiums and claims expense due to changes in health and medical plans.

General Fund Budgetary Highlights

The District closely monitors and reviews its revenue and expenditure data to ensure that a sufficient ending balance is maintained. This review occurs throughout the fiscal year, utilizing the State-mandated first and second interim financial reports, and at year end, utilizing the actual revenue and expenditure data.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2011

Final Budget vs. Original Budget

The District's *original budget* is based on assumptions from the State's May Revise Budget. The *final budget* adds all other known State budgetary changes and changes to the District's priority of program implementations and/or planned expenditures. Differences between the 2010-11 General Fund original budget (adopted by the Board of Education in June 2010) and the final budget as of June 30, 2011 resulted in an overall increase in the ending balance by \$71.4 million. Adjustments to the adopted budget were made to reflect additional revenues in categorical programs and a corresponding increase in related expenditures based on actual grant award notifications received. Technical adjustments were also made to increase revenues and related expenditures as a result of a change in accounting treatment to record special education revenue gross of fiscally independent charter schools' share and to record information technology project costs in the General Fund from resources provided by the capital projects funds. After eliminating the effects of these offsetting adjustments, the increase in ending balance is primarily from higher beginning balance by \$199.5 million realized after the books were closed, less additional expenditure appropriations, mostly in salaries.

Actual vs. Final Budget

The General Fund ending balance increased by \$475.2 million compared to the Final Budget, primarily due to under-expenditure in all objects of expenditure, but mainly in services and other operating expenditures (\$201.1 million) and other transfers out (\$97.7 million). The under-expenditure is due to budget reductions, furlough, and expenditure freeze implemented during the year, delay in information technology projects, and reduced support to the adult education program.

Capital Assets and Debt Administration

Capital assets. The District's investment in capital assets for its governmental activities as of June 30, 2011 amounts to \$14.6 billion (net of accumulated depreciation), a 6.5% increase from the prior year. The investment in capital assets includes sites, improvement of sites, buildings and improvements, equipment and construction in progress, net of any related accumulated depreciation.

Major capital asset events during the current fiscal year included the following:

- Continuing construction of additional school buildings as well as school modernization projects throughout the District. Construction in progress as of the close of the fiscal year was \$3.6 billion.
- Various building additions and modernizations were completed at a cost of \$1.1 billion.
- A total of 9 new schools were completed in the 2010-11 fiscal year.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2011

Capital Assets (net of accumulated depreciation)

As of June 30, 2011 and 2010 (in thousands):

	Governmental Activities	
	2011	2010
Sites	\$ 3,136,630	\$ 3,069,920
Improvement of sites	206,963	215,635
Buildings and improvements	7,512,289	6,724,488
Equipment	199,663	145,397
Construction in progress	3,571,703	3,579,899
Total	<u>\$ 14,627,248</u>	<u>\$ 13,735,339</u>

Additional information on the District's capital assets can be found in Note 7 on pages 42-43 of this report.

Long-term obligations. At the end of the current fiscal year, the District had total long-term obligations of \$16.2 billion. Of this amount, \$11.8 billion comprises debt to be repaid by voter-approved property taxes and not by the General Fund of the District.

Outstanding Obligations

Summary of long-term obligations is as follows (in thousands):

	Governmental Activities	
	2011	2010
General Obligation Bonds	\$ 11,810,881	\$ 12,114,504
Certificates of Participation (COPs)	494,840	459,019
Capital Lease Obligations	2,359	2,628
Children's Center Facilities Revolving Loan	792	792
California Energy Commission Loan	217	439
Liability for Employee Benefits	202,032	224,884
Self-insurance Claims	503,305	528,345
Other Postemployment Benefits (OPEB)	3,175,742	2,393,811
Arbitrage Payable	5,470	12,445
Legal Settlements	—	15,200
Total	<u>\$ 16,195,638</u>	<u>\$ 15,752,067</u>

The District's total long-term obligations increased by \$443.6 million (2.8%) during the current fiscal year. The key factor in this increase was the recognition of additional net OPEB obligation.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Management's Discussion and Analysis

June 30, 2011

Long-Term Credit Ratings

Moody's Investor Service ("Moody's") and Standard and Poor's ("S&P") currently rate the District's General Obligation Bonds and Certificates of Participation (COPs). The District requested withdrawal of all Fitch ratings in September 2009. The District's current underlying ratings on its general obligation bonds are "Aa2" and "AA-" from Moody's and S&P, respectively. The District's current underlying ratings on its nonabatable leases (COPs) are "Aa3" and "A+" from Moody's and S&P, respectively; for abatable leases (COPs), the underlying ratings are "A1" and "A+" from Moody's and S&P, respectively. The District purchased municipal bond insurance and/or reserve surety bond policies at the time of issuance for some of its COPs and bonds. Moody's, S&P and Fitch assigned insured ratings of "Aaa", "AAA" and "AAA", respectively, on said COPs and bonds at the time of issuance. Subsequent to February 1, 2008, the rating agencies downgraded the ratings of certain bond insurers, including all of those who had issued bond insurance policies and/or surety bonds on District issues.

State statutes limit the issuance of general obligation bond debt by a unified school district if the outstanding general obligation bonds are more than 2.5% of its total taxable property. The debt limitation for the District as of June 30, 2011 is \$11.6 billion, which is in excess of the District's outstanding general obligation bond debt after reflecting assets available in the Bond Interest and Redemption Fund for payment of principal.

Additional information on the District's long-term obligations can be found in Notes 10 and 11 on pages 53-62 of this report.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. This report is available on the District's website (www.lausd.net). Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Chief Financial Officer, Los Angeles Unified School District, P.O. Box 513307-1307, Los Angeles, California 90051-1307.

LOS ANGELES UNIFIED SCHOOL DISTRICT
Reconciliation of the Governmental Funds Balance Sheet
to the Statement of Net Assets
June 30, 2011
(in thousands)

Total Fund Balances – Governmental Funds	\$ 5,425,660
Amounts reported for governmental activities in the statement of net assets are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$18,534,172 and the accumulated depreciation is \$3,906,924.	14,627,248
Property taxes receivable will be collected this year, but are not available soon enough to pay the current period's expenditures and therefore are deferred in the funds.	92,125
An internal service fund is used by the District's management to charge the costs of health and welfare, workers' compensation and liability self-insurance premiums and claims to the individual funds. The assets and liabilities of the internal service funds are included in the governmental activities.	250,466
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds.	(15,986,125)
Other assets – deferred charges are not reflected in the fund financials.	<u>63,653</u>
Total Net Assets – Governmental Activities	<u><u>\$ 4,473,027</u></u>

See accompanying notes to basic financial statements.

LOS ANGELES UNIFIED SCHOOL DISTRICT
Reconciliation of the Governmental Funds Statement of Revenues, Expenditures,
and Changes in Fund Balances to the Statement of Activities
For the Fiscal Year Ended June 30, 2011
(in thousands)

Total Net Changes in Fund Balances – Governmental Funds	\$ (234,743)
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay (\$1,241,249) exceeds loss on disposal of capital assets (\$16) and depreciation (\$335,224) in the period.	906,009
Some of the capital assets acquired this year were financed with capital leases. The amount financed is reported in the governmental funds as a source of financing. On the other hand, the proceeds are not revenues in the statement of activities, but rather, constitute long-term liabilities in the statement of net assets	(1,043)
Proceeds of new debt and repayment of debt principal are reported as other financing sources and uses in the governmental funds, but constitute additions and reductions to liabilities in the statement of net assets.	245,744
Premiums, discounts, refunding charges and issuance costs are reported as other financing sources and uses in the governmental funds, but presented as liabilities or deferred charges, net of amortization in the statement of net assets.	1,151
Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered "available" revenues for this year.	5,323
In the statement of activities, compensated absences and other retirement benefits are measured by the amounts the employees earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).	23,570
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental fund because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of financial resources. In the statement of activities, however, interest expense is recognized as interest accrues, regardless of when it is due.	(23,824)
Some expenses, including legal settlements and rebatable arbitrage, are recognized in the government wide statements as soon as the underlying event has occurred but not until due and payable in the governmental funds.	8,075
OPEB expenditures are recorded in the governmental funds to the extent of amounts actually funded. In the statement of activities, however, the expense is recorded for the full amount of the accrual-basis annual OPEB cost.	(781,931)
An internal service fund is used by the District's management to charge the costs of health and welfare, workers' compensation and liability self-insurance premiums and claims to the individual funds. The net revenue of the internal service fund is reported with governmental activities.	90,751
Changes in Net Assets of Governmental Activities	<u>\$ 239,082</u>

See accompanying notes to basic financial statements.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

(1) Summary of Significant Accounting Policies

The Los Angeles Unified School District accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The following summary of the more significant accounting policies of the District is provided to assist the reader in interpreting the basic financial statements presented in this section. These policies, as presented, should be viewed as an integral part of the accompanying basic financial statements.

(a) Reporting Entity

The District is primarily responsible for all activities related to K-12 public education in most of the western section of Los Angeles County, State of California. The governing authority, as designated by the State Legislature, consists of seven elected officials who together constitute the Board of Education (Board). Those organizations, functions, and activities (component units) for which the Board has accountability comprise the District's reporting entity.

The District's Comprehensive Annual Financial Report includes all Funds of the District and its component units with the exception of the fiscally independent charter schools, which are required to submit audited financial statements individually to the State, and the Auxiliary Services Trust Fund, which is not significant in relation to District operations. This fund was established in 1935 to receive and disburse funds for insurance premiums on student body activities and property, "all city" athletic and musical events, and grants restricted for student-related activities. The District has certain oversight responsibilities for these operations but there is no financial interdependency between the financial activities of the District and the fiscally independent charter schools or the Auxiliary Services Trust Fund.

Blended Component Units

The District Finance Corporation and the District Administration Building Finance Corporation (the Corporations) were formed in 2000 and 2001, respectively, to finance properties leased by the District. The Corporations have a financial and operational relationship which meets the reporting entity definition criteria of GASB for inclusion of the Corporations as blended component units of the District. These Corporations are nonprofit public benefit corporations, and they were formed to provide financing assistance to the District for construction and acquisition of major capital facilities. The District currently occupies all completed Corporation facilities and, upon completion, intends to occupy all Corporation facilities under construction under lease purchase agreements. At the end of the lease terms, or pursuant to relevant transaction documents with the District, or upon dissolution of the Corporations, title to all Corporations property passes to the District.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

(b) *Government-Wide and Fund Financial Statements*

The District's basic financial statements consist of fund financial statements and government-wide statements which are intended to provide an overall viewpoint of the District's finances. The government-wide financial statements, which are the statement of net assets and the statement of activities, report information on all nonfiduciary District funds excluding the effect of interfund activities. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which are primarily supported by fees and service charges. The District does not conduct any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements on pages 16 and 18. Nonmajor funds are aggregated in a single column.

(c) *Measurement Focus and Basis of Accounting*

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. The same measurement focus and basis of accounting also apply to trust funds. The agency fund, however, reports only assets and liabilities and therefore has no measurement focus.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when susceptible to accrual, i.e., both measurable and available to finance expenditures of the fiscal period. "Available" means collectible within the current period or soon enough thereafter to pay current liabilities. Application of the "susceptibility to accrual" criteria requires consideration of the materiality of the item in question and due regard for the practicality of accrual, as well as consistency in application.

Federal revenues and State apportionments and allowances are determined to be available and measurable when entitlement occurs or related eligible expenditures are incurred. Secured and unsecured property taxes related to debt service and community redevelopment purposes that are estimated to be collectible and receivable within 60 days of the current period are recorded as revenue. Investment income is accrued when earned. All other revenues are not considered susceptible to accrual.

Notes to Basic Financial Statements

Year Ended June 30, 2011

Expenditures for the governmental funds are generally recognized when the related fund liability is incurred, except debt service expenditures and expenditures related to compensated absences which are recognized when payment is due.

(d) Financial Statement Presentation

The District's comprehensive annual financial report includes the following:

- Management's Discussion and Analysis is a narrative introduction and analytical overview of the District's financial activities as required by GASB Statement No. 34. This narrative overview is in a format similar to that in the private sector's corporate annual reports.
- Government-wide financial statements are prepared using full accrual accounting for all of the District's activities. Therefore, current assets and liabilities, capital and other long-term assets, and long-term liabilities are included in the financial statements.
- Statement of net assets displays the financial position of the District including all capital assets and related accumulated depreciation and long-term liabilities.
- Statement of activities focuses on the cost of functions and programs and the effect of these on the District's net assets. This financial report is also prepared using the full accrual basis and shows depreciation expense and unfunded OPEB expense.

(e) Fund Accounting

The District's accounting system is organized and operated on the basis of funds. A fund is a separate accounting entity with a self-balancing set of accounts. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A description of the activities of the various funds is provided below:

Major Governmental Funds

The District has the following major governmental funds for the fiscal year 2010-11:

General Fund – The General Fund is used to account for all financial resources relating to educational activities and the general business operations of the District, including educational programs funded by other governmental agencies. The General Fund consists of unrestricted and restricted funds.

District Bonds Fund – This category represents the total of the following building accounts: Building Account – Bond Proceeds (BB Bonds), established to account for bond proceeds received as a result of the passage of Proposition BB; Building Account – Measure K, established to account for bond proceeds received as a result of the issuance of General Obligation Bonds (G.O. Bonds) authorized pursuant to ballot measure "Measure K"; Building Account – Measure R, established to account for bond proceeds received by the passage of Measure R; and Building Account – Measure Y, established to account for bond proceeds received by the passage of Measure Y.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

County School Facilities Bonds Fund – This fund is established to account for apportionments received from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School Facilities Fund (Proposition 47), the 2004 State School Facilities Fund (Proposition 55), and the 2006 State School Facilities Fund (Proposition 1D).

Bond Interest and Redemption Fund – This Debt Service fund is used to account for the payment of principal and interest on the general obligation bond issues (Proposition BB, Measure K, Measure R, and Measure Y. Revenues are derived from ad valorem taxes levied upon all property subject to tax by the District.

Other Governmental Funds

The District has the following nonmajor governmental funds:

Special Revenue Funds – Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for the specific purpose (other than debt service or capital projects) of the individual funds. The District maintains the following Special Revenue Funds: Adult Education, Cafeteria, and Child Development. The Deferred Maintenance fund was closed out at the end of the fiscal year and all remaining balance was transferred to the General Fund since the District does not expect to continue to receive revenue sources restricted or committed to the purposes of the fund.

Debt Service Funds – Debt Service Funds are used to account for all financial resources that are restricted, committed, or assigned to expenditures for the repayment of general long-term debt principal and interest. The District maintains the following nonmajor Debt Service Funds: Tax Override and Capital Services. The Bond Interest and Redemption Fund is reported separately as a major fund in fiscal year 2010-11.

Capital Projects Funds – Capital Projects Funds are used to account for all financial resources that are restricted, committed, or assigned to expenditures for the acquisition or construction of major capital facilities and equipment other than those financed by the General and Special Revenue Funds. The District maintains the following nonmajor Capital Projects Funds: Building, State School Building Lease-Purchase, Special Reserve, Special Reserve – FEMA-Earthquake, Special Reserve – FEMA-Hazard Mitigation, Special Reserve – Community Redevelopment Agency, and Capital Facilities Account. The District Bonds Fund (BB Bonds, Measure K, Measure R, and Measure Y) and the County School Facilities Bonds Fund (Prop 1A, Prop 47, Prop 55, and Prop 1D) are reported separately as a major fund in fiscal year 2010-11.

Proprietary Funds

The District has the following Proprietary Funds:

Internal Service Funds – Internal Service Funds are used to account for all financial resources intended to provide self-insurance services to other operating funds of the District on a cost-reimbursement basis. The District maintains the following Internal Service Funds: Health and Welfare Benefits, Workers' Compensation Self-Insurance, and Liability Self-Insurance. The Health

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

and Welfare Benefits Fund was established to pay for claims, administrative costs, insurance premiums, and related expenditures; the Workers' Compensation Self-Insurance Fund and the Liability Self-Insurance Fund were established to pay for claims, excess insurance coverage, administrative costs, and related expenditures.

Under the full accrual basis of accounting that is generally accepted for Internal Service Funds, total estimated liabilities for self-insurance are recorded based on estimated claims liabilities, including the estimated liability for incurred but not reported claims. For the Workers' Compensation and Liability Self-Insurance Funds, the estimates are determined by applying an appropriate discount rate to estimated future claim payments. No discount is applied to estimated Health and Welfare Benefits Fund claims because they are generally paid within a short period of time after the claims are filed.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges to other operating funds for self-insurance services. Operating expenses include the cost of services including insurance premiums, claims, and administrative costs. All revenues and expenses not meeting this definition are nonoperating revenues and expenses.

Fiduciary Funds

The District has the following Fiduciary Funds:

Agency Funds – Agency Funds are used to report resources held by the reporting government in a purely custodial capacity. Accordingly, all assets reported are offset by a liability to the party on whose behalf they are held. Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations or other governments. The District maintains the following agency funds:

Attendance Incentive Reserve Fund – The Attendance Incentive Reserve Fund is used to account for 50% of funds from salary savings as a result of reduced costs of absenteeism of the United Teachers of Los Angeles (UTLA) represented employees.

Student Body Fund – The Student Body Fund is used to account for cash held by the District on behalf of student bodies at various school sites.

(f) Budgetary Control and Encumbrances

School districts in California are required by Education Code Section 41010 to follow the California School Accounting Manual in preparing reports to the State. The District utilizes a single-adoption budget schedule that requires Final Budget adoption by the State-mandated July 1 deadline. The District is allowed to modify its adopted budget within 45 days of the passage of the State budget. In addition, the District revises the budget during the year to give consideration to unanticipated revenues and expenditures (see Note 4 – Budgetary Appropriation Amendments).

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

In accordance with the District's Board policy, management has the authority to make routine transfers of budget appropriations among major categories within a fund. Routine budget transfers are summarized and periodically reported to the Board for ratification. Nonroutine transfers may not be processed without prior Board approval.

During the year, several supplementary appropriations were necessary. The original and final revised budgets are presented in the financial statements. Budgets for all governmental fund types are adopted on a basis consistent with generally accepted accounting principles. Budgets are adopted for the General, Special Revenue, Debt Service, Capital Projects, and Internal Service Funds.

Formal budgetary integration is employed as a management control device during the year for all budgeted funds. The District employs budgetary control by minor (sub) object and by individual program accounts. Expenditures may not legally exceed budgeted appropriations by major object level as follows: Certificated Salaries, Classified Salaries, Employee Benefits, Books and Supplies, Services and Other Operating Expenditures, Capital Outlay, Other Outgo, and Other Financing Uses.

The District utilizes an encumbrance system for all budgeted funds, except Proprietary and Fiduciary Funds, to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid or liabilities are incurred. All encumbrances expire at June 30. Appropriation authority lapses at the end of the fiscal year.

(g) *Cash and Investments*

Cash includes amounts in demand deposits with the Los Angeles County Treasury and various financial institutions, imprest funds in schools and offices, and cafeteria change funds. The District maintains some cash deposits with various banking institutions for collection clearing, check clearing, or revolving fund purposes. The District also maintains deposit accounts held by various trustees for the acquisition or construction of capital assets, for the repayment of long-term debt, and for the repayment of tax and revenue anticipation notes.

In accordance with State Education Code Section 41001, the District deposits virtually all of its cash with the Treasurer of the County of Los Angeles. The District's deposits, along with funds from other local agencies such as the county government, other school districts, and special districts, make up a pool, which the County Treasurer manages for investment purposes. Earnings from the pooled investments are allocated to participating funds based on average investment in the pool during the allocation period.

All District-directed investments are governed by Government Code Section 53601 and Treasury investment guidelines. The guidelines limit specific investments to government securities, domestic chartered financial securities, domestic corporate issues, and California municipal securities. The District's securities portfolio is held by the County Treasurer. Interest earned on investments is recorded as revenue of the fund from which the investment was made. All District's investments are stated at fair value based on quoted market prices.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

(h) *Short-term Interfund Receivables/Payables*

Occasionally, a fund will not have sufficient cash to meet its financial obligations, and a cash transfer will be required to enable that fund to pay its outstanding invoices and other obligations. These temporary borrowings between funds are classified as “due from other funds” or “due to other funds” on the governmental funds balance sheet. Interfund balances within governmental activities are eliminated on the government-wide statement of net assets.

(i) *Inventories*

Inventories consist of expendable materials and supplies held for consumption, which are valued at cost, using the average-cost method. Except for food and cafeteria supplies, which are expended when received, inventories are recorded as expenditures when shipped to schools and offices. Balances of inventory accounts are offset by corresponding reservations of fund balance, which indicate that these amounts are not available for appropriation and expenditure.

(j) *Capital Assets*

Capital assets, which include sites, improvement of sites, buildings and improvements, equipment, and construction in progress, are reported in the government-wide financial statements. Such assets are valued at historical cost or estimated historical cost unless obtained by annexation or donation, in which case they are recorded at estimated market value at the date of receipt. The District utilizes a capitalization threshold of \$25,000.

Projects under construction are recorded at cost as construction in progress and transferred to the appropriate asset account when substantially complete. Costs of major improvements and rehabilitation of buildings are capitalized. Repair and maintenance costs are charged to expense when incurred. Equipment disposed of, or no longer required for its existing use, is removed from the records at actual or estimated historical cost, net of accumulated depreciation.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

All capital assets, except land and construction in progress, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Improvement of sites	20
Buildings	50
Portable buildings	20
Building improvements	20
Furniture and fixtures	20
Playground equipment	20
Food services equipment	15
Transportation equipment	15
Telephone system	10
Reprographics equipment	10
Broadcasting equipment	10
Vehicles	8
Computer system and equipment	5
Office equipment	5

(k) Contracts Payable

Contracts payable includes only the portion applicable to work completed and unpaid as of June 30, 2011.

(l) Compensated Absences

All vacation leaves are accrued in the government-wide statements when they are incurred. A liability is reported in the governmental funds only for vested or accumulated vacation leave of employees who have separated from the District as of June 30 and whose vacation benefits are payable within 60 days from the end of the fiscal year. The District, as a practice, does not accrue a liability for unused sick leave since accumulated sick leave is not a vested benefit. Employees who retire after January 1, 1999 who are members of the Public Employees' Retirement System (PERS) may use accumulated sick leave to increase their service years in the calculation of retirement benefits.

In 1995, pursuant to the District/UTLA Agreement (Article XIV, Section 1.2), the District agreed to compensate eligible employees for furlough days taken during the 1992-93 fiscal year to be paid in a lump-sum bonus upon retirement. The amount of bonus corresponds to the percentage that the employee's compensation was reduced in the 1992-93 school year based on the employee's salary band for that year.

Liability is accrued in the government-wide statements for all unpaid balances. A liability is reported in the governmental funds only for employees who have separated from the District as of June 30.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

(m) Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net assets. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective-interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt using straight-line method. Gains and losses on refunding related to bonds redeemed by proceeds from the issuance of new bonds are amortized to debt expense using the effective-interest method over the shorter of the life of the new bonds or the remaining term of the bonds refunded.

In the fund financial statements, debt issuances including any related premiums or discounts as well as bond issuance costs are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

(n) Revenue Limit Sources/Property Taxes

The revenue limit is the basic financial support for District activities. The District's revenue limit is received from a combination of local property taxes and state apportionments. For the fiscal year 2010-11, the District received local property taxes amounting to \$909.5 million and State aid amounting to \$2,146.9 million.

The county is responsible for assessing, collecting, and apportioning property taxes. Taxes are levied for each fiscal year on taxable real and personal property in the county. The levy is based on the assessed values as of the preceding March 1, which is also the lien date. Property taxes on the secured roll are due on November 1 and February 1, and taxes become delinquent after December 10 and April 10, respectively. Property taxes on the unsecured roll are due on the lien date (March 1), and become delinquent if unpaid by August 31.

Secured property taxes are recorded as revenue when apportioned, in the fiscal year of the levy. The county apportions secured property tax revenue in accordance with the alternate method of distributions prescribed by Section 4705 of the California Revenue and Taxation Code. This alternate method provides for crediting each applicable fund with its total secured taxes upon completion of the secured tax roll, approximately on October 1 of each year. The County Auditor reports the amount of the District's allocated property tax revenue to the California Department of Education. Property taxes are recorded as local revenue limit sources by the District.

The California Department of Education reduces the District's entitlement by the District's local property tax revenue. The balance is paid from the State General Fund, and is known as the State Apportionment. As a result, a receivable has not been recorded for the related property taxes in the General Fund as any receivable is offset by a payable on the state apportionment.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

The District's base revenue limit is the amount of general purpose revenue, per average daily attendance (ADA), that the District is entitled to by law. This amount is multiplied by the second period ADA to derive the District's total entitlement.

(o) New Accounting Pronouncement

Effective for the year ended June 30, 2011, the District adopted the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The adoption resulted in changes to the categories and terminology used to describe the components of ending balance as presented in the Governmental Funds balance sheet. In addition, as a result of clarification in definitions of certain governmental funds, \$18.5 million of remaining balance in the Deferred Maintenance Fund was closed out at the end of the fiscal year and transferred to General Fund. The Deferred Maintenance Fund no longer meets the definition of special revenue fund as the new standard specifies that there must be committed or restricted revenue source that is expected to continue for the purposes of the fund to justify its continued use.

(p) Restatement

In February 2009, an agreement was entered into between the District and its bargaining units that changed required contributions to the Health and Welfare Fund. Under the agreement, the amount of contribution is no longer based on the fund's actual expenses but rather, on a flat rate per participant. With the change, the Health & Welfare Fund should have assumed responsibility for the opt-out costs paid to employees who elected to be compensated for not enrolling in a medical plan; however General Fund continued to pay for these costs. An adjustment was made to correct the error, as a result of which, the fund balance in General Fund and net assets in the Health and Welfare Fund, as of June 30, 2010 have been restated as follows (in thousands):

	General Fund	Health and Welfare Fund
Fund Balance/Net Assets at June 30, 2010, as previously reported	\$ 662,907	\$ 96,189
Expenditures for Opt-Out Costs	<u>5,059</u>	<u>(5,059)</u>
Fund Balance/Net Assets at June 30, 2010, as restated	<u>\$ 667,966</u>	<u>\$ 91,130</u>

In the past, the District reported the Attendance Incentive Reserve Fund as a pension trust fund. Because the assets of the fund are not held in a formal trust agreement, an adjustment was made to report it as an agency fund, in conformity with generally accepted accounting principles. As a result of the adjustment, the net assets as of June 30, 2010 have been restated as follows (in thousands):

Net Assets at June 30, 2010, as previously reported	\$ 399
Transfer Investment Income to Other Payables	<u>(399)</u>
Net Assets at June 30, 2010, as restated	<u>\$ —</u>

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

(q) Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses in the accompanying basic financial statements. Actual results may differ from those estimates.

(2) Tax and Revenue Anticipation Notes

Tax and Revenue Anticipation Notes (TRANs) are short-term debt instruments used to finance temporary cash flow deficits in anticipation of receiving taxes and other revenues. On August 13, 2009, the District issued \$750.0 million of 2009-10 Tax and Revenue Anticipation Notes (TRANs) with an overall weighted true interest cost of 1.62% and total premium of \$9.8 million. These notes were retired on their due date of August 12, 2010.

On July 1, 2010, the District issued a total of \$540.0 million of 2010-11 TRANs with an overall weighted true interest cost of 0.67% and total premium of \$6.8 million. The principal and interest on the notes were retired on their due date of June 30, 2011.

TRANs – Short-Term Notes Payable
(in thousands)

	Principal	Interest	Total
Beginning balance, July 1, 2010	\$ 750,000	\$ 14,355	\$ 764,355
Additions	540,000	6,756	546,756
Deductions	(1,290,000)	(21,111)	(1,311,111)
Ending balance, June 30, 2011	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

(3) Reconciliation of Government-Wide And Fund Financial Statements

(a) *Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Assets*

The accompanying governmental fund balance sheet includes reconciliation between *total fund balances – governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds.” The details of the \$15,986,125 difference are as follows (in thousands):

Bonds payable and related accrued interest	\$ (11,810,881)
Certificates of participation (COPs)	(494,840)
Capital lease obligations	(2,359)
Children center facilities revolving loan	(792)
California energy commission loan	(217)
Liability for compensated absences	(68,902)
Retirement bonus	(91,032)
Early retirement incentive	(37,989)
Other Post Employment Benefits (OPEB)	(3,175,742)
Arbitrage payable	(5,470)
Accrued interest	(297,901)
	<hr/>
Net adjustment to reduce <i>total fund balances – governmental funds</i> to arrive at <i>net assets – governmental activities</i>	<u>\$ (15,986,125)</u>

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

(b) Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-Wide Statement of Activities

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between *total net changes in fund balances – governmental funds* and *changes in net assets of governmental activities* as reported in the accompanying government-wide statement of activities. One element of that reconciliation explains that “Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.” The details of this \$906,009 difference are as follows (in thousands):

Capital related expenditures	\$ 1,241,249
Depreciation expense	(335,224)
Loss on disposal of capital assets	<u>(16)</u>
Net adjustment to increase net changes in <i>total fund balances – governmental funds</i> to arrive at <i>changes in net assets – governmental activities</i>	<u>\$ 906,009</u>

Another element of that reconciliation states that “Proceeds of new debt and repayment of debt principal are reported as other financing sources and uses in the governmental funds, but constitute additions and reductions to liabilities in the statement of net assets.” The details of this \$245,744 difference are as follows (in thousands):

Debt issued or incurred:	
Certificates of participation	\$ (83,345)
Principal repayments:	
General obligation bonds	278,180
Certificates of participation	23,608
Refunding COPs	25,767
Capital leases	1,312
California Energy Commission loan	<u>222</u>
Net adjustment to increase net changes in <i>total fund balances – governmental funds</i> to arrive at <i>changes in net assets – governmental activities</i>	<u>\$ 245,744</u>

(4) Budgetary Appropriation Amendments

During the fiscal year, modifications were necessary to increase appropriations for expenditures and other financing uses for the General Fund by \$360.8 million. The additional expenditure appropriations were funded from higher beginning fund balance and higher other financing sources from interfund transfers in.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

(5) Cash and Investments

Cash and investments as of June 30, 2011 are classified in the accompanying basic financial statements as follows (in thousands):

Statement of net assets:	
Cash and investments	\$ 5,791,401
Cash and investments held by trustee	<u>137,066</u>
Subtotal	5,928,467
Fiduciary funds:	
Cash and investments	<u>40,252</u>
Total cash and investments	<u><u>\$ 5,968,719</u></u>

Cash and investments as of June 30, 2011 consist of the following (in thousands):

Cash on hand (cafeteria change funds)	\$ 6
Deposits with financial institutions and LA County Pool (a)	5,945,878
Investments (b)	<u>22,835</u>
Total cash and investments	<u><u>\$ 5,968,719</u></u>

- (a) Deposits with financial institutions include cash in the Los Angeles County Pooled Surplus Investment Fund (\$5,778,610), cash held by fiscal agents or trustees (\$137,066), and cash deposited with various other financial institutions, including imprest funds in schools and offices (\$30,202).

School districts are required by Education Code Section 41001 to deposit their funds with the county treasury. Cash in county treasury refers to the fair value of the District's share of the Los Angeles County (County) Pooled Surplus Investment (PSI) Fund.

- (b) Sinking funds invested by trustees of COPs (\$22,835).

Except for investments by trustees of COPs proceeds, the authority to invest District funds deposited with the county treasury is delegated to the County Treasurer and Tax Collector. Additional information about the investment policy of the County Treasurer and Tax Collector may be obtained from the web site at <http://ttax.co.la.ca.us/>. The table below identifies some of the investment types permitted in the investment policy:

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

	Authorized Investment Type	Maximum Maturity	Maximum Total Par Value	Maximum Par Value per Issuer

N.	Securities Lending Agreement	180 days	20% of base portfolio value	
O.	Investment of Bond Proceeds in accordance with Gov. Code 53601(m)	None	None	None

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

Debt proceeds held by trustees are governed by provisions of debt agreements. The table below identifies the investment types that are authorized for such funds:

	Authorized Investment Type	Maximum Maturity	Maximum Total Par Value	Maximum Par Value per Issuer
A.	Obligations of the U.S. government, its agencies and instrumentalities.	None	None	None
B.	Commercial Paper (CP) rated "A-1" (S&P) and "P-1" (Moody's)	270 days	None	None
C.	Investment agreements, the provider of which is rated at one of the two highest rating categories	None	None	None
D.	Money market funds	None	None	None

Interest-rate risk is the risk involved with fluctuations of interest rates that may adversely affect the fair value of the investments. The County's investment guidelines target the weighted average maturity of its portfolio to less than 18 months. As of June 30, 2011, 61.89% of district funds in the County PSI Fund does not exceed one year. In addition, variable-rate notes that comprised 1.3% of the County PSI Fund and other investments portfolio are tied to periodic coupon resets eliminating interest-rate risk by repricing back to par value at each reset date.

Credit risk means the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment, as measured by assignment of a rating by a nationally recognized statistical rating organization. This County's investment guidelines establish minimum acceptable credit ratings issued by any two nationally recognized statistical rating organizations. For a short term debt issuer, the rating must be no less than A-1 from Standard & Poor's or P1 from Moody's, while for a long-term debt issuer, the rating must be no less than A from Standard & Poor's or P from Moody's. The County PSI Fund is not rated.

Concentration of credit risk means the risk of loss attributed to the magnitude of an investment in a single issuer. For District funds in the County pool, the County's investment policy states that no more than 5% of total market value of the pooled funds may be invested in securities of any one issuer, except for obligations of the United States government, and its agencies and instrumentalities. In addition, no more than 10% may be invested in one money market mutual fund. As of June 30, 2011, the County did not exceed these limitations.

Custodial credit risk for deposits is the risk that in the event of failure of a depository financial institution, the District will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. Cash in the county treasury is not exposed to custodial credit risk since all county deposits are either covered by federal depository insurance or collateralized with securities held by the County. Deposits other than those with the County are also covered by federal depository insurance or collateralized at the rate of 110% of the deposits, although the collateral may not be held specifically in the District's name.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

(6) Receivables/Payables

Receivables by Fund at June 30, 2011 consist of the following (in thousands):

	General	District Bonds	County School Facilities Bonds	Bond Interest and Redemption	Other Governmental	Internal Service Funds	Total
Taxes	\$ —	\$ —	\$ —	\$ 92,125	\$ —	\$ —	\$ 92,125

Total depreciation expense – governmental activities	<u>\$ 335,224</u>

(8) Retirement, Termination and Other Postemployment Benefit Plans

The District provides a number of benefits to its employees including, retirement, termination, and postemployment health care benefits.

Retirement Plans

Qualified District employees are covered under either multiple-employer defined benefit retirement plans maintained by agencies of the State of California, or a multiple-employer defined contribution retirement benefit plan administered under a Trust. The retirement plans maintained by the State are 1) the California Public Employees' Retirement System (CalPERS), 2) the State Teachers' Retirement System (STRS), and 3) the Public Agency Retirement (PARS) which is administered under a Trust. In general, certificated employees are members of STRS and classified employees are members of CalPERS. Part-time, seasonal, temporary and other employees who are not members of CalPERS or STRS are members of PARS.

(a) California Public Employees' Retirement System (CalPERS)

Plan Description

The District contributes to a cost-sharing multiple-employer plan for Miscellaneous, and an agent multiple-employer plan for Safety, to the Public Employees' Retirement Fund (PERF), defined benefit pension plans administered by CalPERS. The plans provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Fiscal Services Division, P.O. Box 942703, Sacramento, CA 94229-2703, or by calling (888) CalPERS (225-7377).

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

Funding Policy

Active plan members are required to contribute 7% (miscellaneous) or 9% (safety) of their monthly salary and the District is required to contribute based on an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rates for fiscal year 2010-11 were 10.707% for miscellaneous and 29.049% for safety members. The District paid the employee's contribution of 9% for most of the safety members, and certain percentages for employees covered under other collective bargaining units. The contribution requirements of the plan members are established by state statute. The following table shows employer and employee contributions for all members for the fiscal years ended June 30, 2011, 2010, and 2009.

Schedule of Employer Contributions:

	2011		2010	2009
	Safety	Miscellaneous	Safety and Miscellaneous	Safety and Miscellaneous
District contributions:				
Regular	\$ 7,181,763	\$ 105,689,441	\$ 113,584,467	\$ 114,068,905
Annual Savings Recapture – AB 702 Credits	(3,970,773)	13,742,500	19,356,571	24,377,960
Total district contributions	3,210,990	119,431,941	132,941,038	138,446,865
Employee contributions:				
Paid by Employees	379,601	52,040,481	53,932,089	56,282,794
Paid by District	1,940,174	18,025,840	23,040,331	25,176,871
Total employee contributions	2,319,775	70,066,321	76,972,420	81,459,665
Total CalPERS contributions	\$ 5,530,765	\$ 189,498,262	\$ 209,913,458	\$ 219,906,530
Percentage of required contributions made	100%	100%	100%	100%

The District's contributions for all members for the fiscal years ended June 30, 2011, 2010, and 2009 were in accordance with the required contribution rates calculated by the CalPERS actuary for each year. Therefore, annual pension costs for these years were equal to the annual required contributions. There was no net pension obligation for the years ended June 30, 2011, 2010, and 2009.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

A summary of principal assumptions and methods used to determine the ARC for the Safety plan is shown below:

Valuation Date	June 30, 2008
Actuarial Cost Method	Entry Age Normal Cost Method
Amortization Method	Level Percent of Payroll
Average Remaining Period	32 Years as of the Valuation Date
Asset Valuation Method	15 Year Smoothed Market
Actuarial Assumptions	
Investment Rate Return	7.75 % (net of administrative expenses)
Projected Salary Increases	3.25% to 13.15% depending on Age, Service, and type of employment
Inflation	3.00%
Payroll Growth	3.25%
Individual Salary Growth	A merit scale varying by duration of employment coupled with an assumed annual inflation growth of 3.00 % and an annual production growth of 0.25%

Initial unfunded liabilities are amortized over a closed period that depends on the plan's date of entry into CalPERS. Subsequent plan amendments are amortized as a level percentage of pay over a closed 20-year period. Gains and losses that occur in the operation of the plan are amortized over a 30 year rolling period, which results in an amortization of about 6% of unamortized gains and losses each year. If the plan's accrued liability exceeds the actuarial value of plan assets, then the amortization payment on the total unfunded liability may not be lower than the payment calculated over a 30 year amortization period.

