### LOS ANGELES UNIFIED SCHOOL DISTRICT OFFICE OF THE INSPECTOR GENERAL

### **ANNUAL WORK PLAN FISCAL YEAR 2023**

SAL RANDAZZO
INTERIM INSPECTOR GENERAL

#### OFFICE OF THE INSPECTOR GENERAL Annual Work Plan for Fiscal Year 2023

#### INTRODUCTION

This is the Office of the Inspector General's (OIG) Annual Work Plan for Fiscal Year 2023 (FY 2023). Our Work Plan presents the OIG activities we plan to undertake in the upcoming fiscal year. The OIG's audit work focuses on contracts and activities predominantly funded by school bond measures as well as District-wide programs, processes and systems. A significant portion of our investigative work focuses on allegations of District employee misconduct and policy violations. The OIG also identifies proactive and strategic activities that we believe will provide the District with added protection of public resources. This coming year, we plan to continue our independent oversight activities related to COVID relief funding and the associated Path to Recovery efforts. We commend the Board of Education for investing into oversight activities that will help further garner the trust and confidence of the LAUSD community.

Our Work Plan is intended to provide a slate of specific work, but also be dynamic and flexible, so that we are able to respond to emerging risks and changing priorities. Board of Education requests, Senior Management interests and unforeseen events such as the ongoing COVID-19 pandemic may require that we perform activities not listed in this Work Plan, or that projects listed in this Work Plan be deferred or not performed at all, based on new information received during the year and the availability of resources.

The OIG remains dedicated to providing valuable services that promote continuous improvement and positive change for the LAUSD students, families, employees, vendors, and public.

Sal Randazzo Interim Inspector General

#### **AUDIT ACTIVITIES**

Audit activities are performed primarily to (i) evaluate the efficiency and effectiveness of District operations, (ii) determine if activities are being carried out in accordance with District policies, applicable laws and regulations, and (iii) ensure that District vendors and contractors comply with the requirements of their contracts and that contracted funds, especially bond funds, are expended as intended.

The OIG developed its work plan by means of a comprehensive risk assessment process (see Exhibit A). This systematic process involved the definition, identification, and categorization of risks applicable to the District. It also organized District operations into auditable areas, developing risk factors and assessing the likelihood and impact of those risk factors relative to each auditable area. The OIG also surveyed LAUSD stakeholders and District management to consider risks and opportunities from multiple perspectives. Exhibit B provides a general summary of our stakeholder survey responses.

The work plan identifies audits and activities for several divisions within the District. The FY 2023 work plan includes 45 projects with a total contract value of \$432 million. The following are descriptions of the types of audit activities that will be performed as part of the FY 2023 Work Plan as well as descriptions of other planned oversight work that we expect to perform on an *ad hoc* basis.

#### I. Incurred Cost Audits (27)

These audits examine the actual costs incurred by the contractor to determine whether the costs were allowable, allocable and reasonable in accordance with the Federal Acquisition Regulation (FAR) and contract terms.

#### 2. Performance Audits (16)

These audits are an objective and systematic examination of evidence for the purpose of providing an independent assessment of the performance of an organization, program, activity, or function in order to determine if it is performing efficiently and effectively and in compliance with policies, procedures, laws and regulations.

#### 3. Special Reviews (1)

Special reviews are conducted as a result of special requests from the Board of Education, District Management, findings identified in the course of an audit, or concerns reported to the OIG. The reviews are limited in scope and address the specified concerns only. These types of reviews are NOT conducted in accordance with Generally Accepted Government Auditing Standards (GAGAS).

#### 4. Change Order Audits (1)

These audits examine contract change orders for allowability, allocability and reasonableness of the proposed or claimed change order costs. These include changes due to added or deleted work, equitable adjustments for delay, disruption, inefficiencies, contract terminations and other claims. We will perform audits of construction change orders based on management requests.

#### 5. Rate Reviews (TBD)

These types of reviews determine an existing contractor's actual direct labor and overhead rates in order to assist Procurement officials with determining the reasonableness of provisional billing rates. These reports are not published.

A complete list and description of the 45 audit projects planned for FY 2023 is attached as Exhibit C to this document.

#### **INVESTIGATIVE ACTIVITIES**

For FY 2023, in addition to responding to allegations of District employee misconduct and policy violations, we will continue to proactively focus on certain strategic areas and investigative activities that we believe will provide the District with added protection of public resources.

The OIG will continue to concentrate on the high-risk areas that have the greatest potential for exposing the District to fraud, waste, and abuse. Where practical, we will work collaboratively with federal, state and local law enforcement agencies in more complex criminal matters through the Education Fraud Working Group.

#### I. The OIG Hotline

The OIG manages the District's OIG Hotline, which generates complaints, allegations of misconduct, and District policy violations from a myriad of internal and external sources each year. The OIG has expanded the operational value of the Hotline to not only respond to allegations of fraud, waste and abuse, but also to ensure that matters referred to other departments within the District are adequately addressed and responded to promptly. The OIG will continue to promote awareness of the OIG's Hotline and webpage among District personnel at the Community of Schools (CoS) as well as via public platforms such as Board of Education and Bond Oversight Committee meetings.

