

The purpose of this document is to provide an overview of the reports related to Master Scheduling. It is designed to assist the user in understanding the purpose and use of particular reports.

MiSiS Reports Used for Master Scheduling

My Integrated Student Information System

All master scheduling reports can be found in the Reports menu under the Master Scheduling category. The reports are divided into categories such as Pre, Pre/Post, and Post-Commit. Scheduling Administrator, Counselor, Counselor Plus and Principal Roles are needed to access the reports. Names of students and ID numbers have been blocked out for privacy. Reports in other categories are also used to assist with the master scheduling process.

Pre-Commit Reports

Counseling Planning Sheet

This report is run to review a list of either incoming or outgoing students. This report may be used during the articulation visits that schools conduct on a yearly basis to determine the tentative number of students scheduled to attend the matriculating school.

Use the following parameters:

Local District: select the appropriate District	School: select your school
Request type: select incoming or outgoing	Boundary Schools: select one or multiple schools
Student Names: select one or multiple students	

Elementary Reorganization Report

This report is run to assist teachers during the classroom reorganization process as students matriculate from one elementary grade to the next.

Use the following parameters:

Local District select the appropriate District	School: select your school
Teacher: select one or multiple teachers	Student Names: select one or multiple students

District Course

This report is run to review a list of official LAUSD-approved courses. School users may use this report to determine which courses are appropriate for their school-level configuration. This report will automatically run when selected. **We've added the max credit column to this report.**

Los Angeles Unified School District
Support Learning. Empower Leaders.

Potential Course Deficiency (NEW) Grades 9-12

The report may be used at any time during the creating or editing of students' requests/schedules. This report will display students who have not passed courses and do not have existing course requests or enrolled in courses generated by the report. Based on the data in this report, the scheduler or counselor may make adjustments to students' requests/schedules if there is a potential course deficiency for those listed. The report may be sorted by Grad Year, Counselor or Course.

Use the following parameters:

Campus: select your school	School: select school(s) of your choice- main school or magnet school(s)
School Term: 2015-2016 A-Track Fall	Grade Year: select the grad year of your choice
Grade Level(s): select particular grades or all grades corresponding to the selected grad year	Group Category: select group category of your choice
Groups: depending on group category selected- make the appropriate choices based on the parameters	Department: select department
Sort By: select sort option	Click "View Report"

This report displays course requests with and without sections. This will help the user determine if more sections need to be created for a particular course, or if there are too many sections for the requests.

Requests by Department

This report contains requests for each course by department. This report may be used by the master scheduler to review student requests by particular department(s).

Use the following parameters:

School: select school	Grade Level: select grade level(s) of your choice
Term: 2015-2016 A-Track Fall	Student Request by Department: select particular departments or all departments

Potential Conflict Report

This report will assist the master scheduler to see potential course conflicts based on singletons and doubletons. This report will assist the user in placing courses on the master schedule by periods in Section Assignments to minimize conflicts between courses in the master schedule.

Use the following parameters:

School Name: select school	Term: 2015-2016 A-Track Fall	Scenario: select "Active" scenario
Course Type: select "Singletons" or "Singletons & Doubletons"	Click "View Report"	

School Name: JOHN F KENNEDY SENIOR HIGH Term: 2015-2016 A-Track Fall View Rep

Student Conflict Analysis

This report will assist counselors or the master scheduler in identifying which students don't have enough requests. This report will help the school user make the necessary adjustments to students' schedules so that when the scheduling engine is run, students will have more requests fulfilled. When you click on "Requests" you will have access to the sub-report showing all requests for each student.

Use the following parameters:

Student Requests

This report should be run prior to a scheduling run and may be used by the counselor to review course requests with his/her students. It may be run by groups to review student requests in a batch or it may be run for individual students.

Use the following parameters:

School: select school	School Term: 2015-2016 A-Track Fall
Student: select all students or some	Group: you may select group of students, all students or no students assigned to a group
Click "View Report"	

Student Name: [Redacted]
Student ID: [Redacted]
School Name: UNIVERSITY SENIOR HIGH
Grade: 10
Group: No Group Assigned

Student Request Options

This report may also be used by the counselor to review individual student schedule placements after running the scheduling engine. The user can see patterns of where students are not being placed into sections. The counselor has the option to run this report by groups or by individual students.

Use the following parameters:

Campus: select your school	School: select school(s) of your choice- main school or magnet school(s)
Scenario: select "Active" scenario	Term: (location code of your choice if you have various schools on your campus) 2015-2016 A-Track Fall
Student: select all students or some	Group: you may select group of students, all students or no students assigned to a group
Click "View Report"

Class Enrollment Report

This report may be used after a scheduling run, prior to committing the master schedule, to see the number of students that were placed in courses. The report is broken down by gender and grade level. Because the report is being used as a pre-commit report at this stage, make certain to select "True" under "Use Scheduling Scenario," set "Effective Enrollment Date" as appropriate and select the most active "Term/Scenario" in order to get most up-to-date information. This report may also be run post-commit (see post-commit report section for more details).

