

Incoming Students for Summer School

As previous years MyData doesn't include incoming students for summer school if they haven't attended your school before.

If you are an administrator for a school, or a teacher and need to access their **email accounts** or **PIN #'s** please send us their District ID number **ONLY** to: mydata@lausd.net

Please **Do Not** send the student names or any other information related to the student.

Before you send us any request please check your Email Account Roster from your MyData report. Here's the link so you can view how to access the report if you are having difficulties or if you have not accessed the report before. [HOW TO ACCESS STUDENT'S PIN #'S](#)

If you have problems with access please send an email to mydata@lausd.net with your Name, School Name, Employee #, and what type of access you should have. (Teacher or school-wide access)

Thank you,

MyData
