Huntington Park Institute of Applied Medicine (HPIAM) Election-to-Work Agreement 2012-2013

Dear Colleague,

We invite you to join the community of Huntington Park Institute of Applied Medicine (HPIAM) – a Pilot School an autonomous small school offering health and medical career themes of education.

HPIAM has been established with a Vision of creating the conditions for students to innovate and create real world 21st Century projects that may have an impact on the school, the community and their fellow classmates. The school will develop stimulating experiences that enhance the skills of critical thinking, communications and collaboration, and creativity across the California standards-based curriculum.

It will be our Mission to provide these experiences for all students. We will be committed to partnering with parents and students to ensure that we hear their voices and provide many alternatives for students to demonstrate their understanding of the standards-based curriculum. The data has informed us of the need to ensure strong emphasis on math, reading, and writing skills. We will strive to deeply understand the skills necessary for our students to become 21st Century learners who will use their knowledge to create lasting change in the school, community, and in the lives of others.

Please join us in this adventurous and rewarding ride into our students' future. We believe you can play a vital role in your capacity as a faculty member of HPIAM. Together, we can make this journey fascinating and, most importantly, valuable for our community's youth. We are asking you to review and sign this Election to Work Agreement, a condition necessary for your participation in HPIAM. As you may note, the Election to Work Agreement provides, among other things, important information pertaining to administrative matters as well as your roles and responsibilities at HPIAM.

Very truly yours,
Your HPIAM Design Team

AGREEMENT

VISION

The vision of HPIAM in partnership with parents and the community, will strive to provide intellectually stimulating experiences for its students that enhance learning through the Core Values: Collaboration, Coaching, Reflection and Feedback, 21st Century Teaching and Learning, and Reading/research that along with adherence to the California State Standards will ensure that students of all ability levels are well equipped to meet the challenges of post secondary education, work and life. However, their education will not be complete until they can implement what they have learned to make a difference in their school, their community, or the lives of others. For this reason the project based work will require students to design solutions to school, community, and/or real world issues.

MISSION STATEMENT

The mission of HPIAM is to provide students with a rigorous, well-rounded educational program including Marzano's strategies, 21st Century skills, Project-Based Learning, Technology and Intervention will lead to college entrance and/or career pathways, and foster the students' economic independence and social responsibility in the 21st Century and prepare them to compete and become problem solvers in an innovative global economy.

PREAMBLE

HPIAM has been established as a Pilot School within the LAUSD Local District 6 at South Region High School #7, building a partnership with UTLA, and AALA and has been approved by HPIAM Design Team.

UNDERTAKING BY PROFESSIONALS

I, _____ (Print Name), am **voluntarily** electing to work at the Huntington Park Institute of Applied Medicine at South Region High School #7. By signing this agreement, I understand the vision and mission of the school, and agree to comply with the duties and responsibilities described below.

School Day

For the school year 2012-2013, the school day will be from 8:00 a.m. to 2:30 p.m. with a 6 period schedule and an advisory period. As per the UTLA contract all staff are expected to arrive 10 minutes prior to and stay 10 minutes after the school day. Professional development will be scheduled once a week at which time the students will have an early dismissal.

School Year

HPIAM will follow the LAUSD Early-Start traditional schedule of 180 days of instruction for the school year beginning August 14, 2012 and ending June 4, 2013.

Academic Curriculum

HPIAM requires an interdisciplinary curriculum that works horizontally at the same grade level within each school and also builds vertically throughout the students' four-year education. The

academic curriculum will be creatively designed to meet the diverse learning styles and needs of our student population. Professionals will work in teams and are expected to employ 21st century project-based, standards-based instruction techniques in their teaching methodologies. The lessons and curriculum will be developed collaboratively by grade-level, elective and other content specific team(s) of teachers. Members of teaching teams will meet routinely in order to assess student needs, reflect on student work, revise, and develop curriculum.

Time Required to Render Service Beyond the instructional school/ work year or day

HPIAM is a revolutionary idea in the field of student education. However, the success of this endeavor will depend significantly on the ability of the faculty members to be an integral part of a collaborative learning community, one that requires taking a fresh approach towards the practice of teaching and learning. In addition to classroom instruction time, students will greatly benefit from additional interaction with and support from their teachers. Such interaction can be achieved by the following contributions by their teachers:

- maintain two (2) office hours per week for tutoring, parent conferences, student progress monitoring, and guide students that need additional help in understanding the concepts being taught
- supervise one extra curricular or school event each semester not including those mentioned in Parent/Community

Commitment to Professional Development (PD)

HPIAM will support its faculty members in achieving their professional goals in line with the mission of the school by providing resources. To facilitate the process, the HPIAM Design Team has identified five instructional priorities described below.

- 21st Century Skills
- Interdisciplinary Studies
- Project-based Learning
- Research-based Strategies
- Technology Integration

HPIAM will make available to its faculty members a variety of PD programs which will be created by the applicable Principal, Coordinator and teachers geared towards assisting all in creating, developing and modifying the academic curriculum in line with the above described priorities.

To make judicious and effective use of the resources available to the faculty members, it is expected that the members will:

- attend the designated PD sessions and faculty meetings throughout the year
- apply PD learning experiences in the classroom
- maintain a PD portfolio to chart and reflect progress
- endeavor to enhance the PD portfolio by attending PD (seminars, workshops or classes) in the primary theme or instructional priorities of the school
- attend a 5-day summer institute in July, 2012
- participate in peer coaching to reflect and improve the practice of teaching and learning.