Schedule of Funding Progress – Safety

As of June 30, 2010, the most recent actuarial valuation date, the actuarial value of plan assets was \$201,793,549 and the actuarial accrued liability for benefits was \$249,235,744. The unfunded actuarial liability was \$47,442,195. The actuarial value of assets as a percentage of the actuarial accrued liability was 81.0% (funded ratio). The covered payroll (annual payroll of active employees covered by the plan) was \$23,550,230, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 201.5%.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The Schedule of Funding Progress presented as Required Supplementary Information on page 68 following the Notes to the Basic Financial Statements, presents multiyear trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial liability of the benefits.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

(b) *California State Teachers' Retirement System (STRS)*

Plan Description

The District contributes to the STRS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan and a tax-deferred supplemental program established and administered by the State Teachers' Retirement Law (Section 22000 et seq.) of the California Education Code. The Teachers' Retirement Fund (TRF) is a defined benefit pension plan under the STRS. At June 30, 2010, there were 1,604 contributing employers (charter schools, school districts, community college districts, county offices of education and regional occupational programs). The State of California is a nonemployer contributor to the TRF.

The Plan provides defined retirement benefits based on members' final compensation, age, and years of credited service. In addition, the retirement program provides benefits to members upon disability and to survivors upon the death of eligible members. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. STRS issues a separate comprehensive annual financial report that includes a ten-year trend information showing the progress in accumulating sufficient assets to pay benefits when due. Copies of the STRS annual financial report may be obtained from California State Teachers' Retirement System, P.O. Box 15275, Sacramento, CA 95851-0275.

Funding Policy

Active plan members are required to contribute 8% of their salary (6% to the Defined Benefit (DB) Program and 2% to the Defined Benefit Supplement (DBS) Program). The District is required to contribute based on an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the STRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2010-11 was 8.25% of annual payroll. The contribution requirements of the plan members are established by State statute. Required contributions to STRS for fiscal years ended June 30, 2011, 2010, and 2009 are as follows:

	Percentage of applicable member earnings	2011	2010	2009
District contributions	8.25%	\$ 236,729,522	\$ 233,091,634	\$ 270,178,492
Employee contributions (including adjustments)	8.00%	233,207,320	239,430,919	278,131,825
Total STRS contributions	16.25%	\$ 469,936,842	\$ 472,522,553	\$ 548,310,317
Percentage of required contributions made		100%	100%	100%

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

The District's contributions for all members for the fiscal years ended June 30, 2011, 2010, and 2009 were in accordance with the required contribution rates calculated by the STRS actuary for each year.

Beginning July 1, 2003, the State's contribution to the system is 2.017% of the previous calendar year's teachers' payroll. Subsequent to achieving a fully funded System, the State expects to contribute only the amount necessary to help fund the normal cost of the current benefit program unless a subsequent unfunded obligation occurs.

(c) *Public Agency Retirement System (PARS)*

Plan Description

The Omnibus Budget Reconciliation Act of 1990 requires state and local public agencies to provide a retirement plan for all employees not covered under existing employer pension plans and/or Social Security. These employees are primarily part-time, seasonal, and temporary employees (PSTs). This Act also requires that contributions for PSTs be vested immediately and permits any split of the minimum contributions between employee and employer.

On July 1, 1992, the District joined the PARS, a multiple-employer retirement trust established by a coalition of public employers. The plan covers the District's part-time, seasonal, temporary, and other employees not covered under CalPERS or STRS, but whose salaries would otherwise be subject to Social Security tax. Benefit provisions and other requirements are established by District management based on agreements with various bargaining units. PARS is a defined contribution qualified retirement plan under Section 401 (a) of the Internal Revenue Code.

Funding Policy

The minimum total contribution is 7.5% of employees' salaries, of which the District and the employees contribute 3.75% each. The District paid the employee's contribution for certain collective bargaining units. Employees are vested 100% in both employer and employee contributions from the date of membership. When separated from employment, all employees can choose to receive their funds in lump sum or leave it on deposit until the mandatory age of 70 ½ when they must get a distribution.

District employees covered under PARS total 51,539 as of June 30, 2011. District and employee contributions to the plan for the last three fiscal years are as follows: 2010-11 - \$10,486,286, 2009-10 - \$11,476,230, and 2008-09 - \$10,191,238.

The District's contributions for all members for the fiscal years ended June 30, 2011, 2010, and 2009 were in accordance with the required contributions.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

Termination Benefits

To lessen the impact of anticipated reductions in work force, the District offered early retirement incentive programs in fiscal years 2008-09, 2009-10, and 2010-11 to certificated and classified employees. The retirement incentive was equal to 40% of basic salary in effect on February 24, 2009 for certificated employees, May 1, 2009 for school-based classified employees, and September 8, 2009 for central office classified employees. The basic benefit is paid in the form of an annuity with lifetime monthly payment options or fixed term monthly payments ranging from 5 to 15 years. It was purchased from Pacific Life Insurance Company and is administered by the Public Agency Retirement System (PARS). The benefits are to be funded in five (5) annual District contributions starting in 2009-10. After discounting the expected future payments to their present value, the total cost of this early retirement incentive is \$63.6 million.

The District also purchased 2 years of additional service credits for certain organizational unit or division identified employees covered by the California Public Employees' Retirement System (CalPERS). The cost of this incentive is estimated at \$3.6 million.

Postemployment Benefits – Health and Welfare for Retirees

Plan Description

The District administers a single-employer defined benefit healthcare plan. The plan provides other post-employment (health care) benefits, in accordance with collective bargaining unit agreements and Board rules. Certificated and classified employees who retire from the District receiving a STRS/CalPERS retirement allowance (for either age or disability) are eligible to continue coverage under the District-paid hospital/medical, dental and vision plans which cover both active and retired members. The following are the eligibility requirements:

- a. Those hired prior to March 11, 1984 must have served a minimum of five consecutive qualifying years immediately prior to retirement;
- b. Those hired from March 11, 1984 through June 30, 1987 must have served a minimum of ten consecutive qualifying years immediately prior to retirement;
- c. Those hired from July 1, 1987 through May 31, 1992 must have served a minimum of 15 consecutive qualifying years immediately prior to retirement, or served ten consecutive qualifying years immediately prior to retirement plus an additional previous ten years which are not consecutive.
- d. Those hired from June 1, 1992 through February 28, 2007 must have at least 80 years combined total of consecutive qualifying service and age.
- e. Those hired from March 1, 2007 through March 31, 2009 must have at least 80 years combined total of consecutive qualifying service and age. In addition, the employee must have 15 consecutive years of qualifying service immediately prior to retirement.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

- f. Those hired on or after April 1, 2009 must have at least 85 years combined total of consecutive qualifying service and age. In addition, the employee must have a minimum of 25 consecutive years of qualifying service immediately prior to retirement.
- g. School Police (sworn personnel) hired on or after April 1, 2009 must have at least 80 years combined total of consecutive qualifying service and age. In addition, the employee must have a minimum of 20 consecutive years of qualifying service immediately prior to retirement.

In order to maintain coverage, the retirees must continue to receive a STRS/CalPERS retirement allowance and must enroll in those parts of Medicare for which they are eligible. As of July 1, 2011, approximately 37,000 retirees now meet these eligibility requirements. The plan does not issue a separate financial report.

Funding Policy

The District's contribution obligation for the fiscal year for the health and welfare benefits of District personnel, including the cost of term life insurance coverage and employee assistance for active employees and coverage under health plans for dependents and retirees, generally is subject to an aggregate contribution limit. Determination of this fiscal year contribution obligation limit occurs through discussions with the relevant collective bargaining units and recommendation by the District-wide Health and Welfare Committee, and is subject to approval by the Board of Education.

For fiscal year 2011, the District contributed \$240,099,820 to the plan for the cost of total District expenditures for health and medical benefits for retired employees. These expenditures consist of retirees' current-year insurance premiums already paid to the Health Maintenance Organizations, retirees' claims reported to the District but not yet paid, and an estimate for claims incurred but not yet reported to the District.

Healthcare Reform Act

The Patient Protection and Affordable Care Act, and the Health Care and Education Reconciliation Act of 2010, collectively referred to as "the Health Care Reform Act of 2010" was signed into law in March 2010. This Act imposes a 40% excise tax on employers that carry "Cadillac healthcare plans" beginning in 2018. The tax is applied to the amount of premium in excess of stated single (\$10,200) and family (\$27,500) thresholds. As the June 30, 2009 actuarial valuation came out before the enactment of the new law, the District's actuary estimated the impact of the excise tax using the assumptions and calculations from that valuation. Amounts provided in the ensuing paragraphs include the effects of the new legislation.

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the plan (in thousands). It reflects an additional \$43.9 million of excise tax in the ARC, in accordance with the Healthcare Reform Act of 2010 described above.

Annual required contribution	\$ 1,050,646
Interest on net OPEB obligation	119,691
Adjustment to annual required contribution	(148,306)
Annual OPEB cost (expense)	<u>1,022,031</u>
Contributions made	<u>(240,100)</u>
Increase in net OPEB obligation	781,931
Net OPEB obligation – beginning of year	<u>2,393,811</u>
Net OPEB obligation – end of year	<u><u>\$ 3,175,742</u></u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal years 2011, 2010, and 2009 were as follows (in thousands):

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2011	\$ 1,022,031	23 %	\$ 3,175,742
6/30/2010	977,150	24	2,393,811
6/30/2009	1,088,523	25	1,653,926

Funded Status and Funding Progress

As of June 30, 2009, the most recent actuarial valuation date, updated for the effects of new legislation, the plan was substantially unfunded. The actuarial accrued liability for benefits was \$10.3 billion, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$10.3 billion, of which \$0.4 billion is attributable to the new excise tax on "Cadillac healthcare plans". The covered payroll (annual payroll of active employees covered by the plan) was \$4.6 billion, and the ratio of the UAAL to the covered payroll was 223%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about the future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents information for the most recent actuarial valuation and in

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

future years, multi-year trend information about whether the actuarial value of plan assets, if any, is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs, as applicable, between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, if any, consistent with the long-term perspective of the calculations.

In the June 30, 2009 actuarial valuation, the actuarial method used in estimating the liability is the entry age normal, level dollar, open cost method which is based on the assumption that the Actuarial Present Value (APV) of employees' expected postretirement benefits accrue on a level basis over their expected working careers, from hire until the date of full eligibility for postretirement medical benefits. The significant assumptions used in the computation include a 5% discount rate and a healthcare cost trend of 9.25% for Kaiser/HealthNet and 9% for Anthem HMO/EPO in 2010, ultimately declining to 5% in 2019 and 2018 respectively and remaining at that level thereafter. A healthcare cost trend rate of 5% is assumed for dental and vision. The UAAL is being amortized as a level dollar closed of projected payroll over a 30-year period. The remaining amortization period at June 30, 2011 was twenty-eight years.

(9) Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; job-related illness or injury to employees; and natural disasters. The District has established several self-insurance funds (Internal Service Funds) as follows: the Workers' Compensation Self-Insurance Fund, the Liability Self-Insurance Fund, and the Health and Welfare Benefits Fund. These funds account for the uninsured risk of loss and pay for insurance premiums, management fees, and related expenses. The District is self-insured for its Workers' Compensation Insurance Program and partially self-insured for the Health and Welfare and Liability Insurance Programs. Premium payments to Health Maintenance Organizations for medical benefits and to outside carriers for vision services, dental services, and optional life insurance are paid out of the Health and Welfare Benefits Fund.

Excess insurance has been purchased for fire loss damages, which currently provides \$1 billion coverage above a \$500,000 self-insurance retention and for general liability, which currently provides \$45 million coverage above a \$5 million self-insurance retention. No settlements exceeded insurance coverage in the last four fiscal years ended June 30, 2011.

The District has implemented an Owner Controlled Insurance Program (OCIP) covering new construction and renovation projects funded by school bonds. Under an OCIP, the District provides general liability and workers' compensation insurance coverage for construction contractors. Because contractors remove insurance costs from their bids, potential savings accrue to the District. Under the District's OCIP program, workers' compensation coverage with statutory limits and primary general liability and excess liability coverage with limits of \$100 million have been underwritten by three major insurance carriers.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

The District has also purchased pollution liability insurance coverage for the construction program. Two policies protect contractors and the District from losses resulting from pollution liability related incidents occurring during construction. One policy provides optional coverage to ensure that site cleanup cost overruns are not borne by the District. The limits of coverage on the cleanup cost-cap policy are variable by specific project. The total limit available on the other policies is \$50 million.

Liabilities for loss and loss adjustment expenses under school operations workers' compensation and general liability are based on the estimated present value of the ultimate cost of settling the claims including the accumulation of estimates for losses reported prior to the balance sheet date, estimates of losses incurred but not reported, and estimates of expenses for investigating and adjusting reported and unreported losses. Such liabilities are estimates of the future expected settlements and are based upon analysis of historical patterns of the number of incurred claims and their values. Individual reserves are continuously monitored and reviewed and as settlements are made, or reserves adjusted, differences are reflected in current operations.

As of June 30, 2011, the amount of the total claims liabilities recorded for health and welfare, liability self-insurance, and workers' compensation was \$503.3 million. During the fiscal year, the District recorded workers' compensation claims liability at reduced levels as a result of a continued decline in the number of new claims filed and the effective management of claims. In the current fiscal year, there were no large claim payments from the Liability Self-Insurance Fund, causing the estimated liability to be lower. Changes in the reported liabilities since July 1, 2009 are summarized as follows:

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	End of Fiscal Year Liability
2010-2011				
Health and welfare benefits	\$ 37,827,000	\$ 231,338,688	\$ (231,401,688)	\$ 37,764,000
Workers' compensation	452,398,503	66,514,174	(88,072,949)	430,839,728

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

(10) Certificates of Participation, Long-Term Capital Leases, and Operating Leases

The District has entered into Certificates of Participation (COPs) for the acquisition of school sites, relocatable classroom buildings, a new administration building, furniture and equipment, and for various other construction projects as follows:

On May 23, 2000, the District issued COPs 2000 Series A (Qualified Zone Academy Bonds Project) in the amount of \$30,446,700, a first-of-its-kind bond under a federal program that offers investors tax credits rather than interest payments. Of this amount, \$3,800,000 was issued on behalf of Fenton Avenue Charter School and \$3,800,000 for Vaughn Next Century Learning Center. Scheduled payments to a sinking fund are to be made annually through maturity in 2012. The proceeds from the issuance are to pay for the rehabilitation or repair of facilities and the acquisition and installation of equipment at School to Career Academy Programs school sites and at the two charter schools. This issue was partially refunded by COPs 2004 Series B in July 2004. A portion of this issue is being repaid from Measure Y funds.

On November 6, 2001, the District issued COPs 2001 Series B (Administration Building Project I) in the amount of \$68,890,000. Interest is paid semiannually at 5.00%. Principal payments are due annually beginning 2024 through 2031. The proceeds are to pay for improvements at the District's new administration building. This issue was partially refunded by COPs 2004 Series A in July 2004.

On December 19, 2002, the District issued COPs 2002 Series C (Administration Building Project II) in the amount of \$9,490,000. Interest is payable semiannually ranging from 2.00% to 5.00%. Principal payments are due annually through 2031. The proceeds are to fund tenant improvements and Heating, Ventilation and Air Conditioning (HVAC) upgrades for the 12th floor and painting and lighting upgrades of the garage of the Administration Building. This issue was partially refunded by COPs 2004 Series A in July 2004.

On June 26, 2003, the District issued COPs 2003 Series B (Capital Project I) in the amount of \$31,620,000. Interest is payable semiannually ranging from 2.00% to 5.00%. Principal payments are due annually through 2028. The proceeds are used to purchase and equip a turn-key warehouse in the City of Pico Rivera. This issue was partially refunded by COPs 2004 Series A in July 2004.

On July 28, 2004, the District issued COPs 2004 Series A (Refinancing and Refunding Project I) in the amount of \$50,700,000. Interest is payable semiannually ranging from 3.00% to 5.00%. Principal payments are due annually through 2014. Proceeds are to refinance certain prior debt service payments and to refund portions of the District COPs. This advance refunding was undertaken to reduce General Fund debt service payments in fiscal years 2004-05 and 2005-06 by \$45.0 million with an increase to total debt service payments of \$17.8 million over the next ten years. This issue was partially refunded by Measure Y Series D Bonds in February 2006.

On December 13, 2005, the District issued COPs 2005 (2004-05 Qualified Zone Academy Bonds) in the amount of \$10,000,000. The zero interest tax credit bonds are used for modernizing nine schools to accommodate existing or planned academy programs that address student career pathway/higher education interests. Scheduled payments to a sinking fund are to be made annually through maturity in 2020. A portion of this issue is being repaid from Measure Y funds.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

On November 15, 2007, the District issued COPs 2007 Series A (Information Technology Projects) in the amount of \$99,660,000. Interest is payable semiannually ranging from 4.00% to 5.00%. Principal payments are due annually through 2017. The proceeds are used to finance acquisition, development and installation of the information technology systems of the District. A portion of this issue is being repaid from Measure Y funds.

On August 6, 2008, the District issued variable rate refunding COPs 2008 Series A (Administration Building Project) in the amount of \$97,530,000. Interest is payable monthly and has ranged from 0.05% to 7.30% over the life of the COPs. The interest rate on June 30, 2011 was 0.05%. Principal payments are due annually through 2024. The proceeds are to prepay all of the outstanding Series 2005A Certificates, fund a reserve account for the Series 2008A Certificates, and fund portions of reserve accounts for the 2001B and 2002C Certificates.

On August 6, 2008, the District issued variable rate refunding COPs 2008 Series B (Administration Building Project III) in the amount of \$23,420,000. Interest is payable monthly and has ranged from 0.05% to 8.00% over the life of the COPs. The interest rate on June 30, 2011 was 0.05%. Principal payments are due annually through 2031. The proceeds are to prepay all of the outstanding Series 2005B Certificates, fund a reserve account for the Series 2008B Certificates, and fund portions of reserve accounts for the 2001B and 2002C Certificates. The 2008 Series A and the 2008 Series B refunding resulted in a reduction of debt service payment of about \$10.7 million over 23 years and an economic gain of \$11.8 million.

On September 29, 2009, the District issued COPs 2009 Series A (Food Services Project) in the amount of \$40,728,200. Interest is payable semiannually at 3.92%. Principal payments are due semiannually through 2019. The proceeds are used to fund the implementation of the Cafeteria Management System (CMS) and the purchase of new equipment at the Newman Nutrition Center (NNC). A portion of this issue is being repaid from Measure Y funds.

On January 27, 2010, the District issued Refunding COPs 2010 Series A (Multiple Properties Project) in the amount of \$69,685,000. Interest is payable semiannually ranging from 1.00% to 5.00%. Principal payments are due annually through 2017. The proceeds are used to refinance the 1997 Series A Certificates and the 1998 Series A Certificates and to fund a reserve account for the Series 2010A Certificates. The refunding resulted in a reduction of debt service payments of \$1.2 million over 8 years and an economic gain of \$0.8 million.

On December 17, 2010, the District issued COPs 2010 Series B-1 and B-2 (Capital Projects I) in the amount of \$83,345,000. Of this amount, \$21.62 million were issued as Build America Bonds (BABs). These are taxable bonds for which the federal government subsidizes 35% of the interest cost. Interest is payable semiannually ranging from 7.663% to 8.525% before the federal subsidy for Series B-1 and from 3.000% to 5.75% for Series B-2. Principal payments are due annually through 2035 for Series B-1 and 2020 for Series B-2. The proceeds are used to fund the Integrated Financial System Replacement, Automation of Seniority Calculation, the utilization of vacant space at the Roybal Learning Center and to fund a reserve account for each series.

In prior years, the District defeased certain principal amounts of its certificates of participation by placing proceeds of general obligation bonds in an irrevocable escrow fund to provide for all future debt service

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

payments on the prior certificates of participation through the call date or maturity, as applicable. Accordingly, the escrow account assets and the liability for the defeased certificates of participation are not included in the District's financial statements. At June 30, 2011, \$88.01 million of outstanding certificates of participation are considered legally defeased.

In prior years, the District defeased certain sinking fund payments for its 2000 Certificates of Participation (Qualified Zone Academy Bonds) and its 2005 Certificates of Participation (Qualified Zone Academy Bonds) by placing general fund monies, payments from charter schools that received proceeds of the 2000 Certificates of Participation (Qualified Zone Academy Bonds), proceeds of general obligation bonds and interest earnings on all said deposits into the respective sinking fund accounts held by the respective trustees to provide for the payment of the 2000 Certificates of Participation (Qualified Zone Academy Bonds) and the 2005 Certificates of Participation (Qualified Zone Academy Bonds) at maturity. While the District's financial statements indicate that the full principal amount of each of the 2000 Certificates of Participation (Qualified Zone Academy Bonds) and the 2005 Certificates of Participation (Qualified Zone Academy Bonds) are outstanding as of June 30, 2011, a total of \$31.19 million of accumulated sinking fund payments have been made, which amount reflects the portion of the respective certificates of participation that are considered economically defeased.

Other Leasing Arrangements

The District has entered into various lease agreements ranging from three to five years to finance the acquisition of office equipment. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. The future minimum lease payments (principal plus interest) and the net present value of these minimum lease payments (principal only) are detailed in Note 11 – Long-Term Obligations.

The District's operating leases consist of various leased facilities and office equipment (primarily copiers). The leased facilities have varying terms ranging from less than a year to 80 years. Some leases are month to month and a few are year to year. The leases expire over the next 72 years subject to renewal option provisions.

The office equipment lease (primarily copiers) is also under various lease terms that range from less than a year to 5 years. The leases expire during the next 4 years.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

The total expenditure for all operating leases amounted to \$21,881,046 in 2010-11. The future minimum commitments for noncancelable operating lease of the District as of June 30, 2011 are as follows (in thousands):

The General Obligation Bonds balance of \$11,810.9 million, which includes unamortized bond premiums (net of unamortized discount and refunding charges) of \$214.6 million, consists of:

(a) Six issuances of Proposition BB bonds:

1. Series “A” bonds, sold in July 1997 at \$356.00 million par value, of which \$18.53 million and \$133.18 million were refunded in December 2004 and July 2005, respectively. Interest is due semi-annually at rates ranging from 4.0% to 6.0%. These bonds mature in 2015. As of June 30, 2011, outstanding obligation was \$77.89 million;
2. Series “E” bonds, sold in April 2002 at \$500.00 million par value, of which \$75.77 million, \$231.22 million, \$25.80 million, \$15.26 million, and \$19.79 million were refunded in December 2004, November 2006, February 2007, October 2009, and March 2010, respectively. Interest is due semi-annually at rates ranging from 3.0% to 5.5%. These bonds mature in 2012. As of June 30, 2011, outstanding obligation was \$30.61 million; and
3. Series “F” bonds, sold in March 2003 at \$507.35 million par value of which \$129.51 million and \$23.81 million were refunded in January 2007 and October 2009. Interest is due semi-annually at rates ranging from 2.0% to 5%. These bonds mature in 2024. As of June 30, 2011, outstanding obligation was \$267.47 million.

(b) Seven issuances of Measure K bonds:

1. Series “A” bonds, sold in February 2003 at \$2.10 billion par value, of which \$131.94 million, \$330.15 million, \$1.12 billion, and \$53.06 million were refunded in February 2006, October 2006, January 2007, and March 2010, respectively. Interest is due semi-annually at rates ranging from 1.65% to 5.375%. These bonds mature in 2028. As of June 30, 2011, outstanding obligation was \$388.44 million;

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

2. Series “B” bonds, sold in February 2007 at \$500.00 million par value. Interest is due semi-annually at rates ranging from 4.0% to 5.0%. These bonds mature in 2031. As of June 30, 2011, outstanding obligation was \$462.61 million;
3. Series “C” bonds, sold in August 2007 at \$150.00 million par value. Interest is due semi-annually at rates ranging from 3.625% to 5.0%. These bonds mature in 2032. As of June 30, 2011, outstanding obligation was \$138.54 million;
4. Series “D” bonds, sold in February 2009 at \$250.00 million par value. Interest is due semi-annually at rates ranging from 2.5% to 5.25%. These bonds mature in 2034. As of June 30, 2011, outstanding obligation was \$240.89 million;
5. Series “KRY” Federally Taxable, sold in October 2009 at \$200.00 million par value. Interest is due semi-annually at rates ranging from 5.75% to 5.755%. These bonds mature in 2034. No payment was due as of June 30, 2011;
6. Series “KRY” Tax Exempt, sold in March 2010 at \$149.14 million par value. Interest is due semi-annually at rates ranging from 1.5% to 5.25%. These bonds mature in 2034. As of June 30, 2011, outstanding obligation was \$145.25 million; and
7. Series “KY” bonds, sold in May 2010 at \$0.86 million par value. Interest is due semi-annually at 5.0%. These bonds mature in 2015. No payment was due as of June 30, 2011.

(c) Eleven issuances of Measure R bonds:

1. Series “C” bonds, sold in September 2004 at \$50.0 million par value. Interest is due semi-annually at rates ranging from 3.60% to 5.0%. These bonds mature in 2029. As of June 30, 2011, outstanding obligation was \$41.84 million;
2. Series “E” bonds, sold in August 2005 at \$400.0 million par value. Interest is due semi-annually at rates ranging from 3.0% to 5.75%. These bonds mature in 2030. As of June 30, 2011, outstanding obligation was \$329.68 million;
3. Series “F”, sold in February 2006 at \$500.0 million par value. Interest is due semi-annually at rates ranging from 3.5% to 5.0%. These bonds mature in 2030. As of June 30, 2011, outstanding obligation for Series “F” was \$449.88 million;
4. Series “G” bonds, sold in August 2006 at \$400.00 million par value, was refunded in October 2009 for \$6.27 million. Interest is due semi-annually at rates ranging from 4.0% to 5.0%. These bonds mature in 2031. As of June 30, 2011, outstanding obligation for Series “G” was \$344.18 million;
5. Series “H” bonds, sold in August 2007 at \$550.00 million par value. This was refunded in October 2009 for \$15.17 million. Interest is due semi-annually at rates ranging from 3.75% to 5.0%. These bonds mature in 2032. As of June 30, 2011, outstanding obligation was \$490.03 million;

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

6. Series “I” bonds, sold in February 2009 at \$550.00 million par value. Interest is due semi-annually at rates ranging from 2.5% to 5.25%. These bonds mature in 2034. As of June 30, 2011, outstanding obligation was \$531.25 million;
7. Series “KRY” Tax Exempt, sold in October 2009 at \$36.99 million par value and Taxable Build America bonds for \$363.01 million par value. Interest is due semi-annually at rates ranging from 3% to 5.755%. These bonds mature in 2034. No payment was due as of June 30, 2011; and
8. Series “KRY” Tax Exempt and Series “RY” Federally Taxable Build America bonds, sold in March 2010 at \$157.17 million par value and \$477.63 million par value, respectively. Interest is due semi-annually at rates ranging from 1.5% to 6.758%. These bonds mature in 2034. No payment was due as of June 30, 2011.

(d) Ten issuances of Measure Y bonds:

1. Four issuances of Measure Y bonds sold in February 2006: Series “A” bonds at \$56.79 million par value, Series “B” bonds at \$80.20 million par value, Series “C” bonds at \$210.00 million par value and Series “D” bonds at \$47.40 million par value, all of which, except for Series C and \$5.70 million of Series D, were used to partially or fully refund certain certificates of participation. Interest is due semi-annually at rates ranging from 3.125% to 6.0%. These bonds mature in 2030. As of June 30, 2011, outstanding obligations for Series “A”, Series “B”, Series “C”, and Series “D” were \$31.15 million, \$43.81 million, \$186.23 million, and \$28.91 million, respectively;
2. Series “E”, sold in August 2007 for \$300.00 million par value. Interest is due semi-annually at rates ranging from 4.0% to 5.0%. These bonds mature in 2032. As of June 30, 2011, outstanding obligation was \$278.34 million after payment of \$6.93 million on July 1, 2010;
3. Series “F”, sold in February 2009 at \$150.00 million par value. Interest is due semi-annually at rates ranging from 2.5% to 5.25%. These bonds mature in 2034. As of June 30, 2011, outstanding obligation was \$144.76 million;
4. Two issuances of Measure Y bonds sold in October 2009: Series “G” at \$5.61 million par value and Series “H” at \$318.80 million par value. Series “KRY” Taxable Build America bonds at \$806.80 million par value and Series “KRY” Tax Exempt at \$168.79 million par value. Interest is due quarterly for Series H and semi-annually for the rest at rates ranging from 1.54% to 5.755%. These bonds mature in 2034. No payment was due as of June 30, 2011;
5. Series “I” Federally Taxable, Series “RY” Federally Taxable Build America, and Series “KRY” Tax Exempt, sold in March 2010 at \$3.80 million par value, \$772.96 million par value, and \$172.27 million par value. Interest is due semi-annually at rates ranging from 1.5% to 6.758%. These bonds mature in 2034. No payment was due as of June 30, 2011 except for

LOS ANGELES UNIFIED SCHOOL DISTRICT

Series “KRY” Measure Y Tax Exempt of which \$41.82 payment was made on July 1, 2010 bringing its outstanding balance to \$130.45 million; and

6. Series “KY” Tax Exempt bonds and Series “J-1” and Series “J-2” Qualified School Construction Federally Taxable Direct Subsidy bonds, sold in May 2010 at \$158.64 million par value, \$190.20 million par value, and \$100.00 million par value, respectively. Interest is due semi-annually at rates ranging from 1.1% to 5.981%. These bonds mature in 2027. No payment was due as of June 30, 2011.

(e) General obligation refunding bonds:

In fiscal year 2010-11, there was no new General Obligation Bond Refundings done. However, the following are the prior year refunding and the outstanding balances:

1. 2002 General Obligation Refunding issued on April 17, 2002 for \$258.38 million. Interest is due semi-annually at rates ranging from 3.0% to 5.75%. These bonds mature in 2017. As of June 30, 2011, outstanding balance was \$244.12 million. The refunding resulted in a reduction of debt service payments of \$12.80 million over 17 years and an economic gain of \$8.0 million;
2. 2004 Series “A-1” and “A-2” sold in December 2004 at \$219.12 million par value. Interest is due semi-annually at rates ranging from 3% to 5.0%. These bonds mature in 2022. As of June 30, 2011, outstanding obligation was \$217.59 million. The refunding resulted in a reduction to debt service payments of \$10.60 million over 18 years and an economic gain of \$7.79 million;
3. 2005 Series “A-1” and “A-2” sold in July 2005 at \$467.68 million par value, 2006 Series “A” sold in February 2006 at \$132.33 million par value, which are still outstanding as of June 30, 2011. Interest is due semi-annually at rates ranging from 3.5% to 5.5%. These bonds mature in 2025. The 2005 Series “A-1” and “A-2” refunding resulted in a reduction to debt service payments of \$38.40 million over 20 years and an economic gain of \$24.16 million. The 2006 Series “A” refunding resulted in a reduction to debt service payments of \$6.35 million over 13 years and an economic gain of \$4.20 million;
4. 2006 Series “B” sold in November 2006 at \$574.91 million par value. Interest is due semi-annually at rates ranging from 3.5% to 5.0%. These bonds mature in 2027. As of June 30, 2011, outstanding obligation was \$559.59 million. The refunding resulted in a reduction to debt service payments of \$29.33 million over 21 years and an economic gain of \$18.97 million;
5. 2007 Series “A-1” and “A-2” sold in January 2007 at \$1.29 billion par value. Interest is due semi-annually at rates ranging from 4.0% to 5.0%. These bonds mature in 2028. As of June 30, 2011, outstanding obligation was \$1.27 billion. The refunding resulted in a reduction to debt service payments of \$82.11 million over 21 years and an economic gain of \$46.23 million;

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

6. 2007 Series "B" sold in February 2007 at \$24.85 million par value, all of which were used to partially refund certain general obligation bonds. Interest is due semi-annually at rates ranging from 4.0% to 5.0%. These bonds mature in 2019. As of June 30, 2011, outstanding obligation was \$24.65 million. The refunding resulted in a reduction to debt service payments of \$1.80 million over 12 years and an economic gain of \$1.20 million;
7. 2009 Refunding Bonds Series "A" sold in October 2009 for \$74.77 million par value. Interest is due semi-annually at rates ranging from 2.0% to 5.0%. These bonds mature in 2019. As of June 30, 2011, the outstanding obligation was \$59.93 million. The refunding resulted in a reduction to debt service payments of \$2.10 million over 9 years and an economic gain of \$1.36 million; and
8. 2010 Refunding Bonds Series "A" sold in March 2010 for \$74.99 million par value. Interest is due semi-annually at rates ranging from 2.0% to 5.0%. These bonds mature in 2015. As of June 30, 2011, outstanding obligation was \$74.08 million. The refunding resulted in a reduction to debt service payments of \$2.43 million over 5 years and an economic gain of \$2.24 million.

In prior years, the District defeased certain principal amounts of its general obligation bonds by placing proceeds of refunding bonds in an irrevocable escrow fund to provide for all future debt service payments on the refunded and defeased bonds. Accordingly, the escrow account assets and the liability for the defeased general obligation bonds are not included in the District's financial statements. At June 30, 2011, \$2.604 billion of outstanding general obligation bonds are considered legally defeased.

The Children Center Facilities revolving loan represents loan proceeds from the State Child Development Revolving Fund for the purchase of relocatable buildings, sites and site improvements for child care facilities. The loan, which does not incur interest charges, must be repaid in ten years. Annual repayment will begin when the full amount of the loan is received.

The California Energy Commission has agreed to provide the District with State funding of up to \$8 million (at a 3.95% annual interest rate) of which \$1.32 million was received in fiscal year 2004-05 and \$0.06 million, in fiscal year 2005-06. The principal and interest will be repaid in its entirety through energy cost avoidance that the District intends to achieve from its energy project. The project involves use of energy efficient equipment, certain building shell components and improved methods of lighting and lighting controls.

The Arbitrage Payable balance reflects amounts due to the United States Treasury in order to comply with Internal Revenue Code Section 148(f). When the District issues tax-exempt debt, IRS regulations limit the yield that the District can earn on the bond proceeds. If the District earns an amount in excess of the bond yield and does not qualify for a spending exception, the District must remit the excess earnings to the US Treasury. Payments equal to 90% of the calculated excess earnings are due on each fifth anniversary of a bond's issuance date. When a bond issue is retired, all of the remaining excess earnings must be remitted.

Year Ended June 30, 2011

Debt Liquidation

Payments on the General Obligation Bonds and Certificates of Participation are made by the debt service funds. The employee benefits liability for retirement bonus and early retirement incentive are all paid out of the General Fund, while the compensated absences portion will be liquidated from different governmental funds. In the past, approximately 81% has been paid by the General Fund, 6% by the Child Development Fund, 6% by the Cafeteria Fund, 5% by the District Bonds Fund, and 2% by the Adult Education Fund.

The self-insurance claims and other postemployment benefits will generally be liquidated through the internal service funds which will finance the payment of those claims and benefits by charging user funds. The General Fund assumes 100% of liability self-insurance claims. For workers' compensation and health benefit claims, including retiree health benefits, the General Fund currently bears approximately 88% of the cost, while the Cafeteria Fund carries 5%; no other individual fund is charged more than 5% of the total amount.

(12) Interfund Transactions

(a) Interfund Receivables/Payables (Due to/from Other Funds)

Interfund receivables/payables are eliminated on the government-wide statement of net assets but are reported on the fund financial statements. These consist of borrowings between funds to cover temporary cash insufficiencies and permit payment of obligations. Interfund receivables and payables at June 30, 2011 (in thousands) are as follows:

<u>Fund Group</u>	<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
General:	Unrestricted	\$ 30,000	\$ —
	Total General	30,000	—
Special Revenue:	Cafeteria	—	12,000
	Child development	—	18,000
	Total Special Revenue	—	30,000
	Total Interfund Receivables/Payables	<u>\$ 30,000</u>	<u>\$ 30,000</u>

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

(b) *Interfund Transfers*

Interfund transfers are eliminated on the government-wide statement of activities but are reported on the fund financial statements. These consist of transfers for exchange of services or reimbursement of expenditures. In addition, interfund transactions are also made to move revenue collected in one fund to another fund where the resources are spent or accounted for, in accordance with budgetary authorization, including amounts provided as matching funds or for debt service. Transfers between funds for the year ended June 30, 2011 were as follows (in thousands):

<u>From</u>	<u>To</u>	<u>Purpose</u>

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

Nonspendable fund balances represent amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted fund balances represent amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed fund balances represent amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitment of funds can be made through the adoption of the budget as long as the intent to commit the funds is specifically stated. These committed amounts cannot be used for any other purpose unless the governing board removes or changes the specific use through formal action. Governing board action to commit fund balance needs to occur within the fiscal reporting period, no later than June 30. The amount which will be committed can be determined subsequently but prior to the release of the District's financial statements.

Assigned fund balances represent amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The District's adopted policy delegates the authority to assign amounts for specific purposes to the Superintendent, or designee.

Unassigned fund balances represent all other spendable amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which amounts in any of the unrestricted classifications of fund balance could be used, the District considers committed amounts to be reduced first, followed by assigned amounts, and then unassigned amounts.

Minimum Fund Balance Policy

Effective beginning 2010-11, the governing board adopted a minimum fund balance policy for the General Fund in order to avoid the need for service level reductions in the event that an economic downturn causes revenues to be substantially lower than budgeted. The policy requires the District to maintain an economic uncertainty reserve consisting of unassigned amounts equal to at least 1% of total General Fund operating expenditures. In the event that the District must expend all or part of this reserve, the District will identify and implement a budgetary plan to replenish this reserve the following year. This reserve may be increased based on legal requirement.

(14) Contingencies

(a) General

The District has been named as a defendant in numerous lawsuits. These seek, among other things, to require the District to reinstate terminated and laid-off employees, to remedy alleged noncompliance regarding special education schools, and to change existing instructional programs, pupil integration methods, and employment and administration procedures. In certain instances, monetary damages are sought including claims for retroactive pay. Based on the opinion of counsel, management

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Basic Financial Statements

Year Ended June 30, 2011

believes that the ultimate outcome of such lawsuits will not have a material effect on the District's financial condition.

(b) Grants

The District has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under the terms of the grants, management believes that any required reimbursement will not be material to the financial statements.

(c) Construction Contracts

The District has entered into various contracts for the construction of facilities throughout the campuses. During fiscal year 2010-11 the District entered into approximately 105 contracts with a combined value of \$303.0 million. The durations of the contracts range from four weeks to three years.

(15) Subsequent Events

On July 1, 2011 the District issued \$550 million of Tax and Revenue Anticipation Notes. The District will make the required deposits of \$275.0 million on January 31, 2012 and \$286.9 million on March 31, 2012 in anticipation of repayment of TRANS on June 30, 2012. The TRANS carried a coupon of 2.00% and had an All-In True Interest Cost of 0.32%.

On November 1, 2011, the District issued \$407,805,000 in General Obligation Refunding Bonds to refund a portion of Proposition BB Series F and Measure K 2003 Series A Bonds. The refunding resulted in \$31.8 million in present value savings or 7.5% of the refunded bonds.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Nonmajor Governmental Funds

Special Revenue Funds

The Adult Education Fund is used to account for resources committed to the operation of Community Adult Schools including educational programs funded by other government agencies. This Fund was established as authorized by State Education Code Section 42238. Revenues are primarily derived from State apportionments, federal subventions, investment income, and adult education fees.

