

LA Unified in partnership with LA STEM Consortium will prepare students to think globally and act locally...

Digital Art

for a Sustainable Future

A Virtual Summer Enrichment Program for Grades 6-8

Students will gain environmental literacy and become skilled media artists who can capture the beauty of the natural world and inspire us to lean in for a more sustainable future.

Think Globally, Act Locally

SUSTAINABLE DEVELOPMENT GOALS

Over four one-week units, students will learn about a different Sustainable Development Goal and apply a new aspect of media arts. By the end of the program, they will create a four-piece media arts portfolio that advocates for better stewardship of our global and local environment.

A program for

Current 6th-8th Graders

Program Schedule

June 24 - July 22

Monday - Thursday

1 p.m. - 3 p.m.

#art4GlobalGoals #art4SDGs