Participation in Parent/Community Events

To further the goal of partnership with parents and community described in the vision statement, faculty members will also:

- attend the 9th grade orientation, which will be scheduled on a Saturday prior to the beginning of the school year
- attend all designated parent meetings, conferences, and appropriate SST and IEP meetings related to students in their classes
- plan and participate in a recruitment fair targeted at 8th graders
- sponsor one school club, sport, or extracurricular activity afterschool based on theme of the school, collective interests of the student population, or faculty interest or expertise

Additional Measures for Performance Evaluation which Enhances Pilot School

HPIAM intends to use a broad based system to evaluate the performance of its professionals to optimize student performance and to achieve strong results. In addition to the LAUSD Stull process, multiple perspectives will be taken into consideration for performance evaluation. Every faculty member will maintain an assessment portfolio that will contain evidence, reflection and feedback based on the following:

- Goal Setting
- PD portfolio - self reflection
- Peer feedback
- Parent feedback
- Student feedback
- Small school coordinator assessment

Governance

As a Pilot School, the Huntington Park Institute of Applied Medicine Governing Council replaces the roles of the Share Decision Making Council (SDM). The Governing Council is comprised of non-paid members that include the principal, teachers/coordinator, parents, students, and community members. HPIAM stakeholders will have the opportunity to serve on the Council if elected, and/or participate on a sub-committee of their choice. This distributed leadership model will be highly encouraged at our school site. The Governing Council will approve the annual Election- to -Work Agreement (EWA), School budget and policies, in order to implement the vision of the school. Grievances will be handled according to the MOU between LAUSD and the Public School Choice initiative. Teachers are expected to commit fully to the carrying out our vision and mission of HPIAM and participate in the development of a collaborative, professional community. In order to support this community, it is expected that HPIAM staff participate fully in all regular and supplemental job duties as described in their job description, the HPIAM proposal (mission/vision) and the EWA.

Salary, Benefits, Seniority, and Membership in Bargaining Unit

HPIAM teachers will continue to accrue seniority within the District as they would if working elsewhere in LAUSD. Persons employed as faculty of HPIAM will receive the wages and benefits established in the LAUSD-UTLA Collective Bargaining Agreement and will continue to remain members of the UTLA bargaining unit.

Voluntary Transfer

A staff member, who voluntarily wishes to excess (be released from) HPIAM at the end of a school year, shall notify the Principal of his/her decision, in writing, no later than March 15th of the applicable school year.

Release of Staff (Excessing)

A staff member may be released from his/her responsibilities at HPIAM if it is determined by the Principal that the staff member has not complied with the terms of this Election-to-Work Agreement and/or if he/she is unable to support and implement the vision and the mission. Release of a teacher will be determined in collaboration with the Principal's direct observations and findings, and/or input from Coordinator. Excessing criteria and due process will be carried out in accordance with the Bargaining Unit Agreement and Pilot School autonomy. Teachers will be notified by March 15th if they are being released from their duties for the following year.

Substitute Coverage

In the event of an absence, staff is expected to follow the appropriate procedures outlined for such purposes including a request for a substitute and notifying the school office regarding absences. All procedures and compensation for period coverage and substitute requests will adhere to the LAUSD-UTLA Collective Bargaining Agreement.

Dispute Resolution

If there is a dispute between a faculty member and HPIAM, the faculty member will meet and confer with the Principal or any authorized designee to discuss and resolve the dispute within a reasonable period of time. If such dispute cannot be resolved within a reasonable period of time, the following dispute resolution process, approved by the Governing Council, will be used:

1. The aggrieved faculty member will submit to the Principal, in writing, a brief summary of the nature of the dispute and the resolution desired within four (4) days of the grievous incident.
2. The Principal will meet with the grievant within four (4) business days of receiving the written notice and use his/her best efforts to resolve the issue.
3. If the dispute cannot be resolved satisfactorily, the grievant may then present his/her complaint to the Governing Council at the next scheduled meeting and seek a resolution of the issue.
4. If the dispute remains unresolved following the hearing with the Governing Council, the parties will then seek a final resolution by submitting the matter to an Appeal Board comprised of the representatives from the Local District, UTLA, and the Governing Council.

BY SIGNING THIS DOCUMENT, I ACKNOWLEDGE THAT I HAVE READ AND UNDERSTAND ALL THE PROVISIONS OF THIS ELECTION-TO-WORK AGREEMENT. I ACCEPT THE TERMS OF THIS ELECTION-TO- WORK AGREEMENT.

APPENDIX B

Huntington Park Institute of Applied Medicine at South Region High School #7

Informational Summary

MISSION AND VISION OF SCHOOL

The Huntington Park Institute of Applied Medicine (HPIAM) is a small college-prep school committed to providing students with opportunities to explore health related careers and professions. It is our intent that the graduates of the HPIAM will contribute to the strength of our local communities and global economy. HPIAM will be producing graduates who will be equipped with the necessary 21st century life skills to better understand the concepts and roles of wellness and utilizing that knowledge to inform and influence their communities and each other.

At the Huntington Park Institute of Applied Medicine (HPIAM), it is our belief that ALL students will learn, graduate, and pursue post-secondary education.

As we look to the future, it is these core fundamental beliefs that will guide our future proceedings.

1. All teaching will be driven by the 21st century learner skills that are vital to surviving and competing at the global level (Survival Skills, Critical Thinking and Problem-Solving, Collaboration across Networks and Leading by Influence, Agility and Adaptability, Effective Oral and Written Communication, Accessing and Analyzing Information, Curiosity and Imagination).
2. The HPIAM staff will concentrate on academic and personal growth of students by providing meaningful learning experiences that are rigorous, standards-based. Additionally teachers will concentrate on first good teaching, reflection of practice, intervention and a continuous cycle of instructional improvement of students.
3. All students have the potential to learn.
4. Through personalization activities and the pairing of a mentor to each student, we will ensure that all students will graduate.

5. The school will be a safe learning environment that will embrace diversity and respect all students, parents and staff.

DESIGNING DATA DRIVEN & STUDENT CENTERED INSTRUCTIONAL PROGRAMS

Huntington Park Institute of Applied Medicine will be servicing students from the Huntington Park High School area. The performance data from Huntington Park High indicate low proficiency, particularly in Mathematics. Although there has been slight gain in recent years in both English and Mathematics, proficiency rates for 2010 were only 24% and 5%, respectively. During the same year, only 2% of English Learners and 1% of Students with Disabilities were proficient in English while 2% of English Learners and 0% of Students with Disabilities were proficient in Mathematics. This data shows an enormous need to build a stronger instructional program in both English and Mathematics, focusing on better meeting the needs of our English Learners and Students with Disabilities.

INSTRUCTIONAL PROGRAM

The Huntington Park Institute of Applied Medicine (HPIAM), is committed to making public education relevant in a global society. Our curriculum and instruction is designed to combine culturally relevancy with rigorous academic standards for career and college readiness in our students. The curriculum and instruction will help students develop self-realization and socio-civic development for this inter-connected 21st Century world.