The Cafeteria Fund is used to account for resources designated for the operation of the District's food services programs. Revenues are primarily derived from federal and state subsidies, food sales, and investment income. Since the primary source of revenues is from federal and state subsidies rather than food sales, this fund is classified as a Special Revenue Fund rather than as an Enterprise Fund.

The Child Development Fund is used to account for resources committed to the operation of the District's child development programs. Revenues are primarily derived from federal and state grants and apportionments, early education center fees, and investment income.

The Deferred Maintenance Fund was used to account for resources designated for the major repair or replacement of District property under the plan approved by the State Allocation Board. Revenues were derived from State apportionments, District matching funds, and investment income. However, with the District exercising the State's flexibility provisions, no revenue source restricted or committed to the purposes of the fund is expected to continue. As a result, the fund was closed out at the end of the fiscal year and all remaining balance was transferred to the General Fund.

Debt Service Funds

The Tax Override Fund is used to account for the accumulation of resources from ad valorem tax levies for the repayment of State School Building Aid Fund apportionments. The loan was paid in full in May 2010.

The Capital Services Fund is used to account for the accumulation of resources for the repayment of principal and interest on Certificates of Participation and long-term capital lease agreements. Revenues are derived primarily from operating transfers from user funds and investment income.

Capital Projects Funds

The Building Fund is used to account for revenue from rentals and leases of real property and other resources designated for facility expansion.

The State School Building Lease - Purchase Fund is used to account for State apportionments received in accordance with State Education Code Sections 17700-17780. Projects are funded by the State subject to appropriation of funds in the State Budget. The District may be required to transfer to this fund any available moneys from other funds as the District's contribution to a particular project.

The Special Reserve Fund is used to account for District resources designated for capital outlay purposes such as land purchases, ground improvements, facilities construction and improvements, new acquisitions, and related expenditures.

The Special Reserve Fund – FEMA-Earthquake is used to account for funds received from the Federal Emergency Management Agency (FEMA) for capital outlay projects resulting from the January 17, 1994 Northridge Earthquake.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Nonmajor Governmental Funds

The Special Reserve Fund – FEMA-Hazard Mitigation was established on April 15, 1996 to account for funds received from FEMA and for the 25% District-matching funds for the retrofit/replacement of pendant lighting and suspended ceilings in selected buildings at schools, offices, and children's centers.

The Special Reserve Fund – Community Redevelopment Agency is used to account for reimbursements of tax increment revenues from certain community redevelopment agencies based on agreements between the District and the agencies. These reimbursements are to be used for capital projects within the respective redevelopment areas covered in the agreements.

The Capital Facilities Account Fund was established on January 1, 1987 in accordance with Section 53080 of the California Government Code and is used to account for resources received from fees levied upon new residential, commercial, or industrial development projects within the District's boundaries in order to obtain funds for the construction or acquisition of school facilities to relieve overcrowding.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Internal Service Funds

The Health and Welfare Benefits Fund was established pursuant to Education Code 39602 to pay for claims, administrative costs, insurance premiums, and related expenditures for the District's Health and Welfare Benefits program. Medical and dental claims for the self-insured portion of the Fund are administered by outside claims administrators. Premium payments to health maintenance organizations for medical benefits and to outside carriers for vision services, dental services, and optional life insurance are also paid out of this Fund.

The Workers' Compensation Self-Insurance Fund was established pursuant to Education Code 39602 to pay for claims, excess insurance coverage, administrative costs, and related expenditures. Workers' compensation claims are administered for the District by an outside claims administrator.

The Liability Self-Insurance Fund was established pursuant to Education Code 39602 to pay claims, excess insurance coverage, administrative costs and related expenditures, and to provide funds for insurance deductible amounts. Liability claims are administered for the District by an outside claims administrator.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Fiduciary Funds

Agency Funds:

The Attendance Incentive Reserve Fund was established on November 21, 1994 to account for 50% of the salary savings from substitute teachers' accounts resulting from reduced costs of absenteeism of UTLA represented employees. The intent was to reward regular attendance of teachers in order to improve the instructional program. The accumulated savings in the account plus interest earnings is disbursed in a lump-sum distribution as participants retire or terminate employment with the District.

The Student Body Fund was established to account for cash held by the District on behalf of the student bodies at various school sites.

STATISTICAL SECTION

[THIS PAGE INTENTIONALLY LEFT BLANK]

LOS ANGELES UNIFIED SCHOOL DISTRICT

Statistical Information

The Statistical Section of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the District's overall financial health.

Contents

Financial trends

These schedules contain information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue capacity

These schedules contain information to help the reader assess the District's most significant local revenue sources.

Debt capacity

These schedules contain information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and economic information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and activities it performs.

Source: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented GASB Statement No. 34 in 2002; schedules presenting government-wide information include information beginning in that year.

Notes:

- ⁽¹⁾ "Other Outgo" includes Tuition for Handicapped Pupils, discount on debt issuance, and payments to refunded debt escrow agent. From fiscal year 2003-04 to fiscal year 2006-07, Charter Schools In-lieu of Taxes was included in total expenditures under object 7280 as Other transfers out. Starting with fiscal year 2007-08, this is presented as reduction of the revenues, like it was presented prior to 2003-04.

See accompanying independent auditor's report.

*** Adjusted to exclude fiscally independent charter schools

**** Adult and Summer School programs were not collected due to changes made by Education Code Section 42605.

For 2008-09 through 2012-13, Districts are not required to operate the program or follow program requirements. Revenue for these years will be based on the same relative proportion that the District received for these programs in fiscal year 2007-08.

See accompanying independent auditor's report.

LOS ANGELES UNIFIED SCHOOL DISTRICT
Revenue Limit Per Unit of Average Daily Attendance
Last Ten Fiscal Years
(Unaudited)

Fiscal Year	K-12 Base Revenue Limit (Deficited)	Adult Base Revenue Limit
2001-2002	\$ 4,654.13	\$ 2,196.82
2002-2003	4,747.13	2,242.12
2003-2004	4,689.97	2,242.12
2004-2005	4,862.18	2,292.26
2005-2006	5,133.46	2,389.22
2006-2007	5,544.56	2,530.66
2007-2008	5,796.56	2,645.30 ^a
2008-2009	5,645.07	N/A ^b
2009-2010	4,962.13 ^c	N/A ^b
2010-2011	5,264.22 ^d	N/A ^b

^a Beginning with fiscal year 2007-08, the principal apportionment for Adult is no longer a revenue limit item. It was determined by the State to be more appropriately classified as other state apportionments.

^b Per SBX3 4 (Chapter 12, Statutes of 2009), funding for fiscal years 2008-09 through 2012-13 (extended through 2014-15 by SB70, SB70, Chapter 7, Statutes of 2011) is based on the District's 2007-08 proportionate share of funding to the State's total available funding for the program. CDE will revert back to the usual funding formula for this program in fiscal year 2015-16.

^c This rate is net of the additional revenue limit reduction of \$252.99 per 2008-09 funded revenue limit ADA.

^d Per Assembly Bill 851, beginning 2010-11, the base revenue limit rate per ADA includes the Beginning Teachers Salary and Meals for Needy.

See accompanying independent auditor's report.

⁽¹⁾ The 2001-02 COPs proceeds were used to acquire and improve real properties, including the new Administration Building and the former Ambassador Hotel site, and the refunding of the 1991 COPs that refunded the 1988 COPS for the Bravo Medical Magnet Senior High School Project. The 2002-03 COPs proceeds were used for information technology systems, warehouse acquisition, administration building improvements and multiple school projects such as: air-conditioning, relocatable classrooms, gymnasium improvements, computer and telephone equipment, school police vehicles, sports and parking facilities, school museum and other projects. The 2004-05 COPs proceeds were used to refund a portion of prior year issuances and make administration building improvements. The 2005-06 COPs proceeds were used to modernize nine schools to accommodate existing or planned academy programs that address student career pathway/higher education interests. The 2007-08 COPs proceeds were used to finance certain acquisition, development and installation of information technology systems of the District.

See accompanying independent auditors' report.

⁽²⁾ “Other outgo” includes Tuition for Handicapped Pupils. From fiscal year 2003-04 to fiscal year 2006-07, Charter Schools In-lieu of Taxes was included in total expenditures under object 7280 as Other transfers out. Starting with fiscal year 2007-08 this is presented as reduction of the revenues, like it was presented prior to 2003-04.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Organization Structure

Year Ended June 30, 2011

Geographical Location: The Los Angeles Unified School District is a political subdivision of the State of California. It is located in the western section of Los Angeles County and includes virtually all the city of Los Angeles and all or significant portions of the cities of Bell, Carson, Commerce, Cudahy, Gardena, Hawthorne, Huntington Park, Lomita, Maywood, Rancho Palos Verdes, San Fernando, South Gate, Vernon, and West Hollywood, in addition to considerable unincorporated territories devoted to homes and industry.

Geographical Area: 710 square miles

Administrative Offices: 333 South Beaudry Avenue, Los Angeles, CA 90017

Form of Government: The District is governed by a seven-member Board of Education elected by district to serve alternating four-year terms

Name	Expiration of Term
Mónica García, President	June 30, 2013
Marguerite Poindexter LaMotte	June 30, 2015
Tamar Galatzan	June 30, 2015
Steve Zimmer	June 30, 2013
Bennett Kayser	June 30, 2015
Nury Martinez	June 30, 2013
Richard Vladovic	June 30, 2015

Name	Title
John Deasy	Superintendent of Schools (Effective April 18, 2011)
Ramon Cortines	Superintendent of Schools (Retired effective April 17, 2011)
Jaime Aquino	Deputy Superintendent of Instruction
Linda Del Cuento	Superintendent, Local District 1
Alma Pena-Sanchez	Superintendent, Local District 2
Brenda Manuel	Interim Superintendent, Local District 3
Dale Vigil	Interim Superintendent, Local District 4
Roberto A. Martinez	Superintendent, Local District 5
Rowena Lagrosa	Superintendent, Local District 6
George McKenna	Superintendent, Local District 7
Michael Romero	Superintendent, Local District 8
Michelle King	Senior Deputy Superintendent of School Operations
Vivian Ekhian	Chief Human Resources Officer
Megan Reilly	Chief Financial Officer
Enrique Boull't	Chief Operating Officer
Earl Perkins	Assistant Superintendent of School Operations

* Not collected due to changes made by Education Code Section 42605. For 2008-09 through 2012-13, Districts are not required to operate the program or follow program requirements. Revenue for these years will be based on the same relative proportion that the District received for these programs in fiscal year 2007-08.

* * Students 21 years or older and students 19 or older not continuously enrolled since their 18th birthday, participating in full-time independent study.

See accompanying independent auditor's report.

LOS ANGELES UNIFIED SCHOOL DISTRICT
Schedule of Instructional Time Offered
Year Ended June 30, 2011

Grade Level	1982-1983 Actual Minutes Offered	1982-1983 Actual Minutes As Reduced ⁽¹⁾	1986-1987 Minutes Requirements	1986-1987 Minutes As Reduced ⁽¹⁾	2010-2011 Actual Minutes Offered	Number of Days Traditional Calendar	Number of Days Multi-track Calendar	Complied with Instructional Minutes and Days Provisions
Kindergarten	31,680	30,800	36,000	35,000	35,000	175	159	Yes
Grades 1 to 3	48,800	47,444	50,400	49,000	53,505	175	159	Yes
Grades 4 to 6 ⁽²⁾	48,800	47,444	54,000	52,500	53,505	175	159	Yes
Grades 7 to 8 ⁽³⁾	62,160	60,434	54,000	52,500	60,434 or 63,344	175	159	Yes
Grades 9 to 12	62,160	60,434	64,800	63,000	63,344	175	159	Yes

(1) Adjusted to reflect instructional minutes applicable to 175 instructional days.

(2) Elementary schools only.

(3) Middle schools with grade configurations 6-8 approved for common planning time have at least 60,434 annual instructional minutes. Middle schools with grade configurations 6-8 not approved for common planning time have at least 63,344 annual instructional minutes.

Notes:

1. All charter schools included in this audit report conform to the above Schedule of Instructional Time Offered. Each of these charter schools' offering exceeded LAUSD's minimum requirement for instructional minutes.
2. LAUSD received incentive funding for increasing instructional time pursuant to the Longer Instructional day.

See accompanying independent auditor's report and notes to state compliance information.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Total Expenditures and Other Financing Uses	6,309,676	6,184,135	6,377,541	6,663,173	6,986,341
Change in Fund Balance	(186,705)	235,565	(87,055)	92,726	(37,999)
Beginning Fund Balance*	828,645	667,966	749,962	657,236	695,235
Ending Fund Balance	\$ 641,940	\$ 903,531	\$ 662,907	\$ 749,962	\$ 657,236
Available Reserves**	\$ 65,376	\$ 479,661	\$ 184,918	\$ 72,382	\$ 153,224
Unassigned Reserve for Economic Uncertainties	\$ 65,376	\$ 65,376	\$ 65,376	\$ 72,382	\$ 72,382
Unassigned Fund Balance	\$ —	\$ 414,285	\$ 119,542	\$ —	\$ 80,842
Available Reserves as a Percentage of Total Expenditures and Other Financing Uses	1.04%	7.76%	2.90%	1.09%	2.19%
Total Long-Term Debt	\$ 16,527,052	\$ 16,195,638	\$ 15,752,067	\$ 11,148,319	\$ 9,439,128
Average Daily Attendance (ADA) at P-2 excluding regional occupational centers programs and adult programs	546,438	567,819	580,112	599,037	609,410

The General Fund has maintained a positive ending fund balance for the past four fiscal years presented in this schedule.

For a district this size, the State has recommended available reserves to be at least 1% of total General Fund expenditures and other financing uses. The District has been able to meet these requirements for the past four fiscal year

* Budgeted and actual beginning fund balance includes other restatements.

** Available reserves consist of all unassigned fund balances and unassigned reserve for economic uncertainties.

See accompanying notes to state compliance information.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to State Compliance Information

Year Ended June 30, 2011

(1) Purpose of Schedules

(a) Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

The schedule of average daily attendance for each of the District's affiliated charter schools is provided separately.

(b) Schedule of Instructional Time Offered

The District has received incentive funding for increasing instructional time as provided by the Incentive for longer instructional day. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46201 through 46206.

(c) Schedule of Financial Trends and Analysis

This schedule focuses on financial trends by displaying past years' data along with current budget information and evaluates the District's ability to continue as a going concern for a reasonable period of time.

(d) Reconciliation of Unaudited Actual Financial Reports with Audited Financial Statements

This schedule provides the information necessary to reconcile the differences between fund balances reported on the unaudited actual financial reports and the audited financial statements.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Notes to Schedule of Expenditures of Federal Awards

Year Ended June 30, 2011

(1) General

The accompanying schedule of expenditures of federal awards presents the expenditures of all federal financial assistance programs for the Los Angeles Unified School District (District). The District's reporting entity is defined in the notes to the District's basic financial statements.

(2) Basis of Accounting

The accompanying schedule of expenditures of federal awards is presented using the modified accrual basis of accounting, as described in Note 1 of the notes to the District's basic financial statements. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in, the preparation of the District's basic financial statements but agrees in all material respects.

(3) Noncash Assistance

Included in the schedule of expenditures of federal awards is (CFDA #10.555) \$7,439,734 of donated food commodities received from the U.S. Department of Agriculture, passed-through the State of California, during the year ended June 30, 2011.

(4) Subrecipient Awards

Of the federal expenditures presented in the schedule of expenditures of federal awards, the District provided a significant amount of funding to various subrecipients. Due to the extensive number of federal programs and volume of subrecipients, it is not practical to display the detailed subrecipient information in the schedule of expenditures of federal awards.

**Report on Internal Control over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

The Honorable Board of Education
Los Angeles Unified School District

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Los Angeles Unified School District** (the District), as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 14, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the provisions of the *California Code of Regulations* (CCR), Title 5, Education, Section 19810, et seq.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs as FS-11-01 and FS-11-02 that we consider to be significant deficiencies in internal control over financial reporting. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the District in a separate letter dated December 14, 2011.

The District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of District management, the Board of Education, others within the entity, and federal awarding agencies, state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements That Could Have a Direct And Material Effect on Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133

Independent Auditor's Report

The Honorable Board of Education
Los Angeles Unified School District

Compliance

We have audited the compliance of the **Los Angeles Unified School District** (the District) with the types of compliance requirements described in the *(OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2011. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

As described in the table below and in the accompanying schedule of findings and questioned costs, the District did not comply with requirements that are applicable to the following programs:

Compliance requirement	Program Name and Catalog of Federal Domestic Assistance (CFDA) number	Finding number
Allowable Costs	English Language Acquisition Grants, CFDA 84.365	F-11-01

Compliance requirement	Program Name and Catalog of Federal Domestic Assistance (CFDA) number	Finding number
Earmarking	WIA Youth Activities, CFDA 17.259	F-11-05
	Vocational Education Basic Grants to States, CFDA 84.048	F-11-05
Earmarking	ARRA Head Start and ARRA Early Head Start, CFDA Nos. 93.708 and 93.709	F-11-07
Reporting	Vocational Education Basic Grants to States, CFDA 84.048	F-11-12
Subrecipient Monitoring	Gaining Early Awareness and Readiness for Undergraduate Programs, CFDA 84.334.	F-11-16
Special Tests and Provisions	Title I Basic Grants to LEAs, CFDA 84.010	F-11-17
	English Language Acquisition Grants, CFDA 84.365	F-11-18

Compliance with such requirements is necessary, in our opinion, for the District to comply with the requirements applicable to those programs.

In our opinion, except for the noncompliance described in the table above, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011. The results of our auditing procedures also disclosed other instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items: F-11-01, F-11-02, F-11-03, F-11-04, F-11-05, F-11-06, F-11-07, F-11-08, F-11-09, F-11-12, F-11-15 and F-11-16.

Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over

compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items F-11-01, F-11-02, F-11-03, F-11-05, F-11-07, F-11-08, F-11-12, F-11-15, F-11-16, F-11-17, and F-11-18 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items F-11-01 to F-11-18 to be significant deficiencies.

The District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the District's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of District management, the Board of Education, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditor's Report on State Compliance

The Honorable Board of Education
Los Angeles Unified School District

We have audited the compliance of the **Los Angeles Unified School District** (the District), with the compliance requirements described in the *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2010-11* (the Guide), for the year ended June 30, 2011. The District's programs are identified in the table below. Compliance with the requirements of the state laws and regulations applicable to each program is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Standards and Procedures for Audits of California K-12 Local Educational Agencies*, prescribed in the California Code of Regulations (CCR), Title 5, section 19810 - 19854. Those standards and the Guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above occurred. An audit also includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with the state laws and regulations applicable to the following programs:

	Number of Procedures in Education Audit Appeals Panel Audit Guide, Standards and Procedures for Audits of California K-12 Local Education Agencies 2010-11	Procedures performed
Attendance Accounting:		
Attendance Reporting	8	Yes
Independent Study	23	Yes
Continuation Education	10	Yes
Kindergarten Continuance	3	Yes

	Number of Procedures in Education Audit Appeals Panel Audit Guide, Standards and Procedures for Audits of California K-12 Local Education Agencies 2010-11	Procedures performed
Instructional Time for:		
School Districts	6	Yes
County Office of Education	3	Not applicable
Instructional Materials General Requirements	8	Yes
Ratios of Administrative Employees to Teachers	1	Yes
Classroom Teacher Salaries	1	Yes
Early Retirement Incentive	4	Not applicable
Gann Limit calculation	1	Yes
School Accountability Report Card	3	Yes
Public Hearing requirement – Receipt of Funds	1	Yes
Class Size Reduction:		
General Requirements	7	Yes
Option One	3	Yes
Option Two	4	Not applicable
Districts or Charter School with only One School Serving K-3	4	Not applicable
After School Education and Safety Program:		
General Requirements	4	Yes
After School Program	4	Yes
Before School Program	5	Yes
Contemporaneous Records of Attendance for Charter Schools	1	Yes
Mode of Instruction, for Charter Schools	1	Yes
Nonclassroom-Based Instruction/Independent Study, for Charter Schools	15	Not applicable
Determination of Funding for Nonclassroom- Based Instruction, for Charter Schools	3	Not applicable
Annual Instructional Minutes – Classroom Based for Charter Schools	3	Yes

In our opinion, except for the noncompliance described in the accompanying schedule of findings and questioned costs as items S-11-01 to S-11-06 the District complied, in all material respects, with the compliance requirements referred to above that are applicable to each of its programs for the year ended June 30, 2011.

This report is intended solely for the information and use of the Board of Education, District management, others within the entity, the State Controller's Office, Department of Education, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Section II – Findings Relating to the Basic Financial Statements which are Required to be Reported in Accordance with GAS

FS-11-01 - IFS Change Control – Significant Deficiency

State Audit Guide Finding Code: 30000

Criteria

Changes to accounting application programs are highly critical as they can impact the integrity of financial reporting. Accordingly, such changes warrant accounting management's approval prior to being implemented into production.

Condition

Fourteen (14) of the twenty-nine (29) IFS Migration Request Forms sampled for the 2011 fiscal year did not contain a signature from a Business Sponsor (e.g., Accounting Management). Migration Request forms are required to be authorized by a business sponsor prior to the implementation of a new or changed program into the production environment.

Cause and Effect

Unauthorized programs could be implemented for IFS, this could adversely impact the integrity of accounting data.

Recommendation

IFS Migration Request Forms should be consistently approved by the appropriate business management personnel (i.e., business sponsor) prior to a changed or new program's operational use.

View of Responsible Officials and Planned Corrective Action

ITD agrees with this recommendation. We have obtained signatures from the business sponsor for the 14 IFS migration forms sampled that did not contain a signature. We have also modified the IFS Migration Request Form to include a signature line for the Business sponsor's approval. The new form was put in place in December 2010.

FS-11-02 - ISIS Change Control – Significant Deficiency

State Audit Guide Finding Code: 30000

Criteria

Changes to accounting application programs are highly critical as they can impact the integrity of financial reporting. Accordingly, such changes warrant accounting management's approval prior to being implemented into production.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Condition

Changes to accounting application programs are highly critical as they can impact the integrity of financial reporting. Accordingly, such changes warrant management's approval prior to being implemented into production. However, the following were noted relative to ISIS program changes:

- One (1) of the twenty (20) ISIS change requests sampled for the 2011 fiscal year did not contain an approval from a Business Sponsor (i.e. Student Information System Branch). Requests of ISIS changes that affect the functionality of the program are required to be authorized by a business sponsor prior to the implementation of a new or changed program into the production environment.
- Three (3) of the twenty (20) ISIS change requests sampled for the 2011 fiscal year did not contain approvals from all 4 required groups of the MOC (Management of Change) Committee. These groups consists of Security, Network, Database and Operations. According to ITD Change Management Procedures, a program change is required to be successfully tested prior to submitting the change request for MOC committee review. If any one of the four teams in the MOC committee denies a change request, it will automatically result in the change request being denied.

Cause and Effect

Unauthorized program changes could be implemented for ISIS, this could adversely impact the integrity of student accounting data.

Recommendation

ISIS Change tickets should be consistently approved by both the appropriate business management (i.e., business sponsor) and technical personnel prior to implementing the changed or new program.

View of Responsible Officials and Planned Corrective Action

ITD management considers the single missing signature to be an aberration; we will continue to strive to have all ISIS change requests that affect the functionality of the program signed by the Business Sponsor.

ITD management agrees with the finding regarding the Management of Change process. ITD is re-evaluating its Change Management process, along with other organizational processes. At the conclusion of the review, new Change Management processes will be in place.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

Agreements C-11730:10:11 and C-11724:10:11.

Compliance Requirement: Allowable Costs

State Audit Guide Finding Code: 30000 and 50000

Criteria

OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, Attachment B, Selected Items of Cost, Part 8, Compensation for Personal Services, Section H, Support of salaries and wages:

- Where employees are expected to work solely on a single federal award or cost objective, charges for their salaries and wages will be supported by periodic certifications that the employees worked solely on that program for the period covered by the certification. These certifications will be prepared at least semiannually and will be signed by the employee or supervisory official having firsthand knowledge of the work performed by the employee.
- Where employees work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personnel activity reports or equivalent documentation that meets the standards in subsection (5) unless a statistical sampling system (see subsection (6)) or other substitute system has been approved by the cognizant federal agency. Such documentary support will be required where employees work on:
 - (a) More than one federal award,
 - (b) A federal award and a nonfederal award,
 - (c) An indirect cost activity and a direct cost activity,
 - (d) Two or more indirect activities which are allocated using different allocation bases, or
 - (e) An unallowable activity and a direct or indirect cost activity.
- Personnel activity reports or equivalent documentation must meet the following standards:
 - (a) They must reflect an after the fact distribution of the actual activity of each employee,
 - (b) They must account for the total activity for which each employee is compensated,
 - (c) They must be prepared at least monthly and must coincide with one or more pay periods, and
 - (d) They must be signed by the employee.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Condition

As part of our compliance review over payroll expenditures, we selected a sample of payroll expenditures charged to the program to ascertain if they were allowable per program regulations, accurately charged to the program, and appropriately supported in accordance with the OMB Circular A-87.

Title I Grants to LEAs and Title I Grants to LEAs (Recovery): In our sample of 100 payroll expenditures (50 each for CFDA No. 84.010 and CFDA No. 84.389), we noted the following:

Title I Grants to LEAs:

- 1 employee totaling \$9,047 was unable to provide either multifunded timesheets or semiannual certifications to support the payroll expenditures charged to the program.

Total exceptions amounted to \$9,047 of the \$289,898 sampled from the \$313,655,108 of total payroll and benefit expenditures for the fiscal year ended June 30, 2011.

Title I Grants to LEA (Recovery Act):

- 3 employees totaling \$15,936 provided signed semiannual certifications; however, the certifications were signed and dated subsequent to our requests.
- 1 employee totaling \$6,244 was unable to provide us with time reporting documentation to support the hours charged to the program.

Total exceptions amounted to \$22,180 of the \$333,023 sampled from the \$ 160,794,352 of total payroll and benefit expenditures for the fiscal year ended June 30, 2011.

Special Education Cluster: In our sample of 50 payroll expenditures for CFDA No. 84.027, we noted the following:

- 3 employees totaling \$18,453 provided semiannual certifications; however, the certifications were signed and dated subsequent to our request.

Total exceptions amounted to \$18,453 of the \$404,278 sampled from the \$119,509,693 of total payroll and benefit expenditures for the fiscal year ended June 30, 2011.

English Language Acquisition Grants: In our sample of 60 payroll expenditures, we noted the following

- 2 employees totaling \$14,554 provided semiannual certifications; however, the certifications were signed and dated subsequent to our request.
- 1 employee totaling \$1,867 provided a timesheet; however, the hours reported on the timesheets did not support all hours recorded on the SAP payroll record.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- 1 employee totaling \$7,502 provided a semiannual certification; however, the program code reported was different from the SAP payroll record.

Total exceptions amounted to \$23,923 of the \$362,043 sampled from the \$27,781,374 of total payroll and benefit expenditures for the fiscal year ended June 30, 2011.

Child Care and Development Fund: In our sample of 60 payroll expenditures, we noted the following:

- CFDA No. 93.596: 1 employee totaling \$7,871 provided signed semiannual certification; however, the certification was not dated. As such, we were unable to determine if the certification was prepared timely.

Total exceptions amounted to \$7,871 of the \$221,819 sampled from the \$86,114,469 of total payroll and benefit expenditures for the fiscal year ended June 30, 2011.

- CFDA No. 93.713: 1 employee totaling \$4,754 was unable to provide either multifunded timesheets or semiannual certifications to support the payroll expenditures charged to the program.

Total exceptions amounted to \$4,754 of the \$131,371 sampled from the \$7,346,253 of total payroll and benefit expenditures for the fiscal year ended June 30, 2011.

Workforce Investment Act: In our sample of 60 payroll expenditures, we noted the following:

- 3 employees totaling \$10,022 provided semiannual certifications; however, the certifications were signed and dated subsequent to our request.

Total exceptions amounted to \$10,022 of the \$237,101 sampled from the \$10,788,768 of total payroll and benefit expenditures for the fiscal year ended June 30, 2011.

Medical Assistance Program: In our sample of 40 payroll expenditures, we noted the following:

- 2 employees totaling \$8,911 provided semiannual certifications; however, the certifications were signed and dated subsequent to our request.

Total exceptions amounted to \$8,911 of the \$251,169 sampled from the \$14,903,166 of total payroll and benefit expenditures for the fiscal year ended June 30, 2011.

Head Start Cluster: In our sample of 40 payroll expenditures, we noted the following:

- 3 employees totaling \$7,425 provided semiannual certifications; however, the certifications were signed and dated subsequent to our request.

Total exceptions amounted to \$7,425 of the \$121,244 sampled from the \$3,205,617 of total payroll and benefit expenditures for the fiscal year ended June 30, 2011.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Furthermore, based on our review of the District's policies and procedures for documentation requirement for employees funded by the federal programs, (i.e. BUL-2643.5), it is our understanding that Local District Superintendents or Division Administrators are required to submit a written assurance to the Accounting Controls & Oversight Branch (Accounting Controls) to certify that they have received the appropriate documentation for the time reporting by February 15th and August 15th.

Based on our review of the logs for the fiscal year 2010-11 maintained by the Accounting Controls, we noted that 2 out of 37 and 5 out of 43 divisions did not submit the assurance for the period July – December 2010 and for the period January – June 2011, respectively.

Cause and Effect

The non-compliance appears to be a result of the lack of understanding of the federal compliance requirements by the District's employees.

These findings are repeat findings, have been reported previously for June 30, 2005 to June 30, 2010 (F-05-01, F-06-01, F-07-01, F-08-01, F09-01 and F-10-01).

Questioned Costs: \$112,586 (see summary below):

- **Title I Grants to LEA:** \$9,047 – semiannual certification or multi-funded timesheet was not provided
- **Title I Grants to LEA (Recovery Act):** \$22,180 (\$6,244 inadequate support, \$15,936 untimely)
- **Special Education Cluster:** \$ 18,453 – untimely
- **English Language Acquisition Grants:** \$23,923 (\$9,369 inadequate support, \$14,554 untimely)
- **Child Care and Development Fund CFDA No. 93.596:** \$7,871 – certification was not dated
- **Child Care and Development Fund CFDA No. 93.713:** \$4,754 – untimely
- **Workforce Investment Act:** \$10,022 – untimely
- **Medical Assistance Program:** \$8,911 – untimely
- **Head Start Cluster:** \$7,425 – untimely

Recommendation

We recommend that the District continue to provide ongoing training to appropriate personnel on the updated procedures.

Criteria

Code of Federal Regulations – Title 34 – Education, Part 75 – Direct Grant Programs – Subpart F – What Are the Administrative Responsibilities of a Grantee? Section 75.702 Fiscal control and fund accounting procedures.

- A grantee shall use fiscal control and fund accounting procedures that ensure proper disbursement of and accounting for federal funds.

OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, Attachment A, General Principles for Determining Allowable Costs, Part C, Basic Guidelines:

- Factors affecting allowability of costs. To be allowable under federal awards, costs must meet the following general criteria:
 - a. Be necessary and reasonable for proper and efficient performance and administration of federal

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

awards.

- b. Be allocable to federal awards under the provisions of this circular.
 - c. Be authorized or not prohibited under state or local laws or regulations.
 - d. Conform to any limitations or exclusions set forth in these principles, federal laws, terms and conditions of the federal award, or other governing regulations as to types or amounts of cost items.
 - e. Be consistent with policies, regulations, and procedures that apply uniformly to both federal awards and other activities of the governmental unit.
 - f. Be accorded consistent treatment. A cost may not be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the federal award as an indirect cost.
 - g. Except as otherwise provided for in this circular, be determined in accordance with generally accepted accounting principles.
 - h. Not be included as a cost or used to meet cost sharing or matching requirements of any other federal award in either the current or a prior period, except as specifically provided by federal law or regulation.
 - i. Be the net of all applicable credits.
 - j. Be adequately documented.
- Allocable costs.
 - a. A cost is allocable to a particular cost objective if the goods or services involved are chargeable or assignable to such cost objective in accordance with relative benefits received.
 - b. Any cost allocable to a particular federal award or cost objective under the principles provided for in this circular may not be charged to other federal awards to overcome fund deficiencies, to avoid restrictions imposed by law or terms of the federal awards, or for other reasons.

Condition

As part of our procedures over program expenditures, we selected a sample of non-payroll expenditures that were recorded and charged to the program to ascertain whether or not they were allowable per program regulations, accurately charged to the program, and appropriately supported in accordance with the OMB cost circular documentation requirement. We noted that the following non-payroll expenditures recorded to expenditure accounts were not allowable:

Title I Grants to LEAs: Based on our 171 samples, we noted the following:

- 1 sample totaling \$9,418 was charged for Samsonite chair and tent purchase. This purchase was not program related and thus, it was not allowable.
- 1 sample totaling \$8,331 was charged for first aid student kit. This purchase was not program related and thus, it was not allowable.
- 1 sample totaling \$2,192 was for sports related goods including maxi-net, pickle ball swinger paddle, and badminton racket. These items were not allowable to the program.

Total exception of \$19,941 of the \$5,234,510 sampled of the \$116,246,138 charges of expenditures for the fiscal year 2010-11.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Title I Grants to LEAs, Recovery Act: Based on our 40 samples, we noted the following:

- 2 samples totaling \$2,316 were charged for first aid student kit. These costs were unallowable to the program.

Total exception of \$2,316 of the \$8,635,490 sampled of the \$37,653,617 charges of expenditures for the fiscal year 2010-11.

School Improvement Grants, Recovery Act: Based on our 40 samples, we noted the following:

- A total of \$5,844 was charged for student incentive. This cost was not allowable to the program.
- 1 sample totaling \$6,685 was charged for janitorial supplies. This cost was unallowable to the program.

Total exception of \$12,529 of the \$420,088 sampled of the \$2,255,413 charges of expenditures for the fiscal year 2010-11.

English Language Acquisition Grants: Based on our 60 samples, we noted the following:

- 1 sample totaling \$15,650 was charged for training; however, no detailed documentation was provided to support the nature of the training and how it supported the program.
- 2 samples totaling \$7,503 were charged for printers. These costs were not allowable to the program.
- 3 samples totaling \$17,545 of instructional materials were allocated and charged to the program; however, the allocation basis used by the schools was not based on the number of the English Learners of the total number of students as required by the Program and Budget Handbook. No other documentation was provided to support how the charges were allocated. Based on our re-computation using the percentage listed for the schools, the program was over-charged by \$8,430.
- 1 sample totaling \$8,348 was 100% charged to the program for TI-Navigator system for connection between student graphing calculators to the classroom computers; however, based on the allocation, \$2,671 (32%) should have been allocated to the program. As a result, \$5,677 (\$8,348 - \$2,671) was not allowable to charge to the program.

Total exception of \$37,260 of the \$1,017,540 sampled of the \$5,144,096 charges of expenditures for the fiscal year 2010-11.

Cause and Effect

There does not appear to be adequate controls to ensure that all program expenditures are allowable to the federal programs and sufficiently supported with appropriate documentation for allowable activities.

These findings are repeat findings, have been reported previously for June 30, 2007 to June 30, 2010 (F-07-03, F-08-03, F-09-02, and F-10-02).

Development Block Grant.

Pass-Through Entity: California Department of Education

Award Numbers: CCTR-0124 and CSPP-0227

Compliance Requirement: Eligibility

State Audit Guide Finding Code: 30000 and 50000

Criteria

Section D of the District Contract with CDE, Certification of Eligibility:

The contractor shall designate the staff person authorized to certify eligibility. Prior to initial enrollment and at the time of recertification, an authorized representative of the contractor shall:

- Certify each family's/child's eligibility for child care and development services after reviewing the completed application and documentation contained in the family data file.
- Issue a notice of Action and Application for services.

Section E, Child Care and Development Center-Based Program Requirements, Contents of Family Data File:

- The Contractor shall establish and maintain a family data file for each family receiving child care and development services.
- The family data file shall contain a completed and signed application for services and the following records as applicable to determine eligibility and need in accordance with above:
 - a. Documentation of income eligibility, including an income calculation worksheet;
 - b. Documentation of employment;
 - c. Documentation of seeking employment;
 - d. Documentation of training;
 - e. Documentation of parental incapacity;
 - f. Documentation of child's exceptional needs;
 - g. Documentation of homelessness;
 - h. Documentation of seeking permanent housing for family stability;
 - i. Written referral from a legally qualified professional from a legal, medical or social services agency or emergency shelter for children at risk of abuse, neglect or exploitation;
 - j. Written referral from a county welfare department, child welfare services worker, certifying that the child is receiving protective services and the family requires child care and development services as part of the case plan;
 - k. For parents receiving cash assistance, documentation regarding the approved welfare to work plan or activity that may include documentation of days and hours of need;
 - l. If the parent of the child was on cash assistance, the date the parental cash aid was terminated.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- A signed Child Care data collection Privacy Notice and Consent Form CD 9600A (Rev. 01/04) shall be included.
- Notice of Action, Application for Services and/or Recipient of Services shall be included.
- The family data file shall contain all child health and current emergency information required by California Code of regulations, Title 22, Social Security, Division 12, and Community Care Facilities Licensing Regulations with the following exception. Immunization records are not required to be in the family data file for children attending a public or private elementary school or for children receiving care in licensed facilities and reimbursed pursuant to Education Code sections 8220 and 8350.

Condition

In our procedures performed to determine eligibility for the childcare programs funded by this cluster, we sampled a total of 36 from CSPP0277 and 24 from CCTR0124 from 16 out of 100 Early Education Child Care Centers and requested the children files such as annual recertification forms, pay stubs or letter to determine if the eligibility status recorded in the Early Education Student Information System (EESIS) was accurate and supported.

During our review of the participant files, we noted that the program personnel did not sign and date the Confidential Application for Child Development Services and Certification of Eligibility for 10 out of 36 samples to certify that eligibility and document the review process. Certification is required to be signed and dated in order to complete the process of the eligibility.

Additionally, we also noted that the family income for 7 out of 60 files was erroneously calculated; as a result, the respective family fee was not properly calculated and collected. In all 7 cases, family income was under-reported resulting in assessment of lower family fees.

This is a repeat finding F-10-03.

Cause and Effect

It appears that a lack of effective and timely monitoring by the District over the functions performed by the center managers and possible staffing issues has resulted in a failure to follow procedures during eligibility determination and annual recertification.

Questioned Costs

The total net under-billed family fee amounted to \$3,320. Questioned cost was calculated by multiplying the rate at which the center under-charged the families by the total number of program operation days from corresponding date of re-certification up to June 30, 2011.

Recommendation

We recommend the District strengthen its monitoring process to ensure that student files are reviewed on a regular basis in order to comply with the contract and records provision. The District should also continue to provide training sessions for the center managers to ensure that they are aware of the federal requirements in relation to eligibility and that the required documentation is being maintained.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Views of responsible Officials and Planned Corrective Actions

The District agrees with the finding. The Early Childhood Education (ECE) Division has conducted training on eligibility documentation for all Principals and Office Managers at Early Education Centers (EEC). This training occurred in the month of November 2011 and included an exercise that identified all documents that are to be included in the family file. Specific attention was given to documents requiring signatures and dates. Furthermore, the ECE Division conducted training for new Office Managers and Principals during the month of October 2011.

