Proposition 28 provides increased investments in Arts Education, which is critical for academic growth, student personal development, social emotional expression and an overall appreciation for diversity and culture. Proposition 28 provided approximately additional investments in Arts Education at 51 affiliated charter schools in the Los Angeles Unified School District. Additionally, these funds allowed us to provide additional resources to Targeted Student Populations. Please click on the following link to access each schools Proposition 28 Annual Report:

During the 2023-2024 budget development period, school principals received clear guidance on how to spend Proposition 28 funds. The instructions included that State law requires schools to use at least 80% of funds to employ certificated or classified employees to provide arts instruction. This may include Elementary Arts Itinerants, Secondary Arts Teachers, Teacher Assistants, or Instructional Aides. Principals were also informed that any positions purchased under Proposition 28 funds must have job duties consistent with the respective class description. Finally, principals were informed that the remaining funds may be used for training, supplies and materials, and arts educational partnership programs.

Although this is a new program, we are grateful that California voters recognized the importance of investing in arts education through a ballot initiative. Proposition 28 funds are important to our school communities because these increased investments in arts education are critical for academic growth, student personal development, social emotional expression and overall appreciation for diversity and culture.