HPIAM shares three goals for curriculum:

1. To develop 21st Century skills.
2. To prepare students for viable employment in the workforce.
3. To fulfill A through G requirements for post-secondary education.

We will focus on College and Career readiness. Our students will be offered the opportunity to pursue one of four career pathways. Each pathway will consist of the following core components:

- Rigorous academic instruction in English, mathematics, science, history, and foreign language courses preparing students for universities, apprenticeships and internships, or full-time employment.
- A demanding progression of technical courses that provides practical knowledge and skills, preparing students for high-skill, high-wage employment.
- Work-based learning beginning with mentoring and job shadowing, and leading to internships and apprenticeships that complement classroom instruction and bring technical learning to life.
- Support services including counseling and additional instruction in literacy and mathematics to prepare students for advanced academic instruction and technical employment.

SCHOOL CULTURE

The Huntington Park Institute of Applied Medicine is committed to providing students with an effective and nurturing academic program that prepares students to be successful leaders in the global community. It is our conviction to give our students the necessary educational foundation that will enable them to enter their adult lives and pursue a life of their choosing. We believe that the best way to do this is in a small, personalized, and safe learning environment in which the needs of every student are addressed, every person on campus works daily in the pursuit of academic excellence, and a strong foundation of collaboration exists.

Our end goal is for graduates to be successful, productive members of the global community who have the skills to be competitive in the 21st Century. Our structures, traditions, and policies will all be driven with this end goal in mind. The values include high expectations for behavior and academic performance, collaboration to better meet goals, reflection as a means to increase student and adult learning, individual and shared accountability and an unwavering dedication to continuous improvement.

A day in the life of an HPIAM student would involve many meaningful interactions with peers and staff. An HPIAM student would enter classrooms in which different academic disciplines would be interconnected with real world experiences. HPIAM students would enter into classrooms that would promote discussion, problem-solving and proudly display student work. At lunchtime, the HPIAM student would go to his chosen extra-curricular club such as the Health Occupations Students of America Club and participate in the planning and implementation of an upcoming community health fair. After school, the student would participate in a extra-curricular activity such as a sport or club or if necessary, go to see a teacher in office hours for extra tutoring or remediation.

PARENT ENGAGEMENT AND INVOLVEMENT

HPIAM will help families establish an environment to support their children as students by providing parents with varying opportunities to take parent education courses and “workshops” (e.g. family literacy, numeracy, college, financial aid, grade level expectations, college expectations, adolescent development, parent advocacy, building decision making capacity, homework help). For us, workshops means not just having a class on a particular topic, but also making available the information in different forms that can be viewed, heard, shared, or read, anywhere any time.

At HPIAM, we believe that accurate and timely communication regarding school programs and student progress is key to a successful school. We will ramp up communication to parents and community members by taking advantage of multiple modes of communication such as a websites, internet forums, bulletin boards, email, mailers, direct phone calls, meetings, and frequent newsletters, conferences, and Counselor home visits.

It is vital to our success that we help and support our students by utilizing their parents as volunteers. With that thought in mind, we will provide different opportunities for parents and caretakers to be actively involved in the education of our students (e.g. additional parent conferences nights, content specific nights to showcase student work, recognition of success ceremonies, Town Hall meetings, grade-level orientation, student-run showcases, parent day visitations to observe classroom experience). We intend to create an open classroom environment where parents can become room parents and assist teachers with duties such as organizing academic and school events, facilitating communication between other parents, supervision, and serving as judges on culminating projects. At the beginning of every school year, we will send out a parent postcard survey to identify available volunteer talents. It is our intent that parents and caretakers will recognize that the word “volunteer” is anyone who supports school goals and children’s learning or development in any way, any place, or any time – not just during the school day.

Parents will be involved in the decision-making process through PTA/PTSA, advisory councils and committees (e.g. Parent Leadership Committee, curriculum council, safety collaborative, ELAC, CEAC, School Site Council, Governing Council). The Parent Leadership Committee will meet regularly and be involved in the development and judging of senior/ESLR grade level projects. The committee will discuss issues regarding curriculum, intervention, parent instructional survey, advisors to hiring and instructional capacity, family participation, and school safety and culture.

STAFFING

Staffing autonomy provides HPIAM the opportunity to recruit and retain a stable and diverse teaching staff. Teachers are expected to be masters of their content in order to effectively challenge students to master skills and enhance their learning experiences as well as differentiate instruction in order to support varying students learning modalities and abilities. Each teacher will need to possess required credentials and/or certificates.

Our teachers will support our vision in providing intervention and incorporate the instructional principles: 21st century skills, interdisciplinary studies, project-based learning, instructional strategies and technology integration.

In order for the most qualified professional to be selected, a resume screening process will identify individuals who possess the educational beliefs for HPIAM. Following the screening process, we will create a hiring panel consisting of an administrator, small school coordinator, teachers, counselor, parent(s) and student(s). The interview by committee will be guided by an interview rubric with questions and LAUSD guidelines.

APPENDIX L

Policies for Retention, Graduation, and Student Behavior

The Huntington Park Institute of Applied Medicine will follow all LAUSD policies regarding retention, graduation, and student behavior.

APPENDIX G

Job Description for HPIAM Principal

- Develop the Master Schedule
- Oversee discipline and attendance
- Participate in the staffing process for their school
- Develop and execute staff meetings
- Participate in community outreach
- Oversee Intersession and summer school
- Facilitate data gathering and Intervention
- Develop and execute professional development.
- Guide and support curriculum and instruction
- Develop and actively participate in a peer observation process.

APPENDIX C

Professional Development Calendar

Structure	Topic(s)	Frequency

Website (if available) _____

By signing this Assurance Form, you agree that you will comply with and/or provide supporting information for the following assurances:

1. Assurance that an Applicant Organization/Applicant Team is NOT a For-Profit Entity

Please check one of the following statements:.

