Overview

Title I is a federally funded program authorized under Elementary and Secondary Education Act (ESEA) of 1965 as reauthorized by Every Student Succeeds Act (ESSA). The program provides all children with a significant opportunity to receive a fair, equitable, and high-quality education and to close educational achievement gaps (Every Student Succeeds Act, 2023).

The Consolidated Application (ConApp) – a two-part application and reporting process used by the California Department of Education (CDE) to distribute categorical funds from various federal programs to the District – mandates that local education agencies (LEAs) adopt a policy requiring the evaluation of categorical programs. This report examines Title I, Part A activities for the 2022-23 school year, including school designations, resource allocations, summaries of the Centrally Funded Programs, in depth analyses of School Plan for Student Achievement (SPSA) evaluations, and finally Smarter Balanced Assessment (SBA) results for the 2022-23 academic year. LAUSD’s Federal and State Education Programs (FSEP) Branch provides technical support for all Title I, Part A activities and requirements, including those listed above.

Purpose of Title I, Part A

Title I, Part A provides financial assistance to LEAs and schools with high numbers or high percentages of children from low-income families to help ensure that all children meet state academic standards (Improving Basic Programs Operated by Local Educational Agencies - Title I, Part A, 2018). This funding is designed to meet the educational needs of low-achieving students enrolled in the highest poverty schools. Funds support the use of effective, evidence-based educational strategies to close the achievement gap. Federal Title I, Part A funds are supplemental to State funds schools receive for providing an educational program for all students and services required by law for English Learners and children with disabilities (CDE, 2023c).

Table 1: Title I Programs

Program	Description
Title I	Improving the Academic Achievement of the Disadvantaged
Title I, Part A	Improving Basic Programs Operated by Local Educational Agencies
Title I, Part B	State Assessment Grants
Title I, Part C	Education of Migratory Children
Title I, Part D	Prevention and Intervention Programs for Children and Youth Who are Neglected, and Delinquent, or At-Risk
Title I, Part E	Flexibility for Equitable Per-Pupil Funding
Title I, Part F	General Provisions

LAUSD operates two school-based programs under Title I, Part A: Targeted Assistance School (TAS) and Schoolwide Program (SWP). The allocations for both TAS and SWP are based on the number of students who meet low-income status. The use of those funds, however, is to focus on students most at-risk of not meeting academic standards, regardless of their income level. For TAS, the students are identified based on multiple, objective criteria, while in the SWP, all students can be served, including students with disabilities and English Learners. However, based on prioritized needs, an SWP school must particularly address the needs of low-achieving students and those at risk of not meeting state academic achievement standards. Schools where 45 percent or more of their students are low income are designated as Title I schools. In 2022-23, 711 (91%) of the district's 778 schools were designated as a Title I school. For the full 2022-23 Title I Rank Distribution, refer to Appendix A of this document.

California School Dashboard

On December 10, 2015, President Obama signed Every Student Succeeds Act (ESSA), reauthorizing the federal Elementary and Secondary Education Act (ESEA) and replacing the No Child Left Behind Act (NCLB), the 2001 reauthorization of ESEA. California's ESSA state plan (California ESSA Consolidated State Plan, 2022) includes an overview of the California accountability model (California Model) which presents school and district progress using multiple student outcome indicators that contribute to a quality education. Each outcome is reported to the public through the California School Dashboard, an online tool that displays the performance of schools and student groups to assist in identifying strengths, challenges, and areas in need of improvement. The Dashboard provides information about each indicator, the school's performance level (i.e., color) for each, and the change from the prior year. Each year, the CDE releases a technical guide that explains the features and business rules of the Dashboard.

School Designations

The State of California uses the Dashboard to determine school eligibility for comprehensive support and improvement (CSI) and additional targeted support and improvement (ATSI). School identification categories are hierarchical. Schools can only be identified in one category for any given school year. School identification categories are hierarchical. Schools can only be identified in one category for any given school year. The first identification group is CSI-Low Graduation Rate Schools. Schools identified for CSI based on graduation rate that happened to be Title I-funded are removed from the pool prior to the identification of Title I-funded schools in the CSI-Lowest Performing Schools category (2022 California School Dashboard Technical Guide: Introduction, 2022). Schools that are not eligible for CSI but have one or more student group(s) that meet any of the criteria used to determine CSI Low Performing will be eligible for ATSI.

The January 2022 identification of schools included CSI–Low Graduation status consisting of schools that had a two-year average high school graduation rate below 67 percent. This graduation rate criteria applied to both Title I and non-Title I schools. To be eligible for identification in this category, schools had to have graduation rate data for both 2018 and 2019.

The CSI–Lowest Performing Schools category consists of schools that received Title I funds for the 2018-19 school year and were the lowest performing based on the 2019 Dashboard data. At least five percent of the Title I-funded schools across the state must be identified in this category. Schools with the following performance level color combinations were identified as CSI–Lowest Performing Schools: all red indicators; all red but one indicator of another color; all red and orange indicators; or schools with five or more indicators where the majority are red.

Schools that are not identified for CSI are eligible for Additional Targeted Support and Improvement (ATSI) if they have at least one student group that meets the same criteria as CSI–Lowest Performing Schools for two consecutive years. California’s ESSA State Plan required schools to be identified in the ATSI category for the 2019-20 school year. School identification for ATSI occurs on a three-year cycle. However, due to the COVID-19 pandemic, California received a federal accountability waiver of all 2020 Dashboard reporting requirements (CDE, 2023a). Therefore, schools designated as CSI or ATSI in January 2020, remained in place through 2022-23 and state testing (SBA) was put on hold in 2019-20 and limited in 2020-21. School designation only changed during this period if schools exited from CSI or ATSI (see full list in Appendix B).

Title I Targeted Assistance Schools (TAS) use funds received only for programs that provide services to eligible students identified as having the greatest need for special assistance. Eligible children are identified by the school as failing to meet the state’s challenging academic achievement standards. In TAS’s only, students identified as Title I-eligible may receive services funded by Title I. Students eligible for Title I services are (i) children not older than age 21 who are entitled to a free public education through grade 12; and (ii) children who are not yet at a grade level at which the District provides a free public education. A student is eligible for Title I services if identified by the school staff as failing or most at-risk of failing to meet state academic achievement standards. The identification of Title I eligible students must be based on multiple, educationally related, objective criteria established by the District and supplemented by the school, except that children from pre-school through grade 2 shall be selected solely on the basis of such criteria as teacher judgment, or other developmentally appropriate measures.