Use the following parameters:

School: select school	Use Scheduling Scenario: True (pre-commit)	Effective Enrollment Date: for future year select 8-18-15	Term/Scenario: select appropriate scenario
Grade Level: select grade level(s) of your choice	Teacher Department: select department(s) of your choice	Student Request by Department: select department(s) of your choice	Teacher: select teacher(s) of your choice
Section Type: select section type(s) of your choice	Class period: select period(s) of your choice	Report Type: List or Matrix view	Sort: By Course, By Room or By Teacher

Class Enrollment Report

This report may be used post-commit to see the number of students placed in courses. The report is broken down by gender and grade level. Because the report is being used as a post-commit report at this stage, make certain to select “False” under “Use Scheduling Scenario,” set “Effective Enrollment Date” as of “8-18-15,” and select the “Term/Scenario” as “A-Track Fall” or the most appropriate term for your school in order to get most up-to-date information.

Use the following parameters:

School: select school	Use Scheduling Scenario: False (post-commit)	Effective Enrollment Date: defaults to today's date
Term/Scenario: select appropriate term (as it relates to the date)	Grade Level: select grade level(s) of your choice	Teacher Department: select department(s) of your choice
Student Request by Department: select department(s) of your choice	Teacher: select teacher(s) of your choice	Section Type: select section type(s) of your choice
Class period: select period(s) of your choice	Report Type: List or Matrix view	Sort: By Course, By Room or By Teacher
Show Totals: True or False	Show Capacity Percentages: True or False	Click “View Report”

The screenshot shows the 'Class Enrollment Report' interface for 'BELL SENIOR HIGH - Track D'. The filters are set as follows:

- School:** BELL SENIOR HIGH - Track D
- Effective Enrollment Date:** 8/18/2015
- Grade Level:** 09, 10, 11, 12
- Student Request by Department:** ADMINISTRATIVE, ADMINISTRATIVE
- Class Period:** 1, 2, 3, 4, 5, 6, H
- Sort:** By Course
- Show Capacity Percentages:** False
- Use Scheduling Scenario:** False
- Term/Scenario:** A-Track Fall, A-Track Fall - First
- Teacher Department:** Administration, American Indian,...
- Teacher:** (empty dropdown)
- Report Type:** List
- Show Totals:** False

The data table below shows enrollment for three course sections:

Course Section	Course Name	Sec Type	Teacher	Per	Rm	Stu Count	M Count	F Count	9	10	11	12	Section Capacity	Over Class Capacity	Under Class Capacity
330205.3	ADV COND D-Track Fall			6	GMDS	23	14	9		13	4	6	55	0	32

Repeating Courses (NEW) Grades 9-12

The report may be used at any time during the creating or editing of students' requests/schedules. This report will display students who have existing course requests or enrolled in courses they've passed. Based on the data in this report, the scheduler or counselor may make adjustments to students' requests/schedules. The report may be sorted by Grad Year, Counselor or Course.

Use the following parameters:

Campus: select your school	School: select school(s) of your choice- main school or magnet school(s)
School Term: 2015-2016 A-Track Fall	Grade Level: select the grade level(s) of your choice
Group Category: select All, Counselor, SLC, Others or No Groups Assigned	Groups: select based on the group category
Sort By: select by Course, Grade Level, Grad Year, Counselor, Student Name or School Number	Click "View Report"

Potential Course Deficiency (NEW) Grades 9-12

The report may be used at any time during the creating or editing of students' requests/schedules. This report will display students who have not passed courses and do not have existing course requests or enrolled in courses generated by the report. Based on the data in this report, the scheduler or counselor may make adjustments to students' requests/schedules if there is a potential course deficiency for those listed. The report may be sorted by Grad Year, Counselor or Course.

Use the following parameters:

Campus: select your school	School: select school(s) of your choice- main school or magnet school(s)
School Term: 2015-2016 A-Track Fall	Grade Year: select the grad year of your choice
Grade Level(s): select particular grades or all grades corresponding to the selected grad year	Group Category: select group category of your choice
Groups: depending on group category selected- make the appropriate choices based on the parameters	Department: select department
Sort By: select sort option	Click "View Report"

MiSiS Explorer: Assessment

DIBELS and MPT (math placement test) data is available to assist you in placement of students. DIBELS 2015 data will provide the following information: test score, test performance and test purpose.

Math Placement Test 2015 will provide the following information: Algebra 1 Summative and Grade 6 Math data. The Dynamic Group Filter also gives you the option to download the “MPT Performance Level” based on criteria selected.