- ☐ The Applicant Organization/Applicant Team listed above is comprised of a *FOR-PROFIT* ENTITY.
☐ The Applicant Organization/Applicant Team listed above is a *NOT-FOR-PROFIT* entity. *Documentation and certification of not-for-profit status (e.g. 501c3 form) must accompany this proposal.*
☒ The Applicant Organization/Applicant Team listed above is *ONLY* comprised of LAUSD internal employees, departments, etc. (e.g. teacher teams, local districts).
☐ The Applicant Organization/Applicant Team listed above is comprised of LAUSD internal employees, departments, etc (e.g. teacher teams, local districts) *IN PARTNERSHIP WITH ONE OR MORE NOT-FOR-PROFIT ENTITIES. Documentation and certification of not-for-profit status (e.g. 501c3 form) must accompany this proposal.*

2. Assurance that an Applicant Organization is Solvent (For External Organizations Only)

Assurance that a Not-For-Profit Applicant will provide documentation that demonstrates its solvency.

3. Assurance of Enrollment Composition Compliance

The Applicant Group/Applicant Team agrees that the student composition at a new or underperforming school will be reflective of the student composition at the schools it is intended to relieve (in terms of demographics, including but not limited to race/ethnicity, gender, socio-economic status, English Learners, Standard English Learners, students with disabilities, foster care placement), with ongoing review mechanisms in place to ensure retention and student composition at each school continues to reflect that of the overall school community.

4. Assurance to Sign Separate "Service Plan for Students with Disabilities Assurances".

In accordance with the Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act of 1973, the Applicant Group/Applicant Team listed above agrees to sign the Assurance Form entitled "Public School Choice Service Plan for Students with Disabilities" included with this RFP. Signing the Service Plan for Students with Disabilities Assurance Form assures that the awarded PSC school will abide by the conditions and requirements of the Chanda Smith Modified Consent Decree that includes: using the Welligent IEP Management System, using the LAUSD Elementary or Secondary Student Information System (either ESIS, SSIS or ISIS upon implementation), operating a compliant Special Education Program using the *LAUSD Special Education Policies and Procedures Manual*, and the annual completion and submission of the "School Self Review Checklist" for programs serving students with disabilities. Signing the Service Plan for Students with Disabilities Assurance Form also assures that operators of the awarded PSC school agrees to review Title 5, California Code of Regulations Section 3052, relative to the provision of behavior intervention plans and agrees to comply with all discipline practices, procedures for behavioral emergency intervention and prohibitions consistent with the requirements. The PSC school operators further agree to protect the rights of children with disabilities and their

parents or guardians relative to 1) prior notice and consent, 2) access to records 3) confidentiality, and 4 due process procedures. The school will maintain a written description of the annual notification process used to inform parents/guardians of the policies regarding Nondiscrimination (Title 5 CCR 4960 (a)), Sexual Harassment (EC 231.5 (a) (b) (c)), Title IX Student Grievance Procedure (Title IX 106.8 (a) (d) and 106.9 (a)) and Uniform Complaint Procedures (Title 5, CCR 4600-4671. Procedures must include a description of how the school will respond to complaints and how the District will be notified of complaints and subsequent investigations.

5. Assurance that Independent Charter School Operators will sign and execute the Facilities Use Agreement

(For Independent Charter School Operators Only) If selected to operate an independent charter school on a PSC campus, independent charter school operators agree to sign and execute the Facilities Use Agreement as provided by the District.

6. Resident Enrollment and Attendance Boundary Compliance

(For Independent Charter School Operators Only) In accordance with the Attendance Boundary Waiver for Public School Choice Charter School Operators, operators of independent charters schools agree to provide first choice attendance to resident students from the corresponding attendance boundary established by the District if selected to operate a Public School Choice campus. Thereafter, any remaining available seats will be filled with any student who wishes to attend the PSC campus pursuant to the requirements of Sections 47605(d)(1) and 47605(d)(2)(B) of the California Charter Schools Act. The District's waiver from the State Board of Education codifies these requirements.

While PSC independent charter schools can initiate a lottery and/or enroll students outside the school's attendance boundary at any time, operators of independent PSC charter schools may not refuse any resident students unless the resident enrollment exceeds the District's established maximum enrollment for the school in question. Independent charter school operators understand and accept that the attendance boundary configuration is subject to change at the discretion of Los Angeles Unified School District and that the maximum number of resident student enrollment will be defined for a period of five years and that the requisite number will equal the planning capacity for the Public School Choice campus based on 2008-09 District norms.

If a parent or guardian no longer wants their child to attend an independent PSC charter school, the charter school operator must also agree to adhere to the District's "Enrollment Process for Charter Schools Selected to Operate a Public School Choice School." The "opt-out" decision is only valid for one academic school year. Once a parent has exercised his/her right to opt-out, he/she is unable to re-enroll the child in the charter school for the remainder of the school year, unless there is capacity at the school as designated by LAUSD and term of the charter. At the completion of each academic school year, parents have the opportunity to enroll their student at their neighborhood school again.

7. Assurance that Independent Charter School Operators Will Cooperate with LAUSD in Attaining Applicable Waivers from the State Board of Education

(For Independent Charter School Operators Only) In accordance with the Charter Schools Act of 1992 and its implementing regulations, independent charter school operators approved to operate a Public School Choice campus will be required to cooperate with the District in attaining any and all applicable waivers from the State Board of Education. Additionally, independent charter school operators must agree to waive their rights under Education Code 47614 ("Proposition 39") for a period coterminous with their Board-approval to operate a Public School Choice campus.

By signing this Assurance Form, you agree that you will comply with and/or provide supporting information for the above assurances:

Commitments and Expectations Form

*Please read thoroughly and have your authorized team representative sign on the following page. All design team members must also sign below. This form and the initial Letter of Intent are due to LAUSD by **6:00 pm on Thursday, March 31, 2011**. Documents must be submitted electronically to psc@lausd.net. If you have questions, please call the PSC number at (213) 241-5104.*

We agree to:

- Serve students and the community to the best of our ability;
- Conduct ourselves in a professional manner, keeping in mind that our aim is to respond to the needs of students and parents first;
- Represent our organization with integrity and dignity, and show respect for others within and outside our team at all times;
- Collaborate with stakeholders and other agencies to develop a strong, well-rounded proposal;
- Openly seek input from the community during the development of our application;
- Participate in all PSC parent meetings hosted by the PSC Central Office Team that inform the community about the applications submitted for a particular PSC school;
- Refrain from exhibiting behavior that will compromise the integrity of the PSC process;
- Eschew use of propaganda or materials that misrepresent information and inspire negative campaigns against any group, organization, or applicant team;
- Ensure that the development of a proposal and the work around the PSC process will not, in any way, interfere with classroom instruction;
- Avoid use of overly aggressive voter outreach tactics that intimidate stakeholders, and to discourage our own applicant team and affiliated partners from electioneering, especially during the Advisory Vote period;
- Ensure that no electioneering occurs on school campuses;
- Abide by all guidelines set forth for the Advisory Vote process; and
- Refrain from providing incentives to parents, students, and other community members in order to rally support for our team.