In 2022-23, the CDE identified 39 CSI and 76 ATSI schools for a total of 115 schools. Of the 39 CSI schools identified, 17 were CSI–Low Graduation Rate Schools and 22 were CSI–Lowest Performing Schools. Most CSI–Low Graduation Rate Schools were Dashboard Alternative

School Status (DASS) schools, accounting for 14 of the 17 (76%) schools. Unlike CSI–Low Graduation Rate Schools, the majority, or about 91 percent (20/22), of CSI–Lowest Performing Schools were traditional schools. When summarized by school group, as shown in Table 2 below, ATSI schools consisted of elementary, middle, and high schools. Elementary had the most ATSI schools with 54.¹

Table 2: 2022–2023 ESSA Assistance Status by School Type

Group	General Assistance	CSI Low Grad Rate	CSI Low Performance	ATSI	Total	Title I & TAS
Elementary	425	0	8	54	487	432
Middle School	65	0	9	10	84	82
Senior High	88	2	1	10	101	101
Span	38	0	1	2	41	37
Option	46	12	2	0	60	58
Special Ed	7	3	1	0	11	10
Total	663	17	22	76	784	717

Note: Carlson Home Hospital and the 6 Virtual Academies are included as Option schools.

Resource Allocations

In 2022-23, the Title I budget, which accounted for a state adjustment resulting in a reduction in the previous year’s allocation, was approximately \$466.2 million.² As is done each year, the budget was divided into four groups: Title I Schools, Centrally Funded Programs, Other, and Balance from the prior fiscal year. California Education Code requires LEAs to use at least 85 percent of Title I funds on direct services. In 2022-23, LAUSD exceeded the minimum for direct services to schools including centrally funded services and equitable services in participating private schools, found in the “Other” category in Table 3.

¹ Categories were used in alignment with the LAUSD Office of Data & Accountability (ODA): Elementary, Middle Schools, and Senior High categories includes Magnet Centers, Magnet Self-Contained Schools, Dual Language Centers (DLC), and Other Learning Centers of the respective grade levels; Span schools are any schools the cross over two grade span levels, including Magnets; Option schools are alternative schools (i.e., Continuation High Schools, Opportunity Schools/Units, Community Day Schools, and Carlson Home Hospital); and Special Ed are learning centers dedicated specifically to Special Education.

² The State of California notified the District of an entitlement adjustment for 2021-22, leading to a positive balance that was applied to the 2022-23 funding model.

Table 3: 2022-23 Title I Budget

Program	Budget	Percent
School Site Allocations	\$289,870,334	62%
Centrally Funded Programs	\$105,185,617	23%
Other*	\$32,000,287	7%
2021-22 Balance**	\$39,213,815	8%
Total	\$466,270,053	

*Includes PSP, Districtwide Admin, reserve for salary changes, and indirect costs (including funds allocated to school sites). **State adjustment to 2021-22 Entitlement in March 2023 led to a positive balance.

Centrally Funded Programs Allocations

Approximately 23% of the 2022-23 Title I Budget was used for Centrally Funded Programs that provide direct services to schools. These programs are administered centrally by individual departments, including the Division of Instruction, Student Health and Human Services, Beyond the Bell, and Parent and Community Services.

School Allocations

The Title I Schools allocation accounted for 62% percent of the budget. These funds are eligible to schools whose percentage of low-income students – based on the free and reduced meal application – was greater than or equal to 45 percent. For eligible schools, the per-school amount was calculated by multiplying the number of low-income students by the school per pupil allocation listed in the 2022-23 Poverty Ranking Funding Formula in Table 4 below.

Table 4: 2022-23 Poverty Ranking Funding Formula

Poverty Percent	Number of Schools	Number of Students	School Per Pupil Allocation
100% - 65%	636	286,981	\$913
64.99% - 50%	61	23,810	\$690
49.99% - 45%	10	5,055	\$522
Hold Harmless ³	3	288	\$362
Targeted Assistance Schools (TAS) ⁴	7	5,363	\$913

Source: LAUSD 2022-2023 Title I Rank Comparative Summary – Attachment A, February 7, 2022

Enrollment for the Title I rank in 2022-23 was based on E-CAST, a projected enrollment data used to calculate the number of teaching positions for the new school year or the California Basic Educational Data System (CBEDS). In previous years the Title I rank was based on actual

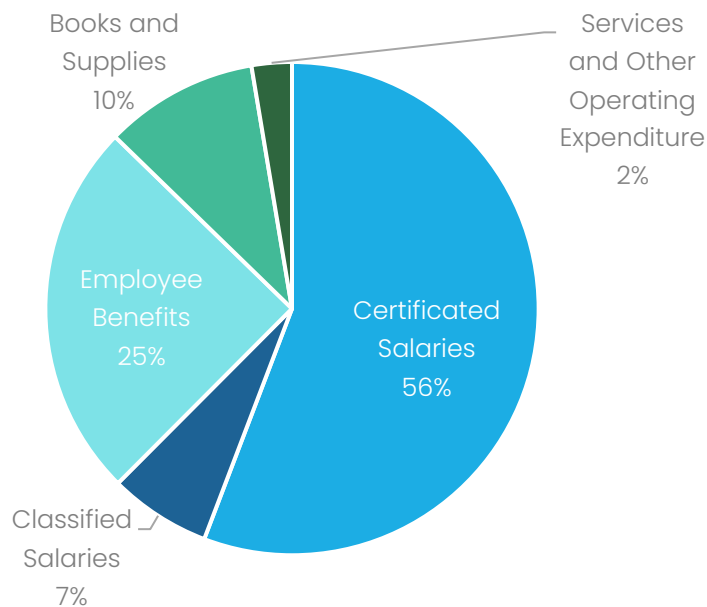

³ Hold Harmless schools are those that were ranked Title I in prior years and falling below 45% poverty for the first time in FY 2022-23.

⁴ In TAS's students identified as Title I-eligible may receive services funded by Title I.

enrollment data on the designated “Norm Day” for schools, which was September 17, 2021 for the 2022-23 academic year. Title I ranks are then based on their percentage of low-income students of students enrolled (e.g., 100 percent is equal to rank 1). The district uses this rank to determine the order that eligible schools receive their allocation.

The biggest category of the Title I Schools budget allocation, certificated salaries and employee benefits, accounted for 81% of the total allocations (Figure 1). Other categories, such as books and supplies and classified salaries, made up a smaller portion of the allocation, accounting for about ten percent and seven percent, respectively.

Figure 1: 2022-23 Title I School Allocation Budget

Centrally Funded Programs

Table 5 lists the allocations and expenditures of centralized Title I funds in 2022-2023. Approximately \$32.3M of the amount reflected on Table 5 are not described below, including 1) Supplemental Academic Supports/Tools (\$16.4M), digital tools and resources provided to schools 2) Prior Year Adjustments (\$521K), which are applied across multiple programs to account for salary or benefit changes; and 3) Extended Learning Opportunities, Summer (\$15.4M), which was funded with other funding sources after being redesigned and expanded.