#### 2. Proactive Investigations Leveraging Data Analytics

The OIG will utilize data analytics to proactively identify potential abuse and efficiently perform audit and investigative work. This includes the use of specialized equipment and software that allow for robust analysis of District enterprise and function specific systems such as SAP, MiSiS and COLIN. These efforts will also assist with a stronger focus on the procurement processes and contracts that have an increased vulnerability to fraud, waste, or abuse.

#### 3. Employee Integrity

Employee misconduct investigations will continue to be a focus area due to the number of allegations received. These investigations largely center on conflicts of interest, misappropriation of funds, embezzlement, payroll fraud, falsification of documents, property and equipment misuse, theft of property, misuse of District-issued computers and tele-communication equipment, nepotism, forgery, misconduct, and ethics violations.

The OIG will also continue its oversight efforts with investigative activity relevant District contractors, consultants, and vendors. Allegations of theft, misappropriation of public funds, and bid-rigging are among the more common complaints.

To enhance District-wide awareness of employee integrity issues, we will further engage and include relevant District management and staff into the various types of fraud awareness training that we secure throughout the year and encourage the use of deterrent products such as the Inspector General Fraud Warning currently included in LAUSD procurement packages.

#### 4. Whistleblower Allegations

Persons who report improper governmental activity involving the District are protected against retaliation, interference, intimidation, threats or similar acts. The OIG has the authority to investigate violations of the Whistleblower Protection Policy. The OIG will endeavor to thoroughly investigate any and all credible complaints of violations of the District's Whistleblower Protection Policy.

#### 5. School Construction and Modernization Program

The OIG will concentrate on deterring and detecting corruption in bond related activities by focusing on allegations of conflicts of interest, impropriety, and employee and consultant malfeasance. The increased use of contracts awarded through the Job Order Contracting (JOC) process will also require more District and OIG oversight to mitigate the risks of improper conduct. To assist with these efforts, the OIG will continue investing in fraud and awareness training and reporting mechanisms for referring suspected fraud, waste, and abuse to the OIG.

#### 6. Due Diligence and Background Investigations

The OIG's due diligence services and background investigations support the District in its efforts to identify potential problems before entering into contracts and agreements. The OIG will continue to support the District by providing relevant information to the District on companies and individuals involved with the District's school construction and modernization program, its charter schools, and senior management.

#### 7. Workers' Compensation and Benefits Fraud

As a self-insured organization, costs associated with fraudulent workers' compensation claims impact the District's budget directly. Similarly, the District pays the cost of unemployment insurance, so ineligible unemployment claims also negatively impact the District's budget. To mitigate the fraud risk in this area, the OIG will coordinate comprehensive efforts with the Division of Risk Management and Insurance Services to uncover and deter employee duplicitous and fraudulent claim filings.

#### **OTHER OIG ACTIVITIES**

#### **Technical Evaluations**

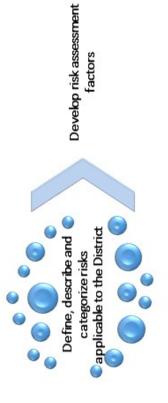

Technical Evaluations are tests or studies conducted to determine the technical suitability of a structure, equipment, material, product, process or system for the intended objectives. Completed projects will be evaluated to ensure compliance with contract documents, specifications, and State Code requirements.

The FY 2023 work plan includes (5) technical evaluations with a total contract value of \$155 million. A description of these projects is included in Exhibit C.

#### **Fraud Alerts**

Fraud Alerts are an important tool for deterring the continuation of fraudulent activities that have been identified by the OIG. Fraud Alerts will be issued during the fiscal year as a means of informing District management of issues of concern and to leverage OIG findings of individual acts to a broader District audience.

TOTAL CONTRACT VALUE OF OIG ACTIVITIES

Maybe you are a school district employee, a parent or just a concerned citizen. Regardless, you can make a difference!

Maybe you know something about fraud, waste, or some other type of abuse in the school district.

The Office of the Inspector General has a hotline available 24 hours a day, seven days a week. You can confidentially communicate with the LAUSD-OIG after submitting a report even if you select to remain anonymous.

If you wish, we will keep your identity confidential and you are <u>protected</u> by law from reprisal by your employer.

#### **Whistleblower Protection**

The Board approved the Whistleblower Protection Policy on February 12, 2002. This policy protects LAUSD employees who make allegations of improper governmental activity from retaliation or reprisal. To assure the reporting of any activity that threatens the efficient administration of the LAUSD, reports that disclose improper governmental activities shall be kept confidential.

#### **General Contact Information**

Office of the Inspector General 333 S. Beaudry Avenue, 12th Floor Los Angeles, CA 90017 https://achieve.lausd.net/oig
