

Beginning Steps Parents Can Take to Access Parent Portal

Los Angeles Unified wants to help parents stay connected with their child's progress. The Parent Portal helps parents monitor their child's attendance, grades, assignments, and much more!

Here are some steps parents should take to access their child's information available in this digital platform.

1 Establish an email account. Parents must have a valid personal email account to register for a Parent Portal account. Google and Yahoo! are examples of email service providers that provide free email accounts. Create a secure password for your email account and practice signing in and out of your account. Keep your email password in a secure place.

2 Become familiar with logging into basic online platforms such as social media, online accounts, and applications used by schools to communicate with families.

3 Register for a Parent Portal account by visiting <http://parentportal.lausd.net>. When you register, you will receive an account activation email that includes a link to create a password for your new Parent Portal account. Save your Parent Portal password in your smartphone notes application.

4 Request your 4-digit Parent Portal PIN to add your student to your Parent Portal account. Contact your school or the Los Angeles Unified family hotline at 213-443-1300 for assistance locating your Parent Portal PIN.

5 Explore the various features found in the Parent Portal. Especially, develop familiarity connecting to Schoology where you will follow student assignments and communicate with teachers. The Parent Portal is the official entryway for parents to connect to Schoology. Visit Parent Portal Resources for Parents at <http://parentportal.lausd.net> for more details about what's available in the Parent Portal.