Table 5: 2022-23 Centrally Funded Programs Budgets

Program/Unit	Managing Office	Amount Allocated
Access Equity Acceleration	AEA	\$561,819
A-G Diploma Counselors (HS)	SHHS	\$13,748,970
AVID Excel (MS)	Advanced Learning Options	\$400,000
College and Career Coaches (MS)	PK-12, DOI	\$9,416,814
Homeless Education*	SHHS	\$1,311,064
Indian/Indigenous Education Program	MMED	\$200,000
LTEL/SPED PD	MMED	\$665,469
Middle School Student Aspirations Training	DOI	\$320,040
Neglected Program*	SHHS	\$1,811,031
Newcomer Coaches/ Counselors	MMED	\$1,501,646
Newcomer Summer Programs	MMED	\$1,020,000
Parent Engagement & Trainings	PCS	\$3,819,516
READ Program	PK-12, DOI	\$2,526,069

Summer Term (HS)	Beyond the Bell	\$20,000,000
Support for Options Schools	PK-12, DOI	\$575,656
Title I Intervention Program (TIIP) K-12	Beyond the Bell	\$8,711,600
Winter/Spring + Credit Recovery (HS)	DACE	\$623,670
Total Centralized Funded Program Budget		\$72,798,422

*Required Reservation *Includes projected carryover costs for all summer programs.

Table 6 provides a brief description of each program and whether the program objectives were “met” in 2022-23. Each program had goals specific to the program and evaluated these goals in a report submitted to the FSEP at the middle and end of each year of implementation. However, the of the School Site Council (SSC) Training evaluations are done internally for feedback and improvement and are not included.

Table 6: 2022-23 Centrally Funded Program Objectives

Program/Unit	Description	Objective(s) Met
Access Equity Acceleration	The Access, Equity and Acceleration Unit will provide professional development to 143 Title I elementary and secondary schools. These PDs will focus on strategies to support mainstream English Language Development for Standard English Learners (SEL) and preparing minority/ underrepresented students to become competitively eligible for college admission.	Academic English Master Program (AEMP) students improved on MOY and EOY DIBELS assessments. The percentage of AEMP students scoring at or above benchmark increased from 49% to 59% while those scoring well below benchmark decreased from 37% to 28%.
A-G Diploma Counselors	All LAUSD high schools (including Options) are part of a "Zone of Support". Each Zone has 1 or 2 A-G Diploma counselors (totaling 95) to support academically at-risk students in dropout prevention, A-G intervention, credit recovery, transitions, and college/career readiness.	1 of 3 goals were met, including a slight increase in the percent of students that are on track for graduation or moving into Tier 1.
AVID Excel	Implementation of the AVID Excel program to support LTELs at select school sites.	The goal of reclassification rates for AVID Excel schools exceeding District reclassification averages was met.
Homeless Education	PSA Counselors identify homeless youth, provide training and technical assistance to school and community personnel and facilitate enrollment and equal access to all school programs for homeless students district wide.	3 of 7 goals met involving increased supplies, access to transportation, and identification of unaccompanied students experiencing homelessness.
LTEL/SPED	Professional development to support instruction and progress monitoring for Long-Term English Learners (LTELs) with disabilities.	Consequently, PTEL and LTEL students with disabilities are reclassifying at a rate of 28.3%, exceeding the EL reclassification rate of 24%.
Middle School College and Career Coaches	All Title I schools serving middle grades receive 0.5 or 1.0 FTE Middle School College and Career Coach to provide intervention support relating to factors that are most likely to impact high school graduation.	The "art of coaching" professional development to support coaches as well as additional school activities detailed in the coaching logs did occur. The goal of increasing proficiency by 2% points on the

Program/Unit	Description	Objective(s) Met
Neglected Program	Provide services to children in neglected institutions and community day schools to enhance academic achievement and build their capacity to become vocational or college/ postsecondary ready.	STAR reading assessment was not met. Progress was made on goals associated with graduation, employment, and increases in student awareness of higher education and post-secondary options.
Newcomer Program and Newcomer Summer	Provides coaches, counselors, and enrichment for high schools with a high number of international newcomer students while addressing their social-emotional, linguistic, and instructional needs. Additionally, the district provides a summer enrichment program for newcomer students.	The program is on track to meet the goal with 100% of newcomers progressing toward graduation. The goal is to increase by 3% the proportion of international newcomers that will graduate by June of 2024. Nearly half of the newcomer students are meeting graduation requirements or are within 1-2 courses of meeting graduation requirements.
Parent Community Services	The Parent and Community Services office supports school efforts to implement effective family engagement activities that value partnerships with parents for the benefit of children’s learning and achievement.	2 of 3 goals were met. Nearly all (94%) of training session participants agreed that they gained valuable info to support their child’s academic and/or social emotional growth, and 84% agreed that they had gained new skills. Although multi-session modules were not developed, other training modules were.
Quaglia Institute for Voice & Aspirations	Quaglia offers on-site professional learning, student voice surveys and a student video series that supports the social emotional needs of 13 schools.	The goal of increasing the completion rate for the “I know my class” student survey tool was met.
READ Program	The READ Teacher Expert will support schools in identifying at-risk students, implementing targeted instructional strategies, and providing coaching and PD support. The support includes providing demonstration lessons, model lessons, co-planning, co-teaching, facilitating professional development,	Goals associated with decreased percentages of students scoring well below benchmark were met overall and for Black students. These objectives were met at targeted READ schools and for students receiving Direct Read services.