Additionally, Local District Administrators and Principal Leaders, who oversee and monitor EEC's, were also trained in October 2011. This training included how to conduct monitoring visits, how to review family files and how to fill out monitoring checklist that is forwarded to central office administrators. The above identified Administrators are to visit each EEC in their respective Local District by June 30, 2012, and send their monitoring checklist report to central for evaluation.

The above identified training and monitoring will be a standard operational procedure for future years.

Criteria

Title 7 – Agriculture, Chapter XXX –Office of the Chief Financial Officer, Department of Agriculture Part 3015.169 – Uniform Federal Assistance Regulations – Equipment Management requirements:

Recipient procedures for managing equipment shall, as a minimum, meet the following requirements (including replacement equipment) until such actions as transfer, replacement or disposal takes place:

- (a) Property records shall be maintained accurately. (Subpart D of this part contains retention and access requirements for these records.) The records shall include for each item of equipment the following:
 - (1) A description of the equipment including manufacturer's serial numbers.
 - (2) An identification number, such as the manufacturer's serial number.
 - (3) Identification of the grant under which the recipient acquired the equipment.
 - (4) The information needed to calculate the Federal share of the equipment (see § 3015.172).
 - (5) Acquisition date and unit acquisition cost.
 - (6) Location, use and condition of the equipment and the date the information was reported.
 - (7) All pertinent information on the ultimate transfer, replacement, or disposal of the equipment.
- (b) Every two years, at a minimum, a physical inventory shall be conducted and the results reconciled with the property records to verify the existence, current utilization, and continued need for the equipment. Any discrepancies between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the differences.
- (c) In order to insure adequate safeguards to prevent loss, damage or theft of equipment, a control system shall be used. Any loss, damage or theft of equipment shall be investigated and fully documented. The awarding agency may require a report of the circumstances involving the loss, damage, or theft of equipment.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- (d) In order to keep the equipment in good condition, adequate maintenance procedures shall be implemented.

Code of Federal Regulations, Title 34 – Education, Part 80 – Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments – Subpart C – Post – Award Requirements, Section 80.32, Equipment, Part (d):

- Management Requirement – Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with grant funds, until disposition takes place will, as a minimum, meet the following requirements:
 - (1) Property records must be maintained that include a description of the property, a serial number or other identification number, the source of property, who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the cost of the property, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.
 - (2) A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.
 - (3) A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft shall be investigated.
 - (4) Adequate maintenance procedures must be developed to keep the property in good condition.
 - (5) If the grantee or subgrantee is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

BUL-1158 Accounting for Supplies and Equipment Purchases: Effective July 1, 2004, the dollar threshold to qualify items as “capital” or fixed assets is increased from \$15,000 to \$25000. The threshold for defining items purchased as supplies remains unchanged at below \$500. Items costing from \$500 to \$24,999 are considered “non-capital”. Use object codes 4501 and 4310 for items with a unit cost below \$500.

Condition

Child Nutrition Cluster and Child and Adult Care Food Program: The District uses a computerized system called Filemaker for recording its food services or cafeteria equipment and updating inventory records for inventory checks performed. A review of the inventory records maintained in Filemaker showed that vital information such as unit acquisition cost, grant award number under which the equipment was obtained and condition of the property was missing.

Through discussion with the District’s responsible personnel, we noted that the District performs an inventory count of equipment at all of its locations once every 2 years. The process begins in April of the fiscal year and is expected to be completed by June 30 of the fiscal year. The District provides each school with an inventory log, listing the most current equipment at that school based on the most recent inventory count. The cafeteria personnel performing the inventory must place a checkmark against each item of inventory that exists at the locations. For additions and deletions, the cafeteria personnel are required to check off the equipment, and

Schedule of Findings and Questioned Costs

June 30, 2011

write down quantities of added or deleted equipments on the add or delete form respectively. After the inventory is completed the cafeteria personnel must sign and date the logs and submit to the District office to update the master inventory list.

In our sample of 60 schools selected to perform testing for compliance with equipment management, we noted the following:

- a. Inventory logs for 9 schools did not have checkmarks against equipment item indicating the physical existence of the item.
- b. Inventory logs for 5 schools did not have the cafeteria personnel's signature.
- c. Inventory logs for 8 schools were not dated after the inventory was performed.
- d. The master inventory list was not updated with additions for 7 schools that had equipment(s) checked off on the add sheet.
- e. The master inventory list was not updated with deletions for 4 schools that had equipment(s) checked off on the delete sheet.
- f. The master inventory list contained 1 duplicate piece of equipment for 1 school.

As part of our testing, we inquired about the District's salvage policy for deleted equipments. We were informed that it was the District's policy to transport all salvaged equipment to the District's Salvage Warehouse which is managed by the District's Procurement Department. The salvaged equipment was then auctioned off to the public by the Procurement department, and no proceeds were returned to the Food Services Equipment Division that is responsible for managing and monitoring cafeteria equipment, to be returned to the granting agency. No copy of the policy, however, was made available to us.

Title I Grants to LEAs: Based on our review of the District's latest policies and procedures for inventory for equipment purchased through categorical programs (i.e. BUL-3508.3), it is our understanding that schools and local district offices are required to be compliant with specific policies stated therein, if the equipment was purchased with categorical funds. In our procedures performed to determine if the schools were in compliance with those policies and procedures, we noted the following exceptions for Title I Grants to LEAs:

1. 135 out of 734 schools did not submit either Principal Certification (PC) or Categorical Equipment Inventory (CEI) as required by the BUL-3508.3.
2. If schools did not purchase any equipment during the year, they are required to submit the PC to the Title I Office to certify that no equipment purchase was over \$500. During our review of the Inventory Log, we noted that there were a total of 178 schools who submitted a PC. However, based on the detailed expenditures recorded in the Integrated Financial System (IFS), we noted that twenty-one (21) schools purchased equipment above \$500 for the fiscal year 2010-11. As such, those schools should have submitted the CEI, instead of the PC.
3. In addition, we also noted that another ten (10) schools erroneously used the object code 4490 or 4410 for equipment items purchased below \$500. For items below \$500, object code 4501 or 4310 should be used.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

4. Further, we noted a total of another nine (9) schools had both exceptions for item #2 and #3 above.

Vocational Education Basic Grants to States (Perkins IV)

Section 132 – ROC/P Adult Vocational Education Basic Grants (contract numbers 10-14894-64733-00 and 10-14893-7435-00): According to the publication “Management of Career Technical Education Equipment”, issued by CDE in 2007 for Vocational Education Basic Grants, grantees are required to include information on the inventory log such as description, serial number, identification number, funding source, acquisition cost and, acquisition date. In our sample of 17 out of 34 schools to perform procedures to test the equipment management, we noted that certain equipment reported on the inventory logs did not contain all required components for 10 schools. The following summarizes the components missing from the inventory logs:

<u>Missing Required Component</u>	<u>Number of Schools⁽¹⁾</u>
Serial Number	3
Purchase Date	7
Cost of property	10
Property description	1

⁽¹⁾ *The acquisition cost for one school was omitted entirely from the equipment log.*

In addition, we also noted that the object code 4490 was erroneously used by two (2) schools for equipment items purchased below \$500. For items below \$500, object codes 4501 and 4310 should be used and object code 4490 is for items costing from \$500 to \$24,999 per BUL-1158.

Section 131 – Secondary Vocational Education (contract number 10-14893-64733): In our procedures performed over the inventory for equipment purchased with the Vocational Education Basic Grants for 25 out of 56 secondary schools, we noted that one (1) school did not update its purchases of eight (8) equipment totaling \$35,894 in the inventory equipment logs submitted to the Office of Curriculum - Instruction and School Support CTE (Office) for the fiscal year 2010-11. Additionally, 17 schools had not submitted the 2010-11 equipment logs to the Office.

Workforce Investment Act, Title II: Through discussion with the District’s responsible personnel, we noted that the District’s inventory management is decentralized, so detailed inventory logs are kept at each individual school rather than at the District. At yearend, the District collects the certificates from the schools stating that the inventory had been updated to reflect the current year transactions.

In our procedures performed over the equipment inventory (BUL-953.1 dated August 23, 2010) to verify if the Annual Certification Inventory form was submitted and prepared properly, we sampled 19 out of all 34 schools which were funded by the grant during the fiscal year 2010-11 and noted that the date and the name of the employee who performed the physical inventory was not identified for one (1) school.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

We further selected another 11 schools to determine if the inventory logs were completed in accordance with the BUL-953.1 and noted the following:

1. The inventory logs did not contain the required components for 4 schools. The following summarizes the components missing from the inventory logs:

<u>Missing Required Component</u>	<u>Number of Schools *</u>
Serial Number	1
Purchase Date	1
Cost of property	2
Tag number	3

2. Based on our review of the vendor invoices, we noted that one (1) school recorded only 30 CPUs and 30 monitors instead of 40 each on the log.
3. Instead of program code (i.e. funding source), we noted that one (1) school inadvertently reported the object codes for the entire inventory log.

** One school has 3 components missing and one school has 2 components missing on the logs.*

Fund for the Improvement of Education (FIE): Through discussion with the District's responsible personnel, we noted that the District's inventory management is decentralized, so detailed inventory logs are kept at each individual school rather than at the District.

Based on our review of the District's latest policies and procedures for inventory for equipment purchased through categorical programs (i.e. BUL-3508.3), it is our understanding that schools and local district offices are required to be compliant with specific policies stated therein, if the equipment was purchased with categorical funds.

In the fiscal year 2010-11, there were a total of twenty-two (22) schools awarded with the FIE grants. Of the total schools, we noted that only eleven (11) schools had purchased equipment using the object code 4490. According to the BUL-1158, items costing from \$500 to \$24,999 are considered "non-capital" and object code 4490 should be used.

In our procedures performed to determine if the schools were in compliance with those policies and procedures, we sampled five (5) schools and requested the inventory logs from the school and noted the following exceptions:

1. The inventory logs did not contain the required components for 4 schools. The following summarizes the components missing from the inventory logs:

<u>Missing Required Component</u>	<u>Number of Schools ⁽¹⁾</u>
Description of Equipment	1
Serial Number	2
Property Location	2

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Purchase Date	2
Cost of property	2
Funding Source	1

⁽¹⁾ *The acquisition cost and date for one school was omitted entirely from the equipment log and the serial number for one school was omitted entirely from the equipment log.*

2. In our procedures performed over the inventory for equipment purchased with FIE grant funds, we noted that one (1) school did not update its purchases of equipment totaling \$10,990 in the inventory equipment log.

Cause and Effect

Inadequate supervision and insufficient guidance/training to the personnel at the schools over inventory and management of equipment or property may have contributed to these issues.

This is a repeat finding from Fiscal Years 2008-09 and 2009-10 (F-09-06 and F-10-04).

Questioned Cost

Not applicable. This finding is considered a programmatic non-compliance issue as well as a deficiency in the internal control system to properly monitor and supervise the personnel who are assigned to perform the inventory management.

Recommendation

We recommend the District continue to strengthen its controls over property management by providing adequate supervision/training to ensure that inventory management be performed properly.

Views of responsible Officials, Planned Corrective Actions, and Contact Information

Child Nutrition Cluster and Child and Adult Care Food Program: The District agrees with the recommendation. There will be an inventory conducted this year (2011-12) to review the accuracy of the master inventory log and take random samples to ensure staff is following procedures.

Name: Laura Benavidez

Schedule of Findings and Questioned Costs

June 30, 2011

Vocational Education Basic Grants to States (Perkins IV):

Section 131 – Secondary Vocational Education: Because of the District lay-offs of school clerical personnel, we are developing a new inventory system that our CTE advisors will be in control of budget, POs, receivers, and inventory. The highlights of this new system are the following:

1. Budget control sheets will be kept by each advisor. The budget sheets will include justifications for each item budgeted, Record of PO, Receiver Log, Inventory and Spot Inventory check list.
2. Central office will receive the control sheets once per month for review, spot checks and log.
3. Schools are assigned evenly to the advisors by the Central Staff. The Central Staff will send the inventory list to the advisors by April 16, 2012.
4. The physical inventory will be conducted at the same time as other school inventories for other programs in May 2012.
5. It is our intention to implement this process for school year 2011-2012 and future years in compliance with BUL-1158 above.

Name: Kathy Halsey

Title: Coordinator

Telephone: (213) 241-5687

Section 132 – ROC/P Adult Vocational Education Basic Grants: Equipment Log requirements have been reviewed with all Perkins Advisors. All logs have been updated and completed. Central office staff has scheduled visits to DACE schools to ensure logs are completed in accordance with requirements. Items under \$500.00 dollars will be itemized separately when purchased rather than "bundled" in adherence to district policy.

Name: Isabel Vazquez

Title: Director, Career Technical Education

Telephone: (213) 241-3821

Workforce Investment Act, Title II: The District agrees with the finding. The Division of Adult Education will retrain Principals and Assistant Principals at their monthly meetings on equipment inventories. The training will be followed up with communications reminding them to have accurate and complete inventories.

Name: Ted Nelson

Title: Assistant Budget Director

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

At least 50%⁽¹⁾ of all youth registered within the Youth Opportunity System must be out-of-school youth and at least 50%⁽¹⁾ of the system *funds expended must be for the benefit of out-of-school youth*. Contractor shall enroll and serve at least the minimum number of out-of-school youth found in the contract Performance Measures and Customer Service Level table as their network contribution toward the system wide goal. An out-of-school youth is defined as an eligible youth who 1) is a school dropout or 2) has graduated from high school or holds a GED, but is basic skills deficient, unemployed, or underemployed. Under WIA, youth enrolled in alternative schools are considered to be in school.

202 – Statement of Work of the Agreement, E-1 requires that minimum percentage of Out-of-School Youth to be served is 40%⁽¹⁾.

Vocational Education Basic Grants to States:

IV. Program and Administrative Requirements - Perkins IV and Chapter Five of the State Plan establish the requirements for local administration and the use of funds and policies for secondary and postsecondary CTE programs that will be assisted with Perkins IV funds. These policies and requirements must be followed by all LEAs receiving Perkins IV funds. This section is divided into three parts: Use of Perkins IV Funds; Program Requirements; and Assurances, Certifications, Terms, and Conditions.

The text that follows for Part A (Use of Perkins IV Funds) and Part B (Program Requirements) is taken directly from chapter five of the State Plan.

A. Use of Perkins IV Funds - Required Local Educational Agency Use of Section 131 and 132 Funds: Policy. No less than 85 percent of the LEA's Section 131 or 132 allocation must be expended to improve or expand CTE programs and courses approved in the local plan and annual application for funds.

Up to 5 percent of the allocation may be charged to direct or indirect costs for expenditures incurred in activities required to administer the grant.

Up to 10 percent of the allocation may be expended to support other CTE activities that are consistent with the purpose of the Act. These activities include, but are not limited to the following:

- Involving parents, businesses, and labor organizations as appropriate, in the design, implementation, and evaluation of the CTE programs assisted with the funds
- Providing career guidance and academic counseling for students participating in CTE programs
- Developing and expanding program offerings for adults at times and in formats that are accessible for students, including working students
- Developing and supporting small, personalized, career-themed learning communities
- Providing CTE programs for adults and school dropouts to complete secondary education, or update the technical skills of the adults and school dropouts
- Providing CTE program completers and leavers with placement assistance in jobs and advanced education and training
- Supporting training and activities such as mentoring and outreach in nontraditional fields

ARRA – Head Start and ARRA Early Head Start:

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Head Start Act, 42 U.S.C. § 9837, Section 640(d)(1), which requires that “the Secretary shall establish policies and procedures to assure that for fiscal year 2009 and thereafter, not less than 10 percent of the total number of children actually enrolled by each Head Start agency and each delegate agency will be children with disabilities who are determined to be eligible for special education and related services, or early intervention services, as appropriate, as determined under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), by the State or local agency providing services under section 619 or part C of the Individuals with Disabilities Education Act (IDEA).”

Condition

WIA Youth Activities – Department of Labor: The District’s WIA youth contract with the City of Los Angeles (City) consists of *In-school youth* and *Out-of-school youth programs*. In our procedures of reviewing the District’s compliance with earmarking, we noted that the program costs for the contract were not separately accounted for between the two (2) categories. We also noted that the District did not have a cost allocation plan to allocate the shared program costs between the two (2) programs; all program costs were recorded into one general ledger. As such, the District was unable to determine whether or not the minimum earmarking percentage was met for the contract year.

⁽¹⁾ *According to the District’s Program Coordinator, the District’s agreement number C-117892 with the City requires the minimum percentage to be spent for out-of-school youth should have been 40% instead of 50%.*

Vocational Education Basic Grants to States: During our procedures performed to test the amounts charged to the program coded as earmarking for other CTE activities (category called Guidance and Counseling “G&C”), we noted that both Adult and Secondary Vocational Education programs used an estimated percentage of the program costs to allocate the G&C; however, the estimated percentage was not adequately supported. As such, we were unable to determine if the District’s other CTE activities met the requirements in accordance with the purpose of the program.

Section 131 – Secondary Vocational Education (contract number 10-14893-64733): The reported G&C amounted to \$678,610 which represented 60% of the account code 3228 for the program year 2010-11; however, the percentage was not supported. Additionally, the reported G&C cost exceeded the 10% limitation by \$34,736. The reported total cost for the contract for the program year 2010-11 amounted to \$6,438,737 and 10% of the total amounted to \$643,874.

Section 132 – ROC/P Adult Vocational Education Basic Grants (contract numbers 10-14894-64733-00 and 10-14893-7435-00): The G&C expenditures were reported based on 5% of the total certificated salaries and benefits; however, the percentage was not adequately supported. The reported G&C expenditures for the program year 2010-11 were less than 1% of the program costs for both contracts.

ARRA – Head Start and ARRA Early Head Start: The District’s enrollments for individuals with disabilities (IEP) for both Head Start and Early Head Start programs did not meet the earmarking compliance requirement. To meet the 10% requirement, the Head Start and the Early Head Start needed IEP enrollments of 32 and 9, respectively. However, only 14 and 3 IEPs were enrolled for the Head Start and Early Head Start programs (under enrolled by 44% and 33%).

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Cause and Effect

WIA Youth Activities: There appears to be a lack of effective controls to ensure that the District is in compliance with the applicable contract requirements.

Vocational Education Basic Grants to States: Existing policies and procedures do not provide adequate support for the percentage used in meeting the earmarking provision.

ARRA – Head Start and ARRA Early Head Start: The District was not in compliance with the earmarking requirement.

Questioned Costs

WIA Youth Activities: The District's final program cost claimed for the contract year 2010-11 amounted to \$638,617. Since the program costs were not allocated and reported separately, we were unable to determine whether or not the District met the 40% earmarking contract provisions.

Vocational Education Basic Grants to States: The known questioned is \$34,736.

ARRA – Head Start and ARRA Early Head Start: The questioned cost may not be applicable as a programmatic non-compliance issue does not usually constitute any questioned cost from the current year funding.

Recommendation

WIA Youth Activities: The District should implement policies and procedures to allocate and report the program costs between in-school and out-of-school programs separately.

Vocational Education Basic Grants to States: The District should strengthen policies and procedures to ensure that the percentages used to allocate cost are adequately supported in accordance with the federal guidelines.

ARRA – Head Start and ARRA Early Head Start: The programs ended on September 30, 2011 and the contracts with LACOE were not extended. As such, no recommendation would be applicable.

Views of responsible Officials, Planned Corrective Actions, and Contact Information

WIA Youth Activities: There was nothing in the contract which requires that the costs and number of out-of-school students be segregated or allocated in the General Ledger. Thus, the total costs of salaries and all other expenditures including those for in and out of school youths are not segregated in district's subcontractor invoices or billings to the City. Also, the number of students are identified as in/out of school and reported to the City in the Performance and Evaluation Report for each contract or year. These practices have been used since 2001 without negative comments from the City on its annual Program Monitor and FMD Audits.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

For 2011-12, to comply with this audit finding, the District has created a new program code (2A27) for the salary and benefits to separate the out-of-school youth from the in-school youth. In addition, there is still only one Contract and one Expenditure Plan (Budget) submitted and approved by the City fiscal year 2011-12. The audit recommendation to identify by student type the actual salary of personnel & operating expenses is not necessary and not cost efficient as the main goal and objective of the contract is to meet the overall numbers as established by the aforementioned Performance Measures and Customer Service Level form.

Award Number Grant Agreement 11-14329-6473

Compliance Requirement: Earmarking – Targeting Funds for Choice-Related Transportation and Supplemental Education Services

State Audit Guide Finding Code: 30000 and 50000

Criteria

Title 34: Education – Part 200: Title I Improving The Academic Achievement of the Disadvantaged
Subpart A—Improving Basic Programs Operated by Local Educational Agencies LEA and School Improvement:

§200.45 (b) (1) Supplemental Educational Services: Only students from low-income families are eligible for supplemental educational services. (2) The LEA must determine family income on the same basis that the LEA uses to make allocations to schools under subpart A of this part.

Condition

The District's supplemental education services (SES) funded by Title I Basic grant under the 20% set-aside provision is over-seen by the Beyond the Bell Division (BTB). To determine the student eligibility for the SES program, BTB collects the data provided by the Food Services Branch (FSB), a department of the District that operates the National Breakfast Program and the National School Lunch Program (SBP) funded by the U.S. Department of Agriculture (USDA). FSB is required each school year to verify the eligibility of a sample of 3,000 households selected from applications that it has approved for the free and reduced price meals. The data for the student eligibility is then updated automatically on November 1st to reflect the status changes and notifications must be provided to households by November 15th. On November 16th, BTB requests the updated eligibility data through the District's Information Technology Department (ITD) and uses it as the base to determine the final eligibility for the SES program. If the eligibility status of the student changes, BTB would notify the student's parents and remove those students from the SES program accordingly.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

In our procedures performed to review expenditures charged to SES, we obtained a list of all students selected by the FSB for eligibility verification and noted that the eligibility status of 3,896 students was being adjusted to a “denied” status, i.e. ineligible for the SBP program. Furthermore, we compared those 3,896 students with the roster that BTB obtained from ITD on November 16th and noted that 163 of those ineligible students were included in the BTB list and received SES services. Through our discussion with the BTB SES Coordinator, we were informed that the data provided by ITD was inadvertently generated based on the information captured in the FSB data files as of September 2010 instead of the updated data files as of November 16, 2010; as such, the eligibility information used by the BTB was not the most updated, resulting in services provided to ineligible students.

Cause and Effect

The condition was due to a miscommunication between the BTB and ITD as to the date to capture the eligibility information from the FSB data files.

Questioned Costs

Based on the schedule maintained by BTB to track the SES hours and rates by student, the total SES cost resulting from the 163 ineligible students amounted to \$241,004.

Recommendation

We recommend that the District update its procedures to ensure that the data used for the SES eligibility determination is updated file based on the SBP verification.

Views of Responsible Officials and Planned Corrective Actions

We will ensure all future requests highlight the need to capture the most current information. In addition, starting with the 2011-12 school year, Beyond the Bell will request an update of the SES database after November 15 to reflect any changes in the Lunch application status for all SES eligible students. Beyond the Bell will inform SES providers of any students that may become ineligible based on their meal application denial so they can be removed from the program.

June 30, 2011

indirect costs and audits. Contractors shall maintain written documentation of the rationale used in determining direct and administrative costs.

Head Start and Early Head Start (Recovery Act): Code of Federal Regulations – Title 45 – Public Welfare, Part 1301 – Head Start Grants Administration – Subpart D – Personnel and General Administration, Section 1301.32, Limitations on costs of development and administration of a Head Start program:

- 1) Allowable costs for developing and administering a Head Start program may not exceed 15 percent of the total approved costs of the program, unless the responsible HHS official grants a waiver approving a higher percentage for a specific period of time not to exceed twelve months.
- 2) Grantees must charge the costs of organization-wide management functions as development and administrative costs. These functions include planning, coordination and direction; budgeting, accounting, and auditing; and management of purchasing, property, payroll and personnel

Section 11 (d) of OMB Circular A-87 states: “*Fringe Benefits*”

- 5) The cost of fringe benefits in the form of employer contributions or expenses for social security; employee life, health, unemployment, and worker's compensation insurance (except as indicated in section 22, Insurance and indemnification); pension plan costs (see subsection e.); and other similar benefits are allowable, provided such benefits are granted under established written policies. Such benefits, whether treated as indirect costs or as direct costs, shall be allocated to Federal awards and all other activities in a manner consistent with the pattern of benefits attributable to the individuals or group(s) of employees whose salaries and wages are chargeable to such Federal awards and other activities.

Condition

Vocational Educational Basic Grants to States: *Section 131 – Secondary Vocational Education:* During our procedures performed over program earmarking requirements, we noted that the District claimed its State’s approved indirect cost rate of 2.14 percent of total program costs as administrative cost for the fiscal year 2010-11.

Based upon our additional analysis, we identified the following positions and their salaries which appeared to be administrative functions, but their salaries were included in the program expenditures for the fiscal year 2010-11.

Secretary	\$	54,698
Office Technicians		56,879
Senior Financial Analyst		55,868
	\$	<u>167,445</u>

The Department that operates the Secondary Vocational Education provided us with their analysis to indicate that the job duties for the above positions were all program directly related functions. However, based on our review of their analysis, we concluded that their job duties (i.e. processing purchase orders,

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

filing, accounting, budget development, financial reporting) are solely administrative functions. As such, the above positions should be reported under administrative costs instead of program costs.

The District's claim for the administrative expenditures amounted to \$156,197 for the fiscal year 2010-11. The maximum allowed administrative cost amounted to \$305,755 which is 5% (excluding the approved indirect rate of 2.14%) of the total direct program expenditures of \$6,115,095 (including obligations) for the fiscal year 2010-11. Therefore, the expenditures in question listed above would cause the District to exceed its administrative earmarking limitation by \$17,888 ($167,445 + 156,197 - 305,755$) for the fiscal year ended June 30, 2011.

Child Care and Development Fund: During procedures performed over program earmarking requirements, we noted that the administrative costs of the District's Early Childhood Education Division (Division) were not separately accounted for and therefore, they were not reported accordingly on the final CDFS 9500 (CCTR-9129) and CDFS 8501(CSPP-9233) for the fiscal year ended June 30, 2010 (which was due in February 2011).

Based upon our additional analysis, the combined estimated administrative personnel cost appeared to be \$4,658,749 for 2009-10. The maximum allowed amount for administrative cost amounted to \$17,566,623 which is 15% of the combined total direct program expenditures of \$117,110,821, (\$7,525,976 for CCTR-9129 and \$109,584,845 for CSPP-9233) for the fiscal year 2009-10. Therefore, the un-reported administrative expenditures in question may not have caused the District to exceed its administrative earmarking limitation for the fiscal year ended June 30, 2010. However, our estimate only included the salaries and benefits recorded in the District's payroll system and did not include any non-personnel costs (object codes 4000 – 7000) related to the administrative functions, if any.

Head Start and Early Head Start (Recovery Act): During our procedures performed over program earmarking requirements, we noted that the Early Childhood Education that operates the Head Start and Early Head Start programs calculated and tracked the administrative costs on a spreadsheet, to support the earmarking provision. The Division's claim for the administrative costs amounted to \$205,391 for the Head Start program and \$99,195 for the Early Head Start program. In our review of the expenditures recorded on the spreadsheet, the District's administrative costs claimed for the contract year 2010-11 did not exceed the 15% administrative earmarking limitation for those grants awarded in the fiscal year. However, based on our review of the detailed expenditures on the spreadsheet, we noted that the following line items were reported based on allocation percentages of the total costs incurred per the Integrated Financial System (IFS), the book of record. However, the allocation percentages used in splitting between the program and administrative costs were not supported by a cost allocation plan or any other verifiable data. As such we could not determine if the allocation methodology and calculations were reasonable and acceptable for the cost of the line items allocated within the total administrative cost claimed.

Program	Description	Total	Allocation for Admin	Program Cost	Admin Cost
HS	Managers:	\$ 6,362	50%	\$ 3,181	\$ 3,181
HS	FICA, SUI, Worker's Comp	54,787	5%	52,048	2,739

Total		<u>\$ 194,532</u>		<u>\$ 163,877</u>	<u>\$ 30,655</u>

Cause and Effect

Vocational Educational Basic Grants to States: The District's Secondary Programs department did not concur with the finding and claimed that the positions in question were funded 100% directly by the program and therefore, such costs should be considered as direct program costs. The direct and indirect administrative cost is defined as activities necessary for the proper and efficient performance of the eligible fiscal and data collection responsibilities under the Perkins Act of 2006. The job functions of executives, secretaries, office clerks and accountants should be reported under the administrative category as either direct or indirect cost.

Child Care and Development Fund: It appears that the Division did not follow the District's policies and procedures to properly account for administrative costs for these grants which impose the earmarking limitation.

Head Start and Early Head Start (Recovery Act): The District was not able to provide an explanation (or the support) for the allocation methodology.

This is a repeat finding, having been reported previously for June 30, 2007 to June 30, 2010 (F-07-15, F-07-16, F-08-07, F-08-09, F-09-08 and F-10-07).

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Questioned Costs

Vocational Educational Basic Grants to States: \$17,888

Child Care and Development Fund: The questioned cost may not be applicable as our estimate is below the limitation of the administrative cost.

Head Start and Early Head Start (Recovery Act): The total contract award for the fiscal year 2010-11 amounted to \$1,924,761 and \$1,389,085, respectively for Head Start and Early Head Start programs. The maximum program administrative cost would be 15% of the total contract award amount or \$288,714 and \$208,363 for Head Start and Early Head Start, respectively. The Division's claims for the administrative costs amounted to \$205,391 for Head Start program and \$99,195 for the Early Head Start program; and therefore, Early Childhood Education's remaining allowable administrative costs for the contracts were \$83,323 and \$109,168, respectively.

Since the allocation percentages were not supported, we were not able to determine if the administrative costs for the two (2) programs exceeded the provision.

Recommendation

Vocational Educational Basic Grants to States: We recommend that the District should enforce the Secondary Programs to follow the District's BUL-5399, in which, schools and offices are required to document their activities if the position is administrative function including fiscal personnel.

Child Care and Development Fund: We recommend that the Division enforce the District's policies and procedures to ensure that administrative costs are appropriately computed and accounted for separately for the child development programs.

Head Start and Early Head Start (Recovery Act): The Head Start and Early Head Start programs ended on September 30, 2011 and the contracts with LACOE were not extended. As such, no recommendation would be applicable.

Views of responsible Officials, Planned Corrective Actions, and Contact Information

Vocational Educational Basic Grants to States: The salaries of the three positions were considered direct program costs due to the following reasons:

- a. They were primarily hired to work exclusively for the Perkins program.
- b. They did not perform activities for any other District general or specially funded programs and the District general activities that may refer to the position or title used by District Human Resources.
- c. The titles used for the Perkins positions were different from those used by LAUSD. However, they are the same job descriptions.
- d. The positions were included as part of Direct Program Costs in the Request for Fund Application submitted and approved by CDE.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

The District will review the job functions of the individuals involved and ensure that administrative cost in the grant does not exceed 5%.

Name: Kathy Halsey

Title: Coordinator

Telephone: (213) 241 -5687

Child Care and Development Fund: The District agrees with the finding. Early Childhood Education (ECE) Fiscal Services has realigned the budget for Fiscal Year 2011-12 to show all administrative costs in one program code. This allows us to separate those costs from direct program costs for reporting purposes. By February 2012, ECE Fiscal Services will identify school based positions that may appear to be administrative in nature but are actually performing direct program activities and have them maintain activity logs as required by District Policy Bulletin BUL-5999.0, Documentation for Employees Performing Administrative & Direct Program Activities, dated February 9, 2011. In Fiscal Year 2010-11, administrative costs were identified, even though they were in various program codes, and given to General Accounting for inclusion for the final report that will be issued in 2012.

Name: Ted Nelson

Title: Assistant Budget Director

Telephone: (213) 241-3175

Head Start and Early Head Start (Recovery Act): The District agrees with the finding. The methodology for the allocation of administrative expenditures had been discussed but never formalized into a written document. If the District participates in these programs in the future, methods of allocating administrative and program expenditures will be formalized into a written document that provides the rationale for the percentages used. Furthermore, activity logs will be maintained to document time spent in administrative and program activities.

Compliance Requirement: Matching

State Audit Guide Finding Code: 30000 and 50000

Criteria

GEAR-UP: Code of Federal Regulations – Title 34 – Education, Part 80 – Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments – Subpart C – Post-Award Requirements, Section 80.24, Matching or cost sharing:

- Records. Costs and third-party in-kind contributions counting toward satisfying a cost sharing or matching requirement must be verifiable from the records of grantees and subgrantee or cost-type contractors. These records must show how the value placed on third-party in-kind contributions was derived. To the extent feasible, volunteer services will be supported by the same methods that the organization uses to support the allocability of regular personnel costs.

U.S Department of Education: Gaining Early Awareness and Readiness for Undergraduate Programs, Office of Postsecondary Education:

- Section 404C(b) of the Higher Education Act requires at least 50% of the total cost of a GEAR UP project to be paid with State, local, institutional, or private funds.
- Some GEAR UP grantees proposed in their applications matching contributions exceeding the statutory minimum. Under the GEAR UP regulations at 34 CFR 694.7(a) (2), a grantee is obligated to contribute the entire amount of match stated in its application, even if the amount exceeds the statutory requirement.
- Grantees are required by the GEAR UP regulations at 34 CFR 694.7(a) (2) to comply with the matching percentage stated in their applications for each individual year of the grant.

Head Start and ARRA Early Head Start (Recovery Act): Code of Federal Regulations – Title 45 – Public Welfare, Part 1301 – Head Start Program Performance Standards and Other Regulations – Subpart C - Federal Financial Assistance –, Section 1301.20, matching requirements:

- (a) Federal financial assistance granted under the act for a Head Start program shall not exceed 80 percent of the total costs of the program, unless:
- (1) An amount in excess of that percentage is approved under section 1301.21; or
 - (2) The Head Start agency received Federal financial assistance in excess of 80 percent for any budget period falling within fiscal year 1973 or fiscal year 1974. Under the circumstances described in clause
 - (3) Of the preceding sentence, the agency is entitled to receive the same percentage of Federal financial assistance that it received during such budget periods.

Section 11 (h) of OMB Circular A-87 states: “*Support of salaries and wages*”

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- (4) Where employees work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personnel activity reports or equivalent documentation which meets the standards in subsection (5) unless a statistical sampling system (see subsection (6)) or other substitute system has been approved by the cognizant Federal agency. Such documentary support will be required where employees work on:
- a. More than one Federal award,
 - b. A Federal award and a non-Federal award,
 - c. An indirect cost activity and a direct cost activity,
 - d. Two or more indirect activities which are allocated using different allocation bases, or
 - e. An unallowable activity and a direct or indirect cost activity.
- (5) Personnel activity reports or equivalent documentation must meet the following standards:
- a. They must reflect an after-the-fact distribution of the actual activity of each employee,
 - b. They must account for the total activity for which each employee is compensated,
 - c. They must be prepared at least monthly and must coincide with one or more pay periods, and
 - d. They must be signed by the employee.
 - e. Budget estimates or other distribution percentages determined before the services are performed do not qualify as support for charges to Federal awards but may be used for interim accounting purposes, provided that:
 - i. The governmental unit's system for establishing the estimates produces reasonable approximations of the activity actually performed;
 - ii. At least quarterly, comparisons of actual costs to budgeted distributions based on the monthly activity reports are made. Costs charged to Federal awards to reflect adjustments made as a result of the activity actually performed may be recorded annually if the quarterly comparisons show the differences between budgeted and actual costs are less than ten percent; and
 - iii. The budget estimates or other distribution percentages are revised at least quarterly, if necessary, to reflect changed circumstances.
- (6) Substitute systems for allocating salaries and wages to Federal awards may be used in place of activity reports. These systems are subject to approval if required by the cognizant agency. Such systems may include, but are not limited to, random moment sampling, case counts, or other quantifiable *measures of* employee effort.
- (7) Salaries and wages of employees used in meeting cost sharing or matching requirements of Federal awards must be supported in the same manner as those claimed as allowable costs under Federal awards.

Condition

GEAR-UP: Grant P334A050178 (Finding Code 30000)

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

In our procedures performed over matching contributions, we selected grant P334A050178 for LD 4 that reported matching expenditures totaling \$2,585,667, for the fiscal year. We requested documentation to support the reported matched expenditures and noted the following:

In our review of 40 Personnel Activity Reports (PARs), we noted the following internal control deficiencies over reporting of matching:

- 1 PAR was under-reported by 4 hours compared to the actual hours reported on the payroll records (SAP);
- 12 PARs were over-reported by a total of 133.50 hours compared to the actual hours reported on the payroll records (SAP);

The total net over-reported matching amounted to \$7,875 of \$382,016 sampled from \$2,031,774 of the total cash match for salary and benefits.

The total cash match of personnel and non-personnel from LD 4 amounted to \$2,031,774 and \$54,276, respectively. The remaining balance of the \$499,617 matching was contributed from LD4's sub-recipients.

GEAR-UP: Grant P334A060124 (Finding Code 30000)

In our procedures performed over matching contributions, we selected grant P334A060124 for LD 6 that reported matching expenditures totaling \$942,815, in the annual performance report submitted for the reporting period ending March 31, 2011. We requested documentation to support the reported matched expenditures and noted the following:

In our review of 20 PARs, we noted the following internal control deficiencies over reporting of matching:

- 2 PARs were over-reported by a total of 4 hours compared to the actual hours reported on the payroll records (SAP);

The total net over-reported matching amounted to \$250 of \$255,859 sampled from \$795,842 of the total cash match for salary and benefits.

The total cash match of personnel and non-personnel from LD 6 amounted to \$795,842 and \$34,959, respectively. The remaining balance of the \$112,374 matching was contributed from LD 6's sub-recipients.

Head Start and ARRA Early Head Start, Recovery Act (Finding Codes 30000 and 50000): The District satisfied the mandatory non-federal matching requirements mandated by the Head Start Act by using the State and local funding, such as the California State Preschool grant (CSPP), First 5 LA (F5LA) and CalSafe, as a match to pay the partial salaries and benefits for program personnel such as teachers, early education aides and other personnel that rendered services to the ARRA Head Start and ARRA Early Head Start programs.

In our procedures performed over matching contributions to verify if the activities funded by the matching funds were in fact allocated or charged in accordance with the relative benefits received, we

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

sampled 40 employees (31 from ARRA Head Start and 9 from ARRA Early Head Start) and requested supporting documentation (either Semi-Annual Certifications “SAC” or Multi Funded Time Reports “MFTR”) for the matched expenditures. The payroll timesheets which indicated the location where the employee worked supported the direct benefit to the program. However, we noted the following exceptions related to additional supporting documentation to comply with the OMB requirements:

1. MFTRs provided were signed but not dated for 2 employees.
2. The SACs/MFTRs for 23 employees (18 from Head Start and 5 from Early Head Start) were not prepared timely; these were signed and dated subsequent to our requests.
3. The District was unable to provide the timesheet to support the work hours of 1 ARRA Head Start employee; only a MFTR was provided. Since MFTR does not contain location code information, we were unable to verify if the employee actually worked for the ARRA Head Start program. The same employee’s MFTR was also not prepared timely (signed and dated subsequent to our request).

