

Summer School Roster 2018

As previous years MyData doesn't include incoming students for summer school if they haven't attended your school before.

If you are an administrator for a school, or a teacher and need to access their **email accounts for summer school students** please read instructions below. If the **PIN #'s** are missing please send us their District ID number **ONLY** to: mydata@lausd.net

Please **Do Not** send the student names or any other information related to the student.

Before you send us any request please check your **Email Account Roster** from your MyData report.

Here's the link so you can read how to access the report if you are having difficulties or if you have not accessed the report before. [HOW TO ACCESS STUDENT'S PIN #'S](#)

If you have problems with access please send an email to mydata@lausd.net with your Name, School Name, Employee #, and what type of access you should have. (Teacher or school-wide access)

Thank you,

MyData