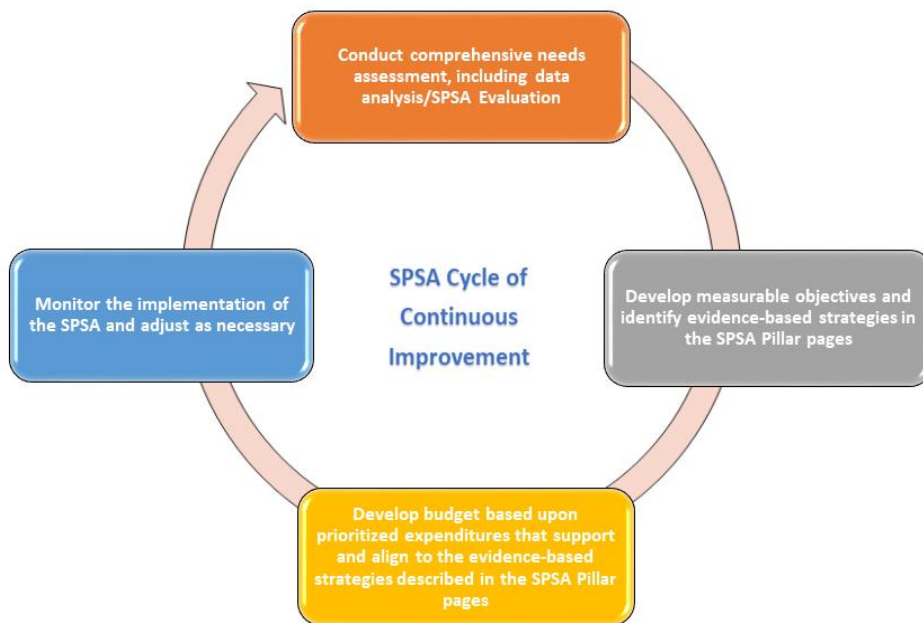

Program/Unit	Description	Objective(s) Met
	and presenting parent workshops on early literacy.	
Summer Term	This program offers credit recovery opportunities over the summer for all high school students who received a D or F in core courses.	The 2022–23 objectives were met. 22,140 students enrolled in person and 19,028 enrolled virtually. Most students (87%) passed courses with a C or better and 96% with a D or better. Most administrators observed student participation, instructional delivery, and proximity to students in the classrooms.
Support for Options Schools	Educational Options offers students personalized pathways to graduation and alternatives to the traditional school setting. Meeting graduation requirements and college career readiness are goals.	Comprehensive Support and Improvement schools received additional direct counseling services to support attendance and graduation, which was hoped to contribute to increased graduation rates. Insufficient training and days of service provided may have affected the extent to which itinerant counselors boosted the graduation rates, which was lower than expected.
Title I Intervention Program (TIIP) K-12	Schools eligible for this program who complete an 'intent to offer' receive a per pupil budget and design their own intervention program within the allocated amount.	Goals regarding the percentage of students completing intervention and credit recovery sessions with satisfactory and/or passing marks were not met because of incomplete attendance and poor student engagement.
Winter/Spring + Credit Recovery	Eligible high schools that opted into this program will offer high school students credit recovery opportunities during school breaks and select Saturdays. The program is offered via Adult Ed labs with Adult Ed teachers but is open to all students in need of credit recovery.	Surpassed enrollment goals which continue to increase. 58% of enrolled students completed coursework for credit, not meeting the goal of 70%.

School Plans for Student Achievement

California Education Code 64001 requires districts that receive funding through the Consolidated Application, including Title I funds, ensure participating schools write an SPSA (CDE, 2023b). Additionally, California Education Code 52852 requires Title I schools to establish an SSC as the decision-making council for all programs funded through the ConApp. Each SSC is responsible for developing, reviewing, and approving the SPSA. The purpose of the SPSA is to: 1) Create a cycle of continuous improvement of student performance; 2) Raise the academic performance outcomes of all students to the level of state achievement standards; and 3) Ensure that all students succeed in reaching academic standards set by the State Board of Education.

The goals and activities described in the SPSA must be aligned to data that will address specific student needs. The SPSA includes: a comprehensive needs assessment (data analysis and annual SPSA evaluation), develop measurable objectives based on student data and evidence-based strategies that address student needs, the Title I budget, and a process for monitoring implementation of planned actions. Throughout the school year, Title I schools engage in a Cycle of Continuous Improvement to develop, implement, and monitor the SPSA (Figure 2; LAUSD, n.d.).

Figure 2: SPSA Cycle of Continuous Improvement

According to California Education Code 64001(g), the SSC must evaluate the effectiveness of the SPSA at least one time each year (CDE, 2023b). The annual review and evaluation of the SPSA by the SSC ensures programs and interventions described in the schoolwide plan are

implemented as designed and implemented in a way that positively affects student achievement. Furthermore, the review and evaluation comprise an integral component of the Compensatory Education (CE) Federal Program Monitoring (FPM) review process for SPSAs. During an FPM review, the SSC must provide evidence of the evaluation process to determine if the needs of students are being met by the strategies described in the SPSA. Data must be used to evaluate the effectiveness of categorical resources and the effect on the instructional program. Schools are to use multiple measures, such as curriculum-based assessments, student work, SBA data, California School Dashboard results, and surveys to evaluate and revise the school's SPSA. If the analysis of school data indicates minimal or no growth, revisions must be made to the instructional program to ensure annual gains in student achievement.

The transition to an online SPSA evaluation system in 2017-18 enabled relatively easy consolidation and analysis of SPSA evaluations to describe the content and characteristics of the responses. For 2022-23, 709 of 710 Title I schools and 7 TAS schools submitted online SPSA evaluations (hereinafter referred to as the *Title I schools*).⁵ In the evaluations, schools indicated whether they “met” each of their measurable objectives across the six SPSA goals: 100% Graduation and Beyond (hereinafter referred to as *100% Graduation*); English Language Arts (ELA); Mathematics; English Learner Programs (EL Programs); Parent, Community, and Student Engagement (*Parent & Community*); and 100% Attendance, Suspensions, School Safety, and Other Supports (*100% Attendance*). In addition, schools provided responses to why the objectives were “met” or “not met,” and checked all strategies that did or did not work (e.g., Consistent/ effective or lacking/ inconsistent/ ineffective PD implementation, grade level or department planning time, and data collection).

The SPSA outlines the measurable objectives based on their goals for student improvement objectives. These objectives demonstrate the effectiveness of the implementation at improving student achievement and will answer the question, “Did our strategies and actions lead to improved outcomes such as increased student achievement, or behavior/attitude shifts?” They are SMART Goals based on formative and summative data tied to district and State priorities. In the absence of prior years’ SBA data and CA Dashboard indicators, contributors were instructed to look at alternative measures for needs assessments and look at objectives in a new way as they evaluate the SPSA.

To assist school site staff in shifting their lens, implementation objectives were added to the SPSA in 2021-22. FSEP instructed school site staff to develop at least one measurable implementation objective per goal type. An additional goal type, “Other Academic Content” was added in 2022-23 to the SPSA template for schools to address other academic areas of

⁵ The number of schools that submitted an online SPSA evaluation (710) is lower than the total number of 2022-23 Title I schools (711). The difference is due to one school missing data on both types of objectives.

concern such as science and social studies. These objectives are meant to assist school site staff in monitoring of progress toward the improvement goals, aligned to their strategies and actions, and answering the question, “Were our strategies carried out?” These implementation objectives have three characteristics, they are 1) measured at the school with potential leading indicators to track throughout the year, 2) determine effectiveness of strategies and allow course correction as needed, and 3) align with the plan so that the school will know if its strategies were implemented with fidelity.

The following in-depth analyses of SPSA evaluations include a snapshot of the data overall, then a quantitative analysis looking for any differences by school type and goal types, and findings across responses of schools to objectives “not met” and solutions for moving forward. The analyses for implementation and improvement objectives are separate but followed by a discussion section summarizing the findings.

Implementation Objectives

Overall, there were a total of 5,685 measurable implementation objectives created across the six goals and an additional 909 “Other Academic Content” not addressed in the further analyses. The goals with the most implementation objectives created were *ELA* (1,049 objectives) and *Math* (1,017 objectives), making up 18%, respectively, of the total goals of all implementation objectives. The fewest number of implementation objectives created were *100% Graduation* which comprised 14% (788) of the total number of objectives. The majority (59%) of all implementation objectives were created by elementary schools.

When comparing the number of objectives by school type, as shown in Figure 3 below, most created similar numbers of objectives for each goal type, averaging eight goals created across the six goal types. *ELA and Mathematics* remained a top priority for most school types followed by *EL Programs* and *Parent & Community Engagement*.