The inadequately supported match for item number 3 above amounted to \$13,375 of \$957,973 sampled from \$1,162,822 of the total cash match for salary and benefits for the ARRA Head Start Program.

For the fiscal year 2010-11, the District reported federal expenditures of \$1,521,679 and \$1,007,028 respectively for ARRA Head Start and ARRA Early Head Start programs.

Cause and Effect

GEAR-UP: The causes of the above conditions were attributed to formula errors in the electronic spreadsheets utilized by the District to track the matching hours and human error in failing to detect the errors.

These findings are repeat findings, having been reported previously for June 30, 2006 to June 30, 2010 (F-06-13, F-07-12, F-08-08, F-09-17 and F-10-06).

Head Start and ARRA Early Head Start (Recovery Act): The District satisfied the non-federal matching requirements mandated by Title 45, Section 1301.20. However, our testing indicated a 65% (sixty five percent) error rate for non-compliance with preparation of the supporting SAC’s and MFTR’s in a timely manner. The cause of the above conditions were due to insufficient controls in place by the District to ensure that salaries and wages of employees used in meeting matching requirements for the ARRA Head Start and ARRA Early Head Start programs, were supported in the same manner as those claimed as allowable costs under Federal awards.

Questioned Costs

GEAR-UP: Questioned costs are not applicable. The deficiencies noted above did not result in incorrect reporting to the grantor. The District’s matching costs for Fiscal Year 2010-11 are not due to the grantor until the FY 10-11 APR submission date of April 2012 and are subject to revisions until such time the report is submitted.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Head Start and ARRA Early Head Start (Recovery Act): The questioned matching costs totaling \$13,375 resulted from the unsupported matching hours (missing timesheets). For the employees whose SACs and MFTRs were not prepared untimely or not dated, there is no questioned cost because we were able to determine with the timesheets and the work locations that the employees in fact worked in the Head Start program and were funded by non-federal funds. However, these exceptions are a result of a control deficiency over the documentation requirements in accordance with Circular A-87 as part of the support for the non-federal matching.

Recommendation

GEAR-UP: District should monitor and review the electronic spreadsheets used for tracking matching costs more closely to ensure that supporting documentation for matching is accurately filled out and summarized for inclusion in the APR.

Head Start and ARRA Early Head Start (Recovery Act): The ARRA Head Start and ARRA Early Head Start programs ended on September 30, 2011 and the contracts with LACOE were not extended. As such, no recommendation would be applicable.

Views of responsible Officials, Planned Corrective Actions, and Contact Information

GEAR-UP: *Grant P334A050178*

This was the first year a self-calculating spreadsheet was used to document match. If this system is used next year (2011-12)

1. Tighter controls will be imposed by not allowing GEAR UP staff access to the sheet containing formulas to eliminate the over and under reporting of match.
2. Regular checks will be throughout the year while documenting match to eliminate more problems at the end of the year.

We have engaged an external evaluator to work with GEAR UP 4 LA. Our understanding is that an online match database system is included in those services which have been tailored for GEAR UP.

GEAR-UP: *P334A060124*

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Match forms will be individually, manually reviewed by the senior office technician and director to correct over-reporting due to manual inputting errors for previous year and regularly on an ongoing basis.

Name: Monique Dacay

Title: Director

Telephone: (323) 806-0941

Head Start and ARRA Early Head Start (Recovery Act): The District agrees with the finding. The District has been able to obtain the Semi-Annual Certification and MFTR for the majority of the employees. These documents, along with the time sheets, provide the necessary support for the matching requirement. Even though adequate documentation was missing for a few employees, the District exceeded the matching dollar amount required by the program. If the District should participate in this program in the future, policies and procedures will be implemented to support and document the matching requirement.

Name: Ted Nelson

Title: Assistant Budget Director

Telephone: (213) 241-3788

Program Identification

Finding Reference Number:	F-11-09
Federal Catalog of Domestic Assistance Number(s):	84.367
Federal Program Titles:	Improving Teacher Quality State Grants, U.S. Department of Education (USED)
Pass-Through Entity:	California Department of Education
Award Number	PCA14344
Compliance Requirement:	Period of Availability
State Audit Guide Finding Code:	30000 and 50000

Criteria

Code of Federal Regulations Title 34 – Education, Part 80 – Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments – Subpart C – Post-Award Requirements, Section 80.23, Period of availability of funds:

- General: Where a funding period is specified, a grantee may charge to the award only costs resulting from obligations of the funding period unless carryover of unobligated balances is permitted, in which case, the carryover balances may be charged for costs resulting from obligations of the subsequent funding period.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- Liquidation of obligations: A grantee must liquidate all obligations incurred under the award not later than 90 days after the end of the funding period (or as specified in a program regulation) to coincide with the submission of the annual Financial Status Report (SF-269). The federal agency may extend this deadline at the request of the grantee.

Condition

In our review of the period of availability, we noted that for all federal grants, the District has implemented alternative policies and procedures to manually monitor the expenditure of funds and the 90-day liquidation period at the end of an award year.

In our procedures of reviewing the District's compliance with the period of availability requirement, we selected samples from each of the grants and noted that for the current year expenditure testing of 60 samples from the Improving Teacher Quality State Grants, 2 transactions totaling \$54,920 were paid for services rendered in fiscal year 2009-10, 90 days after the end of the period of availability, which was September 30, 2010.

Total exceptions amounted to \$54,920 of \$1,981,693 sampled from the \$51,457,171 total program expenditures for the fiscal year ended June 30, 2011.

Cause and Effect

This is an isolated case where the year-end accrual by the program department was not timely determined and submitted to accounts payable branch.

This finding is a repeat finding; it has been reported previously for June 30, 2005 – June 30, 2009 (F-06-17, F-07-18, F-09-09, and F-10-09)

Questioned Costs

\$54,920

Recommendation

We recommend that the District continue to closely monitor the expenditures charged to an appropriate grant award period.

Views of Responsible Officials and Planned Corrective Actions

The District agrees that certain transactions were either not accrued or liquidated properly. The District will continue with its established procedures to closely monitor the expenditures charged to an appropriate grant award period. The District will continue to review these procedures for opportunities to improve the controls over period of availability.

Compliance Requirement: Procurement, Suspension and Debarment

State Audit Guide Finding Code: 30000

Criteria

Code of Federal Regulations, Title 34 – Education, Part 80 – Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments – Subpart C – Post-Award Requirements, Section 80.36, Procurement:

- Procurement standards:
 - i. Grantees and subgrantees will use their own procurement procedures, which reflect applicable state and local laws and regulations, provided that the procurements conform to applicable federal law and the standards identified in this section.
 - ii. Grantees and subgrantees will maintain records sufficient to detail the significant history of a procurement. These records will include, but are not necessarily limited to the following: Rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.
- Methods of procurement to be followed:
 - i. Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source, or after solicitation of a number of sources, competition is determined inadequate.
 - a. Procurement by noncompetitive proposals may be used only when the award of a contract is infeasible under small purchase procedures, sealed bids or competitive proposals and one of the following circumstances applies:
 - (A) The item is available only from a single source;
 - (B) The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
 - (C) The awarding agency authorizes noncompetitive proposals; or
 - (D) After solicitation of a number of sources, competition is determined inadequate.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- ii. Cost analysis, i.e., verifying the proposed cost data, the projections of the data, and the evaluation of the specific elements of costs and profits, is required.

Condition

In our procurement sample testing of 40 expenditures funded by Title I Grants to LEA, 26 samples were related to purchases of supplies and equipment through a master contract between the District and the vendors. In our procedures performed to verify contract rates were properly applied, we noted that items purchased for 9 purchase orders totaling \$1,027,973 were not covered in the master contracts. These items were quoted separately with a discounted price; however, the quotation presented only the discounted price and it did not include the original price. Through our discussion with the procurement personnel, we were informed that its current policies and procedures did not require the District's buyers to verify the reasonableness of the original price or to perform any additional procurement procedures.

Cause and Effect

The District's current policies did not include procedures to ensure that purchases through master contracts be subject to normal competitive bids process if the items were not covered in the contracts when originally procured.

Questioned Costs

Not applicable. This is an internal control issue over procurement procedures for purchases through the master agreement.

Recommendation

The District should update the existing policies and procedures to require additional price analysis to be performed for items purchased from a vendor master contract that was not covered/listed in the master contract.

Views of Responsible Officials and Planned Corrective Actions

We agree with the finding and will modify our appropriate desktop procedures to require procurement staff to validate discounts received followed up with verification of discount by accounts payable. This requirement may be evaluated and addressed as part of the blueprint phase of SAP Release 3 SRM module.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Program Identification

Finding Reference Number:	F-11-11
Federal Catalog of Domestic Assistance Number(s):	93.575 and 93.596
Federal Program Title:	Child Care and Development Fund: Child Care and Development Block Grant, Child Care Mandatory and Matching Funds of the Child Care and Development Fun, Department of Health and Human Services.
Pass-Through Entity:	California Department of Education
Award Numbers:	CCTR-0124 and CSPP-0227
Compliance Requirement:	Program Income
State Audit Guide Finding Code:	30000

Criteria

Section IV – F of the District Contract with CDE General Child Care and Development Program Requirements:

For contractors providing direct services to children, fees shall be considered delinquent after seven (7) calendar days from the date the fees were due.

A Notice of Action, Recipient of Services shall be used to inform the family of the following:

1. The total amount of unpaid fees
2. The fee rate
3. The period of delinquency
4. Services shall be terminated two (2) weeks from the date of the Notice unless all delinquent fees are paid before the end of the two-week period.

Condition

In our procedures performed for the parent fee collection, we noted that a total past due amount of \$95,893 from the parents as of June 30, 2011 was recorded in the District's Early Education Student Information System (EESIS). Of the total, \$55,595 was outstanding for 120 days or more, \$5,939 between 90 to 120 days, \$8,431 between 60 to 90 days, \$6,726 between 30 to 60 days and \$19,202 for less than 30 days. These outstanding amounts were spread over 714 families and 99 centers.

We further randomly selected 5 families who had outstanding balances over 120 days and verified if those families were properly terminated. Based on our review and discussion with the Child Care Centers responsible personnel, we noted that all 5 families continued to receive services beyond the end of Fiscal Year 2010-11 and payment plans were not implemented until October 2011 and November 2011 when this issue was brought to their attention.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Cause and Effect

There appears to be a lack of adequate internal controls to ensure the parent fees are collected by the child care centers timely.

Questioned Costs

\$95,893

Recommendation

We recommend the District implement an adequate system to monitor the collection of the parent fees timely and to ensure that the follow-up action is taken to comply with the Notice of Delinquency rule.

Views of responsible Officials and Planned Corrective Actions

The District agrees with the finding. In November 2011, the Early Childhood Education (ECE) Division conducted training for Principals and Office Managers on how to collect delinquent fees using the Early Education Student Information System (EESIS). This included how to set up alerts reminding Office Managers that fees are due, how to properly record payment of late fees, and how to create a payment plan for families owing money to the District. Emphasis was placed upon terminating families from the program if delinquent fees are not paid. They were also instructed on how to flag them in EESIS so that they would not be able to enroll at a different site without paying past due fees. This training will be conducted yearly.

- (b) The financial management systems of other grantees and subgrantees must meet the following standards:
- (6) *Source documentation.* Accounting records must be supported by such source documentation as cancelled checks, paid bills, payrolls, time and attendance records, contract and subgrant award documents, etc.

Condition

Vocational Education Basic Grants to States: *Program Reporting:* In our procedures performed over programmatic reporting, we noted that the District compiled CDE Form 101: E1 Report of Career Technical Education Enrollment and Program Completion (CDE Form 101 or E1) for secondary education by retrieving data submitted by individual schools and the Student Information System (SIS). Further, we noted that the District class code was converted to the CBED code for secondary education.

In order to test the accuracy of the data reported on the E1, for Secondary Vocational Education, we selected 7 CBEDs and traced student population data reported on the E1 and E2 to SIS and noted discrepancies between the numbers of the students reported. In the E1 report for school year 2009-2010, we were unable to reconcile the data on all 7 CBEDs to the baseline information from SIS. The discrepancies noted in E1 were also carried forward to the numbers of the students reported in E2 because numbers of students reported on E1 was the basis for the E2 report.

CBED	CTE Category	SIS School Data	CDE E2 Report	Variance Over(Under)
4298	Ethnicity	465	135	(330)
4421	Ethnicity	389	387	(2)
4613	Ethnicity	375	286	(89)
5557	Ethnicity	186	166	(20)
5661	Ethnicity	63	51	(12)
5756	Ethnicity	203	115	(88)
4050	Ethnicity	882	1173	291

ARRA – Head Start: As per the District’s contract with the grantor, LACOE, the District is required to submit Center-based Monthly Attendance Reports (CMARs) to LACOE providing details of the number of days present, excused absences and unexcused absences for each student enrolled at the center. The District uses parent sign-in and sign-out sheets to record attendance for students at each of the District’s Head Start centers, which are then summarized and reported to LACOE at the end of each month.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

In our procedures performed to test the accuracy of the CMARs submitted to LACOE, we selected sixty (60) students from 4 months (15 from each month) and requested the CMARs and the parent sign-in and sign-out sheets for the corresponding months sampled. Our verification of the number of days present, excused absences and unexcused absences between the CMARs and the sign-in and out sheets disclosed the following:

1. 12 unexcused absences had been inadvertently reported as excused absences for 6 students;
2. 9 unexcused absences had been inadvertently reported as days present for 3 students;
3. 3 excused absences had been inadvertently reported as days present for 2 students;
4. 1 day present had been inadvertently reported as excused absence for 1 student.

21st CCLC: In our procedures performed over the attendance reporting to the California Department of Education (CDE), we sampled the two (2) Semiannual Attendance Reports (SAR) to CDE and 25 schools to trace the reported attendance information from the District's SAR submitted to CDE to the "Monthly Attendance Report" (MAR), a report provided directly by the District's individual afterschool providers related to the school attendance data. We noted that the attendance was over-and-underreported for 2 and 12 schools, respectively.

Agency	School Name	Attendance to CDE	Attendance per MAR	Over(Under) Reported
Boys & Girls Club of Carson	Carson Senior High	13,627	13,443	184
Woodcraft Rangers	Manual Art Senior High	9,062	8,530	532

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

In another procedure performed over the attendance reported by the District's sub-recipients funded by 21st CCLC, we tested the attendance documentation of 933 students from 13 schools for the After School Education and Safety Program (ASES), which was jointly funded by State and Federal.

There were a total of 86 students in 7 different schools who did not have complete sign-in and sign-out time on the sign-in/sign-out sheets (note: exceptions noted for the following five (5) elementary schools were also reported on S-11-05 of the Findings and Questioned Costs Relating to State Awards). Some students didn't have either the sign-in time or sign-out time. Some students didn't have both. As a result, we were unable to determine how long each student participated in the program. The following are the details of the exceptions:

- **Apperson Elementary School**- 12 students signed in, but did not properly sign out for a total of 12 days.
- **116th Elementary School** - one (1) student signed in, but did not properly sign out for a total of one (1) day.
- **20th Elementary School** – 12 students signed in, but did not properly sign out for a total of 60 days.
- **Grape Elementary School**- five (5) students signed in, but did not properly sign out for a total of eight (8) days.
- **Griffin Elementary School** – one (1) student signed in, but did not properly sign out for a total of one (1) day.
- **Banning High School** ¹– forty-six (46) students signed in, but did not properly sign out for a total of one (1) day.
- **Los Angeles High School** ¹ – nine (9) students signed in, but did not properly sign out for a total of one (1) day.

¹ School funded by 21st CCLC only.

We also obtained the Quarterly Attendance Reports (QAR) for the same schools we sampled and compared the total attendance reported to the attendance records (e.g. sign in/sign out sheets) for the schools for a sample week during the school year 2010-2011. We also tested the completeness and accuracy of the reports by selecting a sample of the students and tracing the same students to attendance records and vice versa. QARs are reports used by the District to report attendance to the California Department of Education (CDE). We noted the following exceptions:

- **Millikan Middle School** – QAR was overstated by 24 days, compared to the sign-in sheets. Upon examining the QAR, we also noted that two (2) students were entered three times on the QAR for the entire week tested, overstating it by 20 days. In addition, three (3) students marked present for a total of seven (7) days on the QAR were not found on the sign in sheets. We also noted three (3) students marked present for three (3) days on the sign-in sheets were not found on the QAR.
- **Colfax Elementary School** - QAR was understated by 15 days, compared to the sign-in sheets.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- **20th Elementary School** – QAR was overstated by two (2) days, compared to the sign-in sheets. We noted that three (3) students marked present for three (3) days in the QAR were not found in the sign in sheets.
- **State Street Elementary School** – QAR was overstated by five (5) days, compared to the sign in sheets.
- **28th Elementary School** – We noted that one (1) student marked present for one (1) day in the QAR was not found in the sign in sheets. We also noted five (5) students marked present for a total of five (5) days in the sign-in sheets were not found on the QAR.
- **Chavez Elementary School** – We noted two (2) students marked present for a total of two (2) days in the sign-in sheets were not found on the QAR.
- **Grape Elementary School** – We noted that one (1) student marked present for one (1) day in the QAR was not found in the sign in sheets.
- **Lizarraga Elementary School** – QAR was understated by two (2) days, compared to the sign-in sheets. We also noted three (3) students marked present for a total of three (3) days in the sign-in sheets were not found on the QAR.
- **Banning High School** – We noted nine (9) students marked present in the QAR but were not found in the sign-in sheets. We also noted twenty-four (24) students marked present in the sign-in sheets were not found on the QAR.
- **Arleta High School** – We noted six (6) students marked present in the QAR but were not found in the sign-in sheets. We also noted eleven (11) students marked present in the sign-in sheets were not found on the QAR.
- **Manual Arts High School** – We noted twenty –three (23) students marked present in the sign-in sheets were not found on the QAR.
- **North Hollywood High School** – We noted three (3) students marked present in the QAR but were not found in the sign-in sheets. We also noted ten (10) students marked present in the sign-in sheets were not found on the QAR.
- **Los Angeles High School** – We noted six (6) students marked present in the QAR but were not found in the sign-in sheets. We also noted three (3) students marked present in the sign-in sheets were not found on the QAR.
- **Carson High School** – We noted thirteen (13) students marked present in the QAR but were not found in the sign-in sheets. We also noted six (6) students marked present in the sign-in sheets were not found on the QAR.
- **Narbonne High School** – We noted one (1) student marked present in the sign-in sheets were not found on the QAR.

Cause and Effect

Vocational Education Basic Grants to States: The District's policy does not require documentation to be maintained to support numbers reported on E1 and E2 and any reconciliation between the information submitted by the individual schools and SIS. The District does not have policies and procedures in place to ensure accuracy of the conversion from CDE course definition to the District secondary education class code.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

This is a repeat finding from June 30, 2006 to June 30, 2010 (F-06-25, F-07-25, F-08-18, F-09-15 and F10-11).

ARRA – Head Start: Our sample testing of the attendance reporting process indicated a 20% error rate. The causes of the above conditions were due to insufficient controls in place by the District to adequately record and report attendance of the students enrolled in the program.

21st CCLC: In general, there does not appear to be effective controls in place to ascertain that sufficient documentation is maintained to support the District's compliance with reporting under this grant. Additionally, The District's internal control policy and procedures do not require documentation to be maintained to support the reconciliation between the MAR and SAR and do not require that SARs be reviewed and approved by the supervisor prior to submission.

This is a repeat finding from June 30, 2006 – June 30, 2011 (F-06-36, F-07-33, F-08-22, F-09-20, and F-10-12).

Questioned Costs

Vocational Education Basic Grants to States: Not applicable. This finding is considered a programmatic non-compliance issue as well as a deficiency in the internal control system over the reporting to CDE.

ARRA – Head Start: This finding is a reportable condition in internal control over the attendance recording and reporting process. Questioned costs may not be applicable because the program was a cost-reimbursement contract not based on attendance reported.

21st CCLC: Questioned cost is not applicable as the payments for this program is not made based on the basis of attendance.

Recommendation

Vocational Education Basic Grants to States: The District should implement policies and procedures to strengthen its controls over reporting for the Secondary Vocational Education program, to ensure that reports are accurately reconciled to the actual data. The District should consult with CDE to determine if it is required to resubmit the revised reports with corrections.

ARRA – Head Start: The Head Start and Early Head Start programs ended on September 30, 2011 and the contracts with LACOE were not extended. As such, no recommendation would be applicable.

21st CCLC: The District should strengthen its procedures on attendance documentation to ensure that the agencies performing the services for these programs are aware of the District's policies, specifically on

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

maintaining accurate attendance records. The District should also continue to perform monitoring site visits to review closely the attendance report process of its agencies.

The District should strengthen its controls to ensure attendance data is compiled and reported accurately. The District should also maintain sufficient documentation to support its results of the reconciliation between the SAR and MAR.

Views of Responsible Officials, Planned Corrective Actions, and Contact Information

Vocational Education Basic Grants to States: We are in the process of updating or making changes in our SIS system. The corrections that are being made are the following.

1. Clerical personnel have changed District-wide due to budget cut. DATA on CTE students has not been populated in the correct field in SIS. We are now having the Advisors populate field 231 in the SIS system which is the Career Field. They will also populate the graduation information fields in April and May, 2012 which is the same calendar at high school sites.
2. We are changing field 231 to reflect the current pathways offered in LAUSD. That change is from 5 pathways to 58 pathways. The change in SIS was implemented on December 1, 2011. For school years 2010-2011 and 2011-2012, we will be able to have better information on CTE students.
3. We are working on the formula for extracting the accurate information from the SIS system. Also, we are working on information on completers in the year the student completed the pathway. Furthermore, we are developing a formula in SIS for seniors who have finished completer courses and have continued the pathway post-secondary.
4. We have set a new calendar for checking the process for populating fields, retrieving and reporting DATA on students.

Name: Kathy Halsey

Title: Coordinator

Telephone: (213) 241-5687

ARRA – Head Start: The District agrees with the finding. Should the District participate in this program in the future, policies and procedures over reporting will be implemented and school personnel will be trained on reporting requirements and procedures.

Name: Ted Nelson

Title: Assistant Budget Director

Telephone: (213) 241-3788

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

21st CCLC: The following is a synopsis of the audit finding and the corrective measures implemented to ensure the programs comply with the requirement in the Education Code, operate at full capacity and offer students the best possible programming while maximizing our resources:

The finding demonstrates the need to strengthen our policies and procedures on attendance documentation for the 21ST Century Community Learning Centers Program (CCLC) and explain how we would provide more training on the policies and procedures to our numerous after-school providers so that attendance documentation is accurate when it is reported.

LAUSD - Beyond The Bell Branch has implemented the following procedures to ensure that we are providing training on attendance policies and procedures as well as how we are monitoring how the procedures are being implemented at the sites to ensure documentation of reported attendance figures is readily available and accurate for auditing purposes.

1. Agency contractors and program personnel are required to attend a **“Start-Up Meeting”** scheduled prior to the beginning of the school year. Extensive training on attendance documentation is offered during this meeting.
2. During the “Start-Up Meeting,” extensive time is spent on training staff on the importance of properly documenting and maintaining accurate attendance.
3. Beyond the Bell Branch Administrators and Traveling Supervisors attend the training meeting and interject their role in monitoring attendance procedures as they travel to sites. Beyond the Bell staff routinely monitor attendance to ensure procedures are being used and documentation is maintained as required.
4. Contractors and agency program personnel are required to attend an annual **“Policies and Procedures/Risk Management”** training. **As a result of the audit finding** and reflection on best practices, Beyond the Bell has developed an attendance documentation training scheduled for implementation for the 2011 – 2012 year. The training is offered on a monthly basis. Newly hired personnel must register for and attend the next available training date. Returning personnel must register for and attend the training during the fiscal year.
5. The following “Policies and Procedures/Risk Management” training dates are scheduled for the 2011 – 2012 year (NOTE: Attendance Documentation has been implemented as a result of previous audit findings):
 - 8/30/11, 8/31/11, 9/6/11, 9/21/11, 10/22/11, 11/19/11, 12/14/11, 1/21/12, 2/16/12, 3/14/12, 4/21/12, 5/19/12, & 6/13/12
6. Contractors and agency program personnel are required to attend Federal **Program Monitoring (FPM)** training. The FPM training reflects the CDE’s Program Dimensions. The goal of this training is to offer personnel a best practices approach to running exemplary programs that comply with the requirements in the Education Code. Extensive training on “attendance documentation” is offered during this meeting.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

7. Beyond The Bell Branch conducts “**site visits**” to monitor program quality and student attendance through:

Field Office Administrators

- Certificated Administrators conduct site visits to evaluate and monitor agency program implementation. Attendance documentation is closely monitored during these site visits.

Field Office Traveling Playground Supervisors

- Classified/Unclassified Traveling Playground Supervisors conduct weekly visits to evaluate and monitor agency program implementation. Attendance documentation to ensure appropriate staff-to-student ratio and observation of sign-in/sign-out procedures is closely monitored during these site visits.

Central Office Administrators

- Central Office Administrators conduct site visits to evaluate and monitor agency program implementation. In addition to program quality and compliance, attendance documentation is closely monitored during these site visits.

8. Beyond the Bell Branch conducts “**Random Reviews/Audits of Monthly Attendance Reports**” to examine agency sign-in/sign-out procedures. The agency’s “Attendance Documentation” procedures are further evaluated to ensure the agency’s record keeping corresponds to data submitted to Beyond the Bell. In addition, evaluation of these documents ensures they:

- Comply with Beyond the Bell’s “Early Release Policy.”
- Verify the sign-in/sign-out forms are certified by Site Coordinator.
- Contain Student ID Numbers.

9. To ensure the documentation for the 21st CCLC Program accurately reflects the number of students served and reported to the California Department of Education by the District, Beyond the Bell Branch contracted with City-Span Technologies Incorporated (A nationally recognized service firm which specializes in administering online attendance monitoring programs.) to administer an online attendance reporting and monitoring system. Beyond the Bell Branch through our needs assessments and evaluations recognized the need to strengthen our internal controls to ensure attendance data is compiled and reported accurately. Furthermore, Beyond the Bell Branch recognizes the need to maintain sufficient documentation for the reconciliation between the District’s Quarterly Attendance Reports (QAR) and information submitted to the California Department of Education. Consequently, Beyond the Bell’s gathering of attendance data and reporting procedures has evolved. As a result of previous audit findings, the following system and procedures have been implemented:

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- **Monitoring has been strengthened from quarterly to monthly** and all contractors and staff are now required to submit attendance documentation monthly which has resulted in more accurate attendance reporting to the CDE.
- **Beyond the Bell issues a current "Alpha List"** containing student identification numbers to agencies. Prior to this practice, agencies were responsible for obtaining student identification numbers from schools. Frequently, the information was outdated or incomplete.
- Agencies **submit their attendance electronically** through a secured website to City-Span Technologies Incorporated.
- A **discrepancy report is issued** to agencies requesting them to make corrections of errors when they are identified.
- Agencies **correct and resubmit** the reports and discrepancies are fixed in attendance reports.
- The reporting of attendance to the California Department of Education (CDE) is accomplished on-line bi-annually through the ASSIST through close collaboration with CDE's technical staff to ensure accurate transfer of the information.
- As a result of the volume generated by Beyond the Bell programs, **the CDE has approved the submission** of attendance through an EXCEL program via e-mail. Personnel at CDE then upload the data into ASSIST. Once the data is in the system, the Beyond the Bell designee approves the data submitted.

We will continue to monitor these changes in protocol to ensure that the procedures are followed and all information is reported accurately and documented as necessary for auditing purposes. Should problems arise in any area for contractors or staff, Beyond the Bell will alter and refine the process accordingly to ensure continuous improvement in operations continues.

Criteria

Title 7 – Agriculture, Chapter II – Food and Nutrition Service, Department of Agriculture, Part 210 – National School Lunch Program, Subpart B – Reimbursement Process for States and School Food Authorities, Section 210.8, Claims for reimbursement:

Internal controls. The school food authority shall establish internal controls which ensure the accuracy of lunch counts prior to the submission of the monthly Claim for Reimbursement. At a minimum, these internal controls shall include: an on-site review of the lunch counting and claiming system employed by each school within the jurisdiction of the school food authority; comparisons of daily free, reduced-price and paid lunch counts against data that will assist in the identification of lunch counts in excess of the number of free, reduced-price, and paid lunches served each day to children eligible for such lunches; and a system for following up on those lunch counts that suggest the likelihood of lunch-counting problems.

School food authority claims review process. Prior to the submission of a monthly Claim for Reimbursement, each school food authority shall review the lunch count data for each school under its jurisdiction to ensure the accuracy of the monthly Claim for Reimbursement. The objective of this review is to ensure that monthly claims include only the number of free, reduced price and paid lunches served on any day of operation to children currently eligible for such lunches.

Condition

Meal counting process:

In the past, the District has been using the Food Services Data Capture (FSDC) system to record the number of meals served at its school sites (performed by physically counting and entering the number of meal tickets collected at meal times) and the Unisys system to report the meals to California Department of Education (CDE) for reimbursement purposes. In November 2009, Food Services Branch (FSB), which administers the meal programs at all of the District's schools, implemented the Cafeteria Management System (CMS) to replace its legacy systems of FSDC and Unisys. Initially the CMS was only implemented for back-of-house purposes, such as reporting to CDE and inventory management. Starting April 2010, FSB started rolling out the CMS at Points of Service (POS) for initial meal count data capture at its schools in a phased in manner. As of April 2011, 219 schools had implemented the CMS POS. The POS is designed to replace the legacy system of paper meal tickets with an electronic software application that stores and connects information relating to the student names, their meal eligibilities (free, reduced price or full price) and their photographs by homeroom. At meal times, the POS terminals, which resemble touchscreen computer monitors, display the names and photographs of the students for one homeroom at a time and the students line up by homeroom at the cafeteria windows to collect their meals. In order to record meal counts, the cafeteria workers operating the terminal tap the

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

appropriate photograph image or name of the student as the student passes through the terminal with his/her meal. This ensures that the meal claimed can be traced back to the particular student and his/her eligibility.

During our procedures to observe the operation of the CMS – POS (at fourteen of the District's schools), we observed students lined up at the window with their meals and the cafeteria workers operating the POS tapped the appropriate student's picture on the POS screen to signify that the transaction was complete. We further noted that the students appeared in rapid succession and in more than one instance, the cafeteria workers tapped the screen even before the student appeared at the window; in some instances the students appeared later and the cafeteria workers realized that the wrong pictures had been tapped and made a note of the names to be rectified later. It appeared very likely that the POS operators would tap the wrong pictures and not notice the mistakes. Therefore, we designed our substantive procedures to test the CMS to verify if a student who was absent on a specific day was claimed as having been served a meal on that day.

Accordingly, we selected 8 schools that had CMS implemented at POS. We then selected 5 students from each of the 8 schools for a total of 40 students. For these 40 students, we obtained the Student Monthly Attendance Summary (SMAS) reports for 1 month, each showing the dates on which the student was absent (the SMAS reports used for testing were tested without exception, by us for the state compliance attendance audit). Total number of absences tested for the 40 students were 85 days.

We also obtained CMS meal history reports for the 40 students for the month tested showing the dates on which each student ate a school meal (breakfast and/or lunch). A comparison of the SMAS reported absences and the CMS meal history reports showed that for 11 out of the 40 students, at least one breakfast or lunch was claimed in CMS for the day even though the student was absent. The total number of meals over claimed, was 3 breakfasts and 14 lunches, over 14 days.

Claims Review Process:

Upon inquiry, we noted that prior to submission of monthly claims for reimbursement; the FSB performed an analysis of meal count data by location to test for reasonableness. For this purpose, the FSB had its six Accounting Technicians (ATs) download meal count reports from the CMS and compare the current month data with the preceding month's and preceding six months' data. A comparison was also made to see if the meal count for each day of the month was reasonably close to the month's average. However, we noted that the FSB did not have a formalized standard set of procedures to be followed by its ATs; as a result, each of the ATs performed his/her own procedures. Further, not all the ATs maintained a copy of the analysis performed each month. Therefore, we were unable to test if the analysis was in fact performed as represented to us.

Cause and Effect

Our sample testing of the meal count process indicated a 25% error rate. It appears that a lack of oversight and adequate training of the CMS-POS meal count process at the school cafeteria level has resulted in some over counting of meals served.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

It appears that the District has policies in place that require an analysis of meal counts prior to claims for reimbursement. However, the policies do not require documentation to be retained to evidence the analyses performed. Also, the policies do not prescribe a standard set of analysis procedures to be performed by each FSB AT.

Questioned Costs

This finding is a reportable condition in internal control over the meal count process and the claims review process. The question cost for the over claimed meals is \$43.36 which is less than \$10,000, the OMB Circular A-133 510(a)(3) requirement for reporting of known questioned costs.

Recommendation

We recommend the District train its POS operators to be more diligent and careful while recording meal counts. This will ensure meals are claimed only for those students that were actually present. We recommend that the District strengthen its controls regarding the meal count reconciliation process to include a standard set of procedures, as well as the need to maintain documentation of analyses performed.

Views of responsible Officials and Planned Corrective Actions

Food Services reviewed the information provided and has the following response:

Student meals are rung up in the POS system at the checkout point. All students on the list are at Elementary schools. Elementary students line up by classroom and alphabetically. Food Services is constantly requesting schools to provide photographs for students so that the cashier can not only verify the name but also match the student's face to the photograph.

- All the students on the list had a photograph in the POS system with the exception of 3 students.
- While there is always a possibility for human error with the cashier accidentally hitting the wrong student's name on the POS screen, the possibility for error is low especially when the student can be matched by both name and face. Also, students are required to state their name to the manager.

Based on this report we will do the following to inform our managers of the findings and highlight and emphasize to our staff:

- Follow up with school Principals to provide student photographs at the beginning of the school year and follow up on students without photographs, during the course of the year. Please note we have to rely on the school Principals for student photographs.
- Pay greater attention to matching both the name and face of the student to the name and photograph in the POS at the checkout point.

Criteria

Subpart C—Auditees §___.300 Auditee responsibilities.

The auditee shall:

- (a) Identify, in its accounts, all Federal awards received and expended and the Federal programs under which they were received. Federal program and award identification shall include, as applicable, the CFDA title and number, award number and year, name of the Federal agency, and name of the pass-through entity.
- (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs.
- (c) Comply with laws, regulations, and the provisions of contracts or grant agreements related to each of its Federal programs.
- (d) Prepare appropriate financial statements, including the schedule of expenditures of Federal awards in accordance with §___.310.

§___.310 Financial statements.

- (b) Schedule of expenditures of Federal awards. The auditee shall also prepare a schedule of expenditures of Federal awards for the period covered by the auditee's financial statements. While not required, the auditee may choose to provide information requested by Federal awarding agencies and pass-through entities to make the schedule easier to use. For example, when a Federal program has multiple award years, the auditee may list Federal programs included in a cluster of programs, list individual Federal programs within a cluster of programs. For R&D, total Federal awards expended shall be shown either by individual award or by Federal agency and

major subdivision within the Federal agency. For example, the National Institutes of Health is a major subdivision in the Department of Health and Human Services.

Code of Federal Regulations Title 34 – Education, Part 80 – Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, Subpart C – Post – Award Requirements, Section 80.20, Standards for financial management systems:

- A State must expand and account for grant funds in accordance with State laws and procedures for expending and accounting for its own funds. Fiscal control and accounting procedures of the State, as well as its subgrantees and cost-type contractors, must be sufficient to:
- Permit preparation of reports required by this part and the statutes authorizing the grant, and
- Permit the tracing of funds to a level of expenditures adequate to establish that such funds have not been used in violation of the restrictions and prohibitions or applicable statutes.

The financial management systems of other grantees and subgrantees must meet the following standards:

- Financial reporting: Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance with the financial reporting requirements of the grant or subgrant.
- Accounting records: Grantees and subgrantees must maintain records which adequately identify the source and application of funds provided for financially assisted activities. These records must contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income.

Condition

In our review of the first draft schedule of expenditures of federal awards (SEFA), including the accuracy of the CFDA numbers, the accuracy and completeness of expenditure amounts reported and the grouping of the clustered programs on the SEFA, we noted the following errors:

1. The total federal awarded amount reported on the SEFA was erroneously under-reported by \$237,099,030 due to a formula footing error;
2. Expenditures for two (2) non-federal funded grants were included in the original SEFA causing an over-reporting of \$1,506,902 (\$669,014 reported under CFDA #93.709 and \$837,888 under CFDA #84.215);
3. The passed through entity for CFDA #17.245 was inadvertently reported under the California Department of Education instead of Employment Development Department;
4. The following programs were not reported as a cluster in accordance with the OMB Circular A-133:
 - Student Financial Assistance Cluster: CFDA #84.007, #84.033 and #84.063
 - Vocational Rehabilitation Cluster: CFDA #84.126 and 84.390
 - Head Start Cluster: CFDA #93.708 and #93.709

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

5. In June 2011 the District received notification from the pass-through entity requiring the Head Start Cluster programs (a non-major program) to be audited as a major program in the District's 2010-11 Single Audit. However, this was not communicated to the auditors prior to their discovery of the letter.

Note that all errors were corrected in the final SEFA.

Cause and Effect

The determination of which programs will be audited and audit costs are affected by the accuracy of the SEFA at the time of the audit. An inaccurate SEFA can affect the amount of audit coverage required, and delay an audit beyond the required reporting deadline. In addition, should omissions or other errors be made and not identified in a timely manner, the District could miss its federal reporting deadline, jeopardize future federal funding and report its financial information inaccurately to grantors. Timely accurate reporting is an important accountability measure.

Questioned Costs

Not applicable. This finding is considered a significant internal control deficiency over reporting.

Recommendation

The District should implement policies and procedures to strengthen its controls over the preparation and review of the SEFA, to ensure that all federal grant information and awarded amounts are accurately reconciled and correctly reported.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the finding. The District will review its procedures and make improvements as necessary. The District will ensure that proper controls are in place to allow for accurate SEFA reporting next fiscal year.

Criteria

Title I Part A--Improving Basic Programs Operated by Local Educational Agencies

Sec. 6339. Carryover and waiver

- (a) Limitation on carryover - Notwithstanding section 1225(b) of this title or any other provision of law, not more than 15 percent of the funds allocated to a local educational agency for any fiscal year under this subpart (but not including funds received through any reallocation under this subpart) may remain available for obligation by such agency for one additional fiscal year.
- (b) Waiver – A State educational agency may, once every 3 years, waive the percentage limitation in subsection (a) of this section if:
 1. the agency determines that the request of a local educational agency is reasonable and necessary; or
 2. Supplemental appropriations for this subpart become available.

