

LOS ANGELES UNIFIED SCHOOL DISTRICT POLICY BULLETIN

TITLE: Secondary Student Body Organizations – Permitted and Prohibited Expenditures

NUMBER: BUL-4591.0

ISSUER: Megan K. Reilly
Chief Financial Officer

DATE: January 7, 2009

PURPOSE: The purpose of this Bulletin is to provide updated information on the permitted and prohibited expenditures for secondary student body organizations.

GUIDELINES: Education Code Section 48937 states that, “The governing board of any school district shall provide for the supervision of all funds raised by any student body or student organization using the name of the school.” The policies contained in Publication 465, “Student Body Policies and Accounting Procedures – Secondary Schools”, School Fiscal Services Division, dated May 2005, were developed so that Education Code 48937 and other State and Federal laws relating to student body activities occurring on District campuses are followed.

The basic objective of a secondary school’s student body organization is to promote the general morale of its students and to conduct activities on behalf of its students. Since student body funds belong to the students, expenditures of these funds must be for the benefit of all students, and in general, must be expended for the benefit of students currently enrolled in the school.

Attachment A provides an updated listing of permitted and prohibited student body expenditures. All student body expenditures must be pre-approved by the student council and recorded in the student body minutes, and have a Request For Authorization form completed. For additional information on required signatures and documentation, please see Publication 465. The listing is not all-inclusive, and your Coordinating Financial Manager should be contacted to determine whether an expenditure not indicated on the listing would be an appropriate use of student body funds. Prior to contacting your Coordinating Financial Manager it may be helpful to ask the following questions regarding a proposed student body expenditure:

- 1.) Does the expenditure promote the general morale, well-being, and non-instructional experience of the students? If yes, then the expenditure might be an appropriate use of student body funds.
- 2.) Have the students agreed to the expenditure? If yes, then the expenditure might be an appropriate use of student body funds.
- 3.) Is the expenditure a responsibility of the District? If yes, then the expenditure is not an appropriate use of student body funds.

- 4.) Has the District paid for this expenditure in the past, and the student body is being asked to pay for the expenditure because of District budget cuts? If yes, then the expenditure is not an appropriate use of student body funds.