Figure 3: Number of Measurable Implementation Objectives by Goal for Each School Type

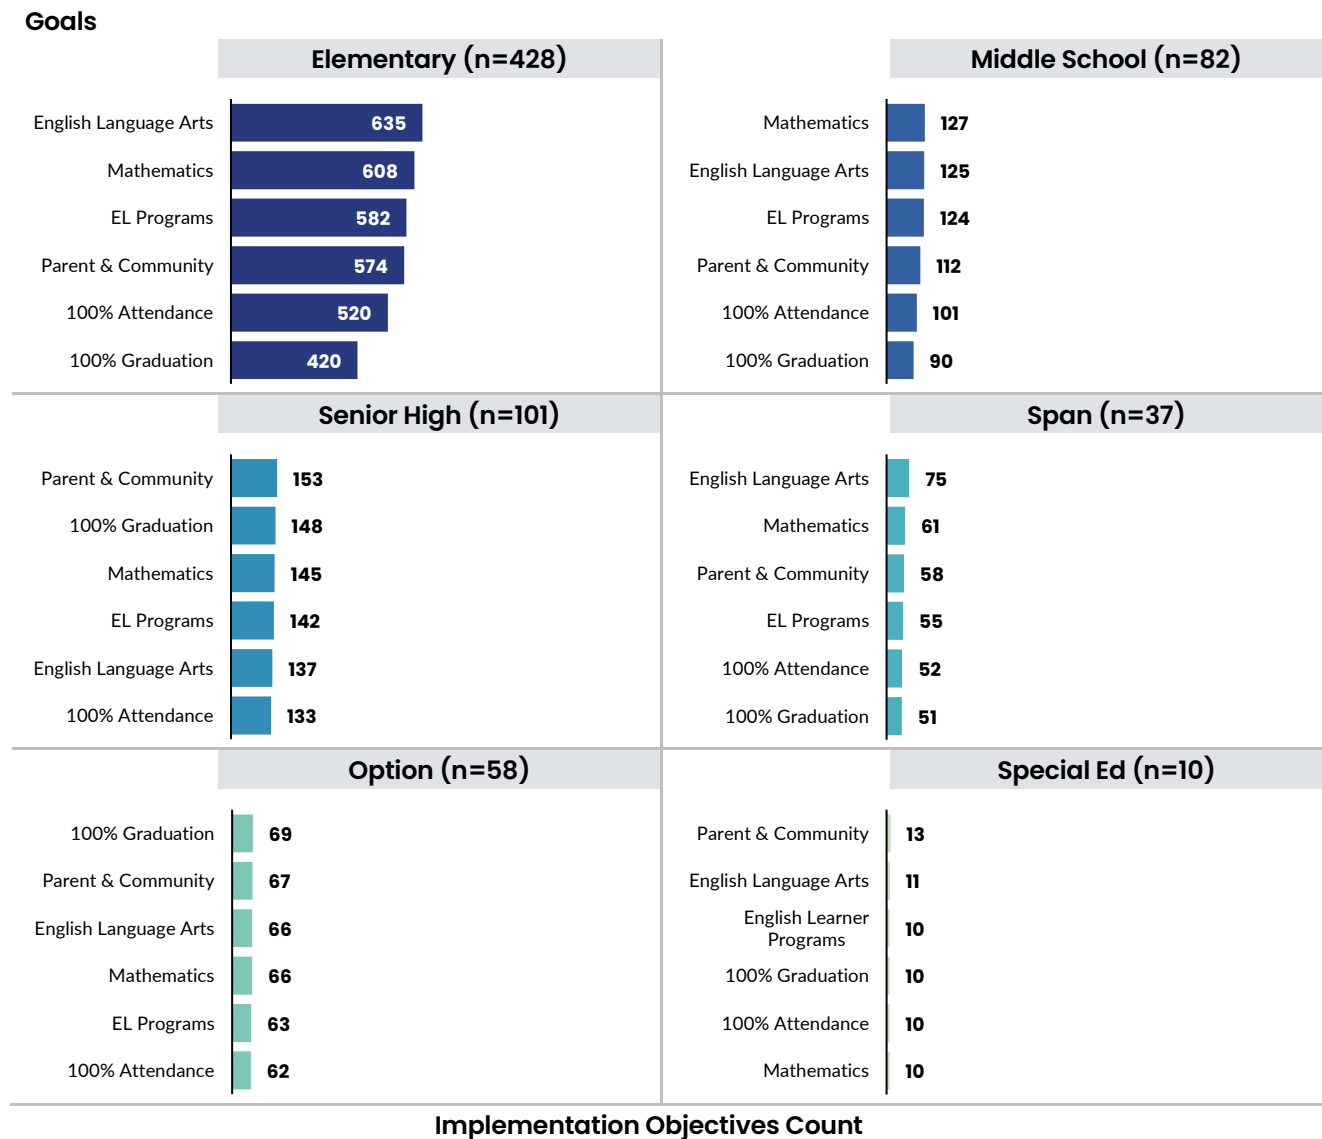

Figure 4 below shows the percentage of implementation objectives “met” by goal. Roughly three-quarters (75%) of the objectives were “met” by goal type and school type. The only exception is *100% Graduation* which shows a high “N/A” rate (53%), discussed in more detail in the Discussion section below. A similar pattern can be seen overall when charting the percentage of implementation objectives “met” by each school group (Figure 5). Approximately three-quarter (75%) of the objectives were “met” by each school type with the fewest objectives “met” (68%) by the largest school group, Elementary (n = 428).