Code of Federal Regulations Title 34 – Education, Part 80 – Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, Subpart C – Post – Award Requirements, Section 80.20, Standards for financial management systems:

- A State must expand and account for grant funds in accordance with State laws and procedures for expending and accounting for its own funds. Fiscal control and accounting procedures of the State, as well as its subgrantees and cost-type contractors, must be sufficient to:
- Permit preparation of reports required by this part and the statutes authorizing the grant, and
- Permit the tracing of funds to a level of expenditures adequate to establish that such funds have not been used in violation of the restrictions and prohibitions or applicable statutes.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

The financial management systems of other grantees and subgrantees must meet the following standards:

- Financial reporting: Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance with the financial reporting requirements of the grant or subgrant.

Accounting records: Grantees and subgrantees must maintain records which adequately identify the source and application of funds provided for financially assisted activities. These records must contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income.

Carl D. Perkins Career and Technical Education Improvement Act of 2006: CDE Grant Number 09-14894: Grant Award Notification states:

6. All Perkins IV funds must be expended within the dates designated and for the maximum amount indicated in the AO-400. Encumbrances may be made at any time after the beginning date of the grant stated on the AO-400. All funds must be expended or legally obligated by June 30, 2010. Any funds left unclaimed after September 30, 2010, will revert to the CDE for reallocation to other LEAs. Unauthorized expenditures shall become the responsibility of the LEA. No extension of this grant will be allowed.

Medical Assistance Program: Code of Federal Regulations Title 42 – Public Health, Part 431 – State Organization and General Administration, Subpart A:

- Submit all reports required by the Secretary;
- Follow the Secretary's instructions with regard to the form and content of those reports; and
- Comply with any provision that the Secretary finds necessary to verify and assure the correctness of the reports.

Condition

Title I Basic Grants to LEA's: In our procedures performed for expenditures reported for Title I Basic, we noted that the total expenditures reported in the Consolidated Application (ConApp) for the 2009-10 grant included accrued expenditures of \$7,226,844 (also called AC transactions) for the fiscal year 2009-10. *(Note that the final expenditures for 2009-10 are included in Part II of ConApp which is due to CDE in January 2011).* Of the total accrual, we noted that \$631,252 was subsequently adjusted in December 2010 by the District's Accounts Payable as over-accrual. However, the total expenditure reported on the ConApp submitted to CDE was not adjusted accordingly. As a result, the program cost was over-reported and the carryover amount thus under-reported.

Vocational Education Basic Grants to States: In our review of the Final Claim Document covering actual expenditures on the Carl D. Perkins Section 131 Secondary, Grant #09-14894 for the grant period ending June 30, 2010, we noted that a total of \$157,602 was obligated but not spent; however, such unspent funds had not been refunded to the grantor.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Medical Assistance Program: The Medicaid program is a national health care program designed to furnish medical assistance to families; to the aged, blind, disabled; and to individuals whose income and resources are insufficient to meet the cost of necessary medical services. The District is reimbursed for the salaries of the employees who are involved with the eligible activities. To claim the salary expenditures incurred for such activities, employees are required to perform a Time Survey quarterly. The Time Survey is a representative sample of staff's work, which is to be used as the basis of the Medi-Cal Administrative Activities (MAA) claim. The ratio of MAA time to total hours of the employees who participated in the Time Survey is the basis used for claims. That ratio is then applied to total salaries and other expenditures for the reporting period. Calculated expenditures are reduced by 50% to arrive at the reimbursable claims.

During our review, we noted that the District's current policies included certain procedures to identify and exclude the employees who were funded by any federal programs in the quarterly claim calculations. Further, through our discussion with the District, we noted that procedures performed for such were only for payroll expenditures recorded in SAP, the District's payroll system, which interfaces with their book of records, IFS. However, we noted that there were adjustments related to payroll that were booked directly in IFS. These adjustments; therefore, were not subjected to this analysis. As such, it is possible that there may have been payroll that were originally funded by non-federal program and recorded in the SAP that was adjusted in IFS to other federally funded programs.

Cause and Effect

Title I Basic Grants to LEA's: According to the NCLB regulations, LEAs may only carry over 15% of its allocation from one year to the next. The State is permitted to waive this 15% limitation once every three (3) years. Had the District's carry over amount exceeded the 15% limitation in the year when the waiver was not allowed, the adjustment for the over-accrual is required to be returned to the grantor. For the fiscal year 2009-10, the District requested an approval from CDE to carry over more than 15%; as such, the adjustment of \$631,252 was allowed to be spent and obligated until September 30, 2011.

Vocational Education Basic Grants to States: The District's existing policy did not include a monitoring review of unspent fund to be returned in a timely manner.

Cause and Effect

Medical Assistance Program: The District's existing policy did not include a review of these journal entries recorded in the IFS.

This is a repeat finding from fiscal year 2009-10 (F-10-13).

Questioned Costs

Title I Basic Grants to LEA's None noted. This is a control deficiency over reporting procedures.

Vocational Education Basic Grants to States: \$157,602

Questioned Costs

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Medical Assistance Program: We were unable to determine a possible questioned cost since a system has not been set-up by the District to track all the journal entries that could have an impact on the Medicaid claims process.

Recommendation

Title I Basic Grants to LEAs: We recommend that the District amend its existing policies and procedures to require any adjustments made subsequent to the reporting period (September 30) for the Title I be communicated to the Budget Division timely for proper carryover calculations and reporting. The District should update its current accounting procedures to include timely refunding of any unspent grant funds be returned to grantors.

Vocational Education Basic Grants to States: We recommend that the District amend its existing current accounting procedures to include timely refunding of any unspent grant funds be returned to grantors.

Medical Assistance Program: We recommend that the District implement policies and procedures for the inclusion if any of journal entries recorded in the IFS to be part of the claims process to ensure all activities are accounted for.

Views of Responsible Officials, Planned Corrective Actions, and Contract Information

Title I Basic Grants to LEAs and Vocational Education Basic Grants to States: The District agrees with the findings. The District will strengthen its procedures to ensure that report to the granting agency reflects, or a revised report is submitted, for any adjustments made subsequent to the reporting period. Any unspent funds will be refunded accordingly, upon receipt of invoice from grantor.

Compliance Requirement:

Sub-recipient Monitoring

State Audit Guide Finding Code:

30000 and 50000

Criteria

United States Code, Title 31 – Money and Finance, Subtitle V – General Assistance Administration, Chapter 75 – Requirements for Single Audits, Section 7502, Audit requirements; exemptions:

- Each pass-through entity shall:
 - (a) provide such subrecipient the program names (and any identifying numbers) from which such assistance is derived, and the federal requirements which govern the use of such awards and the requirements of this chapter;
 - (b) monitor the subrecipient's use of federal awards through site visits, limited scope audits, or other means;
 - (c) review the audit of a subrecipient as necessary to determine whether prompt and appropriate corrective action has been taken with respect to audit findings, as defined by the Director, pertaining to federal awards provided to the subrecipient by the pass-through entity; and
 - (d) require each of its subrecipients of federal awards to permit, as a condition of receiving federal awards, the independent auditor of the pass-through entity to have such access to the subrecipient's records and financial statements as may be necessary for the pass-through entity to comply with this chapter.

Condition

GEAR-UP: Local District 4 contracts with subrecipients to meet its grant matching contributions to the program. Matching for grant number P334A050178 derived from its subrecipients accounted for approximately twenty-five percent (25%) of its total matching reported in the Annual Performance Report (APR) for the program year 2009-10. Through our discussions with the Program Director, the monitoring policies and procedures have been drafted but they have not been implemented to document their monitoring reviews of its subrecipients' matching costs to ascertain whether or not (1) they were necessary and reasonable for proper and efficient accomplishment of the GEAR-UP program objectives; and, (2) if the cost were allowable under the applicable cost principles and conformed to the provisions of the OMB circular.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

For the grant year 2009-10 (September 09 – August 10), the total matching contributions derived from the subrecipients amounted to \$808,670 for grant number P334A050178. The District's total reported matching contributions for the grant amounted to \$3,180,712.

Twenty-First Century Community Learning Centers: The District's Beyond the Bell, which operates the before-and-after-School programs funded by 21st CCLC, contracted with 36 agencies. During our procedures performed over subrecipient monitoring, we noted the following:

1. According to the District's sub-recipients Single Audit report log, 16 agencies were subject to the A-133 audits and 9 of them did not submit their Single Audit Reports for the fiscal year 2009-10 until 9 months after their audit period. However, the OMB Circular A-133 requires audits be completed within 9 months of the end of audit period. Through our discussion, the personnel in-charge of collecting the audit reports represented that she had made several attempts during the year with the agencies to remind them to submit their reports; however, such attempts were not documented.
2. Furthermore, the District did not collect the Single Audit report from one agency called LA's Best. According to the Program Coordinator, LA's Best is not a subrecipient of the District. However, based on our review, LA's Best is a separate legal entity under 501 (c)(3) code of the Internal Revenue Service. Therefore, the District should have collected the Single Audit report from this agency.

Cause and Effect

GEAR-UP: The Local District was in the process of finalizing the subrecipient monitoring procedures over the matching.

Twenty-First Century Community Learning Centers: Proper policies and procedures for subrecipient monitoring do not appear to be in place to ensure that the District is in compliance with the applicable OMB requirements.

These findings are repeat findings, having been previously reported for June 30, 2005 to June 30, 2010 (F-05-30, F-06-28, F-06-29, F-07-29, F-08-21, F-09-17 and F-10-16).

Questioned Costs

GEAR-UP: Not applicable.

Twenty-First Century Community Learning Centers: Not applicable.

Recommendation

GEAR-UP: We recommend that the District finalize and implement the policies and procedure immediately to ensure that the subrecipient monitoring compliance requirement be met with the federal requirements.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Twenty-First Century Community Learning Centers: We recommend that the District establish policies and procedure to ensure compliance with the federal requirements for subrecipient monitoring.

Views of Responsible Officials, Planned Corrective Actions, and Contact Information

- New paraprofessionals. A paraprofessional covered under paragraph (a) of this section, who is hired after January 8, 2002, must have:
 - (1) Completed at least two years of study at an institution of higher education;
 - (2) Obtained an associate's or higher degree; or
 - (3) (i) Met a rigorous standard of quality, and can demonstrate through a formal State or local academic assessment knowledge of, and the ability to assist in instructing, as appropriate:
 - (a) Reading/language arts, writing, and mathematics or
 - (b) Reading readiness, writing readiness, and mathematics readiness.
 - (ii) A secondary school diploma or its recognized equivalent is necessary, but not sufficient, to meet the requirement in paragraph (c)(3)(i) of this section.

No Child Left Behind Act Section 1119, (i) Verification of Compliance:

- (1) In General – In verifying compliance with this section, each local educational agency, at a minimum, shall require that the principal of each school operating a program under section 1114 or 1115 attest annually in writing as to whether such school is in compliance with the requirements of this section.

MEM-5313: D – Principal Certification Form for the 2010-2011 School Year

Upon reviewing the teacher roster, if a “No” (not in compliance) or “Pending” appears after any teacher who is assigned to a core academic setting, then the school is not yet in compliance with NCLB with respect to teacher. Once the information for your school is verified, please complete the principal certification form and submit the original to Certificated Employment Operations by Friday, December 3, 2010.

Condition

In our procedures of verifying the schools' compliance of the Principal Attestation over the certifications and notices on teacher and paraprofessional qualifications, we obtained a log maintained by the Certificated Workforce Management & Qualification Division (Division), and noted that 190 out of 879 schools did not submit the annual Principal Certification Form (PCF) to the Division as required by MEM-5313.0.

Through our discussion with the Division's personnel, we also noticed that the Division was in the process of manually identifying teachers' highly qualified status school by school and maintained schedules to track completion of such review. Based on our review of the schedules, we noted that there were a total of 38 schools which submitted the PCF certifying that their schools were in compliance with NCLB (i.e. all teachers at the school are compliant with NCLB); however, the results of the Division's review disclosed that at least one teacher at those schools was not highly qualified.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Paraprofessionals

In our procedures performed for the salaries charged to the Title I –Basic Grants, we noted that three (3) paraprofessionals totaling \$41,586 did not meet the NCLB highly qualified requirement but their salaries and benefits were charged to the program.

Cause and Effect

There appear to be isolated incidents where certain schools may have misunderstood the requirements and erroneously submitted the certification.

Questioned Costs

\$41,586

The finding related to the Principal Attestation is a programmatic non-compliance issue and it does not constitute any questioned costs.

Recommendation

We recommend that the District strengthen its monitoring process to ensure that schools are compliant with the principal attestation requirement and submit the accurate certifications timely.

Views of Responsible Officials and Planned Corrective Actions

The District agrees with the finding. The returning of the “Principal’s Certification Form” will be monitored, with principals being contacted when the document has not been forwarded.

The concept of an electronic “Principal Certification Form” will be explored as an option as the tool for the principals to utilize to provide verification.

1. “Principal Verification Forms” will be reviewed for accuracy.
2. Principals will be notified if changes are necessary and “Principal Certification Forms” will be adjusted.

Title: Director, Certificated Workforce Management and Qualifications

Telephone: (213) 241-4663

Paraprofessionals: Since all but two paraeducators in the District have presented documentation showing that they meet NCLB requirements, the only time we anticipate that there may be an issue of a non-compliant employee being placed in a Title 1 school, would be in the event of that the employee is

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

bumped during the RIF process. In order to ensure that that will not happen, the following steps will be taken:

- (1) Staff will review the Qualifications infotype (IT24) in SAP to ensure NCLB Compliance
- (2) If there is no record of NCLB compliance is in SAP, staff will contact the Talent Acquisition and Selection Branch to verify compliance
- (3) If the employee does NOT qualify, the selection branch staff will arrange for testing immediately
- (4) If the employee fails to qualify prior to the effective date of the RIF, the employee will be separated from the District

Program Identification

Finding Reference Number:	F-11-18
Federal Catalog of Domestic Assistance Number(s):	84.365
Federal Program Titles:	English Language Acquisition Program, U.S. Department of Education (ED)
Pass-Through Entity:	California Department of Education
Award Number:	Grant Agreement 11-14346-64733-00
Compliance Requirement:	Special Tests and Provisions – Parental Notification
State Audit Guide Finding Code:	30000 and 50000

Criteria

Elementary & Secondary Education Act, Subpart 5 – Administration, Part C – General Provisions, Section 3302, Parental Notification:

In General – Each eligible entity using funds provided under this title to provide a language instruction educational program shall, not later than 30 days after the beginning of the school year, inform a parent or the parents of a limited English proficient child identified for participation in, or participating in, such program of:

- (1) The reasons for the identification of their child as limited English proficient and in need of placement in a language instruction educational program;

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- (2) The child's level of English proficiency, how such level was assessed, and the status of the child's academic achievement;
- (3) The method of instruction used in the program in which their child is, or will be, participating, and the methods of instruction used in other available programs, including how such programs differ in content, instruction goals, and use of English and a native language in instruction;
- (4) How the program in which their child is, or will be participating will meet the educational strengths and needs of the child;
- (5) How such program will specifically help their child learn English, and meet age-appropriate academic achievement standards for grade promotion and graduation;
- (6) The specific exit requirements for such program, the expected rate of transition from such program into classrooms that are not tailored for limited English proficient children, and the expected rate of graduation from secondary school for such program if funds under this title are used for children in secondary schools;
- (7) In the case of a child with a disability, how such program meets the objectives of the individualized education program of the child; and
- (8) Information pertaining to parental rights that includes written guidance:
 - a) Detailing:
 - The right that parents have to have their child immediately removed from such program upon their request and
 - The options that parents have to decline to enroll their child in such program or to choose another program or method of instruction, if available and
 - Assisting parents in selecting among various programs and methods of instruction, if more than one program or method is offered by the eligible entity.
 - b) Separate Notification – In addition to providing the information required to be provided under subsection (a), each eligible entity that is using funds provided under this title to provide a language instruction educational program, and that has failed to make progress on the annual measurable achievement objectives described in Section 3122 for any fiscal year for which part A is in effect, shall separately inform a parent or the parents of a child identified for participation in such program, or participating in such program, of such failure not later than 30 days after such failure occurs.
 - c) Receipt of Information – The information required to be provided under subsections (a) and (b) to a parent shall be provided in an understandable and uniform format and, to the extent practicable, in a language that the parent can understand.
 - d) Special rule applicable during school year for a child who has not been identified for participation in a language instruction educational program prior to the beginning of the school year, the eligible entity shall carry out subsections (a) through (c) of this section with respect to the parents of the child within 2 weeks of the child being placed in such a program.

Condition

In our procedures performed over participating limited English proficiency (LEP) students, we requested copies of the required parental notifications for the students participating in the program during the 2010-

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

2011 school years. We also requested copies of the school certification forms for notification sent to parents for failure of Annual Measurable Achievement Objectives (AMAO).

In our sample of 30 schools for certifications of AMAO, we noted the following:

- 9 schools did not issue the AMAO Certification Form before October 9, 2010.
- 2 schools could not locate the AMAO certification.

In our sample of 60 participating students for annual parent notifications, we noted the following:

- 10 annual parent notifications were unable to be located.
- 6 annual parent notifications were issued after 30 days of the beginning of the school year/or not within 2 weeks from the program enrollment.
- 2 annual parent notifications were issued without any dates.

In our sample of 38 participating students for initial parental notification, we noted the following:

- 10 initial parent notifications, schools were unable to locate.
- 9 initial parent notifications, schools issued the certification after 30 days of the beginning of the school year/or not within 2 weeks from the program enrollment.

Cause and Effect

In general, there does not appear to be effective controls in place to ascertain that sufficient documentation is maintained to support the District's compliance.

This is a repeat finding from June 30, 2006 – June 30, 2010 (F-06-36, F-07-33, F-08-22, F-09-20, and F-10-18).

Questioned Costs

Not applicable. This finding is considered a programmatic non-compliance issue as well as a deficiency in the internal control system to properly monitor the parental notification process.

Recommendation

We recommend the District continue to strengthen its policies and procedures to ensure that the schools comply with the requirement that all parental notifications are made in a timely manner and the supporting documentation is maintained on file to support the schools' compliance.

Views of responsible Officials and Planned Corrective Actions

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

The District will continue to strengthen policies and procedures to ensure that schools comply with the requirement that all parental notifications are provided in a timely manner and the required supporting documentation is maintained on file to support the schools' compliance:

1. Use 2010-11 Single Audit findings along with the data provided by schools to the *English Learner Online Accountability System*, the Language Acquisition Branch, in conjunction with Local District English Learner staff, to provide support to schools not meeting the parental notification timelines.
2. Rewrite the District's *Master Plan for English Learners* and include explicit guidelines regarding the mandates and procedures pertaining to parental notification. This publication will be distributed to all schools and professional development will be provided to all school-site, local district, and central office staff (Refer to timeline referenced in Item 4).
3. Revise existing parental notification policies to include explicit guidelines regarding the mandates and procedures pertaining to parental notification. These policies will be posted on the District's *InsideLAUSD* website and will be accessible to all employees. Reference to these policies will be included in the *Master Plan for English Learners* professional development that will be provided to all schools (Refer to timeline referenced in Item 4).
4. Provide professional development that is designed to ensure that school-site Principals, EL Coordinators and Teachers receive comprehensive training on federal and state mandates, as well as the District's instructional programs for ELs.

Professional Development

Training Date

Title III Master Plan Institute

June 2012

Master Plan for English Learners (all schools)

May – June 2012

September – October 2012

5. Continue to work collaboratively with Local District staff to provide on-going professional development to school-site EL Coordinators that focuses on federal and state mandates. Each local district meets with school-site EL Coordinators on a monthly basis.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Section IV - Findings and Questioned Costs Relating to State Awards

S-11-01 Regular and Special Day Classes – Elementary Schools – Attendance Computations

State Audit Guide Finding Codes: 10000 and 40000

Schools Affected

- Hooper Elementary School
- Alta California Elementary School
- Bandini Elementary School
- Monlux Elementary School
- Saticoy Elementary School
- Lane Elementary School
- Norwood Elementary School
- Mount Washington Elementary School
- Raymond Avenue Elementary School
- Beckford Elementary School
- Harvard Elementary School
- Cabrillo Elementary School

Criteria

California Education Code, Section 46300(a) – In computing average daily attendance of a school district or county office of education, there shall be included the attendance of pupils while engaged in educational activities required of those pupils under the immediate supervision and control of an employee of the district or county office who possessed a valid certification document, registered as required by law.

Condition, Cause and Effect

In our sample of 25 elementary schools, we obtained the Student Monthly Attendance Summary Reports (SMASRs) for a sample of teachers for school month three (3). SMASRs are system-generated reports from the District's Integrated Student Information System (ISIS), a system utilized by the teachers to electronically input, submit and certify student attendance on a daily basis. This system, which replaced the manual daily attendance recording through Student Apportionment Attendance Record Cards, was fully implemented for all of the District's elementary schools during FY 2009-2010. We verified whether these SMASRs were reported accurately in the *Second Principal Report (P2)* and the *Annual Principal Report (P3)*. We obtained the monthly statistical reports where all the SMASRs are summarized, for our sampled schools and verified whether the SMASRs were completely and accurately summarized. We then traced these monthly statistical reports to Revised Annual Attendance Ledgers (i.e. ACES Dump Reports), which in turn were traced to the *Second Principal Report (P2)* and the *Annual Principal Report (P3)*.

To test the integrity of data reported in the sampled SMASRs, we selected a sample of absences from notes, phone logs and other absence records and compared them to the SMASRs to verify that they were not included in the calculation of Average Daily Attendance reported in the P2 and P3. In addition, since the SMASRs are generated through ISIS, we also tested the system's general internal controls which included, but were not limited to appropriate access controls.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Out of the 27,823 days of attendance tested, 580 days of absences, we noted the following findings.

- **Hooper Elementary School** - Of 1,600 days of attendance and 29 absences sampled, we noted the following exceptions:
 - Fifteen (15) students were absent for one (1) day each for a total of 15 days, but the excused absences were not supported by absence notes or an absence log.
- **Alta California Elementary School** - Of 1,106 days of attendance and 23 absences sampled, we noted the following exceptions:
 - Five (5) students were absent for one (1) day each for a total of five (5) days, but the excused absences were not supported by absence notes or an absence log.
 - One (1) student was absent for one (1) day, as evidenced by an absence note but was marked as present in the school's monthly attendance summary.
- **Bandini Elementary School** - Of 1,064 days of attendance and 16 absences sampled, we noted the following exceptions:
 - Two (2) students were absent for one (1) day each for a total of two (2) days, but the excused absences were not supported by absence notes or an absence log.
- **Monlux Elementary School** - Of 1,148 days of attendance and 25 absences sampled, we noted the following exceptions:
 - Two (2) students were absent for one (1) day each for a total of two (2) days, but the excused absences were not supported by absence notes or an absence log.
- **Saticoy Elementary School** - Of 980 days of attendance and 22 absences sampled, we noted the following exceptions:
 - Six (6) students were absent for one (1) day each for a total of six (6) days, but the excused absences were not supported by absence notes or an absence log.
 - One (1) student was tardy for one (1) day but was marked as absent in the school's monthly attendance summary.
- **Lane Elementary School** - Of 1,064 days of attendance and 29 absences sampled, we noted the following exceptions:
 - Four (4) students were absent for one (1) day each for a total of four (4) days, but the excused absences were not supported by absence notes or an absence log.
- **Norwood Elementary School** - Of 1,064 days of attendance and 29 absences sampled, we noted the following exception:
 - One (1) student was absent for one (1) day, as evidenced by an absence note but was marked as present in the school's monthly attendance summary.
- **Mount Washington Elementary School** - Of 1,372 days of attendance and 21 absences sampled, we noted the following exceptions:
 - Four (4) students were absent for one (1) day each for a total of four (4) days, but the absences were not supported by absence notes or an absence log.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- **Raymond Avenue Elementary School** - Of 1,372 days of attendance and 24 absences sampled, we noted the following exceptions:
 - Two (2) students were absent for one (1) day each for a total of two (2) days, but the excused absences were not supported by absence notes or an absence log.
- **Beckford Elementary School** - Of 938 days of attendance and 13 absences sampled, we noted the following exceptions:
 - Two (2) students were absent for one (1) day each for a total of two (2) days, but the excused absences were not supported by absence notes or an absence log.
- **Harvard Elementary School** - Of 882 days of attendance and 17 absences sampled, we noted the following exception:
 - Two (2) students were absent for a total of two (2) days, as evidenced by an absence note but was marked as present in the school's monthly attendance summary.
- **Cabrillo Elementary School** - Of 1,106 days of attendance and 15 absences sampled, we noted the following exception:
 - Two (2) students were absent for one (1) day each for a total of two (2) days, but the excused absences were not supported by absence notes or an absence log.
 - One (1) student was absent for one(1) day, as evidenced by an absence note but was marked as present in the school's monthly attendance summary.

These findings are repeat findings, having been reported previously at June 30, 2010 (S-10-1) but for different schools.

Questioned Costs

4 days / 121 days = 0.033 ADA overstated * \$5,264.22 = \$174

- **Alta California Elementary School** – 1 day overstated/121 days in single track school year
- **Saticoy Elementary School** – 1 day understated/121 days in single track school year
- **Norwood Elementary School** – 1 day overstated/121 days in single track school year
- **Harvard Elementary School** – 2 days overstated/121 days in single track school year
- **Cabrillo Elementary School** – 1 day overstated/121 days in single track school year

Recommendation

We recommend that the District continue to strengthen its controls over implementing District policies over student attendance reporting. Furthermore, we recommend that the District continue to provide adequate attendance reporting training to the schools so that proper attendance reporting procedures are adhered to.

Views of Responsible Officials and Planned Corrective Actions

These schools will conduct in-service training to their office staff and/or teachers, as well as add to their attendance procedures the periodic review of attendance/absence records to help increase accuracy and compliance with required documentation.

S-11-02 Regular and Special Day Classes – Secondary Schools – Attendance Computations

State Audit Guide Finding Codes: 10000 and 40000

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

Schools Affected:

- Carver Middle School
- Orchard Academies #2B
- Bethune Middle School
- Olive Vista Middle School
- Hale Middle School
- Marshall High School
- Bell High School
- San Pedro High School
- Torres ELA Performing Arts High School
- San Fernando High School
- Bravo Medical Magnet High School

Criteria

California Education Code, Section 46300(a) – in computing average daily attendance of a school district or county office of education, there shall be included the attendance of pupils who were engaged in educational activities required of those pupils under the immediate supervision and control of an employee of the district or county office who possessed a valid certification document, registered as required by law.

Condition, Cause and Effect

In our sample of 13 secondary schools, we obtained the weekly attendance summaries for a sample of teachers for month three (3). The weekly attendance summaries are system-generated reports from the District's Integrated Student Information System (ISIS), a system utilized by the teachers to electronically input, submit and certify student attendance on a daily basis. We verified whether these weekly attendance summaries for the schools sampled were accurately reported in the *Second Principal Report (P2)* and the *Annual Principal Report (P3)*. We obtained the monthly statistical reports where all the weekly attendance summaries are summarized, for our sampled schools and verified whether the weekly attendance summaries were completely and accurately summarized. We then traced these monthly statistical reports to the Revised Annual Attendance Ledgers (i.e. ACES Dump Reports), which in turn were traced to the *Second Principal Report (P2)* and the *Annual Principal Report (P3)*.

To test the integrity of data reported in the sampled weekly attendance summaries, we selected a sample of absences from notes, phone logs and other absence records and compared these to the weekly attendance summaries to verify that these were not included in the calculation of Average Daily Attendance reported in the P2 and P3. In addition, since the weekly attendance summaries are generated through ISIS, we also tested the system's general internal controls which included, but were not limited to appropriate access controls.

We selected a sample of 25,037 days of attendance and 481 absences for testing and noted the following findings:

- **Carver Middle School** - Of 1,335 days of attendance and 17 absences sampled, we noted the following exceptions:
 - Two (2) students were absent for a total of two (2) days, but the excused absences were not supported by absence notes or an absence log.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- **Orchard Academies #2B** - Of 1,200 days of attendance and 13 absences sampled, we noted the following exceptions:
 - Six (6) students were absent for one (1) day each for a total of six (6) days, but the excused absences were not supported by absence notes or an absence log.
- **Bethune Middle School** - Of 586 days of attendance and 25 absences sampled, we noted the following exceptions:
 - Two (2) students were absent for a total of two (2) days, as evidenced by absence notes but was marked as present for two (2) out of the four (4) periods of those days in the school's weekly attendance summary
- **Olive Vista Middle School** - Of 1,815 days of attendance and 44 absences sampled, we noted the following exceptions:
 - Two (2) students were absent for one (1) day each for a total of two (2) days, but the excused absences were not supported by absence notes or an absence log.
- **Hale Middle School** - Of 2,870 days of attendance and 50 absences sampled, we noted the following exceptions:
 - One (1) student was absent for one (1) day, but the excused absence was not supported by an absence note or an absence log.
- **Marshall High School** - Of 2,280 days of attendance and 29 absences sampled, we noted the following exceptions:
 - Five (5) students were absent for one (1) day each for a total of five (5) days, but the excused absences were not supported by absence notes or an absence log.
 - One (1) student was absent for a day, as evidenced by an absence note but was marked as present in four (4) out of the five (5) periods for that day in the school's weekly attendance summary.
- **Bell High School** - Of 2,810 days of attendance and 40 absences sampled, we noted the following exceptions:
 - One (1) student was absent for one (1) day, but the excused absence was not supported by an absence note or an absence log.
 - One (1) student was absent for three (3) periods in one (1) day, as evidenced by an absence note but was marked as present in the same periods for that day in the school's weekly attendance summary.
- **San Pedro High School** - Of 3,405 days of attendance and 42 absences sampled, we noted the following exceptions:
 - 22 students were absent for one (1) to two (2) days each for a total of 24 days, but the excused absences were not supported by an absence note or an absence log.
- **Torres ELA Performing Arts High School** - Of 780 days of attendance and 25 absences sampled, we noted the following exceptions:
 - Three (3) students were absent for one (1) day each for a total of three (3) days, but the excused absences were not supported by absence notes or an absence log.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- **San Fernando High School** - Of 2,885 days of attendance and 89 absences sampled, we noted the following exceptions:
 - Seven (7) students were absent for one (1) day each and one (1) student for two (2) days for a total of nine (9) days, but the excused absences were not supported by absence notes or an absence log.
- **Bravo Medical Magnet High School** - Of 2,310 days of attendance and 36 absences sampled, we noted the following exceptions:
 - Six (6) students were absent for one (1) day each for a total of six (6) days, but the excused absences were not supported by absence notes or an absence log.
 - One (1) student was absent for periods 2-6 for one (1) day, as evidenced by an absence note but was recorded as present for those periods. Upon further review, we noted that the student's teacher for periods 5 and 6 did not submit attendance for those periods and all the students in those classes were reported as present.
 - One (1) student was absent for periods 2-6, as evidenced by an absence note but was recorded as present for periods 3, 5 and 6. This student was under the same teachers above who did not submit attendance for periods 5 and 6.

These findings are repeat findings, having been reported previously at June 30, 2010 (S-10-02) but for different schools.

Questioned Costs

2 days / 121 days = 0.017 ADA overstated * \$5264.22 = \$89

1 day / 132 days = 0.008 ADA overstated * \$5264.22 = \$42

- **Bethune Middle School** – 2 days overstated/121 days in single track school year
- **Marshall High School** – 1 day overstated/ 132 days in multi-track school year

Recommendation

We recommend that the District continue to strengthen its controls over implementing District policies over student attendance reporting. Furthermore, we recommend that the District continue to provide adequate attendance reporting training to the schools so that proper attendance reporting procedures are adhered to.

Views of Responsible Officials and Planned Corrective Actions

These schools will conduct in-service training to their office staff and/or teachers, as well as add to their attendance procedures the periodic review of attendance/absence records to help increase accuracy and compliance with required documentation.

S-11-03 Attendance Accounting – Continuation Education – Attendance Computations

State Audit Guide Finding Codes: 10000 and 40000

School Affected

- Metropolitan High School

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Criteria

Title 5, California Code of Regulations, Section 401(d) – in all classes for adults, continuation schools, and classes, and regional occupational centers and programs, attendance shall be reported to the supervising administrator at least once each school month.

California Education Code, Section 46300(a) – in computing average daily attendance of a school district or county office of education, there shall be included the attendance of pupils while engaged in educational activities required of those pupils and under the immediate supervision and control of an employee of the district or county office who possessed a valid certification document, registered as required by law.

California Education Code, Section 46170 – In continuation high schools and continuation education classes, a day of attendance is 180 minutes of attendance but no pupil shall be credited with more than 15 hours of attendance per school per week, proportionately reduced for those school weeks having weekday holidays on which classes are not held.

Condition, Cause and Effect

In our sample of two (2) continuation schools, we traced the total on *Worksheet for Completing the Statistical Report* and compared the totals to the monthly school's *Statistical Report* totals, which in turn were traced to the *Second Principal Report* (P2) and the *Annual Principal Report* (P3) for the third school month. We also employed the same sample of two continuation schools and traced the days reported on the *Monthly School Statistical Report* and compared the totals to the Student Apportionment Attendance Cards and the supporting attendance records maintained by the selected teachers.

We noted the following findings:

- **Metropolitan High School** – Of the 1,516 hours (300 days) of attendance, 30 days of absences sampled and tested, we noted the following findings:
 - Attendance for one (1) student was understated by six (6) hours and attendance for another student was overstated by one (1) hour.

This finding is a repeat finding, having been reported previously at June 30, 2010 (S-10-03) but for different schools.

Questioned Costs

1.67 days understated/121 days in single track school year= 0.014 ADA * \$5264.22 = (\$74)

Recommendation

We recommend that the District strengthen its review process over the compilation of the *Monthly Statistical Reports* to ensure that the reports accurately reflect student attendance data.

Views of Responsible Officials and Planned Corrective Actions

To help ensure accuracy of calculation, the school has assigned 2 staff members to the task of compiling attendance hours for the monthly statistical (attendance) report—one to compile the data, one to review the compiled data for accuracy. School has also changed its procedure to compile attendance data on a weekly basis to better manage data.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

S-11-04 Attendance Accounting – Dependent Charter School – Attendance Computations

State Audit Guide Finding Codes: 10000 and 40000

School Affected

- Kenter Canyon Elementary School

Criteria

California Education Code, Section 46300(a) – in computing average daily attendance of a school district or county office of education, there shall be included the attendance of pupils while engaged in educational activities required of those pupils and under the immediate supervision and control of an employee of the district or county office who possessed a valid certification document, registered as required by law.

Condition, Cause and Effect

In our sample of two (2) elementary schools, we obtained the Student Monthly Attendance Summary Reports (SMASRs) for a sample of teachers for school month three (3). SMASRs are system-generated reports from the District's Integrated Student Information System (ISIS), a system utilized by the teachers to electronically input, submit and certify student attendance on a daily basis. This system, which replaced the manual daily attendance recording through Student Apportionment Attendance Record Cards, was fully implemented for all of the District's elementary schools during FY 2009-2010. We verified whether these SMASRs were reported accurately in the *Second Principal Report (P2)* and the *Annual Principal Report (P3)*. We obtained the monthly statistical reports where all the SMASRs are summarized, for our sampled schools and verified whether the SMASRs were completely and accurately summarized. We then traced these monthly statistical reports to Revised Annual Attendance Ledgers (i.e. ACES Dump Reports), which in turn were traced to the *Second Principal Report (P2)* and the *Annual Principal Report (P3)*.

To test the integrity of data reported in the sampled SMASRs, we selected a sample of absences from notes, phone logs and other absence records and compared these to the SMASRs to verify that these were not included in the calculation of Average Daily Attendance reported in the P2 and P3. In addition, since the SMASRs are generated through ISIS, we also tested the system's general internal controls which included, but were not limited to appropriate access controls.

Out of the 2,184 days of attendance and 37 days absences tested, we noted the following finding:

- **Kenter Canyon Elementary School** – Of 1,120 days of attendance and 19 absences sampled, we noted the following exceptions:
 - Five (5) students were absent for one (1) day each for a total of five (5) days, but the absences were not supported by absence notes or an absence log.
 - One (1) student was marked as absent for one (1) day in the school's monthly attendance summary but upon verification, the student was only tardy, as evidenced by a tardy note. The student should have been recorded as present.

This is a repeat finding having been reported at June 30, 2010 (S-10-05) but for different schools.

Recommendation

We recommend that the District strengthen its review process over dependent charter schools to ensure accuracy of supporting documentation in order for proper reporting of attendance.

Views of Responsible Officials and Planned Corrective Actions

At the beginning of the school year, the school provided staff with a review of the attendance procedures, and teachers were encouraged to review their work more frequently. With regards to absence verifications, school also implemented a new procedure which has resulted in increased written absence verifications.

Criteria

California Education Code 8483(a) – (1)Every after school component of a program established pursuant to this article shall commence immediately upon the conclusion of the regular school day, and operate a

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

minimum of 15 hours per week at least until 6:00 on every regular school day. Every after school component of the program shall establish a policy regarding reasonable early daily release of pupils from the program. For those programs or school sites operating in a community where early release policy does not meet the unique requirements of that community or school, or both, documented evidence may be submitted to the department for an exception and a request for approval of an alternative plan.

(2) It is the intent of the Legislature that elementary school pupils participate in the full day of the program every day during which pupils participate and that pupils in middle school or junior high school attend a minimum of nine hours a week and three days a week to accomplish program goals.

California Education Code 8483.1 (a) – (1) Every before school program component established pursuant to this article shall in no instance operate for less than one and one-half hours per regular school day. Every program shall establish a policy regarding reasonable late daily arrival of pupils to the program.

(2) (A) It is the intent of the Legislature that elementary school pupils participate in the full day of the program every day during which pupils participate and that pupils in the middle or junior high school attend a minimum of six hours a week or three days a week to accomplish program goals, except when arriving late in accordance with the late arrival policy or as reasonably necessary.

(2) (B) A pupil who attends less than one-half of the daily program hours shall not be accounted for the purposes of the attendance.

California Education Code 8482 – The purpose of this program is to create incentives for establishing locally driven before and after school enrichment programs both during schooldays and summer, intersession, or vacation days that partner public schools and communities to provide academic and literacy support and safe, constructive alternatives for youth. The term public school includes charter schools.

Condition, Cause and Effect

On a sample basis, we tested attendance documentation of 54 schools and 3,240 students who participated in the After School Education and Safety Program. We examined the attendance records for the selected students and verified that the attendance reporting was complete and accurate. We also verified whether the selected students complied with the attendance requirements established by the District, as required by the California Education Code. We noted the following exceptions:

After School Component of the Program

On a sample basis, we tested the attendance documentation of 44 schools and 2,890 students who participated in the after school component of the After School Education and Safety Program.