PSC 3.0 Commitments and Expectations Form

We have read the above and understand that failure of any representative from our team to adhere to any of the expectations and commitments spelled out above could result in immediate disqualification of our team in the application process and participation in PSC meetings and workshops.

SERVICE PLAN FOR SPECIAL EDUCATION

APPENDIX E

Applicant Team Name: Local District 6 - HPIAM

MCD OUTCOME	COMPONENT	SCHOOL PLAN
Federal Requirement, District publications and forms are available	Search and Serve	<p>The Huntington Park Institute of Applied Medicine (HPIAM) will ensure that federal, state and District requirements are followed by all staff members.</p> <ul style="list-style-type: none"> HPIAM will use LAUSD's <i>Student Enrollment Form</i> to identify whether or not special services are needed. If the student has an IEP from a previous LAUSD school, staff is able to access the document in the Welligent IEP system. If the student is from out of the district, office personnel will be trained to request a copy of the current IEP and contact the local special education unit for appropriate placement. All staff members will be trained on the procedures for referring students who may require special services. Any person who believes that a student has or may have a disability and requires special education and related services may make a formal request for a special education assessment. The request must be in writing and entered on the <i>Request for a Special Education Assessment Form</i>. Once a written request for special education assessment has been received, the Designated/Counselor will, within 15 days, develop and provide the parents with a special education assessment plan and a copy of <i>A Parents Guide to Special Education Services</i>. Once the parent approves, signs and returns the assessment plan, the assessments are conducted, reports are prepared and an IEP meeting is scheduled within 50 days of receipt of the signed assessment plan. The school will translate documents prior to the scheduled IEP meeting. If the IEP team determines that the student has a disability and requires special education and related services the IEP will be implemented immediately. The Network will display the "Complaint Response Unit/Parent Resource Network" poster. The following publications will be available in the office upon request: <ul style="list-style-type: none"> "Are You Puzzled by Your Child's Special Needs?" brochure <i>Student Enrollment Form</i>

		<ul style="list-style-type: none"> - <i>Request for Special Education Assessment Form</i> - <i>A Parent's Guide to Special Education Services</i>
Outcome 2	Intervention Programs	<p>HPIAM will implement a tiered Response to Instruction and Intervention framework to ensure the academic, behavioral and social/emotional success of all students at our school. We will provide the necessary supports and interventions for students to achieve mastery of the content standards.</p> <p>Good first teaching practices rooted in a standards based curriculum are at the center of a successful instructional intervention program that works to improve overall student achievement and close the achievement gap between general and special education students. Using research proven approaches such as, differentiated instruction, cooperative learning, 21st Century skills, interdisciplinary studies, project-based learning, research-based instructional strategies, technology integration and Specially Designed Academic Instruction in English teachers will provide engaging learning experiences for all students. Assessments will be administered and data analyzed to inform instructional decisions, identify students' instructional needs and guide the design of tiered interventions to provide additional instruction as needed for students to achieve mastery of the standards.</p> <p>Student progress will be monitored on an on-going basis using formative and summative assessment data. Students who do not make appropriate progress will be identified and referred for appropriate intervention. Additionally, students who demonstrate low performance on standardized tests, have low grades, are absent frequently, have repeated behavior referrals, are identified through the IEP process, refer themselves, or are otherwise deemed to be "at risk" will be provided with intervention.</p>

MCD OUTCOME	COMPONENT	SCHOOL PLAN
		<p>Strategic interventions provide support to struggling learners. These interventions may include, but are not limited to extended time or practice, additional examples, small group instruction, distinct learning opportunities to engage core concepts and/or a narrower focus on the core curriculum. Strategic intervention also includes careful progress monitoring to determine if student has made sufficient gains and intervention can be discontinued, if the student has made limited progress and needs continued strategic intervention or if the student has made little or no progress and needs more intensive intervention.</p> <p>Intensive intervention will be provided to students who, after strategic interventions, do not demonstrate appropriate progress and/or are the lowest performing students. Intensive interventions provide students more explicit instruction targeted to a specific instructional need. Diagnostic assessments may be used to inform and align instruction to individual student needs. These interventions are delivered in addition to strategic interventions and are more focused. As with other interventions, student progress is monitored frequently to determine the appropriateness and effectiveness of interventions provided.</p> <p>As appropriate, students with and without disabilities will be referred to the Learning Center for additional targeted intervention and instruction in strategies for accessing the core general education curriculum. The Learning Center will provide extended instruction and additional support which may include the use of supplemental materials targeted to specific identified student needs and/or deficiencies as determined by on-going progress monitoring. The programs we will utilize are still under review, however, they may include the following District recommended programs:</p> <ul style="list-style-type: none"> • ALEKS • Breaking the Code • LANGUAGE! • Makes Sense Strategies

SERVICE PLAN FOR SPECIAL EDUCATION

APPENDIX E

Applicant Team Name: Local District 6 - HPIAM

MCD OUTCOME	COMPONENT	SCHOOL PLAN
Outcome 2	Special Education Program Description	<p>To the maximum extent appropriate, students with disabilities will be educated alongside students without disabilities. Placement in special classes, separate schooling or other removal of students with disabilities from the regular educational environment will occur only if the nature or severity of the disability is such that education in general education classes with support services cannot be achieved satisfactorily. That is to say, that decisions to place a student in a more restrictive environment will only be made after considering and determining that less restrictive environment with special education, related services and other supports cannot meet the student's needs. Students will not be placed in environments that are more restrictive than necessary to meet their educational needs. Placements for students with disabilities will be in HPIAM or as close to the student's home as possible.</p> <p>Consistent with Federal and State policy, the continuum of placements offered from least restrictive to most restrictive environment by the District at HPIAM includes:</p> <ul style="list-style-type: none"> • General education classroom – whenever appropriate, students with disabilities will be educated in the general education classes • General education classroom with collaborative consultation – in order to meet the educational needs special education students, it may be necessary for the general education teacher to consult with special education personnel to receive guidance and support • General education classroom with designated instruction and services – in order for students with disabilities to fully benefit from general education program they may require designated instruction or services like speech or occupational therapy • General education classroom and resource specialist program – in order to enable students with disabilities to succeed in the general education classes they may require support services from the resource specialist program which provide instruction in, but not limited to: behavior strategies; basic academic skills; and organization and study skills