Figure 4: Percent of Implementation Objectives Met by SPSA Goal Type

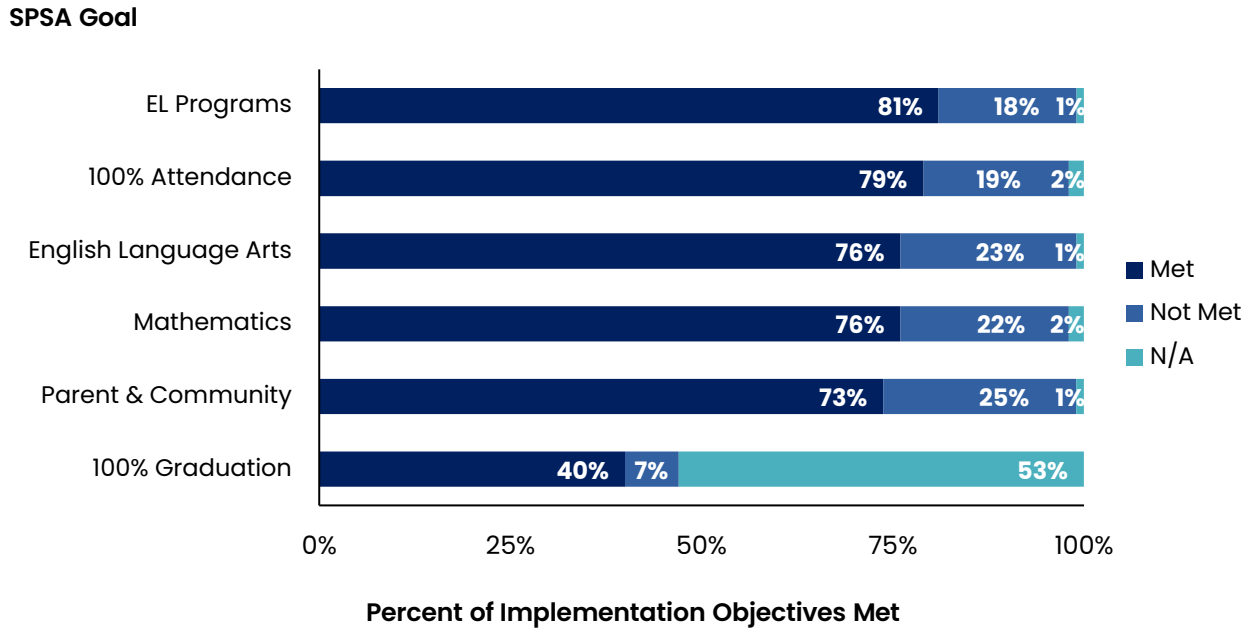

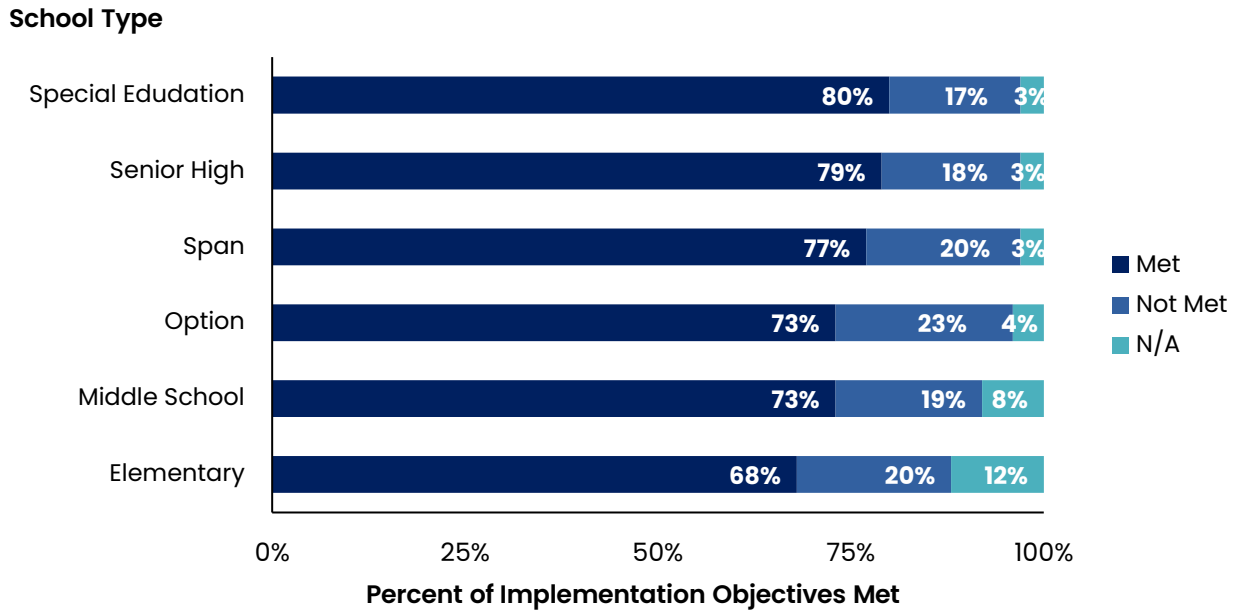

Figure 5: Percent of Implementation Objectives Met by School Type

Improvement Objectives

Overall, there were a total of 7,857 measurable improvement objectives created across the six goals for 716 Title I schools. The goals with the most improvement objectives created were *ELA* and *Mathematics*, comprising 24% (1,864) and 23% (1,770) of all improvement objectives, respectively. Closely behind content specific goals were *EL Programs* and *100% Attendance*,

accounting for 16% each, followed by *Parent & Community* goals (15%). The fewest number of improvement objectives were created for the *100% Graduation* goal (7% or 550) with more than half (56%) created by Senior High or Option schools.

When comparing the number of objectives by school type, as shown in Figure 6 below, most schools had similar priorities. *ELA* and *Mathematics* were the top goals for Elementary, Middle, Senior High and Span schools. *100% Graduation* was a top goal for Option Schools. However, the number of objectives created across goal types did not differ greatly except at the Elementary level.

Figure 6: Number of Measurable Improvement Objectives by Goal for Each School Type