There were a total of 168 students in 13 different schools who did not have complete sign-in and sign-out time on the sign-in/sign-out sheets. Some students didn't have either the sign-in time or sign-out time. Some students didn't have both. Due to the missing sign-in or sign-out time, we were unable to determine whether the elementary school students participated in the full day of after school program on every day during which students participated except as consistent with the established early release policy and whether students in middle or junior high schools attended the after school program a minimum of nine hours a week and three days a week, except as consistent with the established early release policy. There were also some students who did not have proper sign-in/ sign-out, as a result,

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

we were unable to determine how long each student participated in the program. The following are the details of the exceptions:

- **Analee Elementary School** - 33 students signed in, but did not properly sign out for a total of 33 days.
- **Wilmington Elementary School** – 66 students signed in, but did not properly sign out for a total of 66 days.
- **Patrick Henry Middle School** – 19 students signed in, but did not properly sign out for a total of 19 days.
- **Herrick Elementary School** – one (1) student signed in, but did not properly sign out for a total of one (1) day.
- **Griffith Middle School** - one (1) student signed in, but did not properly sign out for a total of one (1) day.
- **Heliotrope Elementary School** - 12 students signed in, but did not properly sign out for a total of 12 days.
- **Apperson Elementary School**- 12 students signed in, but did not properly sign out for a total of 12 days.
- **Holmes Middle School** – three (3) students signed in, but did not properly sign out for a total of 9 days.
- **116th Elementary School** - one (1) student signed in, but did not properly sign out for a total of one (1) day.
- **20th Elementary School** – 12 students signed in, but did not properly sign out for a total of 60 days.
- **Grape Elementary School**- five (5) students signed in, but did not properly sign out for a total of eight (8) days.
- **Griffin Elementary School** – one (1) student signed in, but did not properly sign out for a total of one (1) day.
- **Bridge Elementary School** - two (2) students signed in, but did not properly sign out for a total of two (2) days.

There were 227 students in 24 schools that did not comply with the established early release policy. As a result, the following elementary schools had students that did not participate in the full day of the after school program on every day during which pupils participated, and the following middle schools had students that participated less than nine hours a week and three days a week:

- **Millikan Middle School** - eight (8) students did not participate for nine hours and three days of the after school program for the week we tested that they participated and there were no early release forms to explain why such requirement was not complied with.
- **San Fernando Middle School** - 20 students did not participate for nine hours and three days of the after school program for the week we tested that they participated and there were no early release forms to explain why such requirement was not complied with.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- **Heliotrope Elementary School** – six (6) students did not participate in the full period of the after school program for a total of 35 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Analee Elementary School** – eight (8) students did not participate in the full period of the after school program for a total of 29 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Wilmington Elementary School** - 14 students did not participate in the full period of the after school program for a total of 56 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Commonwealth Elementary School** - 13 students did not participate in the full period of the after school program for a total of 65 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Patrick Henry Middle School** – nine (9) students did not participate for nine hours and three days of the after school program for the week we tested that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Herrick Elementary School** – nine (9) students did not participate in the full period of the after school program for a total of 11 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Gulf Elementary School** – nine (9) students did not participate in the full period of the after school program for a total of 11 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Edison Middle School** – two (2) students did not participate for nine hours and three days of the after school program for the week we tested that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Heliotrope Elementary School** – 18 students did not participate in the full period of the after school program for a total of 74 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Lilian Elementary School** – 15 students did not participate in the full period of the after school program for a total of 69 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **66th Street Elementary School** – eight (8) students did not participate in the full period of the after school program for a total of 37 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Angeles Mesa Elementary School** – six (6) students did not participate in the full period of the after school program for a total of 30 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Cimarron Elementary School** – nine (9) students did not participate in the full period of the after school program for a total of 31 days that they participated and there were no early release forms to explain why such requirement was not complied with.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- **Apperson Elementary School** – six (6) students did not participate in the full period of the after school program for a total of 26 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Colfax Elementary School** – seven (7) students did not participate in the full period of the after school program for a total of 19 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Ford Boulevard Elementary School** – nine (9) students did not participate in the full period of the after school program for a total of 36 days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Holmes Middle School** – seven (7) students did not participate for nine hours and three days of the after school program for the week we tested that they participated and there were no early release forms to explain why such requirement was not complied with .
- **116th Elementary School** – Two (2) students did not participate in the full period of the after school program for a total of six (6) days that they participated and there was no early release form to explain why such requirement was not complied with.
- **28th Elementary School** – One (1) student did not participate in the full period of the after school program for a total of one (1) day that he participated and there was no early release form to explain why such requirement was not complied with.
- **Dyer Elementary School** – four (4) students did not participate in the full period of the after school program for a total of four (4) days that they participated and there were no early release forms to explain why such requirement was not complied with.
- **Richland Elementary School** – 20 students did not participate in the full period of the after school program for 83 days that they participated and there were no early release forms to explain why such requirement was not complied with .
- **Eshelman Elementary School** – 19 students did not participate in the full period of the after school program for a total of 85 days that they participated and there were no early release forms to explain why such requirement was not complied with.

We also obtained the Quarterly Attendance Reports (QAR) for the same schools we sampled and compared the total attendance reported to the attendance records (e.g. sign in/sign out sheets) for the schools for a sample week during the school year 2010-2011. We also tested the completeness and accuracy of the reports by selecting a sample of the students and tracing the same students to attendance records and vice versa. QARs are reports used by the District to report attendance to the California Department of Education (CDE). We noted the following exceptions:

- **Millikan Middle School** – QAR was overstated by 24 days, compared to the sign-in sheets. Upon examining the QAR, we also noted that two (2) students were entered three times in the QAR for the entire week tested, overstating it by 20 days. In addition, three (3) students marked present for a total of seven (7) days in the QAR were not found in the sign in sheets. We also noted three (3) students marked present for three (3) days in the sign-in sheets were not found on the QAR.
- **San Fernando Middle School** - QAR was understated by eight (8) days, compared to the sign-in sheets. Upon examining the QAR, we also noted that two (2) students were entered

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

two times in the QAR for the entire week tested, overstating it by 10 days. In addition, two (2) students marked present for a total of seven (6) days in the QAR were not found in the sign in sheets. We also noted three (3) students marked present for a total of 10 days in the sign-in sheets were not found on the QAR.

- **Heliotrope Elementary School** – QAR was understated by three (3) days, compared to the sign-in sheets. We also noted two (2) students marked present for a total of two (2) days in the sign-in sheets were not found on the QAR.
- **Audubon Middle School** - – QAR was understated by 366 days, compared to the sign-in sheets. In addition, 14 students marked present for a total of 14 days in the QAR were not found in the sign in sheets. We also noted 22 students marked present for a total of 22 days in the sign-in sheets were not found on the QAR.
- **Analee Elementary School** – QAR was overstated by 36 days, compared to the sign-in sheets. In addition, 14 students marked present for a total of 14 days in the QAR were not found in the sign in sheets. We also noted 5 students marked present for a total of 5 days in the sign-in sheets were not found on the QAR.
- **Wilmington Elementary School** – QAR was overstated by 67 days, compared to the sign-in sheets. In addition, 19 students marked present for a total of 19 days in the QAR were not found in the sign in sheets. We also noted 28 students marked present for a total of 28 days in the sign-in sheets were not found on the QAR.
- **Commonwealth Elementary School** – We noted 11 students marked present for a total of 11 days in the sign-in sheets were not found on the QAR.
- **Patrick Henry Middle School** – QAR was understated by 292 days, compared to the sign-in sheets. Upon examining the QAR, we also noted that four (4) students were entered twice in the QAR for one (1) day each, overstating it by 4 days. We also noted 55 students marked present for a total of 55 days in the sign-in sheets were not found on the QAR.
- **Griffith Middle School** – QAR was overstated by 13 days, compared to the sign-in sheets. We also noted 2 students marked present for a total of 2 days in the sign-in sheets were not found on the QAR.
- **Edison Middle School** – QAR was understated by 69 days, compared to the sign-in sheets. We also noted seven (7) students marked present for a total of seven (7) days in the sign-in sheets were not found on the QAR.
- **Dodson Middle School** – QAR was understated by 3 days, compared to the sign-in sheets. In addition, three (3) students marked present for a total of three (3) days in the QAR were not found in the sign in sheets. We also noted two (2) students marked present for a total of two (2) days in the sign-in sheets were not found on the QAR.
- **Drew Middle School** - QAR was understated by 11 days, compared to the sign-in sheets. We also noted three (3) students marked present for a total of three (3) days in the sign-in sheets were not found on the QAR.
- **Carver Middle School** - QAR was understated by five (5) days, compared to the sign-in sheets. Upon examining the QAR, we also noted that one (1) student was entered two times in the QAR for the entire week tested, overstating it by one (1) day.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- **Gage Middle School** - QAR was overstated by two (2) days, compared to the sign-in sheets. Upon examining the QAR, we also noted that one (1) student was entered two times in the QAR for one (1) day but the same student did not have supporting sign-in sheet, overstating QAR by two (2) days.
- **Heliotrope Elementary School** – QAR was overstated by 27 days, compared to the sign-in sheets. We noted that one (1) student marked present for one (1) day in the QAR was not found in the sign in sheets.
- **Lilian Elementary School** – QAR was overstated by two (2) days, compared to the sign-in sheets. We noted that one (1) student marked present for one (1) day in the QAR was not found in the sign in sheets.
- **66th Street Elementary School** – QAR was overstated by two (2) days, compared to the sign-in sheets.
- **Angeles Mesa Elementary School** - QAR was understated by three (3) days, compared to the sign-in sheets. We also noted three (3) students marked present for a total of three (3) days in the sign-in sheets were not found on the QAR.
- **Cimarron Elementary School** - QAR was understated by three (3) days, compared to the sign-in sheets. We also noted two (2) students marked present for a total of two (2) days in the sign-in sheets were not found on the QAR.
- **Colfax Elementary School** - QAR was understated by 15 days, compared to the sign-in sheets.
- **20th Elementary School** – QAR was overstated by two (2) days, compared to the sign-in sheets. We noted that three (3) students marked present for three (3) days in the QAR were not found in the sign in sheets.
- **28th Elementary School** – We noted that one (1) student marked present for one (1) day in the QAR was not found in the sign in sheets. We also noted five (5) students marked present for a total of five (5) days in the sign-in sheets were not found on the QAR.
- **Chavez Elementary School** – We noted two (2) students marked present for a total of two (2) days in the sign-in sheets were not found on the QAR.
- **Grape Elementary School** – We noted that one (1) student marked present for one (1) day in the QAR was not found in the sign in sheets.
- **Lizarraga Elementary School** – QAR was understated by two (2) days, compared to the sign-in sheets. We also noted three (3) students marked present for a total of three (3) days in the sign-in sheets were not found on the QAR.
- **Alta Loma Elementary School** – QAR was understated by three (3) days, compared to the sign-in sheets. We also noted three (3) students marked present for a total of three (3) days in the sign-in sheets were not found on the QAR.
- **Bridge Elementary School** – We noted that one (1) student marked present for one (1) day in the QAR was not found in the sign in sheets. We also noted one (1) student marked present for a total of one (1) day in the sign-in sheets was not found on the QAR.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- **Dyer Elementary School** – We noted one (1) student marked present for a total of one (1) day in the sign-in sheets was not found on the QAR.
- **Grant Elementary School** – QAR was understated by one (1) day, compared to the sign-in sheets. We noted that one (1) student marked present for one (1) day in the QAR was not found in the sign in sheets. We also noted two (2) students marked present for a total of two (2) days in the sign-in sheets were not found on the QAR.
- **Richland Elementary School** – We noted two (2) students marked present for a total of 10 days in the sign-in sheets were not found on the QAR.

Before School Component of the Program

Condition, Cause and Effect

On a sample basis, we tested the attendance documentation of 10 schools and 350 students who participated in the before school component of the After School Education and Safety Program.

There were 14 students in eight (8) schools that did not comply with the established late arrival policy.

- **Burton Elementary School** - One (1) student did not participate in at least one-half of the before school program for one (1) day that he participated and there was no late arrival form to explain why such requirement was not complied with. The student was counted as present in the attendance summary.
- **Fair Avenue Elementary School** - One (1) student did not participate in at least one-half of the before school program for one (1) day that he participated and there was no late arrival form to explain why such requirement was not complied with. The student was counted as present in the attendance summary.
- **Grape Elementary School** - One (1) student did not participate in at least one-half of the before school program for one (1) day that he participated and there was no late arrival form to explain why such requirement was not complied with. The student was counted as present in the attendance summary.
- **Gridley Elementary School** – Four (4) students did not participate in at least one-half of the before school program for a total of four (4) days that they participated and there were no late arrival forms to explain why such requirement was not complied with. The students were counted as present in the attendance summary.
- **Leo Politi Elementary School** - One (1) student did not participate in at least one-half of the before school program for one day that he participated and there was no late arrival form to explain why such requirement was not complied with. The student was counted as present in the attendance summary.
- **State Street Elementary School** - One (1) student did not participate in at least one-half of the before school program for one day that he participated and there was no late arrival form to explain why such requirement was not complied with. The student was counted as present in the attendance summary.
- **Sylmar Elementary School** – Two (2) students did not participate in at least one-half of the before school program for a total of two (2) days that they participated and there were no late

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

arrival forms to explain why such requirement was not complied with. The students were counted as present in the attendance summary.

- **Sylvan Elementary School** – Three (3) students did not participate in at least one-half of the before school program for one day that they participated and there were no late arrival forms to explain why such requirement was not complied with. The students were counted as present in the attendance summary.

We also obtained the Quarterly Attendance Reports (QAR) for the same schools we sampled and compared the total attendance reported to the attendance records (e.g. sign in/sign out sheets) for the schools for a sample week during the school year 2010-2011. We also tested the completeness and accuracy of the reports by selecting a sample of the students and tracing the same students to attendance records and vice versa. QARs are reports used by the District to report attendance to the California Department of Education (CDE). They serve as a summary of the sign in/sign out sheets. We noted the following exceptions:

- **Barton Hill Elementary School** - One (1) student marked present for one (1) day in the QAR was not found in the sign in sheets. One (1) student marked present for one (1) day in the sign-in sheets was not found on the QAR.
- **Burton Elementary School** – QAR was understated by 89 days, compared to the sign in sheets. In addition, two (2) students marked present for a total of two (2) days in the QAR were not found in the sign in sheets. 17 students marked present for a total of 17 days in the sign-in sheets were not found on the QAR.
- **Fair Avenue Elementary School** – QAR was understated by 89 days, compared to the sign in sheets. In addition, 11 students marked present for a total of 11 days in the sign-in sheets were not found on the QAR.
- **Gridley Elementary School** – QAR was overstated by one (1) day, compared to the sign in sheets. In addition, one (1) student marked present for a total of one (1) day in the QAR was not found in the sign in sheets. One (1) student marked present for a total of one (1) day in the sign-in sheets was not found on the QAR.
- **Leo Politi Elementary School** – QAR was overstated by three (3) days, compared to the sign in sheets. In addition, one (1) student marked present for a total of one (1) day in the QAR was not found in the sign in sheets. One (1) student marked present for a total of one (1) day in the sign-in sheets was not found on the QAR.
- **State Street Elementary School** – QAR was overstated by five (5) days, compared to the sign in sheets.
- **Sylmar Elementary School** – QAR was overstated by one (1) day, compared to the sign in sheets. In addition, four (4) students marked present for a total of four (4) days in the QAR was not found in the sign in sheets. Two (2) students marked present for a total of one (1) day in the sign-in sheets was not found on the QAR.
- **Sylvan Elementary School** – QAR was understated by five (5) days, compared to the sign in sheets. In addition, two (2) students marked present for a total of one (1) day in the QAR was not found in the sign in sheets. Two (2) students marked present for a total of two (2) days in the sign-in sheets was not found on the QAR.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- **West Vernon Elementary School** – QAR was understated by two (2) days, compared to the sign in sheets. In addition, one (1) student marked present for a total of one (1) day in the QAR was not found in the sign in sheets. One (1) student marked present for a total of one (1) day in the sign-in sheets was not found on the QAR.

These findings are repeat findings, having been reported previously at June 30, 2010 (S-10-05) but for different schools.

Questioned Costs

As a result of the above testing, the total under reporting of attendance was 925 days. The California Department of Education will determine the impact of the above exceptions on the After School Education and Safety Program funding if there is any.

Recommendation

We recommend that the District strengthen its procedures on attendance documentation for the After School Education and Safety program. The District should ensure that the agencies performing the services for these programs are aware of the district policies, specifically on maintaining accurate attendance records. We also recommend for the District to continue performing agency visits to make sure that the established policies are complied with.

Views of Responsible Officials and Planned Corrective Actions

The District has always reviewed attendance data to ensure that what is reported to the State is accurate. In a program with 84,473 units of service rendered daily by over 30 agencies at over 700 sites, (an annual total of 15,205,140 units of service) error is anticipated. (The total underreporting noted in the audit represents .006% of this total.)

To improve the attendance reporting/monitoring process, Beyond The Bell (BTB) has undertaken the following specific policy/procedures improvements.

1. On July 18, 2011, BTB entered into a 5 year contract with Cityspan Technologies Incorporated, a nationally recognized service firm which specialized in administering online attendance monitoring programs, to administer an online attendance reporting system or attendance monitoring and reporting. The goal was both to adopt a standard attendance monitoring system, to unify reporting procedures across all of the Districts' sites, and to eliminate the errors, delays, and inefficiencies in the various systems previously employed. This procurement was a direct result of the audit findings.
2. BTB created a new set of procedures by which attendance at BTB agency programs would be recorded and monitored.
3. To ensure proper attendance documentation and reporting Cityspan transmits, at the beginning of each year, a detailed description of attendance policies, step-by-step attendance procedures, and uploading instructions will be provided to each agency. Additionally, Cityspan offered online assistance to agencies having trouble adopting the new attendance monitoring and reporting system.
4. At the beginning of each year, BTB staff conducts a meeting with agency technical staff to provide instruction so that agency after school site staff is trained to follow the necessary

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

- policies and procedures, particularly regarding sign in procedures and early dismissal paperwork, on an ongoing basis. The attendance procedures also provide a detailed description of how attendance will be verified and who will do the verification. This is an ongoing action.
5. BTB has increased the number of staff conducting on site audits, and the frequency of audits at after school program agency sites and at school sites has increased. If any discrepancy is found, BTB staff will instruct agency staff as to proper procedures. The schedule of site visits (CMP audits) is available for review in the BTB office.
 6. The results of the annual site visit audits are included in the annual review for each agency, and if material discrepancies are observed then letters of corrective action are issued by BTB to which the agency must respond. Agencies delinquent in responding to corrective action are subject to payment withholding until discrepancies are corrected.

While BTB is in the first year of using the new attendance monitoring and reporting system our experience has been positive. The new system should free staff time to monitor program compliance, and will further create efficiencies in mandated reporting which should allow more time for staff to conduct training and program staff development. The increased auditing has increased compliance with sign in procedures. Again, given the positive response to date, a positive result (being greater fidelity to procedures) after the first year of the new policy and procedures is anticipated.

S-11-06 After School and Safety Program

State Audit Guide Finding Codes: 40000

Criteria

California Education Code 8482 – The purpose of this program is to create incentives for establishing locally driven before and after school enrichment programs both during schooldays and summer, intersession, or vacation days that partner public schools and communities to provide academic and literacy support and safe, constructive alternatives for youth. The applicants for grants pursuant to this article agree to provide school day attendance rates and Program attendance to the Department of Education.

Condition

We performed procedures to verify that the number of students served and reported to CDE by the District for the ASES Program is supported by written records that document pupil participation. We compared the numbers reported to CDE and the numbers supported by the District's Quarterly Attendance Reports (QARs), the documents that summarize the number of students served in the District's ASES Program. We also tested, on a sample basis, the attendance reporting made in these QARs. We noted over/under-reporting of attendance for the schools on page 322.

These findings are repeat findings, having been reported previously at June 30, 2010 (S-10-06) but for different schools.

Questioned Costs

The California Department of Education will determine the impact of the above exceptions on the After School Education and Safety Program funding if there is any.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

Recommendation

We recommend that the District strengthen its procedures on attendance documentation for the After School Education and Safety program. The District should ensure that the agencies performing the services for these programs are aware of the district policies, specifically on maintaining accurate attendance records. We also recommend for the District to perform agency visits to make sure that the established policies are complied with.

Views of Responsible Officials and Planned Corrective Actions

LAUSD - Beyond The Bell Branch has implemented the following procedures to ensure that we are providing training on attendance policies and procedures as well as how we are monitoring how the procedures are being implemented at the sites to ensure documentation of reported attendance figures is readily available and accurate for auditing purposes.

1. Agency contractors and program personnel are required to attend a **“Start-Up Meeting”** scheduled prior to the beginning of the school year. Extensive training on attendance documentation is offered during this meeting.
2. During the “Start-Up Meeting,” extensive time is spent on training staff on the importance of properly documenting and maintaining accurate attendance.
3. Beyond the Bell Branch Administrators and Traveling Supervisors attend the training meeting and interject their role in monitoring attendance procedures as they travel to sites. Beyond the Bell staff routinely monitor attendance to ensure procedures are being used and documentation is maintained as required.
4. Contractors and agency program personnel are required to attend an annual **“Policies and Procedures/Risk Management”** training. **As a result of the audit finding** and reflection on best practices, Beyond the Bell has developed an attendance documentation training scheduled for implementation for the 2011 – 2012 year. The training is offered on a monthly basis. Newly hired personnel must register for and attend the next available training date. Returning personnel must register for and attend the training during the fiscal year.
5. The following “Policies and Procedures/Risk Management” training dates are scheduled for the 2011 – 2012 year (NOTE: Attendance Documentation has been implemented as a result of previous audit findings):
 - 8/30/11, 8/31/11, 9/6/11, 9/21/11, 10/22/11, 11/19/11, 12/14/11, 1/21/12, 2/16/12, 3/14/12, 4/21/12, 5/19/12, & 6/13/12
6. Contractors and agency program personnel are required to attend a **Federal Program Monitoring (FPM)** training. The FPM training reflects the CDE’s Program Dimensions. The goal of this training is to offer personnel a best practices approach to running exemplary programs that comply with the requirements in the Education Code. Extensive training on “attendance documentation” is offered during this meeting.
7. Beyond The Bell Branch conducts **“site visits”** to monitor program quality and student attendance through:
 - **Field Office Administrators**
 - Certificated Administrators conduct site visits to evaluate and monitor agency program implementation. Attendance documentation is closely monitored during these site visits.
 - **Field Office Traveling Playground Supervisors**
 - Classified/Unclassified Traveling Playground Supervisors conduct weekly visits to evaluate and monitor agency program implementation. Attendance documentation to

LOS ANGELES UNIFIED SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2011

ensure appropriate staff-to-student ratio and observation of sign-in/sign-out procedures is closely monitored during these site visits.

- **Central Office Administrators**
 - Central Office Administrators conduct site visits to evaluate and monitor agency program implementation. In addition to program quality and compliance, attendance documentation is closely monitored during these site visits.
- 8. Beyond the Bell Branch conducts **“Random Reviews/Audits of Monthly Attendance Reports”** to examine agency sign-in/sign-out procedures. The agency’s “Attendance Documentation” procedures are further evaluated to ensure the agency’s record keeping corresponds to data submitted to Beyond the Bell. In addition, evaluation of these documents ensures they:
 - Comply with Beyond the Bell’s “Early Release Policy.”
 - Verify the sign-in/sign-out forms are certified by Site Coordinator.
 - Contain Student ID Numbers.
- 9. To ensure the documentation for the ASES Program accurately reflects the number of students served and reported to the California Department of Education by the District, Beyond the Bell Branch contracted with City-Span Technologies Incorporated (A nationally recognized service firm which specializes in administering online attendance monitoring programs.) to administer an online attendance reporting and monitoring system. Beyond the Bell Branch through our needs assessments and evaluations recognized the need to strengthen our internal controls to ensure attendance data is compiled and reported accurately. Furthermore, Beyond the Bell Branch recognizes the need to maintain sufficient documentation for the reconciliation between the District’s Quarterly Attendance Reports (QAR) and information submitted to the California Department of Education. Consequently, Beyond the Bell’s gathering of attendance data and reporting procedures has evolved. As a result of previous audit findings, the following system and procedures have been implemented:
 - **Monitoring has been strengthened from quarterly to monthly** and all contractors and staff are now required to submit attendance documentation monthly which has resulted in more accurate attendance reporting to the CDE.
 - **Beyond the Bell issues a current “Alpha List”** containing student identification numbers to agencies. Prior to this practice, agencies were responsible for obtaining student identification numbers from schools. Frequently, the information was outdated or incomplete.
 - Agencies **submit their attendance electronically** through a secured website to City-Span Technologies Incorporated.
 - A **discrepancy report is issued** to agencies requesting them to make corrections of errors when they are identified.
 - Agencies **correct and resubmit** the reports and discrepancies are fixed in attendance reports.
 - The reporting of attendance to the California Department of Education (CDE) is accomplished on-line bi-annually through the ASSIST through close collaboration with CDE’s technical staff to ensure accurate transfer of the information.
 - As a result of the volume generated by Beyond the Bell programs, **the CDE has approved the submission** of attendance through an EXCEL program via e-mail. Personnel at CDE then upload the data into ASSIST. Once the data is in the system, the Beyond the Bell designee approves the data submitted.

We will continue to monitor these changes in protocol to ensure that the procedures are followed and all information is reported accurately and documented as necessary for auditing purposes.

December 14, 2011

The Honorable Board of Education
Los Angeles Unified School District
Los Angeles, California

Members of the Board:

We have audited the financial statements of the **Los Angeles Unified School District** (the District) as of and for the year ended June 30, 2011, and have issued our report thereon dated December 14, 2011. In planning and performing our audit of the basic financial statements of the District, in accordance with auditing standards generally accepted in the United States of America, we considered the District's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies and a deficiency that we consider to be a material weakness.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider items FS-11-01 and FS 11-02 to be significant deficiencies in internal control.

Although not considered to be significant deficiencies or material weaknesses, we also noted certain items during our audit, which we would like to bring to your attention. These comments are summarized in the following report to management on pages 325 to 333.

We did not audit the District's response to the findings and comments identified in our audit, and accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the Board of Education, District management, the State Controller's office, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

A handwritten signature in cursive script that reads "Seymour E. Seymour". The signature is written in dark ink on a light background.

Current Year Management Letter Comments

ML-11-01 - Data Center Physical Access

Observation

Access Badge Request forms for Data Center access could not be located for four (4) of the ten (10) individuals sampled with Data Center access. We also noted that, Data Center access system (AMAG) reports are not reviewed/certified and signed on a periodic basis by IT management.

Impact

Unauthorized physical access to the Data Center could increase the likelihood of theft and/or damage to production data, computer devices and other information technology resources.

Recommendation

Data Center access reports should be reviewed and signed periodically (e.g., every 6 to 12 months) by ITD management to identify and remove inappropriate physical access to the data center.

Management Response

ITD management agrees with this recommendation and has begun discussions with the Beaudry headquarters building management to review access to the Data Center a minimum of every 6 months.

ML-11-02 - Computer Operations Procedures

Observation

Data Center operations procedures are not compiled and made accessible to ITD Computer Operations personnel, such procedures were only compiled into one set after auditor request was made.

Impact

Computer operations procedures may not be followed in a consistent and appropriate manner to ensure compliance with management's criteria.

Recommendation

Data Center procedures should be compiled and made accessible to ITD Computer Operations personnel either via storage on a shared network directory or distribution of multiple copies.

Current Year Management Letter Comments

Management Response

ITD management agrees with this recommendation. At minimum, ITD plans to have multiple copies of the procedures by June 30, 2012.

ML-11-03 - Batch Program Run Instructions

Observation

Run book instructions identify the specific operational requirements of a production batch job that a computer operator needs to be aware of should an error in job execution occur. However, Run Book/Instructions could not be provided for a sample of 35 IFS production jobs.

Impact

Accounting system production job processing may not be effectively recovered in a timely manner in the event of a system “abend” or malfunction.

Recommendation

Run book instructions should be developed for all IFS production batch jobs.

Management Response

ITD management began a review all batch programs managed by Data Center Operations in early 2011. At the conclusion of the review, a full set of documentation (including run instructions) will be compiled for the batch programs.

ML-11-04- IT Asset Inventory Management

Observation

IT asset discovery functionality is an automated process that helps IT management identify computer devices and their respective locations on the computer network. However, such functionality is not currently utilized to support IT asset inventory management.

Impact

IT assets may not be accurately recorded, tracked and effectively utilized. This could adversely impact the integrity of IT asset management and accounting.

Current Year Management Letter Comments

Recommendation

An IT asset discovery tool should be implemented to support the management of IT asset inventory.

Management Response

ITD management agrees with this finding. ITD is currently reviewing various solutions to provide IT asset discovery. At this time, no vendor or solution has been selected.

ML-11-05 - Wireless Encryption

Observation

WEP encryption is used instead of a more secure wireless encryption standard, i.e., WPA, for the Administration's network wireless access points. We were informed that to facilitate WPA encryption, the Administration network's current wireless access point devices would need to be upgraded to be compatible with WPA encryption.

Impact

A less than robust wireless encryption standard, e.g., WEP encryption, could result in unauthorized access by a system intruder to the district's computer network and mission critical systems.

Recommendation

WPA encryption should be implemented for the district's Administration wireless network.

Management Response

ITD management agrees with this finding. New District sites will use WPA exclusively; existing sites with a wireless network will be transitioned to WPA as resources allow.

ML-10-06 - Wireless Access Point Security

Observation

Periodic War Driving is not performed to identify unsecured wireless network connections, e.g., rogue or unauthorized wireless access points, for the district's 333 Beaudry Administration's wireless network.

Current Year Management Letter Comments

Impact

Unauthorized wireless access points may not be detected in a timely manner to effectively prevent system intrusion.

Recommendation

War driving should be performed on a periodic basis; either by ITD personnel or by a contracted consultant incorporated into a periodic independent network vulnerability assessment.

Management Response

ITD management agrees with the finding. When funding becomes available, ITD will contract for war driving services.

ML-11-07 - Mainframe Utility Management

Observation

Access to powerful mainframe system utilities (e.g., AMASPZAP, IMASPZAP, etc.) exists for a retired individual's RACF account (GCR6814).

Impact

The potential misuse of powerful system utilities could adversely impact the integrity of accounting system and data when assigned to individuals whose job function does not require them to have such access.

Recommendation

Inappropriate access should be deleted and RACF access profiles for System Utility access should be reviewed and approved on a periodic basis (e.g., every 6 to 12 months).

Management Response

The retired individual's RACF account will be removed by December 31, 2011.

ML-11-08 - Mainframe System Dataset Access

Observation

A retired employee's RACF account (GCR6814) has update/alter access to Systems production datasets, i.e., datasets with the Sys1.* high-level qualifier.

Current Year Management Letter Comments

Impact

Inadequate restriction to modify/update access to production dataset/files can result in unauthorized changes that adversely impact the integrity of accounting and financial reporting information

Recommendation

Inappropriate access to production datasets should be deleted. Also, RACF access profiles for ZOS system production datasets should be reviewed and approved on a periodic basis (e.g., every 6 to 12 months).

Management Response

The retired individual's RACF account will be removed by December 31, 2011.

ML-11-09 - IFS Dataset Access

Observation

The following Inactive RACF groupUIDs have Update or Alter access to IFS production datasets:

- BFSSEC2
- 1BFSSEC3
- BFSUSR4
- IFSBFTP

Impact

Unauthorized changes to accounting data and transactions may occur if access is not sufficiently restricted.

Recommendation

Inappropriate access to IFS production datasets should be deleted. Also, RACF access profiles for IFS production datasets should be reviewed and approved on a periodic basis (e.g., every 6 to 12 months).

Management Response

ITD management will review the membership of the above inactive RACF groups and take appropriate action.

Current Year Management Letter Comments

ML-11-10 - SMF Logging

Observation

System Management Facility (SMF) Record type 14 (INPUT Data Set Activity) is not logged to track when a dataset is processed.

Impact

Unauthorized or erroneous accounting data file input may not be detected if data modifications are not logged and summary reports reviewed periodically.

Recommendation

ITD management should consider the logging and review of the SMF record type 14 (INPUT Data Set Activity) subsequent to an appropriate assessment of any resource impact to the system.

Management Response

ITD management will take recommendation under advisement for further review. If SMF logging is found to be feasible, it will be implemented.

ML 11-11 - Construction in Progress and Transfers to Depreciable Capital Assets

Observation

Every year, the District undertakes numerous construction projects to either modernize existing school facilities or build new ones. Facilities Program Support Services, a branch within the District's Facilities Services Division (FSD) facilitates the proper accumulation and recording of the costs related to these construction projects. Also, part of the branch's responsibilities is to inform the General Accounting Branch whenever a construction of an asset is completed. The General Accounting Branch is in charge of the proper accounting of these assets, once they are put in service.

Construction in progress (CIP) is a District general ledger account that refers to the temporary classification of capital assets that are being built/assembled before being placed in service. The District tracks all its costs related to the building/assembly of such assets until the asset is completed. When the asset is completed or substantially completed, all these accumulated costs are transferred to another account, to indicate that such assets are ready to be put in service and as such, are to be depreciated. Subsequently, depreciation is accounted for using the most appropriate method to properly account for the asset's wear and tear.

Upon testing the correctness of the amounts accumulated in CIP and subsequently transferred to depreciable capital assets, we noted that some new construction and existing facilities projects

Current Year Management Letter Comments

amounting to about \$80.9 Million that have been completed but have not been transferred to depreciable capital assets. Furthermore, we noted certain Information Technology Department (ITD) projects amounting to about \$9.9 Million that were transferred as completed this year but were actually completed in the prior years. Depreciation expenses for these related assets should have been recorded in the prior years.

Impact

Lack of proper coordination between the Facilities Services Division and the General Accounting Branch resulted in a significant misstatement of construction in progress, depreciable capital assets and depreciation expenses.

Recommendation

We continue to recommend that the FSD perform a more thorough analysis of costs incurred for New Construction and Existing Facilities projects and that ITD perform a similar analysis of costs for ITD projects, when deciding whether these projects are completed and are ready to be put into operation and therefore, are to be depreciated.

Specifically, the District should establish and implement a clearer policy that addresses proper identification of completed projects. Currently, FSD's trigger point in determining a project's completion is a "notice of completion" document for the project's primary construction contractors. Supposedly, this document denotes that a project is completed or substantially completed. This information has to be verified by the facilities group and communicated to the General Accounting Branch. Same for ITD projects, ITD should thoroughly analyze all existing projects and evaluate each project's completion. The results of the evaluation should be communicated as well to the General Accounting Branch for proper recording of the assets' completion.

Management Response

Facilities Program Support Services acknowledges the discrepancies in the process for accounting for CIP and depreciable capital assets. A coordination meeting on lessons learned will be convened with General Accounting Branch and FSD to discuss corrective actions immediately after the CAFR audit is completed. First, all FSD projects and construction contracts will be reviewed for project completions and capitalized cost. Second, all entries in CIP and the depreciable capital assets accounts will be reviewed against FSD completed projects information. Third, to complete the analysis, FSD will provide a draft schedule of completed projects to General Accounting in March initiate the review the impact of transactions at June 30 at an earlier date.

Current Year Management Letter Comments

ML 11-12 – Ineffective Accrual Process for Construction-Related Expenditures

Observation

Generally accepted accounting principles for government entities require that expenditures be recorded in the period in which governments normally liquidate the related liability or when the transaction is expected to draw upon current spendable resources. Every year-end, the District, through Accounts Payable Department determines what expenditures need to be accrued in its financial statements by verifying through different departments what goods have been received or what services have been rendered from various vendors, and for which the District have not yet paid.

For goods and services related to construction of schools, due to the high volume of transactions, the District employs a separate group (Facilities Services Division) that administers the determination of accrual amounts at year-end. For fiscal year 2010-11, this group determined the accrual amounts by estimating what goods and services have been delivered based upon open contracts and purchase orders. It was later determined that the estimates were significantly more than actual expenditures and adjustments amounting to about \$67 Million had to be made. After the auditors verified the correctness of accrued amounts by searching for unrecorded liabilities, it was noted that expenditures mainly pertaining to professional services were under-accrued by about \$ 22.5 Million.

Impact

Ineffective coordination within the Facilities Services Division and miscommunication about the procedures in place for the year-end accrual process resulted in significant adjustments in expenditures to be reported in the financial statements for FY 2010-11.

Recommendation

The District should implement a systematic methodology or procedure to be used in determining what expenditures need to be recorded as accrued liabilities in the appropriate fiscal year, especially for departments that involve high volume of expenditure transactions. For construction-related expenditures where typically, actual billings by vendors take place at a much later date from when the services are rendered, project managers should be made responsible and held accountable to coordinate with Facilities Services Division and Accounts Payable in determining ongoing projects for which services have been rendered but have not been billed at year-end. Alternatively, project managers may be assigned the responsibility to coordinate with third party vendors to encourage timely submission of billings. Actual billings can then be the basis for the amount of expenditures to be accrued at year-end.

Management Response

The District acknowledges the audit finding. Accounts Payable, General Accounting Branch, FSD and other divisions will convene to discuss lessons learned and corrective actions immediately after

Current Year Management Letter Comments

the CAFR audit is completed. FSD will implement a process to review and analyze FSD construction contracts and professional services agreements in January. As encumbrance and payment requests are processed by FPPS, an estimate of work to be performed through June 30 will be maintained in the Invoice Tracker system. As subsequent transactions are processed, this estimate will be adjusted and refined through June 30. Non-FSD encumbrances in capital funds will also be identified and forwarded to responsible department contacts for similar activity. FSD will coordinate with Accounts Payable more prior to June 30 to review draft accruals data against information in the financial system of record. At fiscal year-end, accruals entries will be provided solely from FSD's Invoice Tracker system.

Status of Prior Year's Management Letter Comments

ML-10-01 - Audit Logging of SAP Infotypes

Recommendation

Payroll and ITD management should enable audit logging for the Additional Off-Cycle Payments (267) and Payroll Results Adjustments (221) SAP infotypes.

Current Status

Corrective action(s) implemented. The Additional Off-Cycle Payments (267) and Payroll Results Adjustments (221) SAP infotypes are now logged.

ML-10-02 - Information Security Function

Recommendation

The information security function should be organized at a level commensurate with the level of risk and sensitivity associated with the district's mission critical systems and IT infrastructure. Accordingly, we recommend that the information security function be organized at a higher reporting level within the ITD organization to ensure sufficient independence, resources and visibility are given to security matters.

Current Status

Corrective action(s) implemented.

ML-10-03 - IFS Data and Program Backups are not Periodically Tested

Recommendation

Management should schedule periodic testing of IFS backup data and programs to ensure timely and effective recovery of accounting processing in the event the IFS system fails.

Current Status

Corrective action(s) implemented. IFS backup is not tested periodically.