MCD OUTCOME	COMPONENT	SCHOOL PLAN
		<ul style="list-style-type: none"> General education classroom and special day class – students with disabilities may be educated in general education classes for part of the school day and special day classes for the other part of the school day Special day classes – serve students who, because of their disability, cannot participate in general education classes for a majority of the school day <p>Special education services at HPIAM will aim to support student achievement in the general education curriculum in an integrated setting. Thus, to ensure that all students receive the support needed to succeed in the general education program we will implement a multi-tiered approach to instruction and intervention that is responsive to student needs and directed by student performance data derived from multiple measures. The multi-tiered instructional program is rooted in good first instruction, the consistent use of progress monitoring tools to inform instruction and identify students for targeted intervention, as well as the provision of increasing levels of support to assist students in achieving proficiency. This research-based approach supports the expectation that all students with disabilities will participate in rigorous standards-based curriculum. When special education services are deemed necessary outside of the general education classroom, the content will continue to be based on grade level content standards and expectations.</p> <p>To further support students with disabilities in the general education classroom, general and special education teachers will engage in co-planning. This indirect service consists of general and special education teachers collaborating to plan, analyze, modify and evaluate the instruction and outcomes for students. In this model, special education teachers provide guidance in implementing appropriate accommodation and modification and may model instructional practices.</p> <p>Co-teaching is another strategy for supporting the needs of students with disabilities in the general education classroom. In this model, general and special education teachers work</p>

		<p>together in a shared classroom to teach students with and without disabilities. Both teachers are responsible for the planning, delivery and evaluation of instruction as well as student progress monitoring and classroom discipline. Co-teaching may manifest itself in a variety of formats including:</p> <ul style="list-style-type: none"> • Cooperative teaching – one teacher has primary responsibility for leading the instruction while the other supports instruction by modeling strategies, charting, adding questions, clarifying information, prompting of students, etc. • Station teaching – the teachers divide the instructional content and each takes responsibility for teaching part of it. Students move from station to station. • Parallel teaching – teachers each deliver instruction to half of the students in the class. Groups do not rotate. • Shadow teaching – one teacher provides intense instruction to a small select group of students based on assessed need. • Team teaching – both teachers share the instruction of all students. <p>Select students will receive special education services through the Resource Specialist Program in the Learning Center. The Learning Center will provide general education students and students with disabilities instruction in strategies for accessing the core curriculum as well as targeted intervention. Students will receive small group and one-on-one instruction that supports and builds on the general education curriculum using a combination of general education texts and additional research-based instructional resources.</p> <p>To the greatest extent appropriate, special education students will be mainstreamed with their general education peers. Consistent with the intent of MCD Outcomes 2, 6 and 7 special education students will be integrated to the greatest extent appropriate with their non-disabled peers during physical education, music, art, field trips, assemblies, performances and other non-curricular school-wide activities. As special educations</p>

		<p>parent 4 working days before the date of the IEP meeting. The reports will be translated into the parent's primary language, upon written request from the parent, unless clearly not feasible to do so, as required in MCD Outcome 15. The school will also provide special education related forms in the parent's primary language when requested.</p> <ul style="list-style-type: none"> The school will set up a communication system to notify parents of IEP meetings. Parent attendance will be encouraged and accommodations provided, such as but not limited to, providing interpreters to increase participation as mandated by MCD Outcome 14. The Welligent system will be used to notify team members of upcoming IEPs, and to provide communication during assessment and to assign follow up activities. A room will be designated as the IEP Meeting room. The room will be supplied with all the needed forms and documents necessary, as well as, wireless access and a speaker phone. All staff will be responsible for implementing students' IEPs. Resource Specialist teachers and other support providers will use Welligent to document services provided as required in MCD Outcome 13. Children with active IEPs will be placed in their home school with appropriately identified supports to the greatest extent possible. If an appropriate program is not available at the home school, the student will be placed in the school closest to their home school with transportation provided.
Outcomes 10, 18	Procedures for Identification and Assessment of Students	<p>HPIAM will follow LAUSD's <i>Multi-tiered Framework for Instruction, Intervention and Support</i> to guide its practices relating to instruction and intervention. The essential components of this framework are described below:</p> <p>In a multi-tiered approach to instruction and intervention, teachers provide instruction at each tier of service that is differentiated, culturally responsive, research-based and aligned</p>

Los Angeles Unified School District
PUBLIC SCHOOL CHOICE 3.0
SERVICE PLAN FOR SPECIAL EDUCATION

APPENDIX E

Applicant Team Name: Local District 6 - HPIAM

MCD OUTCOME	COMPONENT	SCHOOL PLAN
		<p>to grade-level content standards. All students should have universal access to this high-quality instruction. Universal access refers to the right of all students to have equal opportunity and access to high quality, grade-level instruction and behavioral support, regardless of socioeconomic status, ethnicity, background, and/or disabilities.</p> <p>The District has identified four instructional methodologies and strategies to scaffold culturally and linguistically diverse students' universal access to core instruction. All students, including students with disabilities, benefit from the integration of key access methodologies such as cooperative learning, the use of advanced graphic organizers and targeted academic language development. These strategies are used across the three tiers.</p> <p>Tier I: Core Instruction All students receive high quality, research-based, core general education curriculum and instruction. It is expected that 80-85% of students will achieve proficiency when good first instruction is delivered. Multiple assessment measures, such as, common and formative assessments, anecdotal observations, standardized tests, performance based assessments and behavior data (e.g., referrals and suspensions) are used to guide and inform instruction and intervention. Within Tier I, identified students received additional differentiated instruction and support to maximize their academic achievement. Instruction is matched to student needs based on levels of performance and rates of student progress. Differentiation can occur through modification to the content, process, product and/or resources available in the classroom. In order to differentiate instruction teachers can add depth and complexity to the curriculum, scaffold lessons, form flexible groupings, implement interest and/or learning centers, employ questioning strategies, and/or allow for independent study. On an on-going basis, curriculum-based formative assessments are used to measure growth, monitor progress and inform changes in instruction. When assessment results indicate that a student needs additional instruction to access the core curriculum, then Tier II intervention services are provided.</p>