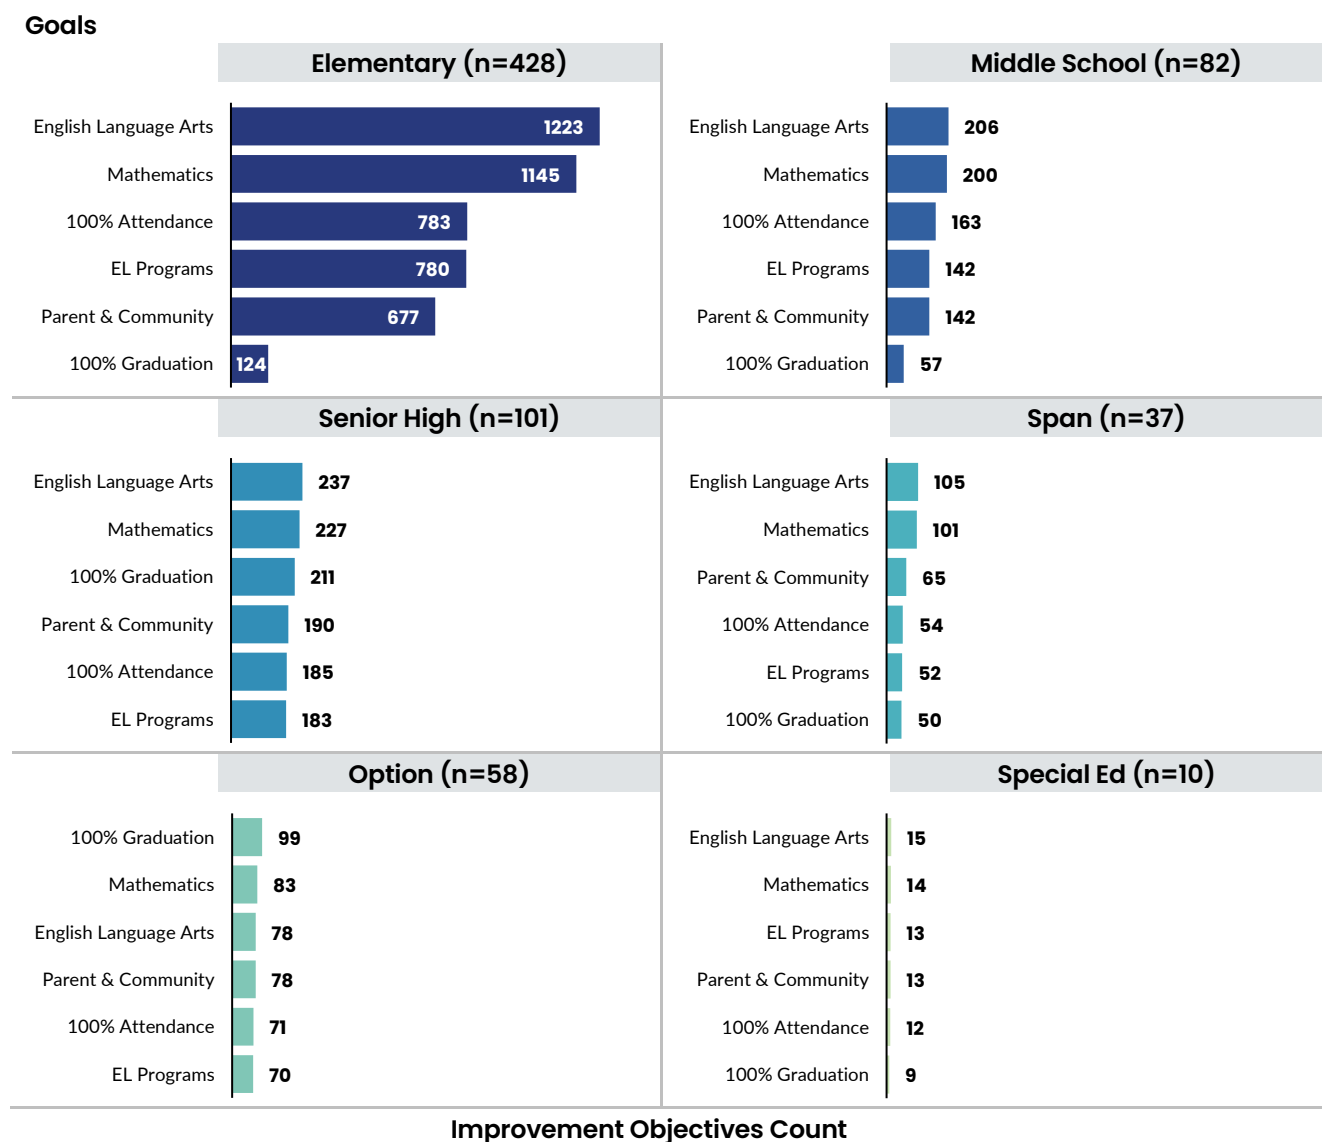

Figure 7 below shows the percentage of improvement objectives “met” by goal type. Except for *EL Programs* with about 53% of objectives “met,” less than 50% of all measurable objectives were “met” for each goal type. Instead, 56% of objectives were “not met” for *100% Attendance* and nearly half (49%) of the objectives were “not met” for *Parent & Community, English Language Arts, and Mathematics*. A similar pattern can be seen when examining the percentage of improvement objectives “met” by each school type (Figure 8), where fewer than half were “met.” The smaller school types “met” a relatively higher percentage of their objectives than did the larger ones. For example, Special Education schools (n=10) “met” 50% of their objectives, while Option schools (n=58) and Middle schools (n=82) “met” the fewest objectives, 39% and 35% respectively.