ML 10-04 - Construction in Progress and Transfers to Depreciable Capital Assets

Recommendation

We recommend that the Facilities Services Division (FSD) perform a more thorough analysis of costs incurred for New Constructions, Existing Facilities and ITD projects, when deciding whether these

Status of Prior Year's Management Letter Comments

projects are completed and are ready to be put into operation and therefore, are to be depreciated. This information should be verified by the facilities group supervisors and communicated to the General Accounting Branch. Same for ITD projects, ITD should thoroughly analyze all existing projects and evaluate each project's completion. The results of the evaluation should be communicated as well to the General Accounting Branch for proper recording of the assets' completion.

Specifically, the District should establish and implement a clearer policy that addresses proper identification of completed projects. Currently, FSD's trigger point in determining a project's completion is a "notice of completion" from the District's major construction contractors. Supposedly, this document denotes that a project is completed or substantially completed. This procedure may be appropriate for the Existing Facilities and ITD projects at Existing Facilities; however, as there are several major construction contractors for phases of a New Construction, the "notice of completion" does not appear to be the best document to trigger completion of those projects. We suggest that the "certificate of occupancy" seems to be a more accurate trigger of when New Construction projects should be moved to the completed asset category and depreciated.

Current Status

FSD will present a policy on Accounting for Capital Outlay Costs to align District processes with CSAM Procedure 770. The policy will provide requirements and criteria for capitalization of major repair project costs, public works project costs and other capital outlays. The policy will provide examples to differentiate between building repairs or maintenance costs and building fixtures, betterments and service systems.

ITD is in the process of reviewing current procedures in tracking completed projects. They are also currently reviewing procedures on soft costs allocation to the actual project. In addition, ITD is working on preparing their JV's to allocate the soft costs identified that need to be charged to the project.

ML 10-05 – Recording of Non-Exchange Transactions

Recommendation

For the recording of all non-exchange transactions that the District enters into, such as the State grants and reimbursements related to emergency repairs, we recommend that there should be more effective coordination between the department(s) monitoring the transactions and the General Accounting Branch. General Accounting has the technical knowledge on how to record the transactions properly and the departments that are responsible for the actual transactions are more familiar with the details and status of the transactions.

Status of Prior Year's Management Letter Comments

Current Status

The District has implemented the audit recommendations and an accounting process is in place to appropriately record the amount of revenue deferred and revenue earned pertaining to non-exchange transactions and specifically, the Emergency Repair Program.

LOS ANGELES UNIFIED SCHOOL DISTRICT
Status of Prior Year Findings and Recommendations|
June 30, 2011

Findings Related to the Basic Financial Statements Reported in Accordance with *Government Auditing Standards*

FS-10-01 - Lack of IFS Security Reporting - Material Weakness

State Audit Guide Finding Code: 30000

Recommendation

IFS user access security reports be developed to facilitate management review of user access to IFS transactions. These reports should be reviewed periodically by Accounting Department management to ensure access to sensitive accounting system transactions is appropriate and restricted based upon the user's job function.

Current Status

Corrective action(s) partially implemented. A manual review of user profile screen prints will be performed on annual basis.

FS-10-02 - Lack of Logging and Security Monitoring Control Processes - Significant Deficiency

State Audit Guide Finding Code: 30000

Recommendations

Windows network logs which capture critical activities should be reviewed on a timely basis. If necessary, log filtering tools can be used to enable efficient monitoring and review of access.

Current Status

Corrective action(s) implemented. Cisco Security Monitoring, Analysis, and Response System (MARS) has been implemented for network logging.

FS-10-03 - IFS Program Change Approval - Significant Deficiency

State Audit Guide Finding Code: 30000

Recommendation

IFS program changes should be consistently approved by accounting management with a signature to prevent unauthorized program changes. User acceptance testing signatures should also be documented.

Current Status

Corrective action(s) implemented. ITD has modified the transport form to require the signature of the business owner.

LOS ANGELES UNIFIED SCHOOL DISTRICT
Status of Prior Year Findings and Recommendations|
June 30, 2011

FS-10-04 - Lack of Sufficient Documentation for SAP Program Changes to the Production System - Significant Deficiency

State Audit Guide Finding Code: 30000

Recommendation

The requirement for documenting and approving application changes should be consistently followed to prevent unauthorized program changes. This includes documenting and retaining management approvals to confirm that program changes are aligned with management intentions and user requirements.

Current Status

Corrective action(s) implemented. ITD has reviewed the transport request forms for appropriate signatures and updated the identified transport forms by obtaining the business owners signature.

FS-10-05 - Developer Access to Payroll Production Data - Significant Deficiency

State Audit Guide Finding Code: 30000

Recommendation

ITD-BTS management should continue to review access for all payroll infotypes and remove BTS' update access where possible. In the long term, ITD and Payroll management should develop a transition plan to migrate the need to update production payroll data from ITD-BTS personnel.

Current Status

Corrective action(s) partially implemented. Although ITD-BTS users do not have ongoing access to update any info types in production, update access to payroll Infotypes were noted for four (4) ITD-BTS personnel during this year's audit.

FS-10-06 - SAP Time Management SOD Conflicts - Significant Deficiency

State Audit Guide Finding Code: 30000

Recommendation

Management should remove conflicting access for the users identified in a timely manner. Also, prior to assigning access to a user, the user's existing role and transaction assignments should be reviewed via the use of a security matrix or other mechanism to determine if the new access requested presents a segregation of duties conflict.

Current Status

Corrective action implemented. Conflicting access removed.

Year Ended June 30, 2011

Health and Human Services, Passed through the California Department of Education, CFDA Nos. 93.575 and 93.596, Contract CCTR-6164

Recommendation

We recommend the District enhance policies and procedures to ensure that all payment vouchers are adequately supported before recording them in the general ledger. We also recommend the District establish policies and procedures to ensure that salary allocations are made based on actual time and effort documentation and not based on estimated budgeted information.

Current Status

Implemented. The District provided its auditors copies of all journal vouchers and SAP and/or QMF print outs detailing the employee names for the payroll expenditures transferred with the period of the payroll incurred. This documentation provided support for all but \$7,585 related to the Vocational Education Program.

4. Finding F-07-08 – Allowable Costs – Controls over Calculation of Indirect Costs Charged to Program

Program Identification:

Twenty-First Century Community Learning Centers: U.S. Department of Education (ED); Passed through the California Department of Education, CFDA No. 84.287, Grant Agreements 05-14349-6473-2A and 06-14349-6473-1A;

GEAR-UP: U.S. Department of Education (ED), CFDA No. 84.334, Grant Agreements P334A000061-05, P334A050178-06, and P334A050205.

Recommendation

We recommend that the District provide additional guidance/training to its accountants to ensure that grants required to use the restricted indirect cost rate are calculated using the appropriate direct cost base in accordance with federal guidelines.

Current Status

Implemented

Recommendation

We recommend that the District implement policies and procedures to closely monitor the expenditures charged to an appropriate grant award period. The District should also perform additional analysis for the grants that do not have separate program/project codes for each award year to ensure that reported program expenditures for each grant award year were claimed and obligated appropriately.

We further recommend that the District strengthen controls over its monitoring of outstanding obligations to ensure that all obligations are liquidated under the award not later than 90 days after the end of the funding periods; and unliquidated obligations are reconciled and adjusted so that the balance remaining in encumbrance is properly returned to the grantor.

Health and Human Services, Passed through the California Department of Education, CFDA Nos. 93.575 and 93.596, Contract CCTR-6164;

Fund for Improvement of Education: U.S. Department of Education (ED), CFDA No. 84.215, Grant Agreements V215L052108 and S215L060084;

Medical Assistance Program: U.S. Department of Health & Human Services, Passed Through the California Department of Health Services (CDHS), CFDA No. 93.778, Grant Agreement C-10606:08:09.

Recommendation

We recommend that the District implement policies and procedures to closely monitor the expenditures charged to an appropriate grant award period. The District should also perform additional analysis for the grants that do not have separate program/project codes for each award year to ensure that reported program expenditures for each grant award year were claimed and obligated appropriately.

We further recommend that the District strengthen controls over its monitoring of outstanding obligations to ensure that all obligations are liquidated under the award not later than 90 days after the end of the funding periods; and unliquidated obligations are reconciled and adjusted so that the balance remaining in encumbrance is properly returned to the grantor.

16. Finding F-10-14 – Reporting – Not Retaining the Meal Tickets Collected

Program Identification:

Child Nutrition Cluster: School Breakfast Program, National School Lunch Program, Summer Food Service Program for Children, U.S. Department of Agriculture (USDA), Passed through the California Department of Education, CFDA Nos. 10.553, 10.555, and 10.559, Grant Agreement 19-64733- 0000000-01.

Recommendation

Pursuant to findings from previous years audits, which included the same finding, the District had already issued a policy memorandum dated July 16, 2010, effective from that day, addressed to food

LOS ANGELES UNIFIED SCHOOL DISTRICT

Status of Prior Year Findings and Recommendations

Year Ended June 30, 2011

service managers, mandating that meal tickets must be kept on hand and available for review for three years, plus the current school year, keeping in line with federal compliance requirements. Additionally current year tickets were to be maintained at the school site. However, for our entire audit year, that is fiscal year 2009-10, schools did not maintain meal tickets for the federally required time-period of three years. As such, we recommend that the District strengthen its controls regarding the meal counting process. The District should also ensure all cafeteria managers comply with the District's retention policy.

Findings and Questioned Costs Related to State Awards

(1) S-10-01 Regular and Special Day Classes – Elementary Schools – Attendance Computations

State Audit Guide Finding Codes: 10000 and 40000

Schools Affected

- Winnetka Elementary School
- Sunland Elementary School
- Broad Avenue Elementary School

Recommendation

We recommend that the District continue to strengthen its controls over implementing District policies over student attendance reporting. Furthermore, we recommend that the District continue to provide adequate attendance reporting training to the schools so that proper attendance reporting procedures are adhered to.

Current Status

Corrective actions were implemented by the subject schools.

(2) S-10-02 Regular and Special Day Classes – Secondary Schools – Attendance Computations

State Audit Guide Finding Codes: 10000 and 40000

Schools Affected:

- White Middle School
- Roosevelt High School

Recommendation

We recommend that the District continue to strengthen its controls over implementing District policies over student attendance reporting. Furthermore, we recommend that the District continue to provide adequate attendance reporting training to the schools so that proper attendance reporting procedures are adhered to.

Current Status

Corrective actions were implemented by the subject schools.

LOS ANGELES UNIFIED SCHOOL DISTRICT

Status of Prior Year Findings and Recommendations

(3) S-10-03 Attendance Accounting – Continuation Education – Attendance Computations

State Audit Guide Finding Codes: 10000 and 40000

School Affected

- Mission High School
- Monterey High School

Recommendation

We recommend that the District strengthen its review process over the compilation of the *Monthly Statistical Reports* to ensure that the report accurately reflects student attendance data.

Current Status

Corrective action was implemented.

(4) S-10-04 Attendance Accounting – Independent Study – Attendance Computations

State Audit Guide Finding Codes: 10000 and 40000

School Affected

- Venice Skill Center AEW

Recommendation

We recommend that the District strengthen its review process over independent study to ensure proper reporting of attendance through appropriate evaluation of pupils' work based on all required documentation on file.

Current Status

Corrective actions were implemented by the subject school.

(5) S-10-05 Attendance Accounting – Dependent Charter School – Attendance Computations

State Audit Guide Finding Codes: 10000 and 40000

Schools Affected

- Alexander Science Center

LOS ANGELES UNIFIED SCHOOL DISTRICT

Status of Prior Year Findings and Recommendations

June 30, 2011

Recommendation

We recommend that the District continue to strengthen its review process over dependent charter schools' attendance reporting.

Current Status

Corrective actions were implemented by the subject school.

(6) S-09-06 – After School Education and Safety Program

State Audit Guide Finding Codes: 40000

School Affected

Belvedere Middle School	Vista Middle School
Normont Elementary School	Ritter Elementary School
Glassell Park Elementary School	Glenhill Street Elementary School
Columbus Avenue Elementary School	Sharpe Elementary School
Pio Pico Elementary	122 nd St. Elementary School
Haddon Elementary School	San Antonio Elementary School

June 30, 2011

Recommendation

We recommend that the District strengthen its controls in implementing policies about students who need to stay in kindergarten for more than a year.

Current Status

Corrective actions were implemented by the subject school.

APPENDIX C

BOOK-ENTRY ONLY SYSTEM

THE INFORMATION IN THIS APPENDIX C CONCERNING THE DEPOSITORY TRUST COMPANY, NEW YORK, NEW YORK AND ITS BOOK-ENTRY SYSTEM HAS BEEN OBTAINED FROM SOURCES THAT THE DISTRICT AND THE UNDERWRITERS BELIEVE TO BE RELIABLE, BUT THE DISTRICT AND THE UNDERWRITERS TAKE NO RESPONSIBILITY FOR THE ACCURACY THEREOF.

The Depository Trust Company, New York, New York (“DTC”), will act as securities depository for the 2012 General Obligation Refunding Bonds, Series A (the “Refunding Bonds”). The Refunding Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered security certificate will be issued for each maturity of the Refunding Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has a Standard & Poor’s rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of the Refunding Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Refunding Bonds on DTC’s records. The ownership interest of each actual purchaser of each security (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Refunding Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Refunding Bonds, except in the event that use of the book-entry system for the Refunding Bonds is discontinued.

To facilitate subsequent transfers, all Refunding Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of the Refunding Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Refunding Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Refunding Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of the Refunding Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Refunding Bonds, such as redemptions, tenders, defaults, and proposed amendments to the security documents. For example, Beneficial Owners of the Refunding Bonds may wish to ascertain that the nominee holding the Refunding Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Refunding Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Refunding Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Refunding Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions, and other payments on the Refunding Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC or the District subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and other payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Refunding Bonds at any time by giving reasonable notice to the District. Under such circumstances, in the event that a successor depository is not obtained, security certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, certificates will be printed and delivered to DTC

and the requirements of the Paying Agent Agreement with respect to certificated Refunding Bonds will apply.

THE DISTRICT, THE COUNTY, THE PAYING AGENT, THE CO-FINANCIAL ADVISORS, AND THE UNDERWRITERS CANNOT AND DO NOT GIVE ANY ASSURANCES THAT DTC, DIRECT PARTICIPANTS OR INDIRECT PARTICIPANTS OF DTC WILL DISTRIBUTE TO THE BENEFICIAL OWNERS OF THE SECURITIES (I) PAYMENTS OF PRINCIPAL OF AND INTEREST EVIDENCED BY THE SECURITIES (II) CONFIRMATIONS OF THEIR OWNERSHIP INTERESTS IN THE SECURITIES OR (III) OTHER NOTICES SENT TO DTC OR CEDE & CO., ITS PARTNERSHIP NOMINEE, AS THE REGISTERED OWNER OF THE SECURITIES, OR THAT THEY WILL DO SO ON A TIMELY BASIS, OR THAT DTC, DIRECT PARTICIPANTS OR INDIRECT PARTICIPANTS WILL SERVE AND ACT IN THE MANNER DESCRIBED IN THIS OFFICIAL STATEMENT.

NEITHER THE DISTRICT, THE COUNTY, THE PAYING AGENT, THE CO-FINANCIAL ADVISORS, NOR THE UNDERWRITERS WILL HAVE ANY RESPONSIBILITY OR OBLIGATIONS TO DTC, THE DIRECT PARTICIPANTS, THE INDIRECT PARTICIPANTS OF DTC OR THE BENEFICIAL OWNERS WITH RESPECT TO (1) THE ACCURACY OF ANY RECORDS MAINTAINED BY DTC OR ANY DIRECT PARTICIPANTS OR INDIRECT PARTICIPANTS OF DTC; (2) THE PAYMENT BY DTC OR ANY DIRECT PARTICIPANTS OR INDIRECT PARTICIPANTS OF DTC OF ANY AMOUNT DUE TO ANY BENEFICIAL OWNER IN RESPECT OF THE PRINCIPAL AMOUNT OF OR INTEREST ON SECURITIES; (3) THE DELIVERY BY DTC OR ANY DIRECT PARTICIPANTS OR INDIRECT PARTICIPANTS OF DTC OF ANY NOTICE TO ANY BENEFICIAL OWNER THAT IS REQUIRED OR PERMITTED TO BE GIVEN TO OWNERS UNDER THE TERMS OF THE TRUST AGREEMENT; OR (4) ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY DTC AS OWNER OF THE SECURITIES.

[THIS PAGE INTENTIONALLY LEFT BLANK]

APPENDIX D

PROPOSED FORM OF OPINION OF BOND COUNSEL

Upon the delivery of the Refunding Bonds, Sidley Austin LLP, Bond Counsel to the District, proposes to render its final approving opinion with respect to the Refunding Bonds in substantially the following form:

Board of Education
Los Angeles Unified School District
Los Angeles, California

\$156,000,000
Los Angeles Unified School District
(County of Los Angeles, California)
2012 General Obligation Refunding Bonds,
Series A

Members of the Board of Education:

We have acted as bond counsel to the Los Angeles Unified School District (the “District”) in connection with the issuance of \$156,000,000 Los Angeles Unified School District (County of Los Angeles, California) 2012 General Obligation Refunding Bonds, Series A (the “Refunding Bonds”). The Refunding Bonds are issued pursuant to provisions of Title 5, Division 2, Part 1, Chapter 3, Article 9 and Article 11 of the California Government Code, as amended (the “Act”), and other applicable law. The Board of Education of the District adopted a resolution on September 13, 2011 (the “Refunding Resolution”), authorizing the issuance of the Refunding Bonds and the Board of Supervisors of the County of Los Angeles adopted a resolution on May 8, 2012 (the “County Resolution” and, together with the Refunding Resolution, the “Resolutions”), providing for the levy of ad valorem taxes with respect to the Refunding Bonds by the District. The District has entered into a Paying Agent Agreement, dated as of May 1, 2012 (the “Paying Agent Agreement”), between the District and U.S. Bank National Association, as paying agent (the “Paying Agent”), to provide for the authentication and delivery of the Refunding Bonds, to establish and declare the terms and conditions upon which the Refunding Bonds are to be issued and secured and to provide for the payment thereof.

In our capacity as bond counsel, we have reviewed originals, or copies certified or otherwise identified to our satisfaction as being true copies of the Resolutions, the Paying Agent Agreement, the Tax Certificate executed and delivered by the District in connection with the issuance of the Refunding Bonds (the “Tax Certificate”), certificates of the District, and such other documents, certificates, opinions and matters as we have considered necessary or appropriate under the circumstances to render the opinions set forth herein.

We have assumed the genuineness of all documents and signatures proposed to us. We have not undertaken to verify independently, and have assumed, the accuracy of the factual matters represented, warranted or certified in the documents we reviewed. We have also assumed the accuracy of all representations and compliance with all covenants and agreements contained in the Resolutions, the Paying Agent Agreement and the Tax Certificate, including (without limitation) covenants and agreements compliance with which is necessary to assure that future actions or omissions will not cause the interest on the Refunding Bonds to be included in gross income for federal income tax purposes.

Based on the foregoing, and subject to the limitations and qualifications herein specified, as of the date hereof, and under existing law, we are of the opinion that:

1. The Refunding Resolution constitutes a valid and binding obligation of the District enforceable against the District in accordance with its terms.

2. The Paying Agent Agreement has been duly authorized, executed and delivered by the District and, assuming due authorization, execution and delivery by the Paying Agent, is valid and binding on the District and is enforceable against the District in accordance with its terms.

3. The Refunding Bonds constitute valid and binding general obligations of the District, payable solely from the proceeds of the levy of ad valorem taxes on all property subject to such taxes in the District, which taxes are unlimited as to rate or amount.

4. Assuming continuing compliance by the District with certain covenants and with the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), relating to, among other matters, the use, expenditure and investment of the proceeds of the Refunding Bonds and the timely payment of certain investment earnings to the United States Treasury, interest on the Refunding Bonds will not be included in the gross income of the owners thereof for purposes of federal income taxation. Failure by the District to comply with such covenants and requirements may cause the interest on the Refunding Bonds to be includable in gross income for federal income tax purposes retroactive to the date of issue of the Refunding Bonds. Further, we render no opinion as to the effect on the exclusion from gross income of the interest on the Refunding Bonds for federal income tax purposes of any action taken or not taken after the date of this opinion in reliance on the opinion or advice of counsel other than this firm.

5. Interest on the Refunding Bonds is not a specific preference item for purposes of the federal individual or corporate alternative minimum tax; however, interest on the Refunding Bonds owned by a corporation will be included in the calculation of the corporation's alternative minimum tax liability.

6. Interest on the Refunding Bonds is exempt from personal income taxes imposed by the State of California.

Other than as described in paragraphs 4, 5 and 6 herein, we have not addressed nor are we opining on the tax consequences to any person of the investment in, or receipt of, any interest in the Refunding Bonds.

The rights of the owners of the Refunding Bonds and the enforceability thereof and of the Resolutions and the Paying Agent Agreement may be subject to bankruptcy, insolvency, reorganization, arrangement, moratorium and other similar laws affecting the enforcement of creditors' rights heretofore and hereafter enacted to the extent constitutionally applicable and their enforcement may also be subject to the right of the exercise of judicial discretion in appropriate cases, and to the limitations on legal remedies against school districts in the State of California.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions. Such opinions may be adversely affected by actions taken or events occurring, including a change in law, regulation or ruling (or in the application or official interpretation of any law, regulation or ruling) after the date hereof. We have not undertaken to determine, or to inform any person, whether such actions are taken or such events occur, and we have no obligation to update this opinion in light of such actions or events.

Respectfully submitted,

APPENDIX E

FORM OF CONTINUING DISCLOSURE CERTIFICATE

This Continuing Disclosure Certificate (the “Disclosure Certificate”) is executed and delivered by the Los Angeles Unified School District (the “District”) in connection with the issuance of its Refunding Bonds, which are being issued pursuant to the Resolution and a Paying Agent Agreement dated as of May 1, 2012 by and between the District and U.S. Bank National Association, as Paying Agent. The District covenants and agrees as follows:

Section 1. Purpose of the Disclosure Certificate. This Disclosure Certificate is being executed and delivered by the District and the Dissemination Agent for the benefit of the Holders and Beneficial Owners of the Refunding Bonds and in order to assist the Participating Underwriters in complying with Securities and Exchange Commission Rule 15c2 12(b)(5).

Section 2. Definitions. In addition to the definitions set forth in the Paying Agent Agreement, which apply to any capitalized term used in this Disclosure Certificate unless otherwise defined in this Section, the following capitalized terms shall have the following meanings:

“Annual Report” shall mean any Annual Report provided by the District pursuant to, and as described in, Sections 4 and 5 of this Disclosure Certificate.

“CUSIP Numbers” shall mean the Committee on Uniform Security Identification Procedure’s unique identification number for each public issue of a security.

“Beneficial Owner” shall mean any person who (a) has the power, directly or indirectly, to vote or consent with respect to, or to dispose of ownership of, any Bonds (including persons holding Bonds through nominees, depositories or other intermediaries), or (b) is treated as the owner of any Bonds for federal income tax purposes.

“County” shall mean the County of Los Angeles, California.

“Dissemination Agent” shall mean Digital Assurance Certification, L.L.C., or any successor Dissemination Agent designated in writing by the District and which has filed with the District a written acceptance of such designation.

“Disclosure Counsel” shall mean an attorney-at-law, or a firm of such attorneys, of nationally recognized standing in matters pertaining to the disclosure obligations under Rule 15c-2 of the Securities and Exchange Commission of the United States of America, duly admitted to the practice of law before the highest court of any state of the United States of America.

“EMMA System” shall mean the MSRB’s Electronic Municipal Market Access system.

“Holder” shall mean either the registered owners of the Refunding Bonds, or if the Refunding Bonds are registered in the name of The Depository Trust Company or another recognized depository, any applicable participant in such depository system.

“Listed Events” shall mean any of the events listed in Section 6(b) of this Disclosure Certificate.

“MSRB” shall mean the Municipal Securities Rulemaking Board established pursuant to Section 15B(b)(1) of the Securities Exchange Act of 1934, or any successor thereto or to the functions of the MSRB contemplated by this Disclosure Certificate.

“Official Statement” shall mean the Official Statement dated April 18, 2012 with respect to the Refunding Bonds.

“Participating Underwriters” shall mean any of the original underwriters of the Refunding Bonds required to comply with the Rule in connection with offering of the Refunding Bonds.

“Paying Agent Agreement” shall mean the Paying Agent Agreement dated as of May 1, 2012 by and between the District and U.S. Bank National Association, as Paying Agent.

“Refunding Bonds” shall mean the District’s \$156,000,000 2012 General Obligation Refunding Bonds, Series A.

“Resolution” shall mean the resolution of the Board of Education of the District adopted on September 13, 2011 authorizing the issuance of the Refunding Bonds.

“Rule” shall mean Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

Section 3. Transmission of Notices, Documents and Information. (a) Unless otherwise required by the MSRB, all notices, documents and information provided to the MSRB shall be provided to the MSRB’s Electronic Municipal Markets Access (EMMA) system, the current internet address of which is <http://emma.msrb.org>.

(b) All notices, documents and information provided to the MSRB shall be provided in an electronic format as prescribed by the MSRB.

Section 4. Provision of Annual Reports.

The District shall, or shall cause the Dissemination Agent to, not later than 240 days following the end of the District’s fiscal year (currently ending June 30), commencing with the report for the 2011-12 Fiscal Year (which is due not later than February 25, 2013), provide to the MSRB through its EMMA System an Annual Report which is consistent with the requirements of Section 5 of this Disclosure Certificate. The Annual Report may be submitted as a single document or as separate documents comprising a package, and may cross-reference other information as provided in Section 5 of this Disclosure Certificate; provided that the audited financial statements of the District may be submitted separately from the balance of the Annual Report and later than the date required above for the filing of the Annual Report if they are not available by that date. If the District’s fiscal year changes, it shall give notice of such change in the same manner as for a Listed Event under Section 6(c).

Not later than thirty (30) days (not more than sixty (60) days) prior to the date on which the Annual Report is to be provided pursuant to subsection (a), the Dissemination Agent shall give notice to the District that the Annual Report is so required to be filed in accordance with the terms of this Disclosure Certificate. Not later than fifteen (15) days prior to said date, the District shall provide the Annual Report to the Dissemination Agent (if other than the District). If the District is unable to provide to the MSRB through its EMMA System an Annual Report by the date required in subsection (a), the Dissemination Agent shall send a notice of such fact to the MSRB through its EMMA System.

The Dissemination Agent shall:

determine each year prior to the date for providing the Annual Report the EMMA System the date on which such Annual Report shall be due and notify the District of such date; and

(if the Dissemination Agent is other than the District) file a report with the District certifying that the Annual Report has been provided pursuant to this Disclosure Certificate, stating the date it was provided and that it was provided to the MSRB through the EMMA System.

Section 5. Content of Annual Reports. The District's Annual Report shall contain or include by reference the following:

(a) Audited financial statements of the District for the preceding fiscal year, prepared in accordance with the laws of the State of California and including all statements and information prescribed for inclusion therein by the Controller of the State of California. If the District's audited financial statements are not available by the time the Annual Report is required to be filed pursuant to Section 4(a), the Annual Report shall contain unaudited financial statements in a format similar to the financial statements contained in the final Official Statement, and the audited financial statements shall be filed in the same manner as the Annual Report when they become available.

(b) To the extent not included in the audited financial statement of the District, the Annual Report shall also include the following:

(i) Adopted general fund budget of the District for the current fiscal year.

(ii) District average daily attendance.

(iii) District outstanding debt.

(iv) Information regarding total assessed valuation of taxable properties within the District, if and to the extent provided to the District by the County.

(v) Information regarding total secured tax charges and delinquencies on taxable properties within the District, if and to the extent provided to the District by the County.

(vi) Information regarding total assessed valuation and parcels by land use.

(vii) Information regarding the assessed valuation per parcel of single family homes.

(viii) Information regarding the largest local secured taxpayers.

(c) Any or all of the items listed above may be included by specific reference to other documents, including official statements of debt issues of the District or related public entities, which have been submitted to the MSRB through its EMMA System. If the document included by reference is a final official statement, it must be available from the MSRB. The District shall clearly identify each such other document so included by reference.

(d) The descriptions contained in clause (b) above of financial information and operating data constituting to be included in the Annual Report are of general categories or types of financial information and operating data. When such descriptions include information that no longer can be

generated because the operations to which it related have been materially changed or discontinued, or due to changes in accounting practices, legislative or organizational changes, a statement to that effect shall be provided in lieu of such information. Comparable information shall be provided if available.

Section 6. Reporting of Listed Events.

(a) If a Listed Event occurs, the District shall provide or caused to be provided, in a timely manner not in excess of ten (10) Business Days after the occurrence of such Listed Event, notice of such Listed Event to (i) the EMMA System of the MSRB and (ii) the Dissemination Agent.

Pursuant to the provisions of this Section 6, the District shall give, or cause to be given, notice of the occurrence of any of the following events (each, a “Listed Event”) with respect to the Refunding Bonds:

- (i) principal and interest payment delinquencies.
- (ii) non-payment related defaults, if material.
- (iii) modifications to rights of Holders, if material.
- (iv) Bond calls, if material and tender offers.
- (v) defeasances.
- (vi) rating changes.
- (vii) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (Internal Revenue Service Form 5701-TEB) or other material notices of determinations with respect to the tax status of the Refunding Bonds, or other material events affecting the tax status of the Refunding Bonds.
- (viii) unscheduled draws on the debt service reserves reflecting financial difficulties.
- (ix) unscheduled draws on the credit enhancements reflecting financial difficulties.
- (x) release, substitution or sale of property securing repayment of the Certificates, if material.
- (xi) bankruptcy, insolvency, receivership or similar event of the District (such event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for the District in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under State or federal law in which a court or government authority has assumed jurisdiction over substantially all of the assets or business of the District, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the District);
- (xii) substitution of credit or liquidity providers, or their failure to perform;

(xiii) the consummation of a merger, consolidation, or acquisition involving the District or the sale of all or substantially all of the assets of the District, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; and

(xiv) appointment of a successor or additional Paying Agent or the change of name of a Paying Agent, if material.

The District notes that items (viii), (ix), (x) and (xii) are not applicable to the Refunding Bonds.

If the District determines that a Listed Event has occurred, the District shall promptly notify the Dissemination Agent in writing. Such notice shall instruct the Dissemination Agent to report the occurrence pursuant to Section 3 hereof.

If the Dissemination Agent has been instructed by the District to report the occurrence of a Listed Event, the Dissemination Agent shall file a notice of such occurrence with the MSRB through its EMMA System.

Notwithstanding the foregoing, notice of Listed Events described in subsections (b)(iv) and (v) need not be given under this subsection any earlier than the notice (if any) of the underlying event is given to Holders of affected Bonds pursuant to the Paying Agent Agreement.

Section 7. CUSIP Numbers. Whenever providing information to the Dissemination Agent, including but not limited to Annual Reports, documents incorporated by reference to the Annual Reports, Audited Financial Statements and notices of Listed Events, the District shall indicate the full name of the Refunding Bonds and the 9-digit CUSIP numbers for the Refunding Bonds as to which the provided information relates.

Section 8. Termination of Reporting Obligation.

(a) The District's obligations under this Disclosure Certificate shall terminate upon the legal defeasance, prior redemption or payment in full of all of the Refunding Bonds. If such termination occurs prior to the final maturity of the Refunding Bonds, the District shall give notice of such termination in the same manner as for a Listed Event under Section 6(c).

(b) This Disclosure Certificate, or any provision hereof, shall cease to be effective in the event that the District (1) delivers to the Dissemination Agent an opinion of Disclosure Counsel, addressed to the District and the Dissemination Agent, to the effect that those portions of the Rule which require this Disclosure Certificate, or such provision, as the case may be, do not or no longer apply to the Refunding Bonds, whether because such portions of the Rule are invalid, have been repealed, or otherwise, as shall be specified in such opinion, and (2) delivers copies of such opinion to the MSRB.

Section 9. Dissemination Agent. The District may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under this Disclosure Certificate, and may discharge any such Agent, with or without appointing a successor Dissemination Agent. The Dissemination Agent shall be Digital Assurance Certification, L.L.C. If at any time there is no designated Dissemination Agent appointed by the District, or if the Dissemination Agent so appointed is unwilling or unable to perform the duties of the Dissemination Agent hereunder, the District shall be the Dissemination Agent and undertake or assume its obligations hereunder. The Dissemination Agent (other

than the District) shall not be responsible in any manner for the content of any notice or report required to be delivered by the District pursuant to this Disclosure Certificate.

Section 10. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Certificate, the District may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, provided that the following conditions are satisfied:

(a) If the amendment or waiver relates to the provisions of Sections 3(a), 4, or 5(a), it may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature or status of an obligated person with respect to the Refunding Bonds, or the type of business conducted; and

(b) The undertaking, as amended or taking into account such waiver, would, in the opinion of Disclosure Counsel, have complied with the requirements of the Rule at the time of the original issuance of the Refunding Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances.

(c) The amendment or waiver either: (i) is approved by the Holders of the Refunding Bonds in the same manner as provided in the Paying Agent Agreement with the consent of Holders, or (ii) does not, in the opinion of Disclosure Counsel, materially impair the interests of the Holders or Beneficial Owners of the Refunding Bonds.

(d) In the event of any amendment or waiver of a provision of this Disclosure Certificate, the District shall describe such amendment in the next Annual Report, and shall include, as applicable, a narrative explanation of the reason for the amendment or waiver and its impact on the type (or in the case of a change of accounting principles, on the presentation) of financial information or operating data being presented by the District. In addition, if the amendment relates to the accounting principles to be followed in preparing financial statements, (i) notice of such change shall be given in the same manner as for a Listed Event under Section 6(c), and (ii) the Annual Report for the year in which the change is made shall present a comparison (in narrative form and also, if feasible, in quantitative form) between the financial statements as prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

Section 11. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the District from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Annual Report or notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the District chooses to include any information in any Annual Report or notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Certificate, the District shall have no obligation under this Certificate to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event.

Section 12. Default. In the event of a failure of the District to comply with any provision of this Disclosure Certificate, the Dissemination Agent may (and, at the request of any Participating Underwriter or the Holders or Beneficial Owners of at least 25% of aggregate principal amount of the Refunding Bonds then outstanding, shall) or any Holders or Beneficial Owners of the Refunding Bonds may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the District to comply with its obligations under this Disclosure Certificate; provided that any such action may be instituted only in the Superior Court of the State of California in and for the County of Los Angeles or in the U.S. District Court in the County of Los Angeles. A default under this Disclosure Certificate shall not be deemed an Event of Default under the

Paying Agent Agreement, and the sole remedy under this Disclosure Certificate in the event of any failure of the District to comply with this Disclosure Certificate shall be an action to compel performance.

Section 13. Duties, Immunities and Liabilities of Dissemination Agent. The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate, and the District agrees to indemnify and save the Dissemination Agent, its officers, directors, employees and agents, harmless against any loss, expense and liabilities which it may incur arising out of or in the exercise or performance of its powers and duties hereunder, including the costs and expenses (including attorneys fees) of defending against any claim of liability, but excluding liabilities due to the Dissemination Agent's gross negligence or willful misconduct. The obligations of the District under this Section shall survive resignation or removal of the Dissemination Agent and payment of the Refunding Bonds.

Section 14. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the District, the Dissemination Agent, the Participating Underwriters and Holders and Beneficial Owners from time to time of the Refunding Bonds, and shall create no rights in any other person or entity.

APPENDIX F

THE LOS ANGELES COUNTY TREASURY POOL

The Treasurer and Tax Collector of the County of Los Angeles (the “Treasurer”) manages, in accordance with California Government Code Section 53600 et seq., funds deposited with the Treasurer by County school and community college districts, various special districts and some cities. State law generally requires that all moneys of the County, school districts and certain special districts be held in the County’s Treasury Pool (the “Treasury Pool”) as described below. The composition and value of investments under management in the Treasury Pool vary from time to time, depending on the cash flow needs of the County and the other public agencies invested in the Treasury Pool, the maturity or sale of investments, purchase of new securities and fluctuations in interest rates generally. The Treasurer maintains a website, the address of which is <http://ttc.lacounty.gov>, on which the Treasurer periodically places information relating to the Treasury Pool. However, the information presented there is not part of this Official Statement, is not incorporated by reference herein and should not be relied upon in making an investment decision with respect to the Refunding Bonds.

Los Angeles County Pooled Surplus Investments

The Treasurer has the delegated authority to invest funds on deposit in the County Treasury (the “Treasury Pool”). As of February 29, 2012, investments in the Treasury Pool were held for local agencies including school districts, community college districts, special districts and discretionary depositors such as cities and independent districts in the following amounts:

Local Agency	Invested Funds (in billions)
County of Los Angeles and Special Districts	\$ 7.199
Schools and Community Colleges	12.812
Independent Public Agencies	3.586
Total	<u>\$23.597</u>

Of these entities, the involuntary participants accounted for approximately 84.80%, and all discretionary participants accounted for 15.20% of the total Treasury Pool.

Decisions on the investment of funds in the Treasury Pool are made by the County Investment Officer in accordance with established policy, with certain transactions requiring the Treasurer’s prior approval. In Los Angeles County, investment decisions are governed by Chapter 4 (commencing with Section 53600) of Part 1 of Division 2 of Title 5 of the California Government Code, which governs legal investments by local agencies in the State of California, and by a more restrictive Investment Policy developed by the Treasurer and adopted by the Los Angeles County Board of Supervisors on an annual basis. The Investment Policy adopted on March 15, 2011, reaffirmed the following criteria and order of priority for selecting investments:

1. Safety of Principal
2. Liquidity
3. Return on Investment

The Treasurer prepares a monthly Report of Investments (the “Investment Report”) summarizing the status of the Treasury Pool, including the current market value of all investments. This report is submitted monthly to the Board of Supervisors. According to the Investment Report dated March 30,

2012, the February 29, 2012 book value of the Treasury Pool was approximately \$23.597 billion and the corresponding market value was approximately \$23.657 billion.

An internal controls system for monitoring cash accounting and investment practices is in place. The Treasurer's Compliance Auditor, who operates independently from the Investment Officer, reconciles cash and investments to fund balances daily. The Compliance Auditor's staff also reviews each investment trade for accuracy and compliance with the Board adopted Investment Policy. On a quarterly basis, the County's outside auditor (the "External Auditor") reviews the cash and investment reconciliations for completeness and accuracy. Additionally, the External Auditor reviews investment transactions on a quarterly basis for nonconformance with the approved Investment Policy and annual accounts for all investments.

The following table identifies the types of securities held by the Treasury Pool as of February 29, 2012.

Type of Investment	% of Pool
U.S. Government and Agency Obligations	44.01
Certificates of Deposit	20.08
Commercial Paper	32.78
Bankers Acceptances	0.00
Municipal Obligations	0.03
Corporate Notes & Deposit Notes	3.10
Asset Backed Instruments	0.00
Repurchase Agreements	0.00
Other	<u>0.00</u>
	100.00

The Treasury Pool is highly liquid. As of February 29, 2012 approximately 54.03% of the investments mature within 60 days, with an average of 583 days to maturity for the entire portfolio.