Los Angeles Unified School District
PUBLIC SCHOOL CHOICE 3.0
SERVICE PLAN FOR SPECIAL EDUCATION

APPENDIX E

Applicant Team Name: Local District 6 - HPIAM

MCD OUTCOME	COMPONENT	SCHOOL PLAN
		<p>Tier II: Strategic Intervention Strategic intervention is provided for 10-15% of students that need additional instruction to achieve proficiency. Strategic interventions include more intensive and focused instruction that is aligned to students' instructional needs based on data. Tier II serves the needs of students not making adequate progress given good first instruction in Tier I. Strategic intervention may give students additional time to learn using research based instructional strategies utilized in the core instructional program or, if needed, a different instructional approach. Student progress is monitored and evaluated using curriculum-based assessments.</p> <p>Tier III: Intensive Intervention An estimated 1-5% of students will need individualized and/or very small group instruction that is highly focused in order to achieve proficiency. Intensive intervention in Tier III typically includes curricula, pedagogy and/or instruction different from Tier I and Tier II because despite well-implemented instruction and intervention academic progress is insufficient. Progress monitoring at Tier III is more frequent and may be diagnostic in nature in order to provide more specific information about the students' instructional needs and academic deficits. Tier III services are not synonymous with special education services, but rather an important step in providing intensive intervention so that students have an additional opportunity to succeed and learn.</p> <p>Within the District's tiered approach to instruction and intervention, the intensity, frequency and duration of support services increases and student-teacher ratio decreases as students move up the tiers. Student performance is monitored closely to evaluate progress and the effectiveness of instruction and intervention strategies.</p> <p>If a student does not demonstrated appropriate progress after targeted interventions,</p>

		<p>receipt of a referral for assessment, the referring party will receive a written response from the school. If the school determines that an assessment of the student is not appropriate, the referring party will receive written notice of this decision. If the school determines that an assessment is appropriate, the referring party will receive notice of this decision and the parents will receive a Welligent generated <i>Special Education Assessment Plan</i>.</p> <p>An assessment plan describes the types and purposes of the assessments, which may be used to determine the student's eligibility for special education and related services. Once the parent approves, signs and returns the assessment plan, the school will, within 50 days of receipt of the signed assessment plan, execute the assessment, prepare reports and hold an IEP meeting. Assessments will be conducted by a qualified professional. Assessment instruments will be selected and administered so that they are not racially, sexually, or culturally discriminatory as mandated by MCD Outcome 18. No single measure or assessments will be used as the sole criterion for determining whether a student has a disability and for determining an appropriate educational program for the student. The assessment will cover all areas related to the student's suspected disability including if appropriate:</p> <ul style="list-style-type: none"> • Health and development, including vision and hearing • General ability • Academic performance • Language function • Motor abilities • Social and emotional status • Self-help, including orientation and mobility • Career and vocation abilities and interests <p>The school will strictly adhere to guidelines that have been developed by LAUSD to assure students meet eligibility criteria for special education placement.</p>

APPENDIX E

Applicant Team Name: Local District 6 - HPIAM

MCD OUTCOME	COMPONENT	SCHOOL PLAN
Outcome 2	Instructional Plan for students using grade level standards	<p>HPIAM is committed to providing all students with a quality education in the least restrictive environment. To the maximum extent appropriate, students with disabilities will be educated alongside students without disabilities. We will follow LAUSD's <i>Multi-tiered Framework for Instruction, Intervention and Support</i> in practices related to instruction and intervention.</p> <p>To ensure that all students, including students with disabilities, receive the support needed to succeed in the general education program and achieve a high school diploma, we will implement a multi-tiered approach to instruction and intervention that is driven by the California Content Standards for secondary students, responds to student needs and is directed by student performance data derived from multiple measures. The multi-tiered instructional program is rooted in good first instruction, the consistent use of progress monitoring tools to inform instruction and identify students for targeted and timely intervention, as well as the provision of increasing levels of support to assist students in achieving proficiency across content areas. This research-based approach supports the expectation that all students with disabilities will participate in a rigorous standards-based curriculum. Special education services are provided in an integrated setting to support student achievement in the core curriculum.</p> <p>The use of research-based instructional practices that support access to rigorous content curriculum is necessary to provide meaningful access for all students. In addition, instructional support through the use of co-planning and co-teaching provides a higher level of support to students. Timely and targeted intervention, based on on-going progress</p>

MCD OUTCOME	COMPONENT	SCHOOL PLAN
		<p>assessment tools.</p> <p>Designing effective curriculum and instruction for multi-grade levels presents unique challenges. In addition to having responsibility for more curriculum, teachers in multi-grade situation, must also account for a predictably broader range of student abilities and need without the benefit of additional instructional time. These conditions demand that teachers become skilled at simultaneously managing multiple learning experiences for individual students and/or small groups. In order to do this, teachers must carefully monitor each student's progress and continuously respond to the student's learning needs. However, by shifting the focus from grade-specific standards to common themes across grade levels, teachers can design interdisciplinary learning experiences for groups of mixed grade level students. This strategy takes advantage of the inherent opportunity for mixed ability groupings and makes peer support and mentoring possible.</p> <p>In order to ensure access to high-quality, grade-level content and instruction, some special education students, may require specific accommodations and/or modifications be provided in the general education classroom. Although, specific accommodations will be dictated by student need, they may include: differentiating the pacing of instruction, varying activities, allowing extended time, providing assistive technology, and/or teaching to the student's strengths. Similarly, modifications will be determined by student needs, but may include: shortening assignments, simplifying task directions, providing alternate assignments, giving additional cues or prompts, or utilizing specialized curriculum.</p>
Outcome 7A, 7B	Instructional Plan for students using Alternate Standards	<p>HPIAM is committed to supporting students with disabilities in the general education program, so that to the maximum extent appropriate, students with disabilities are educated alongside students without disabilities. However, if the IEP team determines that the nature or severity of a students' disabilities are such that education in the general education program with the use of supplementary aids and services can not meet the</p>