Figure 7: Percent of Improvement Objectives Met by SPSA Goal Type

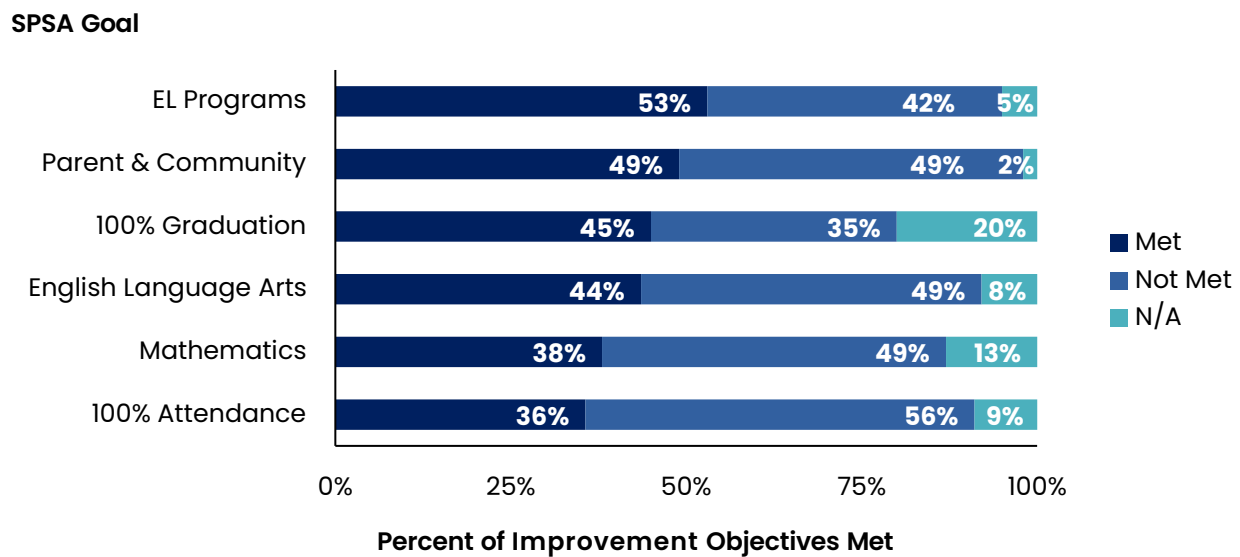

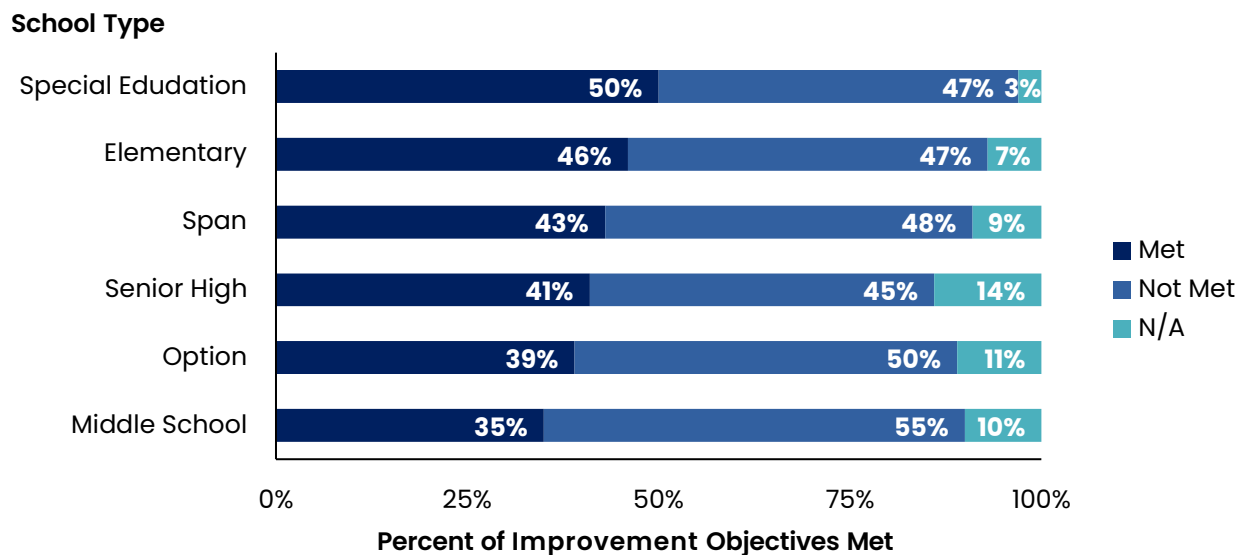

Figure 8: Percent of Improvement Objectives Met by School Type

Smarter Balanced Assessments

Smarter Balanced (SBA; formerly SBAC) summative assessments measure student achievement and growth in ELA and math. They are administered each spring to students statewide in grades 3-8 and 11 beginning in 2014-15. SBA results across all grade levels statewide, for LAUSD, and for Title I versus non-Title I schools are summarized in Tables 8 and 9 below. Differences in percentage points are shown for comparisons between pre-COVID years (2015-16 to 2018-19) and post-COVID years (2018-19 to 2022-23) as well as overall from 2015-16 to 2022-23. SBAs were not administered in the 2019-20 academic year and were only administered to a limited non-representative number of students in 2020-21. Therefore, results are not reported for those years.

Table 8: Percent of Students Who Met or Exceeded Standard on SBA ELA by Year

Group	2015-2016	2016-2017	2017-2018	2018-2019	2021-2022	2022-2023	% Point Dif. 2015-16 to 2018-19	% Point Dif. 2018-19 to 2022-23	% Point Dif. 2015-16 to 2022-23

Source: Statewide results from <https://caaspp.edsource.org/sbac/statewide>; LAUSD results from <https://my.lausd.net/opendata/dashboard>.

Note: Numbers for 2018-19 and 2021-22 had slight adjustments from the previous year's report, due to previous inclusion of students not assigned to either Title I or non-Title I schools. Schools represented are Title I schools identified in each specific year, not one consistent group across time. *Virtual Academies were not in 2021-22 but are considered TAS schools in 2022-23, therefore there is a separate row to include their data apart from Title I. **Non-Title I schools only represent 9% of LAUSD schools as seen highlighted in grey in Appendix A.

The rates of students who met-or-exceeded standards attending Title I versus non-Title I schools show overall gains from 2015-16, the second year of SBA testing. However, from 2021-22 to 2022-23, Title I and non-Title I schools both showed slight learning losses in ELA and slight learning gains in math. In comparison to the Statewide results, LAUSD students overall and in Title I schools met-or-exceeded standards at lower rates but showed more growth from 2015-16 to 2018-19 and less decline during COVID on both the ELA and math SBA. LAUSD students at non-Title I schools met-or-exceeded standards at higher rates and showed more growth overall, and less decline during COVID in comparison to students statewide.

For students attending Title I schools who tested in ELA, the percentage of students who met-or-exceeded standards decreased about three percentage points, from about 41 percent in 2018-19, the last year with valid results before COVID-19, to 38 percent in 2022-23. This drop is the endpoint of a three-year pattern of learning loss, with met-or-exceeded rates for students attending Title I schools trending lower than those in 2018-19. In math, nearly 28 percent of students attending Title I schools met-or-exceeded standards in 2022-23. The met-or-exceeded rate increased by two percentage points from 2021-22 to 2022-23, offsetting a decrease by nearly five percentage points that occurred between 2018-19 and 2021-22.

Discussion

The prior sections presented the quantitative analysis of the indicators of Title I schools' attainment of implementation and improvement objectives. However, *100% Graduation* merit further discussion due to differences in graduation rates versus goals "met."

In comparison to the artificially high graduation rates in past years—2019-20, 2020-21, 2021-22, and 2022-23 (80.9%, 81.6%, 86.1%, and 84.0% respectively), this cycle's *100% Graduation* goals "met" rate (40% for implementation and 45% for improvement objectives) is low. However, these "met" rates include all school levels. In the case of Elementary and Middle schools, creating *100% Graduation* goals is optional. When schools defined such goals, they were focused on culmination and foundational skills. When only measurable objectives for schools that have a 12th grade are included in the analyses, the rate of "N/A" responses (previously presented in Figure 4 and presented now in Figure 7) decreases dramatically, especially for implementation objectives from 38% to 5% (Table 7).

After further removing the "N/A" responses, the "met" rate was even higher for both implementation and improvement objectives (89% and 64% "met" respectively), where the majority of the *100% Graduation* goals are being "met." A closer look at the objectives could help explain the remainder of the difference from the District's graduation rate.

Table 7: 100% Graduation Goal Completion by School Type

100% Graduation Goals	# of Objectives	Met	Not Met	N/A
Implementation Objectives				
All School Types (Figure 4)	788	40%	7%	53%
Schools w/ Grade 12	250	84%	10%	5%
Excluding "N/A"	237	89%	11%	-
Improvement Objectives				
All School Types (Figure 7)	545	45%	35%	20%
Schools w/ Grade 12	344	51%	29%	20%
Excluding "N/A"	275	64%	36%	-

Looking Ahead

The District adopted a new strategic plan in July 2022, and the SPSA template will be updated to align to the strategic plan starting in 2023-24. This report provides only a snapshot of the quantity of objectives developed by different schools and an idea of what school staff value based on those numbers. A previously recommended cross comparison of quantity (objective “met” rates) and quality (what/how objectives are created) analysis, is currently underway. Looking at strategies used in relation to quantity and quality may also be included. Results will be provided as a supplemental report to LAUSD’s Federal and State Education Programs (FSEP) team to utilize for training Title I coordinators and school sites. More specifically, *how* or *if* SSC teams are creating high quality and realistic/attainable goals (i.e., S.M.A.R.T. Goals).

Additional future analyses could include understanding how school sites differentiate implementation from improvement objectives for developing SSC training or analyzing the responses for certain subsets of schools for developing the SPSA template. More specifically, examining responses for subsets of schools that did not meet implementation but did meet improvement goals, or conversely, for schools that did not meet improvement but did meet implementation goals. The SPSA offers a rich trove of information to inform school improvement.
