California’s Unclaimed Property Law requires banks, insurance companies, corporations, and other entities to report and submit their customers’ property to the State Controller’s Office when there has been no activity for a period of time. Common types of unclaimed property are bank accounts, stocks, bonds, uncashed checks, insurance benefits, wages, and safe deposit box contents. Property does not include Real Estate.

Your school may have unclaimed property/money at the State that is available to be claimed.