		<p>derived from student work samples, formative assessments, observations, group work, student portfolios and the California Alternate Performance Assessment to inform instructional decisions, determine intervention needs, and provide appropriate accommodations and modifications. Like in the general education program, accommodations and modifications will be provided based on student needs.</p> <p>In classrooms with multi-age groups of students, teachers will focus on developing interdisciplinary instructional experiences that address common themes across grade levels.</p>
Outcome 13	Plan to provide Supports & Services	<p>Once an IEP team determines that a student is eligible for and needs special education and related services and the parent consents to the offer of a free appropriate public education HPIAM will implement the IEP immediately. To the maximum degree appropriate, special education and related services will be provided within the general education classroom in compliance with least restrictive environment mandates. The Bridge Coordinator will be responsible for distributing copies of the IEP to all staff who will be implementing, clarifying roles and responsibilities for implementation of the IEP and supervising and supporting school staff in the implementation of the IEP.</p> <p>Resource Specialist teachers are required to document provision of special education and related services using the Welligent Service Tracking System as required by MCD Outcome 13. The designated administrator/counselor will ensure that all service providers maintain logs in Welligent that document the frequency of contact and total number of minutes of service provided per week and month.</p>
Outcome 9 (for programs with students 14 and older)	Transition Planning Strategies	<p>As mandated by Federal and state law for students with disabilities, beginning at age 14, the school will develop an Individual Transition Plan as part of students' IEPs. Transition services are a collaborative effort between the student, school staff, parents and appropriate community agencies to plan the students' educational program so as to support the successful transition to adult living, which may include postsecondary education, vocational training, employment, continuing and adult education as well as</p>

MCD OUTCOME	COMPONENT	SCHOOL PLAN
		<p>independent living. Transition services are based on students' strengths, interests, and preferences as determined through student interviews and age appropriate assessments.</p> <p>Beginning at age 14, and updated annually, each student's IEP will include a statement of the transition service needs of the student that focus on the student's course of study. Transition services will provide exploratory activities for students aligned to education, training, and employment goals as well as daily living skill needs. Activities will support students in developing self-awareness and self-determination as well as identifying interests, strengths and preferences through the use of interest assessments, learning style preferences and strengths inventories and transition planning profiles. Before their 16th birthday, students will have evidence of completion of a commercially produced transition assessment in their IEP.</p> <p>Beginning at age 16 each student's IEP will include a statement of the transition services needed, including, if appropriate, a statement of the interagency responsibilities or needed community linkages, for the successful transition from school to post-school activities. Activities may include instruction, classroom role-play of social and employment related interactions, community experiences, supported work experiences and acquisition of daily living skills.</p> <p>All students with disabilities graduating with a diploma, certificate of completion, or aging out of the system will receive a Summary of Performance that summarizes the student's academic achievement and functional performance. At the student's exit IEP, the student will be interviewed using the Senior Transition Inventory form.</p>

PUBLIC SCHOOL CHOICE 3.0
SERVICE PLAN FOR SPECIAL EDUCATION

APPENDIX E

Applicant Team Name: Local District 6 - HPIAM

MCD OUTCOME	COMPONENT	SCHOOL PLAN
Federal requirement	Access to Extra-Curricular/Non academic activities:	<p>HPIAM is committed to creating a small, safe, secure and inclusive environment for all students. The small school environment we create will ensure that support is provided for students' academic, social and emotional needs. We will create opportunities for students with disabilities to develop personal connections with adults and peers by structuring mentorships, implementing advisories and providing accommodations, as needed, to ensure students with disabilities have full access to all extra-curricular activities. Access to extra-curricular and non-academic activities including clubs, sports, band, student government, field trips, competitions, and internships will be open to all students. Special education students will be actively recruited and encouraged to participate in all extra-curricular and non-academic activities available to general education students.</p> <p>Students with disabilities will have access to all elective available to the general education populations. Students will receive support in elective classes, as determined by their IEPs. As in core academic classes, elective course and special education teachers will collaborate to provide a range of service delivery models that are determined by students' needs.</p>
Federal requirement	Providing Extended School Year	<p>HPIAM will provide Extended School Year (ESY) services to students with disabilities whose unique needs require special education and related services beyond the regular academic year. These services will be provided to ensure the continued provision of a free appropriate public education by maintaining skills and behaviors that might otherwise be lost during the periods that school is not in session.</p> <p>All students eligible for special education and related services will be considered for ESY services. The decision whether or not to provide ESY services will be based on student need as indicated by the IEP team on the student's IEP. In determining the need for ESY services, IEP teams will consider: the severity of the disabling condition; areas of learning critical to maintaining IEP identified goals and skills; likely extent of regression caused by interruption in educational programming; rate of recoupment following interruption of instruction; and</p>

LOS ANGELES UNIFIED SCHOOL DISTRICT SERVICE PLAN FOR STUDENTS WITH DISABILITIES

All LAUSD schools are responsible for providing services to students with disabilities in their service area. Providing appropriate legally mandated services is a school's obligation under the Individuals with Disabilities Education Act, 2004 and Section 504 of the Rehabilitation Act of 1973. Further, as you operate an LAUSD school you are obligated to abide by the conditions and requirements of the *Chanda Smith* Modified Consent Decree. The plan you will develop must be designed to ensure you meet both your legally mandated obligations and the Modified Consent Decree requirements.

The plan is divided into three parts:

1. Part One - Instructions for completing the plan
2. Part Two - Assurances Page with signature(s)
3. Part Three - Services Plan

To assist you, the "Public School Choice Descriptors Rubric" is included as an attachment. These descriptors will be used in evaluating the plan in terms of completeness. It is suggested that the rubric be reviewed to ensure all major points are covered. Writing to the rubric ensures the minimal legally mandated obligations and Modified Consent Decree requirements are met. Schools are encouraged to expand upon the content to incorporate operational, staffing and instructional concepts of importance within the broad concepts framing the vision and mission of the school.
